 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 mstat102 Choosing a quadratic model and using it to make a prediction
 pcalc546 Identifying polynomial functions
 pcalc764 Finding zeros of a polynomial function written in factored form
 pcalc547 Finding zeros and their multiplicities given a polynomial function written in factored form
 pcalc766 Finding a polynomial of a given degree with given zeros: Real zeros
 pcalc765 Finding x- and y-intercepts given a polynomial function
 pcalc782 Determining the end behavior of the graph of a polynomial function
 pcalc548 Determining end behavior and intercepts to graph a polynomial function
 pcalc783 Matching graphs with polynomial functions
 pcalc738 Inferring properties of a polynomial function from its graph
 pcalc794 Using a graphing calculator to find local extrema of a polynomial function
 pcalc115 Using a graphing calculator to solve a word problem involving a local extremum of a polynomial function
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 pcalc117 Synthetic division
 pcalc786 Using the remainder theorem to evaluate a polynomial
 pcalc787 The Factor Theorem
 pcalc118 Remainder theorem: Advanced
 alge985 Closure properties of integers and polynomials
 pcalc741 Using a given zero to write a polynomial as a product of linear factors: Real zeros
 pcalc758 Finding all possible rational zeros using the rational zeros theorem: Problem type 1
 pcalc759 Finding all possible rational zeros using the rational zeros theorem: Problem type 2
 pcalc788 Descartes' Rule of Signs
 pcalc743 Using the rational zeros theorem to find all zeros of a polynomial: Rational zeros
 pcalc744 Using the rational zeros theorem to find all zeros of a polynomial: Irrational zeros
 pcalc795 Using a graphing calculator to find zeros of a polynomial function
 pcalc704 Using a graphing calculator to solve a word problem involving a polynomial of degree 3
 pcalc785 Multiplying expressions involving complex conjugates
 pcalc767 Finding a polynomial of a given degree with given zeros: Complex zeros
 pcalc742 Using a given zero to write a polynomial as a product of linear factors: Complex zeros
 pcalc745 Using the rational zeros theorem to find all zeros of a polynomial: Complex zeros
 pcalc703 Using the conjugate zeros theorem to find all zeros of a polynomial
 pcalc705 Linear factors theorem and conjugate zeros theorem
 pcalc552 Finding the intercepts, asymptotes, domain, and range from the graph of a rational function
 pcalc917 Finding the asymptotes of a rational function: Constant over linear
 pcalc918 Finding the asymptotes of a rational function: Linear over linear
 pcalc790 Finding horizontal and vertical asymptotes of a rational function: Quadratic numerator or denominator
 pcalc562 Finding the asymptotes of a rational function: Quadratic over linear
 alge515 Graphing a rational function: Constant over linear
 alge516 Graphing a rational function: Linear over linear
 pcalc553 Transforming the graph of a rational function
 pcalc109 Graphing a rational function: Quadratic over linear
 pcalc792 Graphing rational functions with holes
 pcalc791 Matching graphs with rational functions: Two vertical asymptotes
 pcalc557 Graphing a rational function with more than one vertical asymptote
 pcalc706 Writing the equation of a rational function given its graph
 pcalc556 Using a graphing calculator to solve a word problem involving a local extremum of a rational function
 alge784 Solving a quadratic inequality written in factored form

alge771 Solving a quadratic inequality
 pcalc558 Solving a polynomial inequality: Problem type 1
 pcalc560 Solving a polynomial inequality: Problem type 2
 pcalc561 Solving a polynomial inequality: Problem type 3
 pcalc559 Solving a polynomial inequality: Problem type 4
 alge783 Solving a rational inequality: Problem type 1
 pcalc677 Solving a rational inequality: Problem type 2
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation

Exponential and Logarithmic Functions

alge971 Table for an exponential function
 pcalc488 Graphing an exponential function: $f(x)=bx$
 pcalc489 Graphing an exponential function: $f(x) = a(b)^x$
 pcalc567 Graphing an exponential function: $f(x)=b-x$ or $f(x)=-bax$
 pcalc922 Translating the graph of an exponential function
 alge321 Finding domain and range from the graph of an exponential function
 pcalc797 The graph, domain, and range of an exponential function
 pcalc490 Transforming the graph of a natural exponential function
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^x-b + c$
 pcalc491 Using a calculator to evaluate exponential expressions
 alge830 Evaluating an exponential function that models a real-world situation
 pcalc555 Using a calculator to evaluate exponential expressions involving base e
 pcalc919 Evaluating an exponential function with base e that models a real-world situation
 arith853 Introduction to compound interest
 arith910 Calculating and comparing simple interest and compound interest
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 mstat103 Choosing an exponential model and using it to make a prediction
 alge993 Comparing linear, polynomial, and exponential functions
 pcalc492 Using a calculator to evaluate natural and common logarithmic expressions
 pcalc493 Converting between logarithmic and exponential equations
 pcalc494 Converting between natural logarithmic and exponential equations
 pcalc495 Evaluating logarithmic expressions
 alge233 Solving an equation of the form $\log_b a = c$
 pcalc923 Translating the graph of a logarithmic function
 alge788 Graphing a logarithmic function: Basic
 pcalc800 The graph, domain, and range of a logarithmic function
 pcalc801 Domain of a logarithmic function: Advanced
 pcalc104 Graphing a logarithmic function: Advanced
 pcalc708 Basic properties of logarithms
 pcalc511 Using properties of logarithms to evaluate expressions
 pcalc779 Expanding a logarithmic expression: Problem type 1
 pcalc521 Expanding a logarithmic expression: Problem type 2
 pcalc522 Expanding a logarithmic expression: Problem type 3
 alge787 Writing an expression as a single logarithm

pcalc612 Change of base for logarithms: Problem type 1
 pcalc613 Change of base for logarithms: Problem type 2
 pcalc513 Solving a multi-step equation involving a single logarithm: Problem type 1
 pcalc510 Solving a multi-step equation involving a single logarithm: Problem type 2
 pcalc804 Solving a multi-step equation involving natural logarithms
 alge113 Solving an equation involving logarithms on both sides: Problem type 1
 pcalc805 Solving an equation involving logarithms on both sides: Problem type 2
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge482 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic
 pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
 pcalc523 Solving an exponential equation by using logarithms: Decimal answers, advanced
 alge111 Solving an exponential equation by using logarithms: Exact answers in logarithmic form
 pcalc802 Solving an exponential equation by using substitution and quadratic factoring
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc524 Finding the time in a word problem on compound interest
 pcalc508 Finding the time given an exponential function with base e that models a real-world situation
 pcalc525 Finding the final amount in a word problem on continuous compound interest
 pcalc527 Finding the initial amount in a word problem on continuous compound interest
 pcalc526 Finding the final amount in a word problem on continuous exponential growth or decay
 pcalc615 Finding the rate or time in a word problem on continuous exponential growth or decay
 pcalc528 Finding half-life or doubling time
 pcalc529 Writing and evaluating a function modeling continuous exponential growth or decay given doubling time or half-life
 pcalc530 Writing and evaluating a function modeling continuous exponential growth or decay given two outputs

Trigonometric Functions

pcalc001 Converting degrees-minutes-seconds to decimal degrees
 pcalc661 Converting a decimal degree to degrees-minutes-seconds
 pcalc002 Converting between degree and radian measure: Problem type 1
 pcalc621 Converting between degree and radian measure: Problem type 2
 pcalc006 Sketching an angle in standard position
 pcalc622 Coterminal angles
 pcalc005 Arc length and central angle measure
 pcalc623 Area of a sector of a circle
 pcalc624 Angular and linear speed
 pcalc627 Finding coordinates on the unit circle for special angles
 pcalc625 Finding a point on the unit circle given one coordinate
 pcalc629 Trigonometric functions and special angles: Problem type 1
 pcalc628 Finding trigonometric ratios from a point on the unit circle
 pcalc630 Trigonometric functions and special angles: Problem type 2
 pcalc631 Trigonometric functions and special angles: Problem type 3
 pcalc409 Evaluating expressions involving sine and cosine
 pcalc427 Even and odd properties of trigonometric functions
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc408 Using a calculator to approximate cosecant, secant, and cotangent values
 pcalc410 Evaluating a sinusoidal function that models a real-world situation
 geom506 Special right triangles: Exact answers
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom316 Relationship between the sines and cosines of complementary angles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem

pcalc642 Solving a right triangle
 pcalc473 Using trigonometry to find a length in a word problem with two right triangles
 pcalc626 Reference angles: Problem type 1
 pcalc632 Reference angles: Problem type 2
 pcalc671 Determining the location of a terminal point given the signs of trigonometric values
 pcalc011 Finding values of trigonometric functions given information about an angle: Problem type 1
 pcalc012 Finding values of trigonometric functions given information about an angle: Problem type 2
 pcalc013 Finding values of trigonometric functions given information about an angle: Problem type 3
 pcalc426 Finding values of trigonometric functions given information about an angle: Problem type 4
 pcalc445 Sketching the graph of $y = a \sin(x)$ or $y = a \cos(x)$
 pcalc446 Sketching the graph of $y = \sin(bx)$ or $y = \cos(bx)$
 pcalc447 Sketching the graph of $y = \sin(x) + d$ or $y = \cos(x) + d$
 pcalc448 Sketching the graph of $y = \sin(x+c)$ or $y = \cos(x+c)$
 pcalc107 Sketching the graph of $y = a \sin(x+c)$ or $y = a \cos(x+c)$
 pcalc106 Sketching the graph of $y = a \sin(bx)$ or $y = a \cos(bx)$
 pcalc014 Sketching the graph of $y = a \sin(bx+c)$ or $y = a \cos(bx+c)$
 pcalc438 Sketching the graph of $y = a \sin(bx) + d$ or $y = a \cos(bx) + d$
 pcalc633 Amplitude and period of sine and cosine functions
 pcalc634 Amplitude, period, and phase shift of sine and cosine functions
 pcalc635 Writing the equation of a sine or cosine function given its graph: Problem type 1
 pcalc636 Writing the equation of a sine or cosine function given its graph: Problem type 2
 pcalc640 Word problem involving a sine or cosine function: Problem type 1
 pcalc641 Word problem involving a sine or cosine function: Problem type 2
 pcalc474 Sketching a graph of a damped sine or cosine function
 pcalc428 Domains and ranges of trigonometric functions
 pcalc637 Matching graphs and equations for secant, cosecant, tangent, and cotangent functions
 pcalc017 Sketching the graph of a secant or cosecant function: Problem type 1
 pcalc638 Sketching the graph of a secant or cosecant function: Problem type 2
 pcalc105 Sketching the graph of a tangent or cotangent function: Problem type 1
 pcalc015 Sketching the graph of a tangent or cotangent function: Problem type 2
 pcalc016 Values of inverse trigonometric functions
 pcalc018 Composition of a trigonometric function with its inverse trigonometric function: Problem type 1
 pcalc419 Composition of a trigonometric function with its inverse trigonometric function: Problem type 2
 pcalc420 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 1
 pcalc421 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 2
 pcalc036 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 3
 pcalc423 Composition of trigonometric functions with variable expressions as inputs: Problem type 1
 pcalc422 Composition of trigonometric functions with variable expressions as inputs: Problem type 2
 pcalc418 Using a calculator to approximate inverse trigonometric values

Trigonometric Identities and Equations

pcalc648 Simplifying trigonometric expressions
 pcalc666 Using cofunction identities
 pcalc110 Verifying a trigonometric identity
 pcalc034 Proving trigonometric identities: Problem type 1
 pcalc404 Proving trigonometric identities: Problem type 2
 pcalc405 Proving trigonometric identities: Problem type 3
 pcalc429 Proving trigonometric identities: Problem type 4
 pcalc406 Proving trigonometric identities using odd and even properties
 pcalc029 Sum and difference identities: Problem type 1
 pcalc663 Sum and difference identities: Problem type 2
 pcalc664 Sum and difference identities: Problem type 3
 pcalc430 Sum and difference identities: Problem type 4
 pcalc431 Proving trigonometric identities using sum and difference properties: Problem type 1
 pcalc432 Proving trigonometric identities using sum and difference properties: Problem type 2
 pcalc030 Double-angle identities: Problem type 1

pcalc667 Double-angle identities: Problem type 2
 pcalc434 Double-angle identities: Problem type 3
 pcalc437 Power-reducing identities
 pcalc662 Half-angle identities: Problem type 1
 pcalc665 Half-angle identities: Problem type 2
 pcalc124 Product-to-sum and sum-to-product identities: Problem type 1
 pcalc674 Product-to-sum and sum-to-product identities: Problem type 2
 pcalc402 Proving trigonometric identities using double-angle properties
 pcalc436 Proving trigonometric identities using sum-to-product formulas
 pcalc650 Finding solutions in an interval for a basic equation involving sine or cosine
 pcalc651 Finding solutions in an interval for a basic tangent, cotangent, secant, or cosecant equation
 pcalc660 Solving a basic trigonometric equation using a calculator
 pcalc020 Solving a basic trigonometric equation involving sine or cosine
 pcalc021 Solving a basic trigonometric equation involving tangent, cotangent, secant, or cosecant
 pcalc670 Finding solutions in an interval for a trigonometric equation in factored form
 pcalc652 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 1
 pcalc653 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 2
 pcalc654 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 1
 pcalc424 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 2
 pcalc657 Finding solutions in an interval for an equation with sine and cosine using double-angle identities
 pcalc668 Solving a trigonometric equation modeling a real-world situation
 pcalc811 Using a graphing calculator to solve a trigonometric equation
 pcalc127 Using a graphing calculator to solve a trigonometric inequality
 pcalc022 Solving a trigonometric equation involving a squared function: Problem type 1
 pcalc023 Solving a trigonometric equation involving a squared function: Problem type 2
 pcalc024 Solving a trigonometric equation involving more than one function
 pcalc025 Solving a trigonometric equation involving an angle multiplied by a constant
 pcalc655 Finding solutions in an interval for a trigonometric equation with an angle multiplied by a constant
 pcalc656 Finding solutions in an interval for an equation with sine and cosine using sum and difference identities
 pcalc026 Solving a trigonometric equation using sum and difference identities
 pcalc027 Solving a trigonometric equation using double-angle identities
 pcalc028 Solving a trigonometric equation using half-angle identities

Additional Topics in Trigonometry

pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc644 Solving a word problem using the law of sines
 geom320 Proving the law of sines
 pcalc033 Solving a triangle with the law of cosines
 geom409 Proving the law of cosines
 pcalc645 Solving a word problem using the law of cosines
 geom439 Using trigonometry to find the area of a right triangle
 pcalc646 Finding the area of a triangle using trigonometry
 geom319 Expressing the area of a triangle in terms of the sine of one of its angles
 pcalc647 Heron's formula
 vector028 Writing a position vector in $ai+bj$ form given its graph
 vector014 Writing a vector in $ai+bj$ form given its initial and terminal points
 vector013 Writing a vector in component form given its initial and terminal points
 vector015 Magnitude of a vector given in $ai+bj$ form
 pcalc060 Magnitude of a vector given in component form
 vector016 Vector addition and scalar multiplication: $ai+bj$ form
 vector017 Linear combination of vectors: $ai+bj$ form
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 pcalc729 Unit vectors
 pcalc739 Multiplication of a vector by a scalar: Geometric approach
 geom857 Vector addition: Geometric approach

vector007 Vector subtraction: Geometric approach
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph
 vector019 Finding the direction angle of a vector given in $ai+bj$ form
 vector018 Writing a vector given its magnitude and direction angle
 vector020 Writing a vector to represent a force pushing or pulling an object
 vector021 Finding the magnitude and direction angle of the resultant force of two vectors
 vector011 Finding magnitudes of forces related to a sum of three vectors
 vector012 Finding magnitudes of forces related to an object suspended by cables
 vector023 Dot product of vectors given in $ai+bj$ form
 vector009 Dot product of vectors given in component form
 pcalc730 Finding the angle between two vectors given in component form
 vector024 Classifying vector relationships by finding the angle between two vectors given in $ai + bj$ form
 vector010 Using the dot product to find perpendicular vectors
 vector006 Finding the component of a vector along another vector
 vector025 Decomposing a vector into two orthogonal vectors
 vector026 Finding the amount of work done given a force vector and a distance
 vector027 Finding magnitudes of forces related to an object on a ramp
 pcalc449 Plotting points in polar coordinates
 pcalc450 Multiple representations of polar coordinates
 pcalc056 Converting rectangular coordinates to polar coordinates: Special angles
 pcalc451 Converting rectangular coordinates to polar coordinates: Decimal answers
 pcalc057 Converting polar coordinates to rectangular coordinates
 pcalc058 Converting an equation written in rectangular form to one written in polar form
 pcalc452 Converting an equation written in polar form to one written in rectangular form: Problem type 1
 pcalc453 Converting an equation written in polar form to one written in rectangular form: Problem type 2
 pcalc454 Graphing a polar equation: Basic
 pcalc455 Graphing a polar equation: Circle
 pcalc456 Graphing a polar equation: Limacon
 pcalc457 Graphing a polar equation: Rose
 pcalc458 Graphing a polar equation: Lemniscate
 pcalc459 Matching polar equations with their graphs
 pcalc460 Identifying symmetries of graphs given their polar equations
 pcalc461 Plotting complex numbers
 pcalc462 Writing a complex number in standard form given its trigonometric form
 pcalc472 Writing a complex number in trigonometric form: Special angles
 pcalc052 Writing a complex number in trigonometric form: Decimal answers
 pcalc463 Multiplying and dividing complex numbers in trigonometric form
 pcalc464 De Moivre's Theorem: Answers in trigonometric form
 pcalc054 De Moivre's theorem: Answers in standard form
 pcalc807 Finding the n th roots of a number: Problem type 1
 pcalc808 Finding the n th roots of a number: Problem type 2

Systems of Equations and Matrices

alge075 Classifying systems of linear equations from graphs
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2×2 system of linear equations that is inconsistent or consistent dependent
 alge077 Creating an inconsistent system of linear equations
 alge988 Identifying the operations used to create equivalent systems of equations
 pcalc099 Consistency and independence of a system of linear equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations

pcalc496 Introduction to solving a 3x3 system of linear equations
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 pcalc497 Solving a 3x3 system of linear equations: Problem type 2
 pcalc498 Solving a 3x3 system of linear equations that is inconsistent or consistent dependent
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 pcalc549 Solving a word problem using a 3x3 system of linear equations: Problem type 2
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc507 Squaring and multiplying 2x2 matrices
 pcalc039 Multiplication of matrices: Basic
 pcalc710 Multiplication of matrices: Advanced
 pcalc503 Word problem involving multiplication of matrices
 pcalc504 Finding the inverse of a 2x2 matrix
 pcalc505 Finding the inverse of a 3x3 matrix
 pcalc042 Finding the determinant of a 2x2 matrix
 pcalc043 Finding the determinant of a 3x3 matrix
 pcalc564 Completing Gauss-Jordan elimination with a 2x2 matrix
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix
 pcalc500 Writing solutions to 3x3 systems of linear equations from augmented matrices
 pcalc499 Completing Gauss-Jordan elimination with a 3x3 matrix
 pcalc046 Solving a system of linear equations given its augmented matrix
 pcalc502 Finding the inverse of a matrix to solve a 2x2 system of linear equations
 pcalc711 Using the inverse of a matrix to solve a 3x3 system of linear equations
 pcalc045 Using Cramer's rule to solve a 2x2 system of linear equations
 pcalc047 Using Cramer's rule to solve a 3x3 system of linear equations
 pcalc531 Introduction to partial fraction decomposition with distinct linear factors
 pcalc812 Partial fraction decomposition with distinct linear factors
 pcalc813 Partial fraction decomposition with repeated linear factors
 pcalc814 Partial fraction decomposition with an irreducible quadratic factor
 pcalc533 Partial fraction decomposition with repeated, irreducible quadratic factors
 alge994 Graphically solving a system of linear and quadratic equations
 pcalc716 Using a graphing calculator to solve a system of linear and quadratic equations: Basic
 pcalc796 Using a graphing calculator to solve a system of equations
 pcalc806 Using a graphing calculator to solve an exponential or logarithmic equation
 alge995 Solving a system of linear and quadratic equations
 pcalc098 Solving a system of nonlinear equations: Problem type 1
 pcalc534 Solving a system of nonlinear equations: Problem type 2
 pcalc535 Solving a word problem involving geometry using a system of nonlinear equations
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge315 Writing an inequality given its graph in the plane: Horizontal or vertical boundary line
 alge316 Writing an inequality given its graph in the plane: Slanted boundary line
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 pcalc536 Graphing an inequality involving a circle
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc096 Graphing a system of nonlinear inequalities: Problem type 1
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc537 Solving a word problem using a system of linear inequalities: Problem type 2
 pcalc095 Linear programming
 pcalc094 Solving a word problem using linear programming

Conic Sections

pcalc566 Graphing a parabola of the form $y^2 = ax$ or $x^2 = ay$

pcalc575 Graphing a parabola of the form $x=a(y-k)^2+h$ or $y=a(x-h)^2+k$
 pcalc067 Graphing a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 pcalc068 Writing an equation of a parabola given the vertex and the focus
 pcalc475 Writing an equation of a parabola given the focus and the directrix
 geom494 Deriving the equation of a parabola given its focus and directrix
 pcalc476 Finding the vertex, focus, directrix, and axis of symmetry of a parabola
 pcalc069 Finding the focus of a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 pcalc477 Writing an equation of a parabola given its graph
 pcalc478 Word problem involving a parabola
 pcalc734 Graphing an ellipse given its equation in standard form
 pcalc070 Graphing an ellipse centered at the origin: $Ax^2 + By^2 = C$
 pcalc071 Graphing an ellipse given its equation in general form
 pcalc479 Finding the center, vertices, and foci of an ellipse
 pcalc072 Finding the foci of an ellipse given its equation in general form
 pcalc074 Writing an equation of an ellipse given the center, an endpoint of an axis, and the length of the other axis
 pcalc073 Writing an equation of an ellipse given the foci and the major axis length
 pcalc097 Graphing a system of nonlinear inequalities: Problem type 2
 pcalc480 Word problem involving an ellipse
 pcalc735 Graphing a hyperbola given its equation in standard form
 pcalc075 Graphing a hyperbola centered at the origin: $Ax^2 - By^2 - C = 0$
 pcalc076 Graphing a hyperbola given its equation in general form
 pcalc481 Finding the center, vertices, foci, and asymptotes of a hyperbola
 pcalc077 Finding the foci of a hyperbola given its equation in general form
 pcalc078 Writing an equation of a hyperbola given the foci and the vertices
 pcalc482 Writing an equation of a hyperbola given the foci and the asymptotes: Basic
 pcalc079 Writing an equation of a hyperbola given the foci and the asymptotes: Advanced
 pcalc736 Classifying conics given their equations
 pcalc538 Completing a table and choosing a graph given a pair of parametric equations
 pcalc539 Writing the equation of a line and sketching its graph given its parametric equations
 pcalc540 Writing the equation of a parabola and sketching its graph given its parametric equations
 pcalc541 Writing the equation of a circle or ellipse and sketching its graph given its parametric equations
 pcalc542 Graphing a pair of parametric equations with a restricted domain: Line or parabola
 pcalc563 Graphing a pair of parametric equations with a restricted domain: Circle
 pcalc565 Graphing a pair of parametric equations with a restricted domain: Ellipse
 pcalc544 Completing pairs of parametric equations
 pcalc545 Word problem involving parametric equations for projectile motion: Problem type 1
 pcalc576 Word problem involving parametric equations for projectile motion: Problem type 2

Sequences, Series, and Probability

alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc715 Finding a specified term of an arithmetic sequence given two terms of the sequence
 alge909 Writing an explicit rule for an arithmetic sequence
 alge910 Writing a recursive rule for an arithmetic sequence
 pcalc718 Sum of the first n terms of an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc717 Finding a specified term of a geometric sequence given two terms of the sequence
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule

alge911 Writing recursive rules for arithmetic and geometric sequences

 arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 alge605 Factoring a linear binomial
 alge736 Introduction to the GCF of two monomials
 alge930 Greatest common factor of three univariate monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method

alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
alge937 Factoring a quadratic with a negative leading coefficient
alge944 Factoring a perfect square trinomial with leading coefficient 1
alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
alge946 Factoring a perfect square trinomial in two variables
alge290 Factoring a difference of squares in one variable: Basic
alge947 Factoring a difference of squares in one variable: Advanced
alge839 Factoring a difference of squares in two variables
alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
alge041 Factoring a product of a quadratic trinomial and a monomial
alge042 Factoring with repeated use of the difference of squares formula
alge044 Factoring a sum or difference of two cubes
pcalc577 Factoring out binomials from a polynomial: GCF factoring, advanced
pcalc578 Using substitution to factor polynomials
alge049 Restriction on a variable in a denominator: Linear
alge454 Simplifying a ratio of factored polynomials: Linear factors
alge455 Simplifying a ratio of factored polynomials: Factors with exponents
alge456 Simplifying a ratio of polynomials using GCF factoring
alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
alge710 Simplifying a ratio of polynomials: Problem type 1
alge682 Simplifying a ratio of polynomials: Problem type 2
alge459 Simplifying a ratio of polynomials: Problem type 3
alge034 Simplifying a ratio of multivariate polynomials
alge053 Multiplying rational expressions involving multivariate monomials
alge460 Multiplying rational expressions made up of linear expressions
alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
alge462 Multiplying rational expressions involving multivariate quadratics
alge054 Dividing rational expressions involving multivariate monomials
alge463 Dividing rational expressions involving linear expressions
alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
alge465 Dividing rational expressions involving multivariate quadratics
alge466 Multiplication and division of 3 rational expressions
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
alge428 Finding the LCD of rational expressions with linear denominators: Common factors
alge429 Finding the LCD of rational expressions with quadratic denominators
alge430 Writing equivalent rational expressions with monomial denominators
alge431 Writing equivalent rational expressions with polynomial denominators
alge304 Writing equivalent rational expressions involving opposite factors
alge432 Introduction to adding fractions with variables and common denominators
alge433 Adding rational expressions with common denominators and monomial numerators
alge056 Adding rational expressions with common denominators and binomial numerators
alge434 Adding rational expressions with common denominators and GCF factoring
alge435 Adding rational expressions with common denominators and quadratic factoring
alge436 Adding rational expressions with different denominators and a single occurrence of a variable
alge437 Adding rational expressions with denominators ax and bx : Basic
alge438 Adding rational expressions with denominators ax and bx : Advanced
alge439 Adding rational expressions with denominators axn and bxm
alge440 Adding rational expressions with multivariate monomial denominators: Basic
alge226 Adding rational expressions with multivariate monomial denominators: Advanced
alge441 Adding rational expressions with linear denominators without common factors: Basic
alge442 Adding rational expressions with linear denominators without common factors: Advanced
alge443 Adding rational expressions with linear denominators with common factors: Basic
alge444 Adding rational expressions with linear denominators with common factors: Advanced
alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$

alge661 Adding rational expressions involving different quadratic denominators
alge446 Adding 3 rational expressions with different quadratic denominators
arith695 Complex fraction without variables: Problem type 1
arith696 Complex fraction without variables: Problem type 2
alge470 Complex fraction involving univariate monomials
alge058 Complex fraction involving multivariate monomials
alge471 Complex fraction: GCF factoring
alge472 Complex fraction: Quadratic factoring
alge473 Complex fraction made of sums involving rational expressions: Problem type 1
alge474 Complex fraction made of sums involving rational expressions: Problem type 2
alge475 Complex fraction made of sums involving rational expressions: Problem type 3
alge476 Complex fraction made of sums involving rational expressions: Problem type 4
alge477 Complex fraction made of sums involving rational expressions: Problem type 5
alge478 Complex fraction made of sums involving rational expressions: Problem type 6
alge479 Complex fraction made of sums involving rational expressions: Multivariate
alge480 Complex fraction with negative exponents: Problem type 1
alge481 Complex fraction with negative exponents: Problem type 2
alge162 Complex fraction that contains a complex fraction
alge413 Finding all square roots of a number
arith601 Square root of a rational perfect square
arith760 Square roots of perfect squares with signs
arith761 Square roots of integers raised to even exponents
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial
alge603 Introduction to solving an absolute value equation
alge537 Using absolute value to simplify square roots of perfect square monomials
arith094 Cube root of an integer
alge549 Finding nth roots of perfect nth powers with signs
arith768 Finding the nth root of a perfect nth power fraction
alge550 Finding the nth root of a perfect nth power monomial
alge538 Using absolute value to simplify higher radical expressions
alge812 Converting between radical form and exponent form
alge560 Rational exponents: Unit fraction exponents and whole number bases
alge561 Rational exponents: Unit fraction exponents and bases involving signs
alge250 Rational exponents: Non-unit fraction exponent with a whole number base
alge251 Rational exponents: Negative exponents and fractional bases
alge558 Rational exponents: Product rule
alge559 Rational exponents: Quotient rule
alge773 Rational exponents: Products and quotients with negative exponents
alge562 Rational exponents: Power of a power rule
alge249 Rational exponents: Powers of powers with negative exponents
arith093 Simplifying the square root of a whole number less than 100
arith762 Simplifying the square root of a whole number greater than 100
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
alge275 Simplifying a radical expression with two variables
alge273 Simplifying a higher root of a whole number
alge551 Introduction to simplifying a higher radical expression
alge552 Simplifying a higher radical expression: Univariate
alge811 Simplifying a higher radical expression: Multivariate
arith767 Introduction to square root addition or subtraction
arith032 Square root addition or subtraction
alge533 Square root addition or subtraction with three terms
alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
alge532 Simplifying a sum or difference of radical expressions: Univariate
alge084 Simplifying a sum or difference of radical expressions: Multivariate
alge554 Simplifying a sum or difference of higher roots
alge555 Simplifying a sum or difference of higher radical expressions
arith764 Introduction to square root multiplication
arith765 Square root multiplication: Basic
arith039 Square root multiplication: Advanced

alge522 Introduction to simplifying a product of radical expressions: Univariate
 alge523 Simplifying a product of radical expressions: Univariate
 alge640 Simplifying a product of radical expressions: Multivariate
 alge082 Simplifying a product of radical expressions: Multivariate, fractional expressions
 alge556 Introduction to simplifying a product of higher roots
 alge557 Simplifying a product of higher radical expressions
 alge525 Introduction to simplifying a product involving square roots using the distributive property
 alge526 Simplifying a product involving square roots using the distributive property: Basic
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge984 Classifying sums and products as rational or irrational
 arith766 Simplifying a quotient of square roots
 alge530 Simplifying a quotient involving a sum or difference with a square root
 alge527 Rationalizing a denominator: Quotient involving square roots
 alge528 Rationalizing a denominator: Square root of a fraction
 alge529 Rationalizing a denominator: Quotient involving a monomial
 alge534 Rationalizing a denominator using conjugates: Integer numerator
 alge535 Rationalizing a denominator using conjugates: Square root in numerator
 alge536 Rationalizing a denominator using conjugates: Variable in denominator
 alge564 Rationalizing a denominator: Quotient involving a higher radical
 alge775 Rationalizing a denominator: Quotient involving higher radicals and monomials
 alge563 Simplifying products or quotients of higher radicals with different indices: Univariate
 alge776 Simplifying products or quotients of higher radicals with different indices: Multivariate

alge450 Solving a distance, rate, time problem using a rational equation
alge059 Ordering fractions with variables
alge778 Using i to rewrite square roots of negative numbers
alge779 Simplifying a product and quotient involving square roots of negative numbers
pcalc048 Adding or subtracting complex numbers
pcalc049 Multiplying complex numbers
pcalc050 Dividing complex numbers
pcalc053 Simplifying a power of i
alge681 Solving an equation written in factored form
alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
alge045 Finding the roots of a quadratic equation with leading coefficient 1
alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
alge211 Solving a quadratic equation needing simplification
alge046 Roots of a product of polynomials
alge163 Writing a quadratic equation given the roots and the leading coefficient
alge703 Solving a word problem using a quadratic equation with rational roots
alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
alge962 Solving an equation of the form $x^2 = a$ using the square root property
alge092 Solving a quadratic equation using the square root property: Exact answers, basic
alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
alge094 Completing the square
alge780 Solving a quadratic equation by completing the square: Exact answers
alge095 Applying the quadratic formula: Exact answers

alge963 Applying the quadratic formula: Decimal answers
 pcalc051 Solving a quadratic equation with complex roots
 alge214 Discriminant of a quadratic equation
 alge193 Discriminant of a quadratic equation with parameter
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge093 Solving an equation using the odd-root property: Problem type 1
 alge228 Solving an equation using the odd-root property: Problem type 2
 alge467 Restriction on a variable in a denominator: Quadratic
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
 alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
 alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
 alge411 Solving a radical equation with a quadratic expression under the radical
 alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 alge412 Algebraic symbol manipulation with radicals
 alge542 Word problem involving radical equations: Basic
 alge409 Word problem involving radical equations: Advanced
 alge410 Solving an equation with a root index greater than 2: Problem type 1
 alge417 Solving an equation with a root index greater than 2: Problem type 2
 alge416 Solving an equation with exponent $1/a$: Problem type 1
 alge418 Solving an equation with exponent $1/a$: Problem type 2
 alge230 Solving an equation with positive rational exponent
 alge231 Solving an equation with negative rational exponent
 alge781 Solving an equation that can be written in quadratic form: Problem type 1
 alge782 Solving an equation that can be written in quadratic form: Problem type 2

Graphs and Functions

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 geom437 Finding the area of a triangle or parallelogram in the coordinate plane
 alge850 Table for a linear equation
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 geom323 Identifying scalene, isosceles, and equilateral triangles given coordinates of their vertices
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts

alge881 Graphing a line by first finding its x- and y-intercepts
pcalc750 Finding intercepts of a nonlinear function given its graph
pcalc678 Finding x- and y-intercepts of the graph of a nonlinear equation
alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
alge954 Graphing a parabola of the form $y = ax^2$
alge955 Graphing a parabola of the form $y = ax^2 + c$
alge262 Graphing a cubic function of the form $y = ax^3$
pcalc416 Determining if graphs have symmetry with respect to the x-axis, y-axis, or origin
pcalc679 Testing an equation for symmetry about the axes and origin
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y-intercept
alge196 Graphing a line through a given point with a given slope
alge876 Identifying linear equations: Advanced
alge874 Identifying linear functions given ordered pairs
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y-intercept
alge258 Writing an equation of a line given its slope and y-intercept
alge892 Writing an equation and graphing a line given its slope and y-intercept
alge314 Finding the slope, y-intercept, and equation for a linear function given a table of values
alge893 Writing an equation in slope-intercept form given the slope and a point
alge318 Finding the slope and a point on a line given its equation in point-slope form
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge313 Writing an equation in standard form given the slope and a point
alge070 Writing an equation of a line given the y-intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
alge322 Comparing linear functions to the parent function $y = x$
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
geom462 Identifying parallel and perpendicular lines from coordinates
geom322 Identifying coordinates that give right triangles
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge654 Graphing ordered pairs and writing an equation from a table of values in context
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge817 Finding the initial amount and rate of change given a table for a linear function
alge818 Finding the initial amount and rate of change given a graph of a linear function
alge992 Combining functions to write a new function that models a real-world situation
alge987 Comparing properties of linear functions given in different forms
alge989 Interpreting the parameters of a linear function that models a real-world situation
alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
alge806 Application problem with a linear function: Finding a coordinate given two points
alge991 Solving a linear equation by graphing
mstat094 Constructing a scatter plot
mstat030 Sketching the line of best fit
mstat023 Scatter plots and correlation
mstat068 Predictions from the line of best fit
mstat067 Approximating the equation of a line of best fit and making predictions
mstat069 Computing residuals
mstat070 Interpreting residual plots
mstat093 Classifying linear and nonlinear relationships from scatter plots
mstat071 Linear relationship and the correlation coefficient
mstat096 Identifying outliers and clustering in scatter plots
mstat095 Finding outliers in a data set

alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 pcalc820 Using a graphing calculator to solve a system of linear equations: Basic
 pcalc821 Using a graphing calculator to solve a system of linear equations: Advanced
 alge317 Writing a system of linear equations given its graph
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 geom496 Identifying the center and radius to graph a circle given its equation in standard form
 geom497 Identifying the center and radius to graph a circle given its equation in general form: Basic
 geom668 Identifying the center and radius to graph a circle given its equation in general form: Advanced
 geom499 Writing the equation of a circle centered at the origin given its radius or a point on the circle
 geom495 Writing an equation of a circle and identifying points that lie on the circle
 geom498 Writing an equation of a circle given its center and radius or diameter
 geom493 Deriving the equation of a circle using the Pythagorean Theorem
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 alge539 Table for a square root function
 alge546 Evaluating a cube root function
 pcalc682 Evaluating functions: Absolute value, rational, radical
 fun030 Evaluating a piecewise-defined function
 fun033 Variable expressions as inputs of functions: Problem type 1
 pcalc571 Variable expressions as inputs of functions: Problem type 2
 pcalc411 Variable expressions as inputs of functions: Problem type 3
 fun016 Domain and range from ordered pairs
 alge715 Domain of a rational function: Excluded values
 pcalc412 Domain of a rational function: Interval notation
 alge540 Domain of a square root function: Basic
 pcalc763 Domain of a square root function: Advanced
 alge547 Domains of higher root functions
 pcalc754 Finding the domain of a fractional function involving radicals
 pcalc924 Determining whether an equation defines a function: Basic
 pcalc757 Determining whether an equation defines a function: Advanced
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 pcalc471 Rewriting a multivariate function as a univariate function given a relationship between its variables
 pcalc753 Finding a difference quotient for a linear or quadratic function
 pcalc414 Finding a difference quotient for a rational function
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge312 Finding domain and range from a linear graph in context
 fun024 Domain and range from the graph of a continuous function
 fun025 Domain and range from the graph of a piecewise function
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 pcalc439 Finding the absolute maximum and minimum of a function given the graph
 pcalc417 Finding values and intervals where the graph of a function is zero, positive, or negative
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope

alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge543 Graphing a square root function: Problem type 1
 alge544 Graphing a square root function: Problem type 2
 alge545 Graphing a square root function: Problem type 3
 alge548 Graphing a cube root function
 pcalc443 Matching parent graphs with their equations
 fun031 Graphing a piecewise-defined function: Problem type 1
 pcalc444 Graphing a piecewise-defined function: Problem type 2
 pcalc568 Graphing a piecewise-defined function: Problem type 3
 pcalc114 Even and odd functions: Problem type 1
 pcalc440 Even and odd functions: Problem type 2
 pcalc768 Finding the average rate of change of a function
 alge998 Finding the average rate of change of a function given its graph
 pcalc442 Word problem involving average rate of change
 pcalc441 Writing the equation of a secant line
 pcalc467 Translating the graph of a parabola: One step
 pcalc465 Translating the graph of a parabola: Two steps
 alge723 How the leading coefficient affects the shape of a parabola
 pcalc468 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge185 Writing an equation for a function after a vertical translation
 pcalc469 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc569 Transforming the graph of a function by reflecting over an axis
 pcalc470 Transforming the graph of a function by shrinking or stretching
 pcalc570 Transforming the graph of a function using more than one transformation
 pcalc466 Transforming the graph of a quadratic, cubic, square root, or absolute value function
 fun020 Writing an equation for a function after a vertical and horizontal translation
 fun019 Sum, difference, and product of two functions
 alge786 Quotient of two functions: Basic
 pcalc413 Quotient of two functions: Advanced
 pcalc756 Combining functions: Advanced
 alge716 Introduction to the composition of two functions
 fun022 Composition of two functions: Basic
 pcalc484 Composition of a function with itself
 pcalc776 Expressing a function as a composition of two functions
 fun021 Composition of two functions: Domain and range
 alge129 Composition of two functions: Advanced
 pcalc483 Composition of two rational functions
 pcalc485 Word problem involving composition of two functions
 fun011 Horizontal line test
 pcalc777 Determining whether two functions are inverses of each other
 fun012 Inverse functions: Linear, discrete
 pcalc573 Inverse functions: Quadratic, square root
 pcalc572 Inverse functions: Cubic, cube root
 alge130 Inverse functions: Rational
 pcalc486 Graphing the inverse of a function given its graph
 pcalc487 Finding, evaluating, and interpreting an inverse function for a given linear relationship

Polynomial and Rational Functions

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc574 Graphing a parabola of the form $y = a(x-h)^2 + k$

pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge323 Finding the zeros of a quadratic function given its equation
 pcalc714 Using a graphing calculator to find the zeros of a quadratic function
 alge320 Writing a quadratic function given its zeros
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
 alge319 Rewriting a quadratic function in standard form
 pcalc550 Rewriting a quadratic function to find its vertex and sketch its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 pcalc551 Word problem involving optimizing area by using a quadratic function
 pcalc415 Domain and range from the graph of a quadratic function
 pcalc762 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 mstat102 Choosing a quadratic model and using it to make a prediction
 pcalc546 Identifying polynomial functions
 pcalc764 Finding zeros of a polynomial function written in factored form
 pcalc547 Finding zeros and their multiplicities given a polynomial function written in factored form
 pcalc766 Finding a polynomial of a given degree with given zeros: Real zeros
 pcalc765 Finding x- and y-intercepts given a polynomial function
 pcalc782 Determining the end behavior of the graph of a polynomial function
 pcalc548 Determining end behavior and intercepts to graph a polynomial function
 pcalc783 Matching graphs with polynomial functions
 pcalc738 Inferring properties of a polynomial function from its graph
 pcalc794 Using a graphing calculator to find local extrema of a polynomial function
 pcalc115 Using a graphing calculator to solve a word problem involving a local extremum of a polynomial function
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 pcalc117 Synthetic division
 pcalc786 Using the remainder theorem to evaluate a polynomial
 pcalc787 The Factor Theorem
 pcalc118 Remainder theorem: Advanced
 alge985 Closure properties of integers and polynomials
 pcalc741 Using a given zero to write a polynomial as a product of linear factors: Real zeros
 pcalc758 Finding all possible rational zeros using the rational zeros theorem: Problem type 1
 pcalc759 Finding all possible rational zeros using the rational zeros theorem: Problem type 2
 pcalc788 Descartes' Rule of Signs
 pcalc743 Using the rational zeros theorem to find all zeros of a polynomial: Rational zeros
 pcalc744 Using the rational zeros theorem to find all zeros of a polynomial: Irrational zeros
 pcalc795 Using a graphing calculator to find zeros of a polynomial function
 pcalc704 Using a graphing calculator to solve a word problem involving a polynomial of degree 3
 pcalc785 Multiplying expressions involving complex conjugates
 pcalc767 Finding a polynomial of a given degree with given zeros: Complex zeros
 pcalc742 Using a given zero to write a polynomial as a product of linear factors: Complex zeros
 pcalc745 Using the rational zeros theorem to find all zeros of a polynomial: Complex zeros
 pcalc703 Using the conjugate zeros theorem to find all zeros of a polynomial
 pcalc705 Linear factors theorem and conjugate zeros theorem
 pcalc552 Finding the intercepts, asymptotes, domain, and range from the graph of a rational function
 pcalc917 Finding the asymptotes of a rational function: Constant over linear
 pcalc918 Finding the asymptotes of a rational function: Linear over linear
 pcalc790 Finding horizontal and vertical asymptotes of a rational function: Quadratic numerator or denominator
 pcalc562 Finding the asymptotes of a rational function: Quadratic over linear
 alge515 Graphing a rational function: Constant over linear
 alge516 Graphing a rational function: Linear over linear

pcalc553 Transforming the graph of a rational function
 pcalc109 Graphing a rational function: Quadratic over linear
 pcalc792 Graphing rational functions with holes
 pcalc791 Matching graphs with rational functions: Two vertical asymptotes
 pcalc557 Graphing a rational function with more than one vertical asymptote
 pcalc706 Writing the equation of a rational function given its graph
 pcalc556 Using a graphing calculator to solve a word problem involving a local extremum of a rational function
 alge784 Solving a quadratic inequality written in factored form
 alge771 Solving a quadratic inequality
 pcalc558 Solving a polynomial inequality: Problem type 1
 pcalc560 Solving a polynomial inequality: Problem type 2
 pcalc561 Solving a polynomial inequality: Problem type 3
 pcalc559 Solving a polynomial inequality: Problem type 4
 alge783 Solving a rational inequality: Problem type 1
 pcalc677 Solving a rational inequality: Problem type 2
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation

Exponential and Logarithmic Functions

alge971 Table for an exponential function
 pcalc488 Graphing an exponential function: $f(x)=bx$
 pcalc489 Graphing an exponential function: $f(x) = a(b)x$
 pcalc567 Graphing an exponential function: $f(x)=b-x$ or $f(x)=-bax$
 pcalc922 Translating the graph of an exponential function
 alge321 Finding domain and range from the graph of an exponential function
 pcalc797 The graph, domain, and range of an exponential function
 pcalc490 Transforming the graph of a natural exponential function
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)x-b + c$
 pcalc491 Using a calculator to evaluate exponential expressions
 alge830 Evaluating an exponential function that models a real-world situation
 pcalc555 Using a calculator to evaluate exponential expressions involving base e
 pcalc919 Evaluating an exponential function with base e that models a real-world situation
 arith853 Introduction to compound interest
 arith910 Calculating and comparing simple interest and compound interest
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 mstat103 Choosing an exponential model and using it to make a prediction
 alge993 Comparing linear, polynomial, and exponential functions
 pcalc492 Using a calculator to evaluate natural and common logarithmic expressions
 pcalc493 Converting between logarithmic and exponential equations
 pcalc494 Converting between natural logarithmic and exponential equations
 pcalc495 Evaluating logarithmic expressions
 alge233 Solving an equation of the form $\log_b a = c$
 pcalc923 Translating the graph of a logarithmic function
 alge788 Graphing a logarithmic function: Basic
 pcalc800 The graph, domain, and range of a logarithmic function

pcalc801 Domain of a logarithmic function: Advanced
 pcalc104 Graphing a logarithmic function: Advanced
 pcalc708 Basic properties of logarithms
 pcalc511 Using properties of logarithms to evaluate expressions
 pcalc779 Expanding a logarithmic expression: Problem type 1
 pcalc521 Expanding a logarithmic expression: Problem type 2
 pcalc522 Expanding a logarithmic expression: Problem type 3
 alge787 Writing an expression as a single logarithm
 pcalc612 Change of base for logarithms: Problem type 1
 pcalc613 Change of base for logarithms: Problem type 2
 pcalc513 Solving a multi-step equation involving a single logarithm: Problem type 1
 pcalc510 Solving a multi-step equation involving a single logarithm: Problem type 2
 pcalc804 Solving a multi-step equation involving natural logarithms
 alge113 Solving an equation involving logarithms on both sides: Problem type 1
 pcalc805 Solving an equation involving logarithms on both sides: Problem type 2
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge482 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic
 pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
 pcalc523 Solving an exponential equation by using logarithms: Decimal answers, advanced
 alge111 Solving an exponential equation by using logarithms: Exact answers in logarithmic form
 pcalc802 Solving an exponential equation by using substitution and quadratic factoring
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc524 Finding the time in a word problem on compound interest
 pcalc508 Finding the time given an exponential function with base e that models a real-world situation
 pcalc525 Finding the final amount in a word problem on continuous compound interest
 pcalc527 Finding the initial amount in a word problem on continuous compound interest
 pcalc526 Finding the final amount in a word problem on continuous exponential growth or decay
 pcalc615 Finding the rate or time in a word problem on continuous exponential growth or decay
 pcalc528 Finding half-life or doubling time
 pcalc529 Writing and evaluating a function modeling continuous exponential growth or decay given doubling time or half-life
 pcalc530 Writing and evaluating a function modeling continuous exponential growth or decay given two outputs

Trigonometric Functions

pcalc001 Converting degrees-minutes-seconds to decimal degrees
 pcalc661 Converting a decimal degree to degrees-minutes-seconds
 pcalc002 Converting between degree and radian measure: Problem type 1
 pcalc621 Converting between degree and radian measure: Problem type 2
 pcalc006 Sketching an angle in standard position
 pcalc622 Coterminal angles
 pcalc005 Arc length and central angle measure
 pcalc623 Area of a sector of a circle
 pcalc624 Angular and linear speed
 pcalc627 Finding coordinates on the unit circle for special angles
 pcalc625 Finding a point on the unit circle given one coordinate
 pcalc629 Trigonometric functions and special angles: Problem type 1
 pcalc628 Finding trigonometric ratios from a point on the unit circle
 pcalc630 Trigonometric functions and special angles: Problem type 2
 pcalc631 Trigonometric functions and special angles: Problem type 3
 pcalc409 Evaluating expressions involving sine and cosine
 pcalc427 Even and odd properties of trigonometric functions
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc408 Using a calculator to approximate cosecant, secant, and cotangent values
 pcalc410 Evaluating a sinusoidal function that models a real-world situation
 geom506 Special right triangles: Exact answers
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio

pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom316 Relationship between the sines and cosines of complementary angles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle
 pcalc473 Using trigonometry to find a length in a word problem with two right triangles
 pcalc626 Reference angles: Problem type 1
 pcalc632 Reference angles: Problem type 2
 pcalc671 Determining the location of a terminal point given the signs of trigonometric values
 pcalc011 Finding values of trigonometric functions given information about an angle: Problem type 1
 pcalc012 Finding values of trigonometric functions given information about an angle: Problem type 2
 pcalc013 Finding values of trigonometric functions given information about an angle: Problem type 3
 pcalc426 Finding values of trigonometric functions given information about an angle: Problem type 4
 pcalc445 Sketching the graph of $y = a \sin(x)$ or $y = a \cos(x)$
 pcalc446 Sketching the graph of $y = \sin(bx)$ or $y = \cos(bx)$
 pcalc447 Sketching the graph of $y = \sin(x) + d$ or $y = \cos(x) + d$
 pcalc448 Sketching the graph of $y = \sin(x+c)$ or $y = \cos(x+c)$
 pcalc107 Sketching the graph of $y = a \sin(x+c)$ or $y = a \cos(x+c)$
 pcalc106 Sketching the graph of $y = a \sin(bx)$ or $y = a \cos(bx)$
 pcalc014 Sketching the graph of $y = a \sin(bx+c)$ or $y = a \cos(bx+c)$
 pcalc438 Sketching the graph of $y = a \sin(bx) + d$ or $y = a \cos(bx) + d$
 pcalc633 Amplitude and period of sine and cosine functions
 pcalc634 Amplitude, period, and phase shift of sine and cosine functions
 pcalc635 Writing the equation of a sine or cosine function given its graph: Problem type 1
 pcalc636 Writing the equation of a sine or cosine function given its graph: Problem type 2
 pcalc640 Word problem involving a sine or cosine function: Problem type 1
 pcalc641 Word problem involving a sine or cosine function: Problem type 2
 pcalc474 Sketching a graph of a damped sine or cosine function
 pcalc428 Domains and ranges of trigonometric functions
 pcalc637 Matching graphs and equations for secant, cosecant, tangent, and cotangent functions
 pcalc017 Sketching the graph of a secant or cosecant function: Problem type 1
 pcalc638 Sketching the graph of a secant or cosecant function: Problem type 2
 pcalc105 Sketching the graph of a tangent or cotangent function: Problem type 1
 pcalc015 Sketching the graph of a tangent or cotangent function: Problem type 2
 pcalc016 Values of inverse trigonometric functions
 pcalc018 Composition of a trigonometric function with its inverse trigonometric function: Problem type 1
 pcalc419 Composition of a trigonometric function with its inverse trigonometric function: Problem type 2
 pcalc420 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 1
 pcalc421 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 2
 pcalc036 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 3
 pcalc423 Composition of trigonometric functions with variable expressions as inputs: Problem type 1
 pcalc422 Composition of trigonometric functions with variable expressions as inputs: Problem type 2
 pcalc418 Using a calculator to approximate inverse trigonometric values

Trigonometric Identities and Equations

pcalc648 Simplifying trigonometric expressions
 pcalc666 Using cofunction identities
 pcalc110 Verifying a trigonometric identity
 pcalc034 Proving trigonometric identities: Problem type 1
 pcalc404 Proving trigonometric identities: Problem type 2
 pcalc405 Proving trigonometric identities: Problem type 3
 pcalc429 Proving trigonometric identities: Problem type 4

pcalc406 Proving trigonometric identities using odd and even properties
 pcalc029 Sum and difference identities: Problem type 1
 pcalc663 Sum and difference identities: Problem type 2
 pcalc664 Sum and difference identities: Problem type 3
 pcalc430 Sum and difference identities: Problem type 4
 pcalc431 Proving trigonometric identities using sum and difference properties: Problem type 1
 pcalc432 Proving trigonometric identities using sum and difference properties: Problem type 2
 pcalc030 Double-angle identities: Problem type 1
 pcalc667 Double-angle identities: Problem type 2
 pcalc434 Double-angle identities: Problem type 3
 pcalc437 Power-reducing identities
 pcalc662 Half-angle identities: Problem type 1
 pcalc665 Half-angle identities: Problem type 2
 pcalc124 Product-to-sum and sum-to-product identities: Problem type 1
 pcalc674 Product-to-sum and sum-to-product identities: Problem type 2
 pcalc402 Proving trigonometric identities using double-angle properties
 pcalc436 Proving trigonometric identities using sum-to-product formulas
 pcalc650 Finding solutions in an interval for a basic equation involving sine or cosine
 pcalc651 Finding solutions in an interval for a basic tangent, cotangent, secant, or cosecant equation
 pcalc660 Solving a basic trigonometric equation using a calculator
 pcalc020 Solving a basic trigonometric equation involving sine or cosine
 pcalc021 Solving a basic trigonometric equation involving tangent, cotangent, secant, or cosecant
 pcalc670 Finding solutions in an interval for a trigonometric equation in factored form
 pcalc652 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 1
 pcalc653 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 2
 pcalc654 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 1
 pcalc424 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 2
 pcalc657 Finding solutions in an interval for an equation with sine and cosine using double-angle identities
 pcalc668 Solving a trigonometric equation modeling a real-world situation
 pcalc811 Using a graphing calculator to solve a trigonometric equation
 pcalc127 Using a graphing calculator to solve a trigonometric inequality
 pcalc022 Solving a trigonometric equation involving a squared function: Problem type 1
 pcalc023 Solving a trigonometric equation involving a squared function: Problem type 2
 pcalc024 Solving a trigonometric equation involving more than one function
 pcalc025 Solving a trigonometric equation involving an angle multiplied by a constant
 pcalc655 Finding solutions in an interval for a trigonometric equation with an angle multiplied by a constant
 pcalc656 Finding solutions in an interval for an equation with sine and cosine using sum and difference identities
 pcalc026 Solving a trigonometric equation using sum and difference identities
 pcalc027 Solving a trigonometric equation using double-angle identities
 pcalc028 Solving a trigonometric equation using half-angle identities

Additional Topics in Trigonometry

pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc644 Solving a word problem using the law of sines
 geom320 Proving the law of sines
 pcalc033 Solving a triangle with the law of cosines
 geom409 Proving the law of cosines
 pcalc645 Solving a word problem using the law of cosines
 geom439 Using trigonometry to find the area of a right triangle
 pcalc646 Finding the area of a triangle using trigonometry
 geom319 Expressing the area of a triangle in terms of the sine of one of its angles
 pcalc647 Heron's formula
 vector028 Writing a position vector in $a\mathbf{i}+b\mathbf{j}$ form given its graph
 vector014 Writing a vector in $a\mathbf{i}+b\mathbf{j}$ form given its initial and terminal points
 vector013 Writing a vector in component form given its initial and terminal points
 vector015 Magnitude of a vector given in $a\mathbf{i}+b\mathbf{j}$ form

pcalc060 Magnitude of a vector given in component form
 vector016 Vector addition and scalar multiplication: $a_i + b_j$ form
 vector017 Linear combination of vectors: $a_i + b_j$ form
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 pcalc729 Unit vectors
 pcalc739 Multiplication of a vector by a scalar: Geometric approach
 geom857 Vector addition: Geometric approach
 vector007 Vector subtraction: Geometric approach
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph
 vector019 Finding the direction angle of a vector given in $a_i + b_j$ form
 vector018 Writing a vector given its magnitude and direction angle
 vector020 Writing a vector to represent a force pushing or pulling an object
 vector021 Finding the magnitude and direction angle of the resultant force of two vectors
 vector011 Finding magnitudes of forces related to a sum of three vectors
 vector012 Finding magnitudes of forces related to an object suspended by cables
 vector023 Dot product of vectors given in $a_i + b_j$ form
 vector009 Dot product of vectors given in component form
 pcalc730 Finding the angle between two vectors given in component form
 vector024 Classifying vector relationships by finding the angle between two vectors given in $a_i + b_j$ form
 vector010 Using the dot product to find perpendicular vectors
 vector006 Finding the component of a vector along another vector
 vector025 Decomposing a vector into two orthogonal vectors
 vector026 Finding the amount of work done given a force vector and a distance
 vector027 Finding magnitudes of forces related to an object on a ramp
 pcalc449 Plotting points in polar coordinates
 pcalc450 Multiple representations of polar coordinates
 pcalc056 Converting rectangular coordinates to polar coordinates: Special angles
 pcalc451 Converting rectangular coordinates to polar coordinates: Decimal answers
 pcalc057 Converting polar coordinates to rectangular coordinates
 pcalc058 Converting an equation written in rectangular form to one written in polar form
 pcalc452 Converting an equation written in polar form to one written in rectangular form: Problem type 1
 pcalc453 Converting an equation written in polar form to one written in rectangular form: Problem type 2
 pcalc454 Graphing a polar equation: Basic
 pcalc455 Graphing a polar equation: Circle
 pcalc456 Graphing a polar equation: Limacon
 pcalc457 Graphing a polar equation: Rose
 pcalc458 Graphing a polar equation: Lemniscate
 pcalc459 Matching polar equations with their graphs
 pcalc460 Identifying symmetries of graphs given their polar equations
 pcalc461 Plotting complex numbers
 pcalc462 Writing a complex number in standard form given its trigonometric form
 pcalc472 Writing a complex number in trigonometric form: Special angles
 pcalc052 Writing a complex number in trigonometric form: Decimal answers
 pcalc463 Multiplying and dividing complex numbers in trigonometric form
 pcalc464 De Moivre's Theorem: Answers in trigonometric form
 pcalc054 De Moivre's theorem: Answers in standard form
 pcalc807 Finding the n th roots of a number: Problem type 1
 pcalc808 Finding the n th roots of a number: Problem type 2

Systems of Equations and Matrices

alge075 Classifying systems of linear equations from graphs
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2×2 system of linear equations that is inconsistent or consistent dependent
 alge077 Creating an inconsistent system of linear equations
 alge988 Identifying the operations used to create equivalent systems of equations
 pcalc099 Consistency and independence of a system of linear equations

alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 pcalc496 Introduction to solving a 3x3 system of linear equations
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 pcalc497 Solving a 3x3 system of linear equations: Problem type 2
 pcalc498 Solving a 3x3 system of linear equations that is inconsistent or consistent dependent
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 pcalc549 Solving a word problem using a 3x3 system of linear equations: Problem type 2
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc507 Squaring and multiplying 2x2 matrices
 pcalc039 Multiplication of matrices: Basic
 pcalc710 Multiplication of matrices: Advanced
 pcalc503 Word problem involving multiplication of matrices
 pcalc504 Finding the inverse of a 2x2 matrix
 pcalc505 Finding the inverse of a 3x3 matrix
 pcalc042 Finding the determinant of a 2x2 matrix
 pcalc043 Finding the determinant of a 3x3 matrix
 pcalc564 Completing Gauss-Jordan elimination with a 2x2 matrix
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix
 pcalc500 Writing solutions to 3x3 systems of linear equations from augmented matrices
 pcalc499 Completing Gauss-Jordan elimination with a 3x3 matrix
 pcalc046 Solving a system of linear equations given its augmented matrix
 pcalc502 Finding the inverse of a matrix to solve a 2x2 system of linear equations
 pcalc711 Using the inverse of a matrix to solve a 3x3 system of linear equations
 pcalc045 Using Cramer's rule to solve a 2x2 system of linear equations
 pcalc047 Using Cramer's rule to solve a 3x3 system of linear equations
 pcalc531 Introduction to partial fraction decomposition with distinct linear factors
 pcalc812 Partial fraction decomposition with distinct linear factors
 pcalc813 Partial fraction decomposition with repeated linear factors
 pcalc814 Partial fraction decomposition with an irreducible quadratic factor
 pcalc533 Partial fraction decomposition with repeated, irreducible quadratic factors
 alge994 Graphically solving a system of linear and quadratic equations
 pcalc716 Using a graphing calculator to solve a system of linear and quadratic equations: Basic
 pcalc796 Using a graphing calculator to solve a system of equations
 pcalc806 Using a graphing calculator to solve an exponential or logarithmic equation
 alge995 Solving a system of linear and quadratic equations
 pcalc098 Solving a system of nonlinear equations: Problem type 1
 pcalc534 Solving a system of nonlinear equations: Problem type 2
 pcalc535 Solving a word problem involving geometry using a system of nonlinear equations
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge315 Writing an inequality given its graph in the plane: Horizontal or vertical boundary line
 alge316 Writing an inequality given its graph in the plane: Slanted boundary line
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 pcalc536 Graphing an inequality involving a circle
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc096 Graphing a system of nonlinear inequalities: Problem type 1
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1

pcalc537 Solving a word problem using a system of linear inequalities: Problem type 2
 pcalc095 Linear programming
 pcalc094 Solving a word problem using linear programming

Conic Sections

pcalc566 Graphing a parabola of the form $y^2 = ax$ or $x^2 = ay$
 pcalc575 Graphing a parabola of the form $x=a(y-k)^2+h$ or $y=a(x-h)^2+k$
 pcalc067 Graphing a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 pcalc068 Writing an equation of a parabola given the vertex and the focus
 pcalc475 Writing an equation of a parabola given the focus and the directrix
 geom494 Deriving the equation of a parabola given its focus and directrix
 pcalc476 Finding the vertex, focus, directrix, and axis of symmetry of a parabola
 pcalc069 Finding the focus of a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 pcalc477 Writing an equation of a parabola given its graph
 pcalc478 Word problem involving a parabola
 pcalc734 Graphing an ellipse given its equation in standard form
 pcalc070 Graphing an ellipse centered at the origin: $Ax^2 + By^2 = C$
 pcalc071 Graphing an ellipse given its equation in general form
 pcalc479 Finding the center, vertices, and foci of an ellipse
 pcalc072 Finding the foci of an ellipse given its equation in general form
 pcalc074 Writing an equation of an ellipse given the center, an endpoint of an axis, and the length of the other axis
 pcalc073 Writing an equation of an ellipse given the foci and the major axis length
 pcalc097 Graphing a system of nonlinear inequalities: Problem type 2
 pcalc480 Word problem involving an ellipse
 pcalc735 Graphing a hyperbola given its equation in standard form
 pcalc075 Graphing a hyperbola centered at the origin: $Ax^2 - By^2 - C = 0$
 pcalc076 Graphing a hyperbola given its equation in general form
 pcalc481 Finding the center, vertices, foci, and asymptotes of a hyperbola
 pcalc077 Finding the foci of a hyperbola given its equation in general form
 pcalc078 Writing an equation of a hyperbola given the foci and the vertices
 pcalc482 Writing an equation of a hyperbola given the foci and the asymptotes: Basic
 pcalc079 Writing an equation of a hyperbola given the foci and the asymptotes: Advanced
 pcalc736 Classifying conics given their equations
 pcalc538 Completing a table and choosing a graph given a pair of parametric equations
 pcalc539 Writing the equation of a line and sketching its graph given its parametric equations
 pcalc540 Writing the equation of a parabola and sketching its graph given its parametric equations
 pcalc541 Writing the equation of a circle or ellipse and sketching its graph given its parametric equations
 pcalc542 Graphing a pair of parametric equations with a restricted domain: Line or parabola
 pcalc563 Graphing a pair of parametric equations with a restricted domain: Circle
 pcalc565 Graphing a pair of parametric equations with a restricted domain: Ellipse
 pcalc544 Completing pairs of parametric equations
 pcalc545 Word problem involving parametric equations for projectile motion: Problem type 1
 pcalc576 Word problem involving parametric equations for projectile motion: Problem type 2

Sequences, Series, and Probability

alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc715 Finding a specified term of an arithmetic sequence given two terms of the sequence
 alge909 Writing an explicit rule for an arithmetic sequence

alge910 Writing a recursive rule for an arithmetic sequence
 pcalc718 Sum of the first n terms of an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc717 Finding a specified term of a geometric sequence given two terms of the sequence
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences
 pcalc719 Sum of the first n terms of a geometric sequence
 pcalc720 Sum of an infinite geometric series
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 pcalc082 Factorial expressions
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 mstat017 Computing permutations and combinations
 pcalc809 Introduction to permutations and combinations
 pcalc810 Permutations and combinations: Problem type 1
 pcalc089 Permutations and combinations: Problem type 2
 pcalc090 Permutations and combinations: Problem type 3
 pcalc087 Binomial formula
 mstat099 Determining a sample space and outcomes for a simple event
 mstat100 Determining a sample space and outcomes for a compound event
 mstat010 Probability of an event
 mstat046 Experimental and theoretical probability
 stat106 Outcomes and event probability
 mstat116 Probabilities of a permutation and a combination
 mstat011 Area as probability
 stat850 Probability of independent events
 stat851 Probability of dependent events
 stat117 Probabilities of draws with replacement
 stat118 Probabilities of draws without replacement
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 stat119 Venn diagrams: Two events
 stat101 Venn diagrams: Word problems
 stat112 Probabilities involving two dice
 mstat115 Determining outcomes for compound events and complements of events
 mstat109 Using a Venn diagram to understand the addition rule for probability
 mstat108 Outcomes and event probability: Addition rule
 stat114 Probability of intersection or union: Word problems
 mstat104 Identifying independent events given values of probabilities
 stat115 Independent events: Basic
 stat120 Probability of union: Basic
 mstat110 Using a Venn diagram to understand the multiplication rule for probability
 mstat107 Outcomes and event probability: Conditional probability
 mstat105 Computing conditional probability using a two-way frequency table
 mstat106 Computing conditional probability to make an inference using a two-way frequency table
 stat116 Conditional probability: Basic
 stat109 Intersection and conditional probability
 stat174 Binomial problems: Basic
 stat155 Binomial problems: Advanced
 mstat114 Using a random number table to make a fair decision

Limits and Continuity

pcalc901 Estimating a limit numerically
 pcalc902 Finding limits from a graph

pcalc905 Finding a limit by using the limit laws: Problem type 1
 pcalc904 Finding limits for a piecewise-defined function
 pcalc906 Finding a limit by using the limit laws: Problem type 2
 pcalc907 Finding a limit by using the limit laws: Problem type 3
 pcalc911 Squeeze Theorem
 pcalc903 Determining points of discontinuity from a graph
 pcalc914 Determining a parameter to make a function continuous
 pcalc915 Infinite limits and graphs
 pcalc910 Limits at infinity and graphs
 pcalc908 Limits at infinity and rational functions
 pcalc909 Infinite limits and rational functions
 pcalc913 Finding a limit of a trigonometric function by using continuity
 pcalc912 Finding a limit by using special trigonometric limits

B.45 Trigonometry

Algebra and Geometry Review

arith687 Fractional position on a number line
 arith605 Plotting rational numbers on a number line
 arith691 Ordering integers
 arith602 Estimating a square root
 arith712 Ordering real numbers
 alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith814 Signed fraction division
 arith104 Operations with absolute value: Problem type 2
 alge694 Computing the distance between two integers on a number line
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 alge187 Properties of addition
 alge188 Properties of real numbers
 alge604 Distributive property: Integer coefficients
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients

alge756 Power and product rules with positive exponents
alge451 Simplifying a ratio of multivariate monomials: Basic
alge827 Introduction to the quotient rule of exponents
alge452 Simplifying a ratio of univariate monomials
alge026 Quotient of expressions involving exponents
alge453 Simplifying a ratio of multivariate monomials: Advanced
alge927 Power and quotient rules with positive exponents
alge790 Evaluating expressions with exponents of zero
arith729 Evaluating an expression with a negative exponent: Whole number base
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith043 Evaluating an expression with a negative exponent: Negative integer base
alge791 Rewriting an algebraic expression without a negative exponent
alge961 Introduction to the product rule with negative exponents
alge028 Product rule with negative exponents
alge755 Quotient rule with negative exponents: Problem type 1
alge926 Quotient rule with negative exponents: Problem type 2
alge025 Power of a power rule with negative exponents
alge799 Power rules with negative exponents
alge928 Power and quotient rules with negative exponents: Problem type 1
alge929 Power and quotient rules with negative exponents: Problem type 2
alge757 Power, product, and quotient rules with negative exponents
arith036 Scientific notation with positive exponent
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation
scinot008 Multiplying numbers written in scientific notation: Basic
scinot009 Multiplying numbers written in scientific notation: Advanced
scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
scinot010 Dividing numbers written in scientific notation: Basic
scinot011 Dividing numbers written in scientific notation: Advanced
scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge029 Simplifying a sum or difference of three univariate polynomials
alge932 Simplifying a sum or difference of multivariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
alge835 Multiplying a multivariate polynomial by a monomial
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge081 Multiplying conjugate binomials: Multivariate
alge032 Squaring a binomial: Univariate
alge068 Squaring a binomial: Multivariate
alge973 Multiplying binomials with negative coefficients
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
alge605 Factoring a linear binomial
alge736 Introduction to the GCF of two monomials
alge930 Greatest common factor of three univariate monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge739 Factoring out a monomial from a polynomial: Multivariate
alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
alge923 Factoring a univariate polynomial by grouping: Problem type 1
alge950 Factoring a univariate polynomial by grouping: Problem type 2
alge951 Factoring a multivariate polynomial by grouping: Problem type 1
alge952 Factoring a multivariate polynomial by grouping: Problem type 2

alge039 Factoring a quadratic with leading coefficient 1
alge942 Factoring a quadratic in two variables with leading coefficient 1
alge936 Factoring out a constant before factoring a quadratic
alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
alge978 Factoring a quadratic by the ac-method
alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
alge937 Factoring a quadratic with a negative leading coefficient
alge944 Factoring a perfect square trinomial with leading coefficient 1
alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
alge946 Factoring a perfect square trinomial in two variables
alge290 Factoring a difference of squares in one variable: Basic
alge947 Factoring a difference of squares in one variable: Advanced
alge839 Factoring a difference of squares in two variables
alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
alge041 Factoring a product of a quadratic trinomial and a monomial
alge042 Factoring with repeated use of the difference of squares formula
alge044 Factoring a sum or difference of two cubes
pcalc577 Factoring out binomials from a polynomial: GCF factoring, advanced
pcalc578 Using substitution to factor polynomials
alge049 Restriction on a variable in a denominator: Linear
alge454 Simplifying a ratio of factored polynomials: Linear factors
alge455 Simplifying a ratio of factored polynomials: Factors with exponents
alge456 Simplifying a ratio of polynomials using GCF factoring
alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
alge710 Simplifying a ratio of polynomials: Problem type 1
alge682 Simplifying a ratio of polynomials: Problem type 2
alge459 Simplifying a ratio of polynomials: Problem type 3
alge034 Simplifying a ratio of multivariate polynomials
alge053 Multiplying rational expressions involving multivariate monomials
alge460 Multiplying rational expressions made up of linear expressions
alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
alge462 Multiplying rational expressions involving multivariate quadratics
alge054 Dividing rational expressions involving multivariate monomials
alge463 Dividing rational expressions involving linear expressions
alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
alge465 Dividing rational expressions involving multivariate quadratics
alge466 Multiplication and division of 3 rational expressions
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
alge428 Finding the LCD of rational expressions with linear denominators: Common factors
alge429 Finding the LCD of rational expressions with quadratic denominators
alge430 Writing equivalent rational expressions with monomial denominators
alge431 Writing equivalent rational expressions with polynomial denominators
alge304 Writing equivalent rational expressions involving opposite factors
alge432 Introduction to adding fractions with variables and common denominators
alge433 Adding rational expressions with common denominators and monomial numerators
alge056 Adding rational expressions with common denominators and binomial numerators
alge434 Adding rational expressions with common denominators and GCF factoring
alge435 Adding rational expressions with common denominators and quadratic factoring
alge436 Adding rational expressions with different denominators and a single occurrence of a variable
alge437 Adding rational expressions with denominators ax and bx : Basic
alge438 Adding rational expressions with denominators ax and bx : Advanced
alge439 Adding rational expressions with denominators axn and bxm

alge440 Adding rational expressions with multivariate monomial denominators: Basic
alge226 Adding rational expressions with multivariate monomial denominators: Advanced
alge441 Adding rational expressions with linear denominators without common factors: Basic
alge442 Adding rational expressions with linear denominators without common factors: Advanced
alge443 Adding rational expressions with linear denominators with common factors: Basic
alge444 Adding rational expressions with linear denominators with common factors: Advanced
alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
alge661 Adding rational expressions involving different quadratic denominators
alge446 Adding 3 rational expressions with different quadratic denominators
arith695 Complex fraction without variables: Problem type 1
arith696 Complex fraction without variables: Problem type 2
alge470 Complex fraction involving univariate monomials
alge058 Complex fraction involving multivariate monomials
alge471 Complex fraction: GCF factoring
alge472 Complex fraction: Quadratic factoring
alge473 Complex fraction made of sums involving rational expressions: Problem type 1
alge474 Complex fraction made of sums involving rational expressions: Problem type 2
alge475 Complex fraction made of sums involving rational expressions: Problem type 3
alge476 Complex fraction made of sums involving rational expressions: Problem type 4
alge477 Complex fraction made of sums involving rational expressions: Problem type 5
alge478 Complex fraction made of sums involving rational expressions: Problem type 6
alge413 Finding all square roots of a number
arith601 Square root of a rational perfect square
arith760 Square roots of perfect squares with signs
arith761 Square roots of integers raised to even exponents
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial
alge603 Introduction to solving an absolute value equation
alge537 Using absolute value to simplify square roots of perfect square monomials
arith094 Cube root of an integer
alge549 Finding n th roots of perfect n th powers with signs
arith768 Finding the n th root of a perfect n th power fraction
alge550 Finding the n th root of a perfect n th power monomial
alge538 Using absolute value to simplify higher radical expressions
alge812 Converting between radical form and exponent form
alge560 Rational exponents: Unit fraction exponents and whole number bases
alge561 Rational exponents: Unit fraction exponents and bases involving signs
alge250 Rational exponents: Non-unit fraction exponent with a whole number base
alge251 Rational exponents: Negative exponents and fractional bases
alge558 Rational exponents: Product rule
alge559 Rational exponents: Quotient rule
alge773 Rational exponents: Products and quotients with negative exponents
alge562 Rational exponents: Power of a power rule
alge249 Rational exponents: Powers of powers with negative exponents
arith093 Simplifying the square root of a whole number less than 100
arith762 Simplifying the square root of a whole number greater than 100
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
alge275 Simplifying a radical expression with two variables
alge273 Simplifying a higher root of a whole number
alge551 Introduction to simplifying a higher radical expression
alge552 Simplifying a higher radical expression: Univariate
alge811 Simplifying a higher radical expression: Multivariate
arith767 Introduction to square root addition or subtraction
arith032 Square root addition or subtraction
alge533 Square root addition or subtraction with three terms
alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
alge532 Simplifying a sum or difference of radical expressions: Univariate
alge084 Simplifying a sum or difference of radical expressions: Multivariate
alge554 Simplifying a sum or difference of higher roots
alge555 Simplifying a sum or difference of higher radical expressions

arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 arith039 Square root multiplication: Advanced
 alge522 Introduction to simplifying a product of radical expressions: Univariate
 alge523 Simplifying a product of radical expressions: Univariate
 alge640 Simplifying a product of radical expressions: Multivariate
 alge082 Simplifying a product of radical expressions: Multivariate, fractional expressions
 alge556 Introduction to simplifying a product of higher roots
 alge557 Simplifying a product of higher radical expressions
 alge525 Introduction to simplifying a product involving square roots using the distributive property
 alge526 Simplifying a product involving square roots using the distributive property: Basic
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge984 Classifying sums and products as rational or irrational
 arith766 Simplifying a quotient of square roots
 alge530 Simplifying a quotient involving a sum or difference with a square root
 alge527 Rationalizing a denominator: Quotient involving square roots
 alge528 Rationalizing a denominator: Square root of a fraction
 alge529 Rationalizing a denominator: Quotient involving a monomial
 alge534 Rationalizing a denominator using conjugates: Integer numerator
 alge535 Rationalizing a denominator using conjugates: Square root in numerator
 alge536 Rationalizing a denominator using conjugates: Variable in denominator
 alge564 Rationalizing a denominator: Quotient involving a higher radical
 alge775 Rationalizing a denominator: Quotient involving higher radicals and monomials
 alge563 Simplifying products or quotients of higher radicals with different indices: Univariate
 alge776 Simplifying products or quotients of higher radicals with different indices: Multivariate
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom016 Circumference of a circle
 geom301 Perimeter involving rectangles and circles
 geom802 Circumference and area of a circle
 geom477 Circumference and area of a circle: Exact answers in terms of pi
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom311 Volume of a rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem

Equations and Inequalities

alge836 Additive property of equality with signed fractions
 alge012 Multiplicative property of equality with signed fractions
 alge837 Solving a multi-step equation given in fractional form

alge986 Identifying properties used to solve a linear equation
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge730 Writing a multi-step equation for a real-world situation
 alge794 Solving a value mixture problem using a linear equation
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge796 Solving a distance, rate, time problem using a linear equation
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom838 Circumference ratios
 geom628 Finding angle measures of a triangle given angles with variables
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith031 Finding the original price given the sale price and percent discount
 arith854 Computing a percent mixture
 alge795 Solving a percent mixture problem using a linear equation
 arith232 Finding simple interest without a calculator
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4
 alge167 Solving an absolute value equation of the form $-ax+b = -cx+d$
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 set001 Set builder notation
 set004 Set builder and interval notation
 set002 Union and intersection of finite sets
 set005 Union and intersection of intervals

alge844 Identifying solutions to a two-step linear inequality in one variable
alge852 Additive property of inequality with signed fractions
alge964 Multiplicative property of inequality with signed fractions
alge855 Solving a two-step linear inequality: Problem type 1
alge856 Solving a two-step linear inequality: Problem type 2
alge857 Solving a two-step linear inequality with a fractional coefficient
alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
alge860 Solving inequalities with no solution or all real numbers as solutions
alge746 Solving a compound linear inequality: Graph solution, basic
alge747 Solving a compound linear inequality: Interval notation
alge749 Solving a decimal word problem using a two-step linear inequality
alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
alge868 Solving an absolute value inequality: Problem type 1
alge943 Writing an absolute value inequality given a graph on the number line
alge869 Solving an absolute value inequality: Problem type 2
alge870 Solving an absolute value inequality: Problem type 3
alge871 Solving an absolute value inequality: Problem type 4
alge872 Solving an absolute value inequality: Problem type 5
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
alge422 Solving a rational equation that simplifies to linear: Like binomial denominators
alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1
alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
geom037 Similar polygons
geom038 Similar right triangles
geom337 Indirect measurement
arith612 Word problem involving multiple rates
alge770 Solving a work problem using a rational equation
alge450 Solving a distance, rate, time problem using a rational equation
alge778 Using i to rewrite square roots of negative numbers
alge779 Simplifying a product and quotient involving square roots of negative numbers
pcalc048 Adding or subtracting complex numbers
pcalc049 Multiplying complex numbers
pcalc050 Dividing complex numbers
pcalc053 Simplifying a power of i
alge681 Solving an equation written in factored form
alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
alge045 Finding the roots of a quadratic equation with leading coefficient 1
alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
alge211 Solving a quadratic equation needing simplification
alge046 Roots of a product of polynomials
alge163 Writing a quadratic equation given the roots and the leading coefficient
alge703 Solving a word problem using a quadratic equation with rational roots
alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
alge962 Solving an equation of the form $x^2 = a$ using the square root property
alge092 Solving a quadratic equation using the square root property: Exact answers, basic
alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
alge094 Completing the square
alge780 Solving a quadratic equation by completing the square: Exact answers
alge095 Applying the quadratic formula: Exact answers
alge963 Applying the quadratic formula: Decimal answers
pcalc051 Solving a quadratic equation with complex roots
alge214 Discriminant of a quadratic equation

alge193 Discriminant of a quadratic equation with parameter
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge093 Solving an equation using the odd-root property: Problem type 1
 alge228 Solving an equation using the odd-root property: Problem type 2
 alge784 Solving a quadratic inequality written in factored form
 alge771 Solving a quadratic inequality
 alge467 Restriction on a variable in a denominator: Quadratic
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
 alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
 alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
 alge411 Solving a radical equation with a quadratic expression under the radical
 alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 alge412 Algebraic symbol manipulation with radicals
 alge542 Word problem involving radical equations: Basic
 alge409 Word problem involving radical equations: Advanced
 alge410 Solving an equation with a root index greater than 2: Problem type 1
 alge417 Solving an equation with a root index greater than 2: Problem type 2
 alge416 Solving an equation with exponent $1/a$: Problem type 1
 alge418 Solving an equation with exponent $1/a$: Problem type 2
 alge230 Solving an equation with positive rational exponent
 alge231 Solving an equation with negative rational exponent
 alge781 Solving an equation that can be written in quadratic form: Problem type 1
 alge782 Solving an equation that can be written in quadratic form: Problem type 2

Graphs and Functions

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 geom437 Finding the area of a triangle or parallelogram in the coordinate plane
 alge850 Table for a linear equation
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 geom323 Identifying scalene, isosceles, and equilateral triangles given coordinates of their vertices
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts

pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc678 Finding x- and y-intercepts of the graph of a nonlinear equation
 alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
 alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
 pcalc416 Determining if graphs have symmetry with respect to the x-axis, y-axis, or origin
 pcalc679 Testing an equation for symmetry about the axes and origin
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge314 Finding the slope, y-intercept, and equation for a linear function given a table of values
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge318 Finding the slope and a point on a line given its equation in point-slope form
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge313 Writing an equation in standard form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge322 Comparing linear functions to the parent function $y = x$
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 geom462 Identifying parallel and perpendicular lines from coordinates
 geom322 Identifying coordinates that give right triangles
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 pcalc820 Using a graphing calculator to solve a system of linear equations: Basic
 pcalc821 Using a graphing calculator to solve a system of linear equations: Advanced
 alge317 Writing a system of linear equations given its graph
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 geom496 Identifying the center and radius to graph a circle given its equation in standard form
 geom497 Identifying the center and radius to graph a circle given its equation in general form: Basic
 geom668 Identifying the center and radius to graph a circle given its equation in general form: Advanced
 geom499 Writing the equation of a circle centered at the origin given its radius or a point on the circle

geom495 Writing an equation of a circle and identifying points that lie on the circle
 geom498 Writing an equation of a circle given its center and radius or diameter
 geom493 Deriving the equation of a circle using the Pythagorean Theorem
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 alge539 Table for a square root function
 alge546 Evaluating a cube root function
 pcalc682 Evaluating functions: Absolute value, rational, radical
 alge971 Table for an exponential function
 fun030 Evaluating a piecewise-defined function
 fun033 Variable expressions as inputs of functions: Problem type 1
 pcalc571 Variable expressions as inputs of functions: Problem type 2
 pcalc411 Variable expressions as inputs of functions: Problem type 3
 fun016 Domain and range from ordered pairs
 alge715 Domain of a rational function: Excluded values
 pcalc412 Domain of a rational function: Interval notation
 alge540 Domain of a square root function: Basic
 pcalc763 Domain of a square root function: Advanced
 alge547 Domains of higher root functions
 pcalc754 Finding the domain of a fractional function involving radicals
 pcalc924 Determining whether an equation defines a function: Basic
 pcalc757 Determining whether an equation defines a function: Advanced
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 pcalc471 Rewriting a multivariate function as a univariate function given a relationship between its variables
 pcalc753 Finding a difference quotient for a linear or quadratic function
 pcalc414 Finding a difference quotient for a rational function
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge312 Finding domain and range from a linear graph in context
 fun024 Domain and range from the graph of a continuous function
 fun025 Domain and range from the graph of a piecewise function
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 pcalc439 Finding the absolute maximum and minimum of a function given the graph
 pcalc417 Finding values and intervals where the graph of a function is zero, positive, or negative
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge543 Graphing a square root function: Problem type 1
 alge544 Graphing a square root function: Problem type 2
 alge545 Graphing a square root function: Problem type 3
 alge548 Graphing a cube root function
 pcalc488 Graphing an exponential function: $f(x)=bx$

pcalc443 Matching parent graphs with their equations
fun031 Graphing a piecewise-defined function: Problem type 1
pcalc444 Graphing a piecewise-defined function: Problem type 2
pcalc568 Graphing a piecewise-defined function: Problem type 3
pcalc114 Even and odd functions: Problem type 1
pcalc440 Even and odd functions: Problem type 2
pcalc768 Finding the average rate of change of a function
alge998 Finding the average rate of change of a function given its graph
pcalc442 Word problem involving average rate of change
pcalc441 Writing the equation of a secant line
pcalc467 Translating the graph of a parabola: One step
pcalc465 Translating the graph of a parabola: Two steps
alge723 How the leading coefficient affects the shape of a parabola
pcalc468 Translating the graph of an absolute value function: One step
alge899 Translating the graph of an absolute value function: Two steps
alge901 How the leading coefficient affects the graph of an absolute value function
alge185 Writing an equation for a function after a vertical translation
pcalc469 Translating the graph of a function: One step
pcalc770 Translating the graph of a function: Two steps
pcalc569 Transforming the graph of a function by reflecting over an axis
pcalc470 Transforming the graph of a function by shrinking or stretching
pcalc570 Transforming the graph of a function using more than one transformation
pcalc466 Transforming the graph of a quadratic, cubic, square root, or absolute value function
fun020 Writing an equation for a function after a vertical and horizontal translation
fun019 Sum, difference, and product of two functions
alge786 Quotient of two functions: Basic
pcalc413 Quotient of two functions: Advanced
pcalc756 Combining functions: Advanced
alge716 Introduction to the composition of two functions
fun022 Composition of two functions: Basic
pcalc484 Composition of a function with itself
pcalc776 Expressing a function as a composition of two functions
fun021 Composition of two functions: Domain and range
alge129 Composition of two functions: Advanced
pcalc483 Composition of two rational functions
pcalc485 Word problem involving composition of two functions
fun011 Horizontal line test
pcalc777 Determining whether two functions are inverses of each other
fun012 Inverse functions: Linear, discrete
pcalc573 Inverse functions: Quadratic, square root
pcalc572 Inverse functions: Cubic, cube root
alge130 Inverse functions: Rational
pcalc486 Graphing the inverse of a function given its graph
pcalc487 Finding, evaluating, and interpreting an inverse function for a given linear relationship
alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
alge569 Graphing a parabola of the form $y = x^2 + bx + c$
pcalc574 Graphing a parabola of the form $y = a(x-h)^2 + k$
pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
alge323 Finding the zeros of a quadratic function given its equation
pcalc714 Using a graphing calculator to find the zeros of a quadratic function
alge320 Writing a quadratic function given its zeros
alge277 Finding the x-intercept(s) and the vertex of a parabola
pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
alge319 Rewriting a quadratic function in standard form
pcalc550 Rewriting a quadratic function to find its vertex and sketch its graph
pcalc775 Finding the maximum or minimum of a quadratic function
alge785 Word problem involving the maximum or minimum of a quadratic function
pcalc551 Word problem involving optimizing area by using a quadratic function
pcalc415 Domain and range from the graph of a quadratic function
pcalc762 Range of a quadratic function
pcalc680 Writing the equation of a quadratic function given its graph

pcalc764 Finding zeros of a polynomial function written in factored form
 pcalc765 Finding x- and y-intercepts given a polynomial function
 pcalc794 Using a graphing calculator to find local extrema of a polynomial function
 pcalc795 Using a graphing calculator to find zeros of a polynomial function

Trigonometric Functions

pcalc001 Converting degrees-minutes-seconds to decimal degrees
 pcalc661 Converting a decimal degree to degrees-minutes-seconds
 pcalc002 Converting between degree and radian measure: Problem type 1
 pcalc621 Converting between degree and radian measure: Problem type 2
 pcalc006 Sketching an angle in standard position
 pcalc622 Coterminal angles
 pcalc005 Arc length and central angle measure
 pcalc623 Area of a sector of a circle
 pcalc624 Angular and linear speed
 pcalc627 Finding coordinates on the unit circle for special angles
 pcalc625 Finding a point on the unit circle given one coordinate
 pcalc629 Trigonometric functions and special angles: Problem type 1
 pcalc628 Finding trigonometric ratios from a point on the unit circle
 pcalc630 Trigonometric functions and special angles: Problem type 2
 pcalc631 Trigonometric functions and special angles: Problem type 3
 pcalc409 Evaluating expressions involving sine and cosine
 pcalc427 Even and odd properties of trigonometric functions
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc408 Using a calculator to approximate cosecant, secant, and cotangent values
 pcalc410 Evaluating a sinusoidal function that models a real-world situation
 geom506 Special right triangles: Exact answers
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom316 Relationship between the sines and cosines of complementary angles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle
 pcalc473 Using trigonometry to find a length in a word problem with two right triangles
 pcalc626 Reference angles: Problem type 1
 pcalc632 Reference angles: Problem type 2
 pcalc671 Determining the location of a terminal point given the signs of trigonometric values
 pcalc011 Finding values of trigonometric functions given information about an angle: Problem type 1
 pcalc012 Finding values of trigonometric functions given information about an angle: Problem type 2
 pcalc013 Finding values of trigonometric functions given information about an angle: Problem type 3
 pcalc426 Finding values of trigonometric functions given information about an angle: Problem type 4

Trigonometric Graphs

pcalc445 Sketching the graph of $y = a \sin(x)$ or $y = a \cos(x)$
 pcalc446 Sketching the graph of $y = \sin(bx)$ or $y = \cos(bx)$
 pcalc447 Sketching the graph of $y = \sin(x) + d$ or $y = \cos(x) + d$
 pcalc448 Sketching the graph of $y = \sin(x+c)$ or $y = \cos(x+c)$
 pcalc107 Sketching the graph of $y = a \sin(x+c)$ or $y = a \cos(x+c)$
 pcalc106 Sketching the graph of $y = a \sin(bx)$ or $y = a \cos(bx)$
 pcalc014 Sketching the graph of $y = a \sin(bx+c)$ or $y = a \cos(bx+c)$

pcalc438 Sketching the graph of $y = a \sin(bx) + d$ or $y = a \cos(bx) + d$
 pcalc633 Amplitude and period of sine and cosine functions
 pcalc634 Amplitude, period, and phase shift of sine and cosine functions
 pcalc635 Writing the equation of a sine or cosine function given its graph: Problem type 1
 pcalc636 Writing the equation of a sine or cosine function given its graph: Problem type 2
 pcalc640 Word problem involving a sine or cosine function: Problem type 1
 pcalc641 Word problem involving a sine or cosine function: Problem type 2
 pcalc474 Sketching a graph of a damped sine or cosine function
 pcalc428 Domains and ranges of trigonometric functions
 pcalc637 Matching graphs and equations for secant, cosecant, tangent, and cotangent functions
 pcalc017 Sketching the graph of a secant or cosecant function: Problem type 1
 pcalc638 Sketching the graph of a secant or cosecant function: Problem type 2
 pcalc105 Sketching the graph of a tangent or cotangent function: Problem type 1
 pcalc015 Sketching the graph of a tangent or cotangent function: Problem type 2

Trigonometric Identities and Equations

pcalc016 Values of inverse trigonometric functions
 pcalc018 Composition of a trigonometric function with its inverse trigonometric function: Problem type 1
 pcalc419 Composition of a trigonometric function with its inverse trigonometric function: Problem type 2
 pcalc420 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 1
 pcalc421 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 2
 pcalc036 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 3
 pcalc423 Composition of trigonometric functions with variable expressions as inputs: Problem type 1
 pcalc422 Composition of trigonometric functions with variable expressions as inputs: Problem type 2
 pcalc418 Using a calculator to approximate inverse trigonometric values
 pcalc648 Simplifying trigonometric expressions
 pcalc666 Using cofunction identities
 pcalc110 Verifying a trigonometric identity
 pcalc034 Proving trigonometric identities: Problem type 1
 pcalc404 Proving trigonometric identities: Problem type 2
 pcalc405 Proving trigonometric identities: Problem type 3
 pcalc429 Proving trigonometric identities: Problem type 4
 pcalc406 Proving trigonometric identities using odd and even properties
 pcalc029 Sum and difference identities: Problem type 1
 pcalc663 Sum and difference identities: Problem type 2
 pcalc664 Sum and difference identities: Problem type 3
 pcalc430 Sum and difference identities: Problem type 4
 pcalc431 Proving trigonometric identities using sum and difference properties: Problem type 1
 pcalc432 Proving trigonometric identities using sum and difference properties: Problem type 2
 pcalc030 Double-angle identities: Problem type 1
 pcalc667 Double-angle identities: Problem type 2
 pcalc434 Double-angle identities: Problem type 3
 pcalc437 Power-reducing identities
 pcalc662 Half-angle identities: Problem type 1
 pcalc665 Half-angle identities: Problem type 2
 pcalc124 Product-to-sum and sum-to-product identities: Problem type 1
 pcalc674 Product-to-sum and sum-to-product identities: Problem type 2
 pcalc402 Proving trigonometric identities using double-angle properties
 pcalc436 Proving trigonometric identities using sum-to-product formulas
 pcalc650 Finding solutions in an interval for a basic equation involving sine or cosine
 pcalc651 Finding solutions in an interval for a basic tangent, cotangent, secant, or cosecant equation
 pcalc660 Solving a basic trigonometric equation using a calculator
 pcalc020 Solving a basic trigonometric equation involving sine or cosine
 pcalc021 Solving a basic trigonometric equation involving tangent, cotangent, secant, or cosecant
 pcalc670 Finding solutions in an interval for a trigonometric equation in factored form
 pcalc652 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 1

pcalc653 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 2
 pcalc654 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 1
 pcalc424 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 2
 pcalc657 Finding solutions in an interval for an equation with sine and cosine using double-angle identities
 pcalc668 Solving a trigonometric equation modeling a real-world situation
 pcalc811 Using a graphing calculator to solve a trigonometric equation
 pcalc127 Using a graphing calculator to solve a trigonometric inequality
 pcalc022 Solving a trigonometric equation involving a squared function: Problem type 1
 pcalc023 Solving a trigonometric equation involving a squared function: Problem type 2
 pcalc024 Solving a trigonometric equation involving more than one function
 pcalc025 Solving a trigonometric equation involving an angle multiplied by a constant
 pcalc655 Finding solutions in an interval for a trigonometric equation with an angle multiplied by a constant
 pcalc656 Finding solutions in an interval for an equation with sine and cosine using sum and difference identities
 pcalc026 Solving a trigonometric equation using sum and difference identities
 pcalc027 Solving a trigonometric equation using double-angle identities
 pcalc028 Solving a trigonometric equation using half-angle identities

Triangles and Vectors

pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc644 Solving a word problem using the law of sines
 geom320 Proving the law of sines
 pcalc033 Solving a triangle with the law of cosines
 geom409 Proving the law of cosines
 pcalc645 Solving a word problem using the law of cosines
 geom439 Using trigonometry to find the area of a right triangle
 pcalc646 Finding the area of a triangle using trigonometry
 geom319 Expressing the area of a triangle in terms of the sine of one of its angles
 pcalc647 Heron's formula
 vector028 Writing a position vector in $ai+bj$ form given its graph
 vector014 Writing a vector in $ai+bj$ form given its initial and terminal points
 vector013 Writing a vector in component form given its initial and terminal points
 vector015 Magnitude of a vector given in $ai+bj$ form
 pcalc060 Magnitude of a vector given in component form
 vector016 Vector addition and scalar multiplication: $ai+bj$ form
 vector017 Linear combination of vectors: $ai+bj$ form
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 pcalc729 Unit vectors
 pcalc739 Multiplication of a vector by a scalar: Geometric approach
 geom857 Vector addition: Geometric approach
 vector007 Vector subtraction: Geometric approach
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph
 vector019 Finding the direction angle of a vector given in $ai+bj$ form
 vector018 Writing a vector given its magnitude and direction angle
 vector020 Writing a vector to represent a force pushing or pulling an object
 vector021 Finding the magnitude and direction angle of the resultant force of two vectors
 vector011 Finding magnitudes of forces related to a sum of three vectors
 vector012 Finding magnitudes of forces related to an object suspended by cables
 vector023 Dot product of vectors given in $ai+bj$ form
 vector009 Dot product of vectors given in component form
 pcalc730 Finding the angle between two vectors given in component form
 vector024 Classifying vector relationships by finding the angle between two vectors given in $ai + bj$ form
 vector010 Using the dot product to find perpendicular vectors
 vector006 Finding the component of a vector along another vector
 vector025 Decomposing a vector into two orthogonal vectors

vector026 Finding the amount of work done given a force vector and a distance

vector027 Finding magnitudes of forces related to an object on a ramp

Polar Coordinates and Complex Numbers

pcalc449 Plotting points in polar coordinates

pcalc450 Multiple representations of polar coordinates

pcalc056 Converting rectangular coordinates to polar coordinates: Special angles

pcalc451 Converting rectangular coordinates to polar coordinates: Decimal answers

pcalc057 Converting polar coordinates to rectangular coordinates

pcalc058 Converting an equation written in rectangular form to one written in polar form

pcalc452 Converting an equation written in polar form to one written in rectangular form: Problem type 1

pcalc453 Converting an equation written in polar form to one written in rectangular form: Problem type 2

pcalc454 Graphing a polar equation: Basic

pcalc455 Graphing a polar equation: Circle

pcalc456 Graphing a polar equation: Limacon

pcalc457 Graphing a polar equation: Rose

pcalc458 Graphing a polar equation: Lemniscate

pcalc459 Matching polar equations with their graphs

pcalc460 Identifying symmetries of graphs given their polar equations

pcalc461 Plotting complex numbers

pcalc462 Writing a complex number in standard form given its trigonometric form

pcalc472 Writing a complex number in trigonometric form: Special angles

pcalc052 Writing a complex number in trigonometric form: Decimal answers

pcalc463 Multiplying and dividing complex numbers in trigonometric form

pcalc464 De Moivre's Theorem: Answers in trigonometric form

pcalc054 De Moivre's theorem: Answers in standard form

pcalc807 Finding the n th roots of a number: Problem type 1

pcalc808 Finding the n th roots of a number: Problem type 2

Conic Sections

pcalc566 Graphing a parabola of the form $y^2 = ax$ or $x^2 = ay$

pcalc575 Graphing a parabola of the form $x = a(y - k)^2 + h$ or $y = a(x - h)^2 + k$

pcalc067 Graphing a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$

pcalc068 Writing an equation of a parabola given the vertex and the focus

pcalc475 Writing an equation of a parabola given the focus and the directrix

geom494 Deriving the equation of a parabola given its focus and directrix

pcalc476 Finding the vertex, focus, directrix, and axis of symmetry of a parabola

pcalc069 Finding the focus of a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$

pcalc477 Writing an equation of a parabola given its graph

pcalc478 Word problem involving a parabola

pcalc734 Graphing an ellipse given its equation in standard form

pcalc070 Graphing an ellipse centered at the origin: $Ax^2 + By^2 = C$

pcalc071 Graphing an ellipse given its equation in general form

pcalc479 Finding the center, vertices, and foci of an ellipse

pcalc072 Finding the foci of an ellipse given its equation in general form

pcalc074 Writing an equation of an ellipse given the center, an endpoint of an axis, and the length of the other axis

pcalc073 Writing an equation of an ellipse given the foci and the major axis length

pcalc480 Word problem involving an ellipse

pcalc735 Graphing a hyperbola given its equation in standard form

pcalc075 Graphing a hyperbola centered at the origin: $Ax^2 - By^2 - C = 0$

pcalc076 Graphing a hyperbola given its equation in general form

pcalc481 Finding the center, vertices, foci, and asymptotes of a hyperbola

pcalc077 Finding the foci of a hyperbola given its equation in general form

pcalc078 Writing an equation of a hyperbola given the foci and the vertices

pcalc482 Writing an equation of a hyperbola given the foci and the asymptotes: Basic

pcalc079 Writing an equation of a hyperbola given the foci and the asymptotes: Advanced
 pcalc736 Classifying conics given their equations
 pcalc538 Completing a table and choosing a graph given a pair of parametric equations
 pcalc539 Writing the equation of a line and sketching its graph given its parametric equations
 pcalc540 Writing the equation of a parabola and sketching its graph given its parametric equations
 pcalc541 Writing the equation of a circle or ellipse and sketching its graph given its parametric equations
 pcalc542 Graphing a pair of parametric equations with a restricted domain: Line or parabola
 pcalc563 Graphing a pair of parametric equations with a restricted domain: Circle
 pcalc565 Graphing a pair of parametric equations with a restricted domain: Ellipse
 pcalc544 Completing pairs of parametric equations
 pcalc545 Word problem involving parametric equations for projectile motion: Problem type 1
 pcalc576 Word problem involving parametric equations for projectile motion: Problem type 2

