Student Account Home: Initial Setup of Account Home

The new Student Account Home groups all ALEKS Student Accounts for a single student under the same umbrella account. What this means in practice is that students can manage and add more ALEKS classes to their umbrella account rather than create separate accounts for each of their ALEKS classes. The Student Account Home lists all of a student’s current and previous ALEKS classes, and includes options to sign up for new classes, switch classes, suspend classes, extend access to classes, and remove classes from the Account Home.

This feature is available to students in all Higher Ed Math, Business, Science, and Behavioral Science courses.

Initial Student Sign Up

Students click on the “SIGN UP NOW!” link.
Students enter the 10-character class code for their class in the box provided. Students click on the “>> Continue” button.

Students verify the class information and then click on the “>> Continue” button.

Students arrive at the following page and will be asked to make a selection from the following two options:

- **I have never used ALEKS before or I do not have an ALEKS login name.**
  - Selecting this option will take students through the new student registration flow.

- **I have an ALEKS login name.**
  - Selecting this option will allow students to enter an existing ALEKS account.
First Option: I Have Never Used ALEKS Before or I Do Not Have an ALEKS Login Name

The student selects the option “I have never used ALEKS before or I do not have an ALEKS login name” and clicks on the “>> Continue” button.

The student enters a 20-character access code (if the class is access code based.) The student clicks on the “>> Continue” button.
The student enters her personal information and checks the ALEKS User Agreement box.
The student sees a confirmation message with her ALEKS login name. Clicking on the “Continue” button will take the student to her class in ALEKS.

The student can begin working in her ALEKS class.

Second Option: I Have an ALEKS Login Name

- If the student already has an existing ALEKS account, selecting the “I have an ALEKS login name” option will expand the box and allow the student to enter her ALEKS login name and password. Then, the student clicks on the “>> Continue” button.
The student enters a 20-character access code (if the class is access code based). The student clicks on the “>> Continue” button.
When the registration is complete, the student clicks on the “>> Continue” button.
