Step 3 - Registration: If you entered existing ALEKS account information in Step 2 you will bypass Step 3 and arrive at your My Classes page. Otherwise, complete the registration steps to create an ALEKS account and select Continue. A confirmation email will be sent to the email you provided. Be sure to save your new login information!

If you do not have an access code, select No, I need to purchase an access code and select Continue. For purchasing steps, see Appendix A. Step 5 – My Classes: After applying a valid access code to the new class, you will be taken to your My Classes page where the class tile displays in the Active section. Select the tile to begin working in the class, beginning with the ALEKS Tools Tutorial.

2. The lightbulb icon toggles tips on and off.

3. Select Hidden from the Current | Hidden toggle to show classes you have hidden.

4. The Active section displays tiles for classes that you are enrolled in and have valid access for. You can select any tile to navigate to that class and begin working in ALEKS.

5. Select the menu in the top-right corner of a class tile to display available actions for that class. Continue to the next page to learn more about the actions you can take.

Actions for ACTIVE Classes

Any classes that you are currently enrolled in and have purchased access to will appear in the ACTIVE section of your My Classes page. There are two actions you can take with active classes.

**Option 1: Extend access**

Use this option if your ALEKS access code is about to expire or you activated your access using a Financial Aid Access Code and you need more time. You will need a new 20-character access code to extend access to a class. Once you select this option, you will be directed on how to purchase additional access.

**Option 2: Pause Access**

You can pause access to your class if you need to take an extended break (5-week minimum) and complete your work later. Once you pause access, you will be given the reactivation details, including the reactivation date. When you pause access to a class, it will appear in the ON-HOLD list. You can then reactivate access to the class on or after the specified date by selecting the Reactivate Access button.

**NOTE:** Your access code will determine the minimum and maximum suspension time allowed.
Actions for INACTIVE Classes

Once access to your ALEKS class expires or you have un-enrolled from a class, it will appear in the INACTIVE section of your My Classes page. There are several actions you can take with inactive classes.

**Option 1: Reenroll**

Use this option to re-enroll in the inactive class by applying a 20-character access code linked to your profile account or entering a new access code.

**Option 2: Download PDF**

This option allows you to view and download progress made in the class. It will download a PDF and show the most recent ALEKS Progress Report for that class.

**Option 3: Hide class**

This option will hide the inactive class from your My Classes page. You can view your hidden classes by selecting *Hidden* in the Current | Hidden toggle (See page 4, #3).