Exponential and Logarithmic Functions

pcalc489 Graphing an exponential function: $f(x) = a(b)^x$
 pcalc567 Graphing an exponential function: $f(x)=b \cdot x$ or $f(x)=-bax$
 pcalc922 Translating the graph of an exponential function
 alge321 Finding domain and range from the graph of an exponential function
 pcalc797 The graph, domain, and range of an exponential function
 pcalc490 Transforming the graph of a natural exponential function
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^x - b + c$
 pcalc491 Using a calculator to evaluate exponential expressions
 alge830 Evaluating an exponential function that models a real-world situation
 pcalc555 Using a calculator to evaluate exponential expressions involving base e
 pcalc919 Evaluating an exponential function with base e that models a real-world situation
 arith853 Introduction to compound interest
 arith910 Calculating and comparing simple interest and compound interest
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge993 Comparing linear, polynomial, and exponential functions
 pcalc492 Using a calculator to evaluate natural and common logarithmic expressions
 pcalc493 Converting between logarithmic and exponential equations
 pcalc494 Converting between natural logarithmic and exponential equations
 pcalc495 Evaluating logarithmic expressions
 alge233 Solving an equation of the form $\log_b a = c$
 pcalc923 Translating the graph of a logarithmic function
 alge788 Graphing a logarithmic function: Basic
 pcalc800 The graph, domain, and range of a logarithmic function
 pcalc801 Domain of a logarithmic function: Advanced
 pcalc104 Graphing a logarithmic function: Advanced
 pcalc708 Basic properties of logarithms
 pcalc511 Using properties of logarithms to evaluate expressions
 pcalc779 Expanding a logarithmic expression: Problem type 1
 pcalc521 Expanding a logarithmic expression: Problem type 2
 pcalc522 Expanding a logarithmic expression: Problem type 3
 alge787 Writing an expression as a single logarithm
 pcalc612 Change of base for logarithms: Problem type 1
 pcalc613 Change of base for logarithms: Problem type 2
 pcalc513 Solving a multi-step equation involving a single logarithm: Problem type 1
 pcalc510 Solving a multi-step equation involving a single logarithm: Problem type 2
 pcalc804 Solving a multi-step equation involving natural logarithms
 alge113 Solving an equation involving logarithms on both sides: Problem type 1
 pcalc805 Solving an equation involving logarithms on both sides: Problem type 2
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge482 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic

pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
 pcalc523 Solving an exponential equation by using logarithms: Decimal answers, advanced
 alge111 Solving an exponential equation by using logarithms: Exact answers in logarithmic form
 pcalc802 Solving an exponential equation by using substitution and quadratic factoring
 pcalc806 Using a graphing calculator to solve an exponential or logarithmic equation
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc524 Finding the time in a word problem on compound interest
 pcalc508 Finding the time given an exponential function with base e that models a real-world situation
 pcalc525 Finding the final amount in a word problem on continuous compound interest
 pcalc526 Finding the final amount in a word problem on continuous exponential growth or decay
 pcalc527 Finding the initial amount in a word problem on continuous compound interest
 pcalc615 Finding the rate or time in a word problem on continuous exponential growth or decay
 pcalc528 Finding half-life or doubling time
 pcalc529 Writing and evaluating a function modeling continuous exponential growth or decay given doubling time or half-life
 pcalc530 Writing and evaluating a function modeling continuous exponential growth or decay given two outputs

Whole Numbers

arith124 Whole number place value: Problem type 1
 arith125 Whole number place value: Problem type 2
 arith066 Expanded form
 arith028 Numeral translation: Problem type 1
 arith060 Numeral translation: Problem type 2
 arith633 One-digit addition with carry
 arith634 Addition of 3 or 4 one-digit numbers
 arith635 Adding a 2-digit number and a 1-digit number with carry
 arith001 Addition without carry
 arith050 Addition with carry
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith660 Finding the value of a collection of coins
 arith661 Finding the value of a collection of bills and coins
 arith636 Subtracting a 1-digit number from a 2-digit number
 arith007 Subtraction without borrowing
 arith006 Subtraction with borrowing
 arith128 Adding or subtracting 10, 100, or 1000
 arith682 Subtraction with multiple regrouping steps
 arith637 Subtraction and regrouping with zeros
 arith613 Word problem with addition or subtraction of whole numbers
 arith008 One-digit multiplication
 arith679 Multiplication by 10, 100, and 1000
 arith675 Understanding multiplication of a one-digit number with a larger number
 arith003 Multiplication without carry
 arith004 Multiplication with carry
 arith615 Introduction to multiplication of large numbers
 arith632 Multiplication with trailing zeros: Problem type 1
 arith638 Multiplication with trailing zeros: Problem type 2
 arith014 Multiplication of large numbers
 arith126 Multiplication as repeated addition
 arith639 Using multiplication to find the number of squares
 arith640 Using addition and multiplication to count the objects on a grid
 arith641 Multiples: Problem type 1
 arith642 Multiples: Problem type 2
 arith075 Division facts
 arith052 Division without carry

arith005 Division with carry
 arith680 Division with trailing zeros: Problem type 1
 arith649 Division with trailing zeros: Problem type 2
 arith650 Division involving quotients with intermediate zeros
 arith616 Quotient and remainder: Problem type 1
 arith644 Word problem on quotient and remainder
 arith617 Quotient and remainder: Problem type 2
 arith631 Quotient and remainder: Problem type 3
 arith023 Word problem with division of whole numbers and rounding
 arith614 Word problem with multiplication or division of whole numbers
 arith130 Word problem with multiplication and addition or subtraction of whole numbers
 arith651 Introduction to inequalities
 arith652 Comparing a numerical expression with a number
 arith077 Ordering large numbers
 arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith061 Rounding to thousands, ten thousands, or hundred thousands
 arith101 Estimating a sum of whole numbers
 arith102 Estimating a difference of whole numbers
 arith677 Estimating a product
 arith678 Estimating a quotient
 arith645 Introduction to parentheses
 arith681 Introduction to order of operations
 arith048 Order of operations with whole numbers
 arith646 Even and odd numbers
 arith647 Divisibility rules for 2, 5, and 10
 arith056 Factors
 arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 arith070 Least common multiple of 2 numbers
 arith655 Introduction to properties of addition
 arith656 Introduction to properties of multiplication
 arith653 Fact families for addition and subtraction
 arith654 Fact families for multiplication and division
 alge807 Finding the next terms of a sequence with whole numbers

Fractions

arith623 Introduction to fractions
 arith665 Understanding equivalent fractions
 arith212 Equivalent fractions
 arith666 Introduction to simplifying a fraction
 arith067 Simplifying a fraction
 arith044 Ordering fractions with the same denominator
 arith091 Ordering fractions with the same numerator
 arith092 Using a common denominator to order fractions
 arith687 Fractional position on a number line
 arith667 Plotting fractions on a number line
 arith618 Addition or subtraction of fractions with the same denominator
 arith109 Addition or subtraction of unit fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith088 The reciprocal of a number
 arith694 Division involving a whole number and a fraction
 arith022 Fraction division

arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith020 Mixed number multiplication: Problem type 1

Decimals

arith127 Writing a decimal and a fraction for a shaded region
arith110 Decimal place value: Tenths and hundredths
arith220 Decimal place value: Hundreds to ten thousandths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith670 Converting a decimal to a fraction: Basic
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith671 Converting a fraction with a denominator of 10, 100, or 1000 to a decimal
arith222 Converting a fraction to a terminating decimal
arith672 Converting a decimal to a mixed number
arith624 Addition of aligned decimals
arith668 Addition with money
arith013 Decimal addition with 3 numbers
arith625 Subtraction of aligned decimals
arith669 Subtraction with money
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith131 Estimating a decimal sum or difference
arith082 Multiplication of a decimal by a power of ten
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith628 Word problem with multiple decimal operations: Problem type 1
arith083 Division of a decimal by a power of ten
arith081 Division of a decimal by a whole number
arith019 Division of a decimal by a 2-digit decimal
arith064 Solving a word problem on proportions using a unit rate
arith674 Finding the percentage of a grid that is shaded
arith090 Converting a percentage to a fraction in simplest form
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith030 Finding a percentage of a whole number without a calculator: Basic

Geometry

geom151 Measuring an angle with the protractor
geom303 Acute, obtuse, and right angles
geom306 Acute, obtuse, and right triangles
geom001 Finding an angle measure of a triangle given two angles
geom300 Perimeter of a square or a rectangle
geom339 Perimeter of a polygon
geom221 Finding the missing length in a figure
geom866 Perimeter and area on a grid
geom019 Area of a square or a rectangle
geom350 Distinguishing between the area and perimeter of a rectangle
geom868 Classifying solids
geom311 Volume of a rectangular prism
geom354 Volume of a rectangular prism made of unit cubes
geom219 Nets of solids

Measurement and Data

mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units

Arithmetic Readiness

arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith240 Word problem with common multiples
arith067 Simplifying a fraction
arith092 Using a common denominator to order fractions
arith801 Finding the LCD of two fractions
arith230 Addition or subtraction of fractions with different denominators
arith086 Product of a fraction and a whole number: Problem type 1
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith226 Converting between percentages and decimals
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith090 Converting a percentage to a fraction in simplest form
arith686 Writing a ratio as a percentage
mstat049 Computing a percentage from a table of values
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced
arith232 Finding simple interest without a calculator

Real Numbers

arith699 Writing a signed number for a real-world situation
mstat038 Reading the temperature from a thermometer
arith691 Ordering integers
arith687 Fractional position on a number line
arith605 Plotting rational numbers on a number line
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith701 Word problem with addition or subtraction of integers
arith116 Signed fraction addition or subtraction: Basic
arith231 Integer multiplication and division
arith822 Signed fraction multiplication: Basic
arith118 Order of operations with integers
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith600 Order of operations with integers and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers

arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression
 alge187 Properties of addition
 alge188 Properties of real numbers

Linear Equations and Inequalities

alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge740 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge602 Writing a one-step variable expression for a real-world situation
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge829 Word problem involving distance, rate, and time
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge166 Graphing a compound inequality on the number line

alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge207 Solving a linear inequality: Problem type 4
 alge745 Solving a linear inequality: Problem type 5
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge748 Writing an inequality for a real-world situation
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge270 Solving an absolute value equation of the form $a-x = b$ or $-x+a = b$
 alge103 Solving an absolute value equation of the form $-ax+b = c$
 alge170 Solving an absolute value inequality: Basic

Lines and Systems of Linear Equations

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge197 Graphing a line given its x- and y-intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge069 Finding the y-intercept of a line given its equation
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge684 Finding slope given the graph of a line on a grid
 alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge079 Graphing a system of two linear inequalities: Basic

Exponents, Polynomials, and Quadratics

alge790 Evaluating expressions with exponents of zero
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith043 Evaluating an expression with a negative exponent: Negative integer base
alge791 Rewriting an algebraic expression without a negative exponent
alge821 Understanding the product rule of exponents
alge024 Introduction to the product rule of exponents
alge030 Product rule with positive exponents: Multivariate
alge028 Product rule with negative exponents
alge827 Introduction to the quotient rule of exponents
alge026 Quotient of expressions involving exponents
alge755 Quotient rule with negative exponents: Problem type 1
alge826 Understanding the power rules of exponents
alge754 Introduction to the power rules of exponents
alge027 Power rules with positive exponents
alge025 Power of a power rule with negative exponents
alge799 Power rules with negative exponents
alge756 Power and product rules with positive exponents
arith029 Ordering numbers with positive exponents
arith036 Scientific notation with positive exponent
arith037 Scientific notation with negative exponent
scinot002 Multiplying and dividing numbers written in scientific notation
alge758 Degree and leading coefficient of a univariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge835 Multiplying a multivariate polynomial by a monomial
alge033 Multiplying binomials with leading coefficients of 1
alge764 Multiplying conjugate binomials: Univariate
alge765 Multiplying binomials in two variables
alge032 Squaring a binomial: Univariate
alge180 Multiplication involving binomials and trinomials in two variables
alge759 Dividing a polynomial by a monomial: Univariate
alge760 Dividing a polynomial by a monomial: Multivariate
alge761 Polynomial long division: Problem type 1
alge762 Polynomial long division: Problem type 2
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge739 Factoring out a monomial from a polynomial: Multivariate
alge039 Factoring a quadratic with leading coefficient 1
alge043 Factoring a perfect square trinomial
alge040 Factoring a quadratic with leading coefficient greater than 1
alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
alge041 Factoring a product of a quadratic trinomial and a monomial
alge624 Factoring a difference of squares
alge038 Factoring a polynomial by grouping: Problem type 1
alge181 Factoring a polynomial by grouping: Problem type 2
alge681 Solving an equation written in factored form
alge045 Finding the roots of a quadratic equation with leading coefficient 1
alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
alge211 Solving a quadratic equation needing simplification
alge092 Solving a quadratic equation using the square root property: Exact answers, basic
alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
alge094 Completing the square
alge780 Solving a quadratic equation by completing the square: Exact answers
alge095 Applying the quadratic formula: Exact answers
alge214 Discriminant of a quadratic equation
alge703 Solving a word problem using a quadratic equation with rational roots
alge524 Solving a word problem using a quadratic equation with irrational roots
alge277 Finding the x-intercept(s) and the vertex of a parabola
pcalc775 Finding the maximum or minimum of a quadratic function
alge785 Word problem involving the maximum or minimum of a quadratic function
alge252 Graphing a parabola of the form $y = ax^2$

alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 alge702 Classifying the graph of a function
 alge723 How the leading coefficient affects the shape of a parabola
 alge830 Evaluating an exponential function that models a real-world situation
 alge112 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest

Functions and Sequences

set004 Set builder and interval notation
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 alge727 Checking if a formula describes a pattern
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 pcalc768 Finding the average rate of change of a function
 fun019 Sum, difference, and product of two functions
 fun022 Composition of two functions: Basic
 fun002 Graphing integer functions
 pcalc761 Finding inputs and outputs of a function from its graph
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 fun024 Domain and range from the graph of a continuous function
 pcalc114 Even and odd functions: Problem type 1
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge807 Finding the next terms of a sequence with whole numbers
 alge732 Finding patterns in shapes
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term

Rational and Radical Expressions

alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1

alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax, bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a, x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge272 Solving a proportion of the form $x/a = b/c$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators $a, x,$ or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear
 arith663 Writing ratios for real-world situations
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge175 Word problem on direct variation
 alge176 Word problem on inverse variation
 alge772 Word problem on combined variation
 alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 arith032 Square root addition or subtraction
 arith039 Square root multiplication: Advanced
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals

Perimeter, Area, and Volume

geom300 Perimeter of a square or a rectangle

geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom078 Sides of polygons having the same perimeter
 geom019 Area of a square or a rectangle
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom344 Area involving rectangles and triangles
 geom213 Area of a regular polygon
 geom832 Area of quadrilaterals in the coordinate plane
 alge724 Finding an area in terms of variables
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom802 Circumference and area of a circle
 geom805 Arc length and area of a sector of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom354 Volume of a rectangular prism made of unit cubes
 geom311 Volume of a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of π
 geom841 Volume of a sphere
 geom219 Nets of solids
 geom861 Nets of solids: Advanced
 geom348 Vertices, edges, and faces of a solid
 geom031 Surface area of a cube or a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of π
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders

Lines, Angles, and Triangles

mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 glogic001 Conditional statements and negations
 glogic005 The converse, inverse, and contrapositive of a conditional statement
 glogic008 Conditional statements and deductive reasoning
 geom349 Naming segments, rays, and lines
 geom525 Computing distances between decimals on the number line
 geom526 Midpoint of a number line segment
 geom521 Segment addition and midpoints
 geom358 Identifying parallel and perpendicular lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor

geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom304 Identifying corresponding and alternate angles
 geom305 Identifying supplementary and vertical angles
 geom530 Solving equations involving vertical angles
 geom531 Solving equations involving angles and a pair of parallel lines
 geom850 Angle addition with relationships between angles
 geom851 Angle addition and angle bisectors
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom908 Finding an angle measure for a triangle with an extended side
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom845 Using triangle inequality to determine possible lengths of a third side
 geom854 Relationship between angle measures and side lengths in a triangle
 geom855 Relationship between angle measures and side lengths in two triangles
 geom044 Pythagorean Theorem
 geom068 Computing an area using the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 geom506 Special right triangles: Exact answers
 geom212 Circles inscribed in and circumscribed about regular polygons

Polygons, Circles, and Similarity

alge191 Midpoint of a line segment in the plane
 alge132 Distance between two points in the plane: Exact answers
 geom310 Properties of quadrilaterals
 geom523 Conditions for quadrilaterals
 geom532 Classifying parallelograms
 geom528 Finding measures involving diagonals of parallelograms
 geom527 Conditions for parallelograms
 geom833 Finding measures involving diagonals of rectangles
 geom834 Finding measures involving diagonals of rhombi
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon
 geom853 Interior and exterior angle measures in a regular polygon
 geom819 Finding coordinates of vertices of polygons
 geom818 Finding the coordinates of a point to make a parallelogram
 geom863 Congruence in the coordinate plane
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom848 Tangents of a circle: Problem type 1
 geom849 Tangents of a circle: Problem type 2
 geom511 Lengths of chords, secants, and tangents
 geom514 Inscribed angles of a circle
 geom512 Central angles and inscribed angles of a circle
 geom513 Angles of intersecting secants and tangents
 pcalc605 Graphing a circle given its equation in standard form
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 geom359 Identifying congruent shapes on a grid
 geom520 Identifying and naming congruent triangles
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement

geom510 Triangles and parallel lines
 geom507 Right triangles and geometric mean
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2
 geom133 Ratio of volumes
 geom357 Identifying transformations
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom335 Rotating a figure about the origin
 geom815 Finding an angle of rotation
 geom831 Rotational and point symmetries
 geom336 Dilating a figure

Statistics and Probability

mstat004 Constructing a histogram for numerical data
 mstat005 Constructing a bar graph for non-numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph

arith656 Introduction to properties of multiplication
arith075 Division facts
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith052 Division without carry
arith005 Division with carry
arith680 Division with trailing zeros: Problem type 1
arith649 Division with trailing zeros: Problem type 2
arith616 Quotient and remainder: Problem type 1
arith644 Word problem on quotient and remainder
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith604 Estimating a product or quotient of whole numbers
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers

arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith657 Understanding the distributive property
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith240 Word problem with common multiples
alge925 Finding the next terms of an arithmetic sequence with whole numbers
alge933 Finding the next terms of a geometric sequence with whole numbers
alge732 Finding patterns in shapes
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge009 Additive property of equality with whole numbers
alge008 Multiplicative property of equality with whole numbers
alge803 Using two steps to solve an equation with whole numbers

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith813 Multiplication of 3 fractions
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction

arith215 Addition or subtraction of mixed numbers with the same denominator
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
 arith808 Addition of mixed numbers with different denominators and carry
 arith809 Subtraction of mixed numbers with different denominators and borrowing
 arith807 Addition and subtraction of 3 mixed numbers with different denominators
 arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
 arith815 Mixed number multiplication
 arith816 Multiplication of a mixed number and a whole number
 arith817 Division with a mixed number and a whole number
 arith068 Mixed number division
 arith820 Word problem involving multiplication or division with mixed numbers
 arith821 Exponents and fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1

Decimals

arith127 Writing a decimal and a fraction for a shaded region
 arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith734 Subtraction of aligned decimals
 arith735 Decimal subtraction: Basic
 arith736 Decimal subtraction: Advanced
 arith737 Decimal addition and subtraction with 3 or more numbers
 arith131 Estimating a decimal sum or difference
 arith132 Word problem with addition or subtraction of 2 decimals
 arith133 Word problem with addition of 3 or 4 decimals and whole numbers
 arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
 arith739 Introduction to decimal multiplication
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2
 arith082 Multiplication of a decimal by a power of ten
 arith738 Multiplication of a decimal by a power of 0.1
 arith740 Multiplication of decimals that have a product less than 0.1
 arith752 Estimating a product of decimals
 arith135 Word problem with multiplication of a decimal and a whole number

arith137 Word problem with multiplication of two decimals
arith224 Word problem with decimal addition and multiplication
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith227 Word problem with decimal subtraction and division
alge823 Solving a one-step word problem using the formula $d = rt$
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith609 Ordering fractions and decimals
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced
arith733 Using a calculator to convert a fraction to a rounded decimal
arith111 Converting a mixed number to a terminating decimal: Basic
arith112 Converting a mixed number to a terminating decimal: Advanced
arith732 Converting a fraction or mixed number to a rounded decimal
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith748 Addition or subtraction with a decimal and a mixed number
arith749 Multiplication with a decimal and a fraction

Ratios, Proportions, and Percents

arith823 Writing ratios using different notations
arith663 Writing ratios for real-world situations
arith824 Simplifying a ratio of whole numbers: Problem type 1
arith825 Simplifying a ratio of decimals
arith827 Finding a unit price
arith828 Computing unit prices to find the better buy
arith064 Solving a word problem on proportions using a unit rate
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
alge272 Solving a proportion of the form $x/a = b/c$
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
alge063 Word problem on mixed number proportions
arith045 Word problem with powers of ten
arith836 Converting a fraction with a denominator of 100 to a percentage
arith837 Converting a percentage to a fraction with a denominator of 100
arith674 Finding the percentage of a grid that is shaded
arith723 Introduction to converting a percentage to a decimal
arith833 Introduction to converting a decimal to a percentage
arith834 Converting between percentages and decimals
arith841 Converting a mixed number percentage to a decimal
arith835 Converting between percentages and decimals in a real-world situation
arith090 Converting a percentage to a fraction in simplest form
arith839 Converting a decimal percentage to a fraction
arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith843 Using a calculator to convert a fraction to a rounded percentage

arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 mstat049 Computing a percentage from a table of values
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest
 alge741 Finding the final amount in a word problem on compound interest
 arith854 Computing a percent mixture

Geometry

geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 geom358 Identifying parallel and perpendicular lines
 geom349 Naming segments, rays, and lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom305 Identifying supplementary and vertical angles
 geom304 Identifying corresponding and alternate angles
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter

geom217 Finding the side length of a rectangle given its perimeter or area
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom801 Area of a triangle
 geom344 Area involving rectangles and triangles
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom016 Circumference of a circle
 geom301 Perimeter involving rectangles and circles
 geom802 Circumference and area of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom354 Volume of a rectangular prism made of unit cubes
 geom311 Volume of a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom841 Volume of a sphere
 geom219 Nets of solids
 geom816 Side views of a solid made of cubes
 geom031 Surface area of a cube or a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom842 Surface area of a sphere
 arith016 Square root of a perfect square
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom359 Identifying congruent shapes on a grid
 geom520 Identifying and naming congruent triangles
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement

Measurement

mstat059 Choosing U.S. Customary measurement units
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values

unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time006 Adding time
 time007 Elapsed time
 arith063 Word problem with clocks
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Data Analysis and Statistics

mstat056 Interpreting a tally table
 mstat037 Constructing a line plot
 mstat005 Constructing a bar graph for non-numerical data
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat057 Interpreting a pictograph table
 mstat007 Interpreting a line graph
 mstat031 Interpreting a stem-and-leaf plot
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph
 geom814 Angle measure in a circle graph
 stat020 Calculating relative frequencies in a contingency table
 stat805 Making a reasonable inference based on proportion statistics
 mstat025 Finding if a question can be answered by the data
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 arith103 Average of two numbers
 mstat001 Mean of a data set
 mstat028 Mean and median of a data set
 stat803 Finding the value for a new score that will yield a given mean
 mstat029 How changing a value affects the mean and median
 mstat053 Choosing the best measure to describe data
 stat802 Rejecting unreasonable claims based on average statistics
 mstat066 Weighted mean
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat072 Five-number summary and interquartile range
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat039 Understanding likelihood
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability

mstat046 Experimental and theoretical probability
mstat047 Introduction to expectation
mstat012 Probability of independent events
mstat013 Probability of dependent events
mstat032 Probability of the union of two events

Real Numbers

alge286 Plotting integers on a number line
arith605 Plotting rational numbers on a number line
mstat038 Reading the temperature from a thermometer
arith699 Writing a signed number for a real-world situation
arith691 Ordering integers
arith712 Ordering real numbers
arith071 Absolute value of a number
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
alge001 Identifying numbers as integers or non-integers
alge002 Identifying numbers as rational or irrational
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith814 Signed fraction division
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith750 Signed decimal multiplication
arith751 Signed decimal division
arith104 Operations with absolute value: Problem type 2
unit052 Finding the absolute error and percent error of a measurement
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
arith696 Complex fraction without variables: Problem type 2
arith036 Scientific notation with positive exponent
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation

Algebraic Expressions and Equations

alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge004 Evaluating a quadratic expression: Integers

alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge432 Introduction to adding fractions with variables and common denominators
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge437 Adding rational expressions with denominators ax and bx : Basic
 alge187 Properties of addition
 alge188 Properties of real numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge218 Solving a word problem involving rates and time conversion
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge842 Solving a word problem involving consecutive integers
 geom530 Solving equations involving vertical angles

geom531 Solving equations involving angles and a pair of parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios

Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2

Graphs of Linear Equations

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 alge191 Midpoint of a line segment in the plane
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge954 Graphing a parabola of the form $y = ax^2$
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y -intercept
 alge196 Graphing a line through a given point with a given slope
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge263 Interpreting the graphs of two functions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations

alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation

Exponents and Polynomials

alge758 Degree and leading coefficient of a univariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge756 Power and product rules with positive exponents
 arith029 Ordering numbers with positive exponents
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge605 Factoring a linear binomial
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 alge453 Simplifying a ratio of multivariate monomials: Advanced
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 alge791 Rewriting an algebraic expression without a negative exponent
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents

alge755 Quotient rule with negative exponents: Problem type 1
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 alge413 Finding all square roots of a number
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 alge533 Square root addition or subtraction with three terms

B.49 Mathematics for College Readiness (Segment 1)

Module 1: Expressions and Equations

arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith101 Estimating a sum of whole numbers
 arith233 Introduction to exponents
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 arith713 Order of operations with whole numbers and exponents: Advanced
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 arith056 Factors
 arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 arith070 Least common multiple of 2 numbers
 arith240 Word problem with common multiples
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith092 Using a common denominator to order fractions
 arith618 Addition or subtraction of fractions with the same denominator
 arith801 Finding the LCD of two fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith088 The reciprocal of a number
 arith694 Division involving a whole number and a fraction
 arith022 Fraction division
 arith697 Mixed arithmetic operations with fractions
 arith095 Multi-step word problem involving fractions and multiplication
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith085 Addition or subtraction of mixed numbers with different denominators

arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith064 Solving a word problem on proportions using a unit rate
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals
arith131 Estimating a decimal sum or difference
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
arith019 Division of a decimal by a 2-digit decimal
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith628 Word problem with multiple decimal operations: Problem type 1
arith226 Converting between percentages and decimals
arith090 Converting a percentage to a fraction in simplest form
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith069 Writing a ratio as a percentage without a calculator
arith030 Finding a percentage of a whole number without a calculator: Basic
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced
arith232 Finding simple interest without a calculator
mstat038 Reading the temperature from a thermometer
arith699 Writing a signed number for a real-world situation
alge286 Plotting integers on a number line
arith687 Fractional position on a number line
arith605 Plotting rational numbers on a number line
arith691 Ordering integers
arith016 Square root of a perfect square
arith712 Ordering real numbers
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith701 Word problem with addition or subtraction of integers
arith116 Signed fraction addition or subtraction: Basic
arith106 Signed fraction addition or subtraction: Advanced
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
alge984 Classifying sums and products as rational or irrational
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction

alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 alge187 Properties of addition
 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression
 alge733 Writing a one-step expression for a real-world situation
 alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge837 Solving a multi-step equation given in fractional form
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge838 Introduction to solving an equation with variables on the same side
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution

Module 2: Numbers and Quantities

alge002 Identifying numbers as rational or irrational
 alge001 Identifying numbers as integers or non-integers
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1

alge926 Quotient rule with negative exponents: Problem type 2
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge927 Power and quotient rules with positive exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith602 Estimating a square root
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement

Module 3: Arithmetic with Polynomials and Rational Expressions

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1

alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax, bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a, x+b$
 alge661 Adding rational expressions involving different quadratic denominators

Module 4: Creating Equations

alge208 Solving a two-step equation with signed fractions
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge986 Identifying properties used to solve a linear equation
 alge015 Translating a sentence by using an inequality symbol
 alge016 Translating a sentence into a one-step equation
 alge186 Translating a sentence into a compound inequality
 alge729 Writing a multi-step inequality for a real-world situation
 alge730 Writing a multi-step equation for a real-world situation
 alge748 Writing an inequality for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge841 Translating a sentence into a multi-step equation
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 arith663 Writing ratios for real-world situations
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles

geom337 Indirect measurement
 alge822 Writing an inequality given a graph on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge017 Graphing a linear inequality on the number line
 alge166 Graphing a compound inequality on the number line
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides

Module 5: Reasoning with Equations

alge014 Solving a word problem with two unknowns using a linear equation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 stat803 Finding the value for a new score that will yield a given mean
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge196 Graphing a line through a given point with a given slope
 alge882 Graphing a line by first finding its slope and y -intercept
 alge883 Graphing a line given its equation in point-slope form
 alge198 Graphing a vertical or horizontal line
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs

alge891 Rewriting a linear equation in the form $Ax + By = C$
alge884 Finding x - and y -intercepts given the graph of a line on a grid
alge924 Finding x - and y -intercepts of a line given the equation: Basic
alge210 Finding x - and y -intercepts of a line given the equation: Advanced
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge888 Finding the coordinate that yields a given slope
alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
alge892 Writing an equation and graphing a line given its slope and y -intercept
alge070 Writing an equation of a line given the y -intercept and another point
alge893 Writing an equation in slope-intercept form given the slope and a point
alge894 Writing an equation in point-slope form given the slope and a point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
mstat052 Identifying independent and dependent variables from equations or real-world situations
alge990 Domain and range of a linear function that models a real-world situation
alge989 Interpreting the parameters of a linear function that models a real-world situation
alge992 Combining functions to write a new function that models a real-world situation
alge987 Comparing properties of linear functions given in different forms
alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
alge806 Application problem with a linear function: Finding a coordinate given two points
alge895 Identifying parallel and perpendicular lines from equations
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
alge991 Solving a linear equation by graphing
mstat051 Choosing a graph to fit a narrative: Advanced
alge828 Interpreting direct variation from a graph
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge914 Identifying solutions to a system of linear equations
alge075 Classifying systems of linear equations from graphs
alge725 Graphically solving a system of linear equations
alge751 Solving a system of linear equations using substitution
alge915 Solving a system of linear equations using elimination with addition
alge076 Solving a system of linear equations using elimination with multiplication and addition
alge916 Solving a system of linear equations with fractional coefficients
alge917 Solving a system of linear equations with decimal coefficients
alge752 Solving a 2×2 system of linear equations that is inconsistent or consistent dependent
alge753 Solving a 3×3 system of linear equations: Problem type 1
alge988 Identifying the operations used to create equivalent systems of equations
alge263 Interpreting the graphs of two functions
alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
alge184 Solving a value mixture problem using a system of linear equations
alge224 Solving a distance, rate, time problem using a system of linear equations
alge192 Solving a percent mixture problem using a system of linear equations
alge172 Solving a tax rate or interest rate problem using a system of linear equations
alge793 Solving a word problem using a 3×3 system of linear equations: Problem type 1
alge912 Identifying solutions to a linear inequality in two variables
alge720 Graphing a linear inequality in the plane: Slope-intercept form
alge018 Graphing a linear inequality in the plane: Standard form
alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
alge079 Graphing a system of two linear inequalities: Basic
alge922 Graphing a system of three linear inequalities
pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators

alge769 Solving a rational equation that simplifies to linear: Denominators a, x, or ax
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals

Extra Material

alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge957 Solving a quadratic equation by graphing
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge993 Comparing linear, polynomial, and exponential functions
 alge778 Using i to rewrite square roots of negative numbers
 pcalc051 Solving a quadratic equation with complex roots
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom221 Finding the missing length in a figure
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom016 Circumference of a circle
 geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom802 Circumference and area of a circle

geom302 Area involving rectangles and circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom031 Surface area of a cube or a rectangular prism
geom091 Surface area of a triangular prism
geom034 Surface area of a cylinder: Exact answers in terms of pi
geom842 Surface area of a sphere
geom311 Volume of a rectangular prism
geom090 Volume of a triangular prism
geom033 Volume of a pyramid
geom035 Volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom086 Volume of a cone: Exact answers in terms of pi
geom841 Volume of a sphere
geom039 Finding supplementary and complementary angles
set001 Set builder notation
set002 Union and intersection of finite sets
fun033 Variable expressions as inputs of functions: Problem type 1
fun016 Domain and range from ordered pairs
alge896 Graphing an integer function and finding its range for a given domain
fun032 Identifying functions from relations
fun010 Vertical line test
pcalc761 Finding inputs and outputs of a function from its graph
alge999 Finding where a function is increasing, decreasing, or constant given the graph
pcalc752 Finding local maxima and minima of a function given the graph
fun006 Writing a function rule given a table of ordered pairs: Two-step rules
alge716 Introduction to the composition of two functions
fun012 Inverse functions: Linear, discrete
alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
alge058 Complex fraction involving multivariate monomials
alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
alge080 Simplifying a radical expression with an even exponent
alge084 Simplifying a sum or difference of radical expressions: Multivariate
alge086 Rationalizing the denominator of a radical expression
alge088 Rationalizing the denominator of a radical expression using conjugates
alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
alge132 Distance between two points in the plane: Exact answers
alge168 Graphing an absolute value equation in the plane: Advanced
alge175 Word problem on direct variation
alge176 Word problem on inverse variation
alge185 Writing an equation for a function after a vertical translation
alge191 Midpoint of a line segment in the plane
alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
alge213 Domain of a square root function
alge220 Word problem on inverse proportions
alge249 Rational exponents: Powers of powers with negative exponents
alge250 Rational exponents: Non-unit fraction exponent with a whole number base
alge251 Rational exponents: Negative exponents and fractional bases
alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
alge262 Graphing a cubic function of the form $y = ax^3$
alge264 Square root of a perfect square monomial
alge273 Simplifying a higher root of a whole number
alge275 Simplifying a radical expression with two variables
alge276 Simplifying a product involving square roots using the distributive property: Advanced
alge640 Simplifying a product of radical expressions: Multivariate
alge702 Classifying the graph of a function
alge723 How the leading coefficient affects the shape of a parabola
alge767 Complex fraction: GCF and quadratic factoring
alge768 Complex fraction made of sums involving rational expressions
alge770 Solving a work problem using a rational equation
alge773 Rational exponents: Products and quotients with negative exponents
alge774 Special products of radical expressions: Conjugates and squaring

alge785 Word problem involving the maximum or minimum of a quadratic function
alge811 Simplifying a higher radical expression: Multivariate
alge812 Converting between radical form and exponent form
alge864 Solving an absolute value equation: Problem type 1
alge865 Solving an absolute value equation: Problem type 2
alge866 Solving an absolute value equation: Problem type 3
alge867 Solving an absolute value equation: Problem type 4
alge868 Solving an absolute value inequality: Problem type 1
alge869 Solving an absolute value inequality: Problem type 2
alge870 Solving an absolute value inequality: Problem type 3
alge871 Solving an absolute value inequality: Problem type 4
alge872 Solving an absolute value inequality: Problem type 5
alge898 Translating the graph of an absolute value function: One step
alge899 Translating the graph of an absolute value function: Two steps
alge900 Graphing an absolute value equation in the plane: Basic
alge901 How the leading coefficient affects the graph of an absolute value function
alge902 Identifying direct and inverse variation from ordered pairs and writing equations
alge903 Identifying direct and inverse variation equations
alge904 Writing a direct variation equation
alge905 Writing an inverse variation equation
alge906 Finding the next terms of an arithmetic sequence with integers
alge907 Finding the next terms of a geometric sequence with signed numbers
alge908 Finding the first terms of a sequence using a recursive rule
alge909 Writing an explicit rule for an arithmetic sequence
alge910 Writing a recursive rule for an arithmetic sequence
alge911 Writing recursive rules for arithmetic and geometric sequences
alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
alge921 Graphing a system of two linear inequalities: Advanced
alge925 Finding the next terms of an arithmetic sequence with whole numbers
alge931 Finding a specified term of an arithmetic sequence given the first terms
alge933 Finding the next terms of a geometric sequence with whole numbers
alge934 Finding a specified term of a geometric sequence given the first terms
alge938 Identifying direct variation from ordered pairs and writing equations
alge943 Writing an absolute value inequality given a graph on the number line
alge953 Translating the graph of a parabola: One step
alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
alge955 Graphing a parabola of the form $y = ax^2 + c$
alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
alge975 Domain and range from the graph of a parabola
alge976 Range of a quadratic function
alge979 Identifying arithmetic sequences and finding the common difference
alge980 Identifying geometric sequences and finding the common ratio
alge981 Identifying arithmetic and geometric sequences
alge982 Identifying direct variation equations
alge994 Graphically solving a system of linear and quadratic equations
alge995 Solving a system of linear and quadratic equations
alge996 Comparing properties of quadratic functions given in different forms
alge997 Finding the average rate of change of a function given its equation
alge998 Finding the average rate of change of a function given its graph
arith032 Square root addition or subtraction
arith039 Square root multiplication: Advanced
arith093 Simplifying the square root of a whole number less than 100
arith094 Cube root of an integer
arith601 Square root of a rational perfect square
arith612 Word problem involving multiple rates
arith695 Complex fraction without variables: Problem type 1
arith696 Complex fraction without variables: Problem type 2
fun020 Writing an equation for a function after a vertical and horizontal translation
fun030 Evaluating a piecewise-defined function
fun031 Graphing a piecewise-defined function: Problem type 1
geom044 Pythagorean Theorem

geom814 Angle measure in a circle graph
mstat001 Mean of a data set
mstat003 Mode of a data set
mstat004 Constructing a histogram for numerical data
mstat006 Constructing a box-and-whisker plot
mstat007 Interpreting a line graph
mstat008 Word problem involving permutations
mstat009 Word problem involving combinations
mstat010 Probability of an event
mstat011 Area as probability
mstat012 Probability of independent events
mstat013 Probability of dependent events
mstat015 Counting principle
mstat017 Computing permutations and combinations
mstat023 Scatter plots and correlation
mstat024 Interpreting a bar graph
mstat025 Finding if a question can be answered by the data
mstat026 Introduction to the probability of an event
mstat027 Using back-to-back stem-and-leaf plots to compare data sets
mstat028 Mean and median of a data set
mstat029 How changing a value affects the mean and median
mstat030 Sketching the line of best fit
mstat031 Interpreting a stem-and-leaf plot
mstat032 Probability of the union of two events
mstat037 Constructing a line plot
mstat040 Introduction to the counting principle
mstat041 Interpreting a tree diagram
mstat042 Interpreting a Venn diagram of 2 sets
mstat043 Interpreting a Venn diagram of 3 sets
mstat044 Interpreting a double bar graph
mstat046 Experimental and theoretical probability
mstat047 Introduction to expectation
mstat048 Odds of an event
mstat049 Computing a percentage from a table of values
mstat053 Choosing the best measure to describe data
mstat055 Finding the mode and range of a data set
mstat066 Weighted mean
mstat067 Approximating the equation of a line of best fit and making predictions
mstat068 Predictions from the line of best fit
mstat069 Computing residuals
mstat070 Interpreting residual plots
mstat071 Linear relationship and the correlation coefficient
mstat072 Five-number summary and interquartile range
mstat073 Using box-and-whisker plots to compare data sets
mstat074 Identifying correlation and causation
pcalc037 Scalar multiplication of a matrix
pcalc038 Addition or subtraction of matrices
pcalc082 Factorial expressions
pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
pcalc108 Graphing a rational function: Constant or linear over linear
pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
pcalc607 Using a trigonometric ratio to find a side length in a right triangle
pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
pcalc610 Using trigonometry to find a length in a word problem with one right triangle
pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
pcalc616 Using a calculator to approximate sine, cosine, and tangent values
pcalc642 Solving a right triangle
pcalc712 Gauss-Jordan elimination with a 2x2 matrix
pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
pcalc740 Linear combination of matrices

pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 pcalc775 Finding the maximum or minimum of a quadratic function
 pcalc781 Graphing a square root function
 pcalc789 Finding the asymptotes of a rational function: Basic
 stat009 Percentiles
 stat020 Calculating relative frequencies in a contingency table
 stat021 Population standard deviation
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 stat790 Permutations, combinations, and the multiplication principle for counting
 stat801 Computations from a circle graph
 stat802 Rejecting unreasonable claims based on average statistics
 stat804 Interpreting a circle graph or pie chart
 stat805 Making a reasonable inference based on proportion statistics
 unit001 Metric distance conversion with whole number values
 unit005 U.S. Customary unit conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 fun019 Sum, difference, and product of two functions
 pcalc114 Even and odd functions: Problem type 1
 pcalc633 Amplitude and period of sine and cosine functions
 pcalc635 Writing the equation of a sine or cosine function given its graph: Problem type 1
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps

B.50 Mathematics for College Readiness (Segment 2)

Module 6: Seeing Structure in Expressions

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 arith108 Integer addition: Problem type 2
 arith689 Integer subtraction: Problem type 2
 arith116 Signed fraction addition or subtraction: Basic
 arith800 Multiplication of 3 or 4 integers
 arith822 Signed fraction multiplication: Basic
 arith093 Simplifying the square root of a whole number less than 100
 alge006 Solving a two-step equation with integers
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge790 Evaluating expressions with exponents of zero
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 alge791 Rewriting an algebraic expression without a negative exponent
 alge030 Product rule with positive exponents: Multivariate
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge027 Power rules with positive exponents

alge025 Power of a power rule with negative exponents
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge032 Squaring a binomial: Univariate
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge039 Factoring a quadratic with leading coefficient 1
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge094 Completing the square
 alge946 Factoring a perfect square trinomial in two variables
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge778 Using i to rewrite square roots of negative numbers
 pcalc051 Solving a quadratic equation with complex roots
 alge971 Table for an exponential function
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge741 Finding the final amount in a word problem on compound interest
 alge993 Comparing linear, polynomial, and exponential functions

Module 7: Building and Interpreting Functions

set001 Set builder notation
 set002 Union and intersection of finite sets
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 alge896 Graphing an integer function and finding its range for a given domain
 pcalc761 Finding inputs and outputs of a function from its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 pcalc114 Even and odd functions: Problem type 1
 fun019 Sum, difference, and product of two functions
 alge880 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge196 Graphing a line through a given point with a given slope
 alge882 Graphing a line by first finding its slope and y -intercept

alge883 Graphing a line given its equation in point-slope form
 alge198 Graphing a vertical or horizontal line
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
 alge892 Writing an equation and graphing a line given its slope and y -intercept
 alge070 Writing an equation of a line given the y -intercept and another point
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge894 Writing an equation in point-slope form given the slope and a point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge990 Domain and range of a linear function that models a real-world situation
 alge828 Interpreting direct variation from a graph
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge991 Solving a linear equation by graphing
 fun030 Evaluating a piecewise-defined function
 fun031 Graphing a piecewise-defined function: Problem type 1
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph
 alge913 Graphing an absolute value equation of the form $y = A - x -$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge702 Classifying the graph of a function
 alge723 How the leading coefficient affects the shape of a parabola
 alge975 Domain and range from the graph of a parabola
 alge974 Finding the vertex, x -intercepts, and axis of symmetry from the graph of a parabola
 alge277 Finding the x -intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge976 Range of a quadratic function
 alge996 Comparing properties of quadratic functions given in different forms
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge957 Solving a quadratic equation by graphing
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge953 Translating the graph of a parabola: One step
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps

fun012 Inverse functions: Linear, discrete
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 alge716 Introduction to the composition of two functions
 alge992 Combining functions to write a new function that models a real-world situation
 alge830 Evaluating an exponential function that models a real-world situation
 alge968 Writing an equation that models exponential growth or decay
 alge966 Finding the initial amount and rate of change given an exponential function
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear
 pcalc633 Amplitude and period of sine and cosine functions
 pcalc635 Writing the equation of a sine or cosine function given its graph: Problem type 1

Module 8: Expressing Geometric Properties with Equations

geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom221 Finding the missing length in a figure
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom016 Circumference of a circle
 geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom802 Circumference and area of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 geom311 Volume of a rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom039 Finding supplementary and complementary angles
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge895 Identifying parallel and perpendicular lines from equations
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane

Module 9: The Real Number System

alge984 Classifying sums and products as rational or irrational
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents

Module 10: Interpreting Categorical and Quantitative Data

mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart
 mstat025 Finding if a question can be answered by the data
 mstat049 Computing a percentage from a table of values
 stat020 Calculating relative frequencies in a contingency table
 mstat023 Scatter plots and correlation
 mstat030 Sketching the line of best fit
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation

Extra

arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement
 alge015 Translating a sentence by using an inequality symbol
 alge016 Translating a sentence into a one-step equation

alge186 Translating a sentence into a compound inequality
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge729 Writing a multi-step inequality for a real-world situation
alge730 Writing a multi-step equation for a real-world situation
alge748 Writing an inequality for a real-world situation
alge831 Translating a phrase into a one-step expression
alge841 Translating a sentence into a multi-step equation
alge845 Translating a sentence into a one-step inequality
alge846 Translating a sentence into a multi-step inequality
alge897 Writing and evaluating a function that models a real-world situation: Advanced
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith101 Estimating a sum of whole numbers
arith233 Introduction to exponents
arith692 Writing expressions using exponents
arith683 Power of 10: Positive exponent
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
alge731 Evaluating an algebraic expression: Whole numbers with two operations
alge832 Evaluating an algebraic expression: Whole number operations and exponents
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith240 Word problem with common multiples
arith212 Equivalent fractions
arith067 Simplifying a fraction
arith092 Using a common denominator to order fractions
arith618 Addition or subtraction of fractions with the same denominator
arith801 Finding the LCD of two fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith095 Multi-step word problem involving fractions and multiplication
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith085 Addition or subtraction of mixed numbers with different denominators
arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals

arith131 Estimating a decimal sum or difference
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
arith019 Division of a decimal by a 2-digit decimal
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith628 Word problem with multiple decimal operations: Problem type 1
mstat038 Reading the temperature from a thermometer
arith699 Writing a signed number for a real-world situation
alge286 Plotting integers on a number line
arith687 Fractional position on a number line
arith605 Plotting rational numbers on a number line
arith691 Ordering integers
arith712 Ordering real numbers
arith200 Integer addition: Problem type 1
arith688 Integer subtraction: Problem type 1
arith690 Integer subtraction: Problem type 3
arith701 Word problem with addition or subtraction of integers
arith106 Signed fraction addition or subtraction: Advanced
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith231 Integer multiplication and division
arith105 Signed fraction multiplication: Advanced
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
arith071 Absolute value of a number
arith104 Operations with absolute value: Problem type 2
geom525 Computing distances between decimals on the number line
alge187 Properties of addition
alge188 Properties of real numbers
arith657 Understanding the distributive property
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge700 Combining like terms: Whole number coefficients
alge607 Combining like terms: Integer coefficients
alge663 Combining like terms: Advanced
alge293 Combining like terms in a quadratic expression
alge009 Additive property of equality with whole numbers
alge801 Additive property of equality with fractions and mixed numbers
alge800 Additive property of equality with decimals
alge010 Additive property of equality with integers
alge266 Additive property of equality with a negative coefficient
alge836 Additive property of equality with signed fractions
alge008 Multiplicative property of equality with whole numbers
alge820 Multiplicative property of equality with fractions
alge825 Multiplicative property of equality with decimals
alge797 Multiplicative property of equality with integers
alge012 Multiplicative property of equality with signed fractions
alge834 Identifying solutions to a linear equation in one variable: Two-step equations
alge803 Using two steps to solve an equation with whole numbers
alge837 Solving a multi-step equation given in fractional form
alge208 Solving a two-step equation with signed fractions
alge824 Solving a two-step equation with signed decimals
alge200 Solving an equation to find the value of an expression

alge920 Introduction to solving an equation with parentheses
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
alge742 Solving equations with zero, one, or infinitely many solutions
alge986 Identifying properties used to solve a linear equation
alge810 Introduction to algebraic symbol manipulation
alge743 Algebraic symbol manipulation: Problem type 1
alge744 Algebraic symbol manipulation: Problem type 2
alge733 Writing a one-step expression for a real-world situation
alge291 Translating a phrase into a two-step expression
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge014 Solving a word problem with two unknowns using a linear equation
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge794 Solving a value mixture problem using a linear equation
alge795 Solving a percent mixture problem using a linear equation
stat803 Finding the value for a new score that will yield a given mean
arith663 Writing ratios for real-world situations
alge272 Solving a proportion of the form $x/a = b/c$
alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
arith064 Solving a word problem on proportions using a unit rate
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
geom037 Similar polygons
geom038 Similar right triangles
geom337 Indirect measurement
arith226 Converting between percentages and decimals
arith090 Converting a percentage to a fraction in simplest form
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith069 Writing a ratio as a percentage without a calculator
arith030 Finding a percentage of a whole number without a calculator: Basic
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced
arith232 Finding simple interest without a calculator
unit005 U.S. Customary unit conversion with whole number values
unit001 Metric distance conversion with whole number values
unit034 Converting between metric and U.S. Customary unit systems
alge864 Solving an absolute value equation: Problem type 1
alge865 Solving an absolute value equation: Problem type 2
alge866 Solving an absolute value equation: Problem type 3
alge867 Solving an absolute value equation: Problem type 4
alge017 Graphing a linear inequality on the number line
alge822 Writing an inequality given a graph on the number line
alge166 Graphing a compound inequality on the number line
alge847 Writing a compound inequality given a graph on the number line
alge844 Identifying solutions to a two-step linear inequality in one variable
alge848 Additive property of inequality with whole numbers
alge849 Additive property of inequality with integers

alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge943 Writing an absolute value inequality given a graph on the number line
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge873 Identifying solutions to a linear equation in two variables
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge908 Finding the first terms of a sequence using a recursive rule
 alge910 Writing a recursive rule for an arithmetic sequence
 alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line

alge079 Graphing a system of two linear inequalities: Basic
alge921 Graphing a system of two linear inequalities: Advanced
alge922 Graphing a system of three linear inequalities
pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
pcalc037 Scalar multiplication of a matrix
pcalc038 Addition or subtraction of matrices
pcalc740 Linear combination of matrices
pcalc712 Gauss-Jordan elimination with a 2x2 matrix
arith684 Power of 10: Negative exponent
arith043 Evaluating an expression with a negative exponent: Negative integer base
arith029 Ordering numbers with positive exponents
arith024 Ordering numbers with negative exponents
alge821 Understanding the product rule of exponents
alge024 Introduction to the product rule of exponents
alge961 Introduction to the product rule with negative exponents
alge026 Quotient of expressions involving exponents
alge926 Quotient rule with negative exponents: Problem type 2
alge826 Understanding the power rules of exponents
alge754 Introduction to the power rules of exponents
alge799 Power rules with negative exponents
alge756 Power and product rules with positive exponents
alge927 Power and quotient rules with positive exponents
alge928 Power and quotient rules with negative exponents: Problem type 1
alge929 Power and quotient rules with negative exponents: Problem type 2
alge757 Power, product, and quotient rules with negative exponents
arith036 Scientific notation with positive exponent
arith037 Scientific notation with negative exponent
scinot002 Multiplying and dividing numbers written in scientific notation
alge933 Finding the next terms of a geometric sequence with whole numbers
alge907 Finding the next terms of a geometric sequence with signed numbers
alge981 Identifying arithmetic and geometric sequences
alge980 Identifying geometric sequences and finding the common ratio
alge934 Finding a specified term of a geometric sequence given the first terms
pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
alge911 Writing recursive rules for arithmetic and geometric sequences
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge029 Simplifying a sum or difference of three univariate polynomials
alge932 Simplifying a sum or difference of multivariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
alge835 Multiplying a multivariate polynomial by a monomial
alge033 Multiplying binomials with leading coefficients of 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge081 Multiplying conjugate binomials: Multivariate
alge068 Squaring a binomial: Multivariate
alge973 Multiplying binomials with negative coefficients
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
alge759 Dividing a polynomial by a monomial: Univariate
alge760 Dividing a polynomial by a monomial: Multivariate
alge761 Polynomial long division: Problem type 1
alge762 Polynomial long division: Problem type 2
alge763 Polynomial long division: Problem type 3
alge985 Closure properties of integers and polynomials
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge930 Greatest common factor of three univariate monomials
alge739 Factoring out a monomial from a polynomial: Multivariate
alge949 Factoring out a binomial from a polynomial: GCF factoring, basic

alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle
 alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax, bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a, x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators $a, x,$ or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge903 Identifying direct and inverse variation equations
 alge905 Writing an inverse variation equation
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 mstat037 Constructing a line plot
 stat801 Computations from a circle graph

geom814 Angle measure in a circle graph

 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom842 Surface area of a sphere
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles

Real Numbers and Algebraic Expressions

arith687 Fractional position on a number line
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 alge286 Plotting integers on a number line
 arith605 Plotting rational numbers on a number line
 arith699 Writing a signed number for a real-world situation
 arith092 Using a common denominator to order fractions
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith609 Ordering fractions and decimals
 arith691 Ordering integers
 arith016 Square root of a perfect square
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 arith712 Ordering real numbers
 arith071 Absolute value of a number
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith755 Addition and subtraction with 4 or 5 integers
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith711 Division involving zero
 alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith814 Signed fraction division
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith750 Signed decimal multiplication
 arith751 Signed decimal division
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction

alge004 Evaluating a quadratic expression: Integers
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 arith657 Understanding the distributive property
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a)/b = c/d$

alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge518 Solving for a variable inside parentheses in terms of other variables
alge507 Solving for a variable in terms of other variables in a linear equation with fractions
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
alge016 Translating a sentence into a one-step equation
alge841 Translating a sentence into a multi-step equation
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge014 Solving a word problem with two unknowns using a linear equation
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge730 Writing a multi-step equation for a real-world situation
alge794 Solving a value mixture problem using a linear equation
alge823 Solving a one-step word problem using the formula $d = rt$
alge218 Solving a word problem involving rates and time conversion
alge796 Solving a distance, rate, time problem using a linear equation
mstat065 Converting between temperatures in Fahrenheit and Celsius
geom217 Finding the side length of a rectangle given its perimeter or area
geom817 Finding a side length given the perimeter and side lengths with variables
geom143 Finding the perimeter or area of a rectangle given one of these values
geom218 Finding the radius or the diameter of a circle given its circumference
geom530 Solving equations involving vertical angles
geom001 Finding an angle measure of a triangle given two angles
geom623 Finding angle measures of a triangle given angles with variables
geom502 Finding angle measures of a right or isosceles triangle given angles with variables
geom812 Finding an angle measure given extended triangles
geom813 Finding an angle measure given a triangle and parallel lines
stat803 Finding the value for a new score that will yield a given mean
arith840 Finding a percentage of a whole number
arith030 Finding a percentage of a whole number without a calculator: Basic
arith844 Finding a percentage of a whole number without a calculator: Advanced
arith862 Applying the percent equation: Problem type 1
arith863 Applying the percent equation: Problem type 2
arith845 Finding a percentage of a total amount: Real-world situations
arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
arith857 Estimating a tip without a calculator
arith069 Writing a ratio as a percentage without a calculator
mstat049 Computing a percentage from a table of values
arith850 Finding the rate of a tax or commission
arith849 Finding the total amount given the percentage of a partial amount
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
unit052 Finding the absolute error and percent error of a measurement
arith854 Computing a percent mixture
alge795 Solving a percent mixture problem using a linear equation
stat804 Interpreting a circle graph or pie chart
arith856 Finding a percentage of a total amount in a circle graph

stat801 Computations from a circle graph
 arith232 Finding simple interest without a calculator

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 set001 Set builder notation
 set004 Set builder and interval notation
 set002 Union and intersection of finite sets
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge747 Solving a compound linear inequality: Interval notation
 alge868 Solving an absolute value inequality: Problem type 1
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides

Lines and Functions

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge191 Midpoint of a line segment in the plane
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line

alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge991 Solving a linear equation by graphing
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge913 Graphing an absolute value equation of the form $y = A - x -$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 fun024 Domain and range from the graph of a continuous function

alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2×2 system of linear equations that is inconsistent or consistent dependent
 alge988 Identifying the operations used to create equivalent systems of equations
 alge753 Solving a 3×3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3×3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1

Exponents

alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 arith029 Ordering numbers with positive exponents
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge756 Power and product rules with positive exponents

alge451 Simplifying a ratio of multivariate monomials: Basic
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 alge453 Simplifying a ratio of multivariate monomials: Advanced
 alge927 Power and quotient rules with positive exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 arith853 Introduction to compound interest
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge993 Comparing linear, polynomial, and exponential functions

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients

alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge605 Factoring a linear binomial
 alge736 Introduction to the GCF of two monomials
 alge930 Greatest common factor of three univariate monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge467 Restriction on a variable in a denominator: Quadratic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 alge715 Domain of a rational function: Excluded values
 alge454 Simplifying a ratio of factored polynomials: Linear factors
 alge455 Simplifying a ratio of factored polynomials: Factors with exponents
 alge456 Simplifying a ratio of polynomials using GCF factoring

alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
alge710 Simplifying a ratio of polynomials: Problem type 1
alge682 Simplifying a ratio of polynomials: Problem type 2
alge459 Simplifying a ratio of polynomials: Problem type 3
alge034 Simplifying a ratio of multivariate polynomials
alge053 Multiplying rational expressions involving multivariate monomials
alge460 Multiplying rational expressions made up of linear expressions
alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
alge462 Multiplying rational expressions involving multivariate quadratics
alge054 Dividing rational expressions involving multivariate monomials
alge463 Dividing rational expressions involving linear expressions
alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
alge465 Dividing rational expressions involving multivariate quadratics
alge466 Multiplication and division of 3 rational expressions
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
alge428 Finding the LCD of rational expressions with linear denominators: Common factors
alge429 Finding the LCD of rational expressions with quadratic denominators
alge430 Writing equivalent rational expressions with monomial denominators
alge431 Writing equivalent rational expressions with polynomial denominators
alge304 Writing equivalent rational expressions involving opposite factors
alge432 Introduction to adding fractions with variables and common denominators
alge433 Adding rational expressions with common denominators and monomial numerators
alge056 Adding rational expressions with common denominators and binomial numerators
alge434 Adding rational expressions with common denominators and GCF factoring
alge435 Adding rational expressions with common denominators and quadratic factoring
alge436 Adding rational expressions with different denominators and a single occurrence of a variable
alge437 Adding rational expressions with denominators ax and bx : Basic
alge438 Adding rational expressions with denominators ax and bx : Advanced
alge439 Adding rational expressions with denominators axn and bxm
alge440 Adding rational expressions with multivariate monomial denominators: Basic
alge226 Adding rational expressions with multivariate monomial denominators: Advanced
alge441 Adding rational expressions with linear denominators without common factors: Basic
alge442 Adding rational expressions with linear denominators without common factors: Advanced
alge443 Adding rational expressions with linear denominators with common factors: Basic
alge444 Adding rational expressions with linear denominators with common factors: Advanced
alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
alge661 Adding rational expressions involving different quadratic denominators
alge446 Adding 3 rational expressions with different quadratic denominators
arith695 Complex fraction without variables: Problem type 1
arith696 Complex fraction without variables: Problem type 2
alge470 Complex fraction involving univariate monomials
alge058 Complex fraction involving multivariate monomials
alge471 Complex fraction: GCF factoring
alge472 Complex fraction: Quadratic factoring
alge473 Complex fraction made of sums involving rational expressions: Problem type 1
alge474 Complex fraction made of sums involving rational expressions: Problem type 2
alge475 Complex fraction made of sums involving rational expressions: Problem type 3
alge476 Complex fraction made of sums involving rational expressions: Problem type 4
alge477 Complex fraction made of sums involving rational expressions: Problem type 5
alge478 Complex fraction made of sums involving rational expressions: Problem type 6
alge479 Complex fraction made of sums involving rational expressions: Multivariate
alge480 Complex fraction with negative exponents: Problem type 1
alge481 Complex fraction with negative exponents: Problem type 2
alge162 Complex fraction that contains a complex fraction
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$

alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
 alge422 Solving a rational equation that simplifies to linear: Like binomial denominators
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
 alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1
 alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
 alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom838 Circumference ratios
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge450 Solving a distance, rate, time problem using a rational equation
 alge059 Ordering fractions with variables
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation

Radicals

alge413 Finding all square roots of a number
 arith601 Square root of a rational perfect square
 arith760 Square roots of perfect squares with signs
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 arith094 Cube root of an integer
 alge549 Finding n th roots of perfect n th powers with signs
 arith768 Finding the n th root of a perfect n th power fraction

alge550 Finding the n th root of a perfect n th power monomial
arith093 Simplifying the square root of a whole number less than 100
arith762 Simplifying the square root of a whole number greater than 100
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
alge275 Simplifying a radical expression with two variables
alge273 Simplifying a higher root of a whole number
alge551 Introduction to simplifying a higher radical expression
alge552 Simplifying a higher radical expression: Univariate
alge811 Simplifying a higher radical expression: Multivariate
arith767 Introduction to square root addition or subtraction
arith032 Square root addition or subtraction
alge533 Square root addition or subtraction with three terms
alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
alge532 Simplifying a sum or difference of radical expressions: Univariate
alge084 Simplifying a sum or difference of radical expressions: Multivariate
alge554 Simplifying a sum or difference of higher roots
alge555 Simplifying a sum or difference of higher radical expressions
arith764 Introduction to square root multiplication
arith765 Square root multiplication: Basic
arith039 Square root multiplication: Advanced
alge522 Introduction to simplifying a product of radical expressions: Univariate
alge523 Simplifying a product of radical expressions: Univariate
alge640 Simplifying a product of radical expressions: Multivariate
alge556 Introduction to simplifying a product of higher roots
alge557 Simplifying a product of higher radical expressions
alge525 Introduction to simplifying a product involving square roots using the distributive property
alge526 Simplifying a product involving square roots using the distributive property: Basic
alge276 Simplifying a product involving square roots using the distributive property: Advanced
alge774 Special products of radical expressions: Conjugates and squaring
alge984 Classifying sums and products as rational or irrational
arith766 Simplifying a quotient of square roots
alge530 Simplifying a quotient involving a sum or difference with a square root
alge527 Rationalizing a denominator: Quotient involving square roots
alge528 Rationalizing a denominator: Square root of a fraction
alge529 Rationalizing a denominator: Quotient involving a monomial
alge534 Rationalizing a denominator using conjugates: Integer numerator
alge535 Rationalizing a denominator using conjugates: Square root in numerator
alge536 Rationalizing a denominator using conjugates: Variable in denominator
alge564 Rationalizing a denominator: Quotient involving a higher radical
alge400 Introduction to solving a radical equation
alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
alge411 Solving a radical equation with a quadratic expression under the radical
alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
alge410 Solving an equation with a root index greater than 2: Problem type 1
alge417 Solving an equation with a root index greater than 2: Problem type 2
alge412 Algebraic symbol manipulation with radicals
alge542 Word problem involving radical equations: Basic
alge409 Word problem involving radical equations: Advanced
alge132 Distance between two points in the plane: Exact answers
alge539 Table for a square root function
alge540 Domain of a square root function: Basic
pcalc763 Domain of a square root function: Advanced
alge543 Graphing a square root function: Problem type 1
alge544 Graphing a square root function: Problem type 2
alge812 Converting between radical form and exponent form

alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge561 Rational exponents: Unit fraction exponents and bases involving signs
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge558 Rational exponents: Product rule
 alge559 Rational exponents: Quotient rule
 alge773 Rational exponents: Products and quotients with negative exponents
 alge562 Rational exponents: Power of a power rule
 alge249 Rational exponents: Powers of powers with negative exponents
 alge563 Simplifying products or quotients of higher radicals with different indices: Univariate

Complex Numbers and Quadratic Equations

alge778 Using i to rewrite square roots of negative numbers
 alge779 Simplifying a product and quotient involving square roots of negative numbers
 pcalc048 Adding or subtracting complex numbers
 pcalc049 Multiplying complex numbers
 pcalc050 Dividing complex numbers
 pcalc053 Simplifying a power of i
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge963 Applying the quadratic formula: Decimal answers
 pcalc051 Solving a quadratic equation with complex roots
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge974 Finding the vertex, x -intercepts, and axis of symmetry from the graph of a parabola
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge277 Finding the x -intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 pcalc762 Range of a quadratic function
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 alge723 How the leading coefficient affects the shape of a parabola
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun019 Sum, difference, and product of two functions
 fun022 Composition of two functions: Basic
 pcalc776 Expressing a function as a composition of two functions
 pcalc924 Determining whether an equation defines a function: Basic
 pcalc757 Determining whether an equation defines a function: Advanced

B.52 Math for 4-Year College Success

Real Numbers

arith687 Fractional position on a number line
arith829 Reading decimal position on a number line: Tenths
arith830 Reading decimal position on a number line: Hundredths
alge286 Plotting integers on a number line
arith605 Plotting rational numbers on a number line
arith691 Ordering integers
arith016 Square root of a perfect square
arith763 Using a calculator to approximate a square root
arith602 Estimating a square root
arith712 Ordering real numbers
arith071 Absolute value of a number
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith711 Division involving zero
alge001 Identifying numbers as integers or non-integers
alge002 Identifying numbers as rational or irrational
arith070 Least common multiple of 2 numbers
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith814 Signed fraction division
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith750 Signed decimal multiplication
arith751 Signed decimal division
arith104 Operations with absolute value: Problem type 2
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge700 Combining like terms: Whole number coefficients
alge607 Combining like terms: Integer coefficients
arith655 Introduction to properties of addition
alge187 Properties of addition
alge310 Multiplying a constant and a linear monomial
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
arith656 Introduction to properties of multiplication
alge188 Properties of real numbers
alge608 Using distribution and combining like terms to simplify: Univariate
alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
alge293 Combining like terms in a quadratic expression
geom300 Perimeter of a square or a rectangle
geom078 Sides of polygons having the same perimeter
geom019 Area of a square or a rectangle

geom620 Area of a rectangle involving fractions
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom016 Circumference of a circle
 geom301 Perimeter involving rectangles and circles
 geom802 Circumference and area of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom311 Volume of a rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom841 Volume of a sphere
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom842 Surface area of a sphere

Linear Equations and Inequalities

alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a)/b = c/d$
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic

alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge518 Solving for a variable inside parentheses in terms of other variables
alge507 Solving for a variable in terms of other variables in a linear equation with fractions
mstat065 Converting between temperatures in Fahrenheit and Celsius
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
alge016 Translating a sentence into a one-step equation
alge841 Translating a sentence into a multi-step equation
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge014 Solving a word problem with two unknowns using a linear equation
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge730 Writing a multi-step equation for a real-world situation
alge794 Solving a value mixture problem using a linear equation
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
alge823 Solving a one-step word problem using the formula $d = rt$
alge218 Solving a word problem involving rates and time conversion
alge796 Solving a distance, rate, time problem using a linear equation
geom217 Finding the side length of a rectangle given its perimeter or area
geom817 Finding a side length given the perimeter and side lengths with variables
geom143 Finding the perimeter or area of a rectangle given one of these values
geom838 Circumference ratios
geom530 Solving equations involving vertical angles
geom623 Finding angle measures of a triangle given angles with variables
geom502 Finding angle measures of a right or isosceles triangle given angles with variables
stat803 Finding the value for a new score that will yield a given mean
mstat049 Computing a percentage from a table of values
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
arith854 Computing a percent mixture
alge795 Solving a percent mixture problem using a linear equation
arith856 Finding a percentage of a total amount in a circle graph
stat801 Computations from a circle graph
arith232 Finding simple interest without a calculator
alge015 Translating a sentence by using an inequality symbol
alge845 Translating a sentence into a one-step inequality
alge846 Translating a sentence into a multi-step inequality
alge748 Writing an inequality for a real-world situation
alge017 Graphing a linear inequality on the number line
alge822 Writing an inequality given a graph on the number line
alge186 Translating a sentence into a compound inequality
alge166 Graphing a compound inequality on the number line
alge847 Writing a compound inequality given a graph on the number line
set001 Set builder notation
set004 Set builder and interval notation
set002 Union and intersection of finite sets
set005 Union and intersection of intervals
alge844 Identifying solutions to a two-step linear inequality in one variable

alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge747 Solving a compound linear inequality: Interval notation
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4
 alge167 Solving an absolute value equation of the form $-ax+b = -cx+d$
 alge868 Solving an absolute value inequality: Problem type 1
 alge943 Writing an absolute value inequality given a graph on the number line
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Lines and Functions

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x- and y-intercepts given the graph of a line on a grid
 alge924 Finding x- and y-intercepts of a line given the equation: Basic
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x- and y-intercepts
 alge881 Graphing a line by first finding its x- and y-intercepts
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax+By=C$
 alge882 Graphing a line by first finding its slope and y-intercept

alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge991 Solving a linear equation by graphing
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun030 Evaluating a piecewise-defined function
 fun033 Variable expressions as inputs of functions: Problem type 1
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 fun024 Domain and range from the graph of a continuous function
 fun025 Domain and range from the graph of a piecewise function
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge913 Graphing an absolute value equation of the form $y = A - x -$
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun031 Graphing a piecewise-defined function: Problem type 1

Systems of Linear Equations

alge914 Identifying solutions to a system of linear equations

alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge077 Creating an inconsistent system of linear equations
 alge988 Identifying the operations used to create equivalent systems of equations
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc095 Linear programming
 pcalc094 Solving a word problem using linear programming
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc042 Finding the determinant of a 2x2 matrix
 pcalc043 Finding the determinant of a 3x3 matrix
 pcalc045 Using Cramer's rule to solve a 2x2 system of linear equations
 pcalc047 Using Cramer's rule to solve a 3x3 system of linear equations
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix
 pcalc046 Solving a system of linear equations given its augmented matrix

Exponents and Polynomials

alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 arith029 Ordering numbers with positive exponents
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge756 Power and product rules with positive exponents
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 alge453 Simplifying a ratio of multivariate monomials: Advanced
 alge927 Power and quotient rules with positive exponents

alge790 Evaluating expressions with exponents of zero
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 pcalc117 Synthetic division
 pcalc786 Using the remainder theorem to evaluate a polynomial
 alge985 Closure properties of integers and polynomials

Factoring Polynomials

arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 alge605 Factoring a linear binomial
 alge736 Introduction to the GCF of two monomials
 alge930 Greatest common factor of three univariate monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate

alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge046 Roots of a product of polynomials
 alge163 Writing a quadratic equation given the roots and the leading coefficient
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge467 Restriction on a variable in a denominator: Quadratic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 alge715 Domain of a rational function: Excluded values
 alge454 Simplifying a ratio of factored polynomials: Linear factors
 alge455 Simplifying a ratio of factored polynomials: Factors with exponents
 alge456 Simplifying a ratio of polynomials using GCF factoring
 alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
 alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge459 Simplifying a ratio of polynomials: Problem type 3
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge460 Multiplying rational expressions made up of linear expressions
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
 alge462 Multiplying rational expressions involving multivariate quadratics
 alge054 Dividing rational expressions involving multivariate monomials

alge463 Dividing rational expressions involving linear expressions
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
 alge465 Dividing rational expressions involving multivariate quadratics
 alge466 Multiplication and division of 3 rational expressions
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
 alge428 Finding the LCD of rational expressions with linear denominators: Common factors
 alge429 Finding the LCD of rational expressions with quadratic denominators
 alge430 Writing equivalent rational expressions with monomial denominators
 alge431 Writing equivalent rational expressions with polynomial denominators
 alge304 Writing equivalent rational expressions involving opposite factors
 alge432 Introduction to adding fractions with variables and common denominators
 alge433 Adding rational expressions with common denominators and monomial numerators
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge434 Adding rational expressions with common denominators and GCF factoring
 alge435 Adding rational expressions with common denominators and quadratic factoring
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge437 Adding rational expressions with denominators ax and bx : Basic
 alge438 Adding rational expressions with denominators ax and bx : Advanced
 alge439 Adding rational expressions with denominators axn and bxm
 alge440 Adding rational expressions with multivariate monomial denominators: Basic
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge441 Adding rational expressions with linear denominators without common factors: Basic
 alge442 Adding rational expressions with linear denominators without common factors: Advanced
 alge443 Adding rational expressions with linear denominators with common factors: Basic
 alge444 Adding rational expressions with linear denominators with common factors: Advanced
 alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
 alge661 Adding rational expressions involving different quadratic denominators
 alge446 Adding 3 rational expressions with different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge470 Complex fraction involving univariate monomials
 alge058 Complex fraction involving multivariate monomials
 alge471 Complex fraction: GCF factoring
 alge472 Complex fraction: Quadratic factoring
 alge473 Complex fraction made of sums involving rational expressions: Problem type 1
 alge474 Complex fraction made of sums involving rational expressions: Problem type 2
 alge475 Complex fraction made of sums involving rational expressions: Problem type 3
 alge476 Complex fraction made of sums involving rational expressions: Problem type 4
 alge477 Complex fraction made of sums involving rational expressions: Problem type 5
 alge478 Complex fraction made of sums involving rational expressions: Problem type 6
 alge479 Complex fraction made of sums involving rational expressions: Multivariate
 alge480 Complex fraction with negative exponents: Problem type 1
 alge481 Complex fraction with negative exponents: Problem type 2
 alge162 Complex fraction that contains a complex fraction
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
 alge422 Solving a rational equation that simplifies to linear: Like binomial denominators
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
 alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1

alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
 alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom133 Ratio of volumes
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge450 Solving a distance, rate, time problem using a rational equation
 alge059 Ordering fractions with variables
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation
 pcalc917 Finding the asymptotes of a rational function: Constant over linear
 pcalc918 Finding the asymptotes of a rational function: Linear over linear
 alge515 Graphing a rational function: Constant over linear
 alge516 Graphing a rational function: Linear over linear

Radicals

alge413 Finding all square roots of a number
 arith601 Square root of a rational perfect square
 arith760 Square roots of perfect squares with signs
 arith761 Square roots of integers raised to even exponents
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 alge537 Using absolute value to simplify square roots of perfect square monomials
 arith094 Cube root of an integer
 alge549 Finding n th roots of perfect n th powers with signs
 arith768 Finding the n th root of a perfect n th power fraction
 alge550 Finding the n th root of a perfect n th power monomial
 alge538 Using absolute value to simplify higher radical expressions
 alge539 Table for a square root function
 alge546 Evaluating a cube root function
 alge540 Domain of a square root function: Basic
 pcalc763 Domain of a square root function: Advanced
 alge547 Domains of higher root functions
 alge543 Graphing a square root function: Problem type 1
 alge544 Graphing a square root function: Problem type 2
 alge545 Graphing a square root function: Problem type 3
 alge548 Graphing a cube root function
 alge812 Converting between radical form and exponent form
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge561 Rational exponents: Unit fraction exponents and bases involving signs
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge558 Rational exponents: Product rule
 alge559 Rational exponents: Quotient rule
 alge773 Rational exponents: Products and quotients with negative exponents

alge562 Rational exponents: Power of a power rule
 alge249 Rational exponents: Powers of powers with negative exponents
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge080 Simplifying a radical expression with an even exponent
 alge520 Introduction to simplifying a radical expression with an odd exponent
 alge521 Simplifying a radical expression with an odd exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge551 Introduction to simplifying a higher radical expression
 alge552 Simplifying a higher radical expression: Univariate
 alge811 Simplifying a higher radical expression: Multivariate
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 alge533 Square root addition or subtraction with three terms
 alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
 alge532 Simplifying a sum or difference of radical expressions: Univariate
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 alge554 Simplifying a sum or difference of higher roots
 alge555 Simplifying a sum or difference of higher radical expressions
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 arith039 Square root multiplication: Advanced
 alge522 Introduction to simplifying a product of radical expressions: Univariate
 alge523 Simplifying a product of radical expressions: Univariate
 alge640 Simplifying a product of radical expressions: Multivariate
 alge082 Simplifying a product of radical expressions: Multivariate, fractional expressions
 alge556 Introduction to simplifying a product of higher roots
 alge557 Simplifying a product of higher radical expressions
 alge525 Introduction to simplifying a product involving square roots using the distributive property
 alge526 Simplifying a product involving square roots using the distributive property: Basic
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge984 Classifying sums and products as rational or irrational
 arith766 Simplifying a quotient of square roots
 alge530 Simplifying a quotient involving a sum or difference with a square root
 alge527 Rationalizing a denominator: Quotient involving square roots
 alge528 Rationalizing a denominator: Square root of a fraction
 alge529 Rationalizing a denominator: Quotient involving a monomial
 alge534 Rationalizing a denominator using conjugates: Integer numerator
 alge535 Rationalizing a denominator using conjugates: Square root in numerator
 alge536 Rationalizing a denominator using conjugates: Variable in denominator
 alge564 Rationalizing a denominator: Quotient involving a higher radical
 alge775 Rationalizing a denominator: Quotient involving higher radicals and monomials
 alge563 Simplifying products or quotients of higher radicals with different indices: Univariate
 alge776 Simplifying products or quotients of higher radicals with different indices: Multivariate
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
 alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
 alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
 alge411 Solving a radical equation with a quadratic expression under the radical
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 alge412 Algebraic symbol manipulation with radicals
 alge542 Word problem involving radical equations: Basic
 alge409 Word problem involving radical equations: Advanced
 alge410 Solving an equation with a root index greater than 2: Problem type 1
 alge417 Solving an equation with a root index greater than 2: Problem type 2
 alge416 Solving an equation with exponent $1/a$: Problem type 1
 alge418 Solving an equation with exponent $1/a$: Problem type 2

alge778 Using i to rewrite square roots of negative numbers
 alge779 Simplifying a product and quotient involving square roots of negative numbers
 pcalc048 Adding or subtracting complex numbers
 pcalc049 Multiplying complex numbers
 pcalc050 Dividing complex numbers
 pcalc053 Simplifying a power of i

Quadratic Equations and Functions

alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge963 Applying the quadratic formula: Decimal answers
 pcalc051 Solving a quadratic equation with complex roots
 alge214 Discriminant of a quadratic equation
 alge193 Discriminant of a quadratic equation with parameter
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge093 Solving an equation using the odd-root property: Problem type 1
 alge228 Solving an equation using the odd-root property: Problem type 2
 alge781 Solving an equation that can be written in quadratic form: Problem type 1
 alge782 Solving an equation that can be written in quadratic form: Problem type 2
 alge230 Solving an equation with positive rational exponent
 alge231 Solving an equation with negative rational exponent
 alge974 Finding the vertex, x -intercepts, and axis of symmetry from the graph of a parabola
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge277 Finding the x -intercept(s) and the vertex of a parabola
 pcalc793 Using a graphing calculator to find the x -intercept(s) and vertex of a quadratic function
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 pcalc762 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 alge723 How the leading coefficient affects the shape of a parabola
 alge784 Solving a quadratic inequality written in factored form
 alge771 Solving a quadratic inequality
 pcalc676 Solving a polynomial inequality
 alge783 Solving a rational inequality: Problem type 1
 pcalc677 Solving a rational inequality: Problem type 2

Function Operations and Inverses

alge953 Translating the graph of a parabola: One step
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge185 Writing an equation for a function after a vertical translation

fun020 Writing an equation for a function after a vertical and horizontal translation
 fun019 Sum, difference, and product of two functions
 alge786 Quotient of two functions: Basic
 pcalc756 Combining functions: Advanced
 fun022 Composition of two functions: Basic
 pcalc776 Expressing a function as a composition of two functions
 fun021 Composition of two functions: Domain and range
 alge129 Composition of two functions: Advanced
 pcalc924 Determining whether an equation defines a function: Basic
 pcalc757 Determining whether an equation defines a function: Advanced
 fun011 Horizontal line test
 pcalc777 Determining whether two functions are inverses of each other
 fun012 Inverse functions: Linear, discrete
 alge130 Inverse functions: Rational
 pcalc778 Inverse functions: Quadratic, cubic, radical

Exponential and Logarithmic Functions

alge971 Table for an exponential function
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 pcalc922 Translating the graph of an exponential function
 pcalc797 The graph, domain, and range of an exponential function
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^{x-b} + c$
 alge830 Evaluating an exponential function that models a real-world situation
 pcalc919 Evaluating an exponential function with base e that models a real-world situation
 arith853 Introduction to compound interest
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge993 Comparing linear, polynomial, and exponential functions
 alge108 Converting between logarithmic and exponential equations
 pcalc799 Converting between natural logarithmic and exponential equations
 alge232 Evaluating a logarithmic expression
 alge233 Solving an equation of the form $\log_b a = c$
 pcalc923 Translating the graph of a logarithmic function
 alge788 Graphing a logarithmic function: Basic
 pcalc800 The graph, domain, and range of a logarithmic function
 pcalc104 Graphing a logarithmic function: Advanced
 pcalc708 Basic properties of logarithms
 pcalc779 Expanding a logarithmic expression: Problem type 1
 pcalc780 Expanding a logarithmic expression: Problem type 2
 alge787 Writing an expression as a single logarithm
 pcalc612 Change of base for logarithms: Problem type 1
 pcalc613 Change of base for logarithms: Problem type 2
 pcalc803 Solving a multi-step equation involving a single logarithm
 pcalc804 Solving a multi-step equation involving natural logarithms
 alge113 Solving an equation involving logarithms on both sides: Problem type 1
 pcalc805 Solving an equation involving logarithms on both sides: Problem type 2
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge482 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic
 pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
 alge111 Solving an exponential equation by using logarithms: Exact answers in logarithmic form
 pcalc806 Using a graphing calculator to solve an exponential or logarithmic equation
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc614 Finding the initial or final amount in a word problem on exponential growth or decay

pcalc615 Finding the rate or time in a word problem on continuous exponential growth or decay

Conic Sections and Sequences

alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 alge132 Distance between two points in the plane: Exact answers
 pcalc067 Graphing a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 pcalc068 Writing an equation of a parabola given the vertex and the focus
 pcalc069 Finding the focus of a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 pcalc605 Graphing a circle given its equation in standard form
 pcalc128 Graphing a circle given its equation in general form: Basic
 pcalc129 Graphing a circle given its equation in general form: Advanced
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 pcalc734 Graphing an ellipse given its equation in standard form
 pcalc070 Graphing an ellipse centered at the origin: $Ax^2 + By^2 = C$
 pcalc071 Graphing an ellipse given its equation in general form
 pcalc735 Graphing a hyperbola given its equation in standard form
 pcalc075 Graphing a hyperbola centered at the origin: $Ax^2 - By^2 - C = 0$
 pcalc076 Graphing a hyperbola given its equation in general form
 pcalc736 Classifying conics given their equations
 alge994 Graphically solving a system of linear and quadratic equations
 pcalc796 Using a graphing calculator to solve a system of equations
 alge995 Solving a system of linear and quadratic equations
 pcalc098 Solving a system of nonlinear equations: Problem type 1
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 pcalc096 Graphing a system of nonlinear inequalities: Problem type 1
 pcalc097 Graphing a system of nonlinear inequalities: Problem type 2
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc715 Finding a specified term of an arithmetic sequence given two terms of the sequence
 alge909 Writing an explicit rule for an arithmetic sequence
 alge910 Writing a recursive rule for an arithmetic sequence
 pcalc718 Sum of the first n terms of an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc717 Finding a specified term of a geometric sequence given two terms of the sequence
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences
 pcalc719 Sum of the first n terms of a geometric sequence
 pcalc720 Sum of an infinite geometric series
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 pcalc082 Factorial expressions
 pcalc087 Binomial formula

B.53 College Preparedness

Whole Numbers

arith124 Whole number place value: Problem type 1
arith125 Whole number place value: Problem type 2
arith066 Expanded form
arith643 Expanded form with zeros
arith028 Numeral translation: Problem type 1
arith060 Numeral translation: Problem type 2
arith633 One-digit addition with carry
arith634 Addition of 3 or 4 one-digit numbers
arith001 Addition without carry
arith635 Adding a 2-digit number and a 1-digit number with carry
arith050 Addition with carry
arith630 Addition with carry to the hundreds place
arith012 Addition of large numbers
arith636 Subtracting a 1-digit number from a 2-digit number
arith007 Subtraction without borrowing
arith128 Adding or subtracting 10, 100, or 1000
arith006 Subtraction with borrowing
arith682 Subtraction with multiple regrouping steps
arith637 Subtraction and regrouping with zeros
arith613 Word problem with addition or subtraction of whole numbers
arith655 Introduction to properties of addition
arith126 Multiplication as repeated addition
arith008 One-digit multiplication
arith679 Multiplication by 10, 100, and 1000
arith003 Multiplication without carry
arith004 Multiplication with carry
arith632 Multiplication with trailing zeros: Problem type 1
arith615 Introduction to multiplication of large numbers
arith638 Multiplication with trailing zeros: Problem type 2
arith014 Multiplication of large numbers
arith641 Multiples: Problem type 1
arith642 Multiples: Problem type 2
arith656 Introduction to properties of multiplication
arith075 Division facts
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith052 Division without carry
arith005 Division with carry
arith680 Division with trailing zeros: Problem type 1
arith649 Division with trailing zeros: Problem type 2
arith616 Quotient and remainder: Problem type 1
arith644 Word problem on quotient and remainder
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith604 Estimating a product or quotient of whole numbers
arith692 Writing expressions using exponents

arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith657 Understanding the distributive property
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge009 Additive property of equality with whole numbers
alge008 Multiplicative property of equality with whole numbers
alge803 Using two steps to solve an equation with whole numbers
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith240 Word problem with common multiples
alge925 Finding the next terms of an arithmetic sequence with whole numbers
alge933 Finding the next terms of a geometric sequence with whole numbers
alge732 Finding patterns in shapes

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith813 Multiplication of 3 fractions
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators

arith803 Addition and subtraction of 3 fractions with different denominators
 arith805 Word problem involving addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith662 Writing a mixed number and an improper fraction for a shaded region
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith215 Addition or subtraction of mixed numbers with the same denominator
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
 arith808 Addition of mixed numbers with different denominators and carry
 arith809 Subtraction of mixed numbers with different denominators and borrowing
 arith807 Addition and subtraction of 3 mixed numbers with different denominators
 arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
 arith815 Mixed number multiplication
 arith816 Multiplication of a mixed number and a whole number
 arith817 Division with a mixed number and a whole number
 arith068 Mixed number division
 arith820 Word problem involving multiplication or division with mixed numbers
 arith821 Exponents and fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3

Decimals, Proportions, and Percents

arith127 Writing a decimal and a fraction for a shaded region
 arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith734 Subtraction of aligned decimals
 arith735 Decimal subtraction: Basic
 arith736 Decimal subtraction: Advanced
 arith737 Decimal addition and subtraction with 3 or more numbers
 arith131 Estimating a decimal sum or difference
 arith132 Word problem with addition or subtraction of 2 decimals
 arith133 Word problem with addition of 3 or 4 decimals and whole numbers
 arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
 arith739 Introduction to decimal multiplication
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2

arith082 Multiplication of a decimal by a power of ten
arith738 Multiplication of a decimal by a power of 0.1
arith740 Multiplication of decimals that have a product less than 0.1
arith752 Estimating a product of decimals
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith224 Word problem with decimal addition and multiplication
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith227 Word problem with decimal subtraction and division
alge823 Solving a one-step word problem using the formula $d = rt$
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced
arith733 Using a calculator to convert a fraction to a rounded decimal
arith111 Converting a mixed number to a terminating decimal: Basic
arith112 Converting a mixed number to a terminating decimal: Advanced
arith732 Converting a fraction or mixed number to a rounded decimal
arith609 Ordering fractions and decimals
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith748 Addition or subtraction with a decimal and a mixed number
arith749 Multiplication with a decimal and a fraction
arith823 Writing ratios using different notations
arith663 Writing ratios for real-world situations
arith824 Simplifying a ratio of whole numbers: Problem type 1
arith825 Simplifying a ratio of decimals
arith827 Finding a unit price
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
arith828 Computing unit prices to find the better buy
alge272 Solving a proportion of the form $x/a = b/c$
arith064 Solving a word problem on proportions using a unit rate
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
alge063 Word problem on mixed number proportions
arith045 Word problem with powers of ten
arith836 Converting a fraction with a denominator of 100 to a percentage
arith837 Converting a percentage to a fraction with a denominator of 100
arith674 Finding the percentage of a grid that is shaded
arith723 Introduction to converting a percentage to a decimal
arith833 Introduction to converting a decimal to a percentage
arith834 Converting between percentages and decimals
arith841 Converting a mixed number percentage to a decimal
arith835 Converting between percentages and decimals in a real-world situation
arith090 Converting a percentage to a fraction in simplest form
arith839 Converting a decimal percentage to a fraction
arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith843 Using a calculator to convert a fraction to a rounded percentage

arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 mstat049 Computing a percentage from a table of values
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest

Geometry, Measurement, Data Analysis

geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 geom358 Identifying parallel and perpendicular lines
 geom349 Naming segments, rays, and lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom305 Identifying supplementary and vertical angles
 geom304 Identifying corresponding and alternate angles
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom340 Area of a piecewise rectangular figure

 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge187 Properties of addition
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression

Linear Equations and Inequalities

alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals

alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge730 Writing a multi-step equation for a real-world situation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 arith854 Computing a percent mixture
 alge795 Solving a percent mixture problem using a linear equation
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom530 Solving equations involving vertical angles
 geom531 Solving equations involving angles and a pair of parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 stat803 Finding the value for a new score that will yield a given mean

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 set001 Set builder notation
 set004 Set builder and interval notation
 set002 Union and intersection of finite sets
 set005 Union and intersection of intervals
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge747 Solving a compound linear inequality: Interval notation
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4
 alge167 Solving an absolute value equation of the form $-ax+b = -cx+d$
 alge868 Solving an absolute value inequality: Problem type 1
 alge943 Writing an absolute value inequality given a graph on the number line
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Lines, Functions, Systems

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts

alge881 Graphing a line by first finding its x- and y-intercepts
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge991 Solving a linear equation by graphing
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation
 stat021 Population standard deviation
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun030 Evaluating a piecewise-defined function
 fun033 Variable expressions as inputs of functions: Problem type 1
 pcalc924 Determining whether an equation defines a function: Basic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun007 Domain and range from the graph of a discrete relation
 fun024 Domain and range from the graph of a continuous function
 fun025 Domain and range from the graph of a piecewise function

fun026 Finding an output of a function from its graph
pcalc761 Finding inputs and outputs of a function from its graph
pcalc750 Finding intercepts of a nonlinear function given its graph
alge999 Finding where a function is increasing, decreasing, or constant given the graph
pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
pcalc752 Finding local maxima and minima of a function given the graph
mstat018 Choosing a graph to fit a narrative: Basic
mstat051 Choosing a graph to fit a narrative: Advanced
alge896 Graphing an integer function and finding its range for a given domain
alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
alge955 Graphing a parabola of the form $y = ax^2 + c$
alge572 Graphing a function of the form $f(x) = ax^2$
alge573 Graphing a function of the form $f(x) = ax^2 + c$
alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
fun031 Graphing a piecewise-defined function: Problem type 1
alge997 Finding the average rate of change of a function given its equation
alge998 Finding the average rate of change of a function given its graph
alge914 Identifying solutions to a system of linear equations
alge075 Classifying systems of linear equations from graphs
alge725 Graphically solving a system of linear equations
alge751 Solving a system of linear equations using substitution
alge915 Solving a system of linear equations using elimination with addition
alge076 Solving a system of linear equations using elimination with multiplication and addition
alge916 Solving a system of linear equations with fractional coefficients
alge917 Solving a system of linear equations with decimal coefficients
alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
alge077 Creating an inconsistent system of linear equations
alge988 Identifying the operations used to create equivalent systems of equations
alge753 Solving a 3x3 system of linear equations: Problem type 1
alge263 Interpreting the graphs of two functions
alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
alge184 Solving a value mixture problem using a system of linear equations
alge192 Solving a percent mixture problem using a system of linear equations
alge224 Solving a distance, rate, time problem using a system of linear equations
alge172 Solving a tax rate or interest rate problem using a system of linear equations
alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
alge912 Identifying solutions to a linear inequality in two variables
alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
alge720 Graphing a linear inequality in the plane: Slope-intercept form
alge018 Graphing a linear inequality in the plane: Standard form
alge079 Graphing a system of two linear inequalities: Basic
alge921 Graphing a system of two linear inequalities: Advanced
alge922 Graphing a system of three linear inequalities
alge729 Writing a multi-step inequality for a real-world situation
pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
pcalc095 Linear programming
pcalc094 Solving a word problem using linear programming
pcalc037 Scalar multiplication of a matrix
pcalc038 Addition or subtraction of matrices
pcalc740 Linear combination of matrices
pcalc042 Finding the determinant of a 2x2 matrix
pcalc043 Finding the determinant of a 3x3 matrix
pcalc045 Using Cramer's rule to solve a 2x2 system of linear equations
pcalc047 Using Cramer's rule to solve a 3x3 system of linear equations
pcalc712 Gauss-Jordan elimination with a 2x2 matrix
pcalc046 Solving a system of linear equations given its augmented matrix

Exponents and Polynomials

alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 arith029 Ordering numbers with positive exponents
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge756 Power and product rules with positive exponents
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 alge453 Simplifying a ratio of multivariate monomials: Advanced
 alge927 Power and quotient rules with positive exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate

 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 pcalc117 Synthetic division
 pcalc786 Using the remainder theorem to evaluate a polynomial
 alge985 Closure properties of integers and polynomials
 alge605 Factoring a linear binomial
 alge736 Introduction to the GCF of two monomials
 alge930 Greatest common factor of three univariate monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
 alge046 Roots of a product of polynomials
 alge163 Writing a quadratic equation given the roots and the leading coefficient

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge467 Restriction on a variable in a denominator: Quadratic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 alge715 Domain of a rational function: Excluded values
 alge454 Simplifying a ratio of factored polynomials: Linear factors
 alge455 Simplifying a ratio of factored polynomials: Factors with exponents
 alge456 Simplifying a ratio of polynomials using GCF factoring
 alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
 alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
 alge710 Simplifying a ratio of polynomials: Problem type 1

alge682 Simplifying a ratio of polynomials: Problem type 2
 alge459 Simplifying a ratio of polynomials: Problem type 3
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge460 Multiplying rational expressions made up of linear expressions
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
 alge462 Multiplying rational expressions involving multivariate quadratics
 alge054 Dividing rational expressions involving multivariate monomials
 alge463 Dividing rational expressions involving linear expressions
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
 alge465 Dividing rational expressions involving multivariate quadratics
 alge466 Multiplication and division of 3 rational expressions
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
 alge428 Finding the LCD of rational expressions with linear denominators: Common factors
 alge429 Finding the LCD of rational expressions with quadratic denominators
 alge430 Writing equivalent rational expressions with monomial denominators
 alge431 Writing equivalent rational expressions with polynomial denominators
 alge304 Writing equivalent rational expressions involving opposite factors
 alge432 Introduction to adding fractions with variables and common denominators
 alge433 Adding rational expressions with common denominators and monomial numerators
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge434 Adding rational expressions with common denominators and GCF factoring
 alge435 Adding rational expressions with common denominators and quadratic factoring
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge437 Adding rational expressions with denominators ax and bx : Basic
 alge438 Adding rational expressions with denominators ax and bx : Advanced
 alge439 Adding rational expressions with denominators axn and bxm
 alge440 Adding rational expressions with multivariate monomial denominators: Basic
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge441 Adding rational expressions with linear denominators without common factors: Basic
 alge442 Adding rational expressions with linear denominators without common factors: Advanced
 alge443 Adding rational expressions with linear denominators with common factors: Basic
 alge444 Adding rational expressions with linear denominators with common factors: Advanced
 alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
 alge661 Adding rational expressions involving different quadratic denominators
 alge446 Adding 3 rational expressions with different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge470 Complex fraction involving univariate monomials
 alge058 Complex fraction involving multivariate monomials
 alge471 Complex fraction: GCF factoring
 alge472 Complex fraction: Quadratic factoring
 alge473 Complex fraction made of sums involving rational expressions: Problem type 1
 alge474 Complex fraction made of sums involving rational expressions: Problem type 2
 alge475 Complex fraction made of sums involving rational expressions: Problem type 3
 alge476 Complex fraction made of sums involving rational expressions: Problem type 4
 alge477 Complex fraction made of sums involving rational expressions: Problem type 5
 alge478 Complex fraction made of sums involving rational expressions: Problem type 6
 alge479 Complex fraction made of sums involving rational expressions: Multivariate
 alge480 Complex fraction with negative exponents: Problem type 1
 alge481 Complex fraction with negative exponents: Problem type 2
 alge162 Complex fraction that contains a complex fraction
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
 alge422 Solving a rational equation that simplifies to linear: Like binomial denominators

alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
 alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1
 alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
 alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge450 Solving a distance, rate, time problem using a rational equation
 geom133 Ratio of volumes
 alge059 Ordering fractions with variables
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation
 pcalc917 Finding the asymptotes of a rational function: Constant over linear
 pcalc918 Finding the asymptotes of a rational function: Linear over linear
 alge515 Graphing a rational function: Constant over linear
 alge516 Graphing a rational function: Linear over linear

Radicals

 arith032 Square root addition or subtraction
 alge533 Square root addition or subtraction with three terms
 alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
 alge532 Simplifying a sum or difference of radical expressions: Univariate
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 alge554 Simplifying a sum or difference of higher roots
 alge555 Simplifying a sum or difference of higher radical expressions
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 arith039 Square root multiplication: Advanced
 alge522 Introduction to simplifying a product of radical expressions: Univariate
 alge523 Simplifying a product of radical expressions: Univariate
 alge640 Simplifying a product of radical expressions: Multivariate
 alge082 Simplifying a product of radical expressions: Multivariate, fractional expressions
 alge556 Introduction to simplifying a product of higher roots
 alge557 Simplifying a product of higher radical expressions
 alge525 Introduction to simplifying a product involving square roots using the distributive property
 alge526 Simplifying a product involving square roots using the distributive property: Basic
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge984 Classifying sums and products as rational or irrational
 arith766 Simplifying a quotient of square roots
 alge530 Simplifying a quotient involving a sum or difference with a square root
 alge527 Rationalizing a denominator: Quotient involving square roots
 alge528 Rationalizing a denominator: Square root of a fraction
 alge529 Rationalizing a denominator: Quotient involving a monomial
 alge534 Rationalizing a denominator using conjugates: Integer numerator
 alge535 Rationalizing a denominator using conjugates: Square root in numerator
 alge536 Rationalizing a denominator using conjugates: Variable in denominator
 alge564 Rationalizing a denominator: Quotient involving a higher radical
 alge775 Rationalizing a denominator: Quotient involving higher radicals and monomials
 alge563 Simplifying products or quotients of higher radicals with different indices: Univariate
 alge776 Simplifying products or quotients of higher radicals with different indices: Multivariate
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
 alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
 alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
 alge411 Solving a radical equation with a quadratic expression under the radical
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 alge412 Algebraic symbol manipulation with radicals
 alge542 Word problem involving radical equations: Basic
 alge409 Word problem involving radical equations: Advanced

alge410 Solving an equation with a root index greater than 2: Problem type 1
 alge417 Solving an equation with a root index greater than 2: Problem type 2
 alge093 Solving an equation using the odd-root property: Problem type 1
 alge228 Solving an equation using the odd-root property: Problem type 2
 alge416 Solving an equation with exponent $1/a$: Problem type 1
 alge418 Solving an equation with exponent $1/a$: Problem type 2
 alge778 Using i to rewrite square roots of negative numbers
 alge779 Simplifying a product and quotient involving square roots of negative numbers
 pcalc048 Adding or subtracting complex numbers
 pcalc049 Multiplying complex numbers
 pcalc050 Dividing complex numbers
 pcalc053 Simplifying a power of i

