

## Saving Student History

This feature allows administrators and instructors to view student data across multiple ALEKS classes. This comprehensive view can be used to easily identify each student's progress history, and to preserve a record of their work after they have been moved to a new ALEKS class. This feature can be found by running a Full progress report for a class, or an individual student pie or progress bar report.

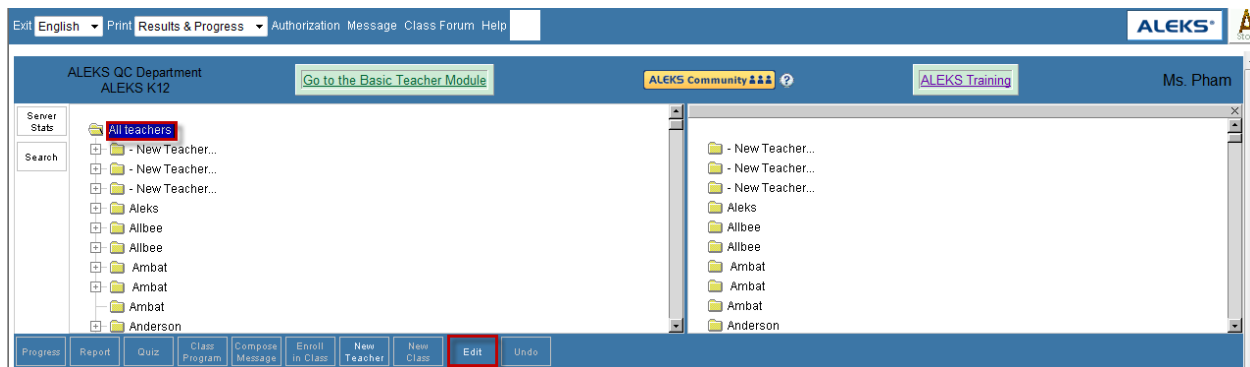

NOTE: This feature will display student performance in previous ALEKS classes from August 1, 2012 through the present day, when applicable (i.e. a student has moved from one ALEKS class to another ALEKS class). Student performance prior to August 1, 2012 may appear as a grey bar.

This feature is available for all K12 classes in the Basic and Advanced Teacher Modules.

This documentation is written from the viewpoint of an administrator, but also applies generally to instructors.

## School Settings – Administrators only

The feature can be enabled by first setting the access level for the school. This is an administrator setting that is only available in the Advanced Teacher Module via the “Edit” link after selecting the “All teachers” folder.

Administrators have two options for the School Settings:

- **Limited Access** - Administrators can see report data for all classes taken by a student. Instructors can only see report data for classes they have taught. NOTE: This setting is selected to show the second example below.
- **Full Access (Default setting)** – Administrators and instructors can see report data for all classes taken by the student. NOTE: This setting is selected to show the first example below.

General **Advanced**

Name:  State / Province:

Cartoon: No  Yes

Class roster with password:  turn on  turn off

Extend Student Accounts Feature:  Enable for All  Enable for School Admin Only

Ability to See Report Data for All Classes Taken by a Student:  Limited Access  Full Access

Public IPs:  (Optional) Enter the IP range or the IP prefix for the computers in your school (eg. mycollege.edu, aleks.com, 216.32.149). This is used to ensure that assignments are taken from your school. If this field is left empty, the location for the assignments will not be checked.

Local IPs:  (Optional) Enter the IP prefix for the local network in your school (eg. for this computer or ... for all the computers with matching IPs). This is used to ensure that assignments are taken from specific computers in your school. (Please check with your system administrator.)

Force assignments taken from your school to be completed on the same computer they were started by checking that the IP as "seen" by ALEKS remains the same throughout the assignment. (This may not apply if your network proxy cycles through different IP's. Please check with your system administrator.)

Time zone:   Current time: 08:58 AM PST

The example below will be shown using the Basic Teacher Module.

**Example 1: Mrs. Summers, an administrator, wishes to view the class progress for a student who has moved into her class.**

Below is an example of a Full progress history report for a student who moved from Math 120/ **Pre-Algebra** into Math 131/**Algebra 1**.

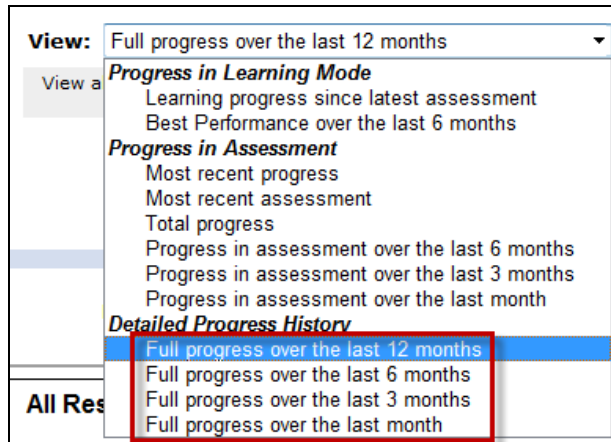

The report can be found after selecting the current class (Math 131/**Algebra 1**) and then, clicking on the "Class" link under "Progress Bar."

