

ALEKS

Custom Reports

ALEKS administrators and instructors can create custom reports in order to meet advanced reporting needs at various levels. Administrators and instructors can select data from existing ALEKS reports and export the combined data into a single customized Excel report. Additionally, reports can conveniently be scheduled to save time.

NOTE: Data for the Custom Reports feature is available beginning from August 1, 2012.

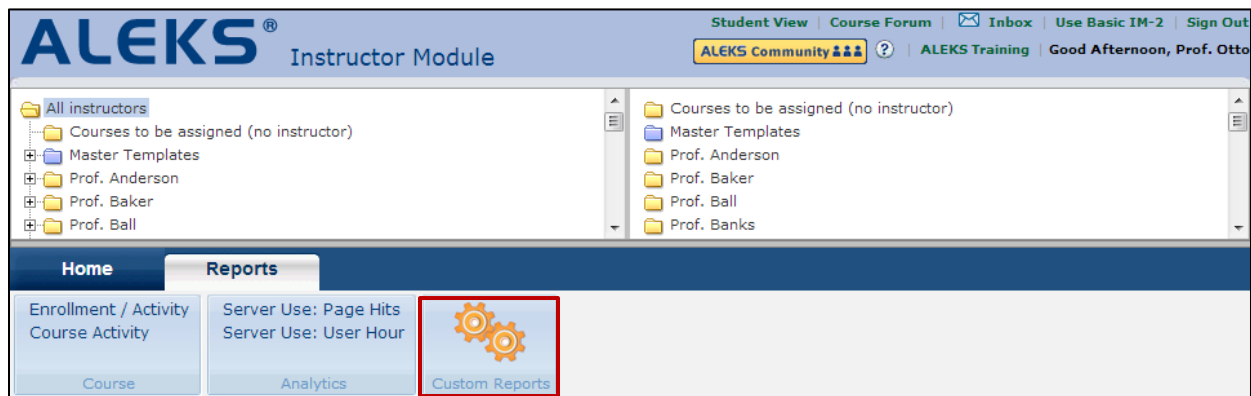

What are the Benefits of Custom Reports?

Among the many values this feature has to offer, below are some of the most important uses:

- Gather important metrics to show how institutions, instructors, and classes are performing.
- Popular existing reports such as the Time and Topic report can be scheduled to run weekly.
- Instructors teaching multiple sections can view the course mastery per student across all sections.
- Instructors can run reports for various overall grades on assignments and objectives.

How to Access the Feature

Multi-Campus and Institution Levels: Only ALEKS Administrators can run a Custom Report at the multi-campus or institution levels, which are only available in the Advanced IM. Administrators first select the campus folder (if they have multiple campuses) or the **All instructors** folder, then the **Reports** tab, and finally, the **Custom Reports** icon. Administrators can then run custom reports with data ranging from the individual student to the multi-campus levels.

Instructor Level (Single Class or Multi-Class): ALEKS instructors can run a Custom Report for multiple classes (Advanced IM only) or a single class. The feature can be accessed after selecting a class, then clicking on the **Reports** tab, and finally, clicking on the **Custom Reports** icon. In the Basic IM, instructors would click on the **Class** link under the icon.

How Custom Reports Work

There are three main steps to creating a custom report:

1. **Create Template** – By first creating a template, administrators and instructors can determine the foundation for their custom report, and then schedule multiple reports to run off the template. Templates can be reused and duplicated to save time.
2. **Review and Save** – In this step, users will confirm and save their custom report parameters.
3. **Schedule Report** – Administrators and instructors can run multiple iterations of their template, modifying the date range and student/class/instructor data to focus on.

When first accessing the feature, administrators and instructors will see the following introduction page:

Custom Reports

What Are Custom Reports?

The Custom Reports feature allows you to tailor a report specific to your reporting needs. You can schedule a one-time report, or automate a report so that it runs daily, weekly, or monthly to ensure that you not only save time, but also receive the most up-to-date information.

How Does It Work?

- Start by creating a template and customize it to include the data fields that are available across the standard ALEKS reports.
- Schedule how often to run the report and select the specific students or classes to retrieve information on.
- After the report is generated, check your ALEKS inbox for your customized Excel report.

[Create New Custom Report Template](#)

Users can begin by clicking on the [Create New Custom Report Template](#) button, or the “+ New Report Template” button on subsequent visits.

