Pairing Your LMS Account with ALEKS

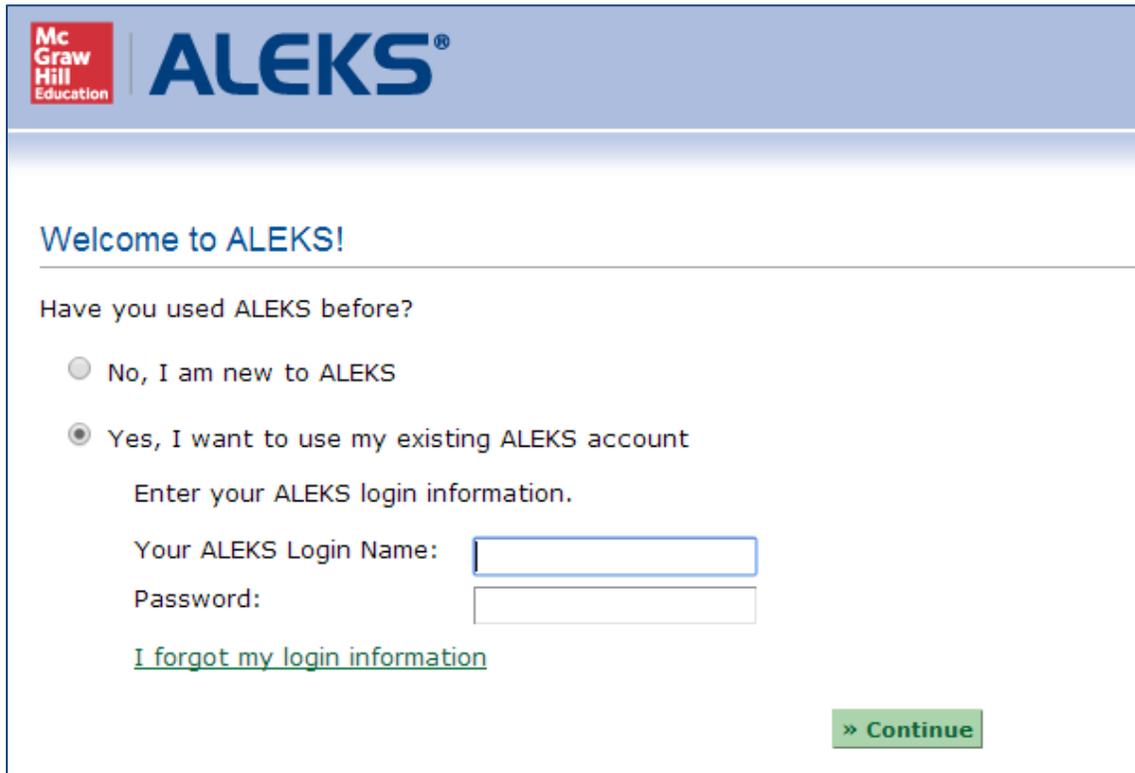

Once your instructor decides to use a McGraw-Hill Education product, you can link your Learning Management System account, such as Canvas or Blackboard, to access either your existing ALEKS account or a new ALEKS account.

Instructions for Students to Pair their LMS Account with ALEKS

First, log into your LMS account. Find your list of courses and then select the course that you wish to access. Next, look for a link to launch ALEKS from your LMS account.

You will then arrive at the following page and will be asked to make a selection from the two options:

- **No, I am new to ALEKS.** Selecting this option will take you through the new user registration flow.
- **Yes, I want to use my existing ALEKS account.** Selecting this option will allow you to login to your existing ALEKS account.