Quadratic Equations and Functions

alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge963 Applying the quadratic formula: Decimal answers
 pcalc051 Solving a quadratic equation with complex roots
 alge214 Discriminant of a quadratic equation
 alge193 Discriminant of a quadratic equation with parameter
 alge781 Solving an equation that can be written in quadratic form: Problem type 1
 alge782 Solving an equation that can be written in quadratic form: Problem type 2
 alge230 Solving an equation with positive rational exponent
 alge231 Solving an equation with negative rational exponent
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge974 Finding the vertex, x -intercepts, and axis of symmetry from the graph of a parabola
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge277 Finding the x -intercept(s) and the vertex of a parabola
 pcalc793 Using a graphing calculator to find the x -intercept(s) and vertex of a quadratic function
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 pcalc762 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 alge723 How the leading coefficient affects the shape of a parabola
 alge784 Solving a quadratic inequality written in factored form
 alge771 Solving a quadratic inequality
 pcalc676 Solving a polynomial inequality
 alge783 Solving a rational inequality: Problem type 1
 pcalc677 Solving a rational inequality: Problem type 2
 alge953 Translating the graph of a parabola: One step
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation

fun019 Sum, difference, and product of two functions
 alge786 Quotient of two functions: Basic
 pcalc756 Combining functions: Advanced
 fun022 Composition of two functions: Basic
 pcalc776 Expressing a function as a composition of two functions
 fun021 Composition of two functions: Domain and range
 alge129 Composition of two functions: Advanced
 pcalc757 Determining whether an equation defines a function: Advanced
 fun011 Horizontal line test
 pcalc777 Determining whether two functions are inverses of each other
 fun012 Inverse functions: Linear, discrete
 alge130 Inverse functions: Rational
 pcalc778 Inverse functions: Quadratic, cubic, radical

Logarithms, Conic Sections, Sequences

alge971 Table for an exponential function
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 pcalc922 Translating the graph of an exponential function
 pcalc797 The graph, domain, and range of an exponential function
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^{x-b} + c$
 alge830 Evaluating an exponential function that models a real-world situation
 pcalc919 Evaluating an exponential function with base e that models a real-world situation
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge993 Comparing linear, polynomial, and exponential functions
 alge108 Converting between logarithmic and exponential equations
 pcalc799 Converting between natural logarithmic and exponential equations
 alge232 Evaluating a logarithmic expression
 alge233 Solving an equation of the form $\log_b a = c$
 pcalc923 Translating the graph of a logarithmic function
 alge788 Graphing a logarithmic function: Basic
 pcalc800 The graph, domain, and range of a logarithmic function
 pcalc104 Graphing a logarithmic function: Advanced
 pcalc708 Basic properties of logarithms
 pcalc779 Expanding a logarithmic expression: Problem type 1
 pcalc780 Expanding a logarithmic expression: Problem type 2
 alge787 Writing an expression as a single logarithm
 pcalc612 Change of base for logarithms: Problem type 1
 pcalc613 Change of base for logarithms: Problem type 2
 pcalc803 Solving a multi-step equation involving a single logarithm
 pcalc804 Solving a multi-step equation involving natural logarithms
 alge113 Solving an equation involving logarithms on both sides: Problem type 1
 pcalc805 Solving an equation involving logarithms on both sides: Problem type 2
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge482 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic
 pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
 alge111 Solving an exponential equation by using logarithms: Exact answers in logarithmic form
 pcalc806 Using a graphing calculator to solve an exponential or logarithmic equation
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc614 Finding the initial or final amount in a word problem on exponential growth or decay
 pcalc615 Finding the rate or time in a word problem on continuous exponential growth or decay
 pcalc067 Graphing a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 pcalc068 Writing an equation of a parabola given the vertex and the focus

pcalc069 Finding the focus of a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 alge132 Distance between two points in the plane: Exact answers
 pcalc605 Graphing a circle given its equation in standard form
 pcalc128 Graphing a circle given its equation in general form: Basic
 pcalc129 Graphing a circle given its equation in general form: Advanced
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 pcalc734 Graphing an ellipse given its equation in standard form
 pcalc070 Graphing an ellipse centered at the origin: $Ax^2 + By^2 = C$
 pcalc071 Graphing an ellipse given its equation in general form
 pcalc735 Graphing a hyperbola given its equation in standard form
 pcalc075 Graphing a hyperbola centered at the origin: $Ax^2 - By^2 - C = 0$
 pcalc076 Graphing a hyperbola given its equation in general form
 pcalc736 Classifying conics given their equations
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 pcalc796 Using a graphing calculator to solve a system of equations
 pcalc098 Solving a system of nonlinear equations: Problem type 1
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 pcalc096 Graphing a system of nonlinear inequalities: Problem type 1
 pcalc097 Graphing a system of nonlinear inequalities: Problem type 2
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc715 Finding a specified term of an arithmetic sequence given two terms of the sequence
 alge909 Writing an explicit rule for an arithmetic sequence
 alge910 Writing a recursive rule for an arithmetic sequence
 pcalc718 Sum of the first n terms of an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc717 Finding a specified term of a geometric sequence given two terms of the sequence
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences
 pcalc719 Sum of the first n terms of a geometric sequence
 pcalc720 Sum of an infinite geometric series
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 pcalc087 Binomial formula

B.54 Math Prep. for the CAHSEE

Whole Numbers

arith001 Addition without carry
 arith050 Addition with carry
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith007 Subtraction without borrowing

arith006 Subtraction with borrowing
arith682 Subtraction with multiple regrouping steps
arith637 Subtraction and regrouping with zeros
arith613 Word problem with addition or subtraction of whole numbers
mstat061 Describing an increasing or decreasing pattern from a table of values
arith008 One-digit multiplication
arith003 Multiplication without carry
arith004 Multiplication with carry
arith615 Introduction to multiplication of large numbers
arith014 Multiplication of large numbers
arith075 Division facts
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith052 Division without carry
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith616 Quotient and remainder: Problem type 1
arith023 Word problem with division of whole numbers and rounding
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith604 Estimating a product or quotient of whole numbers
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith409 Introduction to the distributive property
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge008 Multiplicative property of equality with whole numbers
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom866 Perimeter and area on a grid
geom359 Identifying congruent shapes on a grid

Fractions

arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith813 Multiplication of 3 fractions
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
arith801 Finding the LCD of two fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith821 Exponents and fractions
arith859 Order of operations with fractions: Problem type 1
arith860 Order of operations with fractions: Problem type 2
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
alge646 Multiplicative property of equality with whole numbers: Fractional answers
alge820 Multiplicative property of equality with fractions

Decimals

arith110 Decimal place value: Tenths and hundredths
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith221 Rounding decimals
arith718 Converting a decimal to a proper fraction in simplest form: Basic
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith734 Subtraction of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith132 Word problem with addition or subtraction of 2 decimals
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith082 Multiplication of a decimal by a power of ten

arith738 Multiplication of a decimal by a power of 0.1
 arith135 Word problem with multiplication of a decimal and a whole number
 arith628 Word problem with multiple decimal operations: Problem type 1
 arith744 Whole number division with decimal answers
 arith081 Division of a decimal by a whole number
 arith083 Division of a decimal by a power of ten
 arith136 Word problem with division of a decimal and a whole number
 arith629 Word problem with multiple decimal operations: Problem type 2
 arith103 Average of two numbers
 arith131 Estimating a decimal sum or difference
 arith752 Estimating a product of decimals
 arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
 arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
 arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
 arith727 Converting a fraction to a terminating decimal: Basic
 arith728 Converting a fraction to a terminating decimal: Advanced
 arith730 Converting a fraction to a repeating decimal: Basic
 arith731 Converting a fraction to a repeating decimal: Advanced
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith733 Using a calculator to convert a fraction to a rounded decimal
 arith609 Ordering fractions and decimals
 alge800 Additive property of equality with decimals
 alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Percents

arith663 Writing ratios for real-world situations
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat065 Converting between temperatures in Fahrenheit and Celsius

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith686 Writing a ratio as a percentage
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest

Real Numbers

alge286 Plotting integers on a number line
 arith691 Ordering integers
 arith402 Plotting opposite integers on a number line
 arith403 Finding opposites of integers
 arith605 Plotting rational numbers on a number line
 arith071 Absolute value of a number
 arith412 Finding all numbers with a given absolute value
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith116 Signed fraction addition or subtraction: Basic
 arith117 Signed decimal addition and subtraction
 arith822 Signed fraction multiplication: Basic
 arith814 Signed fraction division
 arith440 Operations with absolute value: Problem type 1
 alge694 Computing the distance between two integers on a number line
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction

alge004 Evaluating a quadratic expression: Integers
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions

Equations and Inequalities

alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge666 Combining like terms: Fractional coefficients
 alge665 Combining like terms: Decimal coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge610 Distributive property: Fractional coefficients
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge658 Introduction to solving a rational equation
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation

arith504 Writing an equation to represent a proportional relationship
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge673 Writing an equation to represent a real-world problem: Variable on both sides
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge794 Solving a value mixture problem using a linear equation
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 arith612 Word problem involving multiple rates
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge621 Solving a word problem using a one-step linear inequality
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3

Graphing

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced

alge197 Graphing a line given its x- and y-intercepts
 geom358 Identifying parallel and perpendicular lines
 mstat007 Interpreting a line graph
 arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge814 Using right triangles to find the slope of a line
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 mstat018 Choosing a graph to fit a narrative: Basic
 set001 Set builder notation
 set002 Union and intersection of finite sets
 fun001 Table for a linear function
 alge954 Graphing a parabola of the form $y = ax^2$
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge702 Classifying the graph of a function
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge815 Introduction to using substitution to solve a linear equation
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge079 Graphing a system of two linear inequalities: Basic

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge690 Introduction to the power of a power rule with positive exponents: Whole number base
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents

alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge688 Introduction to the quotient rule with positive exponents: Whole number base
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 arith029 Ordering numbers with positive exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 alge791 Rewriting an algebraic expression without a negative exponent
 alge687 Introduction to the product rule with negative exponents: Whole number base
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge689 Introduction to the quotient rule with negative exponents: Whole number base
 alge755 Quotient rule with negative exponents: Problem type 1
 alge691 Introduction to the power of a power rule with negative exponents: Whole number base
 alge025 Power of a power rule with negative exponents
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge764 Multiplying conjugate binomials: Univariate
 alge032 Squaring a binomial: Univariate
 alge935 Multiplication involving binomials and trinomials in one variable
 alge053 Multiplying rational expressions involving multivariate monomials
 alge054 Dividing rational expressions involving multivariate monomials
 alge759 Dividing a polynomial by a monomial: Univariate
 arith016 Square root of a perfect square
 arith763 Using a calculator to approximate a square root
 arith601 Square root of a rational perfect square
 arith602 Estimating a square root
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic

Geometry

geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
 geom350 Distinguishing between the area and perimeter of a rectangle
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle

geom143 Finding the perimeter or area of a rectangle given one of these values
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
geom142 Word problem involving the area between two rectangles
geom501 Finding the area of a right triangle on a grid
geom509 Finding the area of a right triangle or its corresponding rectangle
geom801 Area of a triangle
geom344 Area involving rectangles and triangles
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom536 Drawing and identifying a polygon in the coordinate plane
geom537 Finding the perimeter or area of a rectangle in the coordinate plane
alge407 Introduction to the Pythagorean Theorem
geom044 Pythagorean Theorem
alge408 Word problem involving the Pythagorean Theorem
geom068 Computing an area using the Pythagorean Theorem
geom603 Identifying side lengths that give right triangles
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom838 Circumference ratios
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom805 Arc length and area of a sector of a circle
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom311 Volume of a rectangular prism
geom354 Volume of a rectangular prism made of unit cubes
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom505 Volume of a piecewise rectangular prism
geom090 Volume of a triangular prism
geom035 Volume of a cylinder
geom573 Word problem involving the volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom133 Ratio of volumes
geom031 Surface area of a cube or a rectangular prism
geom632 Surface area of a rectangular prism made of unit cubes
geom555 Distinguishing between surface area and volume
geom576 Word problem involving the surface area of a rectangular prism
geom345 Surface area of a piecewise rectangular prism made of unit cubes
geom091 Surface area of a triangular prism
geom621 Surface area of a cylinder
geom034 Surface area of a cylinder: Exact answers in terms of pi
geom578 Word problem involving the surface area of a cylinder
geom338 Surface area involving prisms or cylinders
geom360 Identifying similar or congruent shapes on a grid
geom037 Similar polygons
geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
geom847 Similar solids: Problem type 2
geom519 Identifying and naming congruent parts of congruent triangles
geom596 Translating a point and giving its coordinates: One step
geom598 Determining if figures are related by a translation
geom909 Translating a point and giving its coordinates: Two steps
geom330 Translating a polygon
geom331 Using a translated point to find coordinates of other translated points
arith408 Reflecting a point across an axis
geom590 Reflecting a point across an axis and giving its coordinates
geom592 Determining if figures are related by a reflection
arith407 Finding the coordinates of a point reflected across an axis

geom534 Reflecting a polygon across the x-axis or y-axis
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry

Data Analysis and Probability

B.55 Prep. for FL Algebra 1 EOC Assessment

Arithmetic Readiness

arith123 Rounding to hundreds or thousands
 arith233 Introduction to exponents
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 alge731 Evaluating an algebraic expression: Whole numbers with two operations

arith658 Filling in missing operations to make an equation
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith212 Equivalent fractions
arith067 Simplifying a fraction
arith092 Using a common denominator to order fractions
arith618 Addition or subtraction of fractions with the same denominator
arith801 Finding the LCD of two fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith220 Decimal place value: Hundreds to ten thousandths
arith221 Rounding decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith013 Decimal addition with 3 numbers
arith625 Subtraction of aligned decimals
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
arith226 Converting between percentages and decimals
arith090 Converting a percentage to a fraction in simplest form
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith069 Writing a ratio as a percentage without a calculator
mstat049 Computing a percentage from a table of values
arith030 Finding a percentage of a whole number without a calculator: Basic
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced
arith232 Finding simple interest without a calculator
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom221 Finding the missing length in a figure
geom019 Area of a square or a rectangle
geom340 Area of a piecewise rectangular figure

arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith701 Word problem with addition or subtraction of integers
arith116 Signed fraction addition or subtraction: Basic
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith822 Signed fraction multiplication: Basic
arith702 Exponents and integers: Problem type 1

arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 alge187 Properties of addition
 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression

Linear Equations and Inequalities

alge009 Additive property of equality with whole numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge740 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge602 Writing a one-step variable expression for a real-world situation
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge794 Solving a value mixture problem using a linear equation

alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom531 Solving equations involving angles and a pair of parallel lines
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 alge015 Translating a sentence by using an inequality symbol
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge207 Solving a linear inequality: Problem type 4
 alge745 Solving a linear inequality: Problem type 5
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge748 Writing an inequality for a real-world situation
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge270 Solving an absolute value equation of the form $a - x = b$ or $-x + a = b$
 alge103 Solving an absolute value equation of the form $-ax + b = c$
 alge170 Solving an absolute value inequality: Basic

Functions and Lines

set004 Set builder and interval notation
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun002 Graphing integer functions
 fun016 Domain and range from ordered pairs
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc761 Finding inputs and outputs of a function from its graph
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 fun024 Domain and range from the graph of a continuous function
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 pcalc114 Even and odd functions: Problem type 1
 pcalc768 Finding the average rate of change of a function
 fun019 Sum, difference, and product of two functions
 fun022 Composition of two functions: Basic
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge197 Graphing a line given its x - and y -intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form

alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge069 Finding the y-intercept of a line given its equation
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge684 Finding slope given the graph of a line on a grid
 alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form

Systems

alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge079 Graphing a system of two linear inequalities: Basic
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices

Exponents

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1

alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 arith029 Ordering numbers with positive exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 alge807 Finding the next terms of a sequence with whole numbers
 alge732 Finding patterns in shapes
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge764 Multiplying conjugate binomials: Univariate
 alge765 Multiplying binomials in two variables
 alge032 Squaring a binomial: Univariate
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge039 Factoring a quadratic with leading coefficient 1
 alge040 Factoring a quadratic with leading coefficient greater than 1
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge043 Factoring a perfect square trinomial
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge624 Factoring a difference of squares
 alge038 Factoring a polynomial by grouping: Problem type 1
 alge181 Factoring a polynomial by grouping: Problem type 2

Rational and Radical Expressions

alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2

alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge272 Solving a proportion of the form $x/a = b/c$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 arith663 Writing ratios for real-world situations
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge175 Word problem on direct variation
 alge176 Word problem on inverse variation
 alge772 Word problem on combined variation
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear
 alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 arith032 Square root addition or subtraction
 arith039 Square root multiplication: Advanced
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 geom044 Pythagorean Theorem

Quadratic Functions and Equations

alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge252 Graphing a parabola of the form $y = ax^2$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 alge702 Classifying the graph of a function
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge681 Solving an equation written in factored form
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge524 Solving a word problem using a quadratic equation with irrational roots

Data Analysis and Probability

mstat004 Constructing a histogram for numerical data
 mstat005 Constructing a bar graph for non-numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph
 mstat006 Constructing a box-and-whisker plot
 mstat031 Interpreting a stem-and-leaf plot
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 geom814 Angle measure in a circle graph
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 mstat001 Mean of a data set
 mstat028 Mean and median of a data set
 stat803 Finding the value for a new score that will yield a given mean
 mstat029 How changing a value affects the mean and median
 mstat053 Choosing the best measure to describe data
 mstat066 Weighted mean
 mstat025 Finding if a question can be answered by the data
 stat802 Rejecting unreasonable claims based on average statistics
 stat805 Making a reasonable inference based on proportion statistics
 stat021 Population standard deviation
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle

mstat015 Counting principle
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

Perimeter, Area, and Volume

geom353 Perimeter of a piecewise rectangular figure
 geom078 Sides of polygons having the same perimeter
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom344 Area involving rectangles and triangles
 geom213 Area of a regular polygon
 geom832 Area of quadrilaterals in the coordinate plane
 alge724 Finding an area in terms of variables
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom805 Arc length and area of a sector of a circle
 geom830 Counting the cubes in a solid made of cubes
 geom354 Volume of a rectangular prism made of unit cubes
 geom505 Volume of a piecewise rectangular prism
 geom219 Nets of solids
 geom861 Nets of solids: Advanced
 geom348 Vertices, edges, and faces of a solid
 geom816 Side views of a solid made of cubes
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom338 Surface area involving prisms or cylinders

Lines, Angles, and Triangles

glogic001 Conditional statements and negations
 glogic005 The converse, inverse, and contrapositive of a conditional statement
 glogic008 Conditional statements and deductive reasoning
 geom349 Naming segments, rays, and lines
 geom526 Midpoint of a number line segment
 geom521 Segment addition and midpoints
 geom616 Introduction to proofs: Justifying statements
 geom614 Proofs involving segment congruence
 geom358 Identifying parallel and perpendicular lines
 geom835 Introduction to proofs involving parallel lines
 geom836 Proofs involving parallel lines
 geom154 Constructing the perpendicular bisector of a line segment
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom304 Identifying corresponding and alternate angles

geom305 Identifying supplementary and vertical angles
 geom850 Angle addition with relationships between angles
 geom851 Angle addition and angle bisectors
 geom611 Proofs involving angle congruence
 geom159 Constructing congruent angles
 geom158 Constructing an angle bisector
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom908 Finding an angle measure for a triangle with an extended side
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom845 Using triangle inequality to determine possible lengths of a third side
 geom854 Relationship between angle measures and side lengths in a triangle
 geom855 Relationship between angle measures and side lengths in two triangles
 geom068 Computing an area using the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 geom506 Special right triangles: Exact answers
 geom212 Circles inscribed in and circumscribed about regular polygons
 geom520 Identifying and naming congruent triangles
 geom617 Proofs involving congruent triangles and vertical angles or the reflexive property
 geom837 Proofs involving congruent triangles and segment or angle bisectors
 geom840 Proofs involving congruent triangles that overlap: Basic
 geom839 Proofs involving congruent triangles, parallel or perpendicular segments, and CPCTC
 geom843 Proofs involving congruent triangles that overlap: Advanced
 geom650 Indirect proof (proof by contradiction)
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc033 Solving a triangle with the law of cosines
 pcalc060 Magnitude of a vector given in component form
 pcalc063 Translation of a vector
 geom858 Scalar multiplication of a vector: Geometric Approach
 geom857 Vector addition: Geometric approach
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph

Polygons, Circles, and Similarity

alge191 Midpoint of a line segment in the plane
 alge132 Distance between two points in the plane: Exact answers
 geom310 Properties of quadrilaterals
 geom523 Conditions for quadrilaterals
 geom532 Classifying parallelograms
 geom528 Finding measures involving diagonals of parallelograms
 geom527 Conditions for parallelograms
 geom833 Finding measures involving diagonals of rectangles
 geom834 Finding measures involving diagonals of rhombi
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon
 geom853 Interior and exterior angle measures in a regular polygon
 geom819 Finding coordinates of vertices of polygons

geom818 Finding the coordinates of a point to make a parallelogram
 geom863 Congruence in the coordinate plane
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom848 Tangents of a circle: Problem type 1
 geom849 Tangents of a circle: Problem type 2
 geom511 Lengths of chords, secants, and tangents
 geom514 Inscribed angles of a circle
 geom512 Central angles and inscribed angles of a circle
 geom513 Angles of intersecting secants and tangents
 pcalc605 Graphing a circle given its equation in standard form
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom510 Triangles and parallel lines
 geom507 Right triangles and geometric mean
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2
 geom357 Identifying transformations
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom335 Rotating a figure about the origin
 geom815 Finding an angle of rotation
 geom831 Rotational and point symmetries
 geom336 Dilating a figure

B.56 Prep. for FL Geometry EOC Assessment

Arithmetic Readiness

arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith801 Finding the LCD of two fractions
 arith230 Addition or subtraction of fractions with different denominators
 arith086 Product of a fraction and a whole number: Problem type 1
 arith053 Fraction multiplication
 arith088 The reciprocal of a number
 arith022 Fraction division
 arith015 Writing an improper fraction as a mixed number
 arith110 Decimal place value: Tenths and hundredths
 arith221 Rounding decimals
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 mstat034 Measuring length to the nearest quarter or half inch
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit005 U.S. Customary unit conversion with whole number values

unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith701 Word problem with addition or subtraction of integers
 arith116 Signed fraction addition or subtraction: Basic
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith822 Signed fraction multiplication: Basic
 arith118 Order of operations with integers
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 arith032 Square root addition or subtraction
 arith039 Square root multiplication: Advanced
 alge086 Rationalizing the denominator of a radical expression

Equations and Inequalities

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression
 alge187 Properties of addition
 alge188 Properties of real numbers
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge740 Multiplicative property of equality with integers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions

alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge272 Solving a proportion of the form $x/a = b/c$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 arith663 Writing ratios for real-world situations
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge166 Graphing a compound inequality on the number line
 alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge746 Solving a compound linear inequality: Graph solution, basic

Linear Equations in Two Variables

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge197 Graphing a line given its x - and y -intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge069 Finding the y -intercept of a line given its equation
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge684 Finding slope given the graph of a line on a grid
 alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 alge070 Writing an equation of a line given the y -intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge752 Solving a 2×2 system of linear equations that is inconsistent or consistent dependent

Reasoning, Lines, and Angles

alge807 Finding the next terms of a sequence with whole numbers
 alge732 Finding patterns in shapes
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 glogic001 Conditional statements and negations
 glogic005 The converse, inverse, and contrapositive of a conditional statement
 glogic008 Conditional statements and deductive reasoning
 geom349 Naming segments, rays, and lines
 geom525 Computing distances between decimals on the number line
 geom526 Midpoint of a number line segment
 geom521 Segment addition and midpoints
 geom616 Introduction to proofs: Justifying statements
 geom614 Proofs involving segment congruence
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 geom358 Identifying parallel and perpendicular lines
 geom835 Introduction to proofs involving parallel lines
 geom836 Proofs involving parallel lines
 geom154 Constructing the perpendicular bisector of a line segment
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom304 Identifying corresponding and alternate angles
 geom305 Identifying supplementary and vertical angles
 geom530 Solving equations involving vertical angles
 geom531 Solving equations involving angles and a pair of parallel lines
 geom850 Angle addition with relationships between angles
 geom851 Angle addition and angle bisectors
 geom611 Proofs involving angle congruence
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles

Triangles

geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom801 Area of a triangle
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom908 Finding an angle measure for a triangle with an extended side
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom845 Using triangle inequality to determine possible lengths of a third side
 geom854 Relationship between angle measures and side lengths in a triangle
 geom855 Relationship between angle measures and side lengths in two triangles
 geom650 Indirect proof (proof by contradiction)
 geom359 Identifying congruent shapes on a grid
 geom520 Identifying and naming congruent triangles
 geom617 Proofs involving congruent triangles and vertical angles or the reflexive property
 geom837 Proofs involving congruent triangles and segment or angle bisectors
 geom840 Proofs involving congruent triangles that overlap: Basic
 geom839 Proofs involving congruent triangles, parallel or perpendicular segments, and CPCTC
 geom843 Proofs involving congruent triangles that overlap: Advanced
 geom044 Pythagorean Theorem
 geom068 Computing an area using the Pythagorean Theorem

geom862 Using the Pythagorean Theorem repeatedly
 geom506 Special right triangles: Exact answers
 geom212 Circles inscribed in and circumscribed about regular polygons

Polygons

geom310 Properties of quadrilaterals
 geom523 Conditions for quadrilaterals

 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom510 Triangles and parallel lines
 geom507 Right triangles and geometric mean
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc033 Solving a triangle with the law of cosines
 geom357 Identifying transformations
 geom330 Translating a polygon

geom331 Using a translated point to find coordinates of other translated points
geom332 Reflecting a polygon over a vertical or horizontal line
geom333 Finding the coordinates of three points reflected over an axis
geom334 Drawing lines of symmetry
geom335 Rotating a figure about the origin
geom815 Finding an angle of rotation
geom831 Rotational and point symmetries
geom336 Dilating a figure
pcalc060 Magnitude of a vector given in component form
pcalc063 Translation of a vector
geom858 Scalar multiplication of a vector: Geometric Approach
geom857 Vector addition: Geometric approach
geom856 Vector addition and scalar multiplication: Component form
vector008 Linear combination of vectors: Component form
vector002 Finding the magnitude and direction of a vector given its graph
vector005 Finding the components of a vector given its graph

Circles

geom347 Introduction to a circle: Diameter, radius, and chord
geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
geom848 Tangents of a circle: Problem type 1
geom849 Tangents of a circle: Problem type 2
geom511 Lengths of chords, secants, and tangents
geom514 Inscribed angles of a circle
geom512 Central angles and inscribed angles of a circle
geom513 Angles of intersecting secants and tangents
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom301 Perimeter involving rectangles and circles
geom838 Circumference ratios
geom802 Circumference and area of a circle
geom805 Arc length and area of a sector of a circle
geom302 Area involving rectangles and circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
pcalc605 Graphing a circle given its equation in standard form
pcalc065 Writing an equation of a circle given its center and a point on the circle
pcalc066 Writing an equation of a circle given the endpoints of a diameter

Volumes and Surface Areas

geom830 Counting the cubes in a solid made of cubes
geom354 Volume of a rectangular prism made of unit cubes
geom311 Volume of a rectangular prism
geom505 Volume of a piecewise rectangular prism
geom090 Volume of a triangular prism
geom033 Volume of a pyramid
geom035 Volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom086 Volume of a cone: Exact answers in terms of pi
geom841 Volume of a sphere
geom348 Vertices, edges, and faces of a solid
geom219 Nets of solids
geom861 Nets of solids: Advanced
geom816 Side views of a solid made of cubes
geom031 Surface area of a cube or a rectangular prism
geom345 Surface area of a piecewise rectangular prism made of unit cubes

geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom338 Surface area involving prisms or cylinders
 geom842 Surface area of a sphere
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge837 Solving a multi-step equation given in fractional form
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions

alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge986 Identifying properties used to solve a linear equation
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 stat803 Finding the value for a new score that will yield a given mean
 arith663 Writing ratios for real-world situations
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement

alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge729 Writing a multi-step inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge943 Writing an absolute value inequality given a graph on the number line
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

set001 Set builder notation
 set002 Union and intersection of finite sets
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 alge896 Graphing an integer function and finding its range for a given domain
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc761 Finding inputs and outputs of a function from its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules

alge716 Introduction to the composition of two functions
 fun012 Inverse functions: Linear, discrete
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge873 Identifying solutions to a linear equation in two variables
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x- and y-intercepts
 alge881 Graphing a line by first finding its x- and y-intercepts
 alge196 Graphing a line through a given point with a given slope
 alge882 Graphing a line by first finding its slope and y-intercept
 alge883 Graphing a line given its equation in point-slope form
 alge198 Graphing a vertical or horizontal line
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge884 Finding x- and y-intercepts given the graph of a line on a grid
 alge924 Finding x- and y-intercepts of a line given the equation: Basic
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge070 Writing an equation of a line given the y-intercept and another point
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge894 Writing an equation in point-slope form given the slope and a point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge990 Domain and range of a linear function that models a real-world situation
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge895 Identifying parallel and perpendicular lines from equations
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge991 Solving a linear equation by graphing
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge828 Interpreting direct variation from a graph
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge908 Finding the first terms of a sequence using a recursive rule

alge910 Writing a recursive rule for an arithmetic sequence
 mstat023 Scatter plots and correlation
 mstat030 Sketching the line of best fit
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
 fun030 Evaluating a piecewise-defined function
 fun031 Graphing a piecewise-defined function: Problem type 1

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge927 Power and quotient rules with positive exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge993 Comparing linear, polynomial, and exponential functions
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials

alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots

Quadratic Functions and Equations

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge277 Finding the x-intercept(s) and the vertex of a parabola

pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 alge996 Comparing properties of quadratic functions given in different forms
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge702 Classifying the graph of a function
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge957 Solving a quadratic equation by graphing
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph

Radicals

alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane

pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge903 Identifying direct and inverse variation equations
 alge905 Writing an inverse variation equation
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear

Data Analysis and Probability

mstat037 Constructing a line plot
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph

geom814 Angle measure in a circle graph
 mstat031 Interpreting a stem-and-leaf plot
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 mstat001 Mean of a data set
 mstat028 Mean and median of a data set
 mstat066 Weighted mean
 mstat029 How changing a value affects the mean and median
 mstat053 Choosing the best measure to describe data
 stat802 Rejecting unreasonable claims based on average statistics
 mstat025 Finding if a question can be answered by the data
 mstat049 Computing a percentage from a table of values
 stat020 Calculating relative frequencies in a contingency table
 stat805 Making a reasonable inference based on proportion statistics
 stat009 Percentiles
 mstat072 Five-number summary and interquartile range
 stat021 Population standard deviation
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

B.58 Prep. for LA Algebra 1 EOC Assessment

Arithmetic Readiness

arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith101 Estimating a sum of whole numbers
 arith233 Introduction to exponents
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 arith713 Order of operations with whole numbers and exponents: Advanced
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 alge832 Evaluating an algebraic expression: Whole number operations and exponents

arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith240 Word problem with common multiples
arith212 Equivalent fractions
arith067 Simplifying a fraction
arith092 Using a common denominator to order fractions
arith618 Addition or subtraction of fractions with the same denominator
arith801 Finding the LCD of two fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith095 Multi-step word problem involving fractions and multiplication
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith085 Addition or subtraction of mixed numbers with different denominators
arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals
arith131 Estimating a decimal sum or difference
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
arith019 Division of a decimal by a 2-digit decimal
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith628 Word problem with multiple decimal operations: Problem type 1
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom221 Finding the missing length in a figure
geom340 Area of a piecewise rectangular figure
geom142 Word problem involving the area between two rectangles
geom801 Area of a triangle
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom016 Circumference of a circle
geom301 Perimeter involving rectangles and circles
geom838 Circumference ratios

geom802 Circumference and area of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 geom311 Volume of a rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom039 Finding supplementary and complementary angles

Real Numbers

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 mstat038 Reading the temperature from a thermometer
 arith699 Writing a signed number for a real-world situation
 alge286 Plotting integers on a number line
 arith687 Fractional position on a number line
 arith605 Plotting rational numbers on a number line
 arith691 Ordering integers
 arith712 Ordering real numbers
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith701 Word problem with addition or subtraction of integers
 arith116 Signed fraction addition or subtraction: Basic
 arith106 Signed fraction addition or subtraction: Advanced
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 alge984 Classifying sums and products as rational or irrational
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 alge187 Properties of addition
 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients

alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge837 Solving a multi-step equation given in fractional form
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge986 Identifying properties used to solve a linear equation
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion

alge796 Solving a distance, rate, time problem using a linear equation
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 stat803 Finding the value for a new score that will yield a given mean
 arith663 Writing ratios for real-world situations
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge729 Writing a multi-step inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1

alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge943 Writing an absolute value inequality given a graph on the number line
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

set001 Set builder notation
 set002 Union and intersection of finite sets
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 alge896 Graphing an integer function and finding its range for a given domain
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc761 Finding inputs and outputs of a function from its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge716 Introduction to the composition of two functions
 fun012 Inverse functions: Linear, discrete
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge873 Identifying solutions to a linear equation in two variables
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge196 Graphing a line through a given point with a given slope
 alge882 Graphing a line by first finding its slope and y -intercept
 alge883 Graphing a line given its equation in point-slope form
 alge198 Graphing a vertical or horizontal line
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines

alge888 Finding the coordinate that yields a given slope
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge070 Writing an equation of a line given the y-intercept and another point
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge894 Writing an equation in point-slope form given the slope and a point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge990 Domain and range of a linear function that models a real-world situation
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge895 Identifying parallel and perpendicular lines from equations
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge991 Solving a linear equation by graphing
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge828 Interpreting direct variation from a graph
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge908 Finding the first terms of a sequence using a recursive rule
 alge910 Writing a recursive rule for an arithmetic sequence
 mstat023 Scatter plots and correlation
 mstat030 Sketching the line of best fit
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun030 Evaluating a piecewise-defined function
 fun031 Graphing a piecewise-defined function: Problem type 1

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs

alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge927 Power and quotient rules with positive exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent

arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge993 Comparing linear, polynomial, and exponential functions
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1

alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots

Quadratic Functions and Equations

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 alge996 Comparing properties of quadratic functions given in different forms
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge702 Classifying the graph of a function
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge957 Solving a quadratic equation by graphing
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation

alge524 Solving a word problem using a quadratic equation with irrational roots
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph

Radicals

alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx

alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge903 Identifying direct and inverse variation equations
 alge905 Writing an inverse variation equation
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear

Data Analysis and Probability

mstat037 Constructing a line plot
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph
 geom814 Angle measure in a circle graph
 mstat031 Interpreting a stem-and-leaf plot
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 mstat001 Mean of a data set
 mstat028 Mean and median of a data set
 mstat066 Weighted mean
 mstat029 How changing a value affects the mean and median
 mstat053 Choosing the best measure to describe data
 stat802 Rejecting unreasonable claims based on average statistics
 mstat025 Finding if a question can be answered by the data
 mstat049 Computing a percentage from a table of values
 stat020 Calculating relative frequencies in a contingency table
 stat805 Making a reasonable inference based on proportion statistics
 stat009 Percentiles
 mstat072 Five-number summary and interquartile range
 stat021 Population standard deviation
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 pcalc082 Factorial expressions

mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

B.59 Prep. for LA Geometry EOC Assessment

Arithmetic Readiness

arith233 Introduction to exponents
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 arith056 Factors
 arith070 Least common multiple of 2 numbers
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith801 Finding the LCD of two fractions
 arith230 Addition or subtraction of fractions with different denominators
 arith086 Product of a fraction and a whole number: Problem type 1
 arith053 Fraction multiplication
 arith088 The reciprocal of a number
 arith022 Fraction division
 arith015 Writing an improper fraction as a mixed number
 arith110 Decimal place value: Tenths and hundredths
 arith221 Rounding decimals
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 alge286 Plotting integers on a number line
 arith691 Ordering integers
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith701 Word problem with addition or subtraction of integers
 arith116 Signed fraction addition or subtraction: Basic
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith822 Signed fraction multiplication: Basic
 arith118 Order of operations with integers
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions

arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 arith032 Square root addition or subtraction
 arith039 Square root multiplication: Advanced
 alge086 Rationalizing the denominator of a radical expression

Equations and Inequalities

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression
 alge187 Properties of addition
 alge188 Properties of real numbers
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge740 Multiplicative property of equality with integers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge272 Solving a proportion of the form $x/a = b/c$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 arith663 Writing ratios for real-world situations
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 unit034 Converting between metric and U.S. Customary unit systems
 alge015 Translating a sentence by using an inequality symbol
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge166 Graphing a compound inequality on the number line
 alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge746 Solving a compound linear inequality: Graph solution, basic

Linear Equations in Two Variables

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge197 Graphing a line given its x- and y-intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge069 Finding the y-intercept of a line given its equation
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge684 Finding slope given the graph of a line on a grid
 alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 mstat051 Choosing a graph to fit a narrative: Advanced
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation

Reasoning, Lines, and Angles

alge807 Finding the next terms of a sequence with whole numbers
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge732 Finding patterns in shapes
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 glogic001 Conditional statements and negations
 glogic005 The converse, inverse, and contrapositive of a conditional statement
 glogic008 Conditional statements and deductive reasoning
 geom349 Naming segments, rays, and lines
 geom525 Computing distances between decimals on the number line
 geom526 Midpoint of a number line segment
 geom521 Segment addition and midpoints
 geom616 Introduction to proofs: Justifying statements
 geom614 Proofs involving segment congruence
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 geom358 Identifying parallel and perpendicular lines
 geom835 Introduction to proofs involving parallel lines
 geom836 Proofs involving parallel lines
 geom154 Constructing the perpendicular bisector of a line segment
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom304 Identifying corresponding and alternate angles
 geom305 Identifying supplementary and vertical angles
 geom530 Solving equations involving vertical angles
 geom531 Solving equations involving angles and a pair of parallel lines
 geom850 Angle addition with relationships between angles

geom851 Angle addition and angle bisectors
geom611 Proofs involving angle congruence
geom158 Constructing an angle bisector
geom159 Constructing congruent angles

Triangles

geom306 Acute, obtuse, and right triangles
geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
geom801 Area of a triangle
geom001 Finding an angle measure of a triangle given two angles
geom502 Finding angle measures of a right or isosceles triangle given angles with variables
geom908 Finding an angle measure for a triangle with an extended side
geom309 Finding an angle measure for a triangle sharing a side with another triangle
geom812 Finding an angle measure given extended triangles
geom813 Finding an angle measure given a triangle and parallel lines
geom844 Using triangle inequality to determine if side lengths form a triangle
geom845 Using triangle inequality to determine possible lengths of a third side
geom854 Relationship between angle measures and side lengths in a triangle
geom855 Relationship between angle measures and side lengths in two triangles
geom650 Indirect proof (proof by contradiction)
geom359 Identifying congruent shapes on a grid
geom520 Identifying and naming congruent triangles
geom617 Proofs involving congruent triangles and vertical angles or the reflexive property
geom837 Proofs involving congruent triangles and segment or angle bisectors
geom840 Proofs involving congruent triangles that overlap: Basic
geom839 Proofs involving congruent triangles, parallel or perpendicular segments, and CPCTC
geom843 Proofs involving congruent triangles that overlap: Advanced
geom044 Pythagorean Theorem
geom068 Computing an area using the Pythagorean Theorem
geom862 Using the Pythagorean Theorem repeatedly
geom506 Special right triangles: Exact answers

Polygons

geom310 Properties of quadrilaterals
geom523 Conditions for quadrilaterals
geom532 Classifying parallelograms
geom819 Finding coordinates of vertices of polygons
geom818 Finding the coordinates of a point to make a parallelogram
geom863 Congruence in the coordinate plane
geom870 Sum of the angle measures of a quadrilateral
geom528 Finding measures involving diagonals of parallelograms
geom527 Conditions for parallelograms
geom833 Finding measures involving diagonals of rectangles
geom834 Finding measures involving diagonals of rhombi
geom852 The sum of interior angle measures in a convex polygon
geom853 Interior and exterior angle measures in a regular polygon
geom300 Perimeter of a square or a rectangle
geom339 Perimeter of a polygon
geom221 Finding the missing length in a figure
geom353 Perimeter of a piecewise rectangular figure
geom817 Finding a side length given the perimeter and side lengths with variables
geom078 Sides of polygons having the same perimeter
geom019 Area of a square or a rectangle
geom350 Distinguishing between the area and perimeter of a rectangle
geom351 Areas of rectangles with the same perimeter
geom340 Area of a piecewise rectangular figure

geom142 Word problem involving the area between two rectangles
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom344 Area involving rectangles and triangles
 geom213 Area of a regular polygon
 geom832 Area of quadrilaterals in the coordinate plane
 alge724 Finding an area in terms of variables

Similarity, Trigonometry, and Transformations

geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom510 Triangles and parallel lines
 geom507 Right triangles and geometric mean
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc033 Solving a triangle with the law of cosines
 geom357 Identifying transformations
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom335 Rotating a figure about the origin
 geom815 Finding an angle of rotation
 geom831 Rotational and point symmetries
 geom336 Dilating a figure
 pcalc060 Magnitude of a vector given in component form
 pcalc063 Translation of a vector
 geom858 Scalar multiplication of a vector: Geometric Approach
 geom857 Vector addition: Geometric approach
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph

Circles

geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom848 Tangents of a circle: Problem type 1
 geom849 Tangents of a circle: Problem type 2
 geom511 Lengths of chords, secants, and tangents
 geom514 Inscribed angles of a circle
 geom512 Central angles and inscribed angles of a circle
 geom513 Angles of intersecting secants and tangents
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference

geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom802 Circumference and area of a circle
 geom805 Arc length and area of a sector of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom212 Circles inscribed in and circumscribed about regular polygons
 pcalc605 Graphing a circle given its equation in standard form
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter

Volumes and Surface Areas

geom830 Counting the cubes in a solid made of cubes
 geom354 Volume of a rectangular prism made of unit cubes
 geom311 Volume of a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of π
 geom841 Volume of a sphere
 geom348 Vertices, edges, and faces of a solid
 geom219 Nets of solids
 geom861 Nets of solids: Advanced
 geom816 Side views of a solid made of cubes
 geom031 Surface area of a cube or a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of π
 geom338 Surface area involving prisms or cylinders
 geom842 Surface area of a sphere
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

Statistics and Probability

mstat005 Constructing a bar graph for non-numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 mstat049 Computing a percentage from a table of values
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph
 geom814 Angle measure in a circle graph
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice

mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

Removed Topics - Arithmetic, Equations, Inequalities

arith033 Greatest common factor of 2 numbers
 arith123 Rounding to hundreds or thousands
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith658 Filling in missing operations to make an equation
 arith034 Prime numbers
 arith035 Prime factorization
 arith064 Solving a word problem on proportions using a unit rate
 arith657 Understanding the distributive property
 arith092 Using a common denominator to order fractions
 arith618 Addition or subtraction of fractions with the same denominator
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith079 Product of a unit fraction and a whole number
 arith119 Introduction to fraction multiplication
 arith694 Division involving a whole number and a fraction
 arith697 Mixed arithmetic operations with fractions
 arith619 Writing a mixed number as an improper fraction
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith020 Mixed number multiplication: Problem type 1
 arith068 Mixed number division
 arith220 Decimal place value: Hundreds to ten thousandths
 arith608 Ordering decimals
 arith609 Ordering fractions and decimals
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith222 Converting a fraction to a terminating decimal
 arith089 Converting a fraction to a repeating decimal
 arith013 Decimal addition with 3 numbers
 arith625 Subtraction of aligned decimals
 arith626 Word problem with one decimal operation: Problem type 1
 arith627 Word problem with one decimal operation: Problem type 2
 arith017 Multiplication of a decimal by a whole number
 arith082 Multiplication of a decimal by a power of ten
 arith055 Decimal multiplication: Problem type 1
 arith081 Division of a decimal by a whole number
 arith083 Division of a decimal by a power of ten
 mstat034 Measuring length to the nearest quarter or half inch
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit005 U.S. Customary unit conversion with whole number values
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith226 Converting between percentages and decimals

arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith090 Converting a percentage to a fraction in simplest form
arith232 Finding simple interest without a calculator
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced
arith699 Writing a signed number for a real-world situation
mstat038 Reading the temperature from a thermometer
arith687 Fractional position on a number line
arith605 Plotting rational numbers on a number line
alge009 Additive property of equality with whole numbers
alge800 Additive property of equality with decimals
alge008 Multiplicative property of equality with whole numbers
alge825 Multiplicative property of equality with decimals
alge824 Solving a two-step equation with signed decimals
alge200 Solving an equation to find the value of an expression
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
alge742 Solving equations with zero, one, or infinitely many solutions
alge733 Writing a one-step expression for a real-world situation
alge602 Writing a one-step variable expression for a real-world situation
alge730 Writing a multi-step equation for a real-world situation
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge014 Solving a word problem with two unknowns using a linear equation
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge794 Solving a value mixture problem using a linear equation
alge795 Solving a percent mixture problem using a linear equation
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
alge823 Solving a one-step word problem using the formula $d = rt$
alge218 Solving a word problem involving rates and time conversion
alge796 Solving a distance, rate, time problem using a linear equation
alge186 Translating a sentence into a compound inequality
alge207 Solving a linear inequality: Problem type 4
alge745 Solving a linear inequality: Problem type 5
alge748 Writing an inequality for a real-world situation
alge749 Solving a decimal word problem using a two-step linear inequality
alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
alge270 Solving an absolute value equation of the form $a - x = b$ or $-x + a = b$
alge103 Solving an absolute value equation of the form $-ax + b = c$
alge170 Solving an absolute value inequality: Basic
mstat004 Constructing a histogram for numerical data
mstat006 Constructing a box-and-whisker plot
mstat031 Interpreting a stem-and-leaf plot
mstat027 Using back-to-back stem-and-leaf plots to compare data sets
mstat025 Finding if a question can be answered by the data
stat802 Rejecting unreasonable claims based on average statistics
stat805 Making a reasonable inference based on proportion statistics
stat021 Population standard deviation
mstat003 Mode of a data set
mstat055 Finding the mode and range of a data set
mstat001 Mean of a data set
mstat028 Mean and median of a data set
stat803 Finding the value for a new score that will yield a given mean
mstat029 How changing a value affects the mean and median
mstat053 Choosing the best measure to describe data

mstat066 Weighted mean

Removed Topics - Advanced Algebra

alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 set004 Set builder and interval notation
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 pcalc768 Finding the average rate of change of a function
 fun019 Sum, difference, and product of two functions
 fun022 Composition of two functions: Basic
 fun002 Graphing integer functions
 pcalc761 Finding inputs and outputs of a function from its graph
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 fun024 Domain and range from the graph of a continuous function
 pcalc114 Even and odd functions: Problem type 1
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge079 Graphing a system of two linear inequalities: Basic
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents

alge024 Introduction to the product rule of exponents
alge030 Product rule with positive exponents: Multivariate
alge028 Product rule with negative exponents
alge827 Introduction to the quotient rule of exponents
alge026 Quotient of expressions involving exponents
alge755 Quotient rule with negative exponents: Problem type 1
alge826 Understanding the power rules of exponents
alge754 Introduction to the power rules of exponents
alge027 Power rules with positive exponents
alge025 Power of a power rule with negative exponents
alge799 Power rules with negative exponents
alge756 Power and product rules with positive exponents
arith029 Ordering numbers with positive exponents
alge758 Degree and leading coefficient of a univariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge835 Multiplying a multivariate polynomial by a monomial
alge033 Multiplying binomials with leading coefficients of 1
alge764 Multiplying conjugate binomials: Univariate
alge765 Multiplying binomials in two variables
alge032 Squaring a binomial: Univariate
alge180 Multiplication involving binomials and trinomials in two variables
alge759 Dividing a polynomial by a monomial: Univariate
alge760 Dividing a polynomial by a monomial: Multivariate
alge761 Polynomial long division: Problem type 1
alge762 Polynomial long division: Problem type 2
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge739 Factoring out a monomial from a polynomial: Multivariate
alge039 Factoring a quadratic with leading coefficient 1
alge043 Factoring a perfect square trinomial
alge040 Factoring a quadratic with leading coefficient greater than 1
alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
alge041 Factoring a product of a quadratic trinomial and a monomial
alge624 Factoring a difference of squares
alge038 Factoring a polynomial by grouping: Problem type 1
alge181 Factoring a polynomial by grouping: Problem type 2
alge681 Solving an equation written in factored form
alge045 Finding the roots of a quadratic equation with leading coefficient 1
alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
alge211 Solving a quadratic equation needing simplification
alge092 Solving a quadratic equation using the square root property: Exact answers, basic
alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
alge094 Completing the square
alge780 Solving a quadratic equation by completing the square: Exact answers
alge095 Applying the quadratic formula: Exact answers
alge214 Discriminant of a quadratic equation
alge703 Solving a word problem using a quadratic equation with rational roots
alge524 Solving a word problem using a quadratic equation with irrational roots
pcalc037 Scalar multiplication of a matrix
pcalc038 Addition or subtraction of matrices
pcalc740 Linear combination of matrices
alge277 Finding the x-intercept(s) and the vertex of a parabola
pcalc775 Finding the maximum or minimum of a quadratic function
alge785 Word problem involving the maximum or minimum of a quadratic function
alge252 Graphing a parabola of the form $y = ax^2$
alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
alge702 Classifying the graph of a function
alge723 How the leading coefficient affects the shape of a parabola
alge715 Domain of a rational function: Excluded values

alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge175 Word problem on direct variation
 alge176 Word problem on inverse variation
 alge772 Word problem on combined variation
 alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest

B.60 Prep. for MN Mathematics GRAD

Arithmetic Readiness

arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith101 Estimating a sum of whole numbers
arith233 Introduction to exponents
arith692 Writing expressions using exponents
arith683 Power of 10: Positive exponent
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
alge731 Evaluating an algebraic expression: Whole numbers with two operations
alge832 Evaluating an algebraic expression: Whole number operations and exponents
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith240 Word problem with common multiples
arith212 Equivalent fractions
arith067 Simplifying a fraction
arith092 Using a common denominator to order fractions
arith618 Addition or subtraction of fractions with the same denominator
arith801 Finding the LCD of two fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith095 Multi-step word problem involving fractions and multiplication
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith085 Addition or subtraction of mixed numbers with different denominators
arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals
arith131 Estimating a decimal sum or difference
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
arith019 Division of a decimal by a 2-digit decimal
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith628 Word problem with multiple decimal operations: Problem type 1

geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom221 Finding the missing length in a figure
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom016 Circumference of a circle
 geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom802 Circumference and area of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 geom311 Volume of a rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom039 Finding supplementary and complementary angles

Real Numbers

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 mstat038 Reading the temperature from a thermometer
 arith699 Writing a signed number for a real-world situation
 alge286 Plotting integers on a number line
 arith687 Fractional position on a number line
 arith605 Plotting rational numbers on a number line
 arith691 Ordering integers
 arith712 Ordering real numbers
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith701 Word problem with addition or subtraction of integers
 arith116 Signed fraction addition or subtraction: Basic
 arith106 Signed fraction addition or subtraction: Advanced
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 alge984 Classifying sums and products as rational or irrational
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents

alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 alge187 Properties of addition
 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge837 Solving a multi-step equation given in fractional form
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge986 Identifying properties used to solve a linear equation
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge730 Writing a multi-step equation for a real-world situation

alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 stat803 Finding the value for a new score that will yield a given mean
 arith663 Writing ratios for real-world situations
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge729 Writing a multi-step inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line

alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge943 Writing an absolute value inequality given a graph on the number line
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

set001 Set builder notation
 set002 Union and intersection of finite sets
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 alge896 Graphing an integer function and finding its range for a given domain
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc761 Finding inputs and outputs of a function from its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge716 Introduction to the composition of two functions
 fun012 Inverse functions: Linear, discrete
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge873 Identifying solutions to a linear equation in two variables
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge196 Graphing a line through a given point with a given slope
 alge882 Graphing a line by first finding its slope and y -intercept

alge883 Graphing a line given its equation in point-slope form
 alge198 Graphing a vertical or horizontal line
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
 alge892 Writing an equation and graphing a line given its slope and y -intercept
 alge070 Writing an equation of a line given the y -intercept and another point
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge894 Writing an equation in point-slope form given the slope and a point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge990 Domain and range of a linear function that models a real-world situation
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge895 Identifying parallel and perpendicular lines from equations
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge991 Solving a linear equation by graphing
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge828 Interpreting direct variation from a graph
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge908 Finding the first terms of a sequence using a recursive rule
 alge910 Writing a recursive rule for an arithmetic sequence
 mstat023 Scatter plots and correlation
 mstat030 Sketching the line of best fit
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function

alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun030 Evaluating a piecewise-defined function
 fun031 Graphing a piecewise-defined function: Problem type 1

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1

alge926 Quotient rule with negative exponents: Problem type 2
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge927 Power and quotient rules with positive exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)x$
 alge993 Comparing linear, polynomial, and exponential functions
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate

alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots

Quadratic Functions and Equations

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 alge996 Comparing properties of quadratic functions given in different forms
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge702 Classifying the graph of a function
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation

fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge957 Solving a quadratic equation by graphing
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph

Radicals

alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values

alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge903 Identifying direct and inverse variation equations
 alge905 Writing an inverse variation equation
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear

Data Analysis and Probability

mstat037 Constructing a line plot
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph
 geom814 Angle measure in a circle graph
 mstat031 Interpreting a stem-and-leaf plot
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 mstat001 Mean of a data set
 mstat028 Mean and median of a data set
 mstat066 Weighted mean
 mstat029 How changing a value affects the mean and median
 mstat053 Choosing the best measure to describe data
 stat802 Rejecting unreasonable claims based on average statistics
 mstat025 Finding if a question can be answered by the data
 mstat049 Computing a percentage from a table of values

stat020 Calculating relative frequencies in a contingency table
 stat805 Making a reasonable inference based on proportion statistics
 stat009 Percentiles
 mstat072 Five-number summary and interquartile range
 stat021 Population standard deviation
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

B.61 Prep. for PA Algebra 1 Keystone Exam

Arithmetic Readiness

arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith101 Estimating a sum of whole numbers
 arith233 Introduction to exponents
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 arith713 Order of operations with whole numbers and exponents: Advanced
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 arith056 Factors
 arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 arith070 Least common multiple of 2 numbers
 arith240 Word problem with common multiples
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith092 Using a common denominator to order fractions
 arith618 Addition or subtraction of fractions with the same denominator
 arith801 Finding the LCD of two fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith079 Product of a unit fraction and a whole number

arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith095 Multi-step word problem involving fractions and multiplication
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith085 Addition or subtraction of mixed numbers with different denominators
arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals
arith131 Estimating a decimal sum or difference
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
arith019 Division of a decimal by a 2-digit decimal
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith628 Word problem with multiple decimal operations: Problem type 1
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom221 Finding the missing length in a figure
geom340 Area of a piecewise rectangular figure
geom142 Word problem involving the area between two rectangles
geom801 Area of a triangle
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom016 Circumference of a circle
geom301 Perimeter involving rectangles and circles
geom838 Circumference ratios
geom802 Circumference and area of a circle
geom302 Area involving rectangles and circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom031 Surface area of a cube or a rectangular prism
geom091 Surface area of a triangular prism
geom034 Surface area of a cylinder: Exact answers in terms of pi
geom842 Surface area of a sphere
geom311 Volume of a rectangular prism
geom090 Volume of a triangular prism
geom033 Volume of a pyramid
geom035 Volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom086 Volume of a cone: Exact answers in terms of pi
geom841 Volume of a sphere

geom039 Finding supplementary and complementary angles

Real Numbers

alge001 Identifying numbers as integers or non-integers
alge002 Identifying numbers as rational or irrational
mstat038 Reading the temperature from a thermometer
arith699 Writing a signed number for a real-world situation
alge286 Plotting integers on a number line
arith687 Fractional position on a number line
arith605 Plotting rational numbers on a number line
arith691 Ordering integers
arith712 Ordering real numbers
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith701 Word problem with addition or subtraction of integers
arith116 Signed fraction addition or subtraction: Basic
arith106 Signed fraction addition or subtraction: Advanced
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
alge984 Classifying sums and products as rational or irrational
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
arith071 Absolute value of a number
arith104 Operations with absolute value: Problem type 2
geom525 Computing distances between decimals on the number line
alge187 Properties of addition
alge188 Properties of real numbers
arith657 Understanding the distributive property
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge700 Combining like terms: Whole number coefficients
alge607 Combining like terms: Integer coefficients
alge663 Combining like terms: Advanced
alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
alge801 Additive property of equality with fractions and mixed numbers
alge800 Additive property of equality with decimals
alge010 Additive property of equality with integers
alge266 Additive property of equality with a negative coefficient
alge836 Additive property of equality with signed fractions
alge008 Multiplicative property of equality with whole numbers
alge820 Multiplicative property of equality with fractions

alge825 Multiplicative property of equality with decimals
alge797 Multiplicative property of equality with integers
alge012 Multiplicative property of equality with signed fractions
alge834 Identifying solutions to a linear equation in one variable: Two-step equations
alge803 Using two steps to solve an equation with whole numbers
alge006 Solving a two-step equation with integers
alge837 Solving a multi-step equation given in fractional form
alge208 Solving a two-step equation with signed fractions
alge824 Solving a two-step equation with signed decimals
alge200 Solving an equation to find the value of an expression
alge920 Introduction to solving an equation with parentheses
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
alge742 Solving equations with zero, one, or infinitely many solutions
alge986 Identifying properties used to solve a linear equation
alge810 Introduction to algebraic symbol manipulation
alge743 Algebraic symbol manipulation: Problem type 1
alge744 Algebraic symbol manipulation: Problem type 2
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
alge016 Translating a sentence into a one-step equation
alge841 Translating a sentence into a multi-step equation
alge730 Writing a multi-step equation for a real-world situation
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge014 Solving a word problem with two unknowns using a linear equation
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge794 Solving a value mixture problem using a linear equation
alge795 Solving a percent mixture problem using a linear equation
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
alge823 Solving a one-step word problem using the formula $d = rt$
alge218 Solving a word problem involving rates and time conversion
alge796 Solving a distance, rate, time problem using a linear equation
geom817 Finding a side length given the perimeter and side lengths with variables
geom217 Finding the side length of a rectangle given its perimeter or area
geom143 Finding the perimeter or area of a rectangle given one of these values
geom530 Solving equations involving vertical angles
geom001 Finding an angle measure of a triangle given two angles
geom502 Finding angle measures of a right or isosceles triangle given angles with variables
stat803 Finding the value for a new score that will yield a given mean
arith663 Writing ratios for real-world situations
alge272 Solving a proportion of the form $x/a = b/c$
alge840 Solving a proportion of the form $(x+a)/b = c/d$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
arith064 Solving a word problem on proportions using a unit rate
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2

geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge729 Writing a multi-step inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge943 Writing an absolute value inequality given a graph on the number line
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4

alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

set001 Set builder notation
 set002 Union and intersection of finite sets
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 alge896 Graphing an integer function and finding its range for a given domain
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc761 Finding inputs and outputs of a function from its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge716 Introduction to the composition of two functions
 fun012 Inverse functions: Linear, discrete
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge873 Identifying solutions to a linear equation in two variables
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x- and y-intercepts
 alge881 Graphing a line by first finding its x- and y-intercepts
 alge196 Graphing a line through a given point with a given slope
 alge882 Graphing a line by first finding its slope and y-intercept
 alge883 Graphing a line given its equation in point-slope form
 alge198 Graphing a vertical or horizontal line
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge884 Finding x- and y-intercepts given the graph of a line on a grid
 alge924 Finding x- and y-intercepts of a line given the equation: Basic
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge070 Writing an equation of a line given the y-intercept and another point
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge894 Writing an equation in point-slope form given the slope and a point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge990 Domain and range of a linear function that models a real-world situation
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge992 Combining functions to write a new function that models a real-world situation

alge987 Comparing properties of linear functions given in different forms
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge895 Identifying parallel and perpendicular lines from equations
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge991 Solving a linear equation by graphing
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge828 Interpreting direct variation from a graph
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge908 Finding the first terms of a sequence using a recursive rule
 alge910 Writing a recursive rule for an arithmetic sequence
 mstat023 Scatter plots and correlation
 mstat030 Sketching the line of best fit
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
 fun030 Evaluating a piecewise-defined function
 fun031 Graphing a piecewise-defined function: Problem type 1

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2×2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3×3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations

alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge927 Power and quotient rules with positive exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest

alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)x$
 alge993 Comparing linear, polynomial, and exponential functions
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1

alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots

Quadratic Functions and Equations

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 alge996 Comparing properties of quadratic functions given in different forms
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge702 Classifying the graph of a function
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge957 Solving a quadratic equation by graphing
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph

Radicals

alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square

arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced

arith612 Word problem involving multiple rates
alge770 Solving a work problem using a rational equation
alge902 Identifying direct and inverse variation from ordered pairs and writing equations
alge903 Identifying direct and inverse variation equations
alge905 Writing an inverse variation equation
alge176 Word problem on inverse variation
alge220 Word problem on inverse proportions
pcalc789 Finding the asymptotes of a rational function: Basic
pcalc108 Graphing a rational function: Constant or linear over linear

Data Analysis and Probability

Arithmetic Readiness

arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith101 Estimating a sum of whole numbers
arith233 Introduction to exponents
arith692 Writing expressions using exponents
arith683 Power of 10: Positive exponent
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
alge731 Evaluating an algebraic expression: Whole numbers with two operations
alge832 Evaluating an algebraic expression: Whole number operations and exponents
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith240 Word problem with common multiples
arith212 Equivalent fractions
arith067 Simplifying a fraction
arith092 Using a common denominator to order fractions
arith618 Addition or subtraction of fractions with the same denominator
arith801 Finding the LCD of two fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith095 Multi-step word problem involving fractions and multiplication
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith085 Addition or subtraction of mixed numbers with different denominators
arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals
arith131 Estimating a decimal sum or difference
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number

arith083 Division of a decimal by a power of ten
arith019 Division of a decimal by a 2-digit decimal
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith628 Word problem with multiple decimal operations: Problem type 1
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom221 Finding the missing length in a figure
geom340 Area of a piecewise rectangular figure
geom142 Word problem involving the area between two rectangles
geom801 Area of a triangle
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom016 Circumference of a circle
geom301 Perimeter involving rectangles and circles
geom838 Circumference ratios
geom802 Circumference and area of a circle
geom302 Area involving rectangles and circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom031 Surface area of a cube or a rectangular prism
geom091 Surface area of a triangular prism
geom034 Surface area of a cylinder: Exact answers in terms of pi
geom842 Surface area of a sphere
geom311 Volume of a rectangular prism
geom090 Volume of a triangular prism
geom033 Volume of a pyramid
geom035 Volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom086 Volume of a cone: Exact answers in terms of pi
geom841 Volume of a sphere
geom039 Finding supplementary and complementary angles

Real Numbers

alge001 Identifying numbers as integers or non-integers
alge002 Identifying numbers as rational or irrational
mstat038 Reading the temperature from a thermometer
arith699 Writing a signed number for a real-world situation
alge286 Plotting integers on a number line
arith687 Fractional position on a number line
arith605 Plotting rational numbers on a number line
arith691 Ordering integers
arith712 Ordering real numbers
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith701 Word problem with addition or subtraction of integers
arith116 Signed fraction addition or subtraction: Basic
arith106 Signed fraction addition or subtraction: Advanced
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
alge984 Classifying sums and products as rational or irrational

arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 alge187 Properties of addition
 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge837 Solving a multi-step equation given in fractional form
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge986 Identifying properties used to solve a linear equation
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation

alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 stat803 Finding the value for a new score that will yield a given mean
 arith663 Writing ratios for real-world situations
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality

alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge729 Writing a multi-step inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge943 Writing an absolute value inequality given a graph on the number line
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

set001 Set builder notation
 set002 Union and intersection of finite sets
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 alge896 Graphing an integer function and finding its range for a given domain
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc761 Finding inputs and outputs of a function from its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge716 Introduction to the composition of two functions
 fun012 Inverse functions: Linear, discrete
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge873 Identifying solutions to a linear equation in two variables
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form

alge197 Graphing a line given its x- and y-intercepts
alge881 Graphing a line by first finding its x- and y-intercepts
alge196 Graphing a line through a given point with a given slope
alge882 Graphing a line by first finding its slope and y-intercept
alge883 Graphing a line given its equation in point-slope form
alge198 Graphing a vertical or horizontal line
alge876 Identifying linear equations: Advanced
alge874 Identifying linear functions given ordered pairs
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge884 Finding x- and y-intercepts given the graph of a line on a grid
alge924 Finding x- and y-intercepts of a line given the equation: Basic
alge210 Finding x- and y-intercepts of a line given the equation: Advanced
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge888 Finding the coordinate that yields a given slope
alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
alge892 Writing an equation and graphing a line given its slope and y-intercept
alge070 Writing an equation of a line given the y-intercept and another point
alge893 Writing an equation in slope-intercept form given the slope and a point
alge894 Writing an equation in point-slope form given the slope and a point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
mstat052 Identifying independent and dependent variables from equations or real-world situations
alge990 Domain and range of a linear function that models a real-world situation
alge989 Interpreting the parameters of a linear function that models a real-world situation
alge992 Combining functions to write a new function that models a real-world situation
alge987 Comparing properties of linear functions given in different forms
alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
alge806 Application problem with a linear function: Finding a coordinate given two points
alge895 Identifying parallel and perpendicular lines from equations
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
alge991 Solving a linear equation by graphing
mstat051 Choosing a graph to fit a narrative: Advanced
alge828 Interpreting direct variation from a graph
alge982 Identifying direct variation equations
alge938 Identifying direct variation from ordered pairs and writing equations
alge904 Writing a direct variation equation
alge175 Word problem on direct variation
alge925 Finding the next terms of an arithmetic sequence with whole numbers
alge906 Finding the next terms of an arithmetic sequence with integers
alge979 Identifying arithmetic sequences and finding the common difference
alge931 Finding a specified term of an arithmetic sequence given the first terms
pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
alge909 Writing an explicit rule for an arithmetic sequence
alge908 Finding the first terms of a sequence using a recursive rule
alge910 Writing a recursive rule for an arithmetic sequence
mstat023 Scatter plots and correlation
mstat030 Sketching the line of best fit
mstat068 Predictions from the line of best fit
mstat067 Approximating the equation of a line of best fit and making predictions
mstat069 Computing residuals
mstat070 Interpreting residual plots
mstat071 Linear relationship and the correlation coefficient
mstat074 Identifying correlation and causation
alge898 Translating the graph of an absolute value function: One step
alge899 Translating the graph of an absolute value function: Two steps

alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
 fun030 Evaluating a piecewise-defined function
 fun031 Graphing a piecewise-defined function: Problem type 1

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge961 Introduction to the product rule with negative exponents

alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge927 Power and quotient rules with positive exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge993 Comparing linear, polynomial, and exponential functions
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate

alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots

Quadratic Functions and Equations

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 alge996 Comparing properties of quadratic functions given in different forms
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients

alge702 Classifying the graph of a function
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge957 Solving a quadratic equation by graphing
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph

Radicals

alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge903 Identifying direct and inverse variation equations
 alge905 Writing an inverse variation equation
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear

Data Analysis and Probability

mstat037 Constructing a line plot
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart

 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

B.63 Prep. for SC HSAP Mathematics

Arithmetic Readiness

arith123 Rounding to hundreds or thousands
 arith233 Introduction to exponents
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 arith658 Filling in missing operations to make an equation
 arith056 Factors
 arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 arith070 Least common multiple of 2 numbers
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith092 Using a common denominator to order fractions
 arith618 Addition or subtraction of fractions with the same denominator
 arith801 Finding the LCD of two fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication

arith088 The reciprocal of a number
 arith694 Division involving a whole number and a fraction
 arith022 Fraction division
 arith697 Mixed arithmetic operations with fractions
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith020 Mixed number multiplication: Problem type 1
 arith068 Mixed number division
 arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith221 Rounding decimals
 arith608 Ordering decimals
 arith609 Ordering fractions and decimals
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith222 Converting a fraction to a terminating decimal
 arith089 Converting a fraction to a repeating decimal
 arith013 Decimal addition with 3 numbers
 arith625 Subtraction of aligned decimals
 arith626 Word problem with one decimal operation: Problem type 1
 arith627 Word problem with one decimal operation: Problem type 2
 arith017 Multiplication of a decimal by a whole number
 arith082 Multiplication of a decimal by a power of ten
 arith055 Decimal multiplication: Problem type 1
 arith081 Division of a decimal by a whole number
 arith083 Division of a decimal by a power of ten
 mstat034 Measuring length to the nearest quarter or half inch
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit005 U.S. Customary unit conversion with whole number values
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius

Real Numbers

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 arith699 Writing a signed number for a real-world situation
 mstat038 Reading the temperature from a thermometer
 alge286 Plotting integers on a number line
 arith691 Ordering integers
 arith687 Fractional position on a number line
 arith605 Plotting rational numbers on a number line
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith701 Word problem with addition or subtraction of integers
 arith116 Signed fraction addition or subtraction: Basic

arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith822 Signed fraction multiplication: Basic
 arith118 Order of operations with integers
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 alge187 Properties of addition
 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression

Linear Equations and Inequalities

alge009 Additive property of equality with whole numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge740 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge602 Writing a one-step variable expression for a real-world situation
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$

alge014 Solving a word problem with two unknowns using a linear equation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation
 arith663 Writing ratios for real-world situations
 alge272 Solving a proportion of the form $x/a = b/c$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith226 Converting between percentages and decimals
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith090 Converting a percentage to a fraction in simplest form
 arith069 Writing a ratio as a percentage without a calculator
 mstat049 Computing a percentage from a table of values
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 alge015 Translating a sentence by using an inequality symbol
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge207 Solving a linear inequality: Problem type 4
 alge745 Solving a linear inequality: Problem type 5
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge748 Writing an inequality for a real-world situation
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge270 Solving an absolute value equation of the form $a-x = b$ or $-x+a = b$
 alge103 Solving an absolute value equation of the form $-ax+b = c$
 alge170 Solving an absolute value inequality: Basic

Lines and Systems of Linear Equations

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge197 Graphing a line given its x - and y -intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge069 Finding the y -intercept of a line given its equation
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge684 Finding slope given the graph of a line on a grid

alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge079 Graphing a system of two linear inequalities: Basic
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices

Exponents, Polynomials, and Quadratics

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 arith029 Ordering numbers with positive exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge758 Degree and leading coefficient of a univariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials

alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge764 Multiplying conjugate binomials: Univariate
 alge765 Multiplying binomials in two variables
 alge032 Squaring a binomial: Univariate
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge039 Factoring a quadratic with leading coefficient 1
 alge043 Factoring a perfect square trinomial
 alge040 Factoring a quadratic with leading coefficient greater than 1
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge624 Factoring a difference of squares
 alge038 Factoring a polynomial by grouping: Problem type 1
 alge181 Factoring a polynomial by grouping: Problem type 2
 alge681 Solving an equation written in factored form
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge252 Graphing a parabola of the form $y = ax^2$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 alge702 Classifying the graph of a function
 alge723 How the leading coefficient affects the shape of a parabola

Functions and Sequences

set004 Set builder and interval notation
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 pcalc768 Finding the average rate of change of a function
 fun019 Sum, difference, and product of two functions
 fun022 Composition of two functions: Basic
 fun002 Graphing integer functions

pcalc761 Finding inputs and outputs of a function from its graph
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 fun024 Domain and range from the graph of a continuous function
 pcalc114 Even and odd functions: Problem type 1
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge807 Finding the next terms of a sequence with whole numbers
 alge732 Finding patterns in shapes
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest

Radical Expressions

alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 arith032 Square root addition or subtraction
 arith039 Square root multiplication: Advanced
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals

Rational Expressions

alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2

alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge175 Word problem on direct variation
 alge176 Word problem on inverse variation
 alge772 Word problem on combined variation
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear

Perimeter, Area, and Volume

geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom078 Sides of polygons having the same perimeter
 geom019 Area of a square or a rectangle
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom344 Area involving rectangles and triangles
 geom213 Area of a regular polygon
 geom832 Area of quadrilaterals in the coordinate plane
 alge724 Finding an area in terms of variables
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom802 Circumference and area of a circle
 geom302 Area involving rectangles and circles

geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom805 Arc length and area of a sector of a circle
 geom830 Counting the cubes in a solid made of cubes
 geom354 Volume of a rectangular prism made of unit cubes
 geom311 Volume of a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom219 Nets of solids
 geom861 Nets of solids: Advanced
 geom348 Vertices, edges, and faces of a solid
 geom816 Side views of a solid made of cubes
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom338 Surface area involving prisms or cylinders

Lines, Angles, and Triangles

mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 glogic001 Conditional statements and negations
 glogic005 The converse, inverse, and contrapositive of a conditional statement
 glogic008 Conditional statements and deductive reasoning
 geom349 Naming segments, rays, and lines
 geom525 Computing distances between decimals on the number line
 geom526 Midpoint of a number line segment
 geom521 Segment addition and midpoints
 geom616 Introduction to proofs: Justifying statements
 geom614 Proofs involving segment congruence
 geom358 Identifying parallel and perpendicular lines
 geom835 Introduction to proofs involving parallel lines
 geom836 Proofs involving parallel lines
 geom154 Constructing the perpendicular bisector of a line segment
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom304 Identifying corresponding and alternate angles
 geom305 Identifying supplementary and vertical angles
 geom530 Solving equations involving vertical angles
 geom531 Solving equations involving angles and a pair of parallel lines
 geom850 Angle addition with relationships between angles
 geom851 Angle addition and angle bisectors
 geom611 Proofs involving angle congruence
 geom159 Constructing congruent angles
 geom158 Constructing an angle bisector
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom812 Finding an angle measure given extended triangles

geom813 Finding an angle measure given a triangle and parallel lines
 geom908 Finding an angle measure for a triangle with an extended side
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom845 Using triangle inequality to determine possible lengths of a third side
 geom854 Relationship between angle measures and side lengths in a triangle
 geom855 Relationship between angle measures and side lengths in two triangles
 geom044 Pythagorean Theorem
 geom068 Computing an area using the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 geom506 Special right triangles: Exact answers
 geom212 Circles inscribed in and circumscribed about regular polygons
 geom520 Identifying and naming congruent triangles
 geom617 Proofs involving congruent triangles and vertical angles or the reflexive property
 geom837 Proofs involving congruent triangles and segment or angle bisectors
 geom840 Proofs involving congruent triangles that overlap: Basic
 geom839 Proofs involving congruent triangles, parallel or perpendicular segments, and CPCTC
 geom843 Proofs involving congruent triangles that overlap: Advanced
 geom650 Indirect proof (proof by contradiction)
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc033 Solving a triangle with the law of cosines
 pcalc060 Magnitude of a vector given in component form
 pcalc063 Translation of a vector
 geom858 Scalar multiplication of a vector: Geometric Approach
 geom857 Vector addition: Geometric approach
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph

Polygons, Circles, and Similarity

alge191 Midpoint of a line segment in the plane
 alge132 Distance between two points in the plane: Exact answers
 geom310 Properties of quadrilaterals
 geom523 Conditions for quadrilaterals
 geom532 Classifying parallelograms
 geom528 Finding measures involving diagonals of parallelograms
 geom527 Conditions for parallelograms
 geom833 Finding measures involving diagonals of rectangles
 geom834 Finding measures involving diagonals of rhombi
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon
 geom853 Interior and exterior angle measures in a regular polygon
 geom819 Finding coordinates of vertices of polygons
 geom818 Finding the coordinates of a point to make a parallelogram
 geom863 Congruence in the coordinate plane
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom848 Tangents of a circle: Problem type 1
 geom849 Tangents of a circle: Problem type 2
 geom511 Lengths of chords, secants, and tangents

geom514 Inscribed angles of a circle
 geom512 Central angles and inscribed angles of a circle
 geom513 Angles of intersecting secants and tangents
 pcalc605 Graphing a circle given its equation in standard form
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom510 Triangles and parallel lines
 geom507 Right triangles and geometric mean
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2
 geom357 Identifying transformations
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom335 Rotating a figure about the origin
 geom815 Finding an angle of rotation
 geom831 Rotational and point symmetries
 geom336 Dilating a figure

Statistics and Probability

mstat004 Constructing a histogram for numerical data
 mstat005 Constructing a bar graph for non-numerical data
 mstat024 Interpreting a bar graph

Arithmetic Readiness

arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith101 Estimating a sum of whole numbers
 arith233 Introduction to exponents
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 arith713 Order of operations with whole numbers and exponents: Advanced
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 arith056 Factors
 arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 arith070 Least common multiple of 2 numbers
 arith240 Word problem with common multiples
 arith064 Solving a word problem on proportions using a unit rate
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith618 Addition or subtraction of fractions with the same denominator
 arith801 Finding the LCD of two fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith095 Multi-step word problem involving fractions and multiplication
 arith088 The reciprocal of a number
 arith694 Division involving a whole number and a fraction
 arith022 Fraction division
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith821 Exponents and fractions
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith085 Addition or subtraction of mixed numbers with different denominators
 arith020 Mixed number multiplication: Problem type 1
 arith068 Mixed number division
 arith110 Decimal place value: Tenths and hundredths

arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals
arith131 Estimating a decimal sum or difference
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith082 Multiplication of a decimal by a power of ten
arith628 Word problem with multiple decimal operations: Problem type 1
arith081 Division of a decimal by a whole number
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith226 Converting between percentages and decimals
arith090 Converting a percentage to a fraction in simplest form
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith069 Writing a ratio as a percentage without a calculator
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom221 Finding the missing length in a figure
geom340 Area of a piecewise rectangular figure
geom142 Word problem involving the area between two rectangles
geom801 Area of a triangle
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom016 Circumference of a circle
geom301 Perimeter involving rectangles and circles
geom802 Circumference and area of a circle
geom302 Area involving rectangles and circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom031 Surface area of a cube or a rectangular prism
geom091 Surface area of a triangular prism
geom621 Surface area of a cylinder
geom842 Surface area of a sphere
geom311 Volume of a rectangular prism
geom090 Volume of a triangular prism
geom033 Volume of a pyramid
geom035 Volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom622 Volume of a cone
geom841 Volume of a sphere

Real Numbers

arith687 Fractional position on a number line
alge286 Plotting integers on a number line
arith605 Plotting rational numbers on a number line
arith699 Writing a signed number for a real-world situation
arith092 Using a common denominator to order fractions
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith691 Ordering integers
arith016 Square root of a perfect square
arith763 Using a calculator to approximate a square root

arith712 Ordering real numbers
 arith071 Absolute value of a number
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2

 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 arith116 Signed fraction addition or subtraction: Basic
 arith106 Signed fraction addition or subtraction: Advanced
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith440 Operations with absolute value: Problem type 1
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge187 Properties of addition
 arith657 Understanding the distributive property
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form

alge986 Identifying properties used to solve a linear equation
alge824 Solving a two-step equation with signed decimals
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge611 Introduction to solving a linear equation with a variable on each side
alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge208 Solving a two-step equation with signed fractions
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
alge742 Solving equations with zero, one, or infinitely many solutions
alge810 Introduction to algebraic symbol manipulation
alge743 Algebraic symbol manipulation: Problem type 1
alge744 Algebraic symbol manipulation: Problem type 2
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
alge016 Translating a sentence into a one-step equation
alge841 Translating a sentence into a multi-step equation
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge014 Solving a word problem with two unknowns using a linear equation
alge730 Writing a multi-step equation for a real-world situation
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge794 Solving a value mixture problem using a linear equation
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
alge823 Solving a one-step word problem using the formula $d = rt$
alge218 Solving a word problem involving rates and time conversion
alge796 Solving a distance, rate, time problem using a linear equation
geom817 Finding a side length given the perimeter and side lengths with variables
geom217 Finding the side length of a rectangle given its perimeter or area
geom143 Finding the perimeter or area of a rectangle given one of these values
geom838 Circumference ratios
geom039 Finding supplementary and complementary angles
geom530 Solving equations involving vertical angles
geom001 Finding an angle measure of a triangle given two angles
geom623 Finding angle measures of a triangle given angles with variables
arith663 Writing ratios for real-world situations
alge272 Solving a proportion of the form $x/a = b/c$
alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge060 Solving a rational equation that simplifies to linear: Denominator x
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
geom037 Similar polygons
geom038 Similar right triangles
geom337 Indirect measurement
arith030 Finding a percentage of a whole number without a calculator: Basic
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced

alge795 Solving a percent mixture problem using a linear equation

 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge846 Translating a sentence into a multi-step inequality
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge868 Solving an absolute value inequality: Problem type 1
 alge943 Writing an absolute value inequality given a graph on the number line
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Lines and Functions

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane

alge850 Table for a linear equation
alge873 Identifying solutions to a linear equation in two variables
alge066 Finding a solution to a linear equation in two variables
alge877 Graphing a linear equation of the form $y = mx$
alge878 Graphing a line given its equation in slope-intercept form: Integer slope
alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
alge880 Graphing a line given its equation in standard form
alge198 Graphing a vertical or horizontal line
alge884 Finding x - and y -intercepts given the graph of a line on a grid
alge924 Finding x - and y -intercepts of a line given the equation: Basic
alge210 Finding x - and y -intercepts of a line given the equation: Advanced
alge197 Graphing a line given its x - and y -intercepts
alge881 Graphing a line by first finding its x - and y -intercepts
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y -intercept
alge196 Graphing a line through a given point with a given slope
mstat007 Interpreting a line graph
alge876 Identifying linear equations: Advanced
alge874 Identifying linear functions given ordered pairs
fun005 Writing a function rule given a table of ordered pairs: One-step rules
fun006 Writing a function rule given a table of ordered pairs: Two-step rules
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y -intercept
alge258 Writing an equation of a line given its slope and y -intercept
alge892 Writing an equation and graphing a line given its slope and y -intercept
alge314 Finding the slope, y -intercept, and equation for a linear function given a table of values
alge893 Writing an equation in slope-intercept form given the slope and a point
alge318 Finding the slope and a point on a line given its equation in point-slope form
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge313 Writing an equation in standard form given the slope and a point
alge070 Writing an equation of a line given the y -intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
alge322 Comparing linear functions to the parent function $y=x$
alge987 Comparing properties of linear functions given in different forms
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge817 Finding the initial amount and rate of change given a table for a linear function
alge818 Finding the initial amount and rate of change given a graph of a linear function
alge992 Combining functions to write a new function that models a real-world situation
alge989 Interpreting the parameters of a linear function that models a real-world situation
alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
alge806 Application problem with a linear function: Finding a coordinate given two points
mstat052 Identifying independent and dependent variables from equations or real-world situations
alge991 Solving a linear equation by graphing
alge828 Interpreting direct variation from a graph
alge982 Identifying direct variation equations
alge938 Identifying direct variation from ordered pairs and writing equations
alge904 Writing a direct variation equation
alge175 Word problem on direct variation
mstat030 Sketching the line of best fit

mstat023 Scatter plots and correlation
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat093 Classifying linear and nonlinear relationships from scatter plots
 mstat071 Linear relationship and the correlation coefficient
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat074 Identifying correlation and causation
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun030 Evaluating a piecewise-defined function
 fun033 Variable expressions as inputs of functions: Problem type 1
 alge990 Domain and range of a linear function that models a real-world situation
 alge716 Introduction to the composition of two functions
 fun012 Inverse functions: Linear, discrete
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge312 Finding domain and range from a linear graph in context
 alge896 Graphing an integer function and finding its range for a given domain
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun031 Graphing a piecewise-defined function: Problem type 1
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge908 Finding the first terms of a sequence using a recursive rule
 alge910 Writing a recursive rule for an arithmetic sequence

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 pcalc820 Using a graphing calculator to solve a system of linear equations: Basic
 pcalc821 Using a graphing calculator to solve a system of linear equations: Advanced
 alge317 Writing a system of linear equations given its graph
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition

alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge315 Writing an inequality given its graph in the plane: Horizontal or vertical boundary line
 alge316 Writing an inequality given its graph in the plane: Slanted boundary line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents

alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 arith029 Ordering numbers with positive exponents
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge756 Power and product rules with positive exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge927 Power and quotient rules with positive exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2

alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 arith094 Cube root of an integer
 alge812 Converting between radical form and exponent form
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge561 Rational exponents: Unit fraction exponents and bases involving signs
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge971 Table for an exponential function
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)x$
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)x$
 alge321 Finding domain and range from the graph of an exponential function
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge830 Evaluating an exponential function that models a real-world situation
 arith853 Introduction to compound interest
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 mstat103 Choosing an exponential model and using it to make a prediction
 alge993 Comparing linear, polynomial, and exponential functions
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2

alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge605 Factoring a linear binomial
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes

Quadratic Equations and Functions

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 alge094 Completing the square
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge323 Finding the zeros of a quadratic function given its equation
 alge320 Writing a quadratic function given its zeros
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge277 Finding the x-intercept(s) and the vertex of a parabola

pcalc714 Using a graphing calculator to find the zeros of a quadratic function
 pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
 alge957 Solving a quadratic equation by graphing
 alge319 Rewriting a quadratic function in standard form
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 mstat102 Choosing a quadratic model and using it to make a prediction
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph
 alge994 Graphically solving a system of linear and quadratic equations
 pcalc716 Using a graphing calculator to solve a system of linear and quadratic equations: Basic
 alge995 Solving a system of linear and quadratic equations

Radicals

alge213 Domain of a square root function
 alge539 Table for a square root function
 pcalc781 Graphing a square root function
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge984 Classifying sums and products as rational or irrational
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths

pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear

Data Analysis and Probability

mstat049 Computing a percentage from a table of values
 stat020 Calculating relative frequencies in a contingency table

arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith697 Mixed arithmetic operations with fractions
arith095 Multi-step word problem involving fractions and multiplication
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith085 Addition or subtraction of mixed numbers with different denominators
arith020 Mixed number multiplication: Problem type 1
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith222 Converting a fraction to a terminating decimal
arith089 Converting a fraction to a repeating decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith625 Subtraction of aligned decimals
arith131 Estimating a decimal sum or difference
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith055 Decimal multiplication: Problem type 1
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
arith019 Division of a decimal by a 2-digit decimal
arith626 Word problem with one decimal operation: Problem type 1
arith627 Word problem with one decimal operation: Problem type 2
arith628 Word problem with multiple decimal operations: Problem type 1
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom221 Finding the missing length in a figure
geom340 Area of a piecewise rectangular figure
geom142 Word problem involving the area between two rectangles
geom801 Area of a triangle
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom016 Circumference of a circle
geom301 Perimeter involving rectangles and circles
geom838 Circumference ratios
geom802 Circumference and area of a circle

geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 geom311 Volume of a rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom039 Finding supplementary and complementary angles

Real Numbers

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 mstat038 Reading the temperature from a thermometer
 arith699 Writing a signed number for a real-world situation
 alge286 Plotting integers on a number line
 arith687 Fractional position on a number line
 arith605 Plotting rational numbers on a number line
 arith691 Ordering integers
 arith712 Ordering real numbers
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith701 Word problem with addition or subtraction of integers
 arith116 Signed fraction addition or subtraction: Basic
 arith106 Signed fraction addition or subtraction: Advanced
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 alge984 Classifying sums and products as rational or irrational
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 geom525 Computing distances between decimals on the number line
 alge187 Properties of addition
 alge188 Properties of real numbers
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced

alge293 Combining like terms in a quadratic expression

Linear Equations

alge009 Additive property of equality with whole numbers
 alge801 Additive property of equality with fractions and mixed numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge837 Solving a multi-step equation given in fractional form
 alge208 Solving a two-step equation with signed fractions
 alge824 Solving a two-step equation with signed decimals
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge986 Identifying properties used to solve a linear equation
 alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge218 Solving a word problem involving rates and time conversion
 alge796 Solving a distance, rate, time problem using a linear equation

geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom530 Solving equations involving vertical angles
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 stat803 Finding the value for a new score that will yield a given mean
 arith663 Writing ratios for real-world situations
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith069 Writing a ratio as a percentage without a calculator
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith698 Applying the percent equation
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 unit052 Finding the absolute error and percent error of a measurement
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge846 Translating a sentence into a multi-step inequality
 alge748 Writing an inequality for a real-world situation
 alge729 Writing a multi-step inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2

alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge943 Writing an absolute value inequality given a graph on the number line
 alge868 Solving an absolute value inequality: Problem type 1
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

set001 Set builder notation
 set002 Union and intersection of finite sets
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 alge896 Graphing an integer function and finding its range for a given domain
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc761 Finding inputs and outputs of a function from its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge716 Introduction to the composition of two functions
 fun012 Inverse functions: Linear, discrete
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge873 Identifying solutions to a linear equation in two variables
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge196 Graphing a line through a given point with a given slope
 alge882 Graphing a line by first finding its slope and y -intercept
 alge883 Graphing a line given its equation in point-slope form
 alge198 Graphing a vertical or horizontal line
 alge876 Identifying linear equations: Advanced
 alge874 Identifying linear functions given ordered pairs
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope

alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge070 Writing an equation of a line given the y-intercept and another point
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge894 Writing an equation in point-slope form given the slope and a point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge990 Domain and range of a linear function that models a real-world situation
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge992 Combining functions to write a new function that models a real-world situation
 alge987 Comparing properties of linear functions given in different forms
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge895 Identifying parallel and perpendicular lines from equations
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge991 Solving a linear equation by graphing
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge828 Interpreting direct variation from a graph
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge908 Finding the first terms of a sequence using a recursive rule
 alge910 Writing a recursive rule for an arithmetic sequence
 mstat023 Scatter plots and correlation
 mstat030 Sketching the line of best fit
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat071 Linear relationship and the correlation coefficient
 mstat074 Identifying correlation and causation
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
 fun030 Evaluating a piecewise-defined function
 fun031 Graphing a piecewise-defined function: Problem type 1

Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations

alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge988 Identifying the operations used to create equivalent systems of equations
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents

alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge826 Understanding the power rules of exponents
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge927 Power and quotient rules with positive exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent

scinot002 Multiplying and dividing numbers written in scientific notation
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge971 Table for an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge993 Comparing linear, polynomial, and exponential functions
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge930 Greatest common factor of three univariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2

alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge703 Solving a word problem using a quadratic equation with rational roots

Quadratic Functions and Equations

alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 alge996 Comparing properties of quadratic functions given in different forms
 alge953 Translating the graph of a parabola: One step
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge702 Classifying the graph of a function
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge723 How the leading coefficient affects the shape of a parabola
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge957 Solving a quadratic equation by graphing
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge963 Applying the quadratic formula: Decimal answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots

alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph

Radicals

alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced

alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge903 Identifying direct and inverse variation equations
 alge905 Writing an inverse variation equation
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear

Data Analysis and Probability

mstat037 Constructing a line plot
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph
 geom814 Angle measure in a circle graph
 mstat031 Interpreting a stem-and-leaf plot
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 mstat001 Mean of a data set
 mstat028 Mean and median of a data set
 mstat066 Weighted mean
 mstat029 How changing a value affects the mean and median
 mstat053 Choosing the best measure to describe data
 stat802 Rejecting unreasonable claims based on average statistics
 mstat025 Finding if a question can be answered by the data
 mstat049 Computing a percentage from a table of values
 stat020 Calculating relative frequencies in a contingency table
 stat805 Making a reasonable inference based on proportion statistics
 stat009 Percentiles
 mstat072 Five-number summary and interquartile range
 stat021 Population standard deviation
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram

 mstat017 Computing permutations and combinations

mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

B.66 Prep. for TX - STAAR Geometry

Arithmetic Readiness

arith233 Introduction to exponents
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 arith056 Factors
 arith070 Least common multiple of 2 numbers
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith801 Finding the LCD of two fractions
 arith230 Addition or subtraction of fractions with different denominators
 arith086 Product of a fraction and a whole number: Problem type 1
 arith053 Fraction multiplication
 arith088 The reciprocal of a number
 arith022 Fraction division
 arith015 Writing an improper fraction as a mixed number
 arith110 Decimal place value: Tenths and hundredths
 arith221 Rounding decimals
 arith013 Decimal addition with 3 numbers
 arith625 Subtraction of aligned decimals
 arith017 Multiplication of a decimal by a whole number
 arith082 Multiplication of a decimal by a power of ten
 arith055 Decimal multiplication: Problem type 1
 arith081 Division of a decimal by a whole number
 arith083 Division of a decimal by a power of ten
 arith030 Finding a percentage of a whole number without a calculator: Basic
 alge286 Plotting integers on a number line
 arith691 Ordering integers
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith701 Word problem with addition or subtraction of integers
 arith116 Signed fraction addition or subtraction: Basic
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers

arith822 Signed fraction multiplication: Basic
 arith118 Order of operations with integers
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith704 Exponents and signed fractions
 arith600 Order of operations with integers and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 arith032 Square root addition or subtraction
 arith039 Square root multiplication: Advanced
 alge086 Rationalizing the denominator of a radical expression
 mstat034 Measuring length to the nearest quarter or half inch
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit005 U.S. Customary unit conversion with whole number values
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat065 Converting between temperatures in Fahrenheit and Celsius

Equations and Inequalities

alge001 Identifying numbers as integers or non-integers
 alge002 Identifying numbers as rational or irrational
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression
 alge187 Properties of addition
 alge188 Properties of real numbers
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge740 Multiplicative property of equality with integers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions
 alge803 Using two steps to solve an equation with whole numbers
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution

alge810 Introduction to algebraic symbol manipulation
 alge743 Algebraic symbol manipulation: Problem type 1
 alge744 Algebraic symbol manipulation: Problem type 2
 alge272 Solving a proportion of the form $x/a = b/c$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 arith663 Writing ratios for real-world situations
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 alge015 Translating a sentence by using an inequality symbol
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge166 Graphing a compound inequality on the number line
 alge186 Translating a sentence into a compound inequality
 alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge207 Solving a linear inequality: Problem type 4
 alge745 Solving a linear inequality: Problem type 5
 alge746 Solving a compound linear inequality: Graph solution, basic

Linear Equations in Two Variables

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge850 Table for a linear equation
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge197 Graphing a line given its x - and y -intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge069 Finding the y -intercept of a line given its equation
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge684 Finding slope given the graph of a line on a grid
 alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 alge070 Writing an equation of a line given the y -intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 pcalc038 Addition or subtraction of matrices
 pcalc037 Scalar multiplication of a matrix
 pcalc740 Linear combination of matrices

Reasoning, Lines, and Angles

alge807 Finding the next terms of a sequence with whole numbers
 alge732 Finding patterns in shapes
 mstat042 Interpreting a Venn diagram of 2 sets

mstat043 Interpreting a Venn diagram of 3 sets
glogic001 Conditional statements and negations
glogic005 The converse, inverse, and contrapositive of a conditional statement
glogic008 Conditional statements and deductive reasoning
geom349 Naming segments, rays, and lines
geom525 Computing distances between decimals on the number line
geom526 Midpoint of a number line segment
geom521 Segment addition and midpoints
geom616 Introduction to proofs: Justifying statements
geom614 Proofs involving segment congruence
alge132 Distance between two points in the plane: Exact answers
alge191 Midpoint of a line segment in the plane
geom358 Identifying parallel and perpendicular lines
geom835 Introduction to proofs involving parallel lines
geom836 Proofs involving parallel lines
geom154 Constructing the perpendicular bisector of a line segment
geom150 Constructing a pair of perpendicular lines
geom157 Constructing a pair of parallel lines
geom151 Measuring an angle with the protractor
geom152 Drawing an angle with the protractor
geom303 Acute, obtuse, and right angles
geom039 Finding supplementary and complementary angles
geom304 Identifying corresponding and alternate angles
geom305 Identifying supplementary and vertical angles
geom530 Solving equations involving vertical angles
geom531 Solving equations involving angles and a pair of parallel lines
geom850 Angle addition with relationships between angles
geom851 Angle addition and angle bisectors
geom611 Proofs involving angle congruence
geom158 Constructing an angle bisector
geom159 Constructing congruent angles

Triangles

geom306 Acute, obtuse, and right triangles
geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
geom801 Area of a triangle
geom001 Finding an angle measure of a triangle given two angles
geom502 Finding angle measures of a right or isosceles triangle given angles with variables
geom908 Finding an angle measure for a triangle with an extended side
geom309 Finding an angle measure for a triangle sharing a side with another triangle
geom812 Finding an angle measure given extended triangles
geom813 Finding an angle measure given a triangle and parallel lines
geom844 Using triangle inequality to determine if side lengths form a triangle
geom845 Using triangle inequality to determine possible lengths of a third side
geom854 Relationship between angle measures and side lengths in a triangle
geom855 Relationship between angle measures and side lengths in two triangles
geom650 Indirect proof (proof by contradiction)
geom359 Identifying congruent shapes on a grid
geom520 Identifying and naming congruent triangles
geom617 Proofs involving congruent triangles and vertical angles or the reflexive property
geom837 Proofs involving congruent triangles and segment or angle bisectors
geom840 Proofs involving congruent triangles that overlap: Basic
geom839 Proofs involving congruent triangles, parallel or perpendicular segments, and CPCTC
geom843 Proofs involving congruent triangles that overlap: Advanced
geom044 Pythagorean Theorem
geom862 Using the Pythagorean Theorem repeatedly
geom068 Computing an area using the Pythagorean Theorem
geom506 Special right triangles: Exact answers

Polygons

geom310 Properties of quadrilaterals
 geom523 Conditions for quadrilaterals
 geom532 Classifying parallelograms
 geom819 Finding coordinates of vertices of polygons
 geom818 Finding the coordinates of a point to make a parallelogram
 geom863 Congruence in the coordinate plane
 geom870 Sum of the angle measures of a quadrilateral
 geom528 Finding measures involving diagonals of parallelograms
 geom527 Conditions for parallelograms
 geom833 Finding measures involving diagonals of rectangles
 geom834 Finding measures involving diagonals of rhombi
 geom852 The sum of interior angle measures in a convex polygon
 geom853 Interior and exterior angle measures in a regular polygon
 geom300 Perimeter of a square or a rectangle
 geom339 Perimeter of a polygon
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom078 Sides of polygons having the same perimeter
 geom019 Area of a square or a rectangle
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom344 Area involving rectangles and triangles
 geom213 Area of a regular polygon
 geom832 Area of quadrilaterals in the coordinate plane
 alge724 Finding an area in terms of variables

Similarity, Trigonometry, and Transformations

geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom510 Triangles and parallel lines
 geom507 Right triangles and geometric mean
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc033 Solving a triangle with the law of cosines
 geom357 Identifying transformations
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom335 Rotating a figure about the origin

geom815 Finding an angle of rotation
 geom831 Rotational and point symmetries
 geom336 Dilating a figure
 pcalc060 Magnitude of a vector given in component form
 pcalc063 Translation of a vector
 geom858 Scalar multiplication of a vector: Geometric Approach
 geom857 Vector addition: Geometric approach
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph

Circles

geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom848 Tangents of a circle: Problem type 1
 geom849 Tangents of a circle: Problem type 2
 geom511 Lengths of chords, secants, and tangents
 geom512 Central angles and inscribed angles of a circle
 geom514 Inscribed angles of a circle
 geom513 Angles of intersecting secants and tangents
 geom814 Angle measure in a circle graph
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom802 Circumference and area of a circle
 geom805 Arc length and area of a sector of a circle
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom212 Circles inscribed in and circumscribed about regular polygons
 pcalc605 Graphing a circle given its equation in standard form
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter

Volumes and Surface Areas

geom830 Counting the cubes in a solid made of cubes
 geom354 Volume of a rectangular prism made of unit cubes
 geom311 Volume of a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom348 Vertices, edges, and faces of a solid
 geom219 Nets of solids
 geom861 Nets of solids: Advanced
 geom816 Side views of a solid made of cubes
 geom031 Surface area of a cube or a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom338 Surface area involving prisms or cylinders

geom842 Surface area of a sphere
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

Probability

mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 stat790 Permutations, combinations, and the multiplication principle for counting
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat032 Probability of the union of two events

Removed Topics - Arithmetic, Equations, Inequalities

arith033 Greatest common factor of 2 numbers
 arith123 Rounding to hundreds or thousands
 arith692 Writing expressions using exponents
 arith683 Power of 10: Positive exponent
 arith658 Filling in missing operations to make an equation
 arith034 Prime numbers
 arith035 Prime factorization
 arith064 Solving a word problem on proportions using a unit rate
 arith657 Understanding the distributive property
 arith092 Using a common denominator to order fractions
 arith618 Addition or subtraction of fractions with the same denominator
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith079 Product of a unit fraction and a whole number
 arith119 Introduction to fraction multiplication
 arith694 Division involving a whole number and a fraction
 arith697 Mixed arithmetic operations with fractions
 arith619 Writing a mixed number as an improper fraction
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith020 Mixed number multiplication: Problem type 1
 arith068 Mixed number division
 arith220 Decimal place value: Hundreds to ten thousandths
 arith608 Ordering decimals
 arith609 Ordering fractions and decimals
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith222 Converting a fraction to a terminating decimal
 arith089 Converting a fraction to a repeating decimal
 arith626 Word problem with one decimal operation: Problem type 1
 arith627 Word problem with one decimal operation: Problem type 2
 arith226 Converting between percentages and decimals
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith090 Converting a percentage to a fraction in simplest form

mstat049 Computing a percentage from a table of values
arith069 Writing a ratio as a percentage without a calculator
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced
arith232 Finding simple interest without a calculator
stat804 Interpreting a circle graph or pie chart
stat801 Computations from a circle graph
arith699 Writing a signed number for a real-world situation
mstat038 Reading the temperature from a thermometer
arith687 Fractional position on a number line
arith605 Plotting rational numbers on a number line
alge009 Additive property of equality with whole numbers
alge800 Additive property of equality with decimals
alge008 Multiplicative property of equality with whole numbers
alge825 Multiplicative property of equality with decimals
alge824 Solving a two-step equation with signed decimals
alge200 Solving an equation to find the value of an expression
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
alge742 Solving equations with zero, one, or infinitely many solutions
alge733 Writing a one-step expression for a real-world situation
alge602 Writing a one-step variable expression for a real-world situation
alge730 Writing a multi-step equation for a real-world situation
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge014 Solving a word problem with two unknowns using a linear equation
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge794 Solving a value mixture problem using a linear equation
alge795 Solving a percent mixture problem using a linear equation
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
alge823 Solving a one-step word problem using the formula $d = rt$
alge218 Solving a word problem involving rates and time conversion
alge796 Solving a distance, rate, time problem using a linear equation
alge748 Writing an inequality for a real-world situation
alge749 Solving a decimal word problem using a two-step linear inequality
alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
alge270 Solving an absolute value equation of the form $a-x = b$ or $-x+a = b$
alge103 Solving an absolute value equation of the form $-ax+b = c$
alge170 Solving an absolute value inequality: Basic
mstat025 Finding if a question can be answered by the data
stat802 Rejecting unreasonable claims based on average statistics
stat805 Making a reasonable inference based on proportion statistics
stat021 Population standard deviation
mstat004 Constructing a histogram for numerical data
mstat005 Constructing a bar graph for non-numerical data
mstat024 Interpreting a bar graph
mstat044 Interpreting a double bar graph
mstat007 Interpreting a line graph
mstat006 Constructing a box-and-whisker plot
mstat031 Interpreting a stem-and-leaf plot
mstat027 Using back-to-back stem-and-leaf plots to compare data sets
mstat003 Mode of a data set
mstat055 Finding the mode and range of a data set
mstat001 Mean of a data set
mstat028 Mean and median of a data set

stat803 Finding the value for a new score that will yield a given mean
 mstat029 How changing a value affects the mean and median
 mstat053 Choosing the best measure to describe data
 mstat066 Weighted mean

Removed Topics - Advanced Algebra

set004 Set builder and interval notation
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 pcalc768 Finding the average rate of change of a function
 fun019 Sum, difference, and product of two functions
 fun022 Composition of two functions: Basic
 fun002 Graphing integer functions
 pcalc761 Finding inputs and outputs of a function from its graph
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 fun024 Domain and range from the graph of a continuous function
 pcalc114 Even and odd functions: Problem type 1
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge079 Graphing a system of two linear inequalities: Basic
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent

arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith043 Evaluating an expression with a negative exponent: Negative integer base
alge791 Rewriting an algebraic expression without a negative exponent
alge821 Understanding the product rule of exponents
alge024 Introduction to the product rule of exponents
alge030 Product rule with positive exponents: Multivariate
alge028 Product rule with negative exponents
alge827 Introduction to the quotient rule of exponents
alge026 Quotient of expressions involving exponents
alge755 Quotient rule with negative exponents: Problem type 1
alge826 Understanding the power rules of exponents
alge754 Introduction to the power rules of exponents
alge027 Power rules with positive exponents
alge025 Power of a power rule with negative exponents
alge799 Power rules with negative exponents
alge756 Power and product rules with positive exponents
arith029 Ordering numbers with positive exponents
alge758 Degree and leading coefficient of a univariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge835 Multiplying a multivariate polynomial by a monomial
alge033 Multiplying binomials with leading coefficients of 1
alge764 Multiplying conjugate binomials: Univariate
alge765 Multiplying binomials in two variables
alge032 Squaring a binomial: Univariate
alge180 Multiplication involving binomials and trinomials in two variables
alge759 Dividing a polynomial by a monomial: Univariate
alge760 Dividing a polynomial by a monomial: Multivariate
alge761 Polynomial long division: Problem type 1
alge762 Polynomial long division: Problem type 2
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge739 Factoring out a monomial from a polynomial: Multivariate
alge039 Factoring a quadratic with leading coefficient 1
alge043 Factoring a perfect square trinomial
alge040 Factoring a quadratic with leading coefficient greater than 1
alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
alge041 Factoring a product of a quadratic trinomial and a monomial
alge624 Factoring a difference of squares
alge038 Factoring a polynomial by grouping: Problem type 1
alge181 Factoring a polynomial by grouping: Problem type 2
alge681 Solving an equation written in factored form
alge045 Finding the roots of a quadratic equation with leading coefficient 1
alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
alge211 Solving a quadratic equation needing simplification
alge092 Solving a quadratic equation using the square root property: Exact answers, basic
alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
alge094 Completing the square
alge780 Solving a quadratic equation by completing the square: Exact answers
alge095 Applying the quadratic formula: Exact answers
alge214 Discriminant of a quadratic equation
alge703 Solving a word problem using a quadratic equation with rational roots
alge524 Solving a word problem using a quadratic equation with irrational roots
alge277 Finding the x-intercept(s) and the vertex of a parabola
pcalc775 Finding the maximum or minimum of a quadratic function
alge785 Word problem involving the maximum or minimum of a quadratic function
alge252 Graphing a parabola of the form $y = ax^2$
alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
alge702 Classifying the graph of a function
alge723 How the leading coefficient affects the shape of a parabola

alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge661 Adding rational expressions involving different quadratic denominators
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 pcalc789 Finding the asymptotes of a rational function: Basic
 pcalc108 Graphing a rational function: Constant or linear over linear
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge175 Word problem on direct variation
 alge176 Word problem on inverse variation
 alge772 Word problem on combined variation
 alge213 Domain of a square root function
 pcalc781 Graphing a square root function
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest

B.67 Math Prep. for TAKS – HS Exit Exam

Integers, Fractions and Percents

arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith231 Integer multiplication and division
 arith048 Order of operations with whole numbers
 arith016 Square root of a perfect square
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith618 Addition or subtraction of fractions with the same denominator
 arith230 Addition or subtraction of fractions with different denominators
 arith106 Signed fraction addition or subtraction: Advanced
 arith086 Product of a fraction and a whole number: Problem type 1
 arith053 Fraction multiplication
 arith022 Fraction division
 arith105 Signed fraction multiplication: Advanced
 mstat034 Measuring length to the nearest quarter or half inch
 arith221 Rounding decimals
 arith224 Word problem with decimal addition and multiplication
 arith227 Word problem with decimal subtraction and division
 arith090 Converting a percentage to a fraction in simplest form
 arith686 Writing a ratio as a percentage
 mstat049 Computing a percentage from a table of values
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 stat801 Computations from a circle graph
 arith232 Finding simple interest without a calculator

Equations and Inequalities

alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge607 Combining like terms: Integer coefficients
 alge010 Additive property of equality with integers
 alge008 Multiplicative property of equality with whole numbers
 alge012 Multiplicative property of equality with signed fractions
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge810 Introduction to algebraic symbol manipulation
 alge160 Algebraic symbol manipulation
 alge015 Translating a sentence by using an inequality symbol
 alge729 Writing a multi-step inequality for a real-world situation
 alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge017 Graphing a linear inequality on the number line
 alge166 Graphing a compound inequality on the number line
 arith663 Writing ratios for real-world situations

arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge272 Solving a proportion of the form $x/a = b/c$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 alge175 Word problem on direct variation
 alge602 Writing a one-step variable expression for a real-world situation
 alge016 Translating a sentence into a one-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides

Graphs, Functions and Systems of Equations

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 fun001 Table for a linear function
 alge197 Graphing a line given its x- and y-intercepts
 alge198 Graphing a vertical or horizontal line
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge637 Determining the slope of a line given its graph
 alge263 Interpreting the graphs of two functions
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge191 Midpoint of a line segment in the plane
 alge132 Distance between two points in the plane: Exact answers
 alge726 Using the distance formula with midpoints
 alge069 Finding the y-intercept of a line given its equation
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge631 Finding the slope of a line given its equation
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge725 Graphically solving a system of linear equations
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge722 Simple system of equations with three unknowns
 alge807 Finding the next terms of a sequence with whole numbers
 alge728 Finding patterns in geometry
 alge727 Checking if a formula describes a pattern
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 set004 Set builder and interval notation

fun016 Domain and range from ordered pairs
 fun024 Domain and range from the graph of a continuous function
 fun010 Vertical line test
 alge702 Classifying the graph of a function
 alge177 Finding a final amount in a word problem on exponential growth or decay

Exponents, Polynomials and Quadratics

arith047 Evaluating expressions with exponents: Problem type 1
 alge026 Quotient of expressions involving exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge028 Product rule with negative exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge004 Evaluating a quadratic expression: Integers
 alge663 Combining like terms: Advanced
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge033 Multiplying binomials with leading coefficients of 1
 alge032 Squaring a binomial: Univariate
 alge705 Factoring a quadratic with leading coefficient 1
 alge040 Factoring a quadratic with leading coefficient greater than 1
 alge290 Factoring a difference of squares in one variable: Basic
 alge681 Solving an equation written in factored form
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge095 Applying the quadratic formula: Exact answers
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge723 How the leading coefficient affects the shape of a parabola
 alge252 Graphing a parabola of the form $y = ax^2$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 alge185 Writing an equation for a function after a vertical translation
 alge262 Graphing a cubic function of the form $y = ax^3$

Perimeter, Area and Volume

geom300 Perimeter of a square or a rectangle
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom078 Sides of polygons having the same perimeter
 geom019 Area of a square or a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom340 Area of a piecewise rectangular figure
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom142 Word problem involving the area between two rectangles
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom344 Area involving rectangles and triangles
 geom213 Area of a regular polygon
 geom832 Area of quadrilaterals in the coordinate plane
 alge724 Finding an area in terms of variables

geom218 Finding the radius or the diameter of a circle given its circumference
 geom802 Circumference and area of a circle
 geom301 Perimeter involving rectangles and circles
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom805 Arc length and area of a sector of a circle
 geom219 Nets of solids
 geom861 Nets of solids: Advanced
 geom865 Measuring the net of a solid to find surface area or volume
 geom348 Vertices, edges, and faces of a solid
 geom816 Side views of a solid made of cubes
 geom031 Surface area of a cube or a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders
 geom830 Counting the cubes in a solid made of cubes
 geom354 Volume of a rectangular prism made of unit cubes
 geom311 Volume of a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom035 Volume of a cylinder
 geom841 Volume of a sphere
 geom033 Volume of a pyramid
 geom086 Volume of a cone: Exact answers in terms of pi
 geom092 Word problem involving the rate of filling or emptying a cylinder

Geometry

geom358 Identifying parallel and perpendicular lines
 geom521 Segment addition and midpoints
 geom039 Finding supplementary and complementary angles
 geom304 Identifying corresponding and alternate angles
 geom305 Identifying supplementary and vertical angles
 geom530 Solving equations involving vertical angles
 geom503 Solving equations involving angles and two pairs of parallel lines
 geom850 Angle addition with relationships between angles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom852 The sum of interior angle measures in a convex polygon
 geom814 Angle measure in a circle graph
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom044 Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 geom860 Special right triangles: Decimal answers
 geom068 Computing an area using the Pythagorean Theorem
 geom854 Relationship between angle measures and side lengths in a triangle
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom310 Properties of quadrilaterals
 geom528 Finding measures involving diagonals of parallelograms
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom819 Finding coordinates of vertices of polygons
 geom359 Identifying congruent shapes on a grid

geom863 Congruence in the coordinate plane
geom360 Identifying similar or congruent shapes on a grid
geom037 Similar polygons
geom038 Similar right triangles
geom337 Indirect measurement
geom510 Triangles and parallel lines
geom507 Right triangles and geometric mean
geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
geom847 Similar solids: Problem type 2
geom133 Ratio of volumes
geom330 Translating a polygon
geom357 Identifying transformations
geom331 Using a translated point to find coordinates of other translated points
geom332 Reflecting a polygon over a vertical or horizontal line
geom333 Finding the coordinates of three points reflected over an axis
geom334 Drawing lines of symmetry
geom335 Rotating a figure about the origin
geom336 Dilating a figure
geom815 Finding an angle of rotation

Probability and Statistics

mstat044 Interpreting a double bar graph
mstat007 Interpreting a line graph
mstat051 Choosing a graph to fit a narrative: Advanced
stat804 Interpreting a circle graph or pie chart
mstat043 Interpreting a Venn diagram of 3 sets
mstat030 Sketching the line of best fit
mstat023 Scatter plots and correlation
mstat006 Constructing a box-and-whisker plot
mstat052 Identifying independent and dependent variables from equations or real-world situations
mstat003 Mode of a data set
mstat028 Mean and median of a data set
mstat050 Choosing a measure to describe data
stat803 Finding the value for a new score that will yield a given mean
mstat029 How changing a value affects the mean and median
stat802 Rejecting unreasonable claims based on average statistics
stat805 Making a reasonable inference based on proportion statistics
mstat025 Finding if a question can be answered by the data
mstat040 Introduction to the counting principle
mstat008 Word problem involving permutations
mstat009 Word problem involving combinations
mstat026 Introduction to the probability of an event
mstat010 Probability of an event
stat106 Outcomes and event probability
stat112 Probabilities involving two dice
mstat011 Area as probability
mstat012 Probability of independent events
mstat013 Probability of dependent events
mstat046 Experimental and theoretical probability
mstat047 Introduction to expectation

B.68 Texas M.S. Math 1/LV6

Whole Numbers

arith124 Whole number place value: Problem type 1
arith125 Whole number place value: Problem type 2
arith066 Expanded form
arith643 Expanded form with zeros
arith028 Numeral translation: Problem type 1
arith060 Numeral translation: Problem type 2
arith633 One-digit addition with carry
arith634 Addition of 3 or 4 one-digit numbers
arith001 Addition without carry
arith635 Adding a 2-digit number and a 1-digit number with carry
arith050 Addition with carry
arith630 Addition with carry to the hundreds place
arith012 Addition of large numbers
arith636 Subtracting a 1-digit number from a 2-digit number
arith007 Subtraction without borrowing
arith006 Subtraction with borrowing
arith682 Subtraction with multiple regrouping steps
arith637 Subtraction and regrouping with zeros
arith653 Fact families for addition and subtraction
arith613 Word problem with addition or subtraction of whole numbers
mstat061 Describing an increasing or decreasing pattern from a table of values
arith126 Multiplication as repeated addition
arith008 One-digit multiplication
arith639 Using multiplication to find the number of squares
arith679 Multiplication by 10, 100, and 1000
arith003 Multiplication without carry
arith004 Multiplication with carry
arith632 Multiplication with trailing zeros: Problem type 1
arith615 Introduction to multiplication of large numbers
arith675 Understanding multiplication of a one-digit number with a larger number
arith638 Multiplication with trailing zeros: Problem type 2
arith014 Multiplication of large numbers
arith641 Multiples: Problem type 1
arith642 Multiples: Problem type 2
arith075 Division facts
arith654 Fact families for multiplication and division
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith052 Division without carry
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith680 Division with trailing zeros: Problem type 1
arith649 Division with trailing zeros: Problem type 2
arith616 Quotient and remainder: Problem type 1
arith644 Word problem on quotient and remainder
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product

arith678 Estimating a quotient
 arith692 Writing expressions using exponents
 arith233 Introduction to exponents
 arith683 Power of 10: Positive exponent
 arith645 Introduction to parentheses
 arith865 Comparing numerical expressions with parentheses
 arith681 Introduction to order of operations
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 arith713 Order of operations with whole numbers and exponents: Advanced
 arith646 Even and odd numbers
 arith647 Divisibility rules for 2, 5, and 10
 arith648 Divisibility rules for 3 and 9
 arith056 Factors
 arith034 Prime numbers
 arith035 Prime factorization
 arith033 Greatest common factor of 2 numbers
 arith516 Greatest common factor of 3 numbers
 arith409 Introduction to the distributive property
 arith657 Understanding the distributive property
 arith410 Introduction to factoring with numbers
 arith411 Factoring a sum or difference of whole numbers
 arith070 Least common multiple of 2 numbers
 arith804 Least common multiple of 3 numbers
 arith418 Word problem involving the least common multiple of 2 numbers
 arith240 Word problem with common multiples
 alge284 Evaluating an algebraic expression: Whole number addition or subtraction
 alge683 Evaluating an algebraic expression: Whole number multiplication or division
 alge285 Evaluating an algebraic expression: Whole numbers with two operations
 alge649 Evaluating a formula
 alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge650 Identifying solutions to a one-step linear equation: Problem type 1
 alge651 Identifying solutions to a one-step linear equation: Problem type 2
 alge009 Additive property of equality with whole numbers
 alge813 Introduction to solving an equation with multiplication or division
 alge008 Multiplicative property of equality with whole numbers
 alge016 Translating a sentence into a one-step equation
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid

Decimals

arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals

arith221 Rounding decimals
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith734 Subtraction of aligned decimals
 arith735 Decimal subtraction: Basic
 arith736 Decimal subtraction: Advanced
 arith737 Decimal addition and subtraction with 3 or more numbers
 arith131 Estimating a decimal sum or difference
 arith668 Addition with money
 arith669 Subtraction with money
 arith132 Word problem with addition or subtraction of 2 decimals
 arith133 Word problem with addition of 3 or 4 decimals and whole numbers
 arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
 arith739 Introduction to decimal multiplication
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2
 arith082 Multiplication of a decimal by a power of ten
 arith738 Multiplication of a decimal by a power of 0.1
 arith740 Multiplication of decimals that have a product less than 0.1
 arith752 Estimating a product of decimals
 arith135 Word problem with multiplication of a decimal and a whole number
 arith137 Word problem with multiplication of two decimals
 arith628 Word problem with multiple decimal operations: Problem type 1
 arith744 Whole number division with decimal answers
 arith081 Division of a decimal by a whole number
 arith743 Division of a decimal by a 1-digit decimal
 arith019 Division of a decimal by a 2-digit decimal
 arith083 Division of a decimal by a power of ten
 arith742 Division of a decimal by a power of 0.1
 arith745 Decimal division with rounding
 arith136 Word problem with division of a decimal and a whole number
 arith138 Word problem with division of two decimals
 arith629 Word problem with multiple decimal operations: Problem type 2
 arith103 Average of two numbers
 arith753 Squaring decimal bases: Products greater than 0.1
 arith741 Exponents and decimals: Products less than 0.1
 arith720 Order of operations with decimals: Problem type 1
 arith746 Order of operations with decimals: Problem type 2
 arith747 Order of operations with decimals: Problem type 3
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent

Fractions

arith623 Introduction to fractions
 arith665 Understanding equivalent fractions
 arith212 Equivalent fractions
 arith666 Introduction to simplifying a fraction
 arith067 Simplifying a fraction
 arith687 Fractional position on a number line
 arith667 Plotting fractions on a number line
 arith044 Ordering fractions with the same denominator
 arith091 Ordering fractions with the same numerator
 arith092 Using a common denominator to order fractions
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith812 Product of a fraction and a whole number: Problem type 2

arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division
arith820 Word problem involving multiplication or division with mixed numbers
arith127 Writing a decimal and a fraction for a shaded region
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced
arith733 Using a calculator to convert a fraction to a rounded decimal
arith111 Converting a mixed number to a terminating decimal: Basic
arith112 Converting a mixed number to a terminating decimal: Advanced
arith732 Converting a fraction or mixed number to a rounded decimal
arith609 Ordering fractions and decimals
arith717 Converting a decimal to a proper fraction without simplifying: Basic
arith719 Converting a decimal to a proper fraction without simplifying: Advanced
arith718 Converting a decimal to a proper fraction in simplest form: Basic
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
arith513 Identifying rational decimal numbers
arith821 Exponents and fractions
arith859 Order of operations with fractions: Problem type 1
arith860 Order of operations with fractions: Problem type 2
arith861 Order of operations with fractions: Problem type 3

arith695 Complex fraction without variables: Problem type 1
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge281 Function tables with one-step rules
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer

mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
 arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 arith918 Comparing discounts
 arith914 Calculations involving paying for college
 arith916 Computing percentages for categories of a budget
 arith921 Comparing annual salaries of different occupations
 arith911 Calculations involving purchases with debit and credit cards
 arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score

Integers and Rational Numbers

alge286 Plotting integers on a number line
 mstat038 Reading the temperature from a thermometer
 arith691 Ordering integers
 arith415 Using a number line to compare integers
 arith699 Writing a signed number for a real-world situation
 arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
 arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
 arith416 Comparing signed numbers relating to a real-world situation
 arith402 Plotting opposite integers on a number line
 arith403 Finding opposites of integers
 arith071 Absolute value of a number
 arith412 Finding all numbers with a given absolute value
 arith605 Plotting rational numbers on a number line
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith431 Identifying a sum as a point located a given distance from another point
 arith430 Identifying relative change when combining two quantities
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith755 Addition and subtraction with 4 or 5 integers
 arith440 Operations with absolute value: Problem type 1
 arith104 Operations with absolute value: Problem type 2
 alge694 Computing the distance between two integers on a number line
 arith433 Computing and understanding distances between integers on a number line
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith952 Word problem with multiplication or division of integers
 arith702 Exponents and integers: Problem type 1
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith750 Signed decimal multiplication
 arith751 Signed decimal division
 alge660 Identifying equivalent signed fractions
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith814 Signed fraction division
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 geom525 Computing distances between decimals on the number line
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge001 Identifying numbers as integers or non-integers
 alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients

arith655 Introduction to properties of addition
alge187 Properties of addition
alge665 Combining like terms: Decimal coefficients
alge666 Combining like terms: Fractional coefficients
alge310 Multiplying a constant and a linear monomial
alge606 Distributive property: Whole number coefficients
alge610 Distributive property: Fractional coefficients
alge605 Factoring a linear binomial
alge612 Identifying parts in an algebraic expression
alge613 Identifying equivalent algebraic expressions
arith656 Introduction to properties of multiplication
alge188 Properties of real numbers
alge608 Using distribution and combining like terms to simplify: Univariate
alge667 Identifying properties used to simplify an algebraic expression

Equations and Inequalities

alge800 Additive property of equality with decimals
alge801 Additive property of equality with fractions and mixed numbers
alge010 Additive property of equality with integers
alge836 Additive property of equality with signed fractions
alge825 Multiplicative property of equality with decimals
alge646 Multiplicative property of equality with whole numbers: Fractional answers
alge820 Multiplicative property of equality with fractions
alge797 Multiplicative property of equality with integers
alge012 Multiplicative property of equality with signed fractions
alge834 Identifying solutions to a linear equation in one variable: Two-step equations
alge803 Using two steps to solve an equation with whole numbers
alge266 Additive property of equality with a negative coefficient
alge006 Solving a two-step equation with integers
alge920 Introduction to solving an equation with parentheses
alge837 Solving a multi-step equation given in fractional form
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge611 Introduction to solving a linear equation with a variable on each side
alge658 Introduction to solving a rational equation
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge671 Choosing stories that can be represented by given one-step equations
alge841 Translating a sentence into a multi-step equation
alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
alge618 Comparing arithmetic and algebraic solutions to a word problem
alge672 Choosing stories that can be represented by given two-step equations
alge014 Solving a word problem with two unknowns using a linear equation
alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge015 Translating a sentence by using an inequality symbol
alge845 Translating a sentence into a one-step inequality
alge653 Introduction to identifying solutions to an inequality
alge748 Writing an inequality for a real-world situation
alge017 Graphing a linear inequality on the number line
alge822 Writing an inequality given a graph on the number line
alge166 Graphing a compound inequality on the number line
alge652 Identifying solutions to a one-step linear inequality
alge848 Additive property of inequality with whole numbers
alge849 Additive property of inequality with integers
alge809 Multiplicative property of inequality with whole numbers
alge854 Multiplicative property of inequality with integers
alge636 Solving a two-step linear inequality with whole numbers
alge846 Translating a sentence into a multi-step inequality
alge621 Solving a word problem using a one-step linear inequality

alge623 Solving a word problem using a two-step linear inequality

Graphs and Functions

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 arith454 Making a table and plotting points given a unit rate
 alge283 Graphing whole number functions
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun001 Table for a linear function
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 mstat007 Interpreting a line graph
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge263 Interpreting the graphs of two functions
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 alge907 Finding the next terms of a geometric sequence with signed numbers

alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom358 Identifying parallel and perpendicular lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom519 Identifying and naming congruent parts of congruent triangles
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon
 arith016 Square root of a perfect square
 alge413 Finding all square roots of a number
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom603 Identifying side lengths that give right triangles

Transformations

geom357 Identifying transformations
 geom355 Introduction to translations

geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom356 Introduction to reflections
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 geom142 Word problem involving the area between two rectangles
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
 geom344 Area involving rectangles and triangles
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom832 Area of quadrilaterals in the coordinate plane
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios

geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom816 Side views of a solid made of cubes
 geom550 Identifying horizontal and vertical cross sections of solids
 geom311 Volume of a rectangular prism
 geom354 Volume of a rectangular prism made of unit cubes
 geom518 Volume of a solid made of cubes with unit fraction edge lengths
 geom535 Volume of a rectangular prism with fractional edge lengths
 alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom035 Volume of a cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder

Data Analysis and Probability

mstat088 Identifying statistical questions
 mstat080 Choosing an appropriate method for gathering data: Problem type 1
 mstat081 Choosing an appropriate method for gathering data: Problem type 2
 mstat056 Interpreting a tally table
 mstat097 Constructing a two-way frequency table: Basic
 mstat098 Constructing a two-way frequency table: Advanced
 mstat049 Computing a percentage from a table of values
 mstat087 Making an inference using a two-way frequency table
 stat020 Calculating relative frequencies in a contingency table
 mstat025 Finding if a question can be answered by the data
 mstat037 Constructing a line plot
 mstat005 Constructing a bar graph for non-numerical data

mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat057 Interpreting a pictograph table
 mstat031 Interpreting a stem-and-leaf plot

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
arith125 Whole number place value: Problem type 2
arith066 Expanded form
arith643 Expanded form with zeros
arith028 Numeral translation: Problem type 1
arith060 Numeral translation: Problem type 2
arith630 Addition with carry to the hundreds place
arith012 Addition of large numbers
arith006 Subtraction with borrowing
arith682 Subtraction with multiple regrouping steps
arith637 Subtraction and regrouping with zeros
arith613 Word problem with addition or subtraction of whole numbers
mstat061 Describing an increasing or decreasing pattern from a table of values
arith126 Multiplication as repeated addition
arith004 Multiplication with carry
arith615 Introduction to multiplication of large numbers
arith675 Understanding multiplication of a one-digit number with a larger number
arith014 Multiplication of large numbers
arith641 Multiples: Problem type 1
arith642 Multiples: Problem type 2
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith616 Quotient and remainder: Problem type 1
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property

arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge286 Plotting integers on a number line
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith431 Identifying a sum as a point located a given distance from another point
arith430 Identifying relative change when combining two quantities
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith440 Operations with absolute value: Problem type 1
arith104 Operations with absolute value: Problem type 2
alge694 Computing the distance between two integers on a number line
arith433 Computing and understanding distances between integers on a number line
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith952 Word problem with multiplication or division of integers
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom866 Perimeter and area on a grid
geom311 Volume of a rectangular prism
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge010 Additive property of equality with integers
alge008 Multiplicative property of equality with whole numbers
alge797 Multiplicative property of equality with integers

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
alge660 Identifying equivalent signed fractions
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith814 Signed fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
alge432 Introduction to adding fractions with variables and common denominators
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith605 Plotting rational numbers on a number line
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division

arith820 Word problem involving multiplication or division with mixed numbers
 arith821 Exponents and fractions
 alge790 Evaluating expressions with exponents of zero
 arith704 Exponents and signed fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge801 Additive property of equality with fractions and mixed numbers
 alge836 Additive property of equality with signed fractions
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions

Decimals

arith127 Writing a decimal and a fraction for a shaded region
 arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith734 Subtraction of aligned decimals
 arith735 Decimal subtraction: Basic
 arith736 Decimal subtraction: Advanced
 arith737 Decimal addition and subtraction with 3 or more numbers
 arith131 Estimating a decimal sum or difference
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 geom525 Computing distances between decimals on the number line
 arith132 Word problem with addition or subtraction of 2 decimals
 arith133 Word problem with addition of 3 or 4 decimals and whole numbers
 arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
 arith739 Introduction to decimal multiplication
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2
 arith082 Multiplication of a decimal by a power of ten
 arith738 Multiplication of a decimal by a power of 0.1
 arith740 Multiplication of decimals that have a product less than 0.1
 arith752 Estimating a product of decimals
 arith750 Signed decimal multiplication
 arith135 Word problem with multiplication of a decimal and a whole number

arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith751 Signed decimal division
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith629 Word problem with multiple decimal operations: Problem type 2
arith103 Average of two numbers
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced
arith733 Using a calculator to convert a fraction to a rounded decimal
arith111 Converting a mixed number to a terminating decimal: Basic
arith112 Converting a mixed number to a terminating decimal: Advanced
arith732 Converting a fraction or mixed number to a rounded decimal
arith609 Ordering fractions and decimals
alge001 Identifying numbers as integers or non-integers
arith513 Identifying rational decimal numbers
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith748 Addition or subtraction with a decimal and a mixed number
arith749 Multiplication with a decimal and a fraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge800 Additive property of equality with decimals
alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
arith663 Writing ratios for real-world situations
arith450 Identifying statements that describe a ratio
arith824 Simplifying a ratio of whole numbers: Problem type 1
arith825 Simplifying a ratio of decimals
arith827 Finding a unit price
arith455 Using tables to compare ratios
arith828 Computing unit prices to find the better buy
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
arith505 Word problem on unit rates associated with ratios of fractions
arith506 Word problem on unit rates associated with ratios of mixed numbers
arith064 Solving a word problem on proportions using a unit rate
alge823 Solving a one-step word problem using the formula $d = rt$
arith452 Finding missing values in a table of equivalent ratios
arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
arith504 Writing an equation to represent a proportional relationship
alge819 Solving a proportion of the form $x/a=b/c$: Basic

alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 arith500 Identifying proportional relationships in tables by calculating unit rates: Whole numbers
 arith510 Identifying proportional relationships in tables by calculating unit rates: Fractions
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat038 Reading the temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form

arith839 Converting a decimal percentage to a fraction
arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
arith904 Finding benchmark fractions and percentages for a figure
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith843 Using a calculator to convert a fraction to a rounded percentage
arith842 Converting a fraction to a percentage in a real-world situation
arith840 Finding a percentage of a whole number
arith030 Finding a percentage of a whole number without a calculator: Basic
arith844 Finding a percentage of a whole number without a calculator: Advanced
arith862 Applying the percent equation: Problem type 1
arith863 Applying the percent equation: Problem type 2
arith845 Finding a percentage of a total amount: Real-world situations
arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
arith857 Estimating a tip without a calculator
arith069 Writing a ratio as a percentage without a calculator
arith850 Finding the rate of a tax or commission
arith849 Finding the total amount given the percentage of a partial amount
stat805 Making a reasonable inference based on proportion statistics
stat804 Interpreting a circle graph or pie chart
arith856 Finding a percentage of a total amount in a circle graph
stat801 Computations from a circle graph
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
unit052 Finding the absolute error and percent error of a measurement
arith232 Finding simple interest without a calculator
arith853 Introduction to compound interest
arith915 Calculating income tax
arith918 Comparing discounts
arith909 Examining a savings plan for college
arith914 Calculations involving paying for college
arith920 Comparing total costs for attending different colleges
arith922 Distinguishing between fixed and variable expenses
arith916 Computing percentages for categories of a budget
arith919 Computations involving cost of living and hourly wage
arith921 Comparing annual salaries of different occupations
arith911 Calculations involving purchases with debit and credit cards
arith950 Comparing costs of checking accounts
arith951 Balancing a check register
arith912 Reading a credit report
arith913 Understanding the impact of a credit score
arith917 Computing a person's net worth
arith906 Calculating and comparing monthly payments using the ALEKS loan calculator
arith907 Calculating monthly payment, total payment, and interest using the ALEKS loan calculator
arith908 Calculating and comparing total loan payments using the ALEKS loan calculator
arith910 Calculating and comparing simple interest and compound interest

Equations and Inequalities

alge647 Identifying like terms
alge700 Combining like terms: Whole number coefficients
alge607 Combining like terms: Integer coefficients
arith655 Introduction to properties of addition
alge187 Properties of addition

alge666 Combining like terms: Fractional coefficients
 alge665 Combining like terms: Decimal coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge658 Introduction to solving a rational equation
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge016 Translating a sentence into a one-step equation
 alge671 Choosing stories that can be represented by given one-step equations
 alge841 Translating a sentence into a multi-step equation
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations

alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
 alge014 Solving a word problem with two unknowns using a linear equation
 alge673 Writing an equation to represent a real-world problem: Variable on both sides
 alge674 Writing and solving a real-world problem given an equation with the variable on both sides
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 alge796 Solving a distance, rate, time problem using a linear equation
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge621 Solving a word problem using a one-step linear inequality
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality

Graphing, Functions, and Sequences

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge191 Midpoint of a line segment in the plane
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules

fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x- and y-intercepts given the graph of a line on a grid
 alge924 Finding x- and y-intercepts of a line given the equation: Basic
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x- and y-intercepts
 alge881 Graphing a line by first finding its x- and y-intercepts
 alge874 Identifying linear functions given ordered pairs
 geom358 Identifying parallel and perpendicular lines
 mstat007 Interpreting a line graph
 arith454 Making a table and plotting points given a unit rate
 arith501 Identifying proportional relationships in graphs: Basic
 arith502 Identifying proportional relationships in graphs: Advanced
 arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation
 alge699 Comparing proportional relationships given in different forms
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge814 Using right triangles to find the slope of a line
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 alge625 Identifying linear equations: Basic
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable

equation

alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge913 Graphing an absolute value equation of the form $y = A - x -$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 alge815 Introduction to using substitution to solve a linear equation
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition

alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 pcalc038 Addition or subtraction of matrices
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge690 Introduction to the power of a power rule with positive exponents: Whole number base
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge688 Introduction to the quotient rule with positive exponents: Whole number base
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 arith029 Ordering numbers with positive exponents
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge687 Introduction to the product rule with negative exponents: Whole number base
 alge961 Introduction to the product rule with negative exponents
 alge689 Introduction to the quotient rule with negative exponents: Whole number base
 alge755 Quotient rule with negative exponents: Problem type 1
 alge691 Introduction to the power of a power rule with negative exponents: Whole number base
 alge025 Power of a power rule with negative exponents
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot025 Estimating numbers using scientific notation
 scinot020 Choosing metric units and converting to the base unit in scientific notation
 scinot021 Expressing calculator notation as scientific notation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
 scinot015 Adding or subtracting numbers written in scientific notation: Same exponents, basic

scinot022 Adding or subtracting numbers written in scientific notation: Same exponents, advanced
scinot016 Adding or subtracting numbers written in scientific notation: Different exponents
scinot017 Estimating the sum or difference of two numbers written in scientific notation
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge029 Simplifying a sum or difference of three univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge032 Squaring a binomial: Univariate
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge039 Factoring a quadratic with leading coefficient 1
alge944 Factoring a perfect square trinomial with leading coefficient 1
alge290 Factoring a difference of squares in one variable: Basic
alge947 Factoring a difference of squares in one variable: Advanced
alge045 Finding the roots of a quadratic equation with leading coefficient 1
arith016 Square root of a perfect square
arith601 Square root of a rational perfect square
alge413 Finding all square roots of a number
arith760 Square roots of perfect squares with signs
arith763 Using a calculator to approximate a square root
arith602 Estimating a square root
alge567 Using numerical methods to approximate a square root to the nearest tenth
alge568 Using numerical methods to approximate a square root to the nearest hundredth
arith515 Approximating the location of irrational numbers on a number line
arith712 Ordering real numbers
arith514 Converting a repeating decimal to a fraction
arith432 Identifying true statements about rational and irrational numbers
alge002 Identifying numbers as rational or irrational
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial
arith093 Simplifying the square root of a whole number less than 100
arith762 Simplifying the square root of a whole number greater than 100
alge080 Simplifying a radical expression with an even exponent
arith767 Introduction to square root addition or subtraction
arith032 Square root addition or subtraction
arith764 Introduction to square root multiplication
arith765 Square root multiplication: Basic
alge962 Solving an equation of the form $x^2 = a$ using the square root property
geom564 Finding side lengths of squares given an area and a perimeter
alge400 Introduction to solving a radical equation
alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
alge542 Word problem involving radical equations: Basic
arith094 Cube root of an integer
alge698 Solving an equation of the form $x^3 = a$ using integers
alge093 Solving an equation using the odd-root property: Problem type 1
geom565 Finding the side length of a cube given its volume
alge560 Rational exponents: Unit fraction exponents and whole number bases
alge250 Rational exponents: Non-unit fraction exponent with a whole number base
alge407 Introduction to the Pythagorean Theorem
geom044 Pythagorean Theorem
alge408 Word problem involving the Pythagorean Theorem
geom862 Using the Pythagorean Theorem repeatedly

alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom530 Solving equations involving vertical angles
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom860 Special right triangles: Decimal answers
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram

- geom870 Sum of the angle measures of a quadrilateral
- geom852 The sum of interior angle measures in a convex polygon

Transformations

- geom519 Identifying and naming congruent parts of congruent triangles
- geom520 Identifying and naming congruent triangles
- geom583 Finding angle measures of a triangle given two angles of a similar triangle
- geom585 Finding angle measures and side ratios to determine if two triangles are similar
- geom357 Identifying transformations
- geom596 Translating a point and giving its coordinates: One step
- geom909 Translating a point and giving its coordinates: Two steps
- geom597 Properties of translated figures
- geom598 Determining if figures are related by a translation
- geom330 Translating a polygon
- geom331 Using a translated point to find coordinates of other translated points
- arith408 Reflecting a point across an axis
- geom533 Reflecting a point across both coordinate axes
- geom590 Reflecting a point across an axis and giving its coordinates
- arith407 Finding the coordinates of a point reflected across an axis
- geom560 Finding the coordinates of a point reflected across both axes
- geom534 Reflecting a polygon across the x-axis or y-axis
- geom591 Properties of reflected figures
- geom592 Determining if figures are related by a reflection
- geom332 Reflecting a polygon over a vertical or horizontal line
- geom333 Finding the coordinates of three points reflected over an axis
- geom334 Drawing lines of symmetry
- geom602 Finding the coordinates of a point reflected across an axis and translated
- geom815 Finding an angle of rotation
- geom624 Identifying rotational symmetry and angles of rotation
- geom593 Rotating a point and giving its coordinates
- geom594 Properties of rotated figures
- geom595 Determining if figures are related by a rotation
- geom335 Rotating a figure about the origin
- geom580 Determining if figures are congruent and related by a transformation
- geom581 Determining if figures are congruent and related by a sequence of transformations
- geom606 Dilating a segment and giving the coordinates of its endpoints
- geom607 The effect of dilation on side length
- geom608 Determining if figures are related by a dilation
- geom636 The effect of dilation on area
- geom336 Dilating a figure
- geom582 Determining if figures are similar and related by a sequence of transformations

Perimeters, Areas, and Volumes

- geom618 Perimeter of a polygon involving mixed numbers and fractions
- geom078 Sides of polygons having the same perimeter
- geom221 Finding the missing length in a figure
- geom353 Perimeter of a piecewise rectangular figure
- alge615 Writing algebraic expressions for the perimeter of a figure
- geom817 Finding a side length given the perimeter and side lengths with variables
- geom217 Finding the side length of a rectangle given its perimeter or area
- geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
- geom620 Area of a rectangle involving fractions
- geom619 Area of a rectangle involving mixed numbers and fractions
- geom350 Distinguishing between the area and perimeter of a rectangle
- geom351 Areas of rectangles with the same perimeter
- geom869 Estimates and exact answers

alge616 Writing algebraic expressions for the area of a figure
geom410 Word problem involving the area of a square or a rectangle
geom143 Finding the perimeter or area of a rectangle given one of these values
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
geom142 Word problem involving the area between two rectangles
geom501 Finding the area of a right triangle on a grid
geom509 Finding the area of a right triangle or its corresponding rectangle
geom801 Area of a triangle
geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
geom344 Area involving rectangles and triangles
alge724 Finding an area in terms of variables
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom537 Finding the perimeter or area of a rectangle in the coordinate plane
geom832 Area of quadrilaterals in the coordinate plane
geom603 Identifying side lengths that give right triangles
geom589 Demonstrating the converse of the Pythagorean Theorem
geom588 Informal proof of the Pythagorean Theorem
geom347 Introduction to a circle: Diameter, radius, and chord
geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom838 Circumference ratios
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom570 Distinguishing between the area and circumference of a circle
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom126 Area of a sector of a circle: Exact answer in terms of π
geom868 Classifying solids
geom348 Vertices, edges, and faces of a solid
geom830 Counting the cubes in a solid made of cubes
geom816 Side views of a solid made of cubes
geom550 Identifying horizontal and vertical cross sections of solids
geom354 Volume of a rectangular prism made of unit cubes
geom518 Volume of a solid made of cubes with unit fraction edge lengths
geom535 Volume of a rectangular prism with fractional edge lengths
alge617 Writing equivalent expressions for the volume of a rectangular prism
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom505 Volume of a piecewise rectangular prism
geom090 Volume of a triangular prism
geom572 Word problem involving the volume of a triangular prism
geom033 Volume of a pyramid
geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
geom638 Relating the volumes of a triangular prism and a triangular pyramid
geom035 Volume of a cylinder
geom573 Word problem involving the volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom622 Volume of a cone
geom086 Volume of a cone: Exact answers in terms of π
geom639 Relating the volumes of a cylinder and a cone
geom575 Word problem involving the volume of a cone
geom841 Volume of a sphere
geom574 Word problem involving the volume of a sphere
geom133 Ratio of volumes
geom219 Nets of solids
geom031 Surface area of a cube or a rectangular prism

geom632 Surface area of a rectangular prism made of unit cubes
geom555 Distinguishing between surface area and volume
geom556 Using a net to find the surface area of a rectangular prism
geom576 Word problem involving the surface area of a rectangular prism
geom345 Surface area of a piecewise rectangular prism made of unit cubes
geom091 Surface area of a triangular prism
geom557 Using a net to find the surface area of a triangular prism
geom621 Surface area of a cylinder
geom034 Surface area of a cylinder: Exact answers in terms of pi
geom578 Word problem involving the surface area of a cylinder
geom842 Surface area of a sphere
geom338 Surface area involving prisms or cylinders
geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
geom847 Similar solids: Problem type 2

Data Analysis and Probability

mstat088 Identifying statistical questions
mstat080 Choosing an appropriate method for gathering data: Problem type 1
mstat081 Choosing an appropriate method for gathering data: Problem type 2
mstat056 Interpreting a tally table
mstat097 Constructing a two-way frequency table: Basic
mstat098 Constructing a two-way frequency table: Advanced
mstat049 Computing a percentage from a table of values
mstat087 Making an inference using a two-way frequency table
stat020 Calculating relative frequencies in a contingency table
mstat025 Finding if a question can be answered by the data
mstat037 Constructing a line plot
mstat005 Constructing a bar graph for non-numerical data
mstat004 Constructing a histogram for numerical data
mstat024 Interpreting a bar graph
mstat044 Interpreting a double bar graph
mstat057 Interpreting a pictograph table
mstat031 Interpreting a stem-and-leaf plot
geom814 Angle measure in a circle graph
mstat094 Constructing a scatter plot
mstat030 Sketching the line of best fit
mstat023 Scatter plots and correlation
mstat068 Predictions from the line of best fit
mstat067 Approximating the equation of a line of best fit and making predictions
mstat093 Classifying linear and nonlinear relationships from scatter plots
mstat071 Linear relationship and the correlation coefficient
mstat096 Identifying outliers and clustering in scatter plots
mstat003 Mode of a data set
mstat055 Finding the mode and range of a data set
mstat092 Finding the mode and range from a line plot
mstat001 Mean of a data set
mstat077 Using a model to find the mean
mstat075 Understanding the mean graphically: Two bars
mstat076 Understanding the mean graphically: Four or more bars
mstat091 Finding the mean of a symmetric distribution
mstat079 Finding sample size and comparing samples for estimating the mean
mstat089 Computations involving the mean, sample size, and sum of a data set
stat803 Finding the value for a new score that will yield a given mean
stat802 Rejecting unreasonable claims based on average statistics
mstat066 Weighted mean
mstat028 Mean and median of a data set
mstat029 How changing a value affects the mean and median
mstat095 Finding outliers in a data set
mstat053 Choosing the best measure to describe data

mstat078 Comparing measures of center and variation
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat072 Five-number summary and interquartile range
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat090 Comparing sample means
 mstat082 Computing mean absolute deviation from a list of numerical values
 mstat083 Computing mean absolute deviation from a bar graph
 mstat084 Assessing the degree of overlap of two distributions
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 mstat099 Determining a sample space and outcomes for a simple event
 mstat100 Determining a sample space and outcomes for a compound event
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 mstat054 Classifying likelihood
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat039 Understanding likelihood
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event

B.70 Texas M.S. Math 3

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
 arith125 Whole number place value: Problem type 2
 arith066 Expanded form
 arith643 Expanded form with zeros
 arith028 Numeral translation: Problem type 1
 arith060 Numeral translation: Problem type 2
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith006 Subtraction with borrowing
 arith682 Subtraction with multiple regrouping steps
 arith637 Subtraction and regrouping with zeros
 arith613 Word problem with addition or subtraction of whole numbers
 mstat061 Describing an increasing or decreasing pattern from a table of values
 arith126 Multiplication as repeated addition
 arith004 Multiplication with carry
 arith615 Introduction to multiplication of large numbers
 arith675 Understanding multiplication of a one-digit number with a larger number
 arith014 Multiplication of large numbers
 arith641 Multiples: Problem type 1
 arith642 Multiples: Problem type 2

arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith616 Quotient and remainder: Problem type 1
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge286 Plotting integers on a number line
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2

arith431 Identifying a sum as a point located a given distance from another point
 arith430 Identifying relative change when combining two quantities
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith755 Addition and subtraction with 4 or 5 integers
 arith440 Operations with absolute value: Problem type 1
 arith104 Operations with absolute value: Problem type 2
 alge694 Computing the distance between two integers on a number line
 arith433 Computing and understanding distances between integers on a number line
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith952 Word problem with multiplication or division of integers
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge284 Evaluating an algebraic expression: Whole number addition or subtraction
 alge683 Evaluating an algebraic expression: Whole number multiplication or division
 alge285 Evaluating an algebraic expression: Whole numbers with two operations
 alge649 Evaluating a formula
 alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid
 geom311 Volume of a rectangular prism
 alge650 Identifying solutions to a one-step linear equation: Problem type 1
 alge651 Identifying solutions to a one-step linear equation: Problem type 2
 alge009 Additive property of equality with whole numbers
 alge010 Additive property of equality with integers
 alge008 Multiplicative property of equality with whole numbers
 alge797 Multiplicative property of equality with integers

Fractions

arith623 Introduction to fractions
 arith665 Understanding equivalent fractions
 arith212 Equivalent fractions
 arith666 Introduction to simplifying a fraction
 arith067 Simplifying a fraction
 alge660 Identifying equivalent signed fractions
 arith687 Fractional position on a number line
 arith667 Plotting fractions on a number line
 arith044 Ordering fractions with the same denominator
 arith091 Ordering fractions with the same numerator
 arith092 Using a common denominator to order fractions
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith812 Product of a fraction and a whole number: Problem type 2

arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith814 Signed fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
alge432 Introduction to adding fractions with variables and common denominators
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith605 Plotting rational numbers on a number line
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division
arith820 Word problem involving multiplication or division with mixed numbers
arith821 Exponents and fractions
alge790 Evaluating expressions with exponents of zero
arith704 Exponents and signed fractions
arith859 Order of operations with fractions: Problem type 1
arith860 Order of operations with fractions: Problem type 2
arith861 Order of operations with fractions: Problem type 3
arith695 Complex fraction without variables: Problem type 1
alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
alge801 Additive property of equality with fractions and mixed numbers
alge836 Additive property of equality with signed fractions
alge646 Multiplicative property of equality with whole numbers: Fractional answers
alge820 Multiplicative property of equality with fractions
alge012 Multiplicative property of equality with signed fractions

Decimals

arith127 Writing a decimal and a fraction for a shaded region
arith110 Decimal place value: Tenths and hundredths
arith220 Decimal place value: Hundreds to ten thousandths
arith714 Writing a decimal number less than 1 given its name
arith715 Writing a decimal number greater than 1 given its name
arith716 Writing a decimal number given its name: Advanced
arith829 Reading decimal position on a number line: Tenths
arith830 Reading decimal position on a number line: Hundredths
arith831 Understanding decimal position on a number line using zoom: Hundredths
arith832 Understanding decimal position on a number line using zoom: Thousandths
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith221 Rounding decimals
arith717 Converting a decimal to a proper fraction without simplifying: Basic
arith719 Converting a decimal to a proper fraction without simplifying: Advanced
arith718 Converting a decimal to a proper fraction in simplest form: Basic
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith734 Subtraction of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith131 Estimating a decimal sum or difference
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
geom525 Computing distances between decimals on the number line
arith132 Word problem with addition or subtraction of 2 decimals
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith046 Decimal multiplication: Problem type 2
arith082 Multiplication of a decimal by a power of ten
arith738 Multiplication of a decimal by a power of 0.1
arith740 Multiplication of decimals that have a product less than 0.1
arith752 Estimating a product of decimals
arith750 Signed decimal multiplication
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith751 Signed decimal division
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith629 Word problem with multiple decimal operations: Problem type 2
arith103 Average of two numbers
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic

arith728 Converting a fraction to a terminating decimal: Advanced
 arith730 Converting a fraction to a repeating decimal: Basic
 arith731 Converting a fraction to a repeating decimal: Advanced
 arith733 Using a calculator to convert a fraction to a rounded decimal
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith732 Converting a fraction or mixed number to a rounded decimal
 arith609 Ordering fractions and decimals
 arith753 Squaring decimal bases: Products greater than 0.1
 arith741 Exponents and decimals: Products less than 0.1
 arith720 Order of operations with decimals: Problem type 1
 arith746 Order of operations with decimals: Problem type 2
 arith747 Order of operations with decimals: Problem type 3
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge800 Additive property of equality with decimals
 alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith505 Word problem on unit rates associated with ratios of fractions
 arith506 Word problem on unit rates associated with ratios of mixed numbers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 arith500 Identifying proportional relationships in tables by calculating unit rates: Whole numbers
 arith510 Identifying proportional relationships in tables by calculating unit rates: Fractions
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches

mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat038 Reading the temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
 arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph

arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 unit052 Finding the absolute error and percent error of a measurement
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest
 arith915 Calculating income tax
 arith918 Comparing discounts
 arith909 Examining a savings plan for college
 arith914 Calculations involving paying for college
 arith920 Comparing total costs for attending different colleges
 arith922 Distinguishing between fixed and variable expenses
 arith916 Computing percentages for categories of a budget
 arith919 Computations involving cost of living and hourly wage
 arith921 Comparing annual salaries of different occupations
 arith911 Calculations involving purchases with debit and credit cards
 arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score
 arith917 Computing a person's net worth
 arith906 Calculating and comparing monthly payments using the ALEKS loan calculator
 arith907 Calculating monthly payment, total payment, and interest using the ALEKS loan calculator
 arith908 Calculating and comparing total loan payments using the ALEKS loan calculator
 arith910 Calculating and comparing simple interest and compound interest

Equations and Inequalities

alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge666 Combining like terms: Fractional coefficients
 alge665 Combining like terms: Decimal coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression

alge920 Introduction to solving an equation with parentheses
alge837 Solving a multi-step equation given in fractional form
alge986 Identifying properties used to solve a linear equation
alge824 Solving a two-step equation with signed decimals
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge611 Introduction to solving a linear equation with a variable on each side
alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge614 Clearing fractions in an equation
alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
alge208 Solving a two-step equation with signed fractions
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge742 Solving equations with zero, one, or infinitely many solutions
alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge658 Introduction to solving a rational equation
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge603 Introduction to solving an absolute value equation
alge864 Solving an absolute value equation: Problem type 1
alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge518 Solving for a variable inside parentheses in terms of other variables
alge507 Solving for a variable in terms of other variables in a linear equation with fractions
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge016 Translating a sentence into a one-step equation
alge671 Choosing stories that can be represented by given one-step equations
alge841 Translating a sentence into a multi-step equation
alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
alge618 Comparing arithmetic and algebraic solutions to a word problem
alge672 Choosing stories that can be represented by given two-step equations
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
alge014 Solving a word problem with two unknowns using a linear equation
alge673 Writing an equation to represent a real-world problem: Variable on both sides
alge674 Writing and solving a real-world problem given an equation with the variable on both sides
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge794 Solving a value mixture problem using a linear equation
alge795 Solving a percent mixture problem using a linear equation
alge796 Solving a distance, rate, time problem using a linear equation
alge015 Translating a sentence by using an inequality symbol
alge845 Translating a sentence into a one-step inequality
alge653 Introduction to identifying solutions to an inequality
alge748 Writing an inequality for a real-world situation
alge017 Graphing a linear inequality on the number line
alge822 Writing an inequality given a graph on the number line
alge186 Translating a sentence into a compound inequality
alge166 Graphing a compound inequality on the number line
alge847 Writing a compound inequality given a graph on the number line

alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge621 Solving a word problem using a one-step linear inequality
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality

Graphing, Functions, and Sequences

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge191 Midpoint of a line segment in the plane
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge874 Identifying linear functions given ordered pairs
 geom358 Identifying parallel and perpendicular lines
 mstat007 Interpreting a line graph
 arith454 Making a table and plotting points given a unit rate
 arith501 Identifying proportional relationships in graphs: Basic
 arith502 Identifying proportional relationships in graphs: Advanced
 arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation

alge699 Comparing proportional relationships given in different forms
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge814 Using right triangles to find the slope of a line
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 alge625 Identifying linear equations: Basic
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function no-

tation

alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 alge815 Introduction to using substitution to solve a linear equation
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 pcalc038 Addition or subtraction of matrices
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents

alge311 Product rule with positive exponents: Univariate
alge030 Product rule with positive exponents: Multivariate
alge690 Introduction to the power of a power rule with positive exponents: Whole number base
alge826 Understanding the power rules of exponents
alge306 Introduction to the power of a power rule of exponents
alge305 Introduction to the power of a product rule of exponents
alge307 Power rules with positive exponents: Multivariate products
alge308 Power rules with positive exponents: Multivariate quotients
alge451 Simplifying a ratio of multivariate monomials: Basic
alge688 Introduction to the quotient rule with positive exponents: Whole number base
alge827 Introduction to the quotient rule of exponents
alge452 Simplifying a ratio of univariate monomials
alge026 Quotient of expressions involving exponents
arith029 Ordering numbers with positive exponents
arith684 Power of 10: Negative exponent
arith729 Evaluating an expression with a negative exponent: Whole number base
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith043 Evaluating an expression with a negative exponent: Negative integer base
arith024 Ordering numbers with negative exponents
alge791 Rewriting an algebraic expression without a negative exponent
alge687 Introduction to the product rule with negative exponents: Whole number base
alge961 Introduction to the product rule with negative exponents
alge689 Introduction to the quotient rule with negative exponents: Whole number base
alge755 Quotient rule with negative exponents: Problem type 1
alge691 Introduction to the power of a power rule with negative exponents: Whole number base
alge025 Power of a power rule with negative exponents
scinot023 Introduction to scientific notation with positive exponents
arith036 Scientific notation with positive exponent
scinot024 Introduction to scientific notation with negative exponents
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation
scinot025 Estimating numbers using scientific notation
scinot020 Choosing metric units and converting to the base unit in scientific notation
scinot021 Expressing calculator notation as scientific notation
scinot008 Multiplying numbers written in scientific notation: Basic
scinot009 Multiplying numbers written in scientific notation: Advanced
scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
scinot010 Dividing numbers written in scientific notation: Basic
scinot011 Dividing numbers written in scientific notation: Advanced
scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
scinot015 Adding or subtracting numbers written in scientific notation: Same exponents, basic
scinot022 Adding or subtracting numbers written in scientific notation: Same exponents, advanced
scinot016 Adding or subtracting numbers written in scientific notation: Different exponents
scinot017 Estimating the sum or difference of two numbers written in scientific notation
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge029 Simplifying a sum or difference of three univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge032 Squaring a binomial: Univariate
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge039 Factoring a quadratic with leading coefficient 1

alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 arith016 Square root of a perfect square
 arith601 Square root of a rational perfect square
 alge413 Finding all square roots of a number
 arith760 Square roots of perfect squares with signs
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 alge567 Using numerical methods to approximate a square root to the nearest tenth
 alge568 Using numerical methods to approximate a square root to the nearest hundredth
 arith515 Approximating the location of irrational numbers on a number line
 arith712 Ordering real numbers
 alge001 Identifying numbers as integers or non-integers
 arith513 Identifying rational decimal numbers
 arith514 Converting a repeating decimal to a fraction
 arith432 Identifying true statements about rational and irrational numbers
 alge002 Identifying numbers as rational or irrational
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge080 Simplifying a radical expression with an even exponent
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 geom564 Finding side lengths of squares given an area and a perimeter
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge542 Word problem involving radical equations: Basic
 arith094 Cube root of an integer
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge093 Solving an equation using the odd-root property: Problem type 1
 geom565 Finding the side length of a cube given its volume
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom530 Solving equations involving vertical angles
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal

geom531 Solving equations involving angles and a pair of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom860 Special right triangles: Decimal answers
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon

Transformations

geom519 Identifying and naming congruent parts of congruent triangles
 geom520 Identifying and naming congruent triangles
 geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom357 Identifying transformations
 geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 arith408 Reflecting a point across an axis

geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom582 Determining if figures are similar and related by a sequence of transformations

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 geom142 Word problem involving the area between two rectangles
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
 geom344 Area involving rectangles and triangles
 alge724 Finding an area in terms of variables
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom832 Area of quadrilaterals in the coordinate plane
 geom603 Identifying side lengths that give right triangles
 geom589 Demonstrating the converse of the Pythagorean Theorem
 geom588 Informal proof of the Pythagorean Theorem

geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom126 Area of a sector of a circle: Exact answer in terms of π
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom816 Side views of a solid made of cubes
 geom550 Identifying horizontal and vertical cross sections of solids
 geom354 Volume of a rectangular prism made of unit cubes
 geom518 Volume of a solid made of cubes with unit fraction edge lengths
 geom535 Volume of a rectangular prism with fractional edge lengths
 alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom035 Volume of a cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of π
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom841 Volume of a sphere
 geom574 Word problem involving the volume of a sphere
 geom133 Ratio of volumes
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of π
 geom578 Word problem involving the surface area of a cylinder
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

Data Analysis and Probability

mstat088 Identifying statistical questions

mstat080 Choosing an appropriate method for gathering data: Problem type 1
mstat081 Choosing an appropriate method for gathering data: Problem type 2
mstat056 Interpreting a tally table
mstat097 Constructing a two-way frequency table: Basic
mstat098 Constructing a two-way frequency table: Advanced
mstat049 Computing a percentage from a table of values
mstat087 Making an inference using a two-way frequency table
stat020 Calculating relative frequencies in a contingency table
mstat025 Finding if a question can be answered by the data
mstat037 Constructing a line plot
mstat005 Constructing a bar graph for non-numerical data
mstat004 Constructing a histogram for numerical data
mstat024 Interpreting a bar graph
mstat044 Interpreting a double bar graph
mstat057 Interpreting a pictograph table
mstat031 Interpreting a stem-and-leaf plot
geom814 Angle measure in a circle graph
mstat094 Constructing a scatter plot
mstat030 Sketching the line of best fit
mstat023 Scatter plots and correlation
mstat068 Predictions from the line of best fit
mstat067 Approximating the equation of a line of best fit and making predictions
mstat093 Classifying linear and nonlinear relationships from scatter plots
mstat071 Linear relationship and the correlation coefficient
mstat096 Identifying outliers and clustering in scatter plots
mstat003 Mode of a data set
mstat055 Finding the mode and range of a data set
mstat092 Finding the mode and range from a line plot
mstat001 Mean of a data set
mstat077 Using a model to find the mean
mstat075 Understanding the mean graphically: Two bars
mstat076 Understanding the mean graphically: Four or more bars
mstat091 Finding the mean of a symmetric distribution
mstat079 Finding sample size and comparing samples for estimating the mean
mstat089 Computations involving the mean, sample size, and sum of a data set
stat803 Finding the value for a new score that will yield a given mean
stat802 Rejecting unreasonable claims based on average statistics
mstat066 Weighted mean
mstat028 Mean and median of a data set
mstat029 How changing a value affects the mean and median
mstat095 Finding outliers in a data set
mstat053 Choosing the best measure to describe data
mstat078 Comparing measures of center and variation
mstat027 Using back-to-back stem-and-leaf plots to compare data sets
mstat072 Five-number summary and interquartile range
mstat006 Constructing a box-and-whisker plot
mstat073 Using box-and-whisker plots to compare data sets
mstat090 Comparing sample means
mstat082 Computing mean absolute deviation from a list of numerical values
mstat083 Computing mean absolute deviation from a bar graph
mstat084 Assessing the degree of overlap of two distributions
mstat043 Interpreting a Venn diagram of 3 sets
mstat041 Interpreting a tree diagram
mstat040 Introduction to the counting principle
mstat015 Counting principle
mstat099 Determining a sample space and outcomes for a simple event
mstat100 Determining a sample space and outcomes for a compound event
pcalc082 Factorial expressions
mstat017 Computing permutations and combinations
mstat008 Word problem involving permutations
mstat009 Word problem involving combinations
mstat054 Classifying likelihood

mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat039 Understanding likelihood
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
 arith125 Whole number place value: Problem type 2
 arith066 Expanded form
 arith028 Numeral translation: Problem type 1
 arith060 Numeral translation: Problem type 2
 arith635 Adding a 2-digit number and a 1-digit number with carry
 arith001 Addition without carry
 arith050 Addition with carry
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith636 Subtracting a 1-digit number from a 2-digit number
 arith007 Subtraction without borrowing
 arith006 Subtraction with borrowing
 arith637 Subtraction and regrouping with zeros
 arith682 Subtraction with multiple regrouping steps
 arith613 Word problem with addition or subtraction of whole numbers
 arith008 One-digit multiplication
 arith679 Multiplication by 10, 100, and 1000
 arith003 Multiplication without carry
 arith004 Multiplication with carry
 arith615 Introduction to multiplication of large numbers
 arith014 Multiplication of large numbers
 arith075 Division facts
 arith052 Division without carry
 arith005 Division with carry
 arith616 Quotient and remainder: Problem type 1
 arith617 Quotient and remainder: Problem type 2
 arith631 Quotient and remainder: Problem type 3
 arith023 Word problem with division of whole numbers and rounding
 arith614 Word problem with multiplication or division of whole numbers
 arith130 Word problem with multiplication and addition or subtraction of whole numbers
 arith651 Introduction to inequalities
 arith077 Ordering large numbers
 arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith061 Rounding to thousands, ten thousands, or hundred thousands
 arith101 Estimating a sum of whole numbers
 arith102 Estimating a difference of whole numbers
 arith677 Estimating a product
 arith678 Estimating a quotient

arith645 Introduction to parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith070 Least common multiple of 2 numbers
arith240 Word problem with common multiples
mstat038 Reading the temperature from a thermometer
alge286 Plotting integers on a number line
arith071 Absolute value of a number
arith104 Operations with absolute value: Problem type 2
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith231 Integer multiplication and division
arith118 Order of operations with integers

Rational Numbers

arith623 Introduction to fractions
arith663 Writing ratios for real-world situations
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith605 Plotting rational numbers on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith110 Decimal place value: Tenths and hundredths
arith220 Decimal place value: Hundreds to ten thousandths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith609 Ordering fractions and decimals
arith618 Addition or subtraction of fractions with the same denominator
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith088 The reciprocal of a number
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith022 Fraction division
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry

arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith085 Addition or subtraction of mixed numbers with different denominators
 arith020 Mixed number multiplication: Problem type 1
 arith076 Mixed number multiplication: Problem type 2
 arith068 Mixed number division
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith671 Converting a fraction with a denominator of 10, 100, or 1000 to a decimal
 arith222 Converting a fraction to a terminating decimal
 arith089 Converting a fraction to a repeating decimal
 arith672 Converting a decimal to a mixed number
 arith223 Converting a mixed number to a decimal
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith625 Subtraction of aligned decimals
 arith626 Word problem with one decimal operation: Problem type 1
 arith627 Word problem with one decimal operation: Problem type 2
 arith131 Estimating a decimal sum or difference
 arith082 Multiplication of a decimal by a power of ten
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2
 arith045 Word problem with powers of ten
 arith628 Word problem with multiple decimal operations: Problem type 1
 arith083 Division of a decimal by a power of ten
 arith081 Division of a decimal by a whole number
 arith019 Division of a decimal by a 2-digit decimal
 arith629 Word problem with multiple decimal operations: Problem type 2
 arith116 Signed fraction addition or subtraction: Basic
 arith106 Signed fraction addition or subtraction: Advanced
 arith105 Signed fraction multiplication: Advanced
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 geom525 Computing distances between decimals on the number line

Measurement, Proportion, Percents, and Probability

mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit009 U.S. Customary area unit conversion with whole number values
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 unit012 Time unit conversion with whole number values
 time006 Adding time
 time007 Elapsed time
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 alge218 Solving a word problem involving rates and time conversion

alge272 Solving a proportion of the form $x/a = b/c$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith674 Finding the percentage of a grid that is shaded
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith069 Writing a ratio as a percentage without a calculator
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith031 Finding the original price given the sale price and percent discount
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 mstat049 Computing a percentage from a table of values
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 stat801 Computations from a circle graph
 geom814 Angle measure in a circle graph
 stat106 Outcomes and event probability
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat011 Area as probability
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 stat112 Probabilities involving two dice

Variable Expressions and Equations

arith655 Introduction to properties of addition
 arith656 Introduction to properties of multiplication
 arith657 Understanding the distributive property
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge607 Combining like terms: Integer coefficients
 alge663 Combining like terms: Advanced
 alge293 Combining like terms in a quadratic expression
 alge731 Evaluating an algebraic expression: Whole numbers with two operations
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge733 Writing a one-step expression for a real-world situation
 alge602 Writing a one-step variable expression for a real-world situation
 alge009 Additive property of equality with whole numbers
 alge800 Additive property of equality with decimals
 alge801 Additive property of equality with fractions and mixed numbers
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge008 Multiplicative property of equality with whole numbers
 alge012 Multiplicative property of equality with signed fractions
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge810 Introduction to algebraic symbol manipulation
 alge016 Translating a sentence into a one-step equation
 alge730 Writing a multi-step equation for a real-world situation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge014 Solving a word problem with two unknowns using a linear equation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides

alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge015 Translating a sentence by using an inequality symbol
 alge019 Solving a linear inequality: Problem type 1
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge017 Graphing a linear inequality on the number line
 arith233 Introduction to exponents
 arith683 Power of 10: Positive exponent
 arith684 Power of 10: Negative exponent
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 arith047 Evaluating expressions with exponents: Problem type 1
 arith049 Evaluating expressions with exponents: Problem type 2
 arith600 Order of operations with integers and exponents
 arith016 Square root of a perfect square
 arith602 Estimating a square root
 arith601 Square root of a rational perfect square
 arith093 Simplifying the square root of a whole number less than 100
 arith094 Cube root of an integer
 alge024 Introduction to the product rule of exponents
 arith029 Ordering numbers with positive exponents
 alge030 Product rule with positive exponents: Multivariate
 alge026 Quotient of expressions involving exponents
 alge027 Power rules with positive exponents
 alge004 Evaluating a quadratic expression: Integers
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge033 Multiplying binomials with leading coefficients of 1
 alge055 Least common multiple of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge705 Factoring a quadratic with leading coefficient 1
 alge040 Factoring a quadratic with leading coefficient greater than 1
 alge624 Factoring a difference of squares
 alge681 Solving an equation written in factored form
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic

Functions and Graphs

mstat005 Constructing a bar graph for non-numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat007 Interpreting a line graph
 mstat003 Mode of a data set
 mstat028 Mean and median of a data set
 stat803 Finding the value for a new score that will yield a given mean
 mstat029 How changing a value affects the mean and median
 mstat025 Finding if a question can be answered by the data
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 alge282 Function tables with two-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge807 Finding the next terms of a sequence with whole numbers
 mstat061 Describing an increasing or decreasing pattern from a table of values
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations

alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge197 Graphing a line given its x- and y-intercepts
 alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge684 Finding slope given the graph of a line on a grid
 alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 alge069 Finding the y-intercept of a line given its equation
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge263 Interpreting the graphs of two functions
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 alge252 Graphing a parabola of the form $y = ax^2$

Geometry

geom349 Naming segments, rays, and lines
 geom358 Identifying parallel and perpendicular lines
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom304 Identifying corresponding and alternate angles
 geom305 Identifying supplementary and vertical angles
 geom530 Solving equations involving vertical angles
 geom531 Solving equations involving angles and a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom520 Identifying and naming congruent triangles
 geom801 Area of a triangle
 geom001 Finding an angle measure of a triangle given two angles
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom908 Finding an angle measure for a triangle with an extended side
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom044 Pythagorean Theorem
 geom854 Relationship between angle measures and side lengths in a triangle
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 geom361 Naming polygons
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom300 Perimeter of a square or a rectangle
 geom339 Perimeter of a polygon
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 geom019 Area of a square or a rectangle
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom340 Area of a piecewise rectangular figure
 geom142 Word problem involving the area between two rectangles

geom344 Area involving rectangles and triangles
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom832 Area of quadrilaterals in the coordinate plane
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom802 Circumference and area of a circle
 geom036 Word problem involving the area between two concentric circles
 geom302 Area involving rectangles and circles
 geom214 Area involving inscribed figures
 geom868 Classifying solids
 geom354 Volume of a rectangular prism made of unit cubes
 geom311 Volume of a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom033 Volume of a pyramid
 geom035 Volume of a cylinder
 geom086 Volume of a cone: Exact answers in terms of π
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom348 Vertices, edges, and faces of a solid
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids

B.72 H.S. Prep. for Statistics

Numbers

arith200 Integer addition: Problem type 1
 arith688 Integer subtraction: Problem type 1
 arith231 Integer multiplication and division
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith118 Order of operations with integers
 arith220 Decimal place value: Hundreds to ten thousandths
 arith221 Rounding decimals
 arith082 Multiplication of a decimal by a power of ten
 arith083 Division of a decimal by a power of ten
 arith117 Signed decimal addition and subtraction
 arith226 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith686 Writing a ratio as a percentage
 stat849 Computing a percentage from a table of values
 arith067 Simplifying a fraction
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith053 Fraction multiplication
 arith022 Fraction division

Algebraic Expressions

arith047 Evaluating expressions with exponents: Problem type 1
arith600 Order of operations with integers and exponents
alge731 Evaluating an algebraic expression: Whole numbers with two operations
alge004 Evaluating a quadratic expression: Integers
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge606 Distributive property: Whole number coefficients
alge607 Combining like terms: Integer coefficients
stat026 Introduction to summation notation
stat022 Summation of indexed data
alge024 Introduction to the product rule of exponents
alge027 Power rules with positive exponents

Linear Equations

alge016 Translating a sentence into a one-step equation
alge292 Translating sentences into two-variable equations
alge810 Introduction to algebraic symbol manipulation
alge006 Solving a two-step equation with integers
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution

Lines in the Coordinate Plane

alge064 Reading a point in the coordinate plane
alge067 Plotting a point in the coordinate plane
alge256 Y-intercept of a line
alge257 X- and y-intercepts of a line given the equation in standard form
alge197 Graphing a line given its x- and y-intercepts
alge194 Graphing a line given its equation in slope-intercept form
alge684 Finding slope given the graph of a line on a grid
alge070 Writing an equation of a line given the y-intercept and another point
alge196 Graphing a line through a given point with a given slope

Descriptive Statistics

stat777 Classification of variables and levels of measurement

stat702 Histograms for grouped data
stat717 Interpreting relative frequency histograms
stat703 Frequency polygons for grouped data
stat718 Cumulative distributions and ogives
stat706 Mean, median, and mode: Computations
stat798 Mean, median, and mode: Comparisons
stat007 Weighted mean: Tabular data
stat902 Rejecting unreasonable claims based on average statistics
stat905 Making reasonable inferences based on proportion statistics
stat009 Percentiles
stat021 Population standard deviation
stat011 Sample standard deviation

Counting and Probability

stat782 Factorial expressions
 stat788 Combinations
 stat789 Permutations
 stat826 Introduction to probability of an event
 stat810 Probability of an event
 stat846 Experimental and theoretical probability
 stat106 Outcomes and event probability
 stat226 Die rolling
 stat850 Probability of independent events
 stat851 Probability of dependent events
 stat117 Probabilities of draws with replacement
 stat114 Probability of intersection or union: Word problems
 stat116 Conditional probability: Basic
 stat109 Intersection and conditional probability

B.73 AP Statistics (Quantitative)**Mathematical Readiness**

arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith220 Decimal place value: Hundreds to ten thousandths
 arith221 Rounding decimals
 arith226 Converting between percentages and decimals
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith069 Writing a ratio as a percentage without a calculator
 arith090 Converting a percentage to a fraction in simplest form
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 stat022 Summation of indexed data
 alge006 Solving a two-step equation with integers
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge256 Y-intercept of a line
 alge257 X- and y-intercepts of a line given the equation in standard form
 alge070 Writing an equation of a line given the y-intercept and another point
 alge197 Graphing a line given its x- and y-intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge196 Graphing a line through a given point with a given slope

Descriptive Statistics

stat904 Interpreting pie charts
 stat901 Computations from pie charts
 stat844 Double bar charts
 stat702 Histograms for grouped data
 stat703 Frequency polygons for grouped data
 stat717 Interpreting relative frequency histograms
 stat718 Cumulative distributions and ogives
 stat164 Comparing means without calculation
 stat165 Comparing standard deviations without calculation

stat023 Box-and-whisker plots
 stat831 Interpreting a stem-and-leaf display
 stat827 Using back-to-back stem-and-leaf displays to compare data sets
 stat706 Mean, median, and mode: Computations
 stat902 Rejecting unreasonable claims based on average statistics
 stat007 Weighted mean: Tabular data
 stat719 Estimating the mean of grouped data
 stat009 Percentiles
 stat021 Population standard deviation
 stat011 Sample standard deviation
 stat729 Estimating the standard deviation of grouped data
 stat730 Chebyshev's theorem and the empirical rule
 stat798 Mean, median, and mode: Comparisons
 stat025 Transforming the mean and standard deviation of a data set
 stat905 Making reasonable inferences based on proportion statistics

Probability

stat782 Factorial expressions
 stat788 Combinations
 stat789 Permutations
 stat790 Permutations, combinations, and the multiplication principle for counting
 stat117 Probabilities of draws with replacement
 stat118 Probabilities of draws without replacement
 stat119 Venn diagrams: Two events
 stat100 Venn diagrams: Three events
 stat101 Venn diagrams: Word problems
 stat106 Outcomes and event probability
 stat226 Die rolling
 stat114 Probability of intersection or union: Word problems
 stat115 Independent events: Basic
 stat120 Probability of union: Basic
 stat104 Mutually exclusive events: Two events
 stat102 Mutually exclusive events: Three events
 stat850 Probability of independent events
 stat105 Independent events: Two events
 stat103 Independent events: Three events
 stat113 The curious die
 stat020 Calculating relative frequencies in a contingency table
 stat116 Conditional probability: Basic
 stat851 Probability of dependent events
 stat109 Intersection and conditional probability
 stat107 Conditional probability: Mutually exclusive events
 stat108 Conditional probability: Independent events
 stat756 Tree diagrams for conditional probabilities
 stat110 Law of total probabilities
 stat111 Bayes' theorem

Random Variables

stat777 Classification of variables and levels of measurement
 stat142 Discrete versus continuous variables
 stat151 Discrete probability distribution: Basic
 stat143 Discrete probability distribution: Word problems
 stat149 Cumulative distribution function
 stat150 Expectation and variance of a random variable
 stat153 Rules for expectation and variance of random variables
 stat145 Marginal distributions of two discrete random variables

stat146 Joint distributions of dependent or independent random variables
stat147 Probabilities of two random variables given their joint distribution
stat148 Conditional probabilities of two random variables given their joint distribution

Distributions

stat156 Binomial problems: Mean and standard deviation
stat174 Binomial problems: Basic
stat155 Binomial problems: Advanced
stat157 Standard normal probabilities
stat760 Standard normal values: Basic
stat160 Standard normal values: Advanced
stat159 Normal versus standard normal density curves
stat161 Normal distribution raw scores
stat162 Mean and deviation of a normal distribution
stat163 Normal distribution: Word problems
stat173 t distribution
stat170 Chi-square distribution
stat187 Normal approximation to binomial
stat185 Central limit theorem: Sample mean
stat186 Central limit theorem: Sample sum
stat188 Central limit theorem: Sample proportion

Inferential Statistics

stat200 Selecting a distribution for inferences on the population mean
stat201 Confidence interval for the population mean: Use of the standard normal
stat755 Choosing an appropriate sample size
stat202 Confidence interval for the population mean: Use of the t distribution
stat203 Confidence interval for a population proportion
stat205 Confidence interval for the difference of population means: Use of the standard normal
stat206 Confidence interval for the difference of population means: Use of the t distribution
stat207 Confidence interval for the difference of population proportions
stat300 Determining null and alternative hypotheses
stat190 Type I and Type II errors
stat192 Type I and Type II errors and power
stat194 Effect size, sample size, and power
stat301 Hypothesis test for the population mean: Z test
stat302 Hypothesis test for the population mean: t test
stat303 Hypothesis test for a population proportion
stat305 Hypothesis test for the difference of population means: Z test
stat309 Hypothesis test for the difference of population means: Paired comparisons
stat306 Hypothesis test for the difference of population means: t test
stat307 Hypothesis test for the difference of population proportions
stat319 Contingency tables: Expected frequencies
stat320 Chi-square goodness-of-fit test
stat321 Chi-square test of independence

Regression and Correlation

stat339 Sketching the least-squares regression line
stat333 Linear relationship and the sample correlation coefficient
stat340 Predictions from the least-squares regression line
stat930 Computing the sample correlation coefficient and the coefficients for the least-squares regression line
stat931 Explained and unexplained variation and the least-squares regression line

stat325 Confidence intervals and prediction intervals from simple linear regression
 stat947 Hypothesis tests for the correlation coefficient and the slope of the least-squares regression line

Out

stat171 F distribution
 stat204 Confidence interval for the population standard deviation
 stat208 Confidence interval for the ratio of population variances
 stat304 Hypothesis test for the population variance or standard deviation
 stat308 Hypothesis test for the ratio of population variances
 stat326 Sign test
 stat327 Wilcoxon signed-ranks test
 stat400 Interpreting the regression coefficients
 stat401 Identifying degrees of freedom
 stat402 ANOVA table: Problem type 1
 stat403 ANOVA table: Problem type 2
 stat404 F test of a multiple regression model
 stat405 t test of a multiple regression model
 stat422 ANOVA: Mean squares and the common population variance
 stat423 ANOVA: Degrees of freedom and the F statistic
 stat424 ANOVA: Hypothesis tests and the ANOVA table
 stat430 One-way, repeated-measures ANOVA
 stat440 Selecting among t tests and ANOVA tests
 stat442 Interpreting group means from a factorial design
 stat443 Two-way, independent-samples ANOVA
 stat500 Trend lines for yearly data
 stat501 Seasonal indexes: Multiplicative model
 stat502 Moving averages
 stat503 Ratio-to-moving-average method
 stat504 Exponential smoothing
 stat505 Regression with seasonal indicators
 stat600 Interpreting a control chart
 stat601 R charts
 stat602 x-bar charts
 stat603 p charts
 stat604 c charts
 stat605 Acceptance sampling
 stat606 Estimating sigma from an R chart

B.74 Intro. to Statistics**Mathematical Readiness**

arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith220 Decimal place value: Hundreds to ten thousandths
 arith221 Rounding decimals
 arith226 Converting between percentages and decimals
 arith030 Finding a percentage of a whole number without a calculator: Basic

 stat226 Die rolling
 stat114 Probability of intersection or union: Word problems
 stat115 Independent events: Basic
 stat120 Probability of union: Basic
 stat104 Mutually exclusive events: Two events
 stat102 Mutually exclusive events: Three events
 stat850 Probability of independent events
 stat105 Independent events: Two events
 stat103 Independent events: Three events
 stat113 The curious die

stat020 Calculating relative frequencies in a contingency table
 stat116 Conditional probability: Basic
 stat851 Probability of dependent events
 stat109 Intersection and conditional probability
 stat107 Conditional probability: Mutually exclusive events
 stat108 Conditional probability: Independent events
 stat756 Tree diagrams for conditional probabilities
 stat110 Law of total probabilities
 stat111 Bayes' theorem

Random Variables and Distributions

stat777 Classification of variables and levels of measurement
 stat142 Discrete versus continuous variables
 stat151 Discrete probability distribution: Basic
 stat143 Discrete probability distribution: Word problems
 stat149 Cumulative distribution function
 stat150 Expectation and variance of a random variable
 stat153 Rules for expectation and variance of random variables
 stat145 Marginal distributions of two discrete random variables
 stat146 Joint distributions of dependent or independent random variables
 stat147 Probabilities of two random variables given their joint distribution
 stat148 Conditional probabilities of two random variables given their joint distribution
 stat156 Binomial problems: Mean and standard deviation
 stat174 Binomial problems: Basic
 stat155 Binomial problems: Advanced
 stat157 Standard normal probabilities
 stat760 Standard normal values: Basic
 stat160 Standard normal values: Advanced
 stat159 Normal versus standard normal density curves
 stat161 Normal distribution raw scores
 stat162 Mean and deviation of a normal distribution
 stat163 Normal distribution: Word problems
 stat173 t distribution
 stat170 Chi-square distribution
 stat171 F distribution
 stat187 Normal approximation to binomial
 stat185 Central limit theorem: Sample mean
 stat186 Central limit theorem: Sample sum
 stat188 Central limit theorem: Sample proportion

Confidence Intervals and Hypothesis Testing

stat200 Selecting a distribution for inferences on the population mean
 stat201 Confidence interval for the population mean: Use of the standard normal
 stat202 Confidence interval for the population mean: Use of the t distribution
 stat203 Confidence interval for a population proportion
 stat204 Confidence interval for the population standard deviation
 stat205 Confidence interval for the difference of population means: Use of the standard normal
 stat206 Confidence interval for the difference of population means: Use of the t distribution
 stat207 Confidence interval for the difference of population proportions
 stat208 Confidence interval for the ratio of population variances
 stat755 Choosing an appropriate sample size
 stat190 Type I and Type II errors
 stat192 Type I and Type II errors and power
 stat194 Effect size, sample size, and power
 stat300 Determining null and alternative hypotheses
 stat301 Hypothesis test for the population mean: Z test

stat302 Hypothesis test for the population mean: t test
stat303 Hypothesis test for a population proportion
stat304 Hypothesis test for the population variance or standard deviation
stat305 Hypothesis test for the difference of population means: Z test
stat309 Hypothesis test for the difference of population means: Paired comparisons
stat306 Hypothesis test for the difference of population means: t test
stat307 Hypothesis test for the difference of population proportions
stat308 Hypothesis test for the ratio of population variances

Regression and Correlation

stat339 Sketching the least-squares regression line
stat333 Linear relationship and the sample correlation coefficient
stat340 Predictions from the least-squares regression line
stat930 Computing the sample correlation coefficient and the coefficients for the least-squares regression line
stat931 Explained and unexplained variation and the least-squares regression line
stat325 Confidence intervals and prediction intervals from simple linear regression
stat947 Hypothesis tests for the correlation coefficient and the slope of the least-squares regression line
stat400 Interpreting the regression coefficients
stat401 Identifying degrees of freedom
stat402 ANOVA table: Problem type 1
stat403 ANOVA table: Problem type 2
stat404 F test of a multiple regression model
stat405 t test of a multiple regression model

ANOVA, Chi-square and Nonparametric Tests

stat422 ANOVA: Mean squares and the common population variance
stat423 ANOVA: Degrees of freedom and the F statistic
stat424 ANOVA: Hypothesis tests and the ANOVA table
stat430 One-way, repeated-measures ANOVA
stat442 Interpreting group means from a factorial design
stat443 Two-way, independent-samples ANOVA
stat440 Selecting among t tests and ANOVA tests
stat319 Contingency tables: Expected frequencies
stat320 Chi-square goodness-of-fit test
stat321 Chi-square test of independence
stat326 Sign test
stat327 Wilcoxon signed-ranks test

Quality Control

stat500 Trend lines for yearly data
stat501 Seasonal indexes: Multiplicative model
stat502 Moving averages
stat503 Ratio-to-moving-average method
stat504 Exponential smoothing
stat505 Regression with seasonal indicators
stat600 Interpreting a control chart
stat601 R charts
stat602 \bar{x} -bar charts
stat603 p charts
stat604 c charts
stat605 Acceptance sampling
stat606 Estimating sigma from an R chart

B.75 Chemistry

Algebra Readiness

arith231 Integer multiplication and division
arith067 Simplifying a fraction
arith212 Equivalent fractions
arith105 Signed fraction multiplication: Advanced
arith220 Decimal place value: Hundreds to ten thousandths
arith221 Rounding decimals
arith234 Signed decimal addition and subtraction with 3 numbers
arith030 Finding a percentage of a whole number without a calculator: Basic
arith047 Evaluating expressions with exponents: Problem type 1
arith049 Evaluating expressions with exponents: Problem type 2
arith042 Evaluating an expression with a negative exponent: Positive fraction base
alge024 Introduction to the product rule of exponents
alge026 Quotient of expressions involving exponents
arith602 Estimating a square root
arith601 Square root of a rational perfect square
alge080 Simplifying a radical expression with an even exponent
alge004 Evaluating a quadratic expression: Integers
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge607 Combining like terms: Integer coefficients
alge663 Combining like terms: Advanced
alge160 Algebraic symbol manipulation
alge006 Solving a two-step equation with integers
alge200 Solving an equation to find the value of an expression
alge197 Graphing a line given its x- and y-intercepts
alge194 Graphing a line given its equation in slope-intercept form
alge195 Graphing a line given its equation in standard form
alge196 Graphing a line through a given point with a given slope
alge637 Determining the slope of a line given its graph
unit041 Volume of a cube or a rectangular prism
geom802 Circumference and area of a circle
unit841 Volume of a sphere
unit029 Volume of a cylinder

Measurement

arith082 Multiplication of a decimal by a power of ten
arith083 Division of a decimal by a power of ten
scinot101 Converting between decimal numbers and numbers written in scientific notation
scinot102 Multiplying and dividing numbers written in scientific notation
scinot103 Calculating positive powers of scientific notation
scinot007 Finding negative powers of scientific notation
unit040 Identifying SI units
unit014 Interconversion of prefixed and base SI units
unit015 Interconversion of prefixed SI units
unit016 Interconverting compound SI units
unit038 Interconverting derived SI units
unit032 Interconverting temperatures in Celsius and Kelvins
unit033 Interconverting temperatures in Celsius and Fahrenheit
unit017 Adding and subtracting simple units
unit018 Multiplying and dividing simple units
unit019 Powers and roots of powers of simple units
unit020 Forming compound units
unit021 Adding and subtracting compound units
unit022 Multiplying and dividing compound units

unit023 Powers and roots of compound units
sigfig001 Counting significant digits
sigfig002 Rounding to a given significant digit
sigfig003 Counting significant digits when measurements are added or subtracted
sigfig004 Counting significant digits when measurements are multiplied or divided
sigfig005 Adding or subtracting and multiplying or dividing measurements

Matter and Energy

atom015 Distinguishing elements and compounds
atom016 Distinguishing compounds and mixtures
atom034 Distinguishing chemical and physical change
atom033 Distinguishing solid, liquid and gas phases of a pure substance
atom001 Names and symbols of important elements
atom002 Reading a Periodic Table entry
atom042 Understanding periods and groups of the Periodic Table
atom003 Organization of the Periodic Table
atom005 Standard chemical and physical states of the elements
atom038 Using the Periodic Table to identify similar elements
atom046 Understanding periodic trends in atomic size
atom047 Understanding periodic trends in atomic ionizability
thermo008 Interconverting calories and joules
thermo011 Calculating specific heat capacity
thermo009 Using specific heat capacity to find heat
thermo010 Using specific heat capacity to find temperature change
atom041 Understanding the organization of the electromagnetic spectrum

Atoms and Molecules

atom006 Counting protons and electrons in atoms and atomic ions
atom029 Finding isoprotonic atoms
atom030 Finding isoelectronic atoms
atom004 Isotopes
atom012 Predicting the ions formed by common main-group elements
atom019 Counting valence electrons in an atomic ion
atom020 Drawing the Lewis dot diagram of a main group atom or common atomic ion
atom048 Counting the electron shells in a neutral atom
atom021 Deducing the allowed quantum numbers of an atomic electron
atom024 Calculating the capacity of electron subshells
atom031 Knowing the subshells of an electron shell
atom025 Interpreting the electron configuration of an atom or atomic ion
atom026 Interpreting the electron configuration of an atom or atomic ion in noble-gas notation
atom027 Writing the electron configuration of an atom or atomic ion with s and p electrons only

Compounds and Reactions

stoich006 Counting the number of atoms in a formula unit
stoich007 Finding mole ratios from chemical formulae
stoich008 Finding chemical formulae from a mole ratio
stoich009 Finding molar mass from chemical formulae
stoich010 Finding mass percent from chemical formulae
stoich011 Elemental analysis
atom045 Understanding the prefixes used in naming binary compounds
atom014 Naming binary covalent compounds
atom017 Predicting whether a compound is ionic or molecular

atom007 Predicting the formula of binary ionic compounds
atom008 Naming binary ionic compounds
atom028 Deducing the ions in a binary ionic compound from its empirical formula
atom013 Predicting and naming ionic compounds formed by two elements
atom036 Identifying common polyatomic ions
atom011 Predicting the formula of ionic compounds with common polyatomic ions
atom009 Naming ionic compounds with common polyatomic ions
atom035 Deducing the ions in a polyatomic ionic compound from its empirical formula
atom037 Identifying oxoanions
atom010 Naming ionic compounds with common oxoanions
rxn002 Writing a chemical equation from a description of the reaction
rxn001 Identifying combination, decomposition, single and double displacement reactions
rxn006 Identifying precipitation, combustion and acid-base reactions
stoich012 Stoichiometric coefficients
stoich013 Balancing chemical equations with noninterfering coefficients
stoich014 Balancing chemical equations with interfering coefficients
stoich002 Using the Avogadro Number
stoich003 Calculating and using the molar mass of elements
stoich004 Calculating and using the molar mass of diatomic elements
stoich005 Calculating and using the molar mass of heterodiatomic compounds
stoich015 Solving for a reactant using a chemical equation
stoich017 Limiting reactants
stoich018 Percent yield of chemical reactions
thermo014 Calculating the heat of reaction from molar reaction enthalpy and the mass of a reactant
thermo018 Calculating the heat of reaction from bond energies

Physical Chemistry

gas001 Interconverting pressure and force
gas002 Measuring pressure in non-SI units
gas003 Understanding pressure equilibrium and atmospheric pressure
gas004 Understanding Boyle's Law
gas005 Solving applications of Boyle's Law
gas006 Using Charles's Law
gas007 Using the ideal equation of state
gas008 Interconverting molar mass and density of ideal gases
gas009 Calculating mole fraction in a gas mixture
gas010 Calculating partial pressure in a gas mixture
gas011 Solving for a gaseous reactant
thermo017 Using heat of fusion or vaporization to find the heat needed to melt or boil a substance
thermo019 Relating vapor pressure to vaporization
soln001 Predicting the products of dissolution
soln002 Writing net ionic equations
soln003 Predicting precipitation
stoich019 Calculating mass concentration
stoich026 Using mass concentration to find solute mass and solution volume
stoich027 Solving applied mass concentration problems
stoich020 Calculating molarity using solute moles
stoich028 Using molarity to find solute moles and solution volume
stoich029 Calculating molarity using solute mass
stoich030 Using molarity to find solute mass and solution volume
stoich021 Dilution
stoich022 Calculating mass percent composition
stoich032 Using mass percent composition to find solution volume
stoich037 Solving for a reactant in solution
stoich038 Solving limiting reactant problems in solution
pchem011 Understanding common types of radioactive decay
pchem015 Using the half-life of a radioisotope

Acids and Bases

acid001 Identifying acids and bases by their reaction with water
acid002 Identifying acids and bases by their chemical formula
acid003 Naming inorganic acids
acid004 Deducing the formulae of inorganic acids from their names
acid005 Naming acid salts
acid006 Recognizing common acids and bases
acid007 Understanding the difference between strong and weak acids
acid008 Identifying Bronsted-Lowry acids and bases
acid009 Finding the conjugate of an acid or base
acid010 Predicting the products of the reaction of a strong acid with water
acid011 Predicting the products of a neutralization reaction
acid016 Interconverting pH and hydronium ion concentration
acid017 Using the ion product of water
acid018 Making qualitative estimates of pH change
acid019 Calculating the pH of a strong acid solution
acid021 Diluting a strong acid solution to a given pH
acid020 Calculating the pH of a strong base solution
acid022 Preparing a strong base solution with a given pH
acid023 Determining the volume of base needed to titrate a given mass of acid
acid024 Determining the molar mass of an acid by titration
acid025 Standardizing a base solution by titration

Oxidation and Reduction

redox001 Assigning oxidation numbers
redox002 Recognizing reduction and oxidation
redox003 Identifying oxidizing and reducing agents
redox004 Identifying oxidized and reduced reactants in a metal-nonmetal reaction
redox005 Identifying oxidized and reduced reactants in a single-displacement reaction
redox006 Writing a simple half-reaction from its description
redox007 Writing the half-reactions of a metal-nonmetal reaction
redox008 Writing the half-reactions of a single-displacement reaction
redox011 Predicting whether simple electrochemical reactions happen
redox012 Designing a galvanic cell from a single-displacement redox reaction

Kinetics and Equilibrium

equi009 Predicting how reaction rate varies with pressure, concentration and temperature
equi010 Interpreting a reaction energy diagram
equi011 Relating activation energy to reaction rate
equi012 Calculating the reaction rate of one reactant from that of another
equi013 Drawing the reaction energy diagram of a catalyzed reaction
equi003 Understanding that no reaction goes to 100%
equi004 Predicting relative forward and reverse rates of reaction in a dynamic equilibrium
equi005 Using Le Chatelier's Principle to predict the result of changing concentration or volume
equi006 Using Le Chatelier's Principle to predict the result of changing temperature
equi007 Writing an equilibrium constant expression
equi014 Writing an equilibrium constant expression for a heterogeneous equilibrium
equi008 Using an equilibrium constant to predict the direction of spontaneous reaction

Organic Chemistry

ochem001 Identifying organic compounds
ochem003 Interpreting condensed chemical structures
ochem004 Identifying organic functional groups
ochem008 Naming normal alkanes
ochem009 Using family suffixes to name organic compounds

B.76 Prep. for AP Chemistry

Math and Algebra

arith231 Integer multiplication and division
arith067 Simplifying a fraction
arith212 Equivalent fractions
arith116 Signed fraction addition or subtraction: Basic
arith822 Signed fraction multiplication: Basic
arith814 Signed fraction division
arith047 Evaluating expressions with exponents: Problem type 1
arith651 Introduction to inequalities
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith681 Introduction to order of operations
arith029 Ordering numbers with positive exponents
alge790 Evaluating expressions with exponents of zero
arith729 Evaluating an expression with a negative exponent: Whole number base
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith695 Complex fraction without variables: Problem type 1
arith016 Square root of a perfect square
arith764 Introduction to square root multiplication
arith071 Absolute value of a number
alge004 Evaluating a quadratic expression: Integers
alge607 Combining like terms: Integer coefficients
alge293 Combining like terms in a quadratic expression
alge604 Distributive property: Integer coefficients
alge608 Using distribution and combining like terms to simplify: Univariate
alge024 Introduction to the product rule of exponents
alge311 Product rule with positive exponents: Univariate
alge961 Introduction to the product rule with negative exponents
alge827 Introduction to the quotient rule of exponents
alge452 Simplifying a ratio of univariate monomials
alge755 Quotient rule with negative exponents: Problem type 1
alge305 Introduction to the power of a product rule of exponents
alge927 Power and quotient rules with positive exponents
alge791 Rewriting an algebraic expression without a negative exponent
alge032 Squaring a binomial: Univariate
alge983 Multiplying binomials with leading coefficients greater than 1
alge053 Multiplying rational expressions involving multivariate monomials
alge470 Complex fraction involving univariate monomials
alge264 Square root of a perfect square monomial
alge733 Writing a one-step expression for a real-world situation
alge730 Writing a multi-step equation for a real-world situation
alge834 Identifying solutions to a linear equation in one variable: Two-step equations
alge873 Identifying solutions to a linear equation in two variables
alge010 Additive property of equality with integers
alge266 Additive property of equality with a negative coefficient
alge012 Multiplicative property of equality with signed fractions
alge837 Solving a multi-step equation given in fractional form
alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge160 Algebraic symbol manipulation
alge014 Solving a word problem with two unknowns using a linear equation
alge849 Additive property of inequality with integers
alge856 Solving a two-step linear inequality: Problem type 2
alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced

alge963 Applying the quadratic formula: Decimal answers
 alge214 Discriminant of a quadratic equation
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge875 Classifying slopes given graphs of lines
 alge637 Determining the slope of a line given its graph
 alge685 Finding slope given two points on the line
 alge196 Graphing a line through a given point with a given slope
 alge884 Finding x- and y-intercepts given the graph of a line on a grid
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge194 Graphing a line given its equation in slope-intercept form
 alge070 Writing an equation of a line given the y-intercept and another point
 alge631 Finding the slope of a line given its equation
 scilog001 Evaluating a logarithmic expression
 scilog002 Solving an equation of the form $\log_b a = c$
 scilog003 Basic properties of logarithms
 scilog004 Expanding a logarithmic expression: Problem type 1
 scilog005 Expanding a logarithmic expression: Problem type 2
 scilog006 Writing an expression as a single logarithm
 scilog007 Converting between common logarithmic and exponential equations
 pcalc799 Converting between natural logarithmic and exponential equations
 pcalc919 Evaluating an exponential function with base e that models a real-world situation
 pcalc804 Solving a multi-step equation involving natural logarithms
 pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic
 pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^{x-b} + c$
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom044 Pythagorean Theorem
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc642 Solving a right triangle
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph
 vector006 Finding the component of a vector along another vector