[+ New Report Template](#)

Step 1: Create a Template by selecting data from existing ALEKS reports. Available data falls into the following categories that administrators and instructors can choose from:

- Student and Class information
- Assessment Performance
- Pie Mastery
- Gradebook
- Time and Topic

STEP 1. Create Template 1. Create Template | 2. Review and Save | 3. Schedule Report

Basic Information

Name: Enter a name for the custom report template

Type: Instructor report

Excel Report Options

All data in one tab (summary report) ?
 One tab per ALEKS course product (summary report) ?
 One tab per class (comprehensive report) ?

Select Data

Browse through the categories on the left and select the data you want to include in your report. Each selected data field will represent a column in the report. Data fields will appear on the downer listed in the "Report Selections" window.

Click on an option to select how the information will be displayed in the Excel report.

NOTE: The comprehensive report contains additional options under some data categories.

The Report Selections window displays the order that the data will appear in the Excel report. To reorder the data chunks, click on the direction of the arrow until the data chunk is in the desired location.

Click on the data category to expand the section.

Click on the data fields to include in the custom report.

Click to move the data fields into the Report Selections window.

Click to edit the data fields.

Click to remove the data chunk.

Add Data

- Student and Class Information** ?
- Assessment Performance** ?
- Pie Mastery** ?
 - Pie mastery at start of report
 - DETAIL Course Mastery
 - MASTERY
 - Mastery (%)
 - Mastery (number of topics)
 - Total number of topics available
 -
 - Pie mastery at end of report
 - Best performance / pie mastery
- Gradebook** ?
- Time and Topic** ?

Cancel Previous Step Save

Step 3: Schedule when and how often to run the report. For example, reports can be scheduled to run one time or they can be scheduled to run daily, weekly, or monthly.

STEP 3. Schedule Report 1. Edit Template 2. Review and Save **3. Schedule Report**

Report Name

Report Name: Enter a name for the custom report.

Template: Custom Report Summer 2013 Type: Instructor report Excel Report Option: All data in one tab (summary report)

Output Format

Excel 2007 and later (.xlsx)
 Excel 2003 and earlier (.xls) Select an option to run a one time report (default setting) or recurring report. Then, enter the dates for the report.

Scheduling Options

One time report Recurring report

Report Start Date: Month Day Year
 May 31 2013

Report End Date: Month Day Year
 May 31 2013

Maximum date range is 12 months.

Set report date range to 1 Weeks

Class Options

Select Classes NOTE: Options in this section are displayed based on the selected level of the report.

<input type="checkbox"/>	Class Name	Course Product	End Date
<input type="checkbox"/>	Henry MS - Joseffy 3 (3 students)	Beginning Algebra	06/28/2016
<input type="checkbox"/>	Pre-Algebra - Section 1 (28 students)	Pre-Algebra	06/01/2013
<input type="checkbox"/>	Pre-Algebra - Section 2 (11 students)	Pre-Algebra	06/01/2013

Check the boxes next to the classes to include in the report.

Type of Data

Individual student data
 Average for each selected class
 Average for all selected classes

Check the boxes to include averages for the data fields selected.

Cancel Schedule Report

Example of How to Schedule a Recurring Report

After clicking on the **Recurring report** option, administrators and instructors will see the following screen. The **Repeat** drop-down menu will allow administrators and instructors to select how often they want the report to run. For this example, "Weekly" was selected.

Scheduling Options

One time report Recurring report

Repeat: Weekly

Last report: 013

Note: Data for assignments, objectives and scheduled assessments with due dates outside of the date range of each report instance will be excluded.

Cumulative report ?

Once the Repeat selection is chosen, administrators and instructors then select which day of the week the report will run, as well as the last day it will run. The total number of reports will then be calculated.

Repeat: Weekly

Sun Mon Tue Wed Thu Fri Sun

The first report instance will include data from 06/03/2013 ([change date](#)) to 06/09/2013.

Last report: Jul 7 2013

A total of 5 report instances will be scheduled.
The last report instance will include data from 07/01/2013 to 07/07/2013.

Cumulative report ?

After scheduling a report, a confirmation message is displayed. A Custom Report may take up to 30-60 minutes to process depending on its size, and will be sent to the ALEKS Inbox once it is ready.

Your request is being processed. Custom Report Custom Report Summer 2013 will be sent to your ALEKS inbox once it is ready. This process may take up to 30-60 minutes.