The screenshot displays the ALEKS Reporting interface for the class "9th Grade Math 131 / Algebra 1". The left sidebar contains navigation options: Home, Class Admin, Reporting (highlighted with a red box), Taking Actions, ALEKS QuickTables, and Advanced. The main content area shows several progress reports:

- ALEKS Pie:** A circular chart showing "Mastered" and "Ready To Learn" percentages.
- Progress Bar:** A horizontal bar chart showing progress percentages for different topics. The "Class" link is highlighted with a red box.
- Time & Topic:** A clock icon representing time spent on topics.
- Knowledge Per Slice:** A pie chart showing knowledge levels across different slices.
- Assignments:** A document icon with a red checkmark.
- Standards:** A bar chart showing progress against standards.
- QuickTables:** A grid of numbers with a color-coded pattern.

## Class Full Progress History Report

This feature is available for the following four Detailed Progress History reports. For this example, the “Full progress over the last 12 months” will be used as the scenario.

After running the report, Mrs. Summers arrives at the following page. The first tab displays the progress results for all students in her current class (Math 131/Algebra 1).

My Class: 9th Grade Math 131 / Algebra 1 K12 Guest Account  
Class code: XXXXXX-XXXXXX

Clicking on the “All Results” tab displays all students’ current and previous class progress results (if applicable). Mrs. Summers can distinguish progress in her current class from progress in previous classes by the “(Current Class)” label. For example, Ken Black was in Math 120/**Pre-Algebra** taught by Mr. Clark prior to moving into Math 131/**Algebra 1**. Hovering over the “i” icon by a class name opens a pop-up that displays the number of topics in that class and the name of the instructor who taught the class.

The screenshot shows the ALEKS Reporting interface for a class named "Algebra 1". The "All Results" tab is selected, displaying a table of student progress. A student named Ken Black is highlighted, with red arrows pointing to his "Current Class Progress" (Math 131) and "Previous Class Progress" (Pre-Algebra / Math 120). Pop-up boxes show "505 Topics Teacher: Mrs. Summers" for the current class and "302 Topics Teacher: Mr. Clark" for the previous class.

Name	Total time in ALEKS (hrs)	Last login	Last assessment	Basic	Course	Topics	Hours in ALEKS (last 12 months)	Topics mastered per hour since last assessment

Progress Assessment	<a href="#">02/15/2012</a>	 69 +6 %		19	8.3	2.3

### Instructor View with Limited Access

Instructors can only see report data for classes they have taught when the “Limited Access” setting is enabled for the institution. For this example, the “Full progress over the last 12 months” version will be used as the scenario.

### Example 2: Mr. Clark, an instructor, wishes to view the progress for a student who has moved into his class

After running the report for his Math 120/**Pre-Algebra** class, Mr. Clark arrives at the following page. The first tab displays the progress results for all students in his current class.

Reporting Print

Send Message to Selected Students

All	Name (Login/Student Id)	Total time in ALEKS (hrs)	Last login	Last assessment	Reason	Assessment performance		Learning data since last assessment		
						Course Mastery Show: Percent / Topics	grade	Topics learned since last assessment	Hours in ALEKS since last assessment	Topics learned per hour since last assessment
1	Garp, Bill B.	40.5	01/04/2013	12/25/2012	Progress Assessment			22	6.3	3.5
				11/23/2012	Progress Assessment			20	5.1	3.9
				10/15/2012	Progress Assessment			19	4.3	4.4
				09/07/2012	Requested Assessment 2		D	19	3.9	4.9
				08/10/2012	Requested Assessment 1		D	18	3.2	5.6
				08/01/2012	Requested Assessment 1			24	3.7	6.4
				05/29/2012	Progress Assessment			24	3.0	8.1
				05/12/2012	Progress Assessment			24	2.2	10.7
				04/05/2012	Initial Assessment			19	1.3	15.0
				2	Garp, Kai J.	94.0	01/04/2013	12/22/2012	Progress Assessment	

After clicking on the “All Results” tab, Mr. Clark will see students’ current and previous class progress results for only classes taught by him. Mr. Clark can distinguish progress in his current class from progress in previous classes by the “(Current Class)” label. For example, Bill Garp was in Math 119/**Algebra Readiness** (also taught by Mr. Clark) prior to moving into Math 120/**Pre-Algebra**. Hovering over the “i” icon by a class name opens a pop-up that displays the number of topics in that class and the name of the instructor who taught the class.