Science Toolbox

arith082 Multiplication of a decimal by a power of ten
 arith083 Division of a decimal by a power of ten
 scinot101 Converting between decimal numbers and numbers written in scientific notation
 scinot102 Multiplying and dividing numbers written in scientific notation
 scinot103 Calculating positive powers of scientific notation
 scinot007 Finding negative powers of scientific notation
 unit043 Knowing the dimension of common simple SI units
 unit044 Understanding the purpose of SI prefixes
 unit045 Knowing the value of an SI prefix as a power of 10
 unit014 Interconversion of prefixed and base SI units
 unit015 Interconversion of prefixed SI units
 unit047 Interconverting compound SI units
 unit038 Interconverting derived SI units
 unit032 Interconverting temperatures in Celsius and Kelvins
 unit033 Interconverting temperatures in Celsius and Fahrenheit
 unit048 Addition and subtraction of measurements
 unit049 Simplifying unit expressions
 unit051 Multiplication and division of measurements
 sigfig001 Counting significant digits

sigfig002 Rounding to a given significant digit
sigfig003 Counting significant digits when measurements are added or subtracted
sigfig004 Counting significant digits when measurements are multiplied or divided
sigfig005 Adding or subtracting and multiplying or dividing measurements
thermo002 Understanding how electrostatic potential energy scales with charge and separation

Big Idea 1: Elements and Atoms

atom015 Distinguishing elements and compounds
atom001 Names and symbols of important elements
stoich006 Counting the number of atoms in a formula unit
atom060 Writing a chemical formula given a molecular model
atom061 Writing a chemical formula given a chemical structure
stoich002 Using the Avogadro Number
stoich003 Calculating and using the molar mass of elements
stoich004 Calculating and using the molar mass of diatomic elements
stoich005 Calculating and using the molar mass of heterodiatomic compounds
stoich007 Finding mole ratios from chemical formulae
stoich008 Finding chemical formulae from a mole ratio
stoich009 Finding molar mass from chemical formulae
stoich010 Finding mass percent from chemical formulae
stoich011 Elemental analysis
stoich024 Finding a molecular formula from molar mass and elemental analysis
atom039 Identifying the parts of an atom
atom004 Isotopes
atom058 Finding atomic mass from isotope mass and natural abundance
atom063 Counting the number of protons and electrons in a neutral atom
atom006 Counting protons and electrons in atoms and atomic ions
atom029 Finding isoprotonic atoms
atom030 Finding isoelectronic atoms
atom048 Counting the electron shells in a neutral atom
atom031 Knowing the subshells of an electron shell
atom062 Counting valence electrons in a neutral atom
atom019 Counting valence electrons in an atomic ion
atom020 Drawing the Lewis dot diagram of a main group atom or common atomic ion
atom055 Deducing n and l from a subshell label
atom021 Deducing the allowed quantum numbers of an atomic electron
atom056 Deciding the relative energy of electron subshells
atom024 Calculating the capacity of electron subshells
atom057 Drawing a box diagram of the electron configuration of an atom
atom077 Interpreting the electron configuration of a neutral atom
atom073 Interpreting the electron configuration of a neutral atom in noble-gas notation
atom076 Writing the electron configuration of a neutral atom with s and p electrons only
atom075 Writing the electron configuration of a neutral atom with a filled d subshell
atom022 Writing the electron configuration of an atom using the Periodic Table
atom078 Writing the electron configuration of a first transition series atom
atom079 Interpreting an outer electron box diagram
atom080 Drawing the outer electron box diagram of a transition metal cation
atom067 Understanding the definitions of ionization energy and electron affinity
atom069 Deducing valence electron configuration from trends in successive ionization energies
atom025 Interpreting the electron configuration of an atom or atomic ion
atom026 Interpreting the electron configuration of an atom or atomic ion in noble-gas notation
atom027 Writing the electron configuration of an atom or atomic ion with s and p electrons only
atom032 Identifying the electron added or removed to form an ion from an s or p block atom
atom059 Identifying the electron added or removed to form an ion
atom023 Identifying quantum mechanics errors in electron configurations
atom051 Understanding the meaning of a de Broglie wavelength
atom052 Interpreting the radial probability distribution of an orbital
atom053 Interpreting the angular probability distribution of an orbital
atom054 Recognizing s and p orbitals

atom070 Ranking the screening efficacy of atomic orbitals
atom002 Reading a Periodic Table entry
atom042 Understanding periods and groups of the Periodic Table
atom003 Organization of the Periodic Table
atom005 Standard chemical and physical states of the elements
atom038 Using the Periodic Table to identify similar elements
atom065 Identifying s, p, d and f block elements
atom072 Deducing the block of an element from an electron configuration
atom066 Identifying elements with a similar valence electron configuration
atom081 Identifying transition metal cations with a given number of d electrons
atom082 Deducing the number of d electrons and unpaired spins in a transition metal cation
atom083 Understanding the exceptional electron configurations in the first transition series
atom012 Predicting the ions formed by common main-group elements
atom068 Predicting the relative ionization energy of elements
atom046 Understanding periodic trends in atomic size
atom047 Understanding periodic trends in atomic ionizability
atom071 Understanding periodic trends in effective nuclear charge
ichem001 Understanding words that describe where transition metals lie in the Periodic Table
ichem002 Predicting the relative atomic radius of a transition metal atom
ichem003 Predicting the relative density of a transition metal
ichem004 Predicting the relative melting point of a transition metal
ichem005 Predicting the highest common oxidation state of a metal in the first transition series
atom041 Understanding the organization of the electromagnetic spectrum
atom040 Interconverting the wavelength and frequency of electromagnetic radiation
atom043 Interconverting wavelength, frequency and photon energy
atom044 Calculating the wavelength of a spectral line from an energy diagram
atom049 Predicting the qualitative features of a line spectrum
atom050 Calculating the wavelength of a line in the spectrum of hydrogen
atom034 Distinguishing chemical and physical change
stoich012 Stoichiometric coefficients
stoich016 Identifying the limiting reactant in a drawing of a mixture

Big Idea 2: Properties of Matter

atom016 Distinguishing compounds and mixtures
atom033 Distinguishing solid, liquid and gas phases of a pure substance
thermo040 Using a phase diagram to predict phase at a given temperature and pressure
thermo041 Labeling a typical simple phase diagram
thermo042 Using a phase diagram to find a phase transition temperature or pressure
thermo044 Sketching a described thermodynamic change on a phase diagram
pchem001 Identifying important physical properties of liquids
pchem002 Understanding consequences of important physical properties of liquids
thermo019 Relating vapor pressure to vaporization
thermo046 Identifying phase transitions on a heating curve
thermo047 Interpreting a heating curve
thermo045 Drawing a heating curve
gas001 Interconverting pressure and force
gas019 Interconverting atmospheres and kilopascals
gas020 Interconverting atmospheres and torr
gas003 Understanding pressure equilibrium and atmospheric pressure
gas004 Understanding Boyle's Law
gas005 Solving applications of Boyle's Law
gas006 Using Charles's Law
gas007 Using the ideal equation of state
gas008 Interconverting molar mass and density of ideal gases
gas009 Calculating mole fraction in a gas mixture
gas010 Calculating partial pressure in a gas mixture
gas012 Understanding how average molecular kinetic energy scales with temperature
gas013 Understanding how average molecular speed scales with temperature and molar mass
gas014 Interpreting a graph of molecular speed distribution

gas018 Using relative effusion rates to find an unknown molar mass
soln001 Predicting the products of dissolution
soln020 Understanding how solubility varies with temperature and pressure
soln011 Applying like dissolves like
stoich020 Calculating molarity using solute moles
stoich028 Using molarity to find solute moles and solution volume
stoich029 Calculating molarity using solute mass
stoich030 Using molarity to find solute mass and solution volume
stoich021 Dilution
soln012 Calculating solubility
soln019 Using solubility to calculate solute mass or solution volume
soln010 Using Henry's Law to calculate the solubility of a gas
stoich019 Calculating mass concentration
stoich026 Using mass concentration to find solute mass and solution volume
stoich022 Calculating mass percent composition
stoich032 Using mass percent composition to find solution volume
soln006 Calculating molality
soln008 Calculating mole fraction
soln005 Predicting relative boiling point elevations and freezing point depressions
soln021 Using the K_f and K_b equations
soln007 Using osmotic pressure to find molar mass
soln009 Using Raoult's Law to calculate the vapor pressure of a component
atom045 Understanding the prefixes used in naming binary compounds
atom014 Naming binary covalent compounds
atom017 Predicting whether a compound is ionic or molecular
atom007 Predicting the formula of binary ionic compounds
atom008 Naming binary ionic compounds
atom028 Deducing the ions in a binary ionic compound from its empirical formula
atom064 Predicting ionic compounds formed by two elements
atom013 Predicting and naming ionic compounds formed by two elements
atom036 Identifying common polyatomic ions
atom011 Predicting the formula of ionic compounds with common polyatomic ions
atom009 Naming ionic compounds with common polyatomic ions
atom035 Deducing the ions in a polyatomic ionic compound from its empirical formula
atom037 Identifying oxoanions
atom010 Naming ionic compounds with common oxoanions
ichem027 Predicting the relative stability of ionic crystals from a sketch
ichem028 Predicting the relative lattice energy of binary ionic compounds
thermo055 Interpreting a Born-Haber cycle
ichem026 Drawing the unit cell of a 2D lattice
ichem029 Counting the atoms in a unit cell
ichem030 Recognizing and naming close-packed crystal lattices
ichem031 Recognizing and naming lattices with cubic unit cells
ichem032 Calculating key distances in the fcc unit cell
ichem033 Calculating key distances in the bcc unit cell
ichem034 Finding an atomic radius from an fcc or bcc lattice constant
ichem035 Finding density from an fcc or bcc lattice constant

Big Idea 3: Transformations of Matter

stoich013 Balancing chemical equations with noninterfering coefficients
stoich014 Balancing chemical equations with interfering coefficients
rxn002 Writing a chemical equation from a description of the reaction
rxn004 Writing the net equation for a sequence of reactions
soln002 Writing net ionic equations
stoich015 Solving for a reactant using a chemical equation
stoich017 Limiting reactants
stoich041 Theoretical yield of chemical reactions
stoich018 Percent yield of chemical reactions
gas011 Solving for a gaseous reactant

stoich037 Solving for a reactant in solution
stoich038 Solving limiting reactant problems in solution
rxn001 Identifying combination, decomposition, single and double displacement reactions
rxn006 Identifying precipitation, combustion and acid-base reactions
soln003 Predicting precipitation
acid002 Identifying acids and bases by their chemical formula
acid001 Identifying acids and bases by their reaction with water
acid011 Predicting the products of a neutralization reaction
acid003 Naming inorganic acids
acid004 Deducing the formulae of inorganic acids from their names
acid006 Recognizing common acids and bases
acid005 Naming acid salts
acid008 Identifying Bronsted-Lowry acids and bases
acid009 Finding the conjugate of an acid or base
acid010 Predicting the products of the reaction of a strong acid with water
acid032 Predicting the qualitative acid-base properties of salts
acid044 Predicting the relative acidity of binary acids
acid045 Understanding the effect of induction on acidity
acid046 Predicting the qualitative acid-base properties of metal cations
acid047 Identifying Lewis acids and bases in reactions
acid049 Predicting the acid-base properties of a binary oxide in water
ichem006 Predicting the reaction of a transition metal with a strong acid
redox001 Assigning oxidation numbers
redox002 Recognizing reduction and oxidation
redox003 Identifying oxidizing and reducing agents
redox004 Identifying oxidized and reduced reactants in a metal-nonmetal reaction
redox005 Identifying oxidized and reduced reactants in a single-displacement reaction
redox011 Predicting whether simple electrochemical reactions happen
redox006 Writing a simple half-reaction from its description
redox007 Writing the half-reactions of a metal-nonmetal reaction
redox008 Writing the half-reactions of a single-displacement reaction
redox009 Writing and balancing complex half-reactions in acidic solution
redox010 Writing and balancing complex half-reactions in basic solution
redox013 Balancing a complex redox equation in acidic or basic solution
redox014 Writing the half-reactions of a complex redox reaction in acidic or basic solution
redox012 Designing a galvanic cell from a single-displacement redox reaction
redox016 Designing a galvanic cell from two half-reactions
redox017 Analyzing a galvanic cell
redox018 Picking a reduction or oxidation that will make a galvanic cell work
redox019 Ranking the strength of oxidizing and reducing agents using standard reduction potentials
redox020 Calculating standard reaction free energy from standard reduction potentials
redox026 Recognizing consistency among equilibrium constant, free energy, and cell potential
redox021 Using the Nernst equation to calculate nonstandard cell voltage
redox022 Using the relationship between charge, current and time
redox023 Using the Faraday constant
redox024 Analyzing the electrolysis of molten salt
redox025 Calculating the mass of an electrolysis product from the applied current

Big Idea 4: Chemical Kinetics

equi012 Calculating the reaction rate of one reactant from that of another
equi032 Calculating average and instantaneous reaction rate from a graph of concentration versus time
equi009 Predicting how reaction rate varies with pressure, concentration and temperature
equi019 Using a rate law
equi020 Using reactant reaction order to predict changes in initial rate
equi021 Deducing a rate law from initial reaction rate data
equi029 Deducing a rate law from the change in concentration over time
equi023 Calculating the change in concentration after a whole number of half-lives of a first-order reaction
equi030 Finding half life and rate constant from a graph of concentration versus time
equi022 Using an integrated rate law for a first-order reaction

equi027 Using a second-order integrated rate law to find concentration change
equi028 Using first- and second-order integrated rate laws
gas017 Understanding how molecular collision rate scales with temperature and volume
equi033 Identifying the molecularity of an elementary reaction
equi010 Interpreting a reaction energy diagram
equi011 Relating activation energy to reaction rate
equi024 Understanding the qualitative predictions of the Arrhenius equation
equi025 Using the Arrhenius equation to calculate k at one temperature from k at another
equi026 Using the Arrhenius equation to calculate E_a from k versus T data
equi034 Identifying intermediates in a reaction mechanism
equi035 Writing a plausible missing step for a simple reaction mechanism
equi040 Deducing information about reaction mechanisms from a reaction energy diagram
equi036 Writing the rate law of an elementary reaction
equi037 Writing the rate law implied by a simple mechanism with an initial slow step
equi038 Expressing the concentration of an intermediate in terms of the concentration of reactants
equi039 Writing the rate law implied by a simple mechanism
equi013 Drawing the reaction energy diagram of a catalyzed reaction

Big Idea 5: Thermodynamics

thermo001 Understanding how kinetic energy scales with mass and speed
thermo051 Calculating kinetic energy
gas015 Predicting how molecular speed distribution changes with temperature and molar mass
gas016 Calculating average molecular speed
thermo003 Using conservation of energy to predict the qualitative exchange of kinetic and potential energy
thermo005 Calculating pressure-volume work
thermo006 Understanding the definitions of heat and work
thermo007 Understanding the definition of enthalpy
thermo008 Interconverting calories and joules
thermo011 Calculating specific heat capacity
thermo009 Using specific heat capacity to find heat
thermo010 Using specific heat capacity to find temperature change
thermo013 Calculating molar heat capacity
thermo017 Using heat of fusion or vaporization to find the heat needed to melt or boil a substance
thermo052 Understanding the connection between vapor pressure, boiling point, and enthalpy of vaporization
thermo053 Calculating vapor pressure from boiling point and enthalpy of vaporization
thermo054 Calculating enthalpy of vaporization from vapor pressure
thermo020 Using the general properties of reaction enthalpy
thermo014 Calculating the heat of reaction from molar reaction enthalpy and the mass of a reactant
thermo021 Using Hess's Law to calculate net reaction enthalpy
thermo022 Writing a standard formation reaction
thermo023 Calculating a molar heat of reaction from formation enthalpies
thermo043 Calculating the heat of reaction from bond energies and Lewis structures
thermo018 Calculating the heat of reaction from bond energies
soln013 Understanding conceptual components of the enthalpy of solution
thermo024 Calculating entropy change from reversible heat flow
thermo026 Calculating absolute entropy using the Boltzmann hypothesis
thermo027 Calculating entropy change using the Boltzmann hypothesis
thermo028 Predicting qualitatively how entropy changes with temperature and volume
thermo029 Predicting qualitatively how entropy changes with mixing and separation
thermo030 Qualitatively predicting reaction entropy
thermo031 Calculating reaction entropy using the standard molar entropies of reactants
thermo032 Using the general properties of Gibbs free energy
thermo033 Calculating dG from dH and dS
thermo034 Using the conditions of spontaneity to deduce the signs of ΔH and ΔS
thermo035 Calculating standard reaction free energy from standard free energies of formation
thermo037 Estimating a phase transition temperature from standard thermodynamic data

Big Idea 6: Chemical Equilibrium

equi003 Understanding that no reaction goes to 100%
equi004 Predicting relative forward and reverse rates of reaction in a dynamic equilibrium
equi041 Writing a concentration equilibrium constant expression
equi042 Writing a pressure equilibrium constant expression
equi046 Calculating an equilibrium constant from an equilibrium composition
equi045 Writing the concentration equilibrium expression for a heterogeneous equilibrium
equi044 Writing the pressure equilibrium expression for a heterogeneous equilibrium
equi043 Calculating an equilibrium constant from a heterogeneous equilibrium composition
equi008 Using an equilibrium constant to predict the direction of spontaneous reaction
equi015 Using the general properties of equilibrium constants
equi016 Setting up a reaction table
equi017 Calculating equilibrium composition from an equilibrium constant
equi005 Using Le Chatelier's Principle to predict the result of changing concentration or volume
equi006 Using Le Chatelier's Principle to predict the result of changing temperature
acid007 Understanding the difference between strong and weak acids
acid035 Identifying the major species in weak acid or weak base equilibria
acid026 Writing an acid dissociation constant expression
acid013 Interconverting hydronium and hydroxide concentration at 25°C
acid016 Interconverting pH and hydronium ion concentration
acid012 Interconverting pH and pOH at 25°C
acid018 Making qualitative estimates of pH change
acid019 Calculating the pH of a strong acid solution
acid020 Calculating the pH of a strong base solution
acid021 Diluting a strong acid solution to a given pH
acid022 Preparing a strong base solution with a given pH
acid027 Calculating the K_a of a weak acid from pH
acid028 Calculating the pH of a weak acid solution
acid029 Writing a base protonation constant expression
acid030 Calculating the pH of a weak base solution
acid031 Deriving K_b from K_a
acid042 Interconverting K_a and pK_a
acid048 Calculating the pH of a salt solution
acid036 Setting up a reaction table for a pH calculation with a common ion
acid037 Calculating the pH of a buffer
acid038 Calculating the composition of a buffer of a given pH
acid023 Determining the volume of base needed to titrate a given mass of acid
acid024 Determining the molar mass of an acid by titration
acid025 Standardizing a base solution by titration
acid040 Calculating the pH of a weak acid titrated with a strong base
acid041 Calculating the pH of a weak base titrated with a strong acid
acid043 Calculating the pH at equivalence of a titration
soln014 Writing a solubility product (K_{sp}) expression
soln015 Using K_{sp} to calculate the solubility of a compound
soln016 Using the solubility of a compound to calculate K_{sp}
soln017 Calculating the solubility of an ionic compound when a common ion is present
soln018 Understanding the effect of pH on the solubility of ionic compounds
thermo038 Calculating reaction free energy under nonstandard conditions
thermo039 Using reaction free energy to predict equilibrium composition

Advanced Material

nchem001 Interpreting the symbol for a nuclide
nchem002 Writing the symbols in a nuclear chemical equation
nchem003 Balancing a nuclear chemical equation
nchem006 Writing the equation for a typical radioactive decay
nchem008 Calculating the energy change in a nuclear reaction from the mass change
nchem004 Knowing the properties of the common types of nuclear radiation
nchem005 Understanding the common modes of radioactive decay
nchem009 Understanding radioactive half life
nchem010 Interconverting amount of radioactive decay and half life

nchem011 Calculating radioactive activity from half life
nchem012 Using isotope ratios to radiodate
nchem013 Using activity to radiodate
ichem008 Writing the formula of a metal complex from its description
ichem009 Recognizing typical metal ligands
ichem010 Determining the oxidation state of the metal in a complex ion
ichem011 Naming complex cations with one type of ligand
ichem012 Naming complex anions with one type of ligand
ichem013 Naming complex ions
ichem014 Determining the oxidation state of the metal in a coordination compound
ichem015 Naming coordination compounds
ichem016 Determining the coordination number of a metal in a complex
ichem017 Understanding the connection between geometry and coordination number of a metal complex
ichem018 Distinguishing isomers and alternate views of a metal complex
ichem019 Drawing an isomer of a metal complex
ichem020 Drawing cis and trans isomers of a metal complex
ichem023 Adding electrons to a crystal field theory energy level diagram
ichem024 Predicting color and magnetic properties from a crystal field theory energy level diagram
ichem025 Drawing a crystal field theory energy level diagram
ochem001 Identifying organic compounds
ochem003 Interpreting condensed chemical structures
ochem004 Identifying organic functional groups
ochem005 Identifying the main chain of branched alkanes
ochem006 Numbering the main chain of branched alkanes
ochem007 Interpreting condensed chemical structures with benzene rings
ochem008 Naming normal alkanes
ochem009 Using family suffixes to name organic compounds
ochem010 Naming the parent hydrocarbon of branched alkanes
ochem011 Naming alkyl side chains
ochem012 Naming branched alkanes
ochem013 Using multiplying affixes in the names of branched alkanes
ochem016 Naming unbranched alkenes and alkynes
ochem017 Naming alkenes and alkynes
ochem018 Naming alkyl halides
ochem019 Naming alcohols
ochem020 Naming aldehydes and acids
ochem021 Naming benzene derivatives

Math and Algebra

arith231 Integer multiplication and division
arith067 Simplifying a fraction
arith212 Equivalent fractions
arith116 Signed fraction addition or subtraction: Basic
arith822 Signed fraction multiplication: Basic
arith814 Signed fraction division
arith047 Evaluating expressions with exponents: Problem type 1
arith651 Introduction to inequalities
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith681 Introduction to order of operations
arith029 Ordering numbers with positive exponents
alge790 Evaluating expressions with exponents of zero
arith729 Evaluating an expression with a negative exponent: Whole number base
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith695 Complex fraction without variables: Problem type 1

arith016 Square root of a perfect square
 arith764 Introduction to square root multiplication
 arith071 Absolute value of a number
 alge004 Evaluating a quadratic expression: Integers
 alge607 Combining like terms: Integer coefficients
 alge293 Combining like terms in a quadratic expression
 alge604 Distributive property: Integer coefficients
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge961 Introduction to the product rule with negative exponents
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge755 Quotient rule with negative exponents: Problem type 1
 alge305 Introduction to the power of a product rule of exponents
 alge927 Power and quotient rules with positive exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge032 Squaring a binomial: Univariate
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge053 Multiplying rational expressions involving multivariate monomials
 alge470 Complex fraction involving univariate monomials
 alge264 Square root of a perfect square monomial
 alge733 Writing a one-step expression for a real-world situation
 alge730 Writing a multi-step equation for a real-world situation
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge873 Identifying solutions to a linear equation in two variables
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge012 Multiplicative property of equality with signed fractions
 alge837 Solving a multi-step equation given in fractional form
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge160 Algebraic symbol manipulation
 alge014 Solving a word problem with two unknowns using a linear equation
 alge849 Additive property of inequality with integers
 alge856 Solving a two-step linear inequality: Problem type 2
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge963 Applying the quadratic formula: Decimal answers
 alge214 Discriminant of a quadratic equation
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge875 Classifying slopes given graphs of lines
 alge637 Determining the slope of a line given its graph
 alge685 Finding slope given two points on the line
 alge196 Graphing a line through a given point with a given slope
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge194 Graphing a line given its equation in slope-intercept form
 alge070 Writing an equation of a line given the y -intercept and another point
 alge631 Finding the slope of a line given its equation
 scilog001 Evaluating a logarithmic expression
 scilog002 Solving an equation of the form $\log_b a = c$
 scilog003 Basic properties of logarithms
 scilog004 Expanding a logarithmic expression: Problem type 1
 scilog005 Expanding a logarithmic expression: Problem type 2
 scilog006 Writing an expression as a single logarithm
 scilog007 Converting between common logarithmic and exponential equations
 pcalc799 Converting between natural logarithmic and exponential equations

pcalc919 Evaluating an exponential function with base e that models a real-world situation
pcalc804 Solving a multi-step equation involving natural logarithms
pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic
pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^{x-b} + c$
geom001 Finding an angle measure of a triangle given two angles
geom908 Finding an angle measure for a triangle with an extended side
geom309 Finding an angle measure for a triangle sharing a side with another triangle
geom044 Pythagorean Theorem
pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
pcalc607 Using a trigonometric ratio to find a side length in a right triangle
pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
pcalc642 Solving a right triangle
vector002 Finding the magnitude and direction of a vector given its graph
vector005 Finding the components of a vector given its graph
vector006 Finding the component of a vector along another vector

Science Toolbox

arith082 Multiplication of a decimal by a power of ten
arith083 Division of a decimal by a power of ten
scinot101 Converting between decimal numbers and numbers written in scientific notation
scinot102 Multiplying and dividing numbers written in scientific notation
scinot103 Calculating positive powers of scientific notation
scinot007 Finding negative powers of scientific notation
unit043 Knowing the dimension of common simple SI units
unit044 Understanding the purpose of SI prefixes
unit045 Knowing the value of an SI prefix as a power of 10
unit014 Interconversion of prefixed and base SI units
unit015 Interconversion of prefixed SI units
unit047 Interconverting compound SI units
unit038 Interconverting derived SI units
unit032 Interconverting temperatures in Celsius and Kelvins
unit033 Interconverting temperatures in Celsius and Fahrenheit
unit048 Addition and subtraction of measurements
unit049 Simplifying unit expressions
unit051 Multiplication and division of measurements
sigfig001 Counting significant digits
sigfig002 Rounding to a given significant digit
sigfig003 Counting significant digits when measurements are added or subtracted
sigfig004 Counting significant digits when measurements are multiplied or divided
sigfig005 Adding or subtracting and multiplying or dividing measurements
thermo002 Understanding how electrostatic potential energy scales with charge and separation

Big Idea 1: Elements and Atoms

atom015 Distinguishing elements and compounds
atom001 Names and symbols of important elements
stoich006 Counting the number of atoms in a formula unit
atom060 Writing a chemical formula given a molecular model
atom061 Writing a chemical formula given a chemical structure
stoich002 Using the Avogadro Number
stoich003 Calculating and using the molar mass of elements
stoich004 Calculating and using the molar mass of diatomic elements
stoich005 Calculating and using the molar mass of heterodiatomous compounds
stoich007 Finding mole ratios from chemical formulae
stoich008 Finding chemical formulae from a mole ratio

stoich009 Finding molar mass from chemical formulae
stoich010 Finding mass percent from chemical formulae
stoich011 Elemental analysis
stoich024 Finding a molecular formula from molar mass and elemental analysis
atom039 Identifying the parts of an atom
atom004 Isotopes
atom058 Finding atomic mass from isotope mass and natural abundance
atom063 Counting the number of protons and electrons in a neutral atom
atom006 Counting protons and electrons in atoms and atomic ions
atom029 Finding isotopic atoms
atom030 Finding isoelectronic atoms
atom048 Counting the electron shells in a neutral atom
atom031 Knowing the subshells of an electron shell
atom062 Counting valence electrons in a neutral atom
atom019 Counting valence electrons in an atomic ion
atom020 Drawing the Lewis dot diagram of a main group atom or common atomic ion
atom055 Deducing n and l from a subshell label
atom021 Deducing the allowed quantum numbers of an atomic electron
atom056 Deciding the relative energy of electron subshells
atom024 Calculating the capacity of electron subshells
atom057 Drawing a box diagram of the electron configuration of an atom
atom077 Interpreting the electron configuration of a neutral atom
atom073 Interpreting the electron configuration of a neutral atom in noble-gas notation
atom076 Writing the electron configuration of a neutral atom with s and p electrons only
atom075 Writing the electron configuration of a neutral atom with a filled d subshell
atom022 Writing the electron configuration of an atom using the Periodic Table
atom078 Writing the electron configuration of a first transition series atom
atom079 Interpreting an outer electron box diagram
atom080 Drawing the outer electron box diagram of a transition metal cation
atom067 Understanding the definitions of ionization energy and electron affinity
atom069 Deducing valence electron configuration from trends in successive ionization energies
atom025 Interpreting the electron configuration of an atom or atomic ion
atom026 Interpreting the electron configuration of an atom or atomic ion in noble-gas notation
atom027 Writing the electron configuration of an atom or atomic ion with s and p electrons only
atom032 Identifying the electron added or removed to form an ion from an s or p block atom
atom059 Identifying the electron added or removed to form an ion
atom023 Identifying quantum mechanics errors in electron configurations
atom051 Understanding the meaning of a de Broglie wavelength
atom052 Interpreting the radial probability distribution of an orbital
atom053 Interpreting the angular probability distribution of an orbital
atom054 Recognizing s and p orbitals
atom070 Ranking the screening efficacy of atomic orbitals
atom002 Reading a Periodic Table entry
atom042 Understanding periods and groups of the Periodic Table
atom003 Organization of the Periodic Table
atom005 Standard chemical and physical states of the elements
atom038 Using the Periodic Table to identify similar elements
atom065 Identifying s , p , d and f block elements
atom072 Deducing the block of an element from an electron configuration
atom066 Identifying elements with a similar valence electron configuration
atom081 Identifying transition metal cations with a given number of d electrons
atom082 Deducing the number of d electrons and unpaired spins in a transition metal cation
atom083 Understanding the exceptional electron configurations in the first transition series
atom012 Predicting the ions formed by common main-group elements
atom068 Predicting the relative ionization energy of elements
atom046 Understanding periodic trends in atomic size
atom047 Understanding periodic trends in atomic ionizability
atom071 Understanding periodic trends in effective nuclear charge
ichem001 Understanding words that describe where transition metals lie in the Periodic Table
ichem002 Predicting the relative atomic radius of a transition metal atom
ichem003 Predicting the relative density of a transition metal
ichem004 Predicting the relative melting point of a transition metal

ichem005 Predicting the highest common oxidation state of a metal in the first transition series
atom041 Understanding the organization of the electromagnetic spectrum
atom040 Interconverting the wavelength and frequency of electromagnetic radiation
atom043 Interconverting wavelength, frequency and photon energy
atom044 Calculating the wavelength of a spectral line from an energy diagram
atom049 Predicting the qualitative features of a line spectrum
atom050 Calculating the wavelength of a line in the spectrum of hydrogen
atom034 Distinguishing chemical and physical change
stoich012 Stoichiometric coefficients
stoich016 Identifying the limiting reactant in a drawing of a mixture

Big Idea 2: Properties of Matter

atom016 Distinguishing compounds and mixtures
atom033 Distinguishing solid, liquid and gas phases of a pure substance
thermo040 Using a phase diagram to predict phase at a given temperature and pressure
thermo041 Labeling a typical simple phase diagram
thermo042 Using a phase diagram to find a phase transition temperature or pressure
thermo044 Sketching a described thermodynamic change on a phase diagram
pchem001 Identifying important physical properties of liquids
pchem002 Understanding consequences of important physical properties of liquids
thermo019 Relating vapor pressure to vaporization
thermo046 Identifying phase transitions on a heating curve
thermo047 Interpreting a heating curve
thermo045 Drawing a heating curve
gas001 Interconverting pressure and force
gas019 Interconverting atmospheres and kilopascals
gas020 Interconverting atmospheres and torr
gas003 Understanding pressure equilibrium and atmospheric pressure
gas004 Understanding Boyle's Law
gas005 Solving applications of Boyle's Law
gas006 Using Charles's Law
gas007 Using the ideal equation of state
gas008 Interconverting molar mass and density of ideal gases
gas009 Calculating mole fraction in a gas mixture
gas010 Calculating partial pressure in a gas mixture
gas012 Understanding how average molecular kinetic energy scales with temperature
gas013 Understanding how average molecular speed scales with temperature and molar mass
gas014 Interpreting a graph of molecular speed distribution
gas018 Using relative effusion rates to find an unknown molar mass
soln001 Predicting the products of dissolution
soln020 Understanding how solubility varies with temperature and pressure
soln011 Applying like dissolves like
stoich020 Calculating molarity using solute moles
stoich028 Using molarity to find solute moles and solution volume
stoich029 Calculating molarity using solute mass
stoich030 Using molarity to find solute mass and solution volume
stoich021 Dilution
soln012 Calculating solubility
soln019 Using solubility to calculate solute mass or solution volume
soln010 Using Henry's Law to calculate the solubility of a gas
stoich019 Calculating mass concentration
stoich026 Using mass concentration to find solute mass and solution volume
stoich022 Calculating mass percent composition
stoich032 Using mass percent composition to find solution volume
soln006 Calculating molality
soln008 Calculating mole fraction
soln005 Predicting relative boiling point elevations and freezing point depressions
soln021 Using the K_f and K_b equations
soln007 Using osmotic pressure to find molar mass

soln009 Using Raoult's Law to calculate the vapor pressure of a component
atom045 Understanding the prefixes used in naming binary compounds
atom014 Naming binary covalent compounds
atom017 Predicting whether a compound is ionic or molecular
atom007 Predicting the formula of binary ionic compounds
atom008 Naming binary ionic compounds
atom028 Deducing the ions in a binary ionic compound from its empirical formula
atom064 Predicting ionic compounds formed by two elements
atom013 Predicting and naming ionic compounds formed by two elements
atom036 Identifying common polyatomic ions
atom011 Predicting the formula of ionic compounds with common polyatomic ions
atom009 Naming ionic compounds with common polyatomic ions
atom035 Deducing the ions in a polyatomic ionic compound from its empirical formula
atom037 Identifying oxoanions
atom010 Naming ionic compounds with common oxoanions
ichem027 Predicting the relative stability of ionic crystals from a sketch
ichem028 Predicting the relative lattice energy of binary ionic compounds
thermo055 Interpreting a Born-Haber cycle
ichem026 Drawing the unit cell of a 2D lattice
ichem029 Counting the atoms in a unit cell
ichem030 Recognizing and naming close-packed crystal lattices
ichem031 Recognizing and naming lattices with cubic unit cells
ichem032 Calculating key distances in the fcc unit cell
ichem033 Calculating key distances in the bcc unit cell
ichem034 Finding an atomic radius from an fcc or bcc lattice constant
ichem035 Finding density from an fcc or bcc lattice constant

Big Idea 3: Transformations of Matter

stoich013 Balancing chemical equations with noninterfering coefficients
stoich014 Balancing chemical equations with interfering coefficients
rxn002 Writing a chemical equation from a description of the reaction
rxn004 Writing the net equation for a sequence of reactions
soln002 Writing net ionic equations
stoich015 Solving for a reactant using a chemical equation
stoich017 Limiting reactants
stoich041 Theoretical yield of chemical reactions
stoich018 Percent yield of chemical reactions
gas011 Solving for a gaseous reactant
stoich037 Solving for a reactant in solution
stoich038 Solving limiting reactant problems in solution
rxn001 Identifying combination, decomposition, single and double displacement reactions
rxn006 Identifying precipitation, combustion and acid-base reactions
soln003 Predicting precipitation
acid002 Identifying acids and bases by their chemical formula
acid001 Identifying acids and bases by their reaction with water
acid011 Predicting the products of a neutralization reaction
acid003 Naming inorganic acids
acid004 Deducing the formulae of inorganic acids from their names
acid006 Recognizing common acids and bases
acid005 Naming acid salts
acid008 Identifying Bronsted-Lowry acids and bases
acid009 Finding the conjugate of an acid or base
acid010 Predicting the products of the reaction of a strong acid with water
acid032 Predicting the qualitative acid-base properties of salts
acid044 Predicting the relative acidity of binary acids
acid045 Understanding the effect of induction on acidity
acid046 Predicting the qualitative acid-base properties of metal cations
acid047 Identifying Lewis acids and bases in reactions
acid049 Predicting the acid-base properties of a binary oxide in water

ichem006 Predicting the reaction of a transition metal with a strong acid
redox001 Assigning oxidation numbers
redox002 Recognizing reduction and oxidation
redox003 Identifying oxidizing and reducing agents
redox004 Identifying oxidized and reduced reactants in a metal-nonmetal reaction
redox005 Identifying oxidized and reduced reactants in a single-displacement reaction
redox011 Predicting whether simple electrochemical reactions happen
redox006 Writing a simple half-reaction from its description
redox007 Writing the half-reactions of a metal-nonmetal reaction
redox008 Writing the half-reactions of a single-displacement reaction
redox009 Writing and balancing complex half-reactions in acidic solution
redox010 Writing and balancing complex half-reactions in basic solution
redox013 Balancing a complex redox equation in acidic or basic solution
redox014 Writing the half-reactions of a complex redox reaction in acidic or basic solution
redox012 Designing a galvanic cell from a single-displacement redox reaction
redox016 Designing a galvanic cell from two half-reactions
redox017 Analyzing a galvanic cell
redox018 Picking a reduction or oxidation that will make a galvanic cell work
redox019 Ranking the strength of oxidizing and reducing agents using standard reduction potentials
redox020 Calculating standard reaction free energy from standard reduction potentials
redox026 Recognizing consistency among equilibrium constant, free energy, and cell potential
redox021 Using the Nernst equation to calculate nonstandard cell voltage
redox022 Using the relationship between charge, current and time
redox023 Using the Faraday constant
redox024 Analyzing the electrolysis of molten salt
redox025 Calculating the mass of an electrolysis product from the applied current

Big Idea 4: Chemical Kinetics

equi012 Calculating the reaction rate of one reactant from that of another
equi032 Calculating average and instantaneous reaction rate from a graph of concentration versus time
equi009 Predicting how reaction rate varies with pressure, concentration and temperature
equi019 Using a rate law
equi020 Using reactant reaction order to predict changes in initial rate
equi021 Deducing a rate law from initial reaction rate data
equi029 Deducing a rate law from the change in concentration over time
equi023 Calculating the change in concentration after a whole number of half-lives of a first-order reaction
equi030 Finding half life and rate constant from a graph of concentration versus time
equi022 Using an integrated rate law for a first-order reaction
equi027 Using a second-order integrated rate law to find concentration change
equi028 Using first- and second-order integrated rate laws
gas017 Understanding how molecular collision rate scales with temperature and volume
equi033 Identifying the molecularity of an elementary reaction
equi010 Interpreting a reaction energy diagram
equi011 Relating activation energy to reaction rate
equi024 Understanding the qualitative predictions of the Arrhenius equation
equi025 Using the Arrhenius equation to calculate k at one temperature from k at another
equi026 Using the Arrhenius equation to calculate E_a from k versus T data
equi034 Identifying intermediates in a reaction mechanism
equi035 Writing a plausible missing step for a simple reaction mechanism
equi040 Deducing information about reaction mechanisms from a reaction energy diagram
equi036 Writing the rate law of an elementary reaction
equi037 Writing the rate law implied by a simple mechanism with an initial slow step
equi038 Expressing the concentration of an intermediate in terms of the concentration of reactants
equi039 Writing the rate law implied by a simple mechanism
equi013 Drawing the reaction energy diagram of a catalyzed reaction

Big Idea 5: Thermodynamics

thermo001 Understanding how kinetic energy scales with mass and speed
thermo051 Calculating kinetic energy
gas015 Predicting how molecular speed distribution changes with temperature and molar mass
gas016 Calculating average molecular speed
thermo003 Using conservation of energy to predict the qualitative exchange of kinetic and potential energy
thermo005 Calculating pressure-volume work
thermo006 Understanding the definitions of heat and work
thermo007 Understanding the definition of enthalpy
thermo008 Interconverting calories and joules
thermo011 Calculating specific heat capacity
thermo009 Using specific heat capacity to find heat
thermo010 Using specific heat capacity to find temperature change
thermo013 Calculating molar heat capacity
thermo017 Using heat of fusion or vaporization to find the heat needed to melt or boil a substance
thermo052 Understanding the connection between vapor pressure, boiling point, and enthalpy of vaporization
thermo053 Calculating vapor pressure from boiling point and enthalpy of vaporization
thermo054 Calculating enthalpy of vaporization from vapor pressure
thermo020 Using the general properties of reaction enthalpy
thermo014 Calculating the heat of reaction from molar reaction enthalpy and the mass of a reactant
thermo021 Using Hess's Law to calculate net reaction enthalpy
thermo022 Writing a standard formation reaction
thermo023 Calculating a molar heat of reaction from formation enthalpies
thermo043 Calculating the heat of reaction from bond energies and Lewis structures
thermo018 Calculating the heat of reaction from bond energies
soln013 Understanding conceptual components of the enthalpy of solution
thermo024 Calculating entropy change from reversible heat flow
thermo026 Calculating absolute entropy using the Boltzmann hypothesis
thermo027 Calculating entropy change using the Boltzmann hypothesis
thermo028 Predicting qualitatively how entropy changes with temperature and volume
thermo029 Predicting qualitatively how entropy changes with mixing and separation
thermo030 Qualitatively predicting reaction entropy
thermo031 Calculating reaction entropy using the standard molar entropies of reactants
thermo032 Using the general properties of Gibbs free energy
thermo033 Calculating dG from dH and dS
thermo034 Using the conditions of spontaneity to deduce the signs of ΔH and ΔS
thermo035 Calculating standard reaction free energy from standard free energies of formation
thermo037 Estimating a phase transition temperature from standard thermodynamic data

Big Idea 6: Chemical Equilibrium

equi003 Understanding that no reaction goes to 100%
equi004 Predicting relative forward and reverse rates of reaction in a dynamic equilibrium
equi041 Writing a concentration equilibrium constant expression
equi042 Writing a pressure equilibrium constant expression
equi046 Calculating an equilibrium constant from an equilibrium composition
equi045 Writing the concentration equilibrium expression for a heterogeneous equilibrium
equi044 Writing the pressure equilibrium expression for a heterogeneous equilibrium
equi043 Calculating an equilibrium constant from a heterogeneous equilibrium composition
equi008 Using an equilibrium constant to predict the direction of spontaneous reaction
equi015 Using the general properties of equilibrium constants
equi016 Setting up a reaction table
equi017 Calculating equilibrium composition from an equilibrium constant
equi005 Using Le Chatelier's Principle to predict the result of changing concentration or volume
equi006 Using Le Chatelier's Principle to predict the result of changing temperature
acid007 Understanding the difference between strong and weak acids
acid035 Identifying the major species in weak acid or weak base equilibria
acid026 Writing an acid dissociation constant expression
acid013 Interconverting hydronium and hydroxide concentration at 25°C
acid016 Interconverting pH and hydronium ion concentration
acid012 Interconverting pH and pOH at 25°C

acid018 Making qualitative estimates of pH change
acid019 Calculating the pH of a strong acid solution
acid020 Calculating the pH of a strong base solution
acid021 Diluting a strong acid solution to a given pH
acid022 Preparing a strong base solution with a given pH
acid027 Calculating the K_a of a weak acid from pH
acid028 Calculating the pH of a weak acid solution
acid029 Writing a base protonation constant expression
acid030 Calculating the pH of a weak base solution
acid031 Deriving K_b from K_a
acid042 Interconverting K_a and pK_a
acid048 Calculating the pH of a salt solution
acid036 Setting up a reaction table for a pH calculation with a common ion
acid037 Calculating the pH of a buffer
acid038 Calculating the composition of a buffer of a given pH
acid023 Determining the volume of base needed to titrate a given mass of acid
acid024 Determining the molar mass of an acid by titration
acid025 Standardizing a base solution by titration
acid040 Calculating the pH of a weak acid titrated with a strong base
acid041 Calculating the pH of a weak base titrated with a strong acid
acid043 Calculating the pH at equivalence of a titration
soln014 Writing a solubility product (K_{sp}) expression
soln015 Using K_{sp} to calculate the solubility of a compound
soln016 Using the solubility of a compound to calculate K_{sp}
soln017 Calculating the solubility of an ionic compound when a common ion is present
soln018 Understanding the effect of pH on the solubility of ionic compounds
thermo038 Calculating reaction free energy under nonstandard conditions
thermo039 Using reaction free energy to predict equilibrium composition

Advanced Material

nchem001 Interpreting the symbol for a nuclide
nchem002 Writing the symbols in a nuclear chemical equation
nchem003 Balancing a nuclear chemical equation
nchem006 Writing the equation for a typical radioactive decay
nchem008 Calculating the energy change in a nuclear reaction from the mass change
nchem004 Knowing the properties of the common types of nuclear radiation
nchem005 Understanding the common modes of radioactive decay
nchem009 Understanding radioactive half life
nchem010 Interconverting amount of radioactive decay and half life
nchem011 Calculating radioactive activity from half life
nchem012 Using isotope ratios to radiodate
nchem013 Using activity to radiodate
ichem008 Writing the formula of a metal complex from its description
ichem009 Recognizing typical metal ligands
ichem010 Determining the oxidation state of the metal in a complex ion
ichem011 Naming complex cations with one type of ligand
ichem012 Naming complex anions with one type of ligand
ichem013 Naming complex ions
ichem014 Determining the oxidation state of the metal in a coordination compound
ichem015 Naming coordination compounds
ichem016 Determining the coordination number of a metal in a complex
ichem017 Understanding the connection between geometry and coordination number of a metal complex
ichem018 Distinguishing isomers and alternate views of a metal complex
ichem019 Drawing an isomer of a metal complex
ichem020 Drawing cis and trans isomers of a metal complex
ichem023 Adding electrons to a crystal field theory energy level diagram
ichem024 Predicting color and magnetic properties from a crystal field theory energy level diagram
ichem025 Drawing a crystal field theory energy level diagram
ochem001 Identifying organic compounds

ochem003 Interpreting condensed chemical structures
ochem004 Identifying organic functional groups
ochem005 Identifying the main chain of branched alkanes
ochem006 Numbering the main chain of branched alkanes
ochem007 Interpreting condensed chemical structures with benzene rings
ochem008 Naming normal alkanes
ochem009 Using family suffixes to name organic compounds
ochem010 Naming the parent hydrocarbon of branched alkanes
ochem011 Naming alkyl side chains
ochem012 Naming branched alkanes
ochem013 Using multiplying affixes in the names of branched alkanes
ochem016 Naming unbranched alkenes and alkynes
ochem017 Naming alkenes and alkynes
ochem018 Naming alkyl halides
ochem019 Naming alcohols
ochem020 Naming aldehydes and acids
ochem021 Naming benzene derivatives

B.78 AP Chemistry (First Semester)

Math and Algebra

arith231 Integer multiplication and division
arith067 Simplifying a fraction
arith212 Equivalent fractions
arith105 Signed fraction multiplication: Advanced
arith220 Decimal place value: Hundreds to ten thousandths
arith221 Rounding decimals
arith234 Signed decimal addition and subtraction with 3 numbers
arith030 Finding a percentage of a whole number without a calculator: Basic
arith047 Evaluating expressions with exponents: Problem type 1
arith029 Ordering numbers with positive exponents
arith024 Ordering numbers with negative exponents
alge024 Introduction to the product rule of exponents
alge026 Quotient of expressions involving exponents
alge004 Evaluating a quadratic expression: Integers
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge607 Combining like terms: Integer coefficients
alge663 Combining like terms: Advanced
alge160 Algebraic symbol manipulation
alge027 Power rules with positive exponents
alge025 Power of a power rule with negative exponents
alge029 Simplifying a sum or difference of three univariate polynomials
alge030 Product rule with positive exponents: Multivariate
alge033 Multiplying binomials with leading coefficients of 1
alge032 Squaring a binomial: Univariate
alge180 Multiplication involving binomials and trinomials in two variables
alge053 Multiplying rational expressions involving multivariate monomials
alge006 Solving a two-step equation with integers
alge200 Solving an equation to find the value of an expression
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
alge214 Discriminant of a quadratic equation
alge095 Applying the quadratic formula: Exact answers
alge194 Graphing a line given its equation in slope-intercept form
alge196 Graphing a line through a given point with a given slope

alge637 Determining the slope of a line given its graph
alge210 Finding x- and y-intercepts of a line given the equation: Advanced
alge070 Writing an equation of a line given the y-intercept and another point
unit041 Volume of a cube or a rectangular prism
geom802 Circumference and area of a circle
unit841 Volume of a sphere
unit029 Volume of a cylinder

Measurement

arith082 Multiplication of a decimal by a power of ten
arith083 Division of a decimal by a power of ten
scinot101 Converting between decimal numbers and numbers written in scientific notation
scinot102 Multiplying and dividing numbers written in scientific notation
scinot103 Calculating positive powers of scientific notation
scinot007 Finding negative powers of scientific notation
unit040 Identifying SI units
unit014 Interconversion of prefixed and base SI units
unit015 Interconversion of prefixed SI units
unit016 Interconverting compound SI units
unit038 Interconverting derived SI units
unit032 Interconverting temperatures in Celsius and Kelvins
unit033 Interconverting temperatures in Celsius and Fahrenheit
unit017 Adding and subtracting simple units
unit018 Multiplying and dividing simple units
unit019 Powers and roots of powers of simple units
unit020 Forming compound units
unit021 Adding and subtracting compound units
unit022 Multiplying and dividing compound units
unit023 Powers and roots of compound units
sigfig001 Counting significant digits
sigfig002 Rounding to a given significant digit
sigfig003 Counting significant digits when measurements are added or subtracted
sigfig004 Counting significant digits when measurements are multiplied or divided
sigfig005 Adding or subtracting and multiplying or dividing measurements

Matter

atom015 Distinguishing elements and compounds
atom016 Distinguishing compounds and mixtures
atom034 Distinguishing chemical and physical change
atom033 Distinguishing solid, liquid and gas phases of a pure substance
atom001 Names and symbols of important elements
atom002 Reading a Periodic Table entry
atom042 Understanding periods and groups of the Periodic Table
atom003 Organization of the Periodic Table
atom005 Standard chemical and physical states of the elements
atom038 Using the Periodic Table to identify similar elements

Atoms, Ions and Molecules

atom039 Identifying the parts of an atom
atom006 Counting protons and electrons in atoms and atomic ions
atom029 Finding isotopic atoms
atom030 Finding isoelectronic atoms

atom012 Predicting the ions formed by common main-group elements
atom004 Isotopes
atom019 Counting valence electrons in an atomic ion
atom020 Drawing the Lewis dot diagram of a main group atom or common atomic ion
atom048 Counting the electron shells in a neutral atom
stoich006 Counting the number of atoms in a formula unit
atom045 Understanding the prefixes used in naming binary compounds
atom014 Naming binary covalent compounds
ochem001 Identifying organic compounds
ochem008 Naming normal alkanes
atom017 Predicting whether a compound is ionic or molecular
atom007 Predicting the formula of binary ionic compounds
atom008 Naming binary ionic compounds
atom028 Deducing the ions in a binary ionic compound from its empirical formula
atom013 Predicting and naming ionic compounds formed by two elements
atom036 Identifying common polyatomic ions
atom011 Predicting the formula of ionic compounds with common polyatomic ions
atom009 Naming ionic compounds with common polyatomic ions
atom035 Deducing the ions in a polyatomic ionic compound from its empirical formula
atom037 Identifying oxoanions
atom010 Naming ionic compounds with common oxoanions

Stoichiometry

stoich002 Using the Avogadro Number
stoich003 Calculating and using the molar mass of elements
stoich004 Calculating and using the molar mass of diatomic elements
stoich005 Calculating and using the molar mass of heterodiatomc compounds
stoich007 Finding mole ratios from chemical formulae
stoich008 Finding chemical formulae from a mole ratio
stoich009 Finding molar mass from chemical formulae
stoich010 Finding mass percent from chemical formulae
stoich011 Elemental analysis
rxn002 Writing a chemical equation from a description of the reaction
rxn001 Identifying combination, decomposition, single and double displacement reactions
stoich012 Stoichiometric coefficients
stoich013 Balancing chemical equations with noninterfering coefficients
stoich014 Balancing chemical equations with interfering coefficients
rxn004 Writing the net equation for a sequence of reactions
stoich015 Solving for a reactant using a chemical equation
stoich017 Limiting reactants
stoich018 Percent yield of chemical reactions
stoich020 Calculating molarity using solute moles
stoich028 Using molarity to find solute moles and solution volume
stoich029 Calculating molarity using solute mass
stoich030 Using molarity to find solute mass and solution volume
stoich021 Dilution
stoich037 Solving for a reactant in solution
stoich038 Solving limiting reactant problems in solution
stoich022 Calculating mass percent composition
stoich032 Using mass percent composition to find solution volume
soln006 Calculating molality
soln008 Calculating mole fraction

Simple Reactions

soln001 Predicting the products of dissolution
soln002 Writing net ionic equations

soln003 Predicting precipitation
rxn006 Identifying precipitation, combustion and acid-base reactions
acid002 Identifying acids and bases by their chemical formula
acid011 Predicting the products of a neutralization reaction
acid001 Identifying acids and bases by their reaction with water
acid007 Understanding the difference between strong and weak acids
acid008 Identifying Bronsted-Lowry acids and bases
acid009 Finding the conjugate of an acid or base
acid010 Predicting the products of the reaction of a strong acid with water
acid003 Naming inorganic acids
acid004 Deducing the formulae of inorganic acids from their names
acid006 Recognizing common acids and bases
redox001 Assigning oxidation numbers
redox002 Recognizing reduction and oxidation
redox003 Identifying oxidizing and reducing agents
redox004 Identifying oxidized and reduced reactants in a metal-nonmetal reaction
redox005 Identifying oxidized and reduced reactants in a single-displacement reaction
redox011 Predicting whether simple electrochemical reactions happen
redox006 Writing a simple half-reaction from its description
redox007 Writing the half-reactions of a metal-nonmetal reaction
redox008 Writing the half-reactions of a single-displacement reaction

Thermochemistry

thermo001 Understanding how kinetic energy scales with mass and speed
thermo002 Understanding how electrostatic potential energy scales with charge and separation
thermo003 Using conservation of energy to predict the qualitative exchange of kinetic and potential energy
thermo005 Calculating pressure-volume work
thermo006 Understanding the definitions of heat and work
thermo007 Understanding the definition of enthalpy
thermo008 Interconverting calories and joules
thermo011 Calculating specific heat capacity
thermo009 Using specific heat capacity to find heat
thermo010 Using specific heat capacity to find temperature change
thermo020 Using the general properties of reaction enthalpy
thermo014 Calculating the heat of reaction from molar reaction enthalpy and the mass of a reactant
thermo021 Using Hess's Law to calculate net reaction enthalpy
thermo022 Writing a standard formation reaction
thermo023 Calculating a molar heat of reaction from formation enthalpies
thermo018 Calculating the heat of reaction from bond energies

Electronic Structure

atom051 Understanding the meaning of a de Broglie wavelength
atom052 Interpreting the radial probability distribution of an orbital
atom053 Interpreting the angular probability distribution of an orbital
atom054 Recognizing s and p orbitals
atom055 Deducing n and l from a subshell label
atom056 Deciding the relative energy of electron subshells
atom057 Drawing a box diagram of the electron configuration of an atom
atom021 Deducing the allowed quantum numbers of an atomic electron
atom024 Calculating the capacity of electron subshells
atom031 Knowing the subshells of an electron shell
atom025 Interpreting the electron configuration of an atom or atomic ion
atom026 Interpreting the electron configuration of an atom or atomic ion in noble-gas notation
atom027 Writing the electron configuration of an atom or atomic ion with s and p electrons only
atom046 Understanding periodic trends in atomic size
atom047 Understanding periodic trends in atomic ionizability

atom041 Understanding the organization of the electromagnetic spectrum
atom040 Interconverting the wavelength and frequency of electromagnetic radiation
atom043 Interconverting wavelength, frequency and photon energy
atom044 Calculating the wavelength of a spectral line from an energy diagram
atom049 Predicting the qualitative features of a line spectrum
atom050 Calculating the wavelength of a line in the spectrum of hydrogen

Gases

gas001 Interconverting pressure and force
gas002 Measuring pressure in non-SI units
gas003 Understanding pressure equilibrium and atmospheric pressure
gas004 Understanding Boyle's Law
gas005 Solving applications of Boyle's Law
gas006 Using Charles's Law
gas007 Using the ideal equation of state
gas008 Interconverting molar mass and density of ideal gases
gas009 Calculating mole fraction in a gas mixture
gas010 Calculating partial pressure in a gas mixture
gas011 Solving for a gaseous reactant
gas012 Understanding how average molecular kinetic energy scales with temperature
gas013 Understanding how average molecular speed scales with temperature and molar mass
gas014 Interpreting a graph of molecular speed distribution
gas015 Predicting how molecular speed distribution changes with temperature and molar mass
gas016 Calculating average molecular speed
gas017 Understanding how molecular collision rate scales with temperature and volume
gas018 Using relative effusion rates to find an unknown molar mass

Advanced Material

thermo017 Using heat of fusion or vaporization to find the heat needed to melt or boil a substance
thermo019 Relating vapor pressure to vaporization
thermo040 Using a phase diagram to predict phase at a given temperature and pressure
thermo041 Labeling a typical simple phase diagram
thermo042 Using a phase diagram to find a phase transition temperature or pressure
soln013 Understanding conceptual components of the enthalpy of solution
soln010 Using Henry's Law to calculate the solubility of a gas
soln005 Predicting relative boiling point elevations and freezing point depressions
soln007 Using osmotic pressure to find molar mass
soln009 Using Raoult's Law to calculate the vapor pressure of a component
equi009 Predicting how reaction rate varies with pressure, concentration and temperature
equi012 Calculating the reaction rate of one reactant from that of another
equi032 Calculating average and instantaneous reaction rate from a graph of concentration versus time
equi019 Using a rate law
equi020 Using reactant reaction order to predict changes in initial rate
equi021 Deducing a rate law from initial reaction rate data
equi023 Calculating the change in concentration after a whole number of half-lives of a first-order reaction
equi022 Using an integrated rate law for a first-order reaction
equi027 Using a second-order integrated rate law to find concentration change
equi028 Using first- and second-order integrated rate laws
equi029 Deducing a rate law from the change in concentration over time
equi030 Finding half life and rate constant from a graph of concentration versus time
equi010 Interpreting a reaction energy diagram
equi011 Relating activation energy to reaction rate
equi013 Drawing the reaction energy diagram of a catalyzed reaction
equi024 Understanding the qualitative predictions of the Arrhenius equation
equi025 Using the Arrhenius equation to calculate k at one temperature from k at another
equi026 Using the Arrhenius equation to calculate E_a from k versus T data

equi003 Understanding that no reaction goes to 100%
equi004 Predicting relative forward and reverse rates of reaction in a dynamic equilibrium
equi005 Using Le Chatelier's Principle to predict the result of changing concentration or volume
equi006 Using Le Chatelier's Principle to predict the result of changing temperature
equi007 Writing an equilibrium constant expression
equi014 Writing an equilibrium constant expression for a heterogeneous equilibrium
equi008 Using an equilibrium constant to predict the direction of spontaneous reaction
equi015 Using the general properties of equilibrium constants
equi016 Setting up a reaction table
equi017 Calculating equilibrium composition from an equilibrium constant
acid032 Predicting the qualitative acid-base properties of salts
acid005 Naming acid salts
acid016 Interconverting pH and hydronium ion concentration
acid017 Using the ion product of water
acid018 Making qualitative estimates of pH change
acid019 Calculating the pH of a strong acid solution
acid020 Calculating the pH of a strong base solution
acid021 Diluting a strong acid solution to a given pH
acid022 Preparing a strong base solution with a given pH
acid026 Writing an acid dissociation constant expression
acid027 Calculating the K_a of a weak acid from pH
acid028 Calculating the pH of a weak acid solution
acid029 Writing a base protonation constant expression
acid030 Calculating the pH of a weak base solution
acid031 Deriving K_b from K_a
acid042 Interconverting K_a and pK_a
acid048 Calculating the pH of a salt solution
acid035 Identifying the major species in weak acid or weak base equilibria
acid036 Setting up a reaction table for a pH calculation with a common ion
acid037 Calculating the pH of a buffer
acid038 Calculating the composition of a buffer of a given pH
acid023 Determining the volume of base needed to titrate a given mass of acid
acid024 Determining the molar mass of an acid by titration
acid025 Standardizing a base solution by titration
acid040 Calculating the pH of a weak acid titrated with a strong base
acid041 Calculating the pH of a weak base titrated with a strong acid
acid043 Calculating the pH at equivalence of a titration
soln014 Writing a solubility product (K_{sp}) expression
soln015 Using K_{sp} to calculate the solubility of a compound
soln016 Using the solubility of a compound to calculate K_{sp}
soln017 Calculating the solubility of an ionic compound when a common ion is present
soln018 Understanding the effect of pH on the solubility of ionic compounds
thermo024 Calculating entropy change from reversible heat flow
thermo026 Calculating absolute entropy using the Boltzmann hypothesis
thermo027 Calculating entropy change using the Boltzmann hypothesis
thermo028 Predicting qualitatively how entropy changes with temperature and volume
thermo029 Predicting qualitatively how entropy changes with mixing and separation
thermo030 Qualitatively predicting reaction entropy
thermo031 Calculating reaction entropy using the standard molar entropies of reactants
thermo032 Using the general properties of Gibbs free energy
thermo033 Calculating dG from dH and dS
thermo034 Using the conditions of spontaneity to deduce the signs of ΔH and ΔS
thermo035 Calculating standard reaction free energy from standard free energies of formation
thermo036 Predicting how equilibrium shifts with temperature change
thermo037 Estimating a phase transition temperature from standard thermodynamic data
thermo038 Calculating reaction free energy under nonstandard conditions
thermo039 Using reaction free energy to predict equilibrium composition
redox009 Writing and balancing complex half-reactions in acidic solution
redox010 Writing and balancing complex half-reactions in basic solution
redox013 Balancing a complex redox equation in acidic or basic solution
redox014 Writing the half-reactions of a complex redox reaction in acidic or basic solution
redox012 Designing a galvanic cell from a single-displacement redox reaction

redox016 Designing a galvanic cell from two half-reactions
redox017 Analyzing a galvanic cell
redox018 Picking a reduction or oxidation that will make a galvanic cell work
redox019 Ranking the strength of oxidizing and reducing agents using standard reduction potentials
redox020 Calculating standard reaction free energy from standard reduction potentials
redox021 Using the Nernst equation to calculate nonstandard cell voltage
nchem001 Interpreting the symbol for a nuclide
nchem002 Writing the symbols in a nuclear chemical equation
nchem003 Balancing a nuclear chemical equation
nchem004 Knowing the properties of the common types of nuclear radiation
nchem005 Understanding the common modes of radioactive decay
nchem006 Writing the equation for a typical radioactive decay
nchem008 Calculating the energy change in a nuclear reaction from the mass change
nchem009 Understanding radioactive half life
nchem010 Interconverting amount of radioactive decay and half life
nchem011 Calculating radioactive activity from half life
nchem012 Using isotope ratios to radiodate
nchem013 Using activity to radiodate
ochem003 Interpreting condensed chemical structures
ochem004 Identifying organic functional groups
ochem005 Identifying the main chain of branched alkanes
ochem006 Numbering the main chain of branched alkanes
ochem007 Interpreting condensed chemical structures with benzene rings
ochem009 Using family suffixes to name organic compounds
ochem010 Naming the parent hydrocarbon of branched alkanes
ochem011 Naming alkyl side chains
ochem012 Naming branched alkanes
ochem013 Using multiplying affixes in the names of branched alkanes
ochem016 Naming unbranched alkenes and alkynes
ochem017 Naming alkenes and alkynes
ochem018 Naming alkyl halides
ochem019 Naming alcohols
ochem020 Naming aldehydes and acids
ochem021 Naming benzene derivatives

B.79 AP Chemistry (Second Semester)

Math and Algebra

arith231 Integer multiplication and division
arith067 Simplifying a fraction
arith212 Equivalent fractions
arith105 Signed fraction multiplication: Advanced
arith220 Decimal place value: Hundreds to ten thousandths
arith221 Rounding decimals
arith234 Signed decimal addition and subtraction with 3 numbers
arith030 Finding a percentage of a whole number without a calculator: Basic
arith047 Evaluating expressions with exponents: Problem type 1
arith029 Ordering numbers with positive exponents
arith024 Ordering numbers with negative exponents
alge024 Introduction to the product rule of exponents
alge026 Quotient of expressions involving exponents
alge004 Evaluating a quadratic expression: Integers
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge607 Combining like terms: Integer coefficients
alge663 Combining like terms: Advanced
alge160 Algebraic symbol manipulation

alge027 Power rules with positive exponents
alge025 Power of a power rule with negative exponents
alge029 Simplifying a sum or difference of three univariate polynomials
alge030 Product rule with positive exponents: Multivariate
alge033 Multiplying binomials with leading coefficients of 1
alge032 Squaring a binomial: Univariate
alge180 Multiplication involving binomials and trinomials in two variables
alge053 Multiplying rational expressions involving multivariate monomials
alge006 Solving a two-step equation with integers
alge200 Solving an equation to find the value of an expression
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
alge214 Discriminant of a quadratic equation
alge095 Applying the quadratic formula: Exact answers
alge194 Graphing a line given its equation in slope-intercept form
alge196 Graphing a line through a given point with a given slope
alge637 Determining the slope of a line given its graph
alge210 Finding x- and y-intercepts of a line given the equation: Advanced
alge070 Writing an equation of a line given the y-intercept and another point
unit041 Volume of a cube or a rectangular prism
geom802 Circumference and area of a circle
unit841 Volume of a sphere
unit029 Volume of a cylinder
arith082 Multiplication of a decimal by a power of ten
arith083 Division of a decimal by a power of ten
scinot101 Converting between decimal numbers and numbers written in scientific notation
scinot102 Multiplying and dividing numbers written in scientific notation
scinot103 Calculating positive powers of scientific notation
scinot007 Finding negative powers of scientific notation

Measurement and Matter

unit040 Identifying SI units
unit014 Interconversion of prefixed and base SI units
unit015 Interconversion of prefixed SI units
unit016 Interconverting compound SI units
unit038 Interconverting derived SI units
unit032 Interconverting temperatures in Celsius and Kelvins
unit033 Interconverting temperatures in Celsius and Fahrenheit
unit017 Adding and subtracting simple units
unit018 Multiplying and dividing simple units
unit019 Powers and roots of powers of simple units
unit020 Forming compound units
unit021 Adding and subtracting compound units
unit022 Multiplying and dividing compound units
unit023 Powers and roots of compound units
sigfig001 Counting significant digits
sigfig002 Rounding to a given significant digit
sigfig003 Counting significant digits when measurements are added or subtracted
sigfig004 Counting significant digits when measurements are multiplied or divided
sigfig005 Adding or subtracting and multiplying or dividing measurements
atom015 Distinguishing elements and compounds
atom016 Distinguishing compounds and mixtures
atom034 Distinguishing chemical and physical change
atom033 Distinguishing solid, liquid and gas phases of a pure substance
atom001 Names and symbols of important elements
atom002 Reading a Periodic Table entry
atom042 Understanding periods and groups of the Periodic Table
atom003 Organization of the Periodic Table

atom005 Standard chemical and physical states of the elements
atom038 Using the Periodic Table to identify similar elements
atom039 Identifying the parts of an atom
atom006 Counting protons and electrons in atoms and atomic ions
atom029 Finding isoprotonic atoms
atom030 Finding isoelectronic atoms
atom012 Predicting the ions formed by common main-group elements
atom004 Isotopes
atom019 Counting valence electrons in an atomic ion
atom020 Drawing the Lewis dot diagram of a main group atom or common atomic ion
atom048 Counting the electron shells in a neutral atom
stoich006 Counting the number of atoms in a formula unit
atom045 Understanding the prefixes used in naming binary compounds
atom014 Naming binary covalent compounds
atom017 Predicting whether a compound is ionic or molecular
atom007 Predicting the formula of binary ionic compounds
atom008 Naming binary ionic compounds
atom028 Deducing the ions in a binary ionic compound from its empirical formula
atom013 Predicting and naming ionic compounds formed by two elements
atom036 Identifying common polyatomic ions
atom011 Predicting the formula of ionic compounds with common polyatomic ions
atom009 Naming ionic compounds with common polyatomic ions
atom035 Deducing the ions in a polyatomic ionic compound from its empirical formula
atom037 Identifying oxoanions
atom010 Naming ionic compounds with common oxoanions

Chemical Reactions

stoich002 Using the Avogadro Number
stoich003 Calculating and using the molar mass of elements
stoich004 Calculating and using the molar mass of diatomic elements
stoich005 Calculating and using the molar mass of heterodiatomc compounds
stoich007 Finding mole ratios from chemical formulae
stoich008 Finding chemical formulae from a mole ratio
stoich009 Finding molar mass from chemical formulae
stoich010 Finding mass percent from chemical formulae
stoich011 Elemental analysis
rxn002 Writing a chemical equation from a description of the reaction
rxn001 Identifying combination, decomposition, single and double displacement reactions
stoich012 Stoichiometric coefficients
stoich013 Balancing chemical equations with noninterfering coefficients
stoich014 Balancing chemical equations with interfering coefficients
rxn004 Writing the net equation for a sequence of reactions
stoich015 Solving for a reactant using a chemical equation
stoich017 Limiting reactants
stoich018 Percent yield of chemical reactions
stoich020 Calculating molarity using solute moles
stoich028 Using molarity to find solute moles and solution volume
stoich029 Calculating molarity using solute mass
stoich030 Using molarity to find solute mass and solution volume
stoich021 Dilution
stoich037 Solving for a reactant in solution
stoich038 Solving limiting reactant problems in solution
soln001 Predicting the products of dissolution
soln002 Writing net ionic equations
soln003 Predicting precipitation
rxn006 Identifying precipitation, combustion and acid-base reactions
acid002 Identifying acids and bases by their chemical formula
acid011 Predicting the products of a neutralization reaction
redox001 Assigning oxidation numbers

redox002 Recognizing reduction and oxidation
redox003 Identifying oxidizing and reducing agents
redox004 Identifying oxidized and reduced reactants in a metal-nonmetal reaction
redox005 Identifying oxidized and reduced reactants in a single-displacement reaction
redox011 Predicting whether simple electrochemical reactions happen
thermo001 Understanding how kinetic energy scales with mass and speed
thermo002 Understanding how electrostatic potential energy scales with charge and separation
thermo003 Using conservation of energy to predict the qualitative exchange of kinetic and potential energy
thermo005 Calculating pressure-volume work
thermo006 Understanding the definitions of heat and work
thermo007 Understanding the definition of enthalpy
thermo008 Interconverting calories and joules
thermo011 Calculating specific heat capacity
thermo009 Using specific heat capacity to find heat
thermo010 Using specific heat capacity to find temperature change
thermo020 Using the general properties of reaction enthalpy
thermo014 Calculating the heat of reaction from molar reaction enthalpy and the mass of a reactant
thermo021 Using Hess's Law to calculate net reaction enthalpy
thermo022 Writing a standard formation reaction
thermo023 Calculating a molar heat of reaction from formation enthalpies
thermo018 Calculating the heat of reaction from bond energies

Structure and Bonding

atom051 Understanding the meaning of a de Broglie wavelength
atom052 Interpreting the radial probability distribution of an orbital
atom053 Interpreting the angular probability distribution of an orbital
atom054 Recognizing s and p orbitals
atom055 Deducing n and l from a subshell label
atom056 Deciding the relative energy of electron subshells
atom057 Drawing a box diagram of the electron configuration of an atom
atom021 Deducing the allowed quantum numbers of an atomic electron
atom024 Calculating the capacity of electron subshells
atom031 Knowing the subshells of an electron shell
atom025 Interpreting the electron configuration of an atom or atomic ion
atom026 Interpreting the electron configuration of an atom or atomic ion in noble-gas notation
atom027 Writing the electron configuration of an atom or atomic ion with s and p electrons only
atom046 Understanding periodic trends in atomic size
atom047 Understanding periodic trends in atomic ionizability
atom041 Understanding the organization of the electromagnetic spectrum
atom040 Interconverting the wavelength and frequency of electromagnetic radiation
atom043 Interconverting wavelength, frequency and photon energy
atom044 Calculating the wavelength of a spectral line from an energy diagram
atom049 Predicting the qualitative features of a line spectrum
atom050 Calculating the wavelength of a line in the spectrum of hydrogen

Gases, Liquids and Solids

gas001 Interconverting pressure and force
gas002 Measuring pressure in non-SI units
gas003 Understanding pressure equilibrium and atmospheric pressure
gas004 Understanding Boyle's Law
gas005 Solving applications of Boyle's Law
gas006 Using Charles's Law
gas007 Using the ideal equation of state
gas008 Interconverting molar mass and density of ideal gases
gas009 Calculating mole fraction in a gas mixture
gas010 Calculating partial pressure in a gas mixture

gas011 Solving for a gaseous reactant
gas012 Understanding how average molecular kinetic energy scales with temperature
gas013 Understanding how average molecular speed scales with temperature and molar mass
gas014 Interpreting a graph of molecular speed distribution
gas015 Predicting how molecular speed distribution changes with temperature and molar mass
gas016 Calculating average molecular speed
gas017 Understanding how molecular collision rate scales with temperature and volume
gas018 Using relative effusion rates to find an unknown molar mass
thermo017 Using heat of fusion or vaporization to find the heat needed to melt or boil a substance
thermo019 Relating vapor pressure to vaporization
thermo040 Using a phase diagram to predict phase at a given temperature and pressure
thermo041 Labeling a typical simple phase diagram
thermo042 Using a phase diagram to find a phase transition temperature or pressure

Solutions

stoich022 Calculating mass percent composition
stoich032 Using mass percent composition to find solution volume
soln006 Calculating molality
soln008 Calculating mole fraction
soln013 Understanding conceptual components of the enthalpy of solution
soln010 Using Henry's Law to calculate the solubility of a gas
soln005 Predicting relative boiling point elevations and freezing point depressions
soln007 Using osmotic pressure to find molar mass
soln009 Using Raoult's Law to calculate the vapor pressure of a component

Kinetics and Equilibrium

equi009 Predicting how reaction rate varies with pressure, concentration and temperature
equi012 Calculating the reaction rate of one reactant from that of another
equi032 Calculating average and instantaneous reaction rate from a graph of concentration versus time
equi019 Using a rate law
equi020 Using reactant reaction order to predict changes in initial rate
equi021 Deducing a rate law from initial reaction rate data
equi023 Calculating the change in concentration after a whole number of half-lives of a first-order reaction
equi022 Using an integrated rate law for a first-order reaction
equi027 Using a second-order integrated rate law to find concentration change
equi028 Using first- and second-order integrated rate laws
equi029 Deducing a rate law from the change in concentration over time
equi030 Finding half life and rate constant from a graph of concentration versus time
equi010 Interpreting a reaction energy diagram
equi011 Relating activation energy to reaction rate
equi013 Drawing the reaction energy diagram of a catalyzed reaction
equi024 Understanding the qualitative predictions of the Arrhenius equation
equi025 Using the Arrhenius equation to calculate k at one temperature from k at another
equi026 Using the Arrhenius equation to calculate E_a from k versus T data
equi003 Understanding that no reaction goes to 100%
equi004 Predicting relative forward and reverse rates of reaction in a dynamic equilibrium
equi005 Using Le Chatelier's Principle to predict the result of changing concentration or volume
equi006 Using Le Chatelier's Principle to predict the result of changing temperature
equi007 Writing an equilibrium constant expression
equi014 Writing an equilibrium constant expression for a heterogeneous equilibrium
equi008 Using an equilibrium constant to predict the direction of spontaneous reaction
equi015 Using the general properties of equilibrium constants
equi016 Setting up a reaction table
equi017 Calculating equilibrium composition from an equilibrium constant

Acids and Bases

acid001 Identifying acids and bases by their reaction with water
acid007 Understanding the difference between strong and weak acids
acid008 Identifying Bronsted-Lowry acids and bases
acid009 Finding the conjugate of an acid or base
acid010 Predicting the products of the reaction of a strong acid with water
acid032 Predicting the qualitative acid-base properties of salts
acid003 Naming inorganic acids
acid004 Deducing the formulae of inorganic acids from their names
acid005 Naming acid salts
acid006 Recognizing common acids and bases
acid016 Interconverting pH and hydronium ion concentration
acid017 Using the ion product of water
acid018 Making qualitative estimates of pH change
acid019 Calculating the pH of a strong acid solution
acid020 Calculating the pH of a strong base solution
acid021 Diluting a strong acid solution to a given pH
acid022 Preparing a strong base solution with a given pH
acid026 Writing an acid dissociation constant expression
acid027 Calculating the K_a of a weak acid from pH
acid028 Calculating the pH of a weak acid solution
acid029 Writing a base protonation constant expression
acid030 Calculating the pH of a weak base solution
acid031 Deriving K_b from K_a
acid042 Interconverting K_a and pK_a
acid048 Calculating the pH of a salt solution
acid035 Identifying the major species in weak acid or weak base equilibria
acid036 Setting up a reaction table for a pH calculation with a common ion
acid037 Calculating the pH of a buffer
acid038 Calculating the composition of a buffer of a given pH
acid023 Determining the volume of base needed to titrate a given mass of acid
acid024 Determining the molar mass of an acid by titration
acid025 Standardizing a base solution by titration
acid040 Calculating the pH of a weak acid titrated with a strong base
acid041 Calculating the pH of a weak base titrated with a strong acid
acid043 Calculating the pH at equivalence of a titration
soln014 Writing a solubility product (K_{sp}) expression
soln015 Using K_{sp} to calculate the solubility of a compound
soln016 Using the solubility of a compound to calculate K_{sp}
soln017 Calculating the solubility of an ionic compound when a common ion is present
soln018 Understanding the effect of pH on the solubility of ionic compounds

Entropy and Free Energy

thermo024 Calculating entropy change from reversible heat flow
thermo026 Calculating absolute entropy using the Boltzmann hypothesis
thermo027 Calculating entropy change using the Boltzmann hypothesis
thermo028 Predicting qualitatively how entropy changes with temperature and volume
thermo029 Predicting qualitatively how entropy changes with mixing and separation
thermo030 Qualitatively predicting reaction entropy
thermo031 Calculating reaction entropy using the standard molar entropies of reactants
thermo032 Using the general properties of Gibbs free energy
thermo033 Calculating dG from dH and dS
thermo034 Using the conditions of spontaneity to deduce the signs of ΔH and ΔS
thermo035 Calculating standard reaction free energy from standard free energies of formation
thermo036 Predicting how equilibrium shifts with temperature change
thermo037 Estimating a phase transition temperature from standard thermodynamic data
thermo038 Calculating reaction free energy under nonstandard conditions

thermo039 Using reaction free energy to predict equilibrium composition

Electrochemistry

redox006 Writing a simple half-reaction from its description
redox007 Writing the half-reactions of a metal-nonmetal reaction
redox008 Writing the half-reactions of a single-displacement reaction
redox009 Writing and balancing complex half-reactions in acidic solution
redox010 Writing and balancing complex half-reactions in basic solution
redox013 Balancing a complex redox equation in acidic or basic solution
redox014 Writing the half-reactions of a complex redox reaction in acidic or basic solution
redox012 Designing a galvanic cell from a single-displacement redox reaction
redox016 Designing a galvanic cell from two half-reactions
redox017 Analyzing a galvanic cell
redox018 Picking a reduction or oxidation that will make a galvanic cell work
redox019 Ranking the strength of oxidizing and reducing agents using standard reduction potentials
redox020 Calculating standard reaction free energy from standard reduction potentials
redox021 Using the Nernst equation to calculate nonstandard cell voltage

Nuclear and Organic Chemistry

nchem001 Interpreting the symbol for a nuclide
nchem002 Writing the symbols in a nuclear chemical equation
nchem003 Balancing a nuclear chemical equation
nchem006 Writing the equation for a typical radioactive decay
nchem008 Calculating the energy change in a nuclear reaction from the mass change
nchem004 Knowing the properties of the common types of nuclear radiation
nchem005 Understanding the common modes of radioactive decay
nchem009 Understanding radioactive half life
nchem010 Interconverting amount of radioactive decay and half life
nchem011 Calculating radioactive activity from half life
nchem012 Using isotope ratios to radiodate
nchem013 Using activity to radiodate
ochem001 Identifying organic compounds
ochem003 Interpreting condensed chemical structures
ochem004 Identifying organic functional groups
ochem005 Identifying the main chain of branched alkanes
ochem006 Numbering the main chain of branched alkanes
ochem007 Interpreting condensed chemical structures with benzene rings
ochem008 Naming normal alkanes
ochem009 Using family suffixes to name organic compounds
ochem010 Naming the parent hydrocarbon of branched alkanes
ochem011 Naming alkyl side chains
ochem012 Naming branched alkanes
ochem013 Using multiplying affixes in the names of branched alkanes
ochem016 Naming unbranched alkenes and alkynes
ochem017 Naming alkenes and alkynes
ochem018 Naming alkyl halides
ochem019 Naming alcohols
ochem020 Naming aldehydes and acids
ochem021 Naming benzene derivatives

B.80 Math Review for AP Calculus

Real Numbers

arith067 Simplifying a fraction
arith092 Using a common denominator to order fractions
arith230 Addition or subtraction of fractions with different denominators
arith053 Fraction multiplication
arith022 Fraction division
arith100 Fractional part of a circle
arith226 Converting between percentages and decimals
arith698 Applying the percent equation
arith074 Finding the sale price without a calculator given the original price and percent discount
arith031 Finding the original price given the sale price and percent discount
arith225 Finding the percentage increase or decrease: Advanced
arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
alge272 Solving a proportion of the form $x/a = b/c$
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
arith108 Integer addition: Problem type 2
arith690 Integer subtraction: Problem type 3
arith116 Signed fraction addition or subtraction: Basic
arith106 Signed fraction addition or subtraction: Advanced
arith234 Signed decimal addition and subtraction with 3 numbers
arith231 Integer multiplication and division
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith600 Order of operations with integers and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
arith071 Absolute value of a number
arith104 Operations with absolute value: Problem type 2
alge001 Identifying numbers as integers or non-integers
alge002 Identifying numbers as rational or irrational
alge187 Properties of addition
alge188 Properties of real numbers

Equations and Inequalities

alge010 Additive property of equality with integers
alge012 Multiplicative property of equality with signed fractions
alge006 Solving a two-step equation with integers
alge208 Solving a two-step equation with signed fractions
alge200 Solving an equation to find the value of an expression
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
alge742 Solving equations with zero, one, or infinitely many solutions
alge743 Algebraic symbol manipulation: Problem type 1
alge744 Algebraic symbol manipulation: Problem type 2
alge014 Solving a word problem with two unknowns using a linear equation
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge704 Solving a fraction word problem using a linear equation with the variable on both sides

alge794 Solving a value mixture problem using a linear equation
 alge020 Solving a linear inequality: Problem type 2
 alge021 Solving a linear inequality: Problem type 3
 alge207 Solving a linear inequality: Problem type 4
 alge166 Graphing a compound inequality on the number line
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge747 Solving a compound linear inequality: Interval notation
 alge729 Writing a multi-step inequality for a real-world situation
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge270 Solving an absolute value equation of the form $a-x = b$ or $-x+a = b$
 alge103 Solving an absolute value equation of the form $-ax+b = c$
 alge167 Solving an absolute value equation of the form $-ax+b = -cx+d$
 alge170 Solving an absolute value inequality: Basic

Exponents and Polynomials

alge790 Evaluating expressions with exponents of zero
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge028 Product rule with negative exponents
 alge026 Quotient of expressions involving exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge754 Introduction to the power rules of exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge756 Power and product rules with positive exponents
 alge757 Power, product, and quotient rules with negative exponents
 arith036 Scientific notation with positive exponent
 arith037 Scientific notation with negative exponent
 scinot002 Multiplying and dividing numbers written in scientific notation
 alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge663 Combining like terms: Advanced
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge764 Multiplying conjugate binomials: Univariate
 alge032 Squaring a binomial: Univariate
 alge180 Multiplication involving binomials and trinomials in two variables
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge705 Factoring a quadratic with leading coefficient 1
 alge040 Factoring a quadratic with leading coefficient greater than 1
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge624 Factoring a difference of squares
 alge038 Factoring a polynomial by grouping: Problem type 1
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes
 alge681 Solving an equation written in factored form
 alge045 Finding the roots of a quadratic equation with leading coefficient 1

alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge781 Solving an equation that can be written in quadratic form: Problem type 1
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge163 Writing a quadratic equation given the roots and the leading coefficient
 alge703 Solving a word problem using a quadratic equation with rational roots
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge784 Solving a quadratic inequality written in factored form
 alge771 Solving a quadratic inequality

Lines and Systems

alge067 Plotting a point in the coordinate plane
 alge066 Finding a solution to a linear equation in two variables
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge197 Graphing a line given its x- and y-intercepts
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge198 Graphing a vertical or horizontal line
 alge069 Finding the y-intercept of a line given its equation
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge684 Finding slope given the graph of a line on a grid
 alge685 Finding slope given two points on the line
 alge631 Finding the slope of a line given its equation
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge725 Graphically solving a system of linear equations
 alge751 Solving a system of linear equations using substitution
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge752 Solving a 2x2 system of linear equations that is inconsistent or consistent dependent
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge184 Solving a value mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge079 Graphing a system of two linear inequalities: Basic

Functions and Graphs

set001 Set builder notation
 set002 Union and intersection of finite sets

set004 Set builder and interval notation
 set005 Union and intersection of intervals
 fun032 Identifying functions from relations
 fun010 Vertical line test
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 pcalc682 Evaluating functions: Absolute value, rational, radical
 fun030 Evaluating a piecewise-defined function
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun016 Domain and range from ordered pairs
 pcalc761 Finding inputs and outputs of a function from its graph
 pcalc750 Finding intercepts of a nonlinear function given its graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 fun024 Domain and range from the graph of a continuous function
 fun025 Domain and range from the graph of a piecewise function
 alge185 Writing an equation for a function after a vertical translation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
 alge252 Graphing a parabola of the form $y = ax^2$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc762 Range of a quadratic function
 alge702 Classifying the graph of a function
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge168 Graphing an absolute value equation in the plane: Advanced
 fun031 Graphing a piecewise-defined function: Problem type 1
 pcalc764 Finding zeros of a polynomial function written in factored form
 pcalc765 Finding x- and y-intercepts given a polynomial function
 pcalc782 Determining the end behavior of the graph of a polynomial function
 pcalc738 Inferring properties of a polynomial function from its graph
 pcalc795 Using a graphing calculator to find zeros of a polynomial function
 pcalc704 Using a graphing calculator to solve a word problem involving a polynomial of degree 3
 pcalc794 Using a graphing calculator to find local extrema of a polynomial function
 pcalc115 Using a graphing calculator to solve a word problem involving a local extremum of a polynomial function
 fun019 Sum, difference, and product of two functions
 alge786 Quotient of two functions: Basic
 fun022 Composition of two functions: Basic
 alge129 Composition of two functions: Advanced
 fun011 Horizontal line test
 pcalc777 Determining whether two functions are inverses of each other
 fun012 Inverse functions: Linear, discrete
 alge130 Inverse functions: Rational

Rational Expressions

alge715 Domain of a rational function: Excluded values
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge034 Simplifying a ratio of multivariate polynomials
 alge059 Ordering fractions with variables
 alge053 Multiplying rational expressions involving multivariate monomials
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1

alge054 Dividing rational expressions involving multivariate monomials
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 arith695 Complex fraction without variables: Problem type 1
 arith696 Complex fraction without variables: Problem type 2
 alge058 Complex fraction involving multivariate monomials
 alge767 Complex fraction: GCF and quadratic factoring
 alge768 Complex fraction made of sums involving rational expressions
 alge759 Dividing a polynomial by a monomial: Univariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 pcalc812 Partial fraction decomposition with distinct linear factors
 pcalc813 Partial fraction decomposition with repeated linear factors
 pcalc814 Partial fraction decomposition with an irreducible quadratic factor
 pcalc681 Writing an equation that models variation
 alge175 Word problem on direct variation
 alge176 Word problem on inverse variation
 alge772 Word problem on combined variation
 alge220 Word problem on inverse proportions
 arith612 Word problem involving multiple rates
 pcalc815 Sketching the graph of a rational function: Constant over linear
 pcalc816 Sketching the graph of a rational function: Linear over linear
 pcalc819 Sketching the graph of a rational function: Quadratic over linear
 pcalc792 Graphing rational functions with holes

Radical Expressions

pcalc763 Domain of a square root function: Advanced
 pcalc781 Graphing a square root function
 arith601 Square root of a rational perfect square
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 alge264 Square root of a perfect square monomial
 alge080 Simplifying a radical expression with an even exponent
 alge275 Simplifying a radical expression with two variables
 alge273 Simplifying a higher root of a whole number
 alge811 Simplifying a higher radical expression: Multivariate
 arith032 Square root addition or subtraction
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge086 Rationalizing the denominator of a radical expression
 alge088 Rationalizing the denominator of a radical expression using conjugates
 alge775 Rationalizing a denominator: Quotient involving higher radicals and monomials
 alge812 Converting between radical form and exponent form
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base

alge251 Rational exponents: Negative exponents and fractional bases
 alge773 Rational exponents: Products and quotients with negative exponents
 alge249 Rational exponents: Powers of powers with negative exponents
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge091 Solving a radical equation that simplifies to a quadratic equation: One radical
 alge093 Solving an equation using the odd-root property: Problem type 1
 alge778 Using i to rewrite square roots of negative numbers
 alge779 Simplifying a product and quotient involving square roots of negative numbers
 pcalc048 Adding or subtracting complex numbers
 pcalc049 Multiplying complex numbers
 pcalc050 Dividing complex numbers
 pcalc053 Simplifying a power of i
 pcalc051 Solving a quadratic equation with complex roots

Exponentials and Logarithms

alge108 Converting between logarithmic and exponential equations
 pcalc799 Converting between natural logarithmic and exponential equations
 alge232 Evaluating a logarithmic expression
 pcalc708 Basic properties of logarithms
 pcalc779 Expanding a logarithmic expression: Problem type 1
 alge787 Writing an expression as a single logarithm
 pcalc612 Change of base for logarithms: Problem type 1
 pcalc613 Change of base for logarithms: Problem type 2
 alge233 Solving an equation of the form $\log_b a = c$
 alge113 Solving an equation involving logarithms on both sides: Problem type 1
 pcalc803 Solving a multi-step equation involving a single logarithm
 pcalc804 Solving a multi-step equation involving natural logarithms
 pcalc805 Solving an equation involving logarithms on both sides: Problem type 2
 alge111 Solving an exponential equation by using logarithms: Exact answers in logarithmic form
 alge112 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 alge789 Solving exponential equations by using logarithms and natural logarithms: Decimal answers
 pcalc798 Evaluating an exponential function that models a real-world situation
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc614 Finding the initial or final amount in a word problem on exponential growth or decay
 pcalc615 Finding the rate or time in a word problem on continuous exponential growth or decay
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 pcalc797 The graph, domain, and range of an exponential function
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^{x-b} + c$
 pcalc800 The graph, domain, and range of a logarithmic function
 pcalc104 Graphing a logarithmic function: Advanced
 pcalc102 Translating the graph of a logarithmic or exponential function

Geometry

geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom340 Area of a piecewise rectangular figure
 geom351 Areas of rectangles with the same perimeter
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom022 Area of a parallelogram
 geom801 Area of a triangle
 geom802 Circumference and area of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference

geom301 Perimeter involving rectangles and circles
 geom838 Circumference ratios
 geom302 Area involving rectangles and circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom311 Volume of a rectangular prism
 geom035 Volume of a cylinder
 geom086 Volume of a cone: Exact answers in terms of π
 geom841 Volume of a sphere
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom133 Ratio of volumes
 geom031 Surface area of a cube or a rectangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of π
 geom037 Similar polygons
 geom337 Indirect measurement
 geom044 Pythagorean Theorem
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane
 pcalc605 Graphing a circle given its equation in standard form
 pcalc064 Graphing a circle given its equation in general form
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter

Trigonometry

pcalc002 Converting between degree and radian measure: Problem type 1
 pcalc006 Sketching an angle in standard position
 pcalc626 Reference angles: Problem type 1
 pcalc622 Coterminal angles
 pcalc005 Arc length and central angle measure
 pcalc623 Area of a sector of a circle
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc008 Finding trigonometric ratios given a right triangle
 pcalc642 Solving a right triangle
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc033 Solving a triangle with the law of cosines
 pcalc627 Finding coordinates on the unit circle for special angles
 pcalc629 Trigonometric functions and special angles: Problem type 1
 pcalc630 Trigonometric functions and special angles: Problem type 2
 pcalc631 Trigonometric functions and special angles: Problem type 3
 pcalc011 Finding values of trigonometric functions given information about an angle: Problem type 1
 pcalc012 Finding values of trigonometric functions given information about an angle: Problem type 2
 pcalc013 Finding values of trigonometric functions given information about an angle: Problem type 3
 pcalc633 Amplitude and period of sine and cosine functions
 pcalc634 Amplitude, period, and phase shift of sine and cosine functions
 pcalc107 Sketching the graph of $y = a \sin(x+c)$ or $y = a \cos(x+c)$
 pcalc106 Sketching the graph of $y = a \sin(bx)$ or $y = a \cos(bx)$
 pcalc016 Values of inverse trigonometric functions
 pcalc018 Composition of a trigonometric function with its inverse trigonometric function: Problem type 1
 pcalc019 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 2
 pcalc036 Composition of a trigonometric function with the inverse of another trigonometric function: Problem type 3
 pcalc648 Simplifying trigonometric expressions
 pcalc666 Using cofunction identities
 pcalc029 Sum and difference identities: Problem type 1

pcalc663 Sum and difference identities: Problem type 2
 pcalc030 Double-angle identities: Problem type 1
 pcalc667 Double-angle identities: Problem type 2
 pcalc124 Product-to-sum and sum-to-product identities: Problem type 1
 pcalc650 Finding solutions in an interval for a basic equation involving sine or cosine
 pcalc651 Finding solutions in an interval for a basic tangent, cotangent, secant, or cosecant equation
 pcalc654 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 1
 pcalc020 Solving a basic trigonometric equation involving sine or cosine
 pcalc021 Solving a basic trigonometric equation involving tangent, cotangent, secant, or cosecant
 pcalc055 Plotting a point in polar coordinates
 pcalc056 Converting rectangular coordinates to polar coordinates: Special angles
 pcalc057 Converting polar coordinates to rectangular coordinates
 pcalc058 Converting an equation written in rectangular form to one written in polar form
 pcalc059 Converting an equation written in polar form to one written in rectangular coordinates

Limits and Continuity

pcalc901 Estimating a limit numerically
 pcalc902 Finding limits from a graph
 pcalc904 Finding limits for a piecewise-defined function
 pcalc905 Finding a limit by using the limit laws: Problem type 1
 pcalc906 Finding a limit by using the limit laws: Problem type 2
 pcalc907 Finding a limit by using the limit laws: Problem type 3
 pcalc911 Squeeze Theorem
 pcalc903 Determining points of discontinuity from a graph
 pcalc914 Determining a parameter to make a function continuous
 pcalc910 Limits at infinity and graphs
 pcalc908 Limits at infinity and rational functions
 pcalc915 Infinite limits and graphs
 pcalc909 Infinite limits and rational functions
 pcalc913 Finding a limit of a trigonometric function by using continuity
 pcalc912 Finding a limit by using special trigonometric limits

B.81 Math Review for AP Physics

Arithmetic

arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith108 Integer addition: Problem type 2
 arith107 Integer subtraction
 arith231 Integer multiplication and division
 arith071 Absolute value of a number
 arith104 Operations with absolute value: Problem type 2
 arith212 Equivalent fractions
 arith067 Simplifying a fraction
 arith618 Addition or subtraction of fractions with the same denominator
 arith230 Addition or subtraction of fractions with different denominators
 arith116 Signed fraction addition or subtraction: Basic
 arith106 Signed fraction addition or subtraction: Advanced
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith105 Signed fraction multiplication: Advanced

arith022 Fraction division
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith220 Decimal place value: Hundreds to ten thousandths
 arith078 Rounding to tens or hundreds
 arith061 Rounding to thousands, ten thousands, or hundred thousands
 arith221 Rounding decimals
 arith082 Multiplication of a decimal by a power of ten
 arith083 Division of a decimal by a power of ten
 arith222 Converting a fraction to a terminating decimal
 arith089 Converting a fraction to a repeating decimal
 arith223 Converting a mixed number to a decimal
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith226 Converting between percentages and decimals
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith686 Writing a ratio as a percentage
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 mstat001 Mean of a data set
 arith101 Estimating a sum of whole numbers
 arith102 Estimating a difference of whole numbers
 arith604 Estimating a product or quotient of whole numbers
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 mstat005 Constructing a bar graph for non-numerical data
 mstat004 Constructing a histogram for numerical data

Linear Equations and Applications

alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge607 Combining like terms: Integer coefficients
 alge016 Translating a sentence into a one-step equation
 alge602 Writing a one-step variable expression for a real-world situation
 alge009 Additive property of equality with whole numbers
 alge010 Additive property of equality with integers
 alge266 Additive property of equality with a negative coefficient
 alge008 Multiplicative property of equality with whole numbers
 alge012 Multiplicative property of equality with signed fractions
 alge006 Solving a two-step equation with integers
 alge208 Solving a two-step equation with signed fractions
 alge200 Solving an equation to find the value of an expression
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge103 Solving an absolute value equation of the form $-ax+b = c$
 alge167 Solving an absolute value equation of the form $-ax+b = -cx+d$
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers

alge218 Solving a word problem involving rates and time conversion
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 alge014 Solving a word problem with two unknowns using a linear equation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge175 Word problem on direct variation
 alge176 Word problem on inverse variation

Lines and Systems of Linear Equations

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge197 Graphing a line given its x- and y-intercepts
 alge198 Graphing a vertical or horizontal line
 alge194 Graphing a line given its equation in slope-intercept form
 alge195 Graphing a line given its equation in standard form
 alge196 Graphing a line through a given point with a given slope
 alge018 Graphing a linear inequality in the plane: Standard form
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 mstat007 Interpreting a line graph
 alge734 Understanding distance and speed graphs
 alge066 Finding a solution to a linear equation in two variables
 alge069 Finding the y-intercept of a line given its equation
 alge210 Finding x- and y-intercepts of a line given the equation: Advanced
 alge637 Determining the slope of a line given its graph
 alge631 Finding the slope of a line given its equation
 alge073 Writing the equations of vertical and horizontal lines through a given point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge071 Writing the equation of a line given the slope and a point on the line
 alge072 Writing the equation of the line through two given points
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge216 Determining whether given points lie on one, both, or neither of 2 lines given equations
 alge725 Graphically solving a system of linear equations
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge079 Graphing a system of two linear inequalities: Basic

Exponents and Radicals

arith047 Evaluating expressions with exponents: Problem type 1
 arith049 Evaluating expressions with exponents: Problem type 2
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith029 Ordering numbers with positive exponents
 arith024 Ordering numbers with negative exponents
 alge024 Introduction to the product rule of exponents
 alge030 Product rule with positive exponents: Multivariate
 alge026 Quotient of expressions involving exponents
 alge028 Product rule with negative exponents
 alge027 Power rules with positive exponents
 alge025 Power of a power rule with negative exponents
 alge037 Greatest common factor of two multivariate monomials
 alge004 Evaluating a quadratic expression: Integers
 arith683 Power of 10: Positive exponent
 arith036 Scientific notation with positive exponent
 arith684 Power of 10: Negative exponent
 arith037 Scientific notation with negative exponent

scinot002 Multiplying and dividing numbers written in scientific notation
 scinot003 Finding powers of numbers written in scientific notation
 scinot004 Order of magnitude estimation
 alge663 Combining like terms: Advanced
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge033 Multiplying binomials with leading coefficients of 1
 alge032 Squaring a binomial: Univariate
 alge180 Multiplication involving binomials and trinomials in two variables
 alge705 Factoring a quadratic with leading coefficient 1
 alge624 Factoring a difference of squares
 alge038 Factoring a polynomial by grouping: Problem type 1
 arith016 Square root of a perfect square
 arith093 Simplifying the square root of a whole number less than 100
 alge080 Simplifying a radical expression with an even exponent
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 arith039 Square root multiplication: Advanced
 alge640 Simplifying a product of radical expressions: Multivariate
 alge082 Simplifying a product of radical expressions: Multivariate, fractional expressions
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge086 Rationalizing the denominator of a radical expression
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases

Quadratic, Rational and Exponential Expressions

alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge095 Applying the quadratic formula: Exact answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge093 Solving an equation using the odd-root property: Problem type 1
 alge049 Restriction on a variable in a denominator: Linear
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge058 Complex fraction involving multivariate monomials
 alge162 Complex fraction that contains a complex fraction
 alge053 Multiplying rational expressions involving multivariate monomials
 alge054 Dividing rational expressions involving multivariate monomials
 alge055 Least common multiple of two monomials
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge057 Adding rational expressions with different denominators: ax , bx
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge622 Adding rational expressions with different denominators: $x+a$, $x+b$
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge160 Algebraic symbol manipulation
 alge252 Graphing a parabola of the form $y = ax^2$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 pcalc070 Graphing an ellipse centered at the origin: $Ax^2 + By^2 = C$
 pcalc075 Graphing a hyperbola centered at the origin: $Ax^2 - By^2 - C = 0$
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^{x-b} + c$
 alge108 Converting between logarithmic and exponential equations
 alge232 Evaluating a logarithmic expression
 pcalc708 Basic properties of logarithms
 pcalc104 Graphing a logarithmic function: Advanced

Geometry

geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom340 Area of a piecewise rectangular figure
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom801 Area of a triangle
 geom022 Area of a parallelogram
 geom016 Circumference of a circle
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom802 Circumference and area of a circle
 geom302 Area involving rectangles and circles
 geom805 Arc length and area of a sector of a circle
 geom031 Surface area of a cube or a rectangular prism
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere
 geom311 Volume of a rectangular prism
 geom035 Volume of a cylinder
 geom841 Volume of a sphere
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom133 Ratio of volumes
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom303 Acute, obtuse, and right angles
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom039 Finding supplementary and complementary angles
 geom500 Solving equations involving vertical angles and linear pairs
 geom306 Acute, obtuse, and right triangles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom044 Pythagorean Theorem
 geom038 Similar right triangles
 geom337 Indirect measurement
 alge132 Distance between two points in the plane: Exact answers
 alge191 Midpoint of a line segment in the plane

Trigonometry and Vectors

pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc002 Converting between degree and radian measure: Problem type 1
 pcalc006 Sketching an angle in standard position
 pcalc603 Common angles and trigonometric functions
 pcalc107 Sketching the graph of $y = a \sin(x+c)$ or $y = a \cos(x+c)$
 pcalc106 Sketching the graph of $y = a \sin(bx)$ or $y = a \cos(bx)$
 pcalc014 Sketching the graph of $y = a \sin(bx+c)$ or $y = a \cos(bx+c)$
 pcalc739 Multiplication of a vector by a scalar: Geometric approach
 geom857 Vector addition: Geometric approach
 vector007 Vector subtraction: Geometric approach
 pcalc061 Scalar multiplication of a vector: Algebraic approach
 pcalc062 Addition and subtraction of vectors: Algebraic approach
 vector008 Linear combination of vectors: Component form

pcalc063 Translation of a vector
pcalc060 Magnitude of a vector given in component form
vector002 Finding the magnitude and direction of a vector given its graph
vector009 Dot product of vectors given in component form
pcalc730 Finding the angle between two vectors given in component form
vector010 Using the dot product to find perpendicular vectors
vector005 Finding the components of a vector given its graph
vector006 Finding the component of a vector along another vector
vector011 Finding magnitudes of forces related to a sum of three vectors
vector012 Finding magnitudes of forces related to an object suspended by cables

B.82 Fundamentals of Accounting (Corp)

Basic Terminology

acct001 Information classification into assets, liabilities, and change of equity
acct002 Information classification into revenue, expense, or other
acct003 Account classification into financial statements
acct004 Information classification into financial statements
acct007 Components of annual report

Basic Transactions and Financial Statements

acct005 Effects of a transaction on assets, liabilities, and equity
acct008 Balancing the basic accounting equation
acct009 Changes to stockholders' equity: Problem type 1
acct010 Changes to stockholders' equity: Problem type 2
acct011 Completing a corporate balance sheet
acct012 Completing an income statement
acct013 Completing a retained earnings statement
acct014 Effect of transactions on accounts
acct301 Creating a basic income statement
acct302 Creating a basic equity statement
acct303 Creating a basic balance sheet
acct304 Basic tabular transaction

Journal Entries

acct016 Normal account balances
acct017 Trial balance errors
acct018 Basic journal entry with the step-through method
acct019 Journalization of transactions
acct020 Ending balances of accounts

Adjusting Entries

acct021 Adjusting entry calculations
acct022 Adjusting entries: Accruals
acct023 Adjusting entries with deferrals: Problem type 1
acct024 Adjusting entries with deferrals: Problem type 2

acctn025 Property, plant, and equipment section of a balance sheet: Basic problem
acctn026 Effects of adjusting entries on financial statements: Problem type 1
acctn027 Effects of adjusting entries on financial statements: Problem type 2

Closing Process and Financial Statements

acctn028 Permanent and temporary accounts
acctn029 Closing entries
acctn030 Effects of closing entries on account balances
acctn031 Correcting entries
acctn032 Reversing entries: Selecting which entries should be reversed
acctn033 Reversing entries: Preparing a reversing entry
acctn034 Creating a balance sheet with asset depreciation
acctn305 Balance sheet subtotals
acctn307 Balance sheet classification

Merchandising Accounting

acctn036 Normal account balances for a retail company
acctn037 Account classification for a retail company
acctn038 Parts of the retail income statement
acctn039 Merchandising: Computing amount due
acctn040 Merchandising: Computing income statement amounts
acctn044 Merchandising: Closing entries
acctn041 Seller's retail entries: Problem type 1
acctn042 Seller's retail entries: Problem type 2
acctn046 Seller's retail entries: Problem type 3
acctn043 Buyer's retail entries: Problem type 1
acctn045 Buyer's retail entries: Problem type 2
acctn047 Buyer's retail entries: Problem type 3
acctn048 Preparing a retail income statement

Advanced Review Topics

acctn054 Cash and cash equivalents
acctn078 Inventory costs
acctn092 Income statement with periodic inventory: Problem type 2
acctn095 Income statement with periodic inventory: Problem type 3
acctn111 Scrapping an asset
acctn112 Selling an asset
acctn141 Revenue recognition: Basic questions

B.83 Fundamentals of Accounting (Sole)

Basic Terminology

acctn001 Information classification into assets, liabilities, and change of equity
acctn002 Information classification into revenue, expense, or other
acctn003 Account classification into financial statements
acctn004 Information classification into financial statements
acctn007 Components of annual report

Basic Transactions and Financial Statements

accnt005 Effects of a transaction on assets, liabilities, and equity
accnt008 Balancing the basic accounting equation
accnt009 Changes to owner's equity: Problem type 1
accnt010 Changes to owner's equity: Problem type 2
accnt011 Completing a sole proprietorship balance sheet
accnt012 Completing an income statement
accnt013 Completing an owner's equity statement
accnt014 Effect of transactions on accounts
accnt301 Creating a basic income statement
accnt302 Creating a basic equity statement
accnt303 Creating a basic balance sheet
accnt304 Basic tabular transaction

Journal Entries

accnt016 Normal account balances
accnt017 Trial balance errors
accnt018 Basic journal entry with the step-through method
accnt019 Journalization of transactions
accnt020 Ending balances of accounts

Adjusting Entries

accnt021 Adjusting entry calculations
accnt022 Adjusting entries: Accruals
accnt023 Adjusting entries with deferrals: Problem type 1
accnt024 Adjusting entries with deferrals: Problem type 2
accnt025 Property, plant, and equipment section of a balance sheet: Basic problem
accnt026 Effects of adjusting entries on financial statements: Problem type 1
accnt027 Effects of adjusting entries on financial statements: Problem type 2

Closing Process and Financial Statements

accnt028 Permanent and temporary accounts
accnt029 Closing entries
accnt030 Effects of closing entries on account balances
accnt031 Correcting entries
accnt032 Reversing entries: Selecting which entries should be reversed
accnt033 Reversing entries: Preparing a reversing entry
accnt034 Creating a balance sheet with asset depreciation

B.84 Business Math

Mathematic Foundations

bmath094 Whole number place value
bmath122 Rounding whole numbers
bmath105 Adding whole numbers
bmath121 Subtracting whole numbers
bmath106 Multiplying whole numbers
bmath002 Dividing whole numbers
bmath003 Types of fractions and conversion procedures
bmath004 Reducing fractions to lowest terms
bmath005 Raising fractions to higher terms
bmath130 Adding and subtracting fractions with the same denominator
bmath006 Adding fractions with different denominators
bmath007 Subtracting fractions with different denominators
bmath008 Multiplying fractions
bmath009 Dividing fractions
bmath131 Adding mixed numbers
bmath132 Subtracting mixed numbers
bmath133 Multiplying mixed numbers
bmath134 Dividing mixed numbers
bmath123 Decimal place value
bmath010 Rounding decimals
bmath012 Adding decimals
bmath124 Subtracting decimals
bmath125 Multiplying decimals
bmath013 Dividing decimals
bmath011 Conversion from fraction to decimal
bmath126 Conversion from decimal to fraction
bmath016 Solving equations, basic
bmath141 Solving equations, advanced
bmath091 Mean and median
bmath092 Frequency and weighted mean
bmath142 Bar graphs

bmath143 Interpreting line graphs
bmath144 Interpreting circle graphs

Percents and Their Applications

bmath018 Converting decimals to percentages
bmath116 Converting percentages to decimals
bmath117 Converting percentages to fractions
bmath113 Converting fractions to percentages
bmath019 Portion formula: Solving for portion
bmath114 Portion formula: Solving for rate
bmath115 Portion formula: Solving for base
bmath020 Calculating percent decreases and increases
bmath021 Single trade discounts and net price
bmath022 Chain discounts: Net price equivalent rate
bmath023 Chain discounts: Single equivalent discount rate
bmath024 Cash discount: Basic calculation
bmath096 Cash discount: Ordinary and receipt of goods dating methods
bmath112 Cash discount: EOM dating method
bmath097 Invoices, trade discounts, and cash discounts
bmath025 Markup based on cost or selling price
bmath001 Markup based on cost: Finding the selling price
bmath027 Markup based on cost: Finding the cost
bmath107 Markup based on selling price: Finding the selling price
bmath108 Markup based on selling price: Finding the cost
bmath029 Markdown
bmath030 Hourly gross pay with overtime
bmath031 Gross pay with straight commission and draw
bmath032 Gross pay with variable commission scale
bmath033 Gross pay with commission and salary
bmath034 FICA with no ceiling
bmath119 FICA with ceiling
bmath035 Calculating federal income tax withholding
bmath036 Employer tax responsibilities
bmath120 FICA, federal tax withholding, and net pay
bmath075 Sales taxes
bmath129 Actual sales before taxes
bmath076 Excise taxes
bmath077 Property tax

Interest

bmath037 Simple interest and maturity value
bmath038 Exact and ordinary methods for simple interest and maturity value
bmath039 Solving for principal, rate, or time in simple interest problems
bmath101 The U. S. Rule: Making partial note payments before due date
bmath040 Structure of promissory notes: Effective interest rate and simple discount note
bmath110 Discounting an interest-bearing note before maturity
bmath109 Computing compound interest with the simple interest formula
bmath042 Compound interest for daily compounding
bmath041 Compound interest for annual, semiannual, and quarterly compounding
bmath102 Nominal interest rate versus annual percentage yield
bmath043 Present value tables
bmath044 Ordinary annuity
bmath045 Annuity due
bmath046 Present value of an ordinary annuity
bmath047 Sinking funds
bmath048 Amount financed, finance charge, and deferred payment

bmath049 Cost of installment buying: Computing the APR
bmath050 Cost of installment buying: Computing the monthly payment
bmath051 Paying off installment loans before due date
bmath052 Revolving charge credit cards

Personal Finance

bmath095 Checking accounts
bmath128 Bank statement and reconciliation process: Basic
bmath015 Bank statement and reconciliation process: Advanced
bmath053 Monthly mortgage payment tables
bmath054 Total cost of interest for a mortgage
bmath055 Amortization schedule: Interest, principal, and new mortgage balance
bmath078 Life insurance premiums
bmath079 Insurance nonforfeiture values
bmath080 Fire insurance premiums
bmath140 Canceling fire insurance
bmath081 Compulsory auto insurance
bmath082 Optional auto insurance
bmath083 Reading stock quotations
bmath085 Calculating return on stock investment
bmath139 Stock yield, earnings per share, and price-earnings ratio
bmath084 Stock dividends
bmath086 Reading bond quotations
bmath087 Calculating bond yields
bmath088 Net asset value of a mutual fund
bmath090 Investment in a mutual fund

Business Finance

bmath056 Balance sheet: Merchandising
bmath135 Balance sheet: Service
bmath057 Vertical analysis of a balance sheet
bmath058 Income statement: Merchandising
bmath136 Income statement: Service
bmath059 Vertical analysis of an income statement
bmath138 Horizontal analysis of financial statements
bmath060 Financial projections
bmath061 Financial ratio analysis
bmath062 Straight-line depreciation: Full year
bmath127 Straight-line depreciation: Partial year
bmath063 Units-of-production depreciation
bmath064 Sum-of-the-years'-digits depreciation
bmath065 Declining-balance depreciation
bmath066 Modified accelerated cost recovery system
bmath067 Inventory: Specific identification
bmath068 Inventory: Weighted-average cost method
bmath069 Inventory: FIFO
bmath070 Inventory: LIFO
bmath071 Retail method of inventory
bmath072 Gross profit method of inventory
bmath073 Inventory turnover
bmath074 Distribution of overhead

arith060 Numeral translation: Problem type 2
arith633 One-digit addition with carry
arith634 Addition of 3 or 4 one-digit numbers
arith001 Addition without carry
arith635 Adding a 2-digit number and a 1-digit number with carry
arith050 Addition with carry
arith630 Addition with carry to the hundreds place
arith012 Addition of large numbers
arith636 Subtracting a 1-digit number from a 2-digit number
arith007 Subtraction without borrowing
arith006 Subtraction with borrowing
arith682 Subtraction with multiple regrouping steps
arith637 Subtraction and regrouping with zeros
arith653 Fact families for addition and subtraction
arith613 Word problem with addition or subtraction of whole numbers
mstat061 Describing an increasing or decreasing pattern from a table of values
arith126 Multiplication as repeated addition
arith008 One-digit multiplication
arith639 Using multiplication to find the number of squares
arith679 Multiplication by 10, 100, and 1000
arith003 Multiplication without carry
arith004 Multiplication with carry
arith632 Multiplication with trailing zeros: Problem type 1
arith615 Introduction to multiplication of large numbers
arith675 Understanding multiplication of a one-digit number with a larger number
arith638 Multiplication with trailing zeros: Problem type 2
arith014 Multiplication of large numbers
arith641 Multiples: Problem type 1
arith642 Multiples: Problem type 2
arith075 Division facts
arith654 Fact families for multiplication and division
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith052 Division without carry
arith005 Division with carry

arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith680 Division with trailing zeros: Problem type 1
arith649 Division with trailing zeros: Problem type 2
arith616 Quotient and remainder: Problem type 1
arith644 Word problem on quotient and remainder
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge813 Introduction to solving an equation with multiplication or division
alge008 Multiplicative property of equality with whole numbers
alge016 Translating a sentence into a one-step equation
geom339 Perimeter of a polygon

geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom866 Perimeter and area on a grid

Decimals

arith110 Decimal place value: Tenths and hundredths
arith220 Decimal place value: Hundreds to ten thousandths
arith714 Writing a decimal number less than 1 given its name
arith715 Writing a decimal number greater than 1 given its name
arith716 Writing a decimal number given its name: Advanced
arith829 Reading decimal position on a number line: Tenths
arith830 Reading decimal position on a number line: Hundredths
arith831 Understanding decimal position on a number line using zoom: Hundredths
arith832 Understanding decimal position on a number line using zoom: Thousandths
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith221 Rounding decimals
arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith734 Subtraction of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith131 Estimating a decimal sum or difference
arith668 Addition with money
arith669 Subtraction with money
arith132 Word problem with addition or subtraction of 2 decimals
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith046 Decimal multiplication: Problem type 2
arith082 Multiplication of a decimal by a power of ten
arith738 Multiplication of a decimal by a power of 0.1
arith740 Multiplication of decimals that have a product less than 0.1
arith752 Estimating a product of decimals
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith629 Word problem with multiple decimal operations: Problem type 2
arith103 Average of two numbers
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
scinot023 Introduction to scientific notation with positive exponents
arith036 Scientific notation with positive exponent

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division
arith820 Word problem involving multiplication or division with mixed numbers
arith127 Writing a decimal and a fraction for a shaded region
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced

arith733 Using a calculator to convert a fraction to a rounded decimal
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith732 Converting a fraction or mixed number to a rounded decimal
 arith609 Ordering fractions and decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith513 Identifying rational decimal numbers
 arith821 Exponents and fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge281 Function tables with one-step rules
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion

unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
 arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount

arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 arith918 Comparing discounts
 arith914 Calculations involving paying for college
 arith916 Computing percentages for categories of a budget
 arith921 Comparing annual salaries of different occupations
 arith911 Calculations involving purchases with debit and credit cards
 arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score

Integers and Rational Numbers

alge286 Plotting integers on a number line
 mstat038 Reading the temperature from a thermometer
 arith691 Ordering integers
 arith415 Using a number line to compare integers
 arith699 Writing a signed number for a real-world situation
 arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
 arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
 arith416 Comparing signed numbers relating to a real-world situation
 arith402 Plotting opposite integers on a number line
 arith403 Finding opposites of integers
 arith071 Absolute value of a number
 arith412 Finding all numbers with a given absolute value
 arith605 Plotting rational numbers on a number line
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith431 Identifying a sum as a point located a given distance from another point
 arith430 Identifying relative change when combining two quantities
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith755 Addition and subtraction with 4 or 5 integers
 arith440 Operations with absolute value: Problem type 1
 arith104 Operations with absolute value: Problem type 2
 alge694 Computing the distance between two integers on a number line
 arith433 Computing and understanding distances between integers on a number line
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith952 Word problem with multiplication or division of integers
 arith702 Exponents and integers: Problem type 1
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith750 Signed decimal multiplication

arith751 Signed decimal division
 alge660 Identifying equivalent signed fractions
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith814 Signed fraction division
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 geom525 Computing distances between decimals on the number line
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge001 Identifying numbers as integers or non-integers
 alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge665 Combining like terms: Decimal coefficients
 alge666 Combining like terms: Fractional coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression

Equations and Inequalities

alge800 Additive property of equality with decimals
 alge801 Additive property of equality with fractions and mixed numbers
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge825 Multiplicative property of equality with decimals
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge658 Introduction to solving a rational equation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge671 Choosing stories that can be represented by given one-step equations
 alge841 Translating a sentence into a multi-step equation
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem

alge672 Choosing stories that can be represented by given two-step equations
 alge014 Solving a word problem with two unknowns using a linear equation
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge166 Graphing a compound inequality on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge636 Solving a two-step linear inequality with whole numbers
 alge846 Translating a sentence into a multi-step inequality
 alge621 Solving a word problem using a one-step linear inequality
 alge623 Solving a word problem using a two-step linear inequality

Graphs and Functions

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 arith454 Making a table and plotting points given a unit rate
 alge283 Graphing whole number functions
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun001 Table for a linear function
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 mstat007 Interpreting a line graph
 geom358 Identifying parallel and perpendicular lines
 geom536 Drawing and identifying a polygon in the coordinate plane
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation

alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge263 Interpreting the graphs of two functions
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom519 Identifying and naming congruent parts of congruent triangles
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals

geom532 Classifying parallelograms
geom818 Finding the coordinates of a point to make a parallelogram
geom870 Sum of the angle measures of a quadrilateral
geom852 The sum of interior angle measures in a convex polygon
arith016 Square root of a perfect square
alge413 Finding all square roots of a number
arith763 Using a calculator to approximate a square root
arith602 Estimating a square root
alge407 Introduction to the Pythagorean Theorem
geom044 Pythagorean Theorem
alge408 Word problem involving the Pythagorean Theorem
geom603 Identifying side lengths that give right triangles

Transformations

geom357 Identifying transformations
geom355 Introduction to translations
geom596 Translating a point and giving its coordinates: One step
geom909 Translating a point and giving its coordinates: Two steps
geom597 Properties of translated figures
geom598 Determining if figures are related by a translation
geom330 Translating a polygon
geom356 Introduction to reflections
arith408 Reflecting a point across an axis
geom533 Reflecting a point across both coordinate axes
geom590 Reflecting a point across an axis and giving its coordinates
arith407 Finding the coordinates of a point reflected across an axis
geom560 Finding the coordinates of a point reflected across both axes
geom534 Reflecting a polygon across the x-axis or y-axis
geom591 Properties of reflected figures
geom592 Determining if figures are related by a reflection
geom332 Reflecting a polygon over a vertical or horizontal line
geom334 Drawing lines of symmetry
geom602 Finding the coordinates of a point reflected across an axis and translated
geom815 Finding an angle of rotation
geom624 Identifying rotational symmetry and angles of rotation
geom593 Rotating a point and giving its coordinates
geom594 Properties of rotated figures
geom595 Determining if figures are related by a rotation
geom335 Rotating a figure about the origin
geom580 Determining if figures are congruent and related by a transformation
geom606 Dilating a segment and giving the coordinates of its endpoints
geom607 The effect of dilation on side length
geom608 Determining if figures are related by a dilation
geom636 The effect of dilation on area

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
geom078 Sides of polygons having the same perimeter
geom221 Finding the missing length in a figure
geom353 Perimeter of a piecewise rectangular figure
alge615 Writing algebraic expressions for the perimeter of a figure
geom620 Area of a rectangle involving fractions
geom619 Area of a rectangle involving mixed numbers and fractions
geom350 Distinguishing between the area and perimeter of a rectangle
geom351 Areas of rectangles with the same perimeter
geom869 Estimates and exact answers

alge616 Writing algebraic expressions for the area of a figure
geom410 Word problem involving the area of a square or a rectangle
geom217 Finding the side length of a rectangle given its perimeter or area
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
geom142 Word problem involving the area between two rectangles
geom501 Finding the area of a right triangle on a grid
geom509 Finding the area of a right triangle or its corresponding rectangle
geom801 Area of a triangle
geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
geom344 Area involving rectangles and triangles
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom537 Finding the perimeter or area of a rectangle in the coordinate plane
geom832 Area of quadrilaterals in the coordinate plane
geom347 Introduction to a circle: Diameter, radius, and chord
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom838 Circumference ratios
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom570 Distinguishing between the area and circumference of a circle
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom868 Classifying solids
geom348 Vertices, edges, and faces of a solid
geom830 Counting the cubes in a solid made of cubes
geom816 Side views of a solid made of cubes
geom550 Identifying horizontal and vertical cross sections of solids
geom311 Volume of a rectangular prism
geom354 Volume of a rectangular prism made of unit cubes
geom518 Volume of a solid made of cubes with unit fraction edge lengths
geom535 Volume of a rectangular prism with fractional edge lengths
alge617 Writing equivalent expressions for the volume of a rectangular prism
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom505 Volume of a piecewise rectangular prism
geom090 Volume of a triangular prism
geom572 Word problem involving the volume of a triangular prism
geom033 Volume of a pyramid
geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
geom638 Relating the volumes of a triangular prism and a triangular pyramid
geom035 Volume of a cylinder
geom573 Word problem involving the volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom622 Volume of a cone
geom086 Volume of a cone: Exact answers in terms of pi
geom639 Relating the volumes of a cylinder and a cone
geom575 Word problem involving the volume of a cone
geom219 Nets of solids
geom031 Surface area of a cube or a rectangular prism
geom632 Surface area of a rectangular prism made of unit cubes
geom555 Distinguishing between surface area and volume
geom556 Using a net to find the surface area of a rectangular prism
geom576 Word problem involving the surface area of a rectangular prism
geom345 Surface area of a piecewise rectangular prism made of unit cubes
geom091 Surface area of a triangular prism
geom557 Using a net to find the surface area of a triangular prism
geom621 Surface area of a cylinder

geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder

Data Analysis and Probability

mstat088 Identifying statistical questions
 mstat080 Choosing an appropriate method for gathering data: Problem type 1
 mstat081 Choosing an appropriate method for gathering data: Problem type 2
 mstat056 Interpreting a tally table
 mstat097 Constructing a two-way frequency table: Basic
 mstat098 Constructing a two-way frequency table: Advanced
 mstat049 Computing a percentage from a table of values
 mstat087 Making an inference using a two-way frequency table
 stat020 Calculating relative frequencies in a contingency table
 mstat025 Finding if a question can be answered by the data
 mstat037 Constructing a line plot
 mstat005 Constructing a bar graph for non-numerical data
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat057 Interpreting a pictograph table
 mstat031 Interpreting a stem-and-leaf plot
 geom814 Angle measure in a circle graph

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
 arith125 Whole number place value: Problem type 2
 arith066 Expanded form
 arith643 Expanded form with zeros
 arith028 Numeral translation: Problem type 1
 arith060 Numeral translation: Problem type 2
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith006 Subtraction with borrowing
 arith682 Subtraction with multiple regrouping steps
 arith637 Subtraction and regrouping with zeros
 arith613 Word problem with addition or subtraction of whole numbers
 mstat061 Describing an increasing or decreasing pattern from a table of values
 arith126 Multiplication as repeated addition
 arith004 Multiplication with carry
 arith615 Introduction to multiplication of large numbers
 arith675 Understanding multiplication of a one-digit number with a larger number
 arith014 Multiplication of large numbers
 arith641 Multiples: Problem type 1
 arith642 Multiples: Problem type 2
 arith614 Word problem with multiplication or division of whole numbers
 arith130 Word problem with multiplication and addition or subtraction of whole numbers
 arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
 arith243 Division of whole numbers given in fractional form
 arith711 Division involving zero
 arith005 Division with carry
 arith901 Whole number division: 2-digit by 2-digit, no remainder
 arith902 Whole number division: 3-digit by 2-digit, no remainder
 arith616 Quotient and remainder: Problem type 1
 arith617 Quotient and remainder: Problem type 2
 arith631 Quotient and remainder: Problem type 3
 arith650 Division involving quotients with intermediate zeros
 arith023 Word problem with division of whole numbers and rounding
 arith651 Introduction to inequalities
 arith652 Comparing a numerical expression with a number
 arith077 Ordering large numbers
 arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith061 Rounding to thousands, ten thousands, or hundred thousands
 arith101 Estimating a sum of whole numbers
 arith102 Estimating a difference of whole numbers
 arith677 Estimating a product

arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith016 Square root of a perfect square
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge286 Plotting integers on a number line
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith431 Identifying a sum as a point located a given distance from another point
arith430 Identifying relative change when combining two quantities
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith440 Operations with absolute value: Problem type 1
arith104 Operations with absolute value: Problem type 2
alge694 Computing the distance between two integers on a number line
arith433 Computing and understanding distances between integers on a number line
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith952 Word problem with multiplication or division of integers
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division

alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom866 Perimeter and area on a grid
geom311 Volume of a rectangular prism
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge010 Additive property of equality with integers
alge008 Multiplicative property of equality with whole numbers
alge797 Multiplicative property of equality with integers

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
alge660 Identifying equivalent signed fractions
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith814 Signed fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
alge432 Introduction to adding fractions with variables and common denominators
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators

arith803 Addition and subtraction of 3 fractions with different denominators
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 arith805 Word problem involving addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith662 Writing a mixed number and an improper fraction for a shaded region
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith605 Plotting rational numbers on a number line
 arith215 Addition or subtraction of mixed numbers with the same denominator
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
 arith808 Addition of mixed numbers with different denominators and carry
 arith809 Subtraction of mixed numbers with different denominators and borrowing
 arith807 Addition and subtraction of 3 mixed numbers with different denominators
 arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
 arith815 Mixed number multiplication
 arith816 Multiplication of a mixed number and a whole number
 arith817 Division with a mixed number and a whole number
 arith068 Mixed number division
 arith820 Word problem involving multiplication or division with mixed numbers
 arith821 Exponents and fractions
 alge790 Evaluating expressions with exponents of zero
 arith704 Exponents and signed fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge801 Additive property of equality with fractions and mixed numbers
 alge836 Additive property of equality with signed fractions
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions

Decimals

arith127 Writing a decimal and a fraction for a shaded region
 arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced

arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith734 Subtraction of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith131 Estimating a decimal sum or difference
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
geom525 Computing distances between decimals on the number line
arith132 Word problem with addition or subtraction of 2 decimals
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith046 Decimal multiplication: Problem type 2
arith082 Multiplication of a decimal by a power of ten
arith738 Multiplication of a decimal by a power of 0.1
arith740 Multiplication of decimals that have a product less than 0.1
arith752 Estimating a product of decimals
arith750 Signed decimal multiplication
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith751 Signed decimal division
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith629 Word problem with multiple decimal operations: Problem type 2
arith103 Average of two numbers
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced
arith733 Using a calculator to convert a fraction to a rounded decimal
arith111 Converting a mixed number to a terminating decimal: Basic
arith112 Converting a mixed number to a terminating decimal: Advanced
arith732 Converting a fraction or mixed number to a rounded decimal
arith609 Ordering fractions and decimals
alge001 Identifying numbers as integers or non-integers
arith513 Identifying rational decimal numbers
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith748 Addition or subtraction with a decimal and a mixed number
arith749 Multiplication with a decimal and a fraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge800 Additive property of equality with decimals

alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith505 Word problem on unit rates associated with ratios of fractions
 arith506 Word problem on unit rates associated with ratios of mixed numbers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 arith500 Identifying proportional relationships in tables by calculating unit rates: Whole numbers
 arith510 Identifying proportional relationships in tables by calculating unit rates: Fractions
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time

mstat062 Reading a positive temperature from a thermometer
 mstat038 Reading the temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
 arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 unit052 Finding the absolute error and percent error of a measurement
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest
 arith915 Calculating income tax
 arith918 Comparing discounts
 arith909 Examining a savings plan for college
 arith914 Calculations involving paying for college
 arith920 Comparing total costs for attending different colleges
 arith922 Distinguishing between fixed and variable expenses

arith916 Computing percentages for categories of a budget
 arith919 Computations involving cost of living and hourly wage
 arith921 Comparing annual salaries of different occupations
 arith911 Calculations involving purchases with debit and credit cards
 arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score
 arith917 Computing a person's net worth
 arith906 Calculating and comparing monthly payments using the ALEKS loan calculator
 arith907 Calculating monthly payment, total payment, and interest using the ALEKS loan calculator
 arith908 Calculating and comparing total loan payments using the ALEKS loan calculator
 arith910 Calculating and comparing simple interest and compound interest

Equations and Inequalities

alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge666 Combining like terms: Fractional coefficients
 alge665 Combining like terms: Decimal coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions

alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge658 Introduction to solving a rational equation
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge016 Translating a sentence into a one-step equation
 alge671 Choosing stories that can be represented by given one-step equations
 alge841 Translating a sentence into a multi-step equation
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
 alge014 Solving a word problem with two unknowns using a linear equation
 alge673 Writing an equation to represent a real-world problem: Variable on both sides
 alge674 Writing and solving a real-world problem given an equation with the variable on both sides
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 alge796 Solving a distance, rate, time problem using a linear equation
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge621 Solving a word problem using a one-step linear inequality
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge846 Translating a sentence into a multi-step inequality

alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality

Graphing, Functions, and Sequences

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge191 Midpoint of a line segment in the plane
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge874 Identifying linear functions given ordered pairs
 geom358 Identifying parallel and perpendicular lines
 mstat007 Interpreting a line graph
 arith454 Making a table and plotting points given a unit rate
 arith501 Identifying proportional relationships in graphs: Basic
 arith502 Identifying proportional relationships in graphs: Advanced
 arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation
 alge699 Comparing proportional relationships given in different forms
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge814 Using right triangles to find the slope of a line
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y -intercept
 alge196 Graphing a line through a given point with a given slope
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations

alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 alge625 Identifying linear equations: Basic
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge913 Graphing an absolute value equation of the form $y = A - x -$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$

alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 alge815 Introduction to using substitution to solve a linear equation
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 pcalc038 Addition or subtraction of matrices
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge690 Introduction to the power of a power rule with positive exponents: Whole number base
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge688 Introduction to the quotient rule with positive exponents: Whole number base
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 arith029 Ordering numbers with positive exponents
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base

arith024 Ordering numbers with negative exponents
alge791 Rewriting an algebraic expression without a negative exponent
alge687 Introduction to the product rule with negative exponents: Whole number base
alge961 Introduction to the product rule with negative exponents
alge689 Introduction to the quotient rule with negative exponents: Whole number base
alge755 Quotient rule with negative exponents: Problem type 1
alge691 Introduction to the power of a power rule with negative exponents: Whole number base
alge025 Power of a power rule with negative exponents
scinot023 Introduction to scientific notation with positive exponents
arith036 Scientific notation with positive exponent
scinot024 Introduction to scientific notation with negative exponents
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation
scinot025 Estimating numbers using scientific notation
scinot020 Choosing metric units and converting to the base unit in scientific notation
scinot021 Expressing calculator notation as scientific notation
scinot008 Multiplying numbers written in scientific notation: Basic
scinot009 Multiplying numbers written in scientific notation: Advanced
scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
scinot010 Dividing numbers written in scientific notation: Basic
scinot011 Dividing numbers written in scientific notation: Advanced
scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
scinot015 Adding or subtracting numbers written in scientific notation: Same exponents, basic
scinot022 Adding or subtracting numbers written in scientific notation: Same exponents, advanced
scinot016 Adding or subtracting numbers written in scientific notation: Different exponents
scinot017 Estimating the sum or difference of two numbers written in scientific notation
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge029 Simplifying a sum or difference of three univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge032 Squaring a binomial: Univariate
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge039 Factoring a quadratic with leading coefficient 1
alge944 Factoring a perfect square trinomial with leading coefficient 1
alge290 Factoring a difference of squares in one variable: Basic
alge947 Factoring a difference of squares in one variable: Advanced
alge045 Finding the roots of a quadratic equation with leading coefficient 1
arith601 Square root of a rational perfect square
alge413 Finding all square roots of a number
arith760 Square roots of perfect squares with signs
arith763 Using a calculator to approximate a square root
arith602 Estimating a square root
alge567 Using numerical methods to approximate a square root to the nearest tenth
alge568 Using numerical methods to approximate a square root to the nearest hundredth
arith515 Approximating the location of irrational numbers on a number line
arith712 Ordering real numbers
arith514 Converting a repeating decimal to a fraction
arith432 Identifying true statements about rational and irrational numbers
alge002 Identifying numbers as rational or irrational
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial

arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge080 Simplifying a radical expression with an even exponent
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 geom564 Finding side lengths of squares given an area and a perimeter
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge542 Word problem involving radical equations: Basic
 arith094 Cube root of an integer
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge093 Solving an equation using the odd-root property: Problem type 1
 geom565 Finding the side length of a cube given its volume
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom530 Solving equations involving vertical angles
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom860 Special right triangles: Decimal answers
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1

geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon

Transformations

geom519 Identifying and naming congruent parts of congruent triangles
 geom520 Identifying and naming congruent triangles
 geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom357 Identifying transformations
 geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length

geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom582 Determining if figures are similar and related by a sequence of transformations

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 geom142 Word problem involving the area between two rectangles
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
 geom344 Area involving rectangles and triangles
 alge724 Finding an area in terms of variables
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom832 Area of quadrilaterals in the coordinate plane
 geom603 Identifying side lengths that give right triangles
 geom589 Demonstrating the converse of the Pythagorean Theorem
 geom588 Informal proof of the Pythagorean Theorem
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom126 Area of a sector of a circle: Exact answer in terms of pi
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom816 Side views of a solid made of cubes
 geom550 Identifying horizontal and vertical cross sections of solids
 geom354 Volume of a rectangular prism made of unit cubes
 geom518 Volume of a solid made of cubes with unit fraction edge lengths

geom535 Volume of a rectangular prism with fractional edge lengths
 alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom035 Volume of a cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of π
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom841 Volume of a sphere
 geom574 Word problem involving the volume of a sphere
 geom133 Ratio of volumes
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of π
 geom578 Word problem involving the surface area of a cylinder
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

Data Analysis and Probability

 mstat066 Weighted mean
 mstat028 Mean and median of a data set
 mstat029 How changing a value affects the mean and median
 mstat095 Finding outliers in a data set
 mstat053 Choosing the best measure to describe data
 mstat078 Comparing measures of center and variation
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat072 Five-number summary and interquartile range
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat090 Comparing sample means
 mstat082 Computing mean absolute deviation from a list of numerical values
 mstat083 Computing mean absolute deviation from a bar graph
 mstat084 Assessing the degree of overlap of two distributions
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 mstat099 Determining a sample space and outcomes for a simple event
 mstat100 Determining a sample space and outcomes for a compound event
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 mstat054 Classifying likelihood
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat039 Understanding likelihood
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event

B.88 CC Math 8

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
arith125 Whole number place value: Problem type 2
arith066 Expanded form
arith643 Expanded form with zeros
arith028 Numeral translation: Problem type 1
arith060 Numeral translation: Problem type 2
arith630 Addition with carry to the hundreds place
arith012 Addition of large numbers
arith006 Subtraction with borrowing
arith682 Subtraction with multiple regrouping steps
arith637 Subtraction and regrouping with zeros
arith613 Word problem with addition or subtraction of whole numbers
mstat061 Describing an increasing or decreasing pattern from a table of values
arith126 Multiplication as repeated addition
arith004 Multiplication with carry
arith615 Introduction to multiplication of large numbers
arith675 Understanding multiplication of a one-digit number with a larger number
arith014 Multiplication of large numbers
arith641 Multiples: Problem type 1
arith642 Multiples: Problem type 2
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith616 Quotient and remainder: Problem type 1
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property

arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge286 Plotting integers on a number line
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith431 Identifying a sum as a point located a given distance from another point
arith430 Identifying relative change when combining two quantities
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith440 Operations with absolute value: Problem type 1
arith104 Operations with absolute value: Problem type 2
alge694 Computing the distance between two integers on a number line
arith433 Computing and understanding distances between integers on a number line
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith952 Word problem with multiplication or division of integers
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom866 Perimeter and area on a grid
geom311 Volume of a rectangular prism
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge010 Additive property of equality with integers
alge008 Multiplicative property of equality with whole numbers
alge797 Multiplicative property of equality with integers

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
alge660 Identifying equivalent signed fractions
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith814 Signed fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
alge432 Introduction to adding fractions with variables and common denominators
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith605 Plotting rational numbers on a number line
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division

arith820 Word problem involving multiplication or division with mixed numbers
 arith821 Exponents and fractions
 alge790 Evaluating expressions with exponents of zero
 arith704 Exponents and signed fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge801 Additive property of equality with fractions and mixed numbers
 alge836 Additive property of equality with signed fractions
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions

Decimals

arith127 Writing a decimal and a fraction for a shaded region
 arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith734 Subtraction of aligned decimals
 arith735 Decimal subtraction: Basic
 arith736 Decimal subtraction: Advanced
 arith737 Decimal addition and subtraction with 3 or more numbers
 arith131 Estimating a decimal sum or difference
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 geom525 Computing distances between decimals on the number line
 arith132 Word problem with addition or subtraction of 2 decimals
 arith133 Word problem with addition of 3 or 4 decimals and whole numbers
 arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
 arith739 Introduction to decimal multiplication
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2
 arith082 Multiplication of a decimal by a power of ten
 arith738 Multiplication of a decimal by a power of 0.1
 arith740 Multiplication of decimals that have a product less than 0.1
 arith752 Estimating a product of decimals
 arith750 Signed decimal multiplication
 arith135 Word problem with multiplication of a decimal and a whole number

arith137 Word problem with multiplication of two decimals
 arith628 Word problem with multiple decimal operations: Problem type 1
 arith744 Whole number division with decimal answers
 arith081 Division of a decimal by a whole number
 arith743 Division of a decimal by a 1-digit decimal
 arith019 Division of a decimal by a 2-digit decimal
 arith083 Division of a decimal by a power of ten
 arith742 Division of a decimal by a power of 0.1
 arith745 Decimal division with rounding
 arith751 Signed decimal division
 arith136 Word problem with division of a decimal and a whole number
 arith138 Word problem with division of two decimals
 arith629 Word problem with multiple decimal operations: Problem type 2
 arith103 Average of two numbers
 arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
 arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
 arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
 arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
 arith727 Converting a fraction to a terminating decimal: Basic
 arith728 Converting a fraction to a terminating decimal: Advanced
 arith730 Converting a fraction to a repeating decimal: Basic
 arith731 Converting a fraction to a repeating decimal: Advanced
 arith733 Using a calculator to convert a fraction to a rounded decimal
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith732 Converting a fraction or mixed number to a rounded decimal
 arith609 Ordering fractions and decimals
 arith753 Squaring decimal bases: Products greater than 0.1
 arith741 Exponents and decimals: Products less than 0.1
 arith720 Order of operations with decimals: Problem type 1
 arith746 Order of operations with decimals: Problem type 2
 arith747 Order of operations with decimals: Problem type 3
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge800 Additive property of equality with decimals
 alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith505 Word problem on unit rates associated with ratios of fractions
 arith506 Word problem on unit rates associated with ratios of mixed numbers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1

arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 arith500 Identifying proportional relationships in tables by calculating unit rates: Whole numbers
 arith510 Identifying proportional relationships in tables by calculating unit rates: Fractions
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat038 Reading the temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10

arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 unit052 Finding the absolute error and percent error of a measurement
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest
 arith915 Calculating income tax
 arith918 Comparing discounts
 arith909 Examining a savings plan for college
 arith914 Calculations involving paying for college
 arith920 Comparing total costs for attending different colleges
 arith922 Distinguishing between fixed and variable expenses
 arith916 Computing percentages for categories of a budget
 arith919 Computations involving cost of living and hourly wage
 arith921 Comparing annual salaries of different occupations
 arith911 Calculations involving purchases with debit and credit cards
 arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score
 arith917 Computing a person's net worth
 arith906 Calculating and comparing monthly payments using the ALEKS loan calculator
 arith907 Calculating monthly payment, total payment, and interest using the ALEKS loan calculator
 arith908 Calculating and comparing total loan payments using the ALEKS loan calculator
 arith910 Calculating and comparing simple interest and compound interest

Equations and Inequalities

alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge666 Combining like terms: Fractional coefficients
 alge665 Combining like terms: Decimal coefficients

alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge658 Introduction to solving a rational equation
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge016 Translating a sentence into a one-step equation
 alge671 Choosing stories that can be represented by given one-step equations
 alge841 Translating a sentence into a multi-step equation
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem

alge014 Solving a word problem with two unknowns using a linear equation
 alge673 Writing an equation to represent a real-world problem: Variable on both sides
 alge674 Writing and solving a real-world problem given an equation with the variable on both sides
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 alge796 Solving a distance, rate, time problem using a linear equation
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge621 Solving a word problem using a one-step linear inequality
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality

Graphing, Functions, and Sequences

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge191 Midpoint of a line segment in the plane
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables

alge066 Finding a solution to a linear equation in two variables
alge280 Graphing a line in quadrant 1
alge877 Graphing a linear equation of the form $y = mx$
alge878 Graphing a line given its equation in slope-intercept form: Integer slope
alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
alge880 Graphing a line given its equation in standard form
alge198 Graphing a vertical or horizontal line
alge884 Finding x- and y-intercepts given the graph of a line on a grid
alge924 Finding x- and y-intercepts of a line given the equation: Basic
alge210 Finding x- and y-intercepts of a line given the equation: Advanced
alge197 Graphing a line given its x- and y-intercepts
alge881 Graphing a line by first finding its x- and y-intercepts
alge874 Identifying linear functions given ordered pairs
geom358 Identifying parallel and perpendicular lines
mstat007 Interpreting a line graph
arith454 Making a table and plotting points given a unit rate
arith501 Identifying proportional relationships in graphs: Basic
arith502 Identifying proportional relationships in graphs: Advanced
arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation
alge699 Comparing proportional relationships given in different forms
alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge814 Using right triangles to find the slope of a line
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y-intercept
alge196 Graphing a line through a given point with a given slope
alge982 Identifying direct variation equations
alge938 Identifying direct variation from ordered pairs and writing equations
alge904 Writing a direct variation equation
alge175 Word problem on direct variation
alge828 Interpreting direct variation from a graph
alge905 Writing an inverse variation equation
alge903 Identifying direct and inverse variation equations
alge902 Identifying direct and inverse variation from ordered pairs and writing equations
alge176 Word problem on inverse variation
alge220 Word problem on inverse proportions
alge625 Identifying linear equations: Basic
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y-intercept
alge258 Writing an equation of a line given its slope and y-intercept
alge892 Writing an equation and graphing a line given its slope and y-intercept
alge893 Writing an equation in slope-intercept form given the slope and a point
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge070 Writing an equation of a line given the y-intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
alge655 Writing and evaluating a function that models a real-world situation: Basic

alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge913 Graphing an absolute value equation of the form $y = A|x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 alge815 Introduction to using substitution to solve a linear equation
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge263 Interpreting the graphs of two functions

alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 pcalc038 Addition or subtraction of matrices
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge690 Introduction to the power of a power rule with positive exponents: Whole number base
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge688 Introduction to the quotient rule with positive exponents: Whole number base
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 arith029 Ordering numbers with positive exponents
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge687 Introduction to the product rule with negative exponents: Whole number base
 alge961 Introduction to the product rule with negative exponents
 alge689 Introduction to the quotient rule with negative exponents: Whole number base
 alge755 Quotient rule with negative exponents: Problem type 1
 alge691 Introduction to the power of a power rule with negative exponents: Whole number base
 alge025 Power of a power rule with negative exponents
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot025 Estimating numbers using scientific notation
 scinot020 Choosing metric units and converting to the base unit in scientific notation
 scinot021 Expressing calculator notation as scientific notation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
 scinot015 Adding or subtracting numbers written in scientific notation: Same exponents, basic
 scinot022 Adding or subtracting numbers written in scientific notation: Same exponents, advanced
 scinot016 Adding or subtracting numbers written in scientific notation: Different exponents

scinot017 Estimating the sum or difference of two numbers written in scientific notation
 alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge032 Squaring a binomial: Univariate
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge039 Factoring a quadratic with leading coefficient 1
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 arith016 Square root of a perfect square
 arith601 Square root of a rational perfect square
 alge413 Finding all square roots of a number
 arith760 Square roots of perfect squares with signs
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 alge567 Using numerical methods to approximate a square root to the nearest tenth
 alge568 Using numerical methods to approximate a square root to the nearest hundredth
 arith515 Approximating the location of irrational numbers on a number line
 arith712 Ordering real numbers
 alge001 Identifying numbers as integers or non-integers
 arith513 Identifying rational decimal numbers
 arith514 Converting a repeating decimal to a fraction
 arith432 Identifying true statements about rational and irrational numbers
 alge002 Identifying numbers as rational or irrational
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge080 Simplifying a radical expression with an even exponent
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 geom564 Finding side lengths of squares given an area and a perimeter
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge542 Word problem involving radical equations: Basic
 arith094 Cube root of an integer
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge093 Solving an equation using the odd-root property: Problem type 1
 geom565 Finding the side length of a cube given its volume
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly

alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom530 Solving equations involving vertical angles
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom860 Special right triangles: Decimal answers
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram

geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon

Transformations

geom519 Identifying and naming congruent parts of congruent triangles
 geom520 Identifying and naming congruent triangles
 geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom357 Identifying transformations
 geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom582 Determining if figures are similar and related by a sequence of transformations

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers

alge616 Writing algebraic expressions for the area of a figure
geom410 Word problem involving the area of a square or a rectangle
geom143 Finding the perimeter or area of a rectangle given one of these values
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
geom142 Word problem involving the area between two rectangles
geom501 Finding the area of a right triangle on a grid
geom509 Finding the area of a right triangle or its corresponding rectangle
geom801 Area of a triangle
geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
geom344 Area involving rectangles and triangles
alge724 Finding an area in terms of variables
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom537 Finding the perimeter or area of a rectangle in the coordinate plane
geom832 Area of quadrilaterals in the coordinate plane
geom603 Identifying side lengths that give right triangles
geom589 Demonstrating the converse of the Pythagorean Theorem
geom588 Informal proof of the Pythagorean Theorem
geom347 Introduction to a circle: Diameter, radius, and chord
geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom838 Circumference ratios
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom570 Distinguishing between the area and circumference of a circle
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom126 Area of a sector of a circle: Exact answer in terms of π
geom868 Classifying solids
geom348 Vertices, edges, and faces of a solid
geom830 Counting the cubes in a solid made of cubes
geom816 Side views of a solid made of cubes
geom550 Identifying horizontal and vertical cross sections of solids
geom354 Volume of a rectangular prism made of unit cubes
geom518 Volume of a solid made of cubes with unit fraction edge lengths
geom535 Volume of a rectangular prism with fractional edge lengths
alge617 Writing equivalent expressions for the volume of a rectangular prism
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom505 Volume of a piecewise rectangular prism
geom090 Volume of a triangular prism
geom572 Word problem involving the volume of a triangular prism
geom033 Volume of a pyramid
geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
geom638 Relating the volumes of a triangular prism and a triangular pyramid
geom035 Volume of a cylinder
geom573 Word problem involving the volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom622 Volume of a cone
geom086 Volume of a cone: Exact answers in terms of π
geom639 Relating the volumes of a cylinder and a cone
geom575 Word problem involving the volume of a cone
geom841 Volume of a sphere
geom574 Word problem involving the volume of a sphere
geom133 Ratio of volumes
geom219 Nets of solids
geom031 Surface area of a cube or a rectangular prism

geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

Data Analysis and Probability

 mstat079 Finding sample size and comparing samples for estimating the mean
 mstat089 Computations involving the mean, sample size, and sum of a data set
 stat803 Finding the value for a new score that will yield a given mean
 stat802 Rejecting unreasonable claims based on average statistics
 mstat066 Weighted mean
 mstat028 Mean and median of a data set
 mstat029 How changing a value affects the mean and median
 mstat095 Finding outliers in a data set
 mstat053 Choosing the best measure to describe data

mstat078 Comparing measures of center and variation
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat072 Five-number summary and interquartile range
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat090 Comparing sample means
 mstat082 Computing mean absolute deviation from a list of numerical values
 mstat083 Computing mean absolute deviation from a bar graph
 mstat084 Assessing the degree of overlap of two distributions
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 mstat099 Determining a sample space and outcomes for a simple event
 mstat100 Determining a sample space and outcomes for a compound event
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 mstat054 Classifying likelihood
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat039 Understanding likelihood
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event

B.89 CC Algebra 1

Arithmetic Readiness

arith067 Simplifying a fraction
 arith212 Equivalent fractions
 arith711 Division involving zero
 arith070 Least common multiple of 2 numbers
 arith804 Least common multiple of 3 numbers
 arith418 Word problem involving the least common multiple of 2 numbers
 arith240 Word problem with common multiples
 arith801 Finding the LCD of two fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith803 Addition and subtraction of 3 fractions with different denominators
 arith805 Word problem involving addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith812 Product of a fraction and a whole number: Problem type 2
 arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
 arith813 Multiplication of 3 fractions

arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith695 Complex fraction without variables: Problem type 1
arith819 Word problem involving fractions and division
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division
arith820 Word problem involving multiplication or division with mixed numbers
arith110 Decimal place value: Tenths and hundredths
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith221 Rounding decimals
arith687 Fractional position on a number line
arith092 Using a common denominator to order fractions
arith829 Reading decimal position on a number line: Tenths
arith830 Reading decimal position on a number line: Hundredths
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith733 Using a calculator to convert a fraction to a rounded decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
arith609 Ordering fractions and decimals
arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith101 Estimating a sum of whole numbers
arith131 Estimating a decimal sum or difference
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith082 Multiplication of a decimal by a power of ten
arith752 Estimating a product of decimals
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith138 Word problem with division of two decimals
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced
arith823 Writing ratios using different notations
arith663 Writing ratios for real-world situations

arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith064 Solving a word problem on proportions using a unit rate
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith834 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith686 Writing a ratio as a percentage
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit012 Time unit conversion with whole number values
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 unit034 Converting between metric and U.S. Customary unit systems

Real Numbers

alge286 Plotting integers on a number line
 arith691 Ordering integers
 arith415 Using a number line to compare integers
 mstat038 Reading the temperature from a thermometer
 arith699 Writing a signed number for a real-world situation
 arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
 arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
 arith416 Comparing signed numbers relating to a real-world situation
 arith402 Plotting opposite integers on a number line
 arith403 Finding opposites of integers
 arith667 Plotting fractions on a number line
 arith605 Plotting rational numbers on a number line
 arith016 Square root of a perfect square
 arith763 Using a calculator to approximate a square root
 arith515 Approximating the location of irrational numbers on a number line
 arith712 Ordering real numbers
 arith071 Absolute value of a number
 arith412 Finding all numbers with a given absolute value
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith430 Identifying relative change when combining two quantities
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith755 Addition and subtraction with 4 or 5 integers
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division

arith800 Multiplication of 3 or 4 integers
arith952 Word problem with multiplication or division of integers
alge660 Identifying equivalent signed fractions
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith814 Signed fraction division
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith750 Signed decimal multiplication
arith751 Signed decimal division
arith440 Operations with absolute value: Problem type 1
arith104 Operations with absolute value: Problem type 2
alge694 Computing the distance between two integers on a number line
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith821 Exponents and fractions
arith859 Order of operations with fractions: Problem type 1
arith860 Order of operations with fractions: Problem type 2
arith861 Order of operations with fractions: Problem type 3
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
mstat065 Converting between temperatures in Fahrenheit and Celsius
alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge001 Identifying numbers as integers or non-integers
arith513 Identifying rational decimal numbers
arith432 Identifying true statements about rational and irrational numbers
alge002 Identifying numbers as rational or irrational
alge700 Combining like terms: Whole number coefficients
alge432 Introduction to adding fractions with variables and common denominators
alge607 Combining like terms: Integer coefficients
alge187 Properties of addition
alge666 Combining like terms: Fractional coefficients
alge665 Combining like terms: Decimal coefficients
arith409 Introduction to the distributive property
arith657 Understanding the distributive property

alge310 Multiplying a constant and a linear monomial
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge610 Distributive property: Fractional coefficients
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
alge605 Factoring a linear binomial
alge612 Identifying parts in an algebraic expression
alge613 Identifying equivalent algebraic expressions
alge188 Properties of real numbers
alge608 Using distribution and combining like terms to simplify: Univariate
alge667 Identifying properties used to simplify an algebraic expression
alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
alge293 Combining like terms in a quadratic expression
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge801 Additive property of equality with fractions and mixed numbers
alge800 Additive property of equality with decimals
alge010 Additive property of equality with integers
alge836 Additive property of equality with signed fractions
alge008 Multiplicative property of equality with whole numbers
alge646 Multiplicative property of equality with whole numbers: Fractional answers
alge820 Multiplicative property of equality with fractions
alge825 Multiplicative property of equality with decimals
alge797 Multiplicative property of equality with integers
alge012 Multiplicative property of equality with signed fractions
geom300 Perimeter of a square or a rectangle
geom221 Finding the missing length in a figure
alge615 Writing algebraic expressions for the perimeter of a figure
geom019 Area of a square or a rectangle
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
alge616 Writing algebraic expressions for the area of a figure
geom410 Word problem involving the area of a square or a rectangle
geom142 Word problem involving the area between two rectangles
geom022 Area of a parallelogram
geom801 Area of a triangle
geom023 Area of a trapezoid
geom016 Circumference of a circle
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom477 Circumference and area of a circle: Exact answers in terms of pi
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom311 Volume of a rectangular prism
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom090 Volume of a triangular prism
geom035 Volume of a cylinder
geom573 Word problem involving the volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom033 Volume of a pyramid
geom622 Volume of a cone
geom086 Volume of a cone: Exact answers in terms of pi
geom841 Volume of a sphere

geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere

Linear Equations

alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge815 Introduction to using substitution to solve a linear equation
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 arith504 Writing an equation to represent a proportional relationship
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge671 Choosing stories that can be represented by given one-step equations
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations

alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
alge014 Solving a word problem with two unknowns using a linear equation
alge673 Writing an equation to represent a real-world problem: Variable on both sides
alge674 Writing and solving a real-world problem given an equation with the variable on both sides
alge730 Writing a multi-step equation for a real-world situation
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge794 Solving a value mixture problem using a linear equation
alge218 Solving a word problem involving rates and time conversion
alge823 Solving a one-step word problem using the formula $d = rt$
alge796 Solving a distance, rate, time problem using a linear equation
unit035 Converting between compound units: Basic
unit036 Converting between compound units: Advanced
arith514 Converting a repeating decimal to a fraction
alge819 Solving a proportion of the form $x/a=b/c$: Basic
alge272 Solving a proportion of the form $x/a = b/c$
alge840 Solving a proportion of the form $(x+a)\div b = c\div d$;
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge658 Introduction to solving a rational equation
alge060 Solving a rational equation that simplifies to linear: Denominator x
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
arith862 Applying the percent equation: Problem type 1
arith863 Applying the percent equation: Problem type 2
arith849 Finding the total amount given the percentage of a partial amount
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
unit052 Finding the absolute error and percent error of a measurement
arith854 Computing a percent mixture
alge795 Solving a percent mixture problem using a linear equation
arith232 Finding simple interest without a calculator
arith853 Introduction to compound interest
geom564 Finding side lengths of squares given an area and a perimeter
geom648 Finding side lengths of rectangles given one dimension and an area or a perimeter
geom444 Word problem on optimizing an area or perimeter
geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
geom143 Finding the perimeter or area of a rectangle given one of these values
geom817 Finding a side length given the perimeter and side lengths with variables
geom838 Circumference ratios
geom039 Finding supplementary and complementary angles
geom500 Solving equations involving vertical angles and linear pairs
geom001 Finding an angle measure of a triangle given two angles
geom628 Finding angle measures of a triangle given angles with variables
geom037 Similar polygons
geom038 Similar right triangles
geom337 Indirect measurement
geom538 Finding lengths using scale models
geom539 Finding a scale factor: Same units
geom541 Using a scale drawing to find actual area
geom542 Reproducing a scale drawing at a different scale

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 set001 Set builder notation
 set002 Union and intersection of finite sets
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge621 Solving a word problem using a one-step linear inequality
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge868 Solving an absolute value inequality: Problem type 1
 alge943 Writing an absolute value inequality given a graph on the number line
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules

alge873 Identifying solutions to a linear equation in two variables
alge066 Finding a solution to a linear equation in two variables
alge877 Graphing a linear equation of the form $y = mx$
alge878 Graphing a line given its equation in slope-intercept form: Integer slope
alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
alge880 Graphing a line given its equation in standard form
alge198 Graphing a vertical or horizontal line
alge884 Finding x - and y -intercepts given the graph of a line on a grid
alge924 Finding x - and y -intercepts of a line given the equation: Basic
alge210 Finding x - and y -intercepts of a line given the equation: Advanced
alge197 Graphing a line given its x - and y -intercepts
alge881 Graphing a line by first finding its x - and y -intercepts
mstat007 Interpreting a line graph
alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y -intercept
alge196 Graphing a line through a given point with a given slope
alge625 Identifying linear equations: Basic
alge876 Identifying linear equations: Advanced
alge874 Identifying linear functions given ordered pairs
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y -intercept
alge258 Writing an equation of a line given its slope and y -intercept
alge892 Writing an equation and graphing a line given its slope and y -intercept
alge314 Finding the slope, y -intercept, and equation for a linear function given a table of values
alge893 Writing an equation in slope-intercept form given the slope and a point
alge318 Finding the slope and a point on a line given its equation in point-slope form
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge313 Writing an equation in standard form given the slope and a point
alge070 Writing an equation of a line given the y -intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
alge322 Comparing linear functions to the parent function $y=x$
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
geom462 Identifying parallel and perpendicular lines from coordinates
alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
alge655 Writing and evaluating a function that models a real-world situation: Basic
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge817 Finding the initial amount and rate of change given a table for a linear function
alge818 Finding the initial amount and rate of change given a graph of a linear function
alge992 Combining functions to write a new function that models a real-world situation
alge987 Comparing properties of linear functions given in different forms
alge989 Interpreting the parameters of a linear function that models a real-world situation
alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
alge806 Application problem with a linear function: Finding a coordinate given two points
alge670 Identifying independent and dependent quantities from tables and graphs

mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge991 Solving a linear equation by graphing
 mstat094 Constructing a scatter plot
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat093 Classifying linear and nonlinear relationships from scatter plots
 mstat071 Linear relationship and the correlation coefficient
 mstat096 Identifying outliers and clustering in scatter plots
 mstat074 Identifying correlation and causation
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun030 Evaluating a piecewise-defined function
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge312 Finding domain and range from a linear graph in context
 pcalc750 Finding intercepts of a nonlinear function given its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge913 Graphing an absolute value equation of the form $y = A - x -$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun031 Graphing a piecewise-defined function: Problem type 1
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph
 alge953 Translating the graph of a parabola: One step
 alge723 How the leading coefficient affects the shape of a parabola
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge185 Writing an equation for a function after a vertical translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps

pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 pcalc773 Transforming the graph of a function using more than one transformation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge910 Writing a recursive rule for an arithmetic sequence

Linear Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 pcalc820 Using a graphing calculator to solve a system of linear equations: Basic
 pcalc821 Using a graphing calculator to solve a system of linear equations: Advanced
 alge317 Writing a system of linear equations given its graph
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge988 Identifying the operations used to create equivalent systems of equations
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge315 Writing an inequality given its graph in the plane: Horizontal or vertical boundary line
 alge316 Writing an inequality given its graph in the plane: Slanted boundary line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1

Exponents and Exponential Functions

alge821 Understanding the product rule of exponents
alge024 Introduction to the product rule of exponents
alge311 Product rule with positive exponents: Univariate
alge030 Product rule with positive exponents: Multivariate
arith029 Ordering numbers with positive exponents
alge826 Understanding the power rules of exponents
alge306 Introduction to the power of a power rule of exponents
alge305 Introduction to the power of a product rule of exponents
alge307 Power rules with positive exponents: Multivariate products
alge308 Power rules with positive exponents: Multivariate quotients
alge756 Power and product rules with positive exponents
alge451 Simplifying a ratio of multivariate monomials: Basic
alge827 Introduction to the quotient rule of exponents
alge452 Simplifying a ratio of univariate monomials
alge026 Quotient of expressions involving exponents
alge453 Simplifying a ratio of multivariate monomials: Advanced
alge927 Power and quotient rules with positive exponents
alge790 Evaluating expressions with exponents of zero
arith684 Power of 10: Negative exponent
arith729 Evaluating an expression with a negative exponent: Whole number base
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith043 Evaluating an expression with a negative exponent: Negative integer base
arith024 Ordering numbers with negative exponents
alge791 Rewriting an algebraic expression without a negative exponent
alge961 Introduction to the product rule with negative exponents
alge028 Product rule with negative exponents
alge755 Quotient rule with negative exponents: Problem type 1
alge926 Quotient rule with negative exponents: Problem type 2
alge025 Power of a power rule with negative exponents
alge799 Power rules with negative exponents
alge928 Power and quotient rules with negative exponents: Problem type 1
alge929 Power and quotient rules with negative exponents: Problem type 2
alge757 Power, product, and quotient rules with negative exponents
scinot023 Introduction to scientific notation with positive exponents
arith036 Scientific notation with positive exponent
scinot024 Introduction to scientific notation with negative exponents
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation
scinot021 Expressing calculator notation as scientific notation
scinot008 Multiplying numbers written in scientific notation: Basic
scinot009 Multiplying numbers written in scientific notation: Advanced
scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
scinot010 Dividing numbers written in scientific notation: Basic
scinot011 Dividing numbers written in scientific notation: Advanced
scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
alge971 Table for an exponential function
alge969 Graphing an exponential function: $f(x) = ax$
alge970 Graphing an exponential function: $f(x) = a(b)^x$
alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
alge321 Finding domain and range from the graph of an exponential function
pcalc922 Translating the graph of an exponential function
alge830 Evaluating an exponential function that models a real-world situation
alge301 Solving an exponential equation by finding common bases: Linear exponents
alge177 Finding a final amount in a word problem on exponential growth or decay
alge741 Finding the final amount in a word problem on compound interest
alge966 Finding the initial amount and rate of change given an exponential function
alge968 Writing an equation that models exponential growth or decay
alge967 Writing an exponential function rule given a table of ordered pairs
mstat103 Choosing an exponential model and using it to make a prediction
alge993 Comparing linear, polynomial, and exponential functions
alge645 Finding the first terms of a geometric sequence using an explicit rule
alge933 Finding the next terms of a geometric sequence with whole numbers

alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge930 Greatest common factor of three univariate monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables

alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes

Quadratic Functions and Equations

alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge323 Finding the zeros of a quadratic function given its equation
 alge163 Writing a quadratic equation given the roots and the leading coefficient
 alge703 Solving a word problem using a quadratic equation with rational roots
 arith601 Square root of a rational perfect square
 arith760 Square roots of perfect squares with signs
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge963 Applying the quadratic formula: Decimal answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge320 Writing a quadratic function given its zeros
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc714 Using a graphing calculator to find the zeros of a quadratic function
 pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
 alge319 Rewriting a quadratic function in standard form
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 mstat102 Choosing a quadratic model and using it to make a prediction
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 pcalc716 Using a graphing calculator to solve a system of linear and quadratic equations: Basic
 fun019 Sum, difference, and product of two functions
 alge716 Introduction to the composition of two functions
 fun022 Composition of two functions: Basic
 fun011 Horizontal line test

fun012 Inverse functions: Linear, discrete
pcalc114 Even and odd functions: Problem type 1

Radicals

alge413 Finding all square roots of a number
arith602 Estimating a square root
arith761 Square roots of integers raised to even exponents
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial
alge537 Using absolute value to simplify square roots of perfect square monomials
arith094 Cube root of an integer
alge549 Finding n th roots of perfect n th powers with signs
arith768 Finding the n th root of a perfect n th power fraction
alge550 Finding the n th root of a perfect n th power monomial
alge539 Table for a square root function
alge565 Domain of a square root function: Basic
alge566 Domain of a square root function: Advanced
alge543 Graphing a square root function: Problem type 1
alge544 Graphing a square root function: Problem type 2
alge545 Graphing a square root function: Problem type 3
alge812 Converting between radical form and exponent form
alge560 Rational exponents: Unit fraction exponents and whole number bases
alge561 Rational exponents: Unit fraction exponents and bases involving signs
alge250 Rational exponents: Non-unit fraction exponent with a whole number base
alge251 Rational exponents: Negative exponents and fractional bases
alge558 Rational exponents: Product rule
alge559 Rational exponents: Quotient rule
alge773 Rational exponents: Products and quotients with negative exponents
alge562 Rational exponents: Power of a power rule
alge249 Rational exponents: Powers of powers with negative exponents
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
alge275 Simplifying a radical expression with two variables
alge273 Simplifying a higher root of a whole number
alge551 Introduction to simplifying a higher radical expression
alge552 Simplifying a higher radical expression: Univariate
alge811 Simplifying a higher radical expression: Multivariate
arith767 Introduction to square root addition or subtraction
arith032 Square root addition or subtraction
alge533 Square root addition or subtraction with three terms
alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
alge532 Simplifying a sum or difference of radical expressions: Univariate
alge084 Simplifying a sum or difference of radical expressions: Multivariate
arith764 Introduction to square root multiplication
arith765 Square root multiplication: Basic
arith039 Square root multiplication: Advanced
alge522 Introduction to simplifying a product of radical expressions: Univariate
alge523 Simplifying a product of radical expressions: Univariate
alge640 Simplifying a product of radical expressions: Multivariate
alge556 Introduction to simplifying a product of higher roots
alge557 Simplifying a product of higher radical expressions
alge525 Introduction to simplifying a product involving square roots using the distributive property
alge526 Simplifying a product involving square roots using the distributive property: Basic
alge276 Simplifying a product involving square roots using the distributive property: Advanced
alge774 Special products of radical expressions: Conjugates and squaring
alge984 Classifying sums and products as rational or irrational
arith766 Simplifying a quotient of square roots
alge530 Simplifying a quotient involving a sum or difference with a square root

alge527 Rationalizing a denominator: Quotient involving square roots
 alge528 Rationalizing a denominator: Square root of a fraction
 alge529 Rationalizing a denominator: Quotient involving a monomial
 alge534 Rationalizing a denominator using conjugates: Integer numerator
 alge535 Rationalizing a denominator using conjugates: Square root in numerator
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
 alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
 alge411 Solving a radical equation with a quadratic expression under the radical
 alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 alge412 Algebraic symbol manipulation with radicals
 alge542 Word problem involving radical equations: Basic
 alge409 Word problem involving radical equations: Advanced
 alge698 Solving an equation of the form $x^3 = a$ using integers
 geom565 Finding the side length of a cube given its volume
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 geom603 Identifying side lengths that give right triangles
 geom588 Informal proof of the Pythagorean Theorem
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

mstat032 Probability of the union of two events
mstat117 Probability of intersection or union: Word problems

mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event
 mstat114 Using a random number table to make a fair decision
 stat021 Population standard deviation
 stat852 Word problem involving calculations from a normal distribution

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge467 Restriction on a variable in a denominator: Quadratic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 pcalc682 Evaluating functions: Absolute value, rational, radical
 alge715 Domain of a rational function: Excluded values
 alge454 Simplifying a ratio of factored polynomials: Linear factors
 alge455 Simplifying a ratio of factored polynomials: Factors with exponents
 alge456 Simplifying a ratio of polynomials using GCF factoring
 alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
 alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge459 Simplifying a ratio of polynomials: Problem type 3
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge460 Multiplying rational expressions made up of linear expressions
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
 alge462 Multiplying rational expressions involving multivariate quadratics
 alge054 Dividing rational expressions involving multivariate monomials
 alge463 Dividing rational expressions involving linear expressions
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
 alge465 Dividing rational expressions involving multivariate quadratics
 alge466 Multiplication and division of 3 rational expressions
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
 alge428 Finding the LCD of rational expressions with linear denominators: Common factors
 alge429 Finding the LCD of rational expressions with quadratic denominators
 alge430 Writing equivalent rational expressions with monomial denominators
 alge431 Writing equivalent rational expressions with polynomial denominators
 alge304 Writing equivalent rational expressions involving opposite factors
 alge433 Adding rational expressions with common denominators and monomial numerators
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge434 Adding rational expressions with common denominators and GCF factoring
 alge435 Adding rational expressions with common denominators and quadratic factoring
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge437 Adding rational expressions with denominators ax and bx : Basic
 alge438 Adding rational expressions with denominators ax and bx : Advanced
 alge439 Adding rational expressions with denominators axn and bxm
 alge440 Adding rational expressions with multivariate monomial denominators: Basic
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge441 Adding rational expressions with linear denominators without common factors: Basic
 alge442 Adding rational expressions with linear denominators without common factors: Advanced
 alge443 Adding rational expressions with linear denominators with common factors: Basic
 alge444 Adding rational expressions with linear denominators with common factors: Advanced
 alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
 alge661 Adding rational expressions involving different quadratic denominators
 alge446 Adding 3 rational expressions with different quadratic denominators
 arith696 Complex fraction without variables: Problem type 2

alge470 Complex fraction involving univariate monomials
 alge058 Complex fraction involving multivariate monomials
 alge471 Complex fraction: GCF factoring
 alge472 Complex fraction: Quadratic factoring
 alge473 Complex fraction made of sums involving rational expressions: Problem type 1
 alge474 Complex fraction made of sums involving rational expressions: Problem type 2
 alge475 Complex fraction made of sums involving rational expressions: Problem type 3
 alge476 Complex fraction made of sums involving rational expressions: Problem type 4
 alge477 Complex fraction made of sums involving rational expressions: Problem type 5
 alge478 Complex fraction made of sums involving rational expressions: Problem type 6
 alge479 Complex fraction made of sums involving rational expressions: Multivariate
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
 alge422 Solving a rational equation that simplifies to linear: Like binomial denominators
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
 alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1
 alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
 alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge450 Solving a distance, rate, time problem using a rational equation
 alge059 Ordering fractions with variables
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation
 pcalc917 Finding the asymptotes of a rational function: Constant over linear
 pcalc918 Finding the asymptotes of a rational function: Linear over linear
 alge515 Graphing a rational function: Constant over linear
 alge516 Graphing a rational function: Linear over linear

Algebra Review

arith233 Introduction to exponents
 arith048 Order of operations with whole numbers
 arith051 Order of operations with whole numbers and grouping symbols
 arith693 Order of operations with whole numbers and exponents: Basic
 arith067 Simplifying a fraction
 arith212 Equivalent fractions
 arith687 Fractional position on a number line
 arith667 Plotting fractions on a number line
 arith711 Division involving zero
 arith070 Least common multiple of 2 numbers
 arith804 Least common multiple of 3 numbers
 arith801 Finding the LCD of two fractions

arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith813 Multiplication of 3 fractions
arith821 Exponents and fractions
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith695 Complex fraction without variables: Problem type 1
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith068 Mixed number division
arith110 Decimal place value: Tenths and hundredths
arith221 Rounding decimals
arith129 Introduction to ordering decimals
arith733 Using a calculator to convert a fraction to a rounded decimal
arith624 Addition of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith082 Multiplication of a decimal by a power of ten
arith081 Division of a decimal by a whole number
arith083 Division of a decimal by a power of ten
alge286 Plotting integers on a number line
arith605 Plotting rational numbers on a number line
arith691 Ordering integers
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith118 Order of operations with integers
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith822 Signed fraction multiplication: Basic
arith117 Signed decimal addition and subtraction
arith702 Exponents and integers: Problem type 1
arith704 Exponents and signed fractions
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith440 Operations with absolute value: Problem type 1
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
alge700 Combining like terms: Whole number coefficients

alge607 Combining like terms: Integer coefficients
alge310 Multiplying a constant and a linear monomial
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge610 Distributive property: Fractional coefficients
alge608 Using distribution and combining like terms to simplify: Univariate
alge293 Combining like terms in a quadratic expression
alge432 Introduction to adding fractions with variables and common denominators
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge800 Additive property of equality with decimals
alge010 Additive property of equality with integers
alge836 Additive property of equality with signed fractions
alge008 Multiplicative property of equality with whole numbers
alge646 Multiplicative property of equality with whole numbers: Fractional answers
alge820 Multiplicative property of equality with fractions
alge825 Multiplicative property of equality with decimals
alge797 Multiplicative property of equality with integers
alge012 Multiplicative property of equality with signed fractions
alge834 Identifying solutions to a linear equation in one variable: Two-step equations
alge803 Using two steps to solve an equation with whole numbers
alge266 Additive property of equality with a negative coefficient
alge006 Solving a two-step equation with integers
alge815 Introduction to using substitution to solve a linear equation
alge200 Solving an equation to find the value of an expression
alge920 Introduction to solving an equation with parentheses
alge837 Solving a multi-step equation given in fractional form
alge986 Identifying properties used to solve a linear equation
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge611 Introduction to solving a linear equation with a variable on each side
alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge614 Clearing fractions in an equation
alge208 Solving a two-step equation with signed fractions
alge603 Introduction to solving an absolute value equation
alge658 Introduction to solving a rational equation
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge831 Translating a phrase into a one-step expression
alge016 Translating a sentence into a one-step equation
arith504 Writing an equation to represent a proportional relationship
alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge518 Solving for a variable inside parentheses in terms of other variables
alge507 Solving for a variable in terms of other variables in a linear equation with fractions
arith834 Converting between percentages and decimals
arith843 Using a calculator to convert a fraction to a rounded percentage
arith030 Finding a percentage of a whole number without a calculator: Basic
arith840 Finding a percentage of a whole number
arith862 Applying the percent equation: Problem type 1
arith686 Writing a ratio as a percentage
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease

arith858 Finding the percentage increase or decrease: Basic
alge015 Translating a sentence by using an inequality symbol
alge653 Introduction to identifying solutions to an inequality
alge017 Graphing a linear inequality on the number line
alge186 Translating a sentence into a compound inequality
alge166 Graphing a compound inequality on the number line
alge652 Identifying solutions to a one-step linear inequality
alge848 Additive property of inequality with whole numbers
alge849 Additive property of inequality with integers
alge809 Multiplicative property of inequality with whole numbers
alge854 Multiplicative property of inequality with integers
alge964 Multiplicative property of inequality with signed fractions
alge844 Identifying solutions to a two-step linear inequality in one variable
alge636 Solving a two-step linear inequality with whole numbers
alge855 Solving a two-step linear inequality: Problem type 1
alge856 Solving a two-step linear inequality: Problem type 2
alge857 Solving a two-step linear inequality with a fractional coefficient
alge024 Introduction to the product rule of exponents
alge311 Product rule with positive exponents: Univariate
alge306 Introduction to the power of a power rule of exponents
alge305 Introduction to the power of a product rule of exponents
alge451 Simplifying a ratio of multivariate monomials: Basic
alge827 Introduction to the quotient rule of exponents
alge452 Simplifying a ratio of univariate monomials
alge026 Quotient of expressions involving exponents
alge798 Simplifying a sum or difference of two univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge764 Multiplying conjugate binomials: Univariate
alge765 Multiplying binomials in two variables
alge032 Squaring a binomial: Univariate
alge068 Squaring a binomial: Multivariate
arith056 Factors
arith033 Greatest common factor of 2 numbers
alge605 Factoring a linear binomial
alge736 Introduction to the GCF of two monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge039 Factoring a quadratic with leading coefficient 1
alge936 Factoring out a constant before factoring a quadratic
alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
alge944 Factoring a perfect square trinomial with leading coefficient 1
arith016 Square root of a perfect square
arith763 Using a calculator to approximate a square root
arith601 Square root of a rational perfect square
arith760 Square roots of perfect squares with signs
arith761 Square roots of integers raised to even exponents
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial
alge537 Using absolute value to simplify square roots of perfect square monomials
arith094 Cube root of an integer
arith093 Simplifying the square root of a whole number less than 100
arith762 Simplifying the square root of a whole number greater than 100
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
arith764 Introduction to square root multiplication
arith765 Square root multiplication: Basic
arith767 Introduction to square root addition or subtraction
arith766 Simplifying a quotient of square roots
alge527 Rationalizing a denominator: Quotient involving square roots

alge528 Rationalizing a denominator: Square root of a fraction
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge095 Applying the quadratic formula: Exact answers
 alge963 Applying the quadratic formula: Decimal answers
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle

Segments and Angles

geom349 Naming segments, rays, and lines
 geom459 Analyzing relationships between points, lines, and planes given a figure
 geom359 Identifying congruent shapes on a grid

geom358 Identifying parallel and perpendicular lines
 geom407 Matching basic geometric terms with their definitions
 geom392 Introduction to segment addition
 alge694 Computing the distance between two integers on a number line
 geom394 Computing distances between decimals on a number line
 geom393 Finding a point on a number line given the length of a segment and another point
 geom395 Midpoint of a number line segment: Integers
 geom396 Midpoint of a number line segment: Decimals
 geom397 Using a segment's midpoint and endpoint to locate the other endpoint
 geom521 Segment addition and midpoints
 geom399 Finding a point that partitions a number line segment in a given fractional relationship
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge850 Table for a linear equation
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 geom458 Identifying congruent segments in the plane
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 geom406 Finding a point that partitions a segment in the plane in a given fractional relationship
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom460 Naming angles, sides of angles, and vertices
 geom039 Finding supplementary and complementary angles
 geom454 Introduction to angle addition
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom850 Angle addition with relationships between angles
 geom851 Angle addition and angle bisectors
 geom800 Identifying linear pairs and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom500 Solving equations involving vertical angles and linear pairs
 geom389 Constructing congruent line segments
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom154 Constructing the perpendicular bisector of a line segment
 geom457 Making conjectures given a geometric construction

Reasoning

alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge732 Finding patterns in shapes
 mstat042 Interpreting a Venn diagram of 2 sets
 glogic001 Conditional statements and negations
 glogic005 The converse, inverse, and contrapositive of a conditional statement
 glogic011 Writing the converse, inverse, and contrapositive of a conditional statement and determining their truth values

glogic012 Writing a biconditional statement as a conditional statement and its converse and determining truth values
 glogic013 Finding counterexamples to conjectures
 glogic008 Conditional statements and deductive reasoning
 geom665 Distinguishing between undefined terms, definitions, postulates, conjectures, and theorems
 geom616 Introduction to proofs: Justifying statements
 geom614 Proofs involving segment congruence
 geom611 Proofs involving angle congruence

Lines

geom304 Identifying corresponding and alternate angles
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom503 Solving equations involving angles and two pairs of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom835 Introduction to proofs involving parallel lines
 geom836 Proofs involving parallel lines
 fun001 Table for a linear function
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge814 Using right triangles to find the slope of a line
 alge259 Graphing a line given its slope and y -intercept
 alge196 Graphing a line through a given point with a given slope
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y -intercept
 alge258 Writing an equation of a line given its slope and y -intercept
 alge892 Writing an equation and graphing a line given its slope and y -intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge318 Finding the slope and a point on a line given its equation in point-slope form
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge313 Writing an equation in standard form given the slope and a point
 alge070 Writing an equation of a line given the y -intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 geom462 Identifying parallel and perpendicular lines from coordinates
 alge914 Identifying solutions to a system of linear equations

alge725 Graphically solving a system of linear equations
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition

Triangles

geom306 Acute, obtuse, and right triangles
 geom626 Classifying scalene, isosceles, and equilateral triangles by side lengths
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom322 Identifying coordinates that give right triangles
 geom323 Identifying scalene, isosceles, and equilateral triangles given coordinates of their vertices
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom628 Finding angle measures of a triangle given angles with variables
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom357 Identifying transformations
 geom519 Identifying and naming congruent parts of congruent triangles
 geom325 Determining if figures are related by rigid motions
 geom327 Examining triangle congruence in terms of rigid motion
 geom329 Exploring the triangle congruence theorems
 geom418 Completing proofs involving congruent triangles using SSS or SAS
 geom420 Introduction to proving triangles congruent using SSS or SAS
 geom520 Identifying and naming congruent triangles
 geom419 Completing proofs involving congruent triangles using ASA or AAS
 geom421 Introduction to proving triangles congruent using ASA or AAS
 geom837 Proofs involving congruent triangles and segment or angle bisectors
 geom647 Separating overlapping triangles and identifying common features
 geom840 Proofs involving congruent triangles that overlap: Basic
 geom423 Proofs involving congruent triangles with parallel or perpendicular segments
 geom424 Determining when to apply the HL congruence property
 geom425 Introduction to proving triangles congruent using the HL property
 geom422 Introduction to proofs involving congruent triangles and CPCTC
 geom839 Proofs involving congruent triangles, parallel or perpendicular segments, and CPCTC
 geom843 Proofs involving congruent triangles that overlap: Advanced
 geom645 Finding side lengths and angle measures of isosceles and equilateral triangles
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom629 Finding angle measures of an isosceles triangle given angles with variables
 geom363 Proofs of theorems involving isosceles triangles
 geom449 Classifying segments inside triangles
 geom446 Using the circumcenter of a triangle to find segment lengths
 geom447 Using the incenter of a triangle to find segment lengths and angle measures
 geom448 Using the centroid of a triangle to find segment lengths
 geom413 Introduction to the triangle midsegment theorem
 geom324 Proving the triangle midsegment theorem in the coordinate plane
 geom441 Proof involving points on the perpendicular bisector of a line segment
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom664 Using triangle inequality to determine possible lengths of a third side
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom543 Drawing a circle with a given radius or diameter
 geom545 Drawing triangles with given side lengths using a compass

geom854 Relationship between angle measures and side lengths in a triangle
 geom855 Relationship between angle measures and side lengths in two triangles
 geom451 Using the hinge theorem
 geom650 Indirect proof (proof by contradiction)

Polygons and Quadrilaterals

geom361 Naming polygons
 geom870 Sum of the angle measures of a quadrilateral
 geom656 Finding the sum of the interior angle measures of a convex polygon given the number of sides
 geom655 Finding the number of sides of a convex polygon given the sum of the measures of the interior angles
 geom657 Finding a missing interior angle measure in a convex polygon
 geom658 Finding the measures of an interior angle and an exterior angle of a regular polygon
 geom659 Finding the number of sides of a regular polygon given the measure of an interior angle
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom528 Finding measures involving diagonals of parallelograms
 geom527 Conditions for parallelograms
 geom833 Finding measures involving diagonals of rectangles
 geom436 Finding angle measures involving diagonals of a rhombus
 geom523 Conditions for quadrilaterals
 geom661 Completing proofs of theorems involving sides of a parallelogram
 geom662 Completing proofs of theorems involving angles of a parallelogram
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom818 Finding the coordinates of a point to make a parallelogram
 geom819 Finding coordinates of vertices of polygons
 geom321 Proving that a quadrilateral with given vertices is a parallelogram
 geom408 Classifying parallelograms in the coordinate plane
 geom863 Congruence in the coordinate plane

Similarity

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 alge888 Finding the coordinate that yields a given slope
 geom390 Finding a point that partitions a number line segment in a given ratio
 geom391 Finding a point that partitions a segment in the plane in a given ratio
 geom360 Identifying similar or congruent shapes on a grid
 geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom510 Triangles and parallel lines
 geom475 Triangles and angle bisectors
 geom326 Determining if figures are related by similarity transformations
 geom328 Examining triangle similarity in terms of similarity transformations
 geom364 Identifying and naming similar triangles

geom365 Proofs involving similar triangles
 geom472 Completing proofs involving the triangle proportionality theorem
 geom461 Proving the slope criterion for parallel or perpendicular lines
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale

Right Triangles and Trigonometry

alge408 Word problem involving the Pythagorean Theorem
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
 geom862 Using the Pythagorean Theorem repeatedly
 geom603 Identifying side lengths that give right triangles
 geom589 Demonstrating the converse of the Pythagorean Theorem
 geom452 Identifying similar right triangles that overlap
 geom507 Right triangles and geometric mean
 geom473 Proving the Pythagorean Theorem using similar triangles
 geom860 Special right triangles: Decimal answers
 geom506 Special right triangles: Exact answers
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom316 Relationship between the sines and cosines of complementary angles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc642 Solving a right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc644 Solving a word problem using the law of sines
 geom320 Proving the law of sines
 pcalc033 Solving a triangle with the law of cosines
 pcalc645 Solving a word problem using the law of cosines
 geom409 Proving the law of cosines
 pcalc063 Translation of a vector
 pcalc739 Multiplication of a vector by a scalar: Geometric approach
 pcalc060 Magnitude of a vector given in component form
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 geom857 Vector addition: Geometric approach
 vector007 Vector subtraction: Geometric approach
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph

Transformations

geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points

geom375 Understanding the definition of a translation
 pcalc038 Addition or subtraction of matrices
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom376 Understanding the definition of a reflection
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom377 Understanding the definition of a rotation
 geom334 Drawing lines of symmetry
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom831 Rotational and point symmetries
 geom369 Writing a rule to describe a translation
 geom370 Writing a rule to describe a reflection
 geom371 Writing a rule to describe a rotation
 geom373 Identifying transformations that map a quadrilateral onto itself
 geom374 Identifying transformations that map a regular polygon onto itself
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom372 Writing a rule to describe a dilation
 geom582 Determining if figures are similar and related by a sequence of transformations
 geom463 Exploring similarity of circles
 geom379 Exploring the effect of dilation on lines
 pcalc037 Scalar multiplication of a matrix

Area and Volume

geom022 Area of a parallelogram
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom430 Word problem on population density
 geom426 Finding the perimeter of a triangle, trapezoid, or parallelogram in the coordinate plane
 geom437 Finding the area of a triangle or parallelogram in the coordinate plane
 geom440 Finding the area of a right triangle using the Pythagorean Theorem
 geom068 Computing an area using the Pythagorean Theorem
 geom588 Informal proof of the Pythagorean Theorem
 geom344 Area involving rectangles and triangles
 alge724 Finding an area in terms of variables
 geom439 Using trigonometry to find the area of a right triangle
 pcalc646 Finding the area of a triangle using trigonometry
 geom319 Expressing the area of a triangle in terms of the sine of one of its angles
 pcalc647 Heron's formula

geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
geom023 Area of a trapezoid
geom434 Area of a rhombus
geom435 Finding the area of a rhombus using the Pythagorean Theorem
geom438 Finding the area of a trapezoid, rhombus, or kite in the coordinate plane
geom213 Area of a regular polygon
geom479 Finding the area of a regular polygon using special right triangles
geom481 Side lengths, perimeters, and areas of similar polygons
geom347 Introduction to a circle: Diameter, radius, and chord
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom427 Informal argument for the formula of the circumference of a circle
geom838 Circumference ratios
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom477 Circumference and area of a circle: Exact answers in terms of pi
geom570 Distinguishing between the area and circumference of a circle
geom428 Informal argument for the formula of the area of a circle
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom649 Area involving multiple inscribed figures
geom212 Circles inscribed in and circumscribed about regular polygons
geom126 Area of a sector of a circle: Exact answer in terms of pi
geom429 Informal argument for the formula of the area of a sector
geom868 Classifying solids
geom348 Vertices, edges, and faces of a solid
geom219 Nets of solids
geom861 Nets of solids: Advanced
geom830 Counting the cubes in a solid made of cubes
geom816 Side views of a solid made of cubes
geom550 Identifying horizontal and vertical cross sections of solids
geom381 Identifying solids generated by rotations of two-dimensional regions
geom443 Identifying geometric shapes that model real-world objects
geom491 Identifying properties of Euclidean and spherical geometries
geom031 Surface area of a cube or a rectangular prism
geom632 Surface area of a rectangular prism made of unit cubes
geom556 Using a net to find the surface area of a rectangular prism
geom576 Word problem involving the surface area of a rectangular prism
geom345 Surface area of a piecewise rectangular prism made of unit cubes
geom091 Surface area of a triangular prism
geom557 Using a net to find the surface area of a triangular prism
geom621 Surface area of a cylinder
geom034 Surface area of a cylinder: Exact answers in terms of pi
geom578 Word problem involving the surface area of a cylinder
geom484 Word problem involving the surface area of rectangular prisms and cylinders
geom483 Word problem involving the surface area of rectangular prisms and pyramids
geom354 Volume of a rectangular prism made of unit cubes
geom311 Volume of a rectangular prism
geom555 Distinguishing between surface area and volume
geom518 Volume of a solid made of cubes with unit fraction edge lengths
geom535 Volume of a rectangular prism with fractional edge lengths
geom865 Measuring the net of a solid to find surface area or volume
geom382 Volume of an oblique rectangular prism
alge617 Writing equivalent expressions for the volume of a rectangular prism
geom565 Finding the side length of a cube given its volume
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom386 Computations involving density, mass, and volume
geom387 Word problem on density involving the volume of a rectangular solid

geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom035 Volume of a cylinder
 geom385 Informal argument for the formula of the volume of a cylinder
 geom383 Volume of an oblique cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom388 Word problem on density involving the volume of a cylindrical solid
 geom384 Using cross sections to identify solids with the same volume
 geom133 Ratio of volumes
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom654 Informal argument for the formula of the volume of a cone
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom842 Surface area of a sphere
 geom841 Volume of a sphere
 geom574 Word problem involving the volume of a sphere
 geom488 Identifying similar solids
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom489 Computing side length, surface area, and volume for similar solids
 geom490 Word problem involving volumes of similar solids

Circles

geom464 Identifying chords, secants, and tangents of a circle
 geom848 Tangents of a circle: Problem type 1
 geom849 Tangents of a circle: Problem type 2
 geom470 Constructing a tangent of a circle
 geom465 Naming and finding measures of central angles, inscribed angles, and arcs of a circle
 geom467 Applying properties of radii, diameters, and chords
 geom814 Angle measure in a circle graph
 geom466 Arc length
 geom805 Arc length and area of a sector of a circle
 geom653 Computing ratios of arc lengths to radii and describing the result
 pcalc002 Converting between degree and radian measure: Problem type 1
 geom468 Central angles and inscribed angles of a circle
 geom469 Central angles and angles involving chords and tangents of a circle
 geom666 Inscribed angles in relation to a diameter or a polygon inscribed in a circle
 geom667 Inscribed angles and angles involving chords and tangents of a circle
 geom492 Establishing facts about a quadrilateral inscribed in a circle
 geom312 Inscribing an equilateral triangle or a regular hexagon in a circle
 geom313 Inscribing a square in a circle
 geom314 Inscribing a circle in a triangle
 geom315 Circumscribing a circle about a triangle
 geom567 Angles of intersecting secants and tangents
 geom568 Lengths of chords, secants, and tangents
 geom496 Identifying the center and radius to graph a circle given its equation in standard form
 alge094 Completing the square
 geom497 Identifying the center and radius to graph a circle given its equation in general form: Basic
 geom668 Identifying the center and radius to graph a circle given its equation in general form: Advanced
 geom499 Writing the equation of a circle centered at the origin given its radius or a point on the circle
 geom495 Writing an equation of a circle and identifying points that lie on the circle
 geom498 Writing an equation of a circle given its center and radius or diameter
 geom493 Deriving the equation of a circle using the Pythagorean Theorem
 pcalc065 Writing an equation of a circle given its center and a point on the circle

pcalc066 Writing an equation of a circle given the endpoints of a diameter
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 pcalc566 Graphing a parabola of the form $y^2 = ax$ or $x^2 = ay$
 geom494 Deriving the equation of a parabola given its focus and directrix

 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 set001 Set builder notation
 set004 Set builder and interval notation
 set002 Union and intersection of finite sets
 set005 Union and intersection of intervals
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge747 Solving a compound linear inequality: Interval notation
 alge846 Translating a sentence into a multi-step inequality
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge868 Solving an absolute value inequality: Problem type 1
 alge943 Writing an absolute value inequality given a graph on the number line
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Graphing and Functions

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge850 Table for a linear equation
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x- and y-intercepts given the graph of a line on a grid

alge924 Finding x- and y-intercepts of a line given the equation: Basic
alge210 Finding x- and y-intercepts of a line given the equation: Advanced
alge197 Graphing a line given its x- and y-intercepts
alge881 Graphing a line by first finding its x- and y-intercepts
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y-intercept
alge196 Graphing a line through a given point with a given slope
alge625 Identifying linear equations: Basic
alge876 Identifying linear equations: Advanced
alge874 Identifying linear functions given ordered pairs
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y-intercept
alge258 Writing an equation of a line given its slope and y-intercept
alge892 Writing an equation and graphing a line given its slope and y-intercept
alge314 Finding the slope, y-intercept, and equation for a linear function given a table of values
alge893 Writing an equation in slope-intercept form given the slope and a point
alge318 Finding the slope and a point on a line given its equation in point-slope form
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge313 Writing an equation in standard form given the slope and a point
alge070 Writing an equation of a line given the y-intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
alge322 Comparing linear functions to the parent function $y=x$
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
geom462 Identifying parallel and perpendicular lines from coordinates
geom322 Identifying coordinates that give right triangles
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge817 Finding the initial amount and rate of change given a table for a linear function
alge818 Finding the initial amount and rate of change given a graph of a linear function
alge992 Combining functions to write a new function that models a real-world situation
alge987 Comparing properties of linear functions given in different forms
alge989 Interpreting the parameters of a linear function that models a real-world situation
alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
alge806 Application problem with a linear function: Finding a coordinate given two points
alge991 Solving a linear equation by graphing
mstat094 Constructing a scatter plot
mstat030 Sketching the line of best fit
mstat023 Scatter plots and correlation
mstat068 Predictions from the line of best fit
mstat067 Approximating the equation of a line of best fit and making predictions
mstat069 Computing residuals
mstat070 Interpreting residual plots
mstat093 Classifying linear and nonlinear relationships from scatter plots
mstat071 Linear relationship and the correlation coefficient
mstat096 Identifying outliers and clustering in scatter plots
fun032 Identifying functions from relations
fun010 Vertical line test
fun016 Domain and range from ordered pairs
fun001 Table for a linear function
pcalc760 Evaluating functions: Linear and quadratic or cubic
fun033 Variable expressions as inputs of functions: Problem type 1

fun030 Evaluating a piecewise-defined function
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge312 Finding domain and range from a linear graph in context
 fun024 Domain and range from the graph of a continuous function
 fun025 Domain and range from the graph of a piecewise function
 pcalc750 Finding intercepts of a nonlinear function given its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc751 Finding where a function is increasing, decreasing, or constant given the graph: Interval notation
 pcalc752 Finding local maxima and minima of a function given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$: Basic
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun031 Graphing a piecewise-defined function: Problem type 1
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph
 alge953 Translating the graph of a parabola: One step
 alge723 How the leading coefficient affects the shape of a parabola
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge185 Writing an equation for a function after a vertical translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 pcalc773 Transforming the graph of a function using more than one transformation
 fun020 Writing an equation for a function after a vertical and horizontal translation

Systems of Linear Equations and Inequalities

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 pcalc820 Using a graphing calculator to solve a system of linear equations: Basic
 pcalc821 Using a graphing calculator to solve a system of linear equations: Advanced
 alge317 Writing a system of linear equations given its graph
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions

alge077 Creating an inconsistent system of linear equations
 alge988 Identifying the operations used to create equivalent systems of equations
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge315 Writing an inequality given its graph in the plane: Horizontal or vertical boundary line
 alge316 Writing an inequality given its graph in the plane: Slanted boundary line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc095 Linear programming
 pcalc094 Solving a word problem using linear programming
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc039 Multiplication of matrices: Basic
 pcalc710 Multiplication of matrices: Advanced
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix
 pcalc046 Solving a system of linear equations given its augmented matrix
 pcalc040 Finding the inverse of a 2x2 matrix
 pcalc041 Finding the inverse of a 3x3 matrix
 pcalc042 Finding the determinant of a 2x2 matrix
 pcalc711 Using the inverse of a matrix to solve a 3x3 system of linear equations
 pcalc043 Finding the determinant of a 3x3 matrix
 pcalc045 Using Cramer's rule to solve a 2x2 system of linear equations
 pcalc047 Using Cramer's rule to solve a 3x3 system of linear equations

Exponents and Polynomials

alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 arith029 Ordering numbers with positive exponents
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge756 Power and product rules with positive exponents
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 alge453 Simplifying a ratio of multivariate monomials: Advanced
 alge927 Power and quotient rules with positive exponents
 alge790 Evaluating expressions with exponents of zero

arith729 Evaluating an expression with a negative exponent: Whole number base
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith043 Evaluating an expression with a negative exponent: Negative integer base
arith024 Ordering numbers with negative exponents
alge791 Rewriting an algebraic expression without a negative exponent
alge961 Introduction to the product rule with negative exponents
alge028 Product rule with negative exponents
alge755 Quotient rule with negative exponents: Problem type 1
alge926 Quotient rule with negative exponents: Problem type 2
alge025 Power of a power rule with negative exponents
alge799 Power rules with negative exponents
alge928 Power and quotient rules with negative exponents: Problem type 1
alge929 Power and quotient rules with negative exponents: Problem type 2
alge757 Power, product, and quotient rules with negative exponents
arith036 Scientific notation with positive exponent
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation
scinot008 Multiplying numbers written in scientific notation: Basic
scinot009 Multiplying numbers written in scientific notation: Advanced
scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
scinot010 Dividing numbers written in scientific notation: Basic
scinot011 Dividing numbers written in scientific notation: Advanced
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge029 Simplifying a sum or difference of three univariate polynomials
alge932 Simplifying a sum or difference of multivariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
alge835 Multiplying a multivariate polynomial by a monomial
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge081 Multiplying conjugate binomials: Multivariate
alge032 Squaring a binomial: Univariate
alge068 Squaring a binomial: Multivariate
alge973 Multiplying binomials with negative coefficients
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
alge759 Dividing a polynomial by a monomial: Univariate
alge760 Dividing a polynomial by a monomial: Multivariate
alge761 Polynomial long division: Problem type 1
alge762 Polynomial long division: Problem type 2
alge763 Polynomial long division: Problem type 3
pcalc117 Synthetic division
alge985 Closure properties of integers and polynomials
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
alge605 Factoring a linear binomial
alge736 Introduction to the GCF of two monomials
alge930 Greatest common factor of three univariate monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge739 Factoring out a monomial from a polynomial: Multivariate
alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
alge923 Factoring a univariate polynomial by grouping: Problem type 1
alge950 Factoring a univariate polynomial by grouping: Problem type 2
alge951 Factoring a multivariate polynomial by grouping: Problem type 1
alge952 Factoring a multivariate polynomial by grouping: Problem type 2

alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes

Quadratic and Polynomial Functions

alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge046 Roots of a product of polynomials
 alge323 Finding the zeros of a quadratic function given its equation
 alge163 Writing a quadratic equation given the roots and the leading coefficient
 alge703 Solving a word problem using a quadratic equation with rational roots
 arith601 Square root of a rational perfect square
 arith760 Square roots of perfect squares with signs
 arith094 Cube root of an integer
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 arith767 Introduction to square root addition or subtraction
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 arith039 Square root multiplication: Advanced
 alge525 Introduction to simplifying a product involving square roots using the distributive property
 arith766 Simplifying a quotient of square roots
 alge530 Simplifying a quotient involving a sum or difference with a square root
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge778 Using i to rewrite square roots of negative numbers
 alge779 Simplifying a product and quotient involving square roots of negative numbers
 pcalc048 Adding or subtracting complex numbers
 pcalc049 Multiplying complex numbers
 pcalc050 Dividing complex numbers
 pcalc053 Simplifying a power of i
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers

alge963 Applying the quadratic formula: Decimal answers
 pcalc051 Solving a quadratic equation with complex roots
 alge214 Discriminant of a quadratic equation
 alge193 Discriminant of a quadratic equation with parameter
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge320 Writing a quadratic function given its zeros
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc714 Using a graphing calculator to find the zeros of a quadratic function
 pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
 alge319 Rewriting a quadratic function in standard form
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 mstat102 Choosing a quadratic model and using it to make a prediction
 alge784 Solving a quadratic inequality written in factored form
 alge771 Solving a quadratic inequality
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 pcalc114 Even and odd functions: Problem type 1
 pcalc764 Finding zeros of a polynomial function written in factored form
 pcalc766 Finding a polynomial of a given degree with given zeros: Real zeros
 pcalc765 Finding x- and y-intercepts given a polynomial function
 pcalc782 Determining the end behavior of the graph of a polynomial function
 pcalc783 Matching graphs with polynomial functions
 pcalc738 Inferring properties of a polynomial function from its graph
 pcalc794 Using a graphing calculator to find local extrema of a polynomial function
 pcalc115 Using a graphing calculator to solve a word problem involving a local extremum of a polynomial function
 pcalc786 Using the remainder theorem to evaluate a polynomial
 pcalc787 The Factor Theorem
 pcalc758 Finding all possible rational zeros using the rational zeros theorem: Problem type 1
 pcalc759 Finding all possible rational zeros using the rational zeros theorem: Problem type 2
 pcalc788 Descartes' Rule of Signs
 pcalc743 Using the rational zeros theorem to find all zeros of a polynomial: Rational zeros
 pcalc744 Using the rational zeros theorem to find all zeros of a polynomial: Irrational zeros
 pcalc795 Using a graphing calculator to find zeros of a polynomial function
 pcalc704 Using a graphing calculator to solve a word problem involving a polynomial of degree 3
 pcalc785 Multiplying expressions involving complex conjugates
 pcalc767 Finding a polynomial of a given degree with given zeros: Complex zeros
 pcalc745 Using the rational zeros theorem to find all zeros of a polynomial: Complex zeros
 pcalc703 Using the conjugate zeros theorem to find all zeros of a polynomial
 pcalc705 Linear factors theorem and conjugate zeros theorem

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge467 Restriction on a variable in a denominator: Quadratic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 alge715 Domain of a rational function: Excluded values

alge454 Simplifying a ratio of factored polynomials: Linear factors
alge455 Simplifying a ratio of factored polynomials: Factors with exponents
alge456 Simplifying a ratio of polynomials using GCF factoring
alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
alge710 Simplifying a ratio of polynomials: Problem type 1
alge682 Simplifying a ratio of polynomials: Problem type 2
alge459 Simplifying a ratio of polynomials: Problem type 3
alge034 Simplifying a ratio of multivariate polynomials
alge053 Multiplying rational expressions involving multivariate monomials
alge460 Multiplying rational expressions made up of linear expressions
alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
alge462 Multiplying rational expressions involving multivariate quadratics
alge054 Dividing rational expressions involving multivariate monomials
alge463 Dividing rational expressions involving linear expressions
alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
alge465 Dividing rational expressions involving multivariate quadratics
alge466 Multiplication and division of 3 rational expressions
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
alge428 Finding the LCD of rational expressions with linear denominators: Common factors
alge429 Finding the LCD of rational expressions with quadratic denominators
alge430 Writing equivalent rational expressions with monomial denominators
alge431 Writing equivalent rational expressions with polynomial denominators
alge304 Writing equivalent rational expressions involving opposite factors
alge433 Adding rational expressions with common denominators and monomial numerators
alge056 Adding rational expressions with common denominators and binomial numerators
alge434 Adding rational expressions with common denominators and GCF factoring
alge435 Adding rational expressions with common denominators and quadratic factoring
alge436 Adding rational expressions with different denominators and a single occurrence of a variable
alge437 Adding rational expressions with denominators ax and bx : Basic
alge438 Adding rational expressions with denominators ax and bx : Advanced
alge439 Adding rational expressions with denominators axn and bxm
alge440 Adding rational expressions with multivariate monomial denominators: Basic
alge226 Adding rational expressions with multivariate monomial denominators: Advanced
alge441 Adding rational expressions with linear denominators without common factors: Basic
alge442 Adding rational expressions with linear denominators without common factors: Advanced
alge443 Adding rational expressions with linear denominators with common factors: Basic
alge444 Adding rational expressions with linear denominators with common factors: Advanced
alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
alge661 Adding rational expressions involving different quadratic denominators
alge446 Adding 3 rational expressions with different quadratic denominators
arith696 Complex fraction without variables: Problem type 2
alge470 Complex fraction involving univariate monomials
alge058 Complex fraction involving multivariate monomials
alge471 Complex fraction: GCF factoring
alge472 Complex fraction: Quadratic factoring
alge473 Complex fraction made of sums involving rational expressions: Problem type 1
alge474 Complex fraction made of sums involving rational expressions: Problem type 2
alge475 Complex fraction made of sums involving rational expressions: Problem type 3
alge476 Complex fraction made of sums involving rational expressions: Problem type 4
alge477 Complex fraction made of sums involving rational expressions: Problem type 5
alge478 Complex fraction made of sums involving rational expressions: Problem type 6
alge479 Complex fraction made of sums involving rational expressions: Multivariate
alge480 Complex fraction with negative exponents: Problem type 1
alge481 Complex fraction with negative exponents: Problem type 2
alge162 Complex fraction that contains a complex fraction
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$

alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
 alge422 Solving a rational equation that simplifies to linear: Like binomial denominators
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
 alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1
 alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
 alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge450 Solving a distance, rate, time problem using a rational equation
 geom133 Ratio of volumes
 alge059 Ordering fractions with variables
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation
 pcalc917 Finding the asymptotes of a rational function: Constant over linear
 pcalc918 Finding the asymptotes of a rational function: Linear over linear
 pcalc790 Finding horizontal and vertical asymptotes of a rational function: Quadratic numerator or denominator
 alge515 Graphing a rational function: Constant over linear
 alge516 Graphing a rational function: Linear over linear
 pcalc109 Graphing a rational function: Quadratic over linear
 pcalc792 Graphing rational functions with holes
 pcalc791 Matching graphs with rational functions: Two vertical asymptotes
 alge783 Solving a rational inequality: Problem type 1
 pcalc677 Solving a rational inequality: Problem type 2

Radicals

alge413 Finding all square roots of a number
 arith602 Estimating a square root
 arith761 Square roots of integers raised to even exponents
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 alge537 Using absolute value to simplify square roots of perfect square monomials
 alge549 Finding n th roots of perfect n th powers with signs
 arith768 Finding the n th root of a perfect n th power fraction
 alge550 Finding the n th root of a perfect n th power monomial
 alge538 Using absolute value to simplify higher radical expressions
 alge539 Table for a square root function
 alge546 Evaluating a cube root function
 alge565 Domain of a square root function: Basic
 alge566 Domain of a square root function: Advanced
 alge547 Domains of higher root functions
 alge543 Graphing a square root function: Problem type 1

alge544 Graphing a square root function: Problem type 2
alge545 Graphing a square root function: Problem type 3
alge548 Graphing a cube root function
alge812 Converting between radical form and exponent form
alge560 Rational exponents: Unit fraction exponents and whole number bases
alge561 Rational exponents: Unit fraction exponents and bases involving signs
alge250 Rational exponents: Non-unit fraction exponent with a whole number base
alge251 Rational exponents: Negative exponents and fractional bases
alge558 Rational exponents: Product rule
alge559 Rational exponents: Quotient rule
alge773 Rational exponents: Products and quotients with negative exponents
alge562 Rational exponents: Power of a power rule
alge249 Rational exponents: Powers of powers with negative exponents
pcalc682 Evaluating functions: Absolute value, rational, radical
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
alge275 Simplifying a radical expression with two variables
alge273 Simplifying a higher root of a whole number
alge551 Introduction to simplifying a higher radical expression
alge552 Simplifying a higher radical expression: Univariate
alge811 Simplifying a higher radical expression: Multivariate
arith032 Square root addition or subtraction
alge533 Square root addition or subtraction with three terms
alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
alge532 Simplifying a sum or difference of radical expressions: Univariate
alge084 Simplifying a sum or difference of radical expressions: Multivariate
alge554 Simplifying a sum or difference of higher roots
alge555 Simplifying a sum or difference of higher radical expressions
alge522 Introduction to simplifying a product of radical expressions: Univariate
alge523 Simplifying a product of radical expressions: Univariate
alge640 Simplifying a product of radical expressions: Multivariate
alge082 Simplifying a product of radical expressions: Multivariate, fractional expressions
alge556 Introduction to simplifying a product of higher roots
alge557 Simplifying a product of higher radical expressions
alge526 Simplifying a product involving square roots using the distributive property: Basic
alge276 Simplifying a product involving square roots using the distributive property: Advanced
alge774 Special products of radical expressions: Conjugates and squaring
alge984 Classifying sums and products as rational or irrational
alge527 Rationalizing a denominator: Quotient involving square roots
alge528 Rationalizing a denominator: Square root of a fraction
alge529 Rationalizing a denominator: Quotient involving a monomial
alge534 Rationalizing a denominator using conjugates: Integer numerator
alge535 Rationalizing a denominator using conjugates: Square root in numerator
alge536 Rationalizing a denominator using conjugates: Variable in denominator
alge564 Rationalizing a denominator: Quotient involving a higher radical
alge775 Rationalizing a denominator: Quotient involving higher radicals and monomials
alge563 Simplifying products or quotients of higher radicals with different indices: Univariate
alge776 Simplifying products or quotients of higher radicals with different indices: Multivariate
alge400 Introduction to solving a radical equation
alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
alge411 Solving a radical equation with a quadratic expression under the radical
alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
alge412 Algebraic symbol manipulation with radicals
alge542 Word problem involving radical equations: Basic
alge409 Word problem involving radical equations: Advanced
alge410 Solving an equation with a root index greater than 2: Problem type 1

alge417 Solving an equation with a root index greater than 2: Problem type 2
 alge093 Solving an equation using the odd-root property: Problem type 1
 alge228 Solving an equation using the odd-root property: Problem type 2
 alge416 Solving an equation with exponent $1/a$: Problem type 1
 alge418 Solving an equation with exponent $1/a$: Problem type 2
 alge230 Solving an equation with positive rational exponent
 alge231 Solving an equation with negative rational exponent
 alge781 Solving an equation that can be written in quadratic form: Problem type 1
 alge782 Solving an equation that can be written in quadratic form: Problem type 2
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom603 Identifying side lengths that give right triangles
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
 fun019 Sum, difference, and product of two functions
 alge786 Quotient of two functions: Basic
 alge716 Introduction to the composition of two functions
 fun022 Composition of two functions: Basic
 pcalc776 Expressing a function as a composition of two functions
 fun021 Composition of two functions: Domain and range
 alge129 Composition of two functions: Advanced
 pcalc924 Determining whether an equation defines a function: Basic
 pcalc757 Determining whether an equation defines a function: Advanced
 fun011 Horizontal line test
 pcalc777 Determining whether two functions are inverses of each other
 fun012 Inverse functions: Linear, discrete
 alge130 Inverse functions: Rational
 pcalc778 Inverse functions: Quadratic, cubic, radical

Exponential and Logarithmic Functions

alge971 Table for an exponential function
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 alge321 Finding domain and range from the graph of an exponential function
 pcalc922 Translating the graph of an exponential function
 pcalc797 The graph, domain, and range of an exponential function
 pcalc103 Graphing an exponential function and its asymptote: $f(x) = a(e)^{x-b} + c$
 alge830 Evaluating an exponential function that models a real-world situation
 pcalc919 Evaluating an exponential function with base e that models a real-world situation
 arith853 Introduction to compound interest
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 mstat103 Choosing an exponential model and using it to make a prediction
 alge993 Comparing linear, polynomial, and exponential functions
 alge108 Converting between logarithmic and exponential equations
 pcalc799 Converting between natural logarithmic and exponential equations
 alge232 Evaluating a logarithmic expression
 alge233 Solving an equation of the form $\log_b a = c$
 pcalc923 Translating the graph of a logarithmic function
 alge788 Graphing a logarithmic function: Basic
 pcalc800 The graph, domain, and range of a logarithmic function
 pcalc104 Graphing a logarithmic function: Advanced
 pcalc708 Basic properties of logarithms
 pcalc779 Expanding a logarithmic expression: Problem type 1
 pcalc780 Expanding a logarithmic expression: Problem type 2

alge787 Writing an expression as a single logarithm
 pcalc612 Change of base for logarithms: Problem type 1
 pcalc613 Change of base for logarithms: Problem type 2
 pcalc803 Solving a multi-step equation involving a single logarithm
 pcalc804 Solving a multi-step equation involving natural logarithms
 pcalc805 Solving an equation involving logarithms on both sides: Problem type 2
 alge113 Solving an equation involving logarithms on both sides: Problem type 1
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge482 Solving an exponential equation by finding common bases: Linear and quadratic exponents
 pcalc920 Solving an exponential equation by using logarithms: Decimal answers, basic
 pcalc921 Solving an exponential equation by using natural logarithms: Decimal answers
 alge111 Solving an exponential equation by using logarithms: Exact answers in logarithmic form
 pcalc806 Using a graphing calculator to solve an exponential or logarithmic equation
 alge178 Finding the time to reach a limit in a word problem on exponential growth or decay
 pcalc614 Finding the initial or final amount in a word problem on exponential growth or decay
 pcalc615 Finding the rate or time in a word problem on continuous exponential growth or decay

Sequences and Conics

alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 pcalc080 Finding the first terms of a sequence using an explicit rule with multiple occurrences of n
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 pcalc715 Finding a specified term of an arithmetic sequence given two terms of the sequence
 alge909 Writing an explicit rule for an arithmetic sequence
 alge910 Writing a recursive rule for an arithmetic sequence
 pcalc718 Sum of the first n terms of an arithmetic sequence
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc717 Finding a specified term of a geometric sequence given two terms of the sequence
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences
 pcalc719 Sum of the first n terms of a geometric sequence
 pcalc720 Sum of an infinite geometric series
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 geom323 Identifying scalene, isosceles, and equilateral triangles given coordinates of their vertices
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 pcalc566 Graphing a parabola of the form $y^2 = ax$ or $x^2 = ay$
 pcalc067 Graphing a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 geom494 Deriving the equation of a parabola given its focus and directrix
 pcalc068 Writing an equation of a parabola given the vertex and the focus
 pcalc069 Finding the focus of a parabola of the form $ay^2 + by + cx + d = 0$ or $ax^2 + bx + cy + d = 0$
 geom496 Identifying the center and radius to graph a circle given its equation in standard form
 geom497 Identifying the center and radius to graph a circle given its equation in general form: Basic
 geom668 Identifying the center and radius to graph a circle given its equation in general form: Advanced
 geom499 Writing the equation of a circle centered at the origin given its radius or a point on the circle
 geom495 Writing an equation of a circle and identifying points that lie on the circle
 geom498 Writing an equation of a circle given its center and radius or diameter

geom493 Deriving the equation of a circle using the Pythagorean Theorem
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 pcalc734 Graphing an ellipse given its equation in standard form
 pcalc070 Graphing an ellipse centered at the origin: $Ax^2 + By^2 = C$
 pcalc071 Graphing an ellipse given its equation in general form
 pcalc072 Finding the foci of an ellipse given its equation in general form
 pcalc074 Writing an equation of an ellipse given the center, an endpoint of an axis, and the length of the other axis
 pcalc735 Graphing a hyperbola given its equation in standard form
 pcalc075 Graphing a hyperbola centered at the origin: $Ax^2 - By^2 - C = 0$
 pcalc076 Graphing a hyperbola given its equation in general form
 pcalc077 Finding the foci of a hyperbola given its equation in general form
 pcalc078 Writing an equation of a hyperbola given the foci and the vertices
 pcalc736 Classifying conics given their equations
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 pcalc716 Using a graphing calculator to solve a system of linear and quadratic equations: Basic
 pcalc796 Using a graphing calculator to solve a system of equations
 pcalc098 Solving a system of nonlinear equations: Problem type 1
 pcalc096 Graphing a system of nonlinear inequalities: Problem type 1
 pcalc097 Graphing a system of nonlinear inequalities: Problem type 2

Statistics and Probability

mstat080 Choosing an appropriate method for gathering data: Problem type 1
 mstat081 Choosing an appropriate method for gathering data: Problem type 2
 mstat047 Introduction to expectation
 mstat049 Computing a percentage from a table of values
 mstat087 Making an inference using a two-way frequency table
 stat020 Calculating relative frequencies in a contingency table
 stat805 Making a reasonable inference based on proportion statistics

 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph
 geom814 Angle measure in a circle graph
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 mstat089 Computations involving the mean, sample size, and sum of a data set
 stat803 Finding the value for a new score that will yield a given mean
 stat802 Rejecting unreasonable claims based on average statistics
 mstat066 Weighted mean
 mstat028 Mean and median of a data set
 mstat029 How changing a value affects the mean and median
 mstat095 Finding outliers in a data set
 mstat053 Choosing the best measure to describe data
 stat009 Percentiles
 mstat042 Interpreting a Venn diagram of 2 sets
 mstat043 Interpreting a Venn diagram of 3 sets
 stat119 Venn diagrams: Two events
 stat101 Venn diagrams: Word problems
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 pcalc809 Introduction to permutations and combinations

pcalc810 Permutations and combinations: Problem type 1
 pcalc089 Permutations and combinations: Problem type 2
 pcalc090 Permutations and combinations: Problem type 3
 pcalc087 Binomial formula
 mstat099 Determining a sample space and outcomes for a simple event
 mstat100 Determining a sample space and outcomes for a compound event
 mstat010 Probability of an event
 mstat046 Experimental and theoretical probability
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat116 Probabilities of a permutation and a combination
 mstat011 Area as probability
 mstat019 Identifying independent events given descriptions of experiments
 stat850 Probability of independent events
 stat851 Probability of dependent events
 stat117 Probabilities of draws with replacement
 stat118 Probabilities of draws without replacement
 mstat115 Determining outcomes for compound events and complements of events
 mstat110 Using a Venn diagram to understand the multiplication rule for probability
 mstat107 Outcomes and event probability: Conditional probability
 mstat104 Identifying independent events given values of probabilities
 mstat105 Computing conditional probability using a two-way frequency table
 mstat106 Computing conditional probability to make an inference using a two-way frequency table
 mstat118 Conditional probability: Basic
 mstat109 Using a Venn diagram to understand the addition rule for probability
 mstat108 Outcomes and event probability: Addition rule
 mstat032 Probability of the union of two events
 mstat117 Probability of intersection or union: Word problems
 stat174 Binomial problems: Basic
 stat155 Binomial problems: Advanced
 mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event
 mstat114 Using a random number table to make a fair decision
 mstat072 Five-number summary and interquartile range
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 stat021 Population standard deviation
 stat852 Word problem involving calculations from a normal distribution

Trigonometry

pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom316 Relationship between the sines and cosines of complementary angles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle
 geom860 Special right triangles: Decimal answers
 geom506 Special right triangles: Exact answers
 pcalc001 Converting degrees-minutes-seconds to decimal degrees
 pcalc661 Converting a decimal degree to degrees-minutes-seconds
 pcalc002 Converting between degree and radian measure: Problem type 1
 pcalc621 Converting between degree and radian measure: Problem type 2

pcalc006 Sketching an angle in standard position
 pcalc622 Coterminal angles
 pcalc005 Arc length and central angle measure
 pcalc623 Area of a sector of a circle
 pcalc627 Finding coordinates on the unit circle for special angles
 pcalc629 Trigonometric functions and special angles: Problem type 1
 pcalc628 Finding trigonometric ratios from a point on the unit circle
 pcalc630 Trigonometric functions and special angles: Problem type 2
 pcalc631 Trigonometric functions and special angles: Problem type 3
 pcalc626 Reference angles: Problem type 1
 pcalc632 Reference angles: Problem type 2
 pcalc671 Determining the location of a terminal point given the signs of trigonometric values
 pcalc011 Finding values of trigonometric functions given information about an angle: Problem type 1
 pcalc012 Finding values of trigonometric functions given information about an angle: Problem type 2
 pcalc013 Finding values of trigonometric functions given information about an angle: Problem type 3
 pcalc016 Values of inverse trigonometric functions
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc644 Solving a word problem using the law of sines
 geom320 Proving the law of sines
 pcalc033 Solving a triangle with the law of cosines
 pcalc645 Solving a word problem using the law of cosines
 geom409 Proving the law of cosines
 geom439 Using trigonometry to find the area of a right triangle
 pcalc646 Finding the area of a triangle using trigonometry
 geom319 Expressing the area of a triangle in terms of the sine of one of its angles
 pcalc647 Heron's formula
 pcalc107 Sketching the graph of $y = a \sin(x+c)$ or $y = a \cos(x+c)$
 pcalc106 Sketching the graph of $y = a \sin(bx)$ or $y = a \cos(bx)$
 pcalc014 Sketching the graph of $y = a \sin(bx+c)$ or $y = a \cos(bx+c)$
 pcalc633 Amplitude and period of sine and cosine functions
 pcalc634 Amplitude, period, and phase shift of sine and cosine functions
 pcalc635 Writing the equation of a sine or cosine function given its graph: Problem type 1
 pcalc636 Writing the equation of a sine or cosine function given its graph: Problem type 2
 pcalc640 Word problem involving a sine or cosine function: Problem type 1
 pcalc641 Word problem involving a sine or cosine function: Problem type 2
 pcalc637 Matching graphs and equations for secant, cosecant, tangent, and cotangent functions
 pcalc017 Sketching the graph of a secant or cosecant function: Problem type 1
 pcalc638 Sketching the graph of a secant or cosecant function: Problem type 2
 pcalc105 Sketching the graph of a tangent or cotangent function: Problem type 1
 pcalc015 Sketching the graph of a tangent or cotangent function: Problem type 2
 pcalc648 Simplifying trigonometric expressions
 pcalc666 Using cofunction identities
 pcalc110 Verifying a trigonometric identity
 pcalc034 Proving trigonometric identities: Problem type 1
 pcalc404 Proving trigonometric identities: Problem type 2
 pcalc405 Proving trigonometric identities: Problem type 3
 pcalc406 Proving trigonometric identities using odd and even properties
 pcalc029 Sum and difference identities: Problem type 1
 pcalc663 Sum and difference identities: Problem type 2
 pcalc664 Sum and difference identities: Problem type 3
 pcalc403 Proving trigonometric identities using sum and difference properties
 pcalc030 Double-angle identities: Problem type 1
 pcalc667 Double-angle identities: Problem type 2
 pcalc662 Half-angle identities: Problem type 1
 pcalc665 Half-angle identities: Problem type 2
 pcalc402 Proving trigonometric identities using double-angle properties
 pcalc650 Finding solutions in an interval for a basic equation involving sine or cosine
 pcalc651 Finding solutions in an interval for a basic tangent, cotangent, secant, or cosecant equation
 pcalc660 Solving a basic trigonometric equation using a calculator
 pcalc020 Solving a basic trigonometric equation involving sine or cosine
 pcalc021 Solving a basic trigonometric equation involving tangent, cotangent, secant, or cosecant

pcalc670 Finding solutions in an interval for a trigonometric equation in factored form
 pcalc652 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 1
 pcalc653 Finding solutions in an interval for a trigonometric equation with a squared function: Problem type 2
 pcalc654 Finding solutions in an interval for a trigonometric equation using Pythagorean identities: Problem type 1
 pcalc657 Finding solutions in an interval for an equation with sine and cosine using double-angle identities
 pcalc668 Solving a trigonometric equation modeling a real-world situation
 pcalc811 Using a graphing calculator to solve a trigonometric equation
 pcalc022 Solving a trigonometric equation involving a squared function: Problem type 1
 pcalc023 Solving a trigonometric equation involving a squared function: Problem type 2
 pcalc024 Solving a trigonometric equation involving more than one function
 pcalc027 Solving a trigonometric equation using double-angle identities
 pcalc060 Magnitude of a vector given in component form
 pcalc739 Multiplication of a vector by a scalar: Geometric approach
 pcalc063 Translation of a vector
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 geom857 Vector addition: Geometric approach
 vector007 Vector subtraction: Geometric approach
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph
 vector009 Dot product of vectors given in component form
 vector010 Using the dot product to find perpendicular vectors
 pcalc730 Finding the angle between two vectors given in component form

arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division

alge285 Evaluating an algebraic expression: Whole numbers with two operations
 alge649 Evaluating a formula
 alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge650 Identifying solutions to a one-step linear equation: Problem type 1
 alge651 Identifying solutions to a one-step linear equation: Problem type 2
 alge009 Additive property of equality with whole numbers
 alge813 Introduction to solving an equation with multiplication or division
 alge008 Multiplicative property of equality with whole numbers
 alge803 Using two steps to solve an equation with whole numbers
 alge016 Translating a sentence into a one-step equation
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid

Decimals

arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith734 Subtraction of aligned decimals
 arith735 Decimal subtraction: Basic
 arith736 Decimal subtraction: Advanced
 arith737 Decimal addition and subtraction with 3 or more numbers
 arith131 Estimating a decimal sum or difference
 arith668 Addition with money
 arith669 Subtraction with money
 arith132 Word problem with addition or subtraction of 2 decimals
 arith133 Word problem with addition of 3 or 4 decimals and whole numbers
 arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
 arith739 Introduction to decimal multiplication
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2
 arith082 Multiplication of a decimal by a power of ten
 arith738 Multiplication of a decimal by a power of 0.1
 arith740 Multiplication of decimals that have a product less than 0.1
 arith752 Estimating a product of decimals
 arith135 Word problem with multiplication of a decimal and a whole number
 arith137 Word problem with multiplication of two decimals
 arith628 Word problem with multiple decimal operations: Problem type 1
 arith744 Whole number division with decimal answers
 arith081 Division of a decimal by a whole number
 arith743 Division of a decimal by a 1-digit decimal
 arith019 Division of a decimal by a 2-digit decimal

arith083 Division of a decimal by a power of ten
 arith742 Division of a decimal by a power of 0.1
 arith745 Decimal division with rounding
 arith136 Word problem with division of a decimal and a whole number
 arith138 Word problem with division of two decimals
 arith629 Word problem with multiple decimal operations: Problem type 2
 arith103 Average of two numbers
 arith753 Squaring decimal bases: Products greater than 0.1
 arith741 Exponents and decimals: Products less than 0.1
 arith720 Order of operations with decimals: Problem type 1
 arith746 Order of operations with decimals: Problem type 2
 arith747 Order of operations with decimals: Problem type 3
 alge800 Additive property of equality with decimals
 alge825 Multiplicative property of equality with decimals
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent

Fractions

arith623 Introduction to fractions
 arith665 Understanding equivalent fractions
 arith212 Equivalent fractions
 arith666 Introduction to simplifying a fraction
 arith067 Simplifying a fraction
 arith687 Fractional position on a number line
 arith667 Plotting fractions on a number line
 arith044 Ordering fractions with the same denominator
 arith091 Ordering fractions with the same numerator
 arith092 Using a common denominator to order fractions
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith812 Product of a fraction and a whole number: Problem type 2
 arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
 arith509 Modeling multiplication of proper fractions
 arith813 Multiplication of 3 fractions
 arith818 Word problem involving fractions and multiplication
 arith095 Multi-step word problem involving fractions and multiplication
 arith088 The reciprocal of a number
 arith694 Division involving a whole number and a fraction
 arith022 Fraction division
 arith507 Fact families for multiplication and division of fractions
 arith508 Modeling division of a whole number by a fraction
 arith819 Word problem involving fractions and division
 arith618 Addition or subtraction of fractions with the same denominator
 arith802 Addition or subtraction of fractions with the same denominator and simplification
 arith801 Finding the LCD of two fractions
 arith109 Addition or subtraction of unit fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith803 Addition and subtraction of 3 fractions with different denominators
 arith805 Word problem involving addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith662 Writing a mixed number and an improper fraction for a shaded region
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith215 Addition or subtraction of mixed numbers with the same denominator
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing

arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
 arith808 Addition of mixed numbers with different denominators and carry
 arith809 Subtraction of mixed numbers with different denominators and borrowing
 arith807 Addition and subtraction of 3 mixed numbers with different denominators
 arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
 arith815 Mixed number multiplication
 arith816 Multiplication of a mixed number and a whole number
 arith817 Division with a mixed number and a whole number
 arith068 Mixed number division
 arith820 Word problem involving multiplication or division with mixed numbers
 arith127 Writing a decimal and a fraction for a shaded region
 arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
 arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
 arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
 arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
 arith727 Converting a fraction to a terminating decimal: Basic
 arith728 Converting a fraction to a terminating decimal: Advanced
 arith730 Converting a fraction to a repeating decimal: Basic
 arith731 Converting a fraction to a repeating decimal: Advanced
 arith733 Using a calculator to convert a fraction to a rounded decimal
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith732 Converting a fraction or mixed number to a rounded decimal
 arith609 Ordering fractions and decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith513 Identifying rational decimal numbers
 arith821 Exponents and fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction
 alge801 Additive property of equality with fractions and mixed numbers
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge281 Function tables with one-step rules
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship

alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10

arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 arith232 Finding simple interest without a calculator
 arith918 Comparing discounts
 arith914 Calculations involving paying for college
 arith916 Computing percentages for categories of a budget
 arith921 Comparing annual salaries of different occupations
 arith911 Calculations involving purchases with debit and credit cards
 arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score

Integers and Rational Numbers

alge286 Plotting integers on a number line
 mstat038 Reading the temperature from a thermometer
 arith691 Ordering integers
 arith415 Using a number line to compare integers
 arith699 Writing a signed number for a real-world situation
 arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
 arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
 arith416 Comparing signed numbers relating to a real-world situation
 arith402 Plotting opposite integers on a number line
 arith403 Finding opposites of integers
 arith071 Absolute value of a number
 arith412 Finding all numbers with a given absolute value
 arith605 Plotting rational numbers on a number line
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith431 Identifying a sum as a point located a given distance from another point
 arith430 Identifying relative change when combining two quantities
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2

arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith755 Addition and subtraction with 4 or 5 integers
 arith440 Operations with absolute value: Problem type 1
 arith104 Operations with absolute value: Problem type 2
 alge694 Computing the distance between two integers on a number line
 arith433 Computing and understanding distances between integers on a number line
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith952 Word problem with multiplication or division of integers
 arith702 Exponents and integers: Problem type 1
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith750 Signed decimal multiplication
 arith751 Signed decimal division
 alge660 Identifying equivalent signed fractions
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith814 Signed fraction division
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 geom525 Computing distances between decimals on the number line
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge001 Identifying numbers as integers or non-integers
 alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge665 Combining like terms: Decimal coefficients
 alge666 Combining like terms: Fractional coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression

Equations and Inequalities

alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions

alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge658 Introduction to solving a rational equation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge671 Choosing stories that can be represented by given one-step equations
 alge841 Translating a sentence into a multi-step equation
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations
 alge014 Solving a word problem with two unknowns using a linear equation
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge166 Graphing a compound inequality on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge636 Solving a two-step linear inequality with whole numbers
 alge846 Translating a sentence into a multi-step inequality
 alge621 Solving a word problem using a one-step linear inequality
 alge623 Solving a word problem using a two-step linear inequality

Graphs and Functions

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 arith454 Making a table and plotting points given a unit rate
 alge283 Graphing whole number functions
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun001 Table for a linear function
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1

alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x- and y-intercepts given the graph of a line on a grid
 mstat007 Interpreting a line graph
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge263 Interpreting the graphs of two functions
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom358 Identifying parallel and perpendicular lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side

geom812 Finding an angle measure given extended triangles
geom813 Finding an angle measure given a triangle and parallel lines
geom519 Identifying and naming congruent parts of congruent triangles
geom543 Drawing a circle with a given radius or diameter
geom544 Creating triangles from given side lengths: Problem type 1
geom634 Creating triangles from given side lengths: Problem type 2
geom844 Using triangle inequality to determine if side lengths form a triangle
geom548 Determining if a triangle is possible based on given angle measures
geom546 Drawing triangles with given conditions: Angle measures
geom547 Drawing triangles with given conditions: Side lengths and angle measures
geom545 Drawing triangles with given side lengths using a compass
geom361 Naming polygons
mstat042 Interpreting a Venn diagram of 2 sets
geom536 Drawing and identifying a polygon in the coordinate plane
geom867 Identifying parallelograms, rectangles, and squares
geom310 Properties of quadrilaterals
geom532 Classifying parallelograms
geom818 Finding the coordinates of a point to make a parallelogram
geom870 Sum of the angle measures of a quadrilateral
geom852 The sum of interior angle measures in a convex polygon
arith016 Square root of a perfect square
alge413 Finding all square roots of a number
arith763 Using a calculator to approximate a square root
arith602 Estimating a square root
alge407 Introduction to the Pythagorean Theorem
geom044 Pythagorean Theorem
alge408 Word problem involving the Pythagorean Theorem
geom603 Identifying side lengths that give right triangles

Transformations

geom357 Identifying transformations
geom355 Introduction to translations
geom596 Translating a point and giving its coordinates: One step
geom909 Translating a point and giving its coordinates: Two steps
geom597 Properties of translated figures
geom598 Determining if figures are related by a translation
geom330 Translating a polygon
geom356 Introduction to reflections
arith408 Reflecting a point across an axis
geom533 Reflecting a point across both coordinate axes
geom590 Reflecting a point across an axis and giving its coordinates
arith407 Finding the coordinates of a point reflected across an axis
geom560 Finding the coordinates of a point reflected across both axes
geom534 Reflecting a polygon across the x-axis or y-axis
geom591 Properties of reflected figures
geom592 Determining if figures are related by a reflection
geom332 Reflecting a polygon over a vertical or horizontal line
geom334 Drawing lines of symmetry
geom602 Finding the coordinates of a point reflected across an axis and translated
geom815 Finding an angle of rotation
geom624 Identifying rotational symmetry and angles of rotation
geom593 Rotating a point and giving its coordinates
geom594 Properties of rotated figures
geom595 Determining if figures are related by a rotation
geom335 Rotating a figure about the origin
geom580 Determining if figures are congruent and related by a transformation
geom606 Dilating a segment and giving the coordinates of its endpoints
geom607 The effect of dilation on side length
geom608 Determining if figures are related by a dilation

geom636 The effect of dilation on area

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 geom142 Word problem involving the area between two rectangles
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
 geom344 Area involving rectangles and triangles
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom832 Area of quadrilaterals in the coordinate plane
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom816 Side views of a solid made of cubes
 geom550 Identifying horizontal and vertical cross sections of solids
 geom311 Volume of a rectangular prism
 geom354 Volume of a rectangular prism made of unit cubes
 geom518 Volume of a solid made of cubes with unit fraction edge lengths
 geom535 Volume of a rectangular prism with fractional edge lengths
 alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom035 Volume of a cylinder

geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder

Data Analysis and Probability

mstat088 Identifying statistical questions

Whole Numbers

arith124 Whole number place value: Problem type 1
 arith125 Whole number place value: Problem type 2
 arith066 Expanded form
 arith643 Expanded form with zeros
 arith028 Numeral translation: Problem type 1
 arith060 Numeral translation: Problem type 2
 arith633 One-digit addition with carry
 arith634 Addition of 3 or 4 one-digit numbers
 arith001 Addition without carry
 arith635 Adding a 2-digit number and a 1-digit number with carry
 arith050 Addition with carry
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith636 Subtracting a 1-digit number from a 2-digit number
 arith007 Subtraction without borrowing
 arith006 Subtraction with borrowing
 arith682 Subtraction with multiple regrouping steps
 arith637 Subtraction and regrouping with zeros
 arith653 Fact families for addition and subtraction
 arith613 Word problem with addition or subtraction of whole numbers
 mstat061 Describing an increasing or decreasing pattern from a table of values
 arith126 Multiplication as repeated addition
 arith008 One-digit multiplication
 arith639 Using multiplication to find the number of squares
 arith679 Multiplication by 10, 100, and 1000
 arith003 Multiplication without carry

arith004 Multiplication with carry
arith632 Multiplication with trailing zeros: Problem type 1
arith615 Introduction to multiplication of large numbers
arith675 Understanding multiplication of a one-digit number with a larger number
arith638 Multiplication with trailing zeros: Problem type 2
arith014 Multiplication of large numbers
arith641 Multiples: Problem type 1
arith642 Multiples: Problem type 2
arith075 Division facts
arith654 Fact families for multiplication and division
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith052 Division without carry
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith680 Division with trailing zeros: Problem type 1
arith649 Division with trailing zeros: Problem type 2
arith616 Quotient and remainder: Problem type 1
arith644 Word problem on quotient and remainder
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith016 Square root of a perfect square
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers

arith418 Word problem involving the least common multiple of 2 numbers
 arith240 Word problem with common multiples
 alge284 Evaluating an algebraic expression: Whole number addition or subtraction
 alge683 Evaluating an algebraic expression: Whole number multiplication or division
 alge285 Evaluating an algebraic expression: Whole numbers with two operations
 alge649 Evaluating a formula
 alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge650 Identifying solutions to a one-step linear equation: Problem type 1
 alge651 Identifying solutions to a one-step linear equation: Problem type 2
 alge009 Additive property of equality with whole numbers
 alge813 Introduction to solving an equation with multiplication or division
 alge008 Multiplicative property of equality with whole numbers
 alge016 Translating a sentence into a one-step equation
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid

Decimals

arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith624 Addition of aligned decimals
 arith013 Decimal addition with 3 numbers
 arith734 Subtraction of aligned decimals
 arith735 Decimal subtraction: Basic
 arith736 Decimal subtraction: Advanced
 arith737 Decimal addition and subtraction with 3 or more numbers
 arith131 Estimating a decimal sum or difference
 arith668 Addition with money
 arith669 Subtraction with money
 arith132 Word problem with addition or subtraction of 2 decimals
 arith133 Word problem with addition of 3 or 4 decimals and whole numbers
 arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
 arith739 Introduction to decimal multiplication
 arith017 Multiplication of a decimal by a whole number
 arith055 Decimal multiplication: Problem type 1
 arith046 Decimal multiplication: Problem type 2
 arith082 Multiplication of a decimal by a power of ten
 arith738 Multiplication of a decimal by a power of 0.1
 arith740 Multiplication of decimals that have a product less than 0.1
 arith752 Estimating a product of decimals
 arith135 Word problem with multiplication of a decimal and a whole number
 arith137 Word problem with multiplication of two decimals
 arith628 Word problem with multiple decimal operations: Problem type 1
 arith744 Whole number division with decimal answers

arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith629 Word problem with multiple decimal operations: Problem type 2
arith103 Average of two numbers
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
scinot023 Introduction to scientific notation with positive exponents
arith036 Scientific notation with positive exponent

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry

arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
 arith808 Addition of mixed numbers with different denominators and carry
 arith809 Subtraction of mixed numbers with different denominators and borrowing
 arith807 Addition and subtraction of 3 mixed numbers with different denominators
 arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
 arith815 Mixed number multiplication
 arith816 Multiplication of a mixed number and a whole number
 arith817 Division with a mixed number and a whole number
 arith068 Mixed number division
 arith820 Word problem involving multiplication or division with mixed numbers
 arith127 Writing a decimal and a fraction for a shaded region
 arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
 arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
 arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
 arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
 arith727 Converting a fraction to a terminating decimal: Basic
 arith728 Converting a fraction to a terminating decimal: Advanced
 arith730 Converting a fraction to a repeating decimal: Basic
 arith731 Converting a fraction to a repeating decimal: Advanced
 arith733 Using a calculator to convert a fraction to a rounded decimal
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith732 Converting a fraction or mixed number to a rounded decimal
 arith609 Ordering fractions and decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith513 Identifying rational decimal numbers
 arith821 Exponents and fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge281 Function tables with one-step rules
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$

arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
 arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50

arith843 Using a calculator to convert a fraction to a rounded percentage
arith842 Converting a fraction to a percentage in a real-world situation
arith840 Finding a percentage of a whole number
arith030 Finding a percentage of a whole number without a calculator: Basic
arith844 Finding a percentage of a whole number without a calculator: Advanced
arith862 Applying the percent equation: Problem type 1
arith863 Applying the percent equation: Problem type 2
arith845 Finding a percentage of a total amount: Real-world situations
arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
arith857 Estimating a tip without a calculator
arith069 Writing a ratio as a percentage without a calculator
arith850 Finding the rate of a tax or commission
arith849 Finding the total amount given the percentage of a partial amount
stat805 Making a reasonable inference based on proportion statistics
stat804 Interpreting a circle graph or pie chart
arith856 Finding a percentage of a total amount in a circle graph
stat801 Computations from a circle graph
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
arith232 Finding simple interest without a calculator
arith918 Comparing discounts
arith914 Calculations involving paying for college
arith916 Computing percentages for categories of a budget
arith921 Comparing annual salaries of different occupations
arith911 Calculations involving purchases with debit and credit cards
arith950 Comparing costs of checking accounts
arith951 Balancing a check register
arith912 Reading a credit report
arith913 Understanding the impact of a credit score

Integers and Rational Numbers

alge286 Plotting integers on a number line
mstat038 Reading the temperature from a thermometer
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith605 Plotting rational numbers on a number line
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith431 Identifying a sum as a point located a given distance from another point
arith430 Identifying relative change when combining two quantities
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers

arith755 Addition and subtraction with 4 or 5 integers
 arith440 Operations with absolute value: Problem type 1
 arith104 Operations with absolute value: Problem type 2
 alge694 Computing the distance between two integers on a number line
 arith433 Computing and understanding distances between integers on a number line
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith952 Word problem with multiplication or division of integers
 arith702 Exponents and integers: Problem type 1
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 arith117 Signed decimal addition and subtraction
 arith234 Signed decimal addition and subtraction with 3 numbers
 arith750 Signed decimal multiplication
 arith751 Signed decimal division
 alge660 Identifying equivalent signed fractions
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith814 Signed fraction division
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 geom525 Computing distances between decimals on the number line
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge001 Identifying numbers as integers or non-integers
 alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge665 Combining like terms: Decimal coefficients
 alge666 Combining like terms: Fractional coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression

Equations and Inequalities

alge800 Additive property of equality with decimals
 alge801 Additive property of equality with fractions and mixed numbers
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions

alge825 Multiplicative property of equality with decimals
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge658 Introduction to solving a rational equation
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge671 Choosing stories that can be represented by given one-step equations
 alge841 Translating a sentence into a multi-step equation
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations
 alge014 Solving a word problem with two unknowns using a linear equation
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge166 Graphing a compound inequality on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge636 Solving a two-step linear inequality with whole numbers
 alge846 Translating a sentence into a multi-step inequality
 alge621 Solving a word problem using a one-step linear inequality
 alge623 Solving a word problem using a two-step linear inequality

Graphs and Functions

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 arith454 Making a table and plotting points given a unit rate
 alge283 Graphing whole number functions
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun001 Table for a linear function
 fun005 Writing a function rule given a table of ordered pairs: One-step rules

fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 mstat007 Interpreting a line graph
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge263 Interpreting the graphs of two functions
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom358 Identifying parallel and perpendicular lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines

geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom519 Identifying and naming congruent parts of congruent triangles
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon
 alge413 Finding all square roots of a number
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom603 Identifying side lengths that give right triangles

Transformations

geom357 Identifying transformations
 geom355 Introduction to translations
 geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom356 Introduction to reflections
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation

geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 geom142 Word problem involving the area between two rectangles
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
 geom344 Area involving rectangles and triangles
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom832 Area of quadrilaterals in the coordinate plane
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom816 Side views of a solid made of cubes
 geom550 Identifying horizontal and vertical cross sections of solids
 geom311 Volume of a rectangular prism
 geom354 Volume of a rectangular prism made of unit cubes
 geom518 Volume of a solid made of cubes with unit fraction edge lengths
 geom535 Volume of a rectangular prism with fractional edge lengths
 alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom033 Volume of a pyramid

geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom035 Volume of a cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder

Data Analysis and Probability

mstat088 Identifying statistical questions
 mstat080 Choosing an appropriate method for gathering data: Problem type 1
 mstat081 Choosing an appropriate method for gathering data: Problem type 2
 mstat056 Interpreting a tally table
 mstat097 Constructing a two-way frequency table: Basic
 mstat098 Constructing a two-way frequency table: Advanced
 mstat049 Computing a percentage from a table of values
 mstat087 Making an inference using a two-way frequency table
 stat020 Calculating relative frequencies in a contingency table
 mstat025 Finding if a question can be answered by the data
 mstat037 Constructing a line plot
 mstat005 Constructing a bar graph for non-numerical data
 mstat004 Constructing a histogram for numerical data
 mstat024 Interpreting a bar graph
 mstat044 Interpreting a double bar graph
 mstat057 Interpreting a pictograph table
 mstat031 Interpreting a stem-and-leaf plot
 geom814 Angle measure in a circle graph
 mstat094 Constructing a scatter plot
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 mstat003 Mode of a data set
 mstat055 Finding the mode and range of a data set
 mstat092 Finding the mode and range from a line plot
 mstat001 Mean of a data set
 mstat077 Using a model to find the mean
 mstat075 Understanding the mean graphically: Two bars
 mstat076 Understanding the mean graphically: Four or more bars
 mstat091 Finding the mean of a symmetric distribution
 mstat079 Finding sample size and comparing samples for estimating the mean
 mstat089 Computations involving the mean, sample size, and sum of a data set
 stat803 Finding the value for a new score that will yield a given mean
 stat802 Rejecting unreasonable claims based on average statistics
 mstat066 Weighted mean
 mstat028 Mean and median of a data set
 mstat029 How changing a value affects the mean and median

mstat095 Finding outliers in a data set
 mstat053 Choosing the best measure to describe data
 mstat078 Comparing measures of center and variation
 mstat027 Using back-to-back stem-and-leaf plots to compare data sets
 mstat072 Five-number summary and interquartile range
 mstat006 Constructing a box-and-whisker plot
 mstat073 Using box-and-whisker plots to compare data sets
 mstat082 Computing mean absolute deviation from a list of numerical values
 mstat083 Computing mean absolute deviation from a bar graph
 mstat043 Interpreting a Venn diagram of 3 sets
 mstat041 Interpreting a tree diagram
 mstat040 Introduction to the counting principle
 mstat015 Counting principle
 mstat099 Determining a sample space and outcomes for a simple event
 mstat100 Determining a sample space and outcomes for a compound event
 pcalc082 Factorial expressions
 mstat017 Computing permutations and combinations
 mstat008 Word problem involving permutations
 mstat009 Word problem involving combinations
 mstat054 Classifying likelihood
 mstat026 Introduction to the probability of an event
 mstat010 Probability of an event
 mstat039 Understanding likelihood
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
 arith125 Whole number place value: Problem type 2
 arith066 Expanded form
 arith643 Expanded form with zeros
 arith028 Numeral translation: Problem type 1
 arith060 Numeral translation: Problem type 2
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith006 Subtraction with borrowing
 arith682 Subtraction with multiple regrouping steps
 arith637 Subtraction and regrouping with zeros
 arith613 Word problem with addition or subtraction of whole numbers
 mstat061 Describing an increasing or decreasing pattern from a table of values
 arith126 Multiplication as repeated addition
 arith004 Multiplication with carry
 arith615 Introduction to multiplication of large numbers
 arith675 Understanding multiplication of a one-digit number with a larger number
 arith014 Multiplication of large numbers
 arith641 Multiples: Problem type 1
 arith642 Multiples: Problem type 2
 arith614 Word problem with multiplication or division of whole numbers
 arith130 Word problem with multiplication and addition or subtraction of whole numbers
 arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers

arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith616 Quotient and remainder: Problem type 1
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith016 Square root of a perfect square
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge286 Plotting integers on a number line
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith431 Identifying a sum as a point located a given distance from another point
arith430 Identifying relative change when combining two quantities

arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2
 arith690 Integer subtraction: Problem type 3
 arith754 Addition and subtraction with 3 integers
 arith755 Addition and subtraction with 4 or 5 integers
 arith440 Operations with absolute value: Problem type 1
 arith104 Operations with absolute value: Problem type 2
 alge694 Computing the distance between two integers on a number line
 arith433 Computing and understanding distances between integers on a number line
 arith701 Word problem with addition or subtraction of integers
 arith231 Integer multiplication and division
 arith800 Multiplication of 3 or 4 integers
 arith952 Word problem with multiplication or division of integers
 arith702 Exponents and integers: Problem type 1
 arith703 Exponents and integers: Problem type 2
 arith118 Order of operations with integers
 arith600 Order of operations with integers and exponents
 alge284 Evaluating an algebraic expression: Whole number addition or subtraction
 alge683 Evaluating an algebraic expression: Whole number multiplication or division
 alge285 Evaluating an algebraic expression: Whole numbers with two operations
 alge649 Evaluating a formula
 alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid
 geom311 Volume of a rectangular prism
 alge650 Identifying solutions to a one-step linear equation: Problem type 1
 alge651 Identifying solutions to a one-step linear equation: Problem type 2
 alge009 Additive property of equality with whole numbers
 alge010 Additive property of equality with integers
 alge008 Multiplicative property of equality with whole numbers
 alge797 Multiplicative property of equality with integers

Fractions

arith623 Introduction to fractions
 arith665 Understanding equivalent fractions
 arith212 Equivalent fractions
 arith666 Introduction to simplifying a fraction
 arith067 Simplifying a fraction
 alge660 Identifying equivalent signed fractions
 arith687 Fractional position on a number line
 arith667 Plotting fractions on a number line
 arith044 Ordering fractions with the same denominator
 arith091 Ordering fractions with the same numerator
 arith092 Using a common denominator to order fractions
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith812 Product of a fraction and a whole number: Problem type 2
 arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
 arith509 Modeling multiplication of proper fractions

arith813 Multiplication of 3 fractions
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith818 Word problem involving fractions and multiplication
 arith095 Multi-step word problem involving fractions and multiplication
 arith088 The reciprocal of a number
 arith694 Division involving a whole number and a fraction
 arith022 Fraction division
 arith507 Fact families for multiplication and division of fractions
 arith508 Modeling division of a whole number by a fraction
 arith814 Signed fraction division
 arith819 Word problem involving fractions and division
 arith618 Addition or subtraction of fractions with the same denominator
 arith802 Addition or subtraction of fractions with the same denominator and simplification
 alge432 Introduction to adding fractions with variables and common denominators
 arith801 Finding the LCD of two fractions
 arith109 Addition or subtraction of unit fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith803 Addition and subtraction of 3 fractions with different denominators
 arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 arith805 Word problem involving addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith662 Writing a mixed number and an improper fraction for a shaded region
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith605 Plotting rational numbers on a number line
 arith215 Addition or subtraction of mixed numbers with the same denominator
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
 arith808 Addition of mixed numbers with different denominators and carry
 arith809 Subtraction of mixed numbers with different denominators and borrowing
 arith807 Addition and subtraction of 3 mixed numbers with different denominators
 arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
 arith815 Mixed number multiplication
 arith816 Multiplication of a mixed number and a whole number
 arith817 Division with a mixed number and a whole number
 arith068 Mixed number division
 arith820 Word problem involving multiplication or division with mixed numbers
 arith821 Exponents and fractions
 alge790 Evaluating expressions with exponents of zero
 arith704 Exponents and signed fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge801 Additive property of equality with fractions and mixed numbers
 alge836 Additive property of equality with signed fractions
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions

Decimals

arith127 Writing a decimal and a fraction for a shaded region
 arith110 Decimal place value: Tenths and hundredths

arith220 Decimal place value: Hundreds to ten thousandths
arith714 Writing a decimal number less than 1 given its name
arith715 Writing a decimal number greater than 1 given its name
arith716 Writing a decimal number given its name: Advanced
arith829 Reading decimal position on a number line: Tenths
arith830 Reading decimal position on a number line: Hundredths
arith831 Understanding decimal position on a number line using zoom: Hundredths
arith832 Understanding decimal position on a number line using zoom: Thousandths
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith221 Rounding decimals
arith717 Converting a decimal to a proper fraction without simplifying: Basic
arith719 Converting a decimal to a proper fraction without simplifying: Advanced
arith718 Converting a decimal to a proper fraction in simplest form: Basic
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith734 Subtraction of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith131 Estimating a decimal sum or difference
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
geom525 Computing distances between decimals on the number line
arith132 Word problem with addition or subtraction of 2 decimals
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith046 Decimal multiplication: Problem type 2
arith082 Multiplication of a decimal by a power of ten
arith738 Multiplication of a decimal by a power of 0.1
arith740 Multiplication of decimals that have a product less than 0.1
arith752 Estimating a product of decimals
arith750 Signed decimal multiplication
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith751 Signed decimal division
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith629 Word problem with multiple decimal operations: Problem type 2
arith103 Average of two numbers
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic

arith731 Converting a fraction to a repeating decimal: Advanced
 arith733 Using a calculator to convert a fraction to a rounded decimal
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith732 Converting a fraction or mixed number to a rounded decimal
 arith609 Ordering fractions and decimals
 arith513 Identifying rational decimal numbers
 alge001 Identifying numbers as integers or non-integers
 arith753 Squaring decimal bases: Products greater than 0.1
 arith741 Exponents and decimals: Products less than 0.1
 arith720 Order of operations with decimals: Problem type 1
 arith746 Order of operations with decimals: Problem type 2
 arith747 Order of operations with decimals: Problem type 3
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge800 Additive property of equality with decimals
 alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith505 Word problem on unit rates associated with ratios of fractions
 arith506 Word problem on unit rates associated with ratios of mixed numbers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 arith500 Identifying proportional relationships in tables by calculating unit rates: Whole numbers
 arith510 Identifying proportional relationships in tables by calculating unit rates: Fractions
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches

mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat038 Reading the temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded
 arith903 Representing benchmark percentages on a grid
 arith723 Introduction to converting a percentage to a decimal
 arith833 Introduction to converting a decimal to a percentage
 arith834 Converting between percentages and decimals
 arith841 Converting a mixed number percentage to a decimal
 arith835 Converting between percentages and decimals in a real-world situation
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
 arith904 Finding benchmark fractions and percentages for a figure
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith842 Converting a fraction to a percentage in a real-world situation
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 arith849 Finding the total amount given the percentage of a partial amount
 stat805 Making a reasonable inference based on proportion statistics
 stat804 Interpreting a circle graph or pie chart
 arith856 Finding a percentage of a total amount in a circle graph
 stat801 Computations from a circle graph

arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 unit052 Finding the absolute error and percent error of a measurement
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest
 arith915 Calculating income tax
 arith918 Comparing discounts
 arith909 Examining a savings plan for college
 arith914 Calculations involving paying for college
 arith920 Comparing total costs for attending different colleges
 arith922 Distinguishing between fixed and variable expenses
 arith916 Computing percentages for categories of a budget
 arith919 Computations involving cost of living and hourly wage
 arith921 Comparing annual salaries of different occupations
 arith911 Calculations involving purchases with debit and credit cards
 arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score
 arith917 Computing a person's net worth
 arith906 Calculating and comparing monthly payments using the ALEKS loan calculator
 arith907 Calculating monthly payment, total payment, and interest using the ALEKS loan calculator
 arith908 Calculating and comparing total loan payments using the ALEKS loan calculator
 arith910 Calculating and comparing simple interest and compound interest

Equations and Inequalities

alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge666 Combining like terms: Fractional coefficients
 alge665 Combining like terms: Decimal coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression

alge920 Introduction to solving an equation with parentheses
alge837 Solving a multi-step equation given in fractional form
alge986 Identifying properties used to solve a linear equation
alge824 Solving a two-step equation with signed decimals
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge611 Introduction to solving a linear equation with a variable on each side
alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge614 Clearing fractions in an equation
alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
alge208 Solving a two-step equation with signed fractions
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge742 Solving equations with zero, one, or infinitely many solutions
alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge658 Introduction to solving a rational equation
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge603 Introduction to solving an absolute value equation
alge864 Solving an absolute value equation: Problem type 1
alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge518 Solving for a variable inside parentheses in terms of other variables
alge507 Solving for a variable in terms of other variables in a linear equation with fractions
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge016 Translating a sentence into a one-step equation
alge671 Choosing stories that can be represented by given one-step equations
alge841 Translating a sentence into a multi-step equation
alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
alge618 Comparing arithmetic and algebraic solutions to a word problem
alge672 Choosing stories that can be represented by given two-step equations
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
alge014 Solving a word problem with two unknowns using a linear equation
alge673 Writing an equation to represent a real-world problem: Variable on both sides
alge674 Writing and solving a real-world problem given an equation with the variable on both sides
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge794 Solving a value mixture problem using a linear equation
alge795 Solving a percent mixture problem using a linear equation
alge796 Solving a distance, rate, time problem using a linear equation
alge015 Translating a sentence by using an inequality symbol
alge845 Translating a sentence into a one-step inequality
alge653 Introduction to identifying solutions to an inequality
alge748 Writing an inequality for a real-world situation
alge017 Graphing a linear inequality on the number line
alge822 Writing an inequality given a graph on the number line
alge186 Translating a sentence into a compound inequality
alge166 Graphing a compound inequality on the number line
alge847 Writing a compound inequality given a graph on the number line

alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge621 Solving a word problem using a one-step linear inequality
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality

Graphing, Functions, and Sequences

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge191 Midpoint of a line segment in the plane
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge280 Graphing a line in quadrant 1
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge874 Identifying linear functions given ordered pairs
 geom358 Identifying parallel and perpendicular lines
 mstat007 Interpreting a line graph
 arith454 Making a table and plotting points given a unit rate
 arith501 Identifying proportional relationships in graphs: Basic
 arith502 Identifying proportional relationships in graphs: Advanced
 arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation

alge699 Comparing proportional relationships given in different forms
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge814 Using right triangles to find the slope of a line
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y-intercept
 alge196 Graphing a line through a given point with a given slope
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 alge625 Identifying linear equations: Basic
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function no-

tation

alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation

alge990 Domain and range of a linear function that models a real-world situation

fun026 Finding an output of a function from its graph

pcalc761 Finding inputs and outputs of a function from its graph

fun007 Domain and range from the graph of a discrete relation

alge896 Graphing an integer function and finding its range for a given domain

alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope

alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope

alge999 Finding where a function is increasing, decreasing, or constant given the graph

mstat018 Choosing a graph to fit a narrative: Basic

mstat051 Choosing a graph to fit a narrative: Advanced

alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$

alge900 Graphing an absolute value equation in the plane: Basic

alge168 Graphing an absolute value equation in the plane: Advanced

alge954 Graphing a parabola of the form $y = ax^2$

alge955 Graphing a parabola of the form $y = ax^2 + c$

alge262 Graphing a cubic function of the form $y = ax^3$

alge925 Finding the next terms of an arithmetic sequence with whole numbers

alge933 Finding the next terms of a geometric sequence with whole numbers

alge732 Finding patterns in shapes

alge644 Finding the first terms of an arithmetic sequence using an explicit rule

alge645 Finding the first terms of a geometric sequence using an explicit rule

alge906 Finding the next terms of an arithmetic sequence with integers

alge979 Identifying arithmetic sequences and finding the common difference

alge931 Finding a specified term of an arithmetic sequence given the first terms

pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term

alge909 Writing an explicit rule for an arithmetic sequence

alge907 Finding the next terms of a geometric sequence with signed numbers

alge981 Identifying arithmetic and geometric sequences

alge980 Identifying geometric sequences and finding the common ratio

alge934 Finding a specified term of a geometric sequence given the first terms

pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term

pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule

alge914 Identifying solutions to a system of linear equations

alge725 Graphically solving a system of linear equations

alge815 Introduction to using substitution to solve a linear equation

alge816 Solving a system of linear equations of the form $y = mx + b$

alge751 Solving a system of linear equations using substitution

alge915 Solving a system of linear equations using elimination with addition

alge076 Solving a system of linear equations using elimination with multiplication and addition

alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions

alge263 Interpreting the graphs of two functions

alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations

alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$

alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$

alge184 Solving a value mixture problem using a system of linear equations

pcalc038 Addition or subtraction of matrices

alge912 Identifying solutions to a linear inequality in two variables

alge225 Graphing a linear inequality in the plane: Vertical or horizontal line

alge720 Graphing a linear inequality in the plane: Slope-intercept form

alge018 Graphing a linear inequality in the plane: Standard form

alge079 Graphing a system of two linear inequalities: Basic

alge921 Graphing a system of two linear inequalities: Advanced

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base

alge821 Understanding the product rule of exponents

alge024 Introduction to the product rule of exponents

alge311 Product rule with positive exponents: Univariate
alge030 Product rule with positive exponents: Multivariate
alge690 Introduction to the power of a power rule with positive exponents: Whole number base
alge826 Understanding the power rules of exponents
alge306 Introduction to the power of a power rule of exponents
alge305 Introduction to the power of a product rule of exponents
alge307 Power rules with positive exponents: Multivariate products
alge308 Power rules with positive exponents: Multivariate quotients
alge451 Simplifying a ratio of multivariate monomials: Basic
alge688 Introduction to the quotient rule with positive exponents: Whole number base
alge827 Introduction to the quotient rule of exponents
alge452 Simplifying a ratio of univariate monomials
alge026 Quotient of expressions involving exponents
arith029 Ordering numbers with positive exponents
arith684 Power of 10: Negative exponent
arith729 Evaluating an expression with a negative exponent: Whole number base
arith042 Evaluating an expression with a negative exponent: Positive fraction base
arith043 Evaluating an expression with a negative exponent: Negative integer base
arith024 Ordering numbers with negative exponents
alge791 Rewriting an algebraic expression without a negative exponent
alge687 Introduction to the product rule with negative exponents: Whole number base
alge961 Introduction to the product rule with negative exponents
alge689 Introduction to the quotient rule with negative exponents: Whole number base
alge755 Quotient rule with negative exponents: Problem type 1
alge691 Introduction to the power of a power rule with negative exponents: Whole number base
alge025 Power of a power rule with negative exponents
scinot023 Introduction to scientific notation with positive exponents
arith036 Scientific notation with positive exponent
scinot024 Introduction to scientific notation with negative exponents
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation
scinot025 Estimating numbers using scientific notation
scinot020 Choosing metric units and converting to the base unit in scientific notation
scinot021 Expressing calculator notation as scientific notation
scinot008 Multiplying numbers written in scientific notation: Basic
scinot009 Multiplying numbers written in scientific notation: Advanced
scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
scinot010 Dividing numbers written in scientific notation: Basic
scinot011 Dividing numbers written in scientific notation: Advanced
scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
scinot015 Adding or subtracting numbers written in scientific notation: Same exponents, basic
scinot022 Adding or subtracting numbers written in scientific notation: Same exponents, advanced
scinot016 Adding or subtracting numbers written in scientific notation: Different exponents
scinot017 Estimating the sum or difference of two numbers written in scientific notation
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge029 Simplifying a sum or difference of three univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge032 Squaring a binomial: Univariate
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge039 Factoring a quadratic with leading coefficient 1

alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 arith601 Square root of a rational perfect square
 alge413 Finding all square roots of a number
 arith760 Square roots of perfect squares with signs
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 alge567 Using numerical methods to approximate a square root to the nearest tenth
 alge568 Using numerical methods to approximate a square root to the nearest hundredth
 arith515 Approximating the location of irrational numbers on a number line
 arith712 Ordering real numbers
 arith514 Converting a repeating decimal to a fraction
 arith432 Identifying true statements about rational and irrational numbers
 alge002 Identifying numbers as rational or irrational
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge080 Simplifying a radical expression with an even exponent
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 geom564 Finding side lengths of squares given an area and a perimeter
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge542 Word problem involving radical equations: Basic
 arith094 Cube root of an integer
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge093 Solving an equation using the odd-root property: Problem type 1
 geom565 Finding the side length of a cube given its volume
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom530 Solving equations involving vertical angles
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment

geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom860 Special right triangles: Decimal answers
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon

Transformations

geom519 Identifying and naming congruent parts of congruent triangles
 geom520 Identifying and naming congruent triangles
 geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom357 Identifying transformations
 geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis

geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom582 Determining if figures are similar and related by a sequence of transformations

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 geom142 Word problem involving the area between two rectangles
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
 geom344 Area involving rectangles and triangles
 alge724 Finding an area in terms of variables
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom832 Area of quadrilaterals in the coordinate plane
 geom603 Identifying side lengths that give right triangles
 geom589 Demonstrating the converse of the Pythagorean Theorem
 geom588 Informal proof of the Pythagorean Theorem
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom016 Circumference of a circle

geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom126 Area of a sector of a circle: Exact answer in terms of pi
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom816 Side views of a solid made of cubes
 geom550 Identifying horizontal and vertical cross sections of solids
 geom354 Volume of a rectangular prism made of unit cubes
 geom518 Volume of a solid made of cubes with unit fraction edge lengths
 geom535 Volume of a rectangular prism with fractional edge lengths
 alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom035 Volume of a cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom841 Volume of a sphere
 geom574 Word problem involving the volume of a sphere
 geom133 Ratio of volumes
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

Data Analysis and Probability

mstat088 Identifying statistical questions
 mstat080 Choosing an appropriate method for gathering data: Problem type 1
 mstat081 Choosing an appropriate method for gathering data: Problem type 2

mstat056 Interpreting a tally table
mstat097 Constructing a two-way frequency table: Basic
mstat098 Constructing a two-way frequency table: Advanced
mstat049 Computing a percentage from a table of values
mstat087 Making an inference using a two-way frequency table
stat020 Calculating relative frequencies in a contingency table
mstat025 Finding if a question can be answered by the data
mstat037 Constructing a line plot
mstat005 Constructing a bar graph for non-numerical data
mstat004 Constructing a histogram for numerical data
mstat024 Interpreting a bar graph
mstat044 Interpreting a double bar graph
mstat057 Interpreting a pictograph table
mstat031 Interpreting a stem-and-leaf plot
geom814 Angle measure in a circle graph
mstat094 Constructing a scatter plot
mstat030 Sketching the line of best fit
mstat023 Scatter plots and correlation
mstat068 Predictions from the line of best fit
mstat067 Approximating the equation of a line of best fit and making predictions
mstat093 Classifying linear and nonlinear relationships from scatter plots
mstat071 Linear relationship and the correlation coefficient
mstat096 Identifying outliers and clustering in scatter plots
mstat003 Mode of a data set
mstat055 Finding the mode and range of a data set
mstat092 Finding the mode and range from a line plot
mstat001 Mean of a data set
mstat077 Using a model to find the mean
mstat075 Understanding the mean graphically: Two bars
mstat076 Understanding the mean graphically: Four or more bars
mstat091 Finding the mean of a symmetric distribution
mstat079 Finding sample size and comparing samples for estimating the mean
mstat089 Computations involving the mean, sample size, and sum of a data set
stat803 Finding the value for a new score that will yield a given mean
stat802 Rejecting unreasonable claims based on average statistics
mstat066 Weighted mean
mstat028 Mean and median of a data set
mstat029 How changing a value affects the mean and median
mstat095 Finding outliers in a data set
mstat053 Choosing the best measure to describe data
mstat078 Comparing measures of center and variation
mstat027 Using back-to-back stem-and-leaf plots to compare data sets
mstat072 Five-number summary and interquartile range
mstat006 Constructing a box-and-whisker plot
mstat073 Using box-and-whisker plots to compare data sets
mstat090 Comparing sample means
mstat082 Computing mean absolute deviation from a list of numerical values
mstat083 Computing mean absolute deviation from a bar graph
mstat084 Assessing the degree of overlap of two distributions
mstat043 Interpreting a Venn diagram of 3 sets
mstat041 Interpreting a tree diagram
mstat040 Introduction to the counting principle
mstat015 Counting principle
mstat099 Determining a sample space and outcomes for a simple event
mstat100 Determining a sample space and outcomes for a compound event
pcalc082 Factorial expressions
mstat017 Computing permutations and combinations
mstat008 Word problem involving permutations
mstat009 Word problem involving combinations
mstat054 Classifying likelihood
mstat026 Introduction to the probability of an event
mstat010 Probability of an event

mstat039 Understanding likelihood
 mstat048 Odds of an event
 stat106 Outcomes and event probability
 stat112 Probabilities involving two dice
 mstat011 Area as probability
 mstat046 Experimental and theoretical probability
 mstat047 Introduction to expectation
 mstat012 Probability of independent events
 mstat013 Probability of dependent events
 mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event

B.95 CC Algebra 1 Tutorial Lab (Intervention)

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
 arith125 Whole number place value: Problem type 2
 arith066 Expanded form
 arith643 Expanded form with zeros
 arith028 Numeral translation: Problem type 1
 arith060 Numeral translation: Problem type 2
 arith630 Addition with carry to the hundreds place
 arith012 Addition of large numbers
 arith006 Subtraction with borrowing
 arith682 Subtraction with multiple regrouping steps
 arith637 Subtraction and regrouping with zeros
 arith613 Word problem with addition or subtraction of whole numbers
 mstat061 Describing an increasing or decreasing pattern from a table of values
 arith126 Multiplication as repeated addition
 arith004 Multiplication with carry
 arith615 Introduction to multiplication of large numbers
 arith675 Understanding multiplication of a one-digit number with a larger number
 arith014 Multiplication of large numbers
 arith641 Multiples: Problem type 1
 arith642 Multiples: Problem type 2
 arith614 Word problem with multiplication or division of whole numbers
 arith130 Word problem with multiplication and addition or subtraction of whole numbers
 arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
 arith243 Division of whole numbers given in fractional form
 arith711 Division involving zero
 arith005 Division with carry
 arith901 Whole number division: 2-digit by 2-digit, no remainder
 arith902 Whole number division: 3-digit by 2-digit, no remainder
 arith616 Quotient and remainder: Problem type 1
 arith617 Quotient and remainder: Problem type 2
 arith631 Quotient and remainder: Problem type 3
 arith650 Division involving quotients with intermediate zeros
 arith023 Word problem with division of whole numbers and rounding
 arith651 Introduction to inequalities
 arith652 Comparing a numerical expression with a number
 arith077 Ordering large numbers
 arith078 Rounding to tens or hundreds
 arith123 Rounding to hundreds or thousands
 arith061 Rounding to thousands, ten thousands, or hundred thousands
 arith101 Estimating a sum of whole numbers
 arith102 Estimating a difference of whole numbers
 arith677 Estimating a product

arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers

arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge286 Plotting integers on a number line
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith431 Identifying a sum as a point located a given distance from another point
arith430 Identifying relative change when combining two quantities
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith440 Operations with absolute value: Problem type 1
arith104 Operations with absolute value: Problem type 2
alge694 Computing the distance between two integers on a number line
arith433 Computing and understanding distances between integers on a number line
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith952 Word problem with multiplication or division of integers
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations

alge649 Evaluating a formula
 alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
 alge832 Evaluating an algebraic expression: Whole number operations and exponents
 alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
 alge004 Evaluating a quadratic expression: Integers
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 geom339 Perimeter of a polygon
 geom300 Perimeter of a square or a rectangle
 geom019 Area of a square or a rectangle
 geom866 Perimeter and area on a grid
 geom311 Volume of a rectangular prism
 alge650 Identifying solutions to a one-step linear equation: Problem type 1
 alge651 Identifying solutions to a one-step linear equation: Problem type 2
 alge009 Additive property of equality with whole numbers
 alge010 Additive property of equality with integers
 alge008 Multiplicative property of equality with whole numbers
 alge797 Multiplicative property of equality with integers

Fractions

arith623 Introduction to fractions
 arith665 Understanding equivalent fractions
 arith212 Equivalent fractions
 arith666 Introduction to simplifying a fraction
 arith067 Simplifying a fraction
 alge660 Identifying equivalent signed fractions
 arith687 Fractional position on a number line
 arith667 Plotting fractions on a number line
 arith044 Ordering fractions with the same denominator
 arith091 Ordering fractions with the same numerator
 arith092 Using a common denominator to order fractions
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1
 arith119 Introduction to fraction multiplication
 arith053 Fraction multiplication
 arith812 Product of a fraction and a whole number: Problem type 2
 arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
 arith509 Modeling multiplication of proper fractions
 arith813 Multiplication of 3 fractions
 arith822 Signed fraction multiplication: Basic
 arith105 Signed fraction multiplication: Advanced
 arith818 Word problem involving fractions and multiplication
 arith095 Multi-step word problem involving fractions and multiplication
 arith088 The reciprocal of a number
 arith694 Division involving a whole number and a fraction
 arith022 Fraction division
 arith507 Fact families for multiplication and division of fractions
 arith508 Modeling division of a whole number by a fraction
 arith814 Signed fraction division
 arith819 Word problem involving fractions and division
 arith618 Addition or subtraction of fractions with the same denominator
 arith802 Addition or subtraction of fractions with the same denominator and simplification
 alge432 Introduction to adding fractions with variables and common denominators
 arith801 Finding the LCD of two fractions
 arith109 Addition or subtraction of unit fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith803 Addition and subtraction of 3 fractions with different denominators

arith116 Signed fraction addition or subtraction: Basic
 arith864 Signed fraction subtraction involving double negation
 arith106 Signed fraction addition or subtraction: Advanced
 arith811 Addition and subtraction of 3 fractions involving signs
 arith805 Word problem involving addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith662 Writing a mixed number and an improper fraction for a shaded region
 arith015 Writing an improper fraction as a mixed number
 arith619 Writing a mixed number as an improper fraction
 arith605 Plotting rational numbers on a number line
 arith215 Addition or subtraction of mixed numbers with the same denominator
 arith084 Addition of mixed numbers with the same denominator and carry
 arith216 Subtraction of mixed numbers with the same denominator and borrowing
 arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
 arith808 Addition of mixed numbers with different denominators and carry
 arith809 Subtraction of mixed numbers with different denominators and borrowing
 arith807 Addition and subtraction of 3 mixed numbers with different denominators
 arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
 arith815 Mixed number multiplication
 arith816 Multiplication of a mixed number and a whole number
 arith817 Division with a mixed number and a whole number
 arith068 Mixed number division
 arith820 Word problem involving multiplication or division with mixed numbers
 arith821 Exponents and fractions
 alge790 Evaluating expressions with exponents of zero
 arith704 Exponents and signed fractions
 arith859 Order of operations with fractions: Problem type 1
 arith860 Order of operations with fractions: Problem type 2
 arith861 Order of operations with fractions: Problem type 3
 arith695 Complex fraction without variables: Problem type 1
 alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
 alge801 Additive property of equality with fractions and mixed numbers
 alge836 Additive property of equality with signed fractions
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge012 Multiplicative property of equality with signed fractions

Decimals

arith127 Writing a decimal and a fraction for a shaded region
 arith110 Decimal place value: Tenths and hundredths
 arith220 Decimal place value: Hundreds to ten thousandths
 arith714 Writing a decimal number less than 1 given its name
 arith715 Writing a decimal number greater than 1 given its name
 arith716 Writing a decimal number given its name: Advanced
 arith829 Reading decimal position on a number line: Tenths
 arith830 Reading decimal position on a number line: Hundredths
 arith831 Understanding decimal position on a number line using zoom: Hundredths
 arith832 Understanding decimal position on a number line using zoom: Thousandths
 arith129 Introduction to ordering decimals
 arith608 Ordering decimals
 arith221 Rounding decimals
 arith717 Converting a decimal to a proper fraction without simplifying: Basic
 arith719 Converting a decimal to a proper fraction without simplifying: Advanced
 arith718 Converting a decimal to a proper fraction in simplest form: Basic
 arith087 Converting a decimal to a proper fraction in simplest form: Advanced
 arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
 arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
 arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
 arith624 Addition of aligned decimals

arith013 Decimal addition with 3 numbers
arith734 Subtraction of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith131 Estimating a decimal sum or difference
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
geom525 Computing distances between decimals on the number line
arith132 Word problem with addition or subtraction of 2 decimals
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith046 Decimal multiplication: Problem type 2
arith082 Multiplication of a decimal by a power of ten
arith738 Multiplication of a decimal by a power of 0.1
arith740 Multiplication of decimals that have a product less than 0.1
arith752 Estimating a product of decimals
arith750 Signed decimal multiplication
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith744 Whole number division with decimal answers
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith742 Division of a decimal by a power of 0.1
arith745 Decimal division with rounding
arith751 Signed decimal division
arith136 Word problem with division of a decimal and a whole number
arith138 Word problem with division of two decimals
arith629 Word problem with multiple decimal operations: Problem type 2
arith103 Average of two numbers
arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
arith727 Converting a fraction to a terminating decimal: Basic
arith728 Converting a fraction to a terminating decimal: Advanced
arith730 Converting a fraction to a repeating decimal: Basic
arith731 Converting a fraction to a repeating decimal: Advanced
arith733 Using a calculator to convert a fraction to a rounded decimal
arith111 Converting a mixed number to a terminating decimal: Basic
arith112 Converting a mixed number to a terminating decimal: Advanced
arith732 Converting a fraction or mixed number to a rounded decimal
arith609 Ordering fractions and decimals
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith748 Addition or subtraction with a decimal and a mixed number
arith749 Multiplication with a decimal and a fraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge800 Additive property of equality with decimals
alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith505 Word problem on unit rates associated with ratios of fractions
 arith506 Word problem on unit rates associated with ratios of mixed numbers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 arith500 Identifying proportional relationships in tables by calculating unit rates: Whole numbers
 arith510 Identifying proportional relationships in tables by calculating unit rates: Fractions
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat038 Reading the temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2

alge218 Solving a word problem involving rates and time conversion
unit034 Converting between metric and U.S. Customary unit systems
unit035 Converting between compound units: Basic
unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
arith837 Converting a percentage to a fraction with a denominator of 100
arith674 Finding the percentage of a grid that is shaded
arith903 Representing benchmark percentages on a grid
arith723 Introduction to converting a percentage to a decimal
arith833 Introduction to converting a decimal to a percentage
arith834 Converting between percentages and decimals
arith841 Converting a mixed number percentage to a decimal
arith835 Converting between percentages and decimals in a real-world situation
arith090 Converting a percentage to a fraction in simplest form
arith839 Converting a decimal percentage to a fraction
arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
arith904 Finding benchmark fractions and percentages for a figure
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith843 Using a calculator to convert a fraction to a rounded percentage
arith842 Converting a fraction to a percentage in a real-world situation
arith840 Finding a percentage of a whole number
arith030 Finding a percentage of a whole number without a calculator: Basic
arith844 Finding a percentage of a whole number without a calculator: Advanced
arith862 Applying the percent equation: Problem type 1
arith863 Applying the percent equation: Problem type 2
arith845 Finding a percentage of a total amount: Real-world situations
arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
arith857 Estimating a tip without a calculator
arith069 Writing a ratio as a percentage without a calculator
arith850 Finding the rate of a tax or commission
arith849 Finding the total amount given the percentage of a partial amount
stat805 Making a reasonable inference based on proportion statistics
stat804 Interpreting a circle graph or pie chart
arith856 Finding a percentage of a total amount in a circle graph
stat801 Computations from a circle graph
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
unit052 Finding the absolute error and percent error of a measurement
arith232 Finding simple interest without a calculator
arith853 Introduction to compound interest
arith915 Calculating income tax
arith918 Comparing discounts
arith909 Examining a savings plan for college
arith914 Calculations involving paying for college
arith920 Comparing total costs for attending different colleges
arith922 Distinguishing between fixed and variable expenses
arith916 Computing percentages for categories of a budget
arith919 Computations involving cost of living and hourly wage
arith921 Comparing annual salaries of different occupations
arith911 Calculations involving purchases with debit and credit cards

arith950 Comparing costs of checking accounts
 arith951 Balancing a check register
 arith912 Reading a credit report
 arith913 Understanding the impact of a credit score
 arith917 Computing a person's net worth
 arith906 Calculating and comparing monthly payments using the ALEKS loan calculator
 arith907 Calculating monthly payment, total payment, and interest using the ALEKS loan calculator
 arith908 Calculating and comparing total loan payments using the ALEKS loan calculator
 arith910 Calculating and comparing simple interest and compound interest

Equations and Inequalities

alge647 Identifying like terms
 alge700 Combining like terms: Whole number coefficients
 alge607 Combining like terms: Integer coefficients
 arith655 Introduction to properties of addition
 alge187 Properties of addition
 alge666 Combining like terms: Fractional coefficients
 alge665 Combining like terms: Decimal coefficients
 alge310 Multiplying a constant and a linear monomial
 alge606 Distributive property: Whole number coefficients
 alge604 Distributive property: Integer coefficients
 alge610 Distributive property: Fractional coefficients
 alge605 Factoring a linear binomial
 alge612 Identifying parts in an algebraic expression
 alge613 Identifying equivalent algebraic expressions
 arith656 Introduction to properties of multiplication
 alge188 Properties of real numbers
 alge608 Using distribution and combining like terms to simplify: Univariate
 alge667 Identifying properties used to simplify an algebraic expression
 alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
 alge293 Combining like terms in a quadratic expression
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge840 Solving a proportion of the form $(x+a) \div b = c \div d$

alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge658 Introduction to solving a rational equation
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge603 Introduction to solving an absolute value equation
alge864 Solving an absolute value equation: Problem type 1
alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge518 Solving for a variable inside parentheses in terms of other variables
alge507 Solving for a variable in terms of other variables in a linear equation with fractions
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge016 Translating a sentence into a one-step equation
alge671 Choosing stories that can be represented by given one-step equations
alge841 Translating a sentence into a multi-step equation
alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
alge618 Comparing arithmetic and algebraic solutions to a word problem
alge672 Choosing stories that can be represented by given two-step equations
alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
alge014 Solving a word problem with two unknowns using a linear equation
geom217 Finding the side length of a rectangle given its perimeter or area
alge673 Writing an equation to represent a real-world problem: Variable on both sides
alge674 Writing and solving a real-world problem given an equation with the variable on both sides
alge219 Solving a decimal word problem using a linear equation with the variable on both sides
alge704 Solving a fraction word problem using a linear equation with the variable on both sides
alge792 Solving a word problem with three unknowns using a linear equation
alge842 Solving a word problem involving consecutive integers
alge794 Solving a value mixture problem using a linear equation
alge795 Solving a percent mixture problem using a linear equation
alge796 Solving a distance, rate, time problem using a linear equation
alge015 Translating a sentence by using an inequality symbol
alge845 Translating a sentence into a one-step inequality
alge653 Introduction to identifying solutions to an inequality
alge748 Writing an inequality for a real-world situation
alge017 Graphing a linear inequality on the number line
alge822 Writing an inequality given a graph on the number line
alge186 Translating a sentence into a compound inequality
alge166 Graphing a compound inequality on the number line
alge847 Writing a compound inequality given a graph on the number line
alge652 Identifying solutions to a one-step linear inequality
alge848 Additive property of inequality with whole numbers
alge849 Additive property of inequality with integers
alge852 Additive property of inequality with signed fractions
alge853 Additive property of inequality with signed decimals
alge809 Multiplicative property of inequality with whole numbers
alge854 Multiplicative property of inequality with integers
alge964 Multiplicative property of inequality with signed fractions
alge621 Solving a word problem using a one-step linear inequality
alge844 Identifying solutions to a two-step linear inequality in one variable
alge636 Solving a two-step linear inequality with whole numbers
alge855 Solving a two-step linear inequality: Problem type 1
alge856 Solving a two-step linear inequality: Problem type 2
alge857 Solving a two-step linear inequality with a fractional coefficient
alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
alge846 Translating a sentence into a multi-step inequality
alge619 Solving a word problem using a two-step linear inequality and describing the solution
alge623 Solving a word problem using a two-step linear inequality
alge749 Solving a decimal word problem using a two-step linear inequality

Graphing, Functions, and Sequences

alge278 Reading a point in quadrant 1
alge279 Plotting a point in quadrant 1
alge064 Reading a point in the coordinate plane
alge067 Plotting a point in the coordinate plane
alge692 Plotting a point in quadrant 1: Mixed number coordinates
alge693 Plotting a point in the coordinate plane: Mixed number coordinates
arith404 Naming the quadrant or axis of a point given its graph
arith405 Naming the quadrant or axis of a point given its coordinates
arith406 Naming the quadrant or axis of a point given the signs of its coordinates
alge695 Finding distances between points that share a common coordinate given the graph
alge696 Finding distances between points that share a common coordinate given their coordinates
alge191 Midpoint of a line segment in the plane
alge282 Function tables with two-step rules
alge850 Table for a linear equation
fun005 Writing a function rule given a table of ordered pairs: One-step rules
fun006 Writing a function rule given a table of ordered pairs: Two-step rules
alge873 Identifying solutions to a linear equation in two variables
alge066 Finding a solution to a linear equation in two variables
alge280 Graphing a line in quadrant 1
alge877 Graphing a linear equation of the form $y = mx$
alge878 Graphing a line given its equation in slope-intercept form: Integer slope
alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
alge880 Graphing a line given its equation in standard form
alge198 Graphing a vertical or horizontal line
alge884 Finding x - and y -intercepts given the graph of a line on a grid
alge924 Finding x - and y -intercepts of a line given the equation: Basic
alge210 Finding x - and y -intercepts of a line given the equation: Advanced
alge197 Graphing a line given its x - and y -intercepts
alge881 Graphing a line by first finding its x - and y -intercepts
alge874 Identifying linear functions given ordered pairs
geom358 Identifying parallel and perpendicular lines
mstat007 Interpreting a line graph
arith454 Making a table and plotting points given a unit rate
arith501 Identifying proportional relationships in graphs: Basic
arith502 Identifying proportional relationships in graphs: Advanced
arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation
alge699 Comparing proportional relationships given in different forms
alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge814 Using right triangles to find the slope of a line
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y -intercept
alge196 Graphing a line through a given point with a given slope
alge982 Identifying direct variation equations
alge938 Identifying direct variation from ordered pairs and writing equations
alge904 Writing a direct variation equation
alge175 Word problem on direct variation
alge828 Interpreting direct variation from a graph
alge905 Writing an inverse variation equation
alge903 Identifying direct and inverse variation equations
alge902 Identifying direct and inverse variation from ordered pairs and writing equations
alge176 Word problem on inverse variation
alge220 Word problem on inverse proportions
alge625 Identifying linear equations: Basic

alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y-intercept
 alge258 Writing an equation of a line given its slope and y-intercept
 alge892 Writing an equation and graphing a line given its slope and y-intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2 + bx + c$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3 + bx^2 + cx + d$
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes

alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 alge815 Introduction to using substitution to solve a linear equation
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 pcalc038 Addition or subtraction of matrices
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge690 Introduction to the power of a power rule with positive exponents: Whole number base
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge688 Introduction to the quotient rule with positive exponents: Whole number base
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 arith029 Ordering numbers with positive exponents
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge687 Introduction to the product rule with negative exponents: Whole number base

alge961 Introduction to the product rule with negative exponents
alge689 Introduction to the quotient rule with negative exponents: Whole number base
alge755 Quotient rule with negative exponents: Problem type 1
alge691 Introduction to the power of a power rule with negative exponents: Whole number base
alge025 Power of a power rule with negative exponents
scinot023 Introduction to scientific notation with positive exponents
arith036 Scientific notation with positive exponent
scinot024 Introduction to scientific notation with negative exponents
arith037 Scientific notation with negative exponent
scinot012 Converting between scientific notation and standard form in a real-world situation
scinot025 Estimating numbers using scientific notation
scinot020 Choosing metric units and converting to the base unit in scientific notation
scinot021 Expressing calculator notation as scientific notation
scinot008 Multiplying numbers written in scientific notation: Basic
scinot009 Multiplying numbers written in scientific notation: Advanced
scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
scinot010 Dividing numbers written in scientific notation: Basic
scinot011 Dividing numbers written in scientific notation: Advanced
scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
scinot015 Adding or subtracting numbers written in scientific notation: Same exponents, basic
scinot022 Adding or subtracting numbers written in scientific notation: Same exponents, advanced
scinot016 Adding or subtracting numbers written in scientific notation: Different exponents
scinot017 Estimating the sum or difference of two numbers written in scientific notation
alge758 Degree and leading coefficient of a univariate polynomial
alge031 Degree of a multivariate polynomial
alge798 Simplifying a sum or difference of two univariate polynomials
alge029 Simplifying a sum or difference of three univariate polynomials
alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
alge033 Multiplying binomials with leading coefficients of 1
alge983 Multiplying binomials with leading coefficients greater than 1
alge765 Multiplying binomials in two variables
alge764 Multiplying conjugate binomials: Univariate
alge032 Squaring a binomial: Univariate
alge935 Multiplication involving binomials and trinomials in one variable
alge180 Multiplication involving binomials and trinomials in two variables
alge737 Introduction to the LCM of two monomials
alge055 Least common multiple of two monomials
alge736 Introduction to the GCF of two monomials
alge037 Greatest common factor of two multivariate monomials
alge738 Factoring out a monomial from a polynomial: Univariate
alge039 Factoring a quadratic with leading coefficient 1
alge944 Factoring a perfect square trinomial with leading coefficient 1
alge290 Factoring a difference of squares in one variable: Basic
alge947 Factoring a difference of squares in one variable: Advanced
alge045 Finding the roots of a quadratic equation with leading coefficient 1
arith016 Square root of a perfect square
arith601 Square root of a rational perfect square
alge413 Finding all square roots of a number
arith760 Square roots of perfect squares with signs
arith763 Using a calculator to approximate a square root
arith602 Estimating a square root
alge567 Using numerical methods to approximate a square root to the nearest tenth
alge568 Using numerical methods to approximate a square root to the nearest hundredth
arith515 Approximating the location of irrational numbers on a number line
arith712 Ordering real numbers
alge001 Identifying numbers as integers or non-integers
arith513 Identifying rational decimal numbers
arith514 Converting a repeating decimal to a fraction
arith432 Identifying true statements about rational and irrational numbers
alge002 Identifying numbers as rational or irrational
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial

arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge080 Simplifying a radical expression with an even exponent
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 geom564 Finding side lengths of squares given an area and a perimeter
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge542 Word problem involving radical equations: Basic
 arith094 Cube root of an integer
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge093 Solving an equation using the odd-root property: Problem type 1
 geom565 Finding the side length of a cube given its volume
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom530 Solving equations involving vertical angles
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom860 Special right triangles: Decimal answers
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1

geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon

Transformations

geom519 Identifying and naming congruent parts of congruent triangles
 geom520 Identifying and naming congruent triangles
 geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom357 Identifying transformations
 geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length

geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom582 Determining if figures are similar and related by a sequence of transformations

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
 geom620 Area of a rectangle involving fractions
 geom619 Area of a rectangle involving mixed numbers and fractions
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom351 Areas of rectangles with the same perimeter
 geom869 Estimates and exact answers
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 geom142 Word problem involving the area between two rectangles
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
 geom344 Area involving rectangles and triangles
 alge724 Finding an area in terms of variables
 geom022 Area of a parallelogram
 geom023 Area of a trapezoid
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom832 Area of quadrilaterals in the coordinate plane
 geom603 Identifying side lengths that give right triangles
 geom589 Demonstrating the converse of the Pythagorean Theorem
 geom588 Informal proof of the Pythagorean Theorem
 geom347 Introduction to a circle: Diameter, radius, and chord
 geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
 geom016 Circumference of a circle
 geom218 Finding the radius or the diameter of a circle given its circumference
 geom838 Circumference ratios
 geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom126 Area of a sector of a circle: Exact answer in terms of pi
 geom868 Classifying solids
 geom348 Vertices, edges, and faces of a solid
 geom830 Counting the cubes in a solid made of cubes
 geom816 Side views of a solid made of cubes
 geom550 Identifying horizontal and vertical cross sections of solids
 geom354 Volume of a rectangular prism made of unit cubes
 geom518 Volume of a solid made of cubes with unit fraction edge lengths
 geom535 Volume of a rectangular prism with fractional edge lengths

alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom035 Volume of a cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom841 Volume of a sphere
 geom574 Word problem involving the volume of a sphere
 geom133 Ratio of volumes
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

alge936 Factoring out a constant before factoring a quadratic
alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
alge944 Factoring a perfect square trinomial with leading coefficient 1
arith016 Square root of a perfect square
arith763 Using a calculator to approximate a square root
arith601 Square root of a rational perfect square
arith760 Square roots of perfect squares with signs
arith761 Square roots of integers raised to even exponents
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial

alge537 Using absolute value to simplify square roots of perfect square monomials
arith094 Cube root of an integer
arith093 Simplifying the square root of a whole number less than 100
arith762 Simplifying the square root of a whole number greater than 100
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
arith764 Introduction to square root multiplication
arith765 Square root multiplication: Basic
arith767 Introduction to square root addition or subtraction
arith766 Simplifying a quotient of square roots
alge527 Rationalizing a denominator: Quotient involving square roots
alge528 Rationalizing a denominator: Square root of a fraction
alge400 Introduction to solving a radical equation
alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
alge698 Solving an equation of the form $x^3 = a$ using integers
alge681 Solving an equation written in factored form
alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
alge045 Finding the roots of a quadratic equation with leading coefficient 1
alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
alge211 Solving a quadratic equation needing simplification
alge962 Solving an equation of the form $x^2 = a$ using the square root property
alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
alge092 Solving a quadratic equation using the square root property: Exact answers, basic
alge095 Applying the quadratic formula: Exact answers
alge963 Applying the quadratic formula: Decimal answers
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom618 Perimeter of a polygon involving mixed numbers and fractions
geom221 Finding the missing length in a figure
geom353 Perimeter of a piecewise rectangular figure
alge615 Writing algebraic expressions for the perimeter of a figure
geom817 Finding a side length given the perimeter and side lengths with variables
geom078 Sides of polygons having the same perimeter
geom019 Area of a square or a rectangle
geom866 Perimeter and area on a grid
geom620 Area of a rectangle involving fractions
geom619 Area of a rectangle involving mixed numbers and fractions
geom350 Distinguishing between the area and perimeter of a rectangle
geom351 Areas of rectangles with the same perimeter
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
geom869 Estimates and exact answers
alge616 Writing algebraic expressions for the area of a figure
geom564 Finding side lengths of squares given an area and a perimeter
geom648 Finding side lengths of rectangles given one dimension and an area or a perimeter
geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
geom143 Finding the perimeter or area of a rectangle given one of these values
geom410 Word problem involving the area of a square or a rectangle
geom142 Word problem involving the area between two rectangles
geom444 Word problem on optimizing an area or perimeter
mstat033 Measuring length to the nearest inch
mstat034 Measuring length to the nearest quarter or half inch
unit005 U.S. Customary unit conversion with whole number values
mstat035 Conversions involving measurements in feet and inches
mstat036 Adding measurements in feet and inches
unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
mstat063 Measuring length to the nearest centimeter
mstat064 Measuring length to the nearest millimeter
unit001 Metric distance conversion with whole number values
unit002 Metric mass or capacity conversion with whole number values
unit003 Metric distance conversion with decimal values

unit004 Metric conversion with decimal values: Two-step problem
 unit034 Converting between metric and U.S. Customary unit systems
 unit009 U.S. Customary area unit conversion with whole number values
 unit010 Metric area unit conversion with decimal values

Segments and Angles

geom349 Naming segments, rays, and lines
 geom459 Analyzing relationships between points, lines, and planes given a figure
 geom359 Identifying congruent shapes on a grid
 geom358 Identifying parallel and perpendicular lines
 geom407 Matching basic geometric terms with their definitions
 geom392 Introduction to segment addition
 alge694 Computing the distance between two integers on a number line
 geom394 Computing distances between decimals on a number line
 geom393 Finding a point on a number line given the length of a segment and another point
 geom395 Midpoint of a number line segment: Integers
 geom396 Midpoint of a number line segment: Decimals
 geom397 Using a segment's midpoint and endpoint to locate the other endpoint
 geom521 Segment addition and midpoints
 geom399 Finding a point that partitions a number line segment in a given fractional relationship
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge850 Table for a linear equation
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 geom458 Identifying congruent segments in the plane
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 geom406 Finding a point that partitions a segment in the plane in a given fractional relationship
 geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom460 Naming angles, sides of angles, and vertices
 geom039 Finding supplementary and complementary angles
 geom454 Introduction to angle addition
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom850 Angle addition with relationships between angles
 geom851 Angle addition and angle bisectors
 geom800 Identifying linear pairs and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom500 Solving equations involving vertical angles and linear pairs
 geom389 Constructing congruent line segments
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom154 Constructing the perpendicular bisector of a line segment
 geom457 Making conjectures given a geometric construction

Reasoning

alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge732 Finding patterns in shapes
 mstat042 Interpreting a Venn diagram of 2 sets
 glogic001 Conditional statements and negations
 glogic005 The converse, inverse, and contrapositive of a conditional statement
 glogic011 Writing the converse, inverse, and contrapositive of a conditional statement and determining their truth values
 glogic012 Writing a biconditional statement as a conditional statement and its converse and determining truth values
 glogic013 Finding counterexamples to conjectures
 glogic008 Conditional statements and deductive reasoning
 geom665 Distinguishing between undefined terms, definitions, postulates, conjectures, and theorems
 geom616 Introduction to proofs: Justifying statements
 geom614 Proofs involving segment congruence
 geom611 Proofs involving angle congruence

Lines

geom304 Identifying corresponding and alternate angles
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom503 Solving equations involving angles and two pairs of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom835 Introduction to proofs involving parallel lines
 geom836 Proofs involving parallel lines
 fun001 Table for a linear function
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge814 Using right triangles to find the slope of a line
 alge259 Graphing a line given its slope and y -intercept
 alge196 Graphing a line through a given point with a given slope
 alge891 Rewriting a linear equation in the form $Ax + By = C$
 alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
 alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
 alge882 Graphing a line by first finding its slope and y -intercept
 alge258 Writing an equation of a line given its slope and y -intercept
 alge892 Writing an equation and graphing a line given its slope and y -intercept
 alge893 Writing an equation in slope-intercept form given the slope and a point
 alge318 Finding the slope and a point on a line given its equation in point-slope form
 alge883 Graphing a line given its equation in point-slope form
 alge894 Writing an equation in point-slope form given the slope and a point

alge313 Writing an equation in standard form given the slope and a point
 alge070 Writing an equation of a line given the y-intercept and another point
 alge072 Writing the equation of the line through two given points
 alge073 Writing the equations of vertical and horizontal lines through a given point
 geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
 geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
 alge895 Identifying parallel and perpendicular lines from equations
 geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 geom462 Identifying parallel and perpendicular lines from coordinates
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition

Triangles

geom306 Acute, obtuse, and right triangles
 geom626 Classifying scalene, isosceles, and equilateral triangles by side lengths
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom322 Identifying coordinates that give right triangles
 geom323 Identifying scalene, isosceles, and equilateral triangles given coordinates of their vertices
 geom001 Finding an angle measure of a triangle given two angles
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom628 Finding angle measures of a triangle given angles with variables
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom357 Identifying transformations
 geom519 Identifying and naming congruent parts of congruent triangles
 geom325 Determining if figures are related by rigid motions
 geom327 Examining triangle congruence in terms of rigid motion
 geom329 Exploring the triangle congruence theorems
 geom418 Completing proofs involving congruent triangles using SSS or SAS
 geom420 Introduction to proving triangles congruent using SSS or SAS
 geom520 Identifying and naming congruent triangles
 geom419 Completing proofs involving congruent triangles using ASA or AAS
 geom421 Introduction to proving triangles congruent using ASA or AAS
 geom837 Proofs involving congruent triangles and segment or angle bisectors
 geom647 Separating overlapping triangles and identifying common features
 geom840 Proofs involving congruent triangles that overlap: Basic
 geom423 Proofs involving congruent triangles with parallel or perpendicular segments
 geom424 Determining when to apply the HL congruence property
 geom425 Introduction to proving triangles congruent using the HL property
 geom422 Introduction to proofs involving congruent triangles and CPCTC
 geom839 Proofs involving congruent triangles, parallel or perpendicular segments, and CPCTC
 geom843 Proofs involving congruent triangles that overlap: Advanced
 geom645 Finding side lengths and angle measures of isosceles and equilateral triangles
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom629 Finding angle measures of an isosceles triangle given angles with variables
 geom363 Proofs of theorems involving isosceles triangles
 geom449 Classifying segments inside triangles
 geom446 Using the circumcenter of a triangle to find segment lengths
 geom447 Using the incenter of a triangle to find segment lengths and angle measures
 geom448 Using the centroid of a triangle to find segment lengths
 geom413 Introduction to the triangle midsegment theorem
 geom324 Proving the triangle midsegment theorem in the coordinate plane
 geom441 Proof involving points on the perpendicular bisector of a line segment

geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom664 Using triangle inequality to determine possible lengths of a third side
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom543 Drawing a circle with a given radius or diameter
 geom545 Drawing triangles with given side lengths using a compass
 geom854 Relationship between angle measures and side lengths in a triangle
 geom855 Relationship between angle measures and side lengths in two triangles
 geom451 Using the hinge theorem
 geom650 Indirect proof (proof by contradiction)

Polygons and Quadrilaterals

geom361 Naming polygons
 geom870 Sum of the angle measures of a quadrilateral
 geom656 Finding the sum of the interior angle measures of a convex polygon given the number of sides
 geom655 Finding the number of sides of a convex polygon given the sum of the measures of the interior angles
 geom657 Finding a missing interior angle measure in a convex polygon
 geom658 Finding the measures of an interior angle and an exterior angle of a regular polygon
 geom659 Finding the number of sides of a regular polygon given the measure of an interior angle
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom528 Finding measures involving diagonals of parallelograms
 geom527 Conditions for parallelograms
 geom833 Finding measures involving diagonals of rectangles
 geom436 Finding angle measures involving diagonals of a rhombus
 geom523 Conditions for quadrilaterals
 geom661 Completing proofs of theorems involving sides of a parallelogram
 geom662 Completing proofs of theorems involving angles of a parallelogram
 geom536 Drawing and identifying a polygon in the coordinate plane
 geom818 Finding the coordinates of a point to make a parallelogram
 geom819 Finding coordinates of vertices of polygons
 geom321 Proving that a quadrilateral with given vertices is a parallelogram
 geom408 Classifying parallelograms in the coordinate plane
 geom863 Congruence in the coordinate plane

Similarity

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 arith064 Solving a word problem on proportions using a unit rate
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 alge888 Finding the coordinate that yields a given slope
 geom390 Finding a point that partitions a number line segment in a given ratio
 geom391 Finding a point that partitions a segment in the plane in a given ratio
 geom360 Identifying similar or congruent shapes on a grid

geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom510 Triangles and parallel lines
 geom475 Triangles and angle bisectors
 geom326 Determining if figures are related by similarity transformations
 geom328 Examining triangle similarity in terms of similarity transformations
 geom364 Identifying and naming similar triangles
 geom365 Proofs involving similar triangles
 geom472 Completing proofs involving the triangle proportionality theorem
 geom461 Proving the slope criterion for parallel or perpendicular lines
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale

Right Triangles and Trigonometry

alge408 Word problem involving the Pythagorean Theorem
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
 geom862 Using the Pythagorean Theorem repeatedly
 geom603 Identifying side lengths that give right triangles
 geom589 Demonstrating the converse of the Pythagorean Theorem
 geom452 Identifying similar right triangles that overlap
 geom507 Right triangles and geometric mean
 geom473 Proving the Pythagorean Theorem using similar triangles
 geom860 Special right triangles: Decimal answers
 geom506 Special right triangles: Exact answers
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom316 Relationship between the sines and cosines of complementary angles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc642 Solving a right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc031 Solving a triangle with the law of sines: Problem type 1
 pcalc032 Solving a triangle with the law of sines: Problem type 2
 pcalc644 Solving a word problem using the law of sines
 geom320 Proving the law of sines
 pcalc033 Solving a triangle with the law of cosines
 pcalc645 Solving a word problem using the law of cosines
 geom409 Proving the law of cosines
 pcalc063 Translation of a vector
 pcalc739 Multiplication of a vector by a scalar: Geometric approach
 pcalc060 Magnitude of a vector given in component form
 geom856 Vector addition and scalar multiplication: Component form
 vector008 Linear combination of vectors: Component form
 geom857 Vector addition: Geometric approach
 vector007 Vector subtraction: Geometric approach
 vector002 Finding the magnitude and direction of a vector given its graph
 vector005 Finding the components of a vector given its graph

Transformations

geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 geom375 Understanding the definition of a translation
 pcalc038 Addition or subtraction of matrices
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom376 Understanding the definition of a reflection
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom377 Understanding the definition of a rotation
 geom334 Drawing lines of symmetry
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom831 Rotational and point symmetries
 geom369 Writing a rule to describe a translation
 geom370 Writing a rule to describe a reflection
 geom371 Writing a rule to describe a rotation
 geom373 Identifying transformations that map a quadrilateral onto itself
 geom374 Identifying transformations that map a regular polygon onto itself
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom372 Writing a rule to describe a dilation
 geom582 Determining if figures are similar and related by a sequence of transformations
 geom463 Exploring similarity of circles
 geom379 Exploring the effect of dilation on lines
 pcalc037 Scalar multiplication of a matrix

Area and Volume

geom022 Area of a parallelogram
 geom501 Finding the area of a right triangle on a grid
 geom509 Finding the area of a right triangle or its corresponding rectangle
 geom801 Area of a triangle
 geom537 Finding the perimeter or area of a rectangle in the coordinate plane
 geom430 Word problem on population density
 geom426 Finding the perimeter of a triangle, trapezoid, or parallelogram in the coordinate plane
 geom437 Finding the area of a triangle or parallelogram in the coordinate plane

geom440 Finding the area of a right triangle using the Pythagorean Theorem
geom068 Computing an area using the Pythagorean Theorem
geom588 Informal proof of the Pythagorean Theorem
geom344 Area involving rectangles and triangles
alge724 Finding an area in terms of variables
geom439 Using trigonometry to find the area of a right triangle
pcalc646 Finding the area of a triangle using trigonometry
geom319 Expressing the area of a triangle in terms of the sine of one of its angles
pcalc647 Heron's formula
geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
geom023 Area of a trapezoid
geom434 Area of a rhombus
geom435 Finding the area of a rhombus using the Pythagorean Theorem
geom438 Finding the area of a trapezoid, rhombus, or kite in the coordinate plane
geom213 Area of a regular polygon
geom479 Finding the area of a regular polygon using special right triangles
geom481 Side lengths, perimeters, and areas of similar polygons
geom347 Introduction to a circle: Diameter, radius, and chord
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom427 Informal argument for the formula of the circumference of a circle
geom838 Circumference ratios
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom477 Circumference and area of a circle: Exact answers in terms of pi
geom570 Distinguishing between the area and circumference of a circle
geom428 Informal argument for the formula of the area of a circle
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom649 Area involving multiple inscribed figures
geom212 Circles inscribed in and circumscribed about regular polygons
geom126 Area of a sector of a circle: Exact answer in terms of pi
geom429 Informal argument for the formula of the area of a sector
geom868 Classifying solids
geom348 Vertices, edges, and faces of a solid
geom219 Nets of solids
geom861 Nets of solids: Advanced
geom830 Counting the cubes in a solid made of cubes
geom816 Side views of a solid made of cubes
geom550 Identifying horizontal and vertical cross sections of solids
geom381 Identifying solids generated by rotations of two-dimensional regions
geom443 Identifying geometric shapes that model real-world objects
geom491 Identifying properties of Euclidean and spherical geometries
geom031 Surface area of a cube or a rectangular prism
geom632 Surface area of a rectangular prism made of unit cubes
geom556 Using a net to find the surface area of a rectangular prism
geom576 Word problem involving the surface area of a rectangular prism
geom345 Surface area of a piecewise rectangular prism made of unit cubes
geom091 Surface area of a triangular prism
geom557 Using a net to find the surface area of a triangular prism
geom621 Surface area of a cylinder
geom034 Surface area of a cylinder: Exact answers in terms of pi
geom578 Word problem involving the surface area of a cylinder
geom484 Word problem involving the surface area of rectangular prisms and cylinders
geom483 Word problem involving the surface area of rectangular prisms and pyramids
geom354 Volume of a rectangular prism made of unit cubes
geom311 Volume of a rectangular prism
geom555 Distinguishing between surface area and volume
geom518 Volume of a solid made of cubes with unit fraction edge lengths

geom535 Volume of a rectangular prism with fractional edge lengths
 geom865 Measuring the net of a solid to find surface area or volume
 geom382 Volume of an oblique rectangular prism
 alge617 Writing equivalent expressions for the volume of a rectangular prism
 geom565 Finding the side length of a cube given its volume
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom386 Computations involving density, mass, and volume
 geom387 Word problem on density involving the volume of a rectangular solid
 geom505 Volume of a piecewise rectangular prism
 geom090 Volume of a triangular prism
 geom572 Word problem involving the volume of a triangular prism
 geom035 Volume of a cylinder
 geom385 Informal argument for the formula of the volume of a cylinder
 geom383 Volume of an oblique cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom388 Word problem on density involving the volume of a cylindrical solid
 geom384 Using cross sections to identify solids with the same volume
 geom133 Ratio of volumes
 geom033 Volume of a pyramid
 geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
 geom638 Relating the volumes of a triangular prism and a triangular pyramid
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of π
 geom654 Informal argument for the formula of the volume of a cone
 geom639 Relating the volumes of a cylinder and a cone
 geom575 Word problem involving the volume of a cone
 geom842 Surface area of a sphere
 geom841 Volume of a sphere
 geom574 Word problem involving the volume of a sphere
 geom488 Identifying similar solids
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom489 Computing side length, surface area, and volume for similar solids
 geom490 Word problem involving volumes of similar solids

Circles

geom464 Identifying chords, secants, and tangents of a circle
 geom848 Tangents of a circle: Problem type 1
 geom849 Tangents of a circle: Problem type 2
 geom470 Constructing a tangent of a circle
 geom465 Naming and finding measures of central angles, inscribed angles, and arcs of a circle
 geom467 Applying properties of radii, diameters, and chords
 geom814 Angle measure in a circle graph
 geom466 Arc length
 geom805 Arc length and area of a sector of a circle
 geom653 Computing ratios of arc lengths to radii and describing the result
 pcalc002 Converting between degree and radian measure: Problem type 1
 geom468 Central angles and inscribed angles of a circle
 geom469 Central angles and angles involving chords and tangents of a circle
 geom666 Inscribed angles in relation to a diameter or a polygon inscribed in a circle
 geom667 Inscribed angles and angles involving chords and tangents of a circle
 geom492 Establishing facts about a quadrilateral inscribed in a circle
 geom312 Inscribing an equilateral triangle or a regular hexagon in a circle
 geom313 Inscribing a square in a circle
 geom314 Inscribing a circle in a triangle
 geom315 Circumscribing a circle about a triangle
 geom567 Angles of intersecting secants and tangents
 geom568 Lengths of chords, secants, and tangents

geom496 Identifying the center and radius to graph a circle given its equation in standard form
 alge094 Completing the square
 geom497 Identifying the center and radius to graph a circle given its equation in general form: Basic
 geom668 Identifying the center and radius to graph a circle given its equation in general form: Advanced
 geom499 Writing the equation of a circle centered at the origin given its radius or a point on the circle
 geom495 Writing an equation of a circle and identifying points that lie on the circle
 geom498 Writing an equation of a circle given its center and radius or diameter
 geom493 Deriving the equation of a circle using the Pythagorean Theorem
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 pcalc566 Graphing a parabola of the form $y^2 = ax$ or $x^2 = ay$
 geom494 Deriving the equation of a parabola given its focus and directrix

arith821 Exponents and fractions
arith859 Order of operations with fractions: Problem type 1
arith860 Order of operations with fractions: Problem type 2
arith861 Order of operations with fractions: Problem type 3
arith753 Squaring decimal bases: Products greater than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
mstat065 Converting between temperatures in Fahrenheit and Celsius
alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge001 Identifying numbers as integers or non-integers
arith513 Identifying rational decimal numbers
arith432 Identifying true statements about rational and irrational numbers
alge002 Identifying numbers as rational or irrational
alge700 Combining like terms: Whole number coefficients
alge432 Introduction to adding fractions with variables and common denominators
alge607 Combining like terms: Integer coefficients
alge187 Properties of addition
alge666 Combining like terms: Fractional coefficients
alge665 Combining like terms: Decimal coefficients
alge310 Multiplying a constant and a linear monomial
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge610 Distributive property: Fractional coefficients
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
alge605 Factoring a linear binomial
alge612 Identifying parts in an algebraic expression
alge613 Identifying equivalent algebraic expressions
alge188 Properties of real numbers
alge608 Using distribution and combining like terms to simplify: Univariate
alge667 Identifying properties used to simplify an algebraic expression
alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
alge293 Combining like terms in a quadratic expression

alge650 Identifying solutions to a one-step linear equation: Problem type 1
 alge651 Identifying solutions to a one-step linear equation: Problem type 2
 alge009 Additive property of equality with whole numbers
 alge800 Additive property of equality with decimals
 alge010 Additive property of equality with integers
 alge836 Additive property of equality with signed fractions
 alge008 Multiplicative property of equality with whole numbers
 alge646 Multiplicative property of equality with whole numbers: Fractional answers
 alge820 Multiplicative property of equality with fractions
 alge825 Multiplicative property of equality with decimals
 alge797 Multiplicative property of equality with integers
 alge012 Multiplicative property of equality with signed fractions
 geom151 Measuring an angle with the protractor
 geom300 Perimeter of a square or a rectangle
 geom221 Finding the missing length in a figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom078 Sides of polygons having the same perimeter
 geom019 Area of a square or a rectangle
 geom350 Distinguishing between the area and perimeter of a rectangle
 geom340 Area of a piecewise rectangular figure
 geom562 Area between two rectangles
 alge616 Writing algebraic expressions for the area of a figure
 geom410 Word problem involving the area of a square or a rectangle
 geom142 Word problem involving the area between two rectangles
 geom022 Area of a parallelogram
 geom801 Area of a triangle
 geom023 Area of a trapezoid
 geom016 Circumference of a circle
 geom301 Perimeter involving rectangles and circles
 geom026 Area of a circle
 geom802 Circumference and area of a circle
 geom477 Circumference and area of a circle: Exact answers in terms of pi
 geom570 Distinguishing between the area and circumference of a circle
 geom302 Area involving rectangles and circles
 geom563 Area between two concentric circles
 geom036 Word problem involving the area between two concentric circles
 geom214 Area involving inscribed figures
 geom311 Volume of a rectangular prism
 geom571 Word problem involving the volume of a rectangular prism
 geom558 Word problem involving the rate of filling or emptying a rectangular prism
 geom090 Volume of a triangular prism
 geom035 Volume of a cylinder
 geom573 Word problem involving the volume of a cylinder
 geom092 Word problem involving the rate of filling or emptying a cylinder
 geom033 Volume of a pyramid
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of pi
 geom841 Volume of a sphere
 geom031 Surface area of a cube or a rectangular prism
 geom555 Distinguishing between surface area and volume
 geom091 Surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom842 Surface area of a sphere

Linear Equations and Inequalities

alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient

alge006 Solving a two-step equation with integers
 alge815 Introduction to using substitution to solve a linear equation
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 arith504 Writing an equation to represent a proportional relationship
 alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge671 Choosing stories that can be represented by given one-step equations
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
 alge014 Solving a word problem with two unknowns using a linear equation
 alge673 Writing an equation to represent a real-world problem: Variable on both sides
 alge674 Writing and solving a real-world problem given an equation with the variable on both sides
 alge730 Writing a multi-step equation for a real-world situation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge218 Solving a word problem involving rates and time conversion
 alge823 Solving a one-step word problem using the formula $d = rt$

alge796 Solving a distance, rate, time problem using a linear equation
unit035 Converting between compound units: Basic
unit036 Converting between compound units: Advanced
arith514 Converting a repeating decimal to a fraction
alge819 Solving a proportion of the form $x/a=b/c$: Basic
alge272 Solving a proportion of the form $x/a = b/c$
alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge658 Introduction to solving a rational equation
alge060 Solving a rational equation that simplifies to linear: Denominator x
arith610 Word problem on proportions: Problem type 1
arith611 Word problem on proportions: Problem type 2
arith862 Applying the percent equation: Problem type 1
arith863 Applying the percent equation: Problem type 2
arith849 Finding the total amount given the percentage of a partial amount
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
unit052 Finding the absolute error and percent error of a measurement
arith854 Computing a percent mixture
alge795 Solving a percent mixture problem using a linear equation
arith232 Finding simple interest without a calculator
arith853 Introduction to compound interest
geom564 Finding side lengths of squares given an area and a perimeter
geom648 Finding side lengths of rectangles given one dimension and an area or a perimeter
geom444 Word problem on optimizing an area or perimeter
geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
geom143 Finding the perimeter or area of a rectangle given one of these values
geom817 Finding a side length given the perimeter and side lengths with variables
geom838 Circumference ratios
geom039 Finding supplementary and complementary angles
geom500 Solving equations involving vertical angles and linear pairs
geom001 Finding an angle measure of a triangle given two angles
geom628 Finding angle measures of a triangle given angles with variables
geom629 Finding angle measures of an isosceles triangle given angles with variables
geom037 Similar polygons
geom038 Similar right triangles
geom337 Indirect measurement
alge015 Translating a sentence by using an inequality symbol
alge845 Translating a sentence into a one-step inequality
alge653 Introduction to identifying solutions to an inequality
alge748 Writing an inequality for a real-world situation
alge017 Graphing a linear inequality on the number line
alge822 Writing an inequality given a graph on the number line
alge186 Translating a sentence into a compound inequality
alge166 Graphing a compound inequality on the number line
alge847 Writing a compound inequality given a graph on the number line
set001 Set builder notation
set002 Union and intersection of finite sets
alge652 Identifying solutions to a one-step linear inequality
alge848 Additive property of inequality with whole numbers
alge849 Additive property of inequality with integers
alge852 Additive property of inequality with signed fractions
alge853 Additive property of inequality with signed decimals
alge809 Multiplicative property of inequality with whole numbers
alge854 Multiplicative property of inequality with integers

alge964 Multiplicative property of inequality with signed fractions
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge621 Solving a word problem using a one-step linear inequality
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge868 Solving an absolute value inequality: Problem type 1
 alge943 Writing an absolute value inequality given a graph on the number line
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Graphing and Functions

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph
 alge696 Finding distances between points that share a common coordinate given their coordinates
 alge282 Function tables with two-step rules
 alge850 Table for a linear equation
 fun005 Writing a function rule given a table of ordered pairs: One-step rules
 fun006 Writing a function rule given a table of ordered pairs: Two-step rules
 arith454 Making a table and plotting points given a unit rate
 alge873 Identifying solutions to a linear equation in two variables
 alge066 Finding a solution to a linear equation in two variables
 alge877 Graphing a linear equation of the form $y = mx$
 alge878 Graphing a line given its equation in slope-intercept form: Integer slope
 alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
 alge880 Graphing a line given its equation in standard form
 alge198 Graphing a vertical or horizontal line
 alge884 Finding x - and y -intercepts given the graph of a line on a grid
 alge924 Finding x - and y -intercepts of a line given the equation: Basic
 alge210 Finding x - and y -intercepts of a line given the equation: Advanced
 alge197 Graphing a line given its x - and y -intercepts
 alge881 Graphing a line by first finding its x - and y -intercepts
 mstat007 Interpreting a line graph
 alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
 alge875 Classifying slopes given graphs of lines
 alge886 Finding slope given the graph of a line on a grid
 alge887 Finding slope given two points on the line
 alge885 Finding the slope of horizontal and vertical lines
 alge888 Finding the coordinate that yields a given slope
 alge259 Graphing a line given its slope and y -intercept

alge196 Graphing a line through a given point with a given slope
alge625 Identifying linear equations: Basic
alge876 Identifying linear equations: Advanced
alge874 Identifying linear functions given ordered pairs
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y-intercept
alge258 Writing an equation of a line given its slope and y-intercept
alge892 Writing an equation and graphing a line given its slope and y-intercept
alge314 Finding the slope, y-intercept, and equation for a linear function given a table of values
alge893 Writing an equation in slope-intercept form given the slope and a point
alge318 Finding the slope and a point on a line given its equation in point-slope form
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge313 Writing an equation in standard form given the slope and a point
alge070 Writing an equation of a line given the y-intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
alge322 Comparing linear functions to the parent function $y = x$
geom358 Identifying parallel and perpendicular lines
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
geom462 Identifying parallel and perpendicular lines from coordinates
alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
alge699 Comparing proportional relationships given in different forms
alge655 Writing and evaluating a function that models a real-world situation: Basic
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge654 Graphing ordered pairs and writing an equation from a table of values in context
alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge817 Finding the initial amount and rate of change given a table for a linear function
alge818 Finding the initial amount and rate of change given a graph of a linear function
alge992 Combining functions to write a new function that models a real-world situation
alge987 Comparing properties of linear functions given in different forms
alge989 Interpreting the parameters of a linear function that models a real-world situation
alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
alge806 Application problem with a linear function: Finding a coordinate given two points
alge670 Identifying independent and dependent quantities from tables and graphs
mstat052 Identifying independent and dependent variables from equations or real-world situations
alge991 Solving a linear equation by graphing
mstat094 Constructing a scatter plot
mstat030 Sketching the line of best fit
mstat023 Scatter plots and correlation
mstat068 Predictions from the line of best fit
mstat067 Approximating the equation of a line of best fit and making predictions
mstat069 Computing residuals
mstat070 Interpreting residual plots
mstat093 Classifying linear and nonlinear relationships from scatter plots
mstat071 Linear relationship and the correlation coefficient
mstat096 Identifying outliers and clustering in scatter plots
mstat074 Identifying correlation and causation
alge982 Identifying direct variation equations
alge938 Identifying direct variation from ordered pairs and writing equations
alge904 Writing a direct variation equation
alge175 Word problem on direct variation

alge828 Interpreting direct variation from a graph
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun030 Evaluating a piecewise-defined function
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge312 Finding domain and range from a linear graph in context
 pcalc750 Finding intercepts of a nonlinear function given its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun031 Graphing a piecewise-defined function: Problem type 1
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph
 alge953 Translating the graph of a parabola: One step
 alge723 How the leading coefficient affects the shape of a parabola
 alge898 Translating the graph of an absolute value function: One step
 alge899 Translating the graph of an absolute value function: Two steps
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge185 Writing an equation for a function after a vertical translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 pcalc773 Transforming the graph of a function using more than one transformation
 fun020 Writing an equation for a function after a vertical and horizontal translation

Systems of Linear Equations and Inequalities

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 pcalc820 Using a graphing calculator to solve a system of linear equations: Basic
 pcalc821 Using a graphing calculator to solve a system of linear equations: Advanced
 alge317 Writing a system of linear equations given its graph
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution

alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge988 Identifying the operations used to create equivalent systems of equations
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge315 Writing an inequality given its graph in the plane: Horizontal or vertical boundary line
 alge316 Writing an inequality given its graph in the plane: Slanted boundary line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix

Exponents and Exponential Functions

alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 arith029 Ordering numbers with positive exponents
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge756 Power and product rules with positive exponents
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 alge453 Simplifying a ratio of multivariate monomials: Advanced
 alge927 Power and quotient rules with positive exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents

alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot021 Expressing calculator notation as scientific notation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 alge971 Table for an exponential function
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)^x$
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)^x$
 alge321 Finding domain and range from the graph of an exponential function
 pcalc922 Translating the graph of an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 mstat103 Choosing an exponential model and using it to make a prediction
 alge993 Comparing linear, polynomial, and exponential functions

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials

alge736 Introduction to the GCF of two monomials
 alge930 Greatest common factor of three univariate monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes

Quadratic Functions

alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge323 Finding the zeros of a quadratic function given its equation
 alge163 Writing a quadratic equation given the roots and the leading coefficient
 alge703 Solving a word problem using a quadratic equation with rational roots
 arith601 Square root of a rational perfect square
 arith760 Square roots of perfect squares with signs
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge963 Applying the quadratic formula: Decimal answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients

pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge320 Writing a quadratic function given its zeros
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc714 Using a graphing calculator to find the zeros of a quadratic function
 pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
 alge319 Rewriting a quadratic function in standard form
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 mstat102 Choosing a quadratic model and using it to make a prediction
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 pcalc716 Using a graphing calculator to solve a system of linear and quadratic equations: Basic
 fun019 Sum, difference, and product of two functions
 alge716 Introduction to the composition of two functions
 fun022 Composition of two functions: Basic
 fun011 Horizontal line test
 fun012 Inverse functions: Linear, discrete
 pcalc114 Even and odd functions: Problem type 1

Radicals

alge413 Finding all square roots of a number
 arith602 Estimating a square root
 arith761 Square roots of integers raised to even exponents
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 alge537 Using absolute value to simplify square roots of perfect square monomials
 arith094 Cube root of an integer
 alge549 Finding nth roots of perfect nth powers with signs
 arith768 Finding the nth root of a perfect nth power fraction
 alge550 Finding the nth root of a perfect nth power monomial
 alge539 Table for a square root function
 alge565 Domain of a square root function: Basic
 alge566 Domain of a square root function: Advanced
 alge543 Graphing a square root function: Problem type 1
 alge544 Graphing a square root function: Problem type 2
 alge545 Graphing a square root function: Problem type 3
 alge812 Converting between radical form and exponent form
 alge560 Rational exponents: Unit fraction exponents and whole number bases
 alge561 Rational exponents: Unit fraction exponents and bases involving signs
 alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge251 Rational exponents: Negative exponents and fractional bases
 alge558 Rational exponents: Product rule
 alge559 Rational exponents: Quotient rule
 alge773 Rational exponents: Products and quotients with negative exponents
 alge562 Rational exponents: Power of a power rule
 alge249 Rational exponents: Powers of powers with negative exponents
 alge080 Simplifying a radical expression with an even exponent
 alge520 Introduction to simplifying a radical expression with an odd exponent
 alge521 Simplifying a radical expression with an odd exponent
 alge275 Simplifying a radical expression with two variables

alge273 Simplifying a higher root of a whole number
 alge551 Introduction to simplifying a higher radical expression
 alge552 Simplifying a higher radical expression: Univariate
 alge811 Simplifying a higher radical expression: Multivariate
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 alge533 Square root addition or subtraction with three terms
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 arith039 Square root multiplication: Advanced
 alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
 alge532 Simplifying a sum or difference of radical expressions: Univariate
 alge084 Simplifying a sum or difference of radical expressions: Multivariate
 alge522 Introduction to simplifying a product of radical expressions: Univariate
 alge523 Simplifying a product of radical expressions: Univariate
 alge640 Simplifying a product of radical expressions: Multivariate
 alge556 Introduction to simplifying a product of higher roots
 alge557 Simplifying a product of higher radical expressions
 alge525 Introduction to simplifying a product involving square roots using the distributive property
 alge526 Simplifying a product involving square roots using the distributive property: Basic
 alge276 Simplifying a product involving square roots using the distributive property: Advanced
 alge774 Special products of radical expressions: Conjugates and squaring
 alge984 Classifying sums and products as rational or irrational
 arith766 Simplifying a quotient of square roots
 alge527 Rationalizing a denominator: Quotient involving square roots
 alge530 Simplifying a quotient involving a sum or difference with a square root
 alge528 Rationalizing a denominator: Square root of a fraction
 alge529 Rationalizing a denominator: Quotient involving a monomial
 alge534 Rationalizing a denominator using conjugates: Integer numerator
 alge535 Rationalizing a denominator using conjugates: Square root in numerator
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
 alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
 alge411 Solving a radical equation with a quadratic expression under the radical
 alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 alge412 Algebraic symbol manipulation with radicals
 alge542 Word problem involving radical equations: Basic
 alge409 Word problem involving radical equations: Advanced
 alge698 Solving an equation of the form $x^3 = a$ using integers
 geom565 Finding the side length of a cube given its volume
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom603 Identifying side lengths that give right triangles
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge467 Restriction on a variable in a denominator: Quadratic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 pcalc682 Evaluating functions: Absolute value, rational, radical
 alge715 Domain of a rational function: Excluded values
 alge454 Simplifying a ratio of factored polynomials: Linear factors
 alge455 Simplifying a ratio of factored polynomials: Factors with exponents

alge456 Simplifying a ratio of polynomials using GCF factoring
 alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
 alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge459 Simplifying a ratio of polynomials: Problem type 3
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge460 Multiplying rational expressions made up of linear expressions
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
 alge462 Multiplying rational expressions involving multivariate quadratics
 alge054 Dividing rational expressions involving multivariate monomials
 alge463 Dividing rational expressions involving linear expressions
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
 alge465 Dividing rational expressions involving multivariate quadratics
 alge466 Multiplication and division of 3 rational expressions
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
 alge428 Finding the LCD of rational expressions with linear denominators: Common factors
 alge429 Finding the LCD of rational expressions with quadratic denominators
 alge430 Writing equivalent rational expressions with monomial denominators
 alge431 Writing equivalent rational expressions with polynomial denominators
 alge304 Writing equivalent rational expressions involving opposite factors
 alge433 Adding rational expressions with common denominators and monomial numerators
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge434 Adding rational expressions with common denominators and GCF factoring
 alge435 Adding rational expressions with common denominators and quadratic factoring
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge437 Adding rational expressions with denominators ax and bx : Basic
 alge438 Adding rational expressions with denominators ax and bx : Advanced
 alge439 Adding rational expressions with denominators axn and bxm
 alge440 Adding rational expressions with multivariate monomial denominators: Basic
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge441 Adding rational expressions with linear denominators without common factors: Basic
 alge442 Adding rational expressions with linear denominators without common factors: Advanced
 alge443 Adding rational expressions with linear denominators with common factors: Basic
 alge444 Adding rational expressions with linear denominators with common factors: Advanced
 alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
 alge661 Adding rational expressions involving different quadratic denominators
 alge446 Adding 3 rational expressions with different quadratic denominators
 arith696 Complex fraction without variables: Problem type 2
 alge470 Complex fraction involving univariate monomials
 alge058 Complex fraction involving multivariate monomials
 alge471 Complex fraction: GCF factoring
 alge472 Complex fraction: Quadratic factoring
 alge473 Complex fraction made of sums involving rational expressions: Problem type 1
 alge474 Complex fraction made of sums involving rational expressions: Problem type 2
 alge475 Complex fraction made of sums involving rational expressions: Problem type 3
 alge476 Complex fraction made of sums involving rational expressions: Problem type 4
 alge477 Complex fraction made of sums involving rational expressions: Problem type 5
 alge478 Complex fraction made of sums involving rational expressions: Problem type 6
 alge479 Complex fraction made of sums involving rational expressions: Multivariate
 alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
 alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
 alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
 alge422 Solving a rational equation that simplifies to linear: Like binomial denominators
 alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
 alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
 alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic

alge425 Solving a rational equation that simplifies to quadratic: Denominator x
 alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
 alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
 alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
 alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
 alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1
 alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
 alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
 arith612 Word problem involving multiple rates
 alge770 Solving a work problem using a rational equation
 alge450 Solving a distance, rate, time problem using a rational equation
 alge059 Ordering fractions with variables
 alge905 Writing an inverse variation equation
 alge903 Identifying direct and inverse variation equations
 alge902 Identifying direct and inverse variation from ordered pairs and writing equations
 alge176 Word problem on inverse variation
 alge220 Word problem on inverse proportions
 pcalc681 Writing an equation that models variation
 alge772 Word problem on combined variation
 pcalc917 Finding the asymptotes of a rational function: Constant over linear
 pcalc918 Finding the asymptotes of a rational function: Linear over linear
 alge515 Graphing a rational function: Constant over linear
 alge516 Graphing a rational function: Linear over linear

Sequences, Parabolas, and Circles

alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge910 Writing a recursive rule for an arithmetic sequence
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 pcalc566 Graphing a parabola of the form $y^2 = ax$ or $x^2 = ay$
 geom494 Deriving the equation of a parabola given its focus and directrix
 geom496 Identifying the center and radius to graph a circle given its equation in standard form
 geom497 Identifying the center and radius to graph a circle given its equation in general form: Basic
 geom668 Identifying the center and radius to graph a circle given its equation in general form: Advanced
 geom499 Writing the equation of a circle centered at the origin given its radius or a point on the circle
 geom495 Writing an equation of a circle and identifying points that lie on the circle
 geom498 Writing an equation of a circle given its center and radius or diameter
 geom493 Deriving the equation of a circle using the Pythagorean Theorem
 pcalc065 Writing an equation of a circle given its center and a point on the circle
 pcalc066 Writing an equation of a circle given the endpoints of a diameter

Statistics, Probability, and Trigonometry

mstat088 Identifying statistical questions
mstat080 Choosing an appropriate method for gathering data: Problem type 1
mstat081 Choosing an appropriate method for gathering data: Problem type 2

Whole Numbers and Integers

arith124 Whole number place value: Problem type 1
arith125 Whole number place value: Problem type 2
arith066 Expanded form
arith643 Expanded form with zeros
arith028 Numeral translation: Problem type 1
arith060 Numeral translation: Problem type 2
arith630 Addition with carry to the hundreds place
arith012 Addition of large numbers
arith006 Subtraction with borrowing
arith682 Subtraction with multiple regrouping steps
arith637 Subtraction and regrouping with zeros
arith613 Word problem with addition or subtraction of whole numbers
mstat061 Describing an increasing or decreasing pattern from a table of values
arith126 Multiplication as repeated addition
arith004 Multiplication with carry
arith615 Introduction to multiplication of large numbers
arith675 Understanding multiplication of a one-digit number with a larger number
arith014 Multiplication of large numbers
arith641 Multiples: Problem type 1
arith642 Multiples: Problem type 2
arith614 Word problem with multiplication or division of whole numbers
arith130 Word problem with multiplication and addition or subtraction of whole numbers
arith451 Word problem on unit rates associated with ratios of whole numbers: Whole number answers
arith243 Division of whole numbers given in fractional form
arith711 Division involving zero
arith005 Division with carry
arith901 Whole number division: 2-digit by 2-digit, no remainder
arith902 Whole number division: 3-digit by 2-digit, no remainder
arith616 Quotient and remainder: Problem type 1
arith617 Quotient and remainder: Problem type 2
arith631 Quotient and remainder: Problem type 3
arith650 Division involving quotients with intermediate zeros
arith023 Word problem with division of whole numbers and rounding
arith651 Introduction to inequalities
arith652 Comparing a numerical expression with a number
arith077 Ordering large numbers
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith061 Rounding to thousands, ten thousands, or hundred thousands
arith101 Estimating a sum of whole numbers
arith102 Estimating a difference of whole numbers
arith677 Estimating a product
arith678 Estimating a quotient
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith645 Introduction to parentheses
arith865 Comparing numerical expressions with parentheses
arith681 Introduction to order of operations
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith646 Even and odd numbers
arith647 Divisibility rules for 2, 5, and 10
arith648 Divisibility rules for 3 and 9
arith056 Factors

arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
arith410 Introduction to factoring with numbers
arith411 Factoring a sum or difference of whole numbers
arith070 Least common multiple of 2 numbers
arith804 Least common multiple of 3 numbers
arith418 Word problem involving the least common multiple of 2 numbers
arith240 Word problem with common multiples
alge286 Plotting integers on a number line
arith691 Ordering integers
arith415 Using a number line to compare integers
arith699 Writing a signed number for a real-world situation
arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
arith416 Comparing signed numbers relating to a real-world situation
arith402 Plotting opposite integers on a number line
arith403 Finding opposites of integers
arith071 Absolute value of a number
arith412 Finding all numbers with a given absolute value
arith200 Integer addition: Problem type 1
arith108 Integer addition: Problem type 2
arith431 Identifying a sum as a point located a given distance from another point
arith430 Identifying relative change when combining two quantities
arith688 Integer subtraction: Problem type 1
arith689 Integer subtraction: Problem type 2
arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith440 Operations with absolute value: Problem type 1
arith104 Operations with absolute value: Problem type 2
alge694 Computing the distance between two integers on a number line
arith433 Computing and understanding distances between integers on a number line
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith952 Word problem with multiplication or division of integers
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
alge733 Writing a one-step expression for a real-world situation
alge831 Translating a phrase into a one-step expression
alge291 Translating a phrase into a two-step expression
geom339 Perimeter of a polygon
geom300 Perimeter of a square or a rectangle
geom019 Area of a square or a rectangle
geom866 Perimeter and area on a grid
geom311 Volume of a rectangular prism
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2

alge009 Additive property of equality with whole numbers
alge010 Additive property of equality with integers
alge008 Multiplicative property of equality with whole numbers
alge797 Multiplicative property of equality with integers

Fractions

arith623 Introduction to fractions
arith665 Understanding equivalent fractions
arith212 Equivalent fractions
arith666 Introduction to simplifying a fraction
arith067 Simplifying a fraction
alge660 Identifying equivalent signed fractions
arith687 Fractional position on a number line
arith667 Plotting fractions on a number line
arith044 Ordering fractions with the same denominator
arith091 Ordering fractions with the same numerator
arith092 Using a common denominator to order fractions
arith079 Product of a unit fraction and a whole number
arith086 Product of a fraction and a whole number: Problem type 1
arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith509 Modeling multiplication of proper fractions
arith813 Multiplication of 3 fractions
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith507 Fact families for multiplication and division of fractions
arith508 Modeling division of a whole number by a fraction
arith814 Signed fraction division
arith819 Word problem involving fractions and division
arith618 Addition or subtraction of fractions with the same denominator
arith802 Addition or subtraction of fractions with the same denominator and simplification
alge432 Introduction to adding fractions with variables and common denominators
arith801 Finding the LCD of two fractions
arith109 Addition or subtraction of unit fractions
arith664 Introduction to addition or subtraction of fractions with different denominators
arith230 Addition or subtraction of fractions with different denominators
arith803 Addition and subtraction of 3 fractions with different denominators
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith805 Word problem involving addition or subtraction of fractions with different denominators
arith100 Fractional part of a circle
arith662 Writing a mixed number and an improper fraction for a shaded region
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith605 Plotting rational numbers on a number line
arith215 Addition or subtraction of mixed numbers with the same denominator
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry

arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division
arith820 Word problem involving multiplication or division with mixed numbers
arith821 Exponents and fractions
alge790 Evaluating expressions with exponents of zero
arith704 Exponents and signed fractions
arith859 Order of operations with fractions: Problem type 1
arith860 Order of operations with fractions: Problem type 2
arith861 Order of operations with fractions: Problem type 3
arith695 Complex fraction without variables: Problem type 1
alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
alge801 Additive property of equality with fractions and mixed numbers
alge836 Additive property of equality with signed fractions
alge646 Multiplicative property of equality with whole numbers: Fractional answers
alge820 Multiplicative property of equality with fractions
alge012 Multiplicative property of equality with signed fractions

Decimals

arith127 Writing a decimal and a fraction for a shaded region
arith110 Decimal place value: Tenths and hundredths
arith220 Decimal place value: Hundreds to ten thousandths
arith714 Writing a decimal number less than 1 given its name
arith715 Writing a decimal number greater than 1 given its name
arith716 Writing a decimal number given its name: Advanced
arith829 Reading decimal position on a number line: Tenths
arith830 Reading decimal position on a number line: Hundredths
arith831 Understanding decimal position on a number line using zoom: Hundredths
arith832 Understanding decimal position on a number line using zoom: Thousandths
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith221 Rounding decimals
arith717 Converting a decimal to a proper fraction without simplifying: Basic
arith719 Converting a decimal to a proper fraction without simplifying: Advanced
arith718 Converting a decimal to a proper fraction in simplest form: Basic
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith721 Converting a decimal to a mixed number and an improper fraction without simplifying
arith722 Converting a decimal to a mixed number and an improper fraction in simplest form: Basic
arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith734 Subtraction of aligned decimals
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith131 Estimating a decimal sum or difference
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
geom525 Computing distances between decimals on the number line
arith132 Word problem with addition or subtraction of 2 decimals
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith739 Introduction to decimal multiplication
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1

arith046 Decimal multiplication: Problem type 2
 arith082 Multiplication of a decimal by a power of ten
 arith738 Multiplication of a decimal by a power of 0.1
 arith740 Multiplication of decimals that have a product less than 0.1
 arith752 Estimating a product of decimals
 arith750 Signed decimal multiplication
 arith135 Word problem with multiplication of a decimal and a whole number
 arith137 Word problem with multiplication of two decimals
 arith628 Word problem with multiple decimal operations: Problem type 1
 arith744 Whole number division with decimal answers
 arith081 Division of a decimal by a whole number
 arith743 Division of a decimal by a 1-digit decimal
 arith019 Division of a decimal by a 2-digit decimal
 arith083 Division of a decimal by a power of ten
 arith742 Division of a decimal by a power of 0.1
 arith745 Decimal division with rounding
 arith751 Signed decimal division
 arith136 Word problem with division of a decimal and a whole number
 arith138 Word problem with division of two decimals
 arith629 Word problem with multiple decimal operations: Problem type 2
 arith103 Average of two numbers
 arith725 Converting a fraction with a denominator of 10 or 100 to a decimal
 arith726 Converting a fraction with a denominator of 100 or 1000 to a decimal
 arith113 Converting a proper fraction with a denominator of 2, 4, or 5 to a decimal
 arith114 Converting a mixed number with a denominator of 2, 4, or 5 to a decimal
 arith727 Converting a fraction to a terminating decimal: Basic
 arith728 Converting a fraction to a terminating decimal: Advanced
 arith730 Converting a fraction to a repeating decimal: Basic
 arith731 Converting a fraction to a repeating decimal: Advanced
 arith733 Using a calculator to convert a fraction to a rounded decimal
 arith111 Converting a mixed number to a terminating decimal: Basic
 arith112 Converting a mixed number to a terminating decimal: Advanced
 arith732 Converting a fraction or mixed number to a rounded decimal
 arith609 Ordering fractions and decimals
 alge001 Identifying numbers as integers or non-integers
 arith513 Identifying rational decimal numbers
 arith753 Squaring decimal bases: Products greater than 0.1
 arith741 Exponents and decimals: Products less than 0.1
 arith720 Order of operations with decimals: Problem type 1
 arith746 Order of operations with decimals: Problem type 2
 arith747 Order of operations with decimals: Problem type 3
 arith748 Addition or subtraction with a decimal and a mixed number
 arith749 Multiplication with a decimal and a fraction
 alge302 Evaluating a linear expression: Signed decimal addition and subtraction
 alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
 alge800 Additive property of equality with decimals
 alge825 Multiplicative property of equality with decimals

Ratios, Proportions, and Measurement

arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith505 Word problem on unit rates associated with ratios of fractions

arith506 Word problem on unit rates associated with ratios of mixed numbers
 arith064 Solving a word problem on proportions using a unit rate
 alge823 Solving a one-step word problem using the formula $d = rt$
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith504 Writing an equation to represent a proportional relationship
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith045 Word problem with powers of ten
 arith500 Identifying proportional relationships in tables by calculating unit rates: Whole numbers
 arith510 Identifying proportional relationships in tables by calculating unit rates: Fractions
 geom359 Identifying congruent shapes on a grid
 geom360 Identifying similar or congruent shapes on a grid
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models
 geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale
 mstat058 Choosing a measuring tool
 mstat059 Choosing U.S. Customary measurement units
 mstat033 Measuring length to the nearest inch
 mstat034 Measuring length to the nearest quarter or half inch
 unit005 U.S. Customary unit conversion with whole number values
 mstat035 Conversions involving measurements in feet and inches
 mstat036 Adding measurements in feet and inches
 unit006 U.S. Customary unit conversion with whole number values: Two-step conversion
 unit007 U.S. Customary unit conversion with mixed number values: One-step conversion
 unit008 U.S. Customary unit conversion with mixed number values: Two-step conversion
 unit009 U.S. Customary area unit conversion with whole number values
 mstat060 Choosing metric measurement units
 mstat063 Measuring length to the nearest centimeter
 mstat064 Measuring length to the nearest millimeter
 unit001 Metric distance conversion with whole number values
 unit002 Metric mass or capacity conversion with whole number values
 unit003 Metric distance conversion with decimal values
 unit004 Metric conversion with decimal values: Two-step problem
 unit010 Metric area unit conversion with decimal values
 unit012 Time unit conversion with whole number values
 time009 Introduction to adding time
 time006 Adding time
 time011 Introduction to elapsed time
 time007 Elapsed time
 mstat062 Reading a positive temperature from a thermometer
 mstat038 Reading the temperature from a thermometer
 mstat065 Converting between temperatures in Fahrenheit and Celsius
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 alge218 Solving a word problem involving rates and time conversion
 unit034 Converting between metric and U.S. Customary unit systems
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced

Percents

arith836 Converting a fraction with a denominator of 100 to a percentage
 arith837 Converting a percentage to a fraction with a denominator of 100
 arith674 Finding the percentage of a grid that is shaded

arith903 Representing benchmark percentages on a grid
arith723 Introduction to converting a percentage to a decimal
arith833 Introduction to converting a decimal to a percentage
arith834 Converting between percentages and decimals
arith841 Converting a mixed number percentage to a decimal
arith835 Converting between percentages and decimals in a real-world situation
arith090 Converting a percentage to a fraction in simplest form
arith839 Converting a decimal percentage to a fraction
arith838 Converting a fraction to a percentage: Denominator of 4, 5, or 10
arith904 Finding benchmark fractions and percentages for a figure
arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
arith843 Using a calculator to convert a fraction to a rounded percentage
arith842 Converting a fraction to a percentage in a real-world situation
arith840 Finding a percentage of a whole number
arith030 Finding a percentage of a whole number without a calculator: Basic
arith844 Finding a percentage of a whole number without a calculator: Advanced
arith862 Applying the percent equation: Problem type 1
arith863 Applying the percent equation: Problem type 2
arith845 Finding a percentage of a total amount: Real-world situations
arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
arith857 Estimating a tip without a calculator
arith069 Writing a ratio as a percentage without a calculator
arith850 Finding the rate of a tax or commission
arith849 Finding the total amount given the percentage of a partial amount
stat805 Making a reasonable inference based on proportion statistics
stat804 Interpreting a circle graph or pie chart
arith856 Finding a percentage of a total amount in a circle graph
stat801 Computations from a circle graph
arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
arith851 Finding the final amount given the original amount and a percentage increase or decrease
arith847 Finding the sale price given the original price and percent discount
arith074 Finding the sale price without a calculator given the original price and percent discount
arith848 Finding the total cost including tax or markup
arith855 Finding the original amount given the result of a percentage increase or decrease
arith031 Finding the original price given the sale price and percent discount
arith858 Finding the percentage increase or decrease: Basic
arith225 Finding the percentage increase or decrease: Advanced
unit052 Finding the absolute error and percent error of a measurement
arith232 Finding simple interest without a calculator
arith853 Introduction to compound interest
arith915 Calculating income tax
arith918 Comparing discounts
arith909 Examining a savings plan for college
arith914 Calculations involving paying for college
arith920 Comparing total costs for attending different colleges
arith922 Distinguishing between fixed and variable expenses
arith916 Computing percentages for categories of a budget
arith919 Computations involving cost of living and hourly wage
arith921 Comparing annual salaries of different occupations
arith911 Calculations involving purchases with debit and credit cards
arith950 Comparing costs of checking accounts
arith951 Balancing a check register
arith912 Reading a credit report
arith913 Understanding the impact of a credit score
arith917 Computing a person's net worth
arith906 Calculating and comparing monthly payments using the ALEKS loan calculator
arith907 Calculating monthly payment, total payment, and interest using the ALEKS loan calculator
arith908 Calculating and comparing total loan payments using the ALEKS loan calculator
arith910 Calculating and comparing simple interest and compound interest

Equations and Inequalities

alge647 Identifying like terms
alge700 Combining like terms: Whole number coefficients
alge607 Combining like terms: Integer coefficients
arith655 Introduction to properties of addition
alge187 Properties of addition
alge666 Combining like terms: Fractional coefficients
alge665 Combining like terms: Decimal coefficients
alge310 Multiplying a constant and a linear monomial
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge610 Distributive property: Fractional coefficients
alge605 Factoring a linear binomial
alge612 Identifying parts in an algebraic expression
alge613 Identifying equivalent algebraic expressions
arith656 Introduction to properties of multiplication
alge188 Properties of real numbers
alge608 Using distribution and combining like terms to simplify: Univariate
alge667 Identifying properties used to simplify an algebraic expression
alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
alge293 Combining like terms in a quadratic expression
alge436 Adding rational expressions with different denominators and a single occurrence of a variable
alge834 Identifying solutions to a linear equation in one variable: Two-step equations
alge803 Using two steps to solve an equation with whole numbers
alge266 Additive property of equality with a negative coefficient
alge006 Solving a two-step equation with integers
alge200 Solving an equation to find the value of an expression
alge920 Introduction to solving an equation with parentheses
alge837 Solving a multi-step equation given in fractional form
alge986 Identifying properties used to solve a linear equation
alge824 Solving a two-step equation with signed decimals
alge838 Introduction to solving an equation with variables on the same side
alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
alge611 Introduction to solving a linear equation with a variable on each side
alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
alge614 Clearing fractions in an equation
alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
alge208 Solving a two-step equation with signed fractions
alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
alge742 Solving equations with zero, one, or infinitely many solutions
alge840 Solving a proportion of the form $(x+a) \div b = c \div d$
alge271 Solving a proportion of the form $a/(x+b) = c/x$
alge658 Introduction to solving a rational equation
alge060 Solving a rational equation that simplifies to linear: Denominator x
alge603 Introduction to solving an absolute value equation
alge864 Solving an absolute value equation: Problem type 1
alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
alge517 Solving for a variable in terms of other variables using addition or subtraction with division
alge518 Solving for a variable inside parentheses in terms of other variables
alge507 Solving for a variable in terms of other variables in a linear equation with fractions
alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
alge016 Translating a sentence into a one-step equation

alge671 Choosing stories that can be represented by given one-step equations
 alge841 Translating a sentence into a multi-step equation
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
 alge014 Solving a word problem with two unknowns using a linear equation
 alge673 Writing an equation to represent a real-world problem: Variable on both sides
 alge674 Writing and solving a real-world problem given an equation with the variable on both sides
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge795 Solving a percent mixture problem using a linear equation
 alge796 Solving a distance, rate, time problem using a linear equation
 alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge621 Solving a word problem using a one-step linear inequality
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality

Graphing, Functions, and Sequences

alge278 Reading a point in quadrant 1
 alge279 Plotting a point in quadrant 1
 alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge692 Plotting a point in quadrant 1: Mixed number coordinates
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph

alge696 Finding distances between points that share a common coordinate given their coordinates
alge191 Midpoint of a line segment in the plane
alge282 Function tables with two-step rules
alge850 Table for a linear equation
fun005 Writing a function rule given a table of ordered pairs: One-step rules
fun006 Writing a function rule given a table of ordered pairs: Two-step rules
alge873 Identifying solutions to a linear equation in two variables
alge066 Finding a solution to a linear equation in two variables
alge280 Graphing a line in quadrant 1
alge877 Graphing a linear equation of the form $y = mx$
alge878 Graphing a line given its equation in slope-intercept form: Integer slope
alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
alge880 Graphing a line given its equation in standard form
alge198 Graphing a vertical or horizontal line
alge884 Finding x - and y -intercepts given the graph of a line on a grid
alge924 Finding x - and y -intercepts of a line given the equation: Basic
alge210 Finding x - and y -intercepts of a line given the equation: Advanced
alge197 Graphing a line given its x - and y -intercepts
alge881 Graphing a line by first finding its x - and y -intercepts
alge874 Identifying linear functions given ordered pairs
geom358 Identifying parallel and perpendicular lines
mstat007 Interpreting a line graph
arith454 Making a table and plotting points given a unit rate
arith501 Identifying proportional relationships in graphs: Basic
arith502 Identifying proportional relationships in graphs: Advanced
arith512 Finding outputs and rate of increase given the graph of a line that models a real-world situation
alge699 Comparing proportional relationships given in different forms
alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge814 Using right triangles to find the slope of a line
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y -intercept
alge196 Graphing a line through a given point with a given slope
alge982 Identifying direct variation equations
alge938 Identifying direct variation from ordered pairs and writing equations
alge904 Writing a direct variation equation
alge175 Word problem on direct variation
alge828 Interpreting direct variation from a graph
alge905 Writing an inverse variation equation
alge903 Identifying direct and inverse variation equations
alge902 Identifying direct and inverse variation from ordered pairs and writing equations
alge176 Word problem on inverse variation
alge220 Word problem on inverse proportions
alge625 Identifying linear equations: Basic
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y -intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y -intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y -intercept
alge258 Writing an equation of a line given its slope and y -intercept
alge892 Writing an equation and graphing a line given its slope and y -intercept
alge893 Writing an equation in slope-intercept form given the slope and a point
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge070 Writing an equation of a line given the y -intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations

geom808 Writing equations of lines parallel and perpendicular to a given line through a point
 alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
 alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
 alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
 alge655 Writing and evaluating a function that models a real-world situation: Basic
 alge897 Writing and evaluating a function that models a real-world situation: Advanced
 alge654 Graphing ordered pairs and writing an equation from a table of values in context
 alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
 alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
 alge817 Finding the initial amount and rate of change given a table for a linear function
 alge818 Finding the initial amount and rate of change given a graph of a linear function
 alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge913 Graphing an absolute value equation of the form $y = A - x -$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge262 Graphing a cubic function of the form $y = ax^3$
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge732 Finding patterns in shapes
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge914 Identifying solutions to a system of linear equations
 alge725 Graphically solving a system of linear equations

alge815 Introduction to using substitution to solve a linear equation
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 pcalc038 Addition or subtraction of matrices
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced

Exponents, Polynomials, and Radicals

alge686 Introduction to the product rule with positive exponents: Whole number base
 alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 alge690 Introduction to the power of a power rule with positive exponents: Whole number base
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge688 Introduction to the quotient rule with positive exponents: Whole number base
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 arith029 Ordering numbers with positive exponents
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge687 Introduction to the product rule with negative exponents: Whole number base
 alge961 Introduction to the product rule with negative exponents
 alge689 Introduction to the quotient rule with negative exponents: Whole number base
 alge755 Quotient rule with negative exponents: Problem type 1
 alge691 Introduction to the power of a power rule with negative exponents: Whole number base
 alge025 Power of a power rule with negative exponents
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot025 Estimating numbers using scientific notation
 scinot020 Choosing metric units and converting to the base unit in scientific notation
 scinot021 Expressing calculator notation as scientific notation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced

scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
 scinot015 Adding or subtracting numbers written in scientific notation: Same exponents, basic
 scinot022 Adding or subtracting numbers written in scientific notation: Same exponents, advanced
 scinot016 Adding or subtracting numbers written in scientific notation: Different exponents
 scinot017 Estimating the sum or difference of two numbers written in scientific notation
 alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge032 Squaring a binomial: Univariate
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge736 Introduction to the GCF of two monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge039 Factoring a quadratic with leading coefficient 1
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge290 Factoring a difference of squares in one variable: Basic
 alge947 Factoring a difference of squares in one variable: Advanced
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 arith016 Square root of a perfect square
 arith601 Square root of a rational perfect square
 alge413 Finding all square roots of a number
 arith760 Square roots of perfect squares with signs
 arith763 Using a calculator to approximate a square root
 arith602 Estimating a square root
 alge567 Using numerical methods to approximate a square root to the nearest tenth
 alge568 Using numerical methods to approximate a square root to the nearest hundredth
 arith515 Approximating the location of irrational numbers on a number line
 arith712 Ordering real numbers
 arith514 Converting a repeating decimal to a fraction
 arith432 Identifying true statements about rational and irrational numbers
 alge002 Identifying numbers as rational or irrational
 alge415 Introduction to simplifying a radical expression with an even exponent
 alge264 Square root of a perfect square monomial
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge080 Simplifying a radical expression with an even exponent
 arith767 Introduction to square root addition or subtraction
 arith032 Square root addition or subtraction
 arith764 Introduction to square root multiplication
 arith765 Square root multiplication: Basic
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 geom564 Finding side lengths of squares given an area and a perimeter
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge542 Word problem involving radical equations: Basic
 arith094 Cube root of an integer
 alge698 Solving an equation of the form $x^3 = a$ using integers
 alge093 Solving an equation using the odd-root property: Problem type 1
 geom565 Finding the side length of a cube given its volume
 alge560 Rational exponents: Unit fraction exponents and whole number bases

alge250 Rational exponents: Non-unit fraction exponent with a whole number base
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 alge675 Using the Pythagorean Theorem to find distance on a grid
 alge132 Distance between two points in the plane: Exact answers

Angles, Lines, and Polygons

geom151 Measuring an angle with the protractor
 geom152 Drawing an angle with the protractor
 geom303 Acute, obtuse, and right angles
 geom039 Finding supplementary and complementary angles
 geom551 Finding the complement or supplement of an angle given a figure
 geom552 Solving an equation involving complementary or supplementary angles
 geom305 Identifying supplementary and vertical angles
 geom553 Finding angle measures given two intersecting lines
 geom530 Solving equations involving vertical angles
 geom304 Identifying corresponding and alternate angles
 geom349 Naming segments, rays, and lines
 geom554 Finding angle measures given two parallel lines cut by a transversal
 geom531 Solving equations involving angles and a pair of parallel lines
 geom584 Establishing facts about the angles created when parallel lines are cut by a transversal
 geom154 Constructing the perpendicular bisector of a line segment
 geom158 Constructing an angle bisector
 geom159 Constructing congruent angles
 geom150 Constructing a pair of perpendicular lines
 geom157 Constructing a pair of parallel lines
 geom306 Acute, obtuse, and right triangles
 geom307 Classifying scalene, isosceles, and equilateral triangles by side lengths or angles
 geom001 Finding an angle measure of a triangle given two angles
 geom860 Special right triangles: Decimal answers
 geom908 Finding an angle measure for a triangle with an extended side
 geom812 Finding an angle measure given extended triangles
 geom813 Finding an angle measure given a triangle and parallel lines
 geom623 Finding angle measures of a triangle given angles with variables
 geom502 Finding angle measures of a right or isosceles triangle given angles with variables
 geom309 Finding an angle measure for a triangle sharing a side with another triangle
 geom586 Establishing facts about the interior angles of a triangle
 geom587 Establishing facts about the interior and exterior angles of a triangle
 geom543 Drawing a circle with a given radius or diameter
 geom544 Creating triangles from given side lengths: Problem type 1
 geom634 Creating triangles from given side lengths: Problem type 2
 geom844 Using triangle inequality to determine if side lengths form a triangle
 geom548 Determining if a triangle is possible based on given angle measures
 geom549 Determining if given measurements define a unique triangle, more than one triangle, or no triangle
 geom546 Drawing triangles with given conditions: Angle measures
 geom547 Drawing triangles with given conditions: Side lengths and angle measures
 geom545 Drawing triangles with given side lengths using a compass
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 geom361 Naming polygons
 mstat042 Interpreting a Venn diagram of 2 sets

geom536 Drawing and identifying a polygon in the coordinate plane
 geom867 Identifying parallelograms, rectangles, and squares
 geom310 Properties of quadrilaterals
 geom532 Classifying parallelograms
 geom818 Finding the coordinates of a point to make a parallelogram
 geom870 Sum of the angle measures of a quadrilateral
 geom852 The sum of interior angle measures in a convex polygon

Transformations

geom519 Identifying and naming congruent parts of congruent triangles
 geom520 Identifying and naming congruent triangles
 geom583 Finding angle measures of a triangle given two angles of a similar triangle
 geom585 Finding angle measures and side ratios to determine if two triangles are similar
 geom357 Identifying transformations
 geom596 Translating a point and giving its coordinates: One step
 geom909 Translating a point and giving its coordinates: Two steps
 geom597 Properties of translated figures
 geom598 Determining if figures are related by a translation
 geom330 Translating a polygon
 geom331 Using a translated point to find coordinates of other translated points
 arith408 Reflecting a point across an axis
 geom533 Reflecting a point across both coordinate axes
 geom590 Reflecting a point across an axis and giving its coordinates
 arith407 Finding the coordinates of a point reflected across an axis
 geom560 Finding the coordinates of a point reflected across both axes
 geom534 Reflecting a polygon across the x-axis or y-axis
 geom591 Properties of reflected figures
 geom592 Determining if figures are related by a reflection
 geom332 Reflecting a polygon over a vertical or horizontal line
 geom333 Finding the coordinates of three points reflected over an axis
 geom334 Drawing lines of symmetry
 geom602 Finding the coordinates of a point reflected across an axis and translated
 geom815 Finding an angle of rotation
 geom624 Identifying rotational symmetry and angles of rotation
 geom593 Rotating a point and giving its coordinates
 geom594 Properties of rotated figures
 geom595 Determining if figures are related by a rotation
 geom335 Rotating a figure about the origin
 geom580 Determining if figures are congruent and related by a transformation
 geom581 Determining if figures are congruent and related by a sequence of transformations
 geom606 Dilating a segment and giving the coordinates of its endpoints
 geom607 The effect of dilation on side length
 geom608 Determining if figures are related by a dilation
 geom636 The effect of dilation on area
 geom336 Dilating a figure
 geom582 Determining if figures are similar and related by a sequence of transformations

Perimeters, Areas, and Volumes

geom618 Perimeter of a polygon involving mixed numbers and fractions
 geom078 Sides of polygons having the same perimeter
 geom221 Finding the missing length in a figure
 geom353 Perimeter of a piecewise rectangular figure
 alge615 Writing algebraic expressions for the perimeter of a figure
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom217 Finding the side length of a rectangle given its perimeter or area
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides

geom620 Area of a rectangle involving fractions
geom619 Area of a rectangle involving mixed numbers and fractions
geom350 Distinguishing between the area and perimeter of a rectangle
geom351 Areas of rectangles with the same perimeter
geom869 Estimates and exact answers
alge616 Writing algebraic expressions for the area of a figure
geom410 Word problem involving the area of a square or a rectangle
geom143 Finding the perimeter or area of a rectangle given one of these values
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
geom142 Word problem involving the area between two rectangles
geom501 Finding the area of a right triangle on a grid
geom509 Finding the area of a right triangle or its corresponding rectangle
geom801 Area of a triangle
geom517 Finding the area of a trapezoid on a grid by using triangles and rectangles
geom344 Area involving rectangles and triangles
alge724 Finding an area in terms of variables
geom022 Area of a parallelogram
geom023 Area of a trapezoid
geom537 Finding the perimeter or area of a rectangle in the coordinate plane
geom832 Area of quadrilaterals in the coordinate plane
geom603 Identifying side lengths that give right triangles
geom589 Demonstrating the converse of the Pythagorean Theorem
geom588 Informal proof of the Pythagorean Theorem
geom347 Introduction to a circle: Diameter, radius, and chord
geom343 Identifying central angles, inscribed angles, arcs, chords, and tangents of a circle
geom016 Circumference of a circle
geom218 Finding the radius or the diameter of a circle given its circumference
geom838 Circumference ratios
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom570 Distinguishing between the area and circumference of a circle
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom126 Area of a sector of a circle: Exact answer in terms of pi
geom868 Classifying solids
geom348 Vertices, edges, and faces of a solid
geom830 Counting the cubes in a solid made of cubes
geom816 Side views of a solid made of cubes
geom550 Identifying horizontal and vertical cross sections of solids
geom354 Volume of a rectangular prism made of unit cubes
geom518 Volume of a solid made of cubes with unit fraction edge lengths
geom535 Volume of a rectangular prism with fractional edge lengths
alge617 Writing equivalent expressions for the volume of a rectangular prism
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom505 Volume of a piecewise rectangular prism
geom090 Volume of a triangular prism
geom572 Word problem involving the volume of a triangular prism
geom033 Volume of a pyramid
geom637 Relating the volumes of a rectangular prism and a rectangular pyramid
geom638 Relating the volumes of a triangular prism and a triangular pyramid
geom035 Volume of a cylinder
geom573 Word problem involving the volume of a cylinder
geom092 Word problem involving the rate of filling or emptying a cylinder
geom622 Volume of a cone
geom086 Volume of a cone: Exact answers in terms of pi
geom639 Relating the volumes of a cylinder and a cone
geom575 Word problem involving the volume of a cone

geom841 Volume of a sphere
 geom574 Word problem involving the volume of a sphere
 geom133 Ratio of volumes
 geom219 Nets of solids
 geom031 Surface area of a cube or a rectangular prism
 geom632 Surface area of a rectangular prism made of unit cubes
 geom555 Distinguishing between surface area and volume
 geom556 Using a net to find the surface area of a rectangular prism
 geom576 Word problem involving the surface area of a rectangular prism
 geom345 Surface area of a piecewise rectangular prism made of unit cubes
 geom091 Surface area of a triangular prism
 geom557 Using a net to find the surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of pi
 geom578 Word problem involving the surface area of a cylinder
 geom842 Surface area of a sphere
 geom338 Surface area involving prisms or cylinders
 geom846 Computing ratios of side lengths, surface areas, and volumes for similar solids
 geom847 Similar solids: Problem type 2

B.99 Accelerated CC Algebra 1

Arithmetic Readiness

arith067 Simplifying a fraction
 arith212 Equivalent fractions
 arith711 Division involving zero
 arith070 Least common multiple of 2 numbers
 arith804 Least common multiple of 3 numbers
 arith418 Word problem involving the least common multiple of 2 numbers
 arith240 Word problem with common multiples
 arith801 Finding the LCD of two fractions
 arith664 Introduction to addition or subtraction of fractions with different denominators
 arith230 Addition or subtraction of fractions with different denominators
 arith803 Addition and subtraction of 3 fractions with different denominators
 arith805 Word problem involving addition or subtraction of fractions with different denominators
 arith100 Fractional part of a circle
 arith079 Product of a unit fraction and a whole number
 arith086 Product of a fraction and a whole number: Problem type 1

arith119 Introduction to fraction multiplication
arith053 Fraction multiplication
arith812 Product of a fraction and a whole number: Problem type 2
arith905 Determining if a quantity is increased or decreased when multiplied by a fraction
arith813 Multiplication of 3 fractions
arith818 Word problem involving fractions and multiplication
arith095 Multi-step word problem involving fractions and multiplication
arith088 The reciprocal of a number
arith694 Division involving a whole number and a fraction
arith022 Fraction division
arith695 Complex fraction without variables: Problem type 1
arith819 Word problem involving fractions and division
arith015 Writing an improper fraction as a mixed number
arith619 Writing a mixed number as an improper fraction
arith084 Addition of mixed numbers with the same denominator and carry
arith216 Subtraction of mixed numbers with the same denominator and borrowing
arith806 Addition or subtraction of mixed numbers with different denominators and no carry or borrow
arith808 Addition of mixed numbers with different denominators and carry
arith809 Subtraction of mixed numbers with different denominators and borrowing
arith807 Addition and subtraction of 3 mixed numbers with different denominators
arith810 Word problem involving addition or subtraction of mixed numbers with different denominators
arith815 Mixed number multiplication
arith816 Multiplication of a mixed number and a whole number
arith817 Division with a mixed number and a whole number
arith068 Mixed number division
arith820 Word problem involving multiplication or division with mixed numbers
arith110 Decimal place value: Tenths and hundredths
arith078 Rounding to tens or hundreds
arith123 Rounding to hundreds or thousands
arith221 Rounding decimals
arith687 Fractional position on a number line
arith092 Using a common denominator to order fractions
arith829 Reading decimal position on a number line: Tenths
arith830 Reading decimal position on a number line: Hundredths
arith129 Introduction to ordering decimals
arith608 Ordering decimals
arith733 Using a calculator to convert a fraction to a rounded decimal
arith087 Converting a decimal to a proper fraction in simplest form: Advanced
arith724 Converting a decimal to a mixed number and an improper fraction in simplest form: Advanced
arith609 Ordering fractions and decimals
arith624 Addition of aligned decimals
arith013 Decimal addition with 3 numbers
arith735 Decimal subtraction: Basic
arith736 Decimal subtraction: Advanced
arith737 Decimal addition and subtraction with 3 or more numbers
arith101 Estimating a sum of whole numbers
arith131 Estimating a decimal sum or difference
arith133 Word problem with addition of 3 or 4 decimals and whole numbers
arith134 Word problem with subtraction of a whole number and a decimal: Regrouping with zeros
arith017 Multiplication of a decimal by a whole number
arith055 Decimal multiplication: Problem type 1
arith082 Multiplication of a decimal by a power of ten
arith752 Estimating a product of decimals
arith135 Word problem with multiplication of a decimal and a whole number
arith137 Word problem with multiplication of two decimals
arith628 Word problem with multiple decimal operations: Problem type 1
arith081 Division of a decimal by a whole number
arith743 Division of a decimal by a 1-digit decimal
arith019 Division of a decimal by a 2-digit decimal
arith083 Division of a decimal by a power of ten
arith138 Word problem with division of two decimals
arith727 Converting a fraction to a terminating decimal: Basic

arith728 Converting a fraction to a terminating decimal: Advanced
 arith730 Converting a fraction to a repeating decimal: Basic
 arith731 Converting a fraction to a repeating decimal: Advanced
 arith823 Writing ratios using different notations
 arith663 Writing ratios for real-world situations
 arith450 Identifying statements that describe a ratio
 arith824 Simplifying a ratio of whole numbers: Problem type 1
 arith825 Simplifying a ratio of decimals
 arith827 Finding a unit price
 arith455 Using tables to compare ratios
 arith828 Computing unit prices to find the better buy
 arith228 Word problem on unit rates associated with ratios of whole numbers: Decimal answers
 arith064 Solving a word problem on proportions using a unit rate
 arith452 Finding missing values in a table of equivalent ratios
 arith453 Using a table of equivalent ratios to find a missing quantity in a ratio
 arith834 Converting between percentages and decimals
 arith090 Converting a percentage to a fraction in simplest form
 arith839 Converting a decimal percentage to a fraction
 arith002 Converting a fraction to a percentage: Denominator of 20, 25, or 50
 arith843 Using a calculator to convert a fraction to a rounded percentage
 arith840 Finding a percentage of a whole number
 arith030 Finding a percentage of a whole number without a calculator: Basic
 arith844 Finding a percentage of a whole number without a calculator: Advanced
 arith845 Finding a percentage of a total amount: Real-world situations
 arith846 Finding a percentage of a total amount without a calculator: Sales tax, commission, discount
 arith857 Estimating a tip without a calculator
 arith686 Writing a ratio as a percentage
 arith069 Writing a ratio as a percentage without a calculator
 arith850 Finding the rate of a tax or commission
 unit005 U.S. Customary unit conversion with whole number values
 unit001 Metric distance conversion with whole number values
 unit012 Time unit conversion with whole number values
 arith826 Simplifying a ratio of whole numbers: Problem type 2
 unit034 Converting between metric and U.S. Customary unit systems

Real Numbers

alge286 Plotting integers on a number line
 arith691 Ordering integers
 arith415 Using a number line to compare integers
 mstat038 Reading the temperature from a thermometer
 arith699 Writing a signed number for a real-world situation
 arith400 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 1
 arith511 Interpreting a table of signed numbers that relate to a real-world situation: Problem type 2
 arith416 Comparing signed numbers relating to a real-world situation
 arith402 Plotting opposite integers on a number line
 arith403 Finding opposites of integers
 arith667 Plotting fractions on a number line
 arith605 Plotting rational numbers on a number line
 arith016 Square root of a perfect square
 arith763 Using a calculator to approximate a square root
 arith515 Approximating the location of irrational numbers on a number line
 arith712 Ordering real numbers
 arith071 Absolute value of a number
 arith412 Finding all numbers with a given absolute value
 arith200 Integer addition: Problem type 1
 arith108 Integer addition: Problem type 2
 arith430 Identifying relative change when combining two quantities
 arith688 Integer subtraction: Problem type 1
 arith689 Integer subtraction: Problem type 2

arith690 Integer subtraction: Problem type 3
arith754 Addition and subtraction with 3 integers
arith755 Addition and subtraction with 4 or 5 integers
arith701 Word problem with addition or subtraction of integers
arith231 Integer multiplication and division
arith800 Multiplication of 3 or 4 integers
arith952 Word problem with multiplication or division of integers
alge660 Identifying equivalent signed fractions
arith116 Signed fraction addition or subtraction: Basic
arith864 Signed fraction subtraction involving double negation
arith106 Signed fraction addition or subtraction: Advanced
arith811 Addition and subtraction of 3 fractions involving signs
arith822 Signed fraction multiplication: Basic
arith105 Signed fraction multiplication: Advanced
arith814 Signed fraction division
arith117 Signed decimal addition and subtraction
arith234 Signed decimal addition and subtraction with 3 numbers
arith750 Signed decimal multiplication
arith751 Signed decimal division
arith440 Operations with absolute value: Problem type 1
arith104 Operations with absolute value: Problem type 2
alge694 Computing the distance between two integers on a number line
arith692 Writing expressions using exponents
arith233 Introduction to exponents
arith683 Power of 10: Positive exponent
arith048 Order of operations with whole numbers
arith051 Order of operations with whole numbers and grouping symbols
arith693 Order of operations with whole numbers and exponents: Basic
arith713 Order of operations with whole numbers and exponents: Advanced
arith821 Exponents and fractions
arith859 Order of operations with fractions: Problem type 1
arith860 Order of operations with fractions: Problem type 2
arith861 Order of operations with fractions: Problem type 3
arith753 Squaring decimal bases: Products greater than 0.1
arith741 Exponents and decimals: Products less than 0.1
arith720 Order of operations with decimals: Problem type 1
arith746 Order of operations with decimals: Problem type 2
arith747 Order of operations with decimals: Problem type 3
arith702 Exponents and integers: Problem type 1
arith703 Exponents and integers: Problem type 2
arith704 Exponents and signed fractions
arith118 Order of operations with integers
arith600 Order of operations with integers and exponents
alge284 Evaluating an algebraic expression: Whole number addition or subtraction
alge683 Evaluating an algebraic expression: Whole number multiplication or division
alge285 Evaluating an algebraic expression: Whole numbers with two operations
alge649 Evaluating a formula
alge648 Evaluating an algebraic expression: Whole numbers with one operation and an exponent
alge832 Evaluating an algebraic expression: Whole number operations and exponents
alge005 Evaluating a linear expression: Integer multiplication with addition or subtraction
alge004 Evaluating a quadratic expression: Integers
mstat065 Converting between temperatures in Fahrenheit and Celsius
alge808 Evaluating a linear expression: Signed fraction multiplication with addition or subtraction
alge302 Evaluating a linear expression: Signed decimal addition and subtraction
alge303 Evaluating a linear expression: Signed decimal multiplication with addition or subtraction
alge001 Identifying numbers as integers or non-integers
arith513 Identifying rational decimal numbers
arith432 Identifying true statements about rational and irrational numbers
alge002 Identifying numbers as rational or irrational
alge700 Combining like terms: Whole number coefficients
alge432 Introduction to adding fractions with variables and common denominators
alge607 Combining like terms: Integer coefficients

alge187 Properties of addition
alge666 Combining like terms: Fractional coefficients
alge665 Combining like terms: Decimal coefficients
arith409 Introduction to the distributive property
arith657 Understanding the distributive property
alge310 Multiplying a constant and a linear monomial
alge606 Distributive property: Whole number coefficients
alge604 Distributive property: Integer coefficients
alge610 Distributive property: Fractional coefficients
arith056 Factors
arith034 Prime numbers
arith035 Prime factorization
arith033 Greatest common factor of 2 numbers
arith516 Greatest common factor of 3 numbers
alge605 Factoring a linear binomial
alge612 Identifying parts in an algebraic expression
alge613 Identifying equivalent algebraic expressions
alge188 Properties of real numbers
alge608 Using distribution and combining like terms to simplify: Univariate
alge667 Identifying properties used to simplify an algebraic expression
alge609 Using distribution with double negation and combining like terms to simplify: Multivariate
alge293 Combining like terms in a quadratic expression
alge650 Identifying solutions to a one-step linear equation: Problem type 1
alge651 Identifying solutions to a one-step linear equation: Problem type 2
alge009 Additive property of equality with whole numbers
alge801 Additive property of equality with fractions and mixed numbers
alge800 Additive property of equality with decimals
alge010 Additive property of equality with integers
alge836 Additive property of equality with signed fractions
alge008 Multiplicative property of equality with whole numbers
alge646 Multiplicative property of equality with whole numbers: Fractional answers
alge820 Multiplicative property of equality with fractions
alge825 Multiplicative property of equality with decimals
alge797 Multiplicative property of equality with integers
alge012 Multiplicative property of equality with signed fractions
geom300 Perimeter of a square or a rectangle
geom221 Finding the missing length in a figure
alge615 Writing algebraic expressions for the perimeter of a figure
geom019 Area of a square or a rectangle
geom340 Area of a piecewise rectangular figure
geom562 Area between two rectangles
alge616 Writing algebraic expressions for the area of a figure
geom410 Word problem involving the area of a square or a rectangle
geom142 Word problem involving the area between two rectangles
geom022 Area of a parallelogram
geom801 Area of a triangle
geom023 Area of a trapezoid
geom016 Circumference of a circle
geom301 Perimeter involving rectangles and circles
geom026 Area of a circle
geom802 Circumference and area of a circle
geom477 Circumference and area of a circle: Exact answers in terms of pi
geom302 Area involving rectangles and circles
geom563 Area between two concentric circles
geom036 Word problem involving the area between two concentric circles
geom214 Area involving inscribed figures
geom311 Volume of a rectangular prism
geom571 Word problem involving the volume of a rectangular prism
geom558 Word problem involving the rate of filling or emptying a rectangular prism
geom090 Volume of a triangular prism
geom035 Volume of a cylinder
geom573 Word problem involving the volume of a cylinder

geom092 Word problem involving the rate of filling or emptying a cylinder
 geom033 Volume of a pyramid
 geom622 Volume of a cone
 geom086 Volume of a cone: Exact answers in terms of π
 geom841 Volume of a sphere
 geom031 Surface area of a cube or a rectangular prism
 geom091 Surface area of a triangular prism
 geom621 Surface area of a cylinder
 geom034 Surface area of a cylinder: Exact answers in terms of π
 geom842 Surface area of a sphere

Linear Equations

alge834 Identifying solutions to a linear equation in one variable: Two-step equations
 alge803 Using two steps to solve an equation with whole numbers
 alge266 Additive property of equality with a negative coefficient
 alge006 Solving a two-step equation with integers
 alge815 Introduction to using substitution to solve a linear equation
 alge200 Solving an equation to find the value of an expression
 alge920 Introduction to solving an equation with parentheses
 alge837 Solving a multi-step equation given in fractional form
 alge986 Identifying properties used to solve a linear equation
 alge824 Solving a two-step equation with signed decimals
 alge838 Introduction to solving an equation with variables on the same side
 alge862 Solving a linear equation with several occurrences of the variable: Variables on the same side
 alge611 Introduction to solving a linear equation with a variable on each side
 alge863 Solving a linear equation with several occurrences of the variable: Variables on both sides
 alge011 Solving a linear equation with several occurrences of the variable: Variables on the same side and distribution
 alge013 Solving a linear equation with several occurrences of the variable: Variables on both sides and distribution
 alge209 Solving a linear equation with several occurrences of the variable: Variables on both sides and two distributions
 alge614 Clearing fractions in an equation
 alge420 Solving a linear equation with several occurrences of the variable: Fractional forms with monomial numerators
 alge208 Solving a two-step equation with signed fractions
 alge061 Solving a linear equation with several occurrences of the variable: Variables on both sides and fractional coefficients
 alge179 Solving a linear equation with several occurrences of the variable: Fractional forms with binomial numerators
 alge742 Solving equations with zero, one, or infinitely many solutions
 alge511 Solving for a variable in terms of other variables using addition or subtraction: Basic
 alge512 Solving for a variable in terms of other variables using addition or subtraction: Advanced
 alge513 Solving for a variable in terms of other variables using multiplication or division: Basic
 alge514 Solving for a variable in terms of other variables using multiplication or division: Advanced
 alge517 Solving for a variable in terms of other variables using addition or subtraction with division
 alge518 Solving for a variable inside parentheses in terms of other variables
 alge507 Solving for a variable in terms of other variables in a linear equation with fractions
 alge603 Introduction to solving an absolute value equation
 alge864 Solving an absolute value equation: Problem type 1
 alge865 Solving an absolute value equation: Problem type 2
 alge866 Solving an absolute value equation: Problem type 3
 alge867 Solving an absolute value equation: Problem type 4
 alge733 Writing a one-step expression for a real-world situation
 alge831 Translating a phrase into a one-step expression
 alge291 Translating a phrase into a two-step expression
 alge016 Translating a sentence into a one-step equation
 alge841 Translating a sentence into a multi-step equation
 arith504 Writing an equation to represent a proportional relationship

alge802 Solving a fraction word problem using a linear equation of the form $Ax = B$
 alge671 Choosing stories that can be represented by given one-step equations
 alge628 Writing an equation of the form $Ax + B = C$ to solve a word problem
 alge618 Comparing arithmetic and algebraic solutions to a word problem
 alge672 Choosing stories that can be represented by given two-step equations
 alge173 Solving a decimal word problem using a linear equation of the form $Ax + B = C$
 alge629 Writing an equation of the form $A(x + B) = C$ to solve a word problem
 alge014 Solving a word problem with two unknowns using a linear equation
 alge673 Writing an equation to represent a real-world problem: Variable on both sides
 alge674 Writing and solving a real-world problem given an equation with the variable on both sides
 alge730 Writing a multi-step equation for a real-world situation
 alge219 Solving a decimal word problem using a linear equation with the variable on both sides
 alge704 Solving a fraction word problem using a linear equation with the variable on both sides
 alge792 Solving a word problem with three unknowns using a linear equation
 alge842 Solving a word problem involving consecutive integers
 alge794 Solving a value mixture problem using a linear equation
 alge218 Solving a word problem involving rates and time conversion
 alge823 Solving a one-step word problem using the formula $d = rt$
 alge796 Solving a distance, rate, time problem using a linear equation
 unit035 Converting between compound units: Basic
 unit036 Converting between compound units: Advanced
 arith514 Converting a repeating decimal to a fraction
 alge819 Solving a proportion of the form $x/a=b/c$: Basic
 alge272 Solving a proportion of the form $x/a = b/c$
 alge840 Solving a proportion of the form $(x+a)\div b = c\div d$
 alge271 Solving a proportion of the form $a/(x+b) = c/x$
 alge658 Introduction to solving a rational equation
 alge060 Solving a rational equation that simplifies to linear: Denominator x
 arith610 Word problem on proportions: Problem type 1
 arith611 Word problem on proportions: Problem type 2
 arith862 Applying the percent equation: Problem type 1
 arith863 Applying the percent equation: Problem type 2
 arith849 Finding the total amount given the percentage of a partial amount
 arith852 Finding the multiplier to give a final amount after a percentage increase or decrease
 arith851 Finding the final amount given the original amount and a percentage increase or decrease
 arith847 Finding the sale price given the original price and percent discount
 arith074 Finding the sale price without a calculator given the original price and percent discount
 arith848 Finding the total cost including tax or markup
 arith855 Finding the original amount given the result of a percentage increase or decrease
 arith031 Finding the original price given the sale price and percent discount
 arith858 Finding the percentage increase or decrease: Basic
 arith225 Finding the percentage increase or decrease: Advanced
 unit052 Finding the absolute error and percent error of a measurement
 arith854 Computing a percent mixture
 alge795 Solving a percent mixture problem using a linear equation
 arith232 Finding simple interest without a calculator
 arith853 Introduction to compound interest
 geom564 Finding side lengths of squares given an area and a perimeter
 geom648 Finding side lengths of rectangles given one dimension and an area or a perimeter
 geom444 Word problem on optimizing an area or perimeter
 geom561 Finding the dimensions of a rectangle given its perimeter and a relationship between sides
 geom143 Finding the perimeter or area of a rectangle given one of these values
 geom817 Finding a side length given the perimeter and side lengths with variables
 geom838 Circumference ratios
 geom039 Finding supplementary and complementary angles
 geom500 Solving equations involving vertical angles and linear pairs
 geom001 Finding an angle measure of a triangle given two angles
 geom628 Finding angle measures of a triangle given angles with variables
 geom037 Similar polygons
 geom038 Similar right triangles
 geom337 Indirect measurement
 geom538 Finding lengths using scale models

geom539 Finding a scale factor: Same units
 geom541 Using a scale drawing to find actual area
 geom542 Reproducing a scale drawing at a different scale

Linear Inequalities

alge015 Translating a sentence by using an inequality symbol
 alge845 Translating a sentence into a one-step inequality
 alge653 Introduction to identifying solutions to an inequality
 alge748 Writing an inequality for a real-world situation
 alge017 Graphing a linear inequality on the number line
 alge822 Writing an inequality given a graph on the number line
 alge186 Translating a sentence into a compound inequality
 alge166 Graphing a compound inequality on the number line
 alge847 Writing a compound inequality given a graph on the number line
 set001 Set builder notation
 set002 Union and intersection of finite sets
 alge652 Identifying solutions to a one-step linear inequality
 alge848 Additive property of inequality with whole numbers
 alge849 Additive property of inequality with integers
 alge852 Additive property of inequality with signed fractions
 alge853 Additive property of inequality with signed decimals
 alge809 Multiplicative property of inequality with whole numbers
 alge854 Multiplicative property of inequality with integers
 alge964 Multiplicative property of inequality with signed fractions
 alge844 Identifying solutions to a two-step linear inequality in one variable
 alge636 Solving a two-step linear inequality with whole numbers
 alge855 Solving a two-step linear inequality: Problem type 1
 alge856 Solving a two-step linear inequality: Problem type 2
 alge857 Solving a two-step linear inequality with a fractional coefficient
 alge977 Solving a linear inequality with multiple occurrences of the variable: Problem type 1
 alge858 Solving a linear inequality with multiple occurrences of the variable: Problem type 2
 alge859 Solving a linear inequality with multiple occurrences of the variable: Problem type 3
 alge860 Solving inequalities with no solution or all real numbers as solutions
 alge746 Solving a compound linear inequality: Graph solution, basic
 alge861 Solving a compound linear inequality: Graph solution, advanced
 alge621 Solving a word problem using a one-step linear inequality
 alge846 Translating a sentence into a multi-step inequality
 alge619 Solving a word problem using a two-step linear inequality and describing the solution
 alge623 Solving a word problem using a two-step linear inequality
 alge749 Solving a decimal word problem using a two-step linear inequality
 alge750 Solving a decimal word problem using a linear inequality with the variable on both sides
 alge868 Solving an absolute value inequality: Problem type 1
 alge943 Writing an absolute value inequality given a graph on the number line
 alge869 Solving an absolute value inequality: Problem type 2
 alge870 Solving an absolute value inequality: Problem type 3
 alge871 Solving an absolute value inequality: Problem type 4
 alge872 Solving an absolute value inequality: Problem type 5

Functions and Lines

alge064 Reading a point in the coordinate plane
 alge067 Plotting a point in the coordinate plane
 alge693 Plotting a point in the coordinate plane: Mixed number coordinates
 arith404 Naming the quadrant or axis of a point given its graph
 arith405 Naming the quadrant or axis of a point given its coordinates
 arith406 Naming the quadrant or axis of a point given the signs of its coordinates
 alge695 Finding distances between points that share a common coordinate given the graph

alge696 Finding distances between points that share a common coordinate given their coordinates
alge282 Function tables with two-step rules
alge850 Table for a linear equation
fun005 Writing a function rule given a table of ordered pairs: One-step rules
fun006 Writing a function rule given a table of ordered pairs: Two-step rules
alge873 Identifying solutions to a linear equation in two variables
alge066 Finding a solution to a linear equation in two variables
alge877 Graphing a linear equation of the form $y = mx$
alge878 Graphing a line given its equation in slope-intercept form: Integer slope
alge879 Graphing a line given its equation in slope-intercept form: Fractional slope
alge880 Graphing a line given its equation in standard form
alge198 Graphing a vertical or horizontal line
alge884 Finding x- and y-intercepts given the graph of a line on a grid
alge924 Finding x- and y-intercepts of a line given the equation: Basic
alge210 Finding x- and y-intercepts of a line given the equation: Advanced
alge197 Graphing a line given its x- and y-intercepts
alge881 Graphing a line by first finding its x- and y-intercepts
mstat007 Interpreting a line graph
alge575 Finding slope given the graph of a line in quadrant 1 that models a real-world situation
alge875 Classifying slopes given graphs of lines
alge886 Finding slope given the graph of a line on a grid
alge887 Finding slope given two points on the line
alge885 Finding the slope of horizontal and vertical lines
alge888 Finding the coordinate that yields a given slope
alge259 Graphing a line given its slope and y-intercept
alge196 Graphing a line through a given point with a given slope
alge625 Identifying linear equations: Basic
alge876 Identifying linear equations: Advanced
alge874 Identifying linear functions given ordered pairs
alge891 Rewriting a linear equation in the form $Ax + By = C$
alge889 Finding the slope and y-intercept of a line given its equation in the form $y = mx + b$
alge890 Finding the slope and y-intercept of a line given its equation in the form $Ax + By = C$
alge882 Graphing a line by first finding its slope and y-intercept
alge258 Writing an equation of a line given its slope and y-intercept
alge892 Writing an equation and graphing a line given its slope and y-intercept
alge314 Finding the slope, y-intercept, and equation for a linear function given a table of values
alge893 Writing an equation in slope-intercept form given the slope and a point
alge318 Finding the slope and a point on a line given its equation in point-slope form
alge883 Graphing a line given its equation in point-slope form
alge894 Writing an equation in point-slope form given the slope and a point
alge313 Writing an equation in standard form given the slope and a point
alge070 Writing an equation of a line given the y-intercept and another point
alge072 Writing the equation of the line through two given points
alge073 Writing the equations of vertical and horizontal lines through a given point
alge322 Comparing linear functions to the parent function $y=x$
geom806 Finding slopes of lines parallel and perpendicular to a line given in slope-intercept form
geom807 Finding slopes of lines parallel and perpendicular to a line given in the form $Ax + By = C$
alge895 Identifying parallel and perpendicular lines from equations
geom808 Writing equations of lines parallel and perpendicular to a given line through a point
geom462 Identifying parallel and perpendicular lines from coordinates
alge630 Finding outputs of a one-step function that models a real-world situation: Two variable equation
alge632 Finding outputs of a two-step function with decimals that models a real-world situation: Two variable equation
alge633 Finding inputs and outputs of a two-step function that models a real-world situation: Two variable equation
alge655 Writing and evaluating a function that models a real-world situation: Basic
alge897 Writing and evaluating a function that models a real-world situation: Advanced
alge656 Writing an equation and drawing its graph to model a real-world situation: Basic
alge701 Writing an equation and drawing its graph to model a real-world situation: Advanced
alge817 Finding the initial amount and rate of change given a table for a linear function
alge818 Finding the initial amount and rate of change given a graph of a linear function
alge992 Combining functions to write a new function that models a real-world situation

alge987 Comparing properties of linear functions given in different forms
 alge989 Interpreting the parameters of a linear function that models a real-world situation
 alge805 Application problem with a linear function: Finding a coordinate given the slope and a point
 alge806 Application problem with a linear function: Finding a coordinate given two points
 alge670 Identifying independent and dependent quantities from tables and graphs
 mstat052 Identifying independent and dependent variables from equations or real-world situations
 alge991 Solving a linear equation by graphing
 mstat094 Constructing a scatter plot
 mstat030 Sketching the line of best fit
 mstat023 Scatter plots and correlation
 mstat068 Predictions from the line of best fit
 mstat067 Approximating the equation of a line of best fit and making predictions
 mstat069 Computing residuals
 mstat070 Interpreting residual plots
 mstat093 Classifying linear and nonlinear relationships from scatter plots
 mstat071 Linear relationship and the correlation coefficient
 mstat096 Identifying outliers and clustering in scatter plots
 mstat074 Identifying correlation and causation
 alge982 Identifying direct variation equations
 alge938 Identifying direct variation from ordered pairs and writing equations
 alge904 Writing a direct variation equation
 alge175 Word problem on direct variation
 alge828 Interpreting direct variation from a graph
 fun032 Identifying functions from relations
 fun010 Vertical line test
 fun016 Domain and range from ordered pairs
 fun001 Table for a linear function
 pcalc760 Evaluating functions: Linear and quadratic or cubic
 fun033 Variable expressions as inputs of functions: Problem type 1
 fun030 Evaluating a piecewise-defined function
 alge294 Finding outputs of a one-step function that models a real-world situation: Function notation
 alge295 Finding outputs of a two-step function with decimals that models a real-world situation: Function notation
 alge296 Finding inputs and outputs of a two-step function that models a real-world situation: Function notation
 alge990 Domain and range of a linear function that models a real-world situation
 fun026 Finding an output of a function from its graph
 pcalc761 Finding inputs and outputs of a function from its graph
 fun007 Domain and range from the graph of a discrete relation
 alge312 Finding domain and range from a linear graph in context
 pcalc750 Finding intercepts of a nonlinear function given its graph
 alge999 Finding where a function is increasing, decreasing, or constant given the graph
 pcalc752 Finding local maxima and minima of a function given the graph
 mstat018 Choosing a graph to fit a narrative: Basic
 mstat051 Choosing a graph to fit a narrative: Advanced
 alge896 Graphing an integer function and finding its range for a given domain
 alge570 Graphing a function of the form $f(x) = ax + b$: Integer slope
 alge571 Graphing a function of the form $f(x) = ax + b$: Fractional slope
 alge913 Graphing an absolute value equation of the form $y = A - |x - h| + k$
 alge900 Graphing an absolute value equation in the plane: Basic
 alge168 Graphing an absolute value equation in the plane: Advanced
 alge954 Graphing a parabola of the form $y = ax^2$
 alge955 Graphing a parabola of the form $y = ax^2 + c$
 alge572 Graphing a function of the form $f(x) = ax^2$
 alge573 Graphing a function of the form $f(x) = ax^2 + c$
 alge253 Graphing a parabola of the form $y = (x-h)^2 + k$
 alge262 Graphing a cubic function of the form $y = ax^3$
 fun031 Graphing a piecewise-defined function: Problem type 1
 alge997 Finding the average rate of change of a function given its equation
 alge998 Finding the average rate of change of a function given its graph
 alge953 Translating the graph of a parabola: One step
 alge723 How the leading coefficient affects the shape of a parabola
 alge898 Translating the graph of an absolute value function: One step

alge899 Translating the graph of an absolute value function: Two steps
 alge901 How the leading coefficient affects the graph of an absolute value function
 alge185 Writing an equation for a function after a vertical translation
 pcalc769 Translating the graph of a function: One step
 pcalc770 Translating the graph of a function: Two steps
 pcalc771 Transforming the graph of a function by reflecting over an axis
 pcalc772 Transforming the graph of a function by shrinking or stretching
 pcalc773 Transforming the graph of a function using more than one transformation
 fun020 Writing an equation for a function after a vertical and horizontal translation
 alge644 Finding the first terms of an arithmetic sequence using an explicit rule
 alge925 Finding the next terms of an arithmetic sequence with whole numbers
 alge906 Finding the next terms of an arithmetic sequence with integers
 alge908 Finding the first terms of a sequence using a recursive rule
 alge979 Identifying arithmetic sequences and finding the common difference
 alge931 Finding a specified term of an arithmetic sequence given the first terms
 pcalc085 Finding a specified term of an arithmetic sequence given the common difference and first term
 alge909 Writing an explicit rule for an arithmetic sequence
 alge910 Writing a recursive rule for an arithmetic sequence

Linear Systems

alge914 Identifying solutions to a system of linear equations
 alge075 Classifying systems of linear equations from graphs
 alge725 Graphically solving a system of linear equations
 pcalc820 Using a graphing calculator to solve a system of linear equations: Basic
 pcalc821 Using a graphing calculator to solve a system of linear equations: Advanced
 alge317 Writing a system of linear equations given its graph
 alge816 Solving a system of linear equations of the form $y = mx + b$
 alge751 Solving a system of linear equations using substitution
 alge915 Solving a system of linear equations using elimination with addition
 alge076 Solving a system of linear equations using elimination with multiplication and addition
 alge916 Solving a system of linear equations with fractional coefficients
 alge917 Solving a system of linear equations with decimal coefficients
 alge634 Solving systems of linear equations with 0, 1, or infinitely many solutions
 alge988 Identifying the operations used to create equivalent systems of equations
 alge753 Solving a 3x3 system of linear equations: Problem type 1
 pcalc037 Scalar multiplication of a matrix
 pcalc038 Addition or subtraction of matrices
 pcalc740 Linear combination of matrices
 pcalc712 Gauss-Jordan elimination with a 2x2 matrix
 alge263 Interpreting the graphs of two functions
 alge078 Solving a word problem involving a sum and another basic relationship using a system of linear equations
 alge919 Solving a word problem using a system of linear equations of the form $Ax + By = C$
 alge918 Solving a word problem using a system of linear equations of the form $y = mx + b$
 alge184 Solving a value mixture problem using a system of linear equations
 alge192 Solving a percent mixture problem using a system of linear equations
 alge224 Solving a distance, rate, time problem using a system of linear equations
 alge172 Solving a tax rate or interest rate problem using a system of linear equations
 alge793 Solving a word problem using a 3x3 system of linear equations: Problem type 1
 alge912 Identifying solutions to a linear inequality in two variables
 alge225 Graphing a linear inequality in the plane: Vertical or horizontal line
 alge720 Graphing a linear inequality in the plane: Slope-intercept form
 alge018 Graphing a linear inequality in the plane: Standard form
 alge315 Writing an inequality given its graph in the plane: Horizontal or vertical boundary line
 alge316 Writing an inequality given its graph in the plane: Slanted boundary line
 alge079 Graphing a system of two linear inequalities: Basic
 alge921 Graphing a system of two linear inequalities: Advanced
 alge922 Graphing a system of three linear inequalities
 alge729 Writing a multi-step inequality for a real-world situation
 pcalc093 Solving a word problem using a system of linear inequalities: Problem type 1

Exponents and Exponential Functions

alge821 Understanding the product rule of exponents
 alge024 Introduction to the product rule of exponents
 alge311 Product rule with positive exponents: Univariate
 alge030 Product rule with positive exponents: Multivariate
 arith029 Ordering numbers with positive exponents
 alge826 Understanding the power rules of exponents
 alge306 Introduction to the power of a power rule of exponents
 alge305 Introduction to the power of a product rule of exponents
 alge307 Power rules with positive exponents: Multivariate products
 alge308 Power rules with positive exponents: Multivariate quotients
 alge756 Power and product rules with positive exponents
 alge451 Simplifying a ratio of multivariate monomials: Basic
 alge827 Introduction to the quotient rule of exponents
 alge452 Simplifying a ratio of univariate monomials
 alge026 Quotient of expressions involving exponents
 alge453 Simplifying a ratio of multivariate monomials: Advanced
 alge927 Power and quotient rules with positive exponents
 alge790 Evaluating expressions with exponents of zero
 arith684 Power of 10: Negative exponent
 arith729 Evaluating an expression with a negative exponent: Whole number base
 arith042 Evaluating an expression with a negative exponent: Positive fraction base
 arith043 Evaluating an expression with a negative exponent: Negative integer base
 arith024 Ordering numbers with negative exponents
 alge791 Rewriting an algebraic expression without a negative exponent
 alge961 Introduction to the product rule with negative exponents
 alge028 Product rule with negative exponents
 alge755 Quotient rule with negative exponents: Problem type 1
 alge926 Quotient rule with negative exponents: Problem type 2
 alge025 Power of a power rule with negative exponents
 alge799 Power rules with negative exponents
 alge928 Power and quotient rules with negative exponents: Problem type 1
 alge929 Power and quotient rules with negative exponents: Problem type 2
 alge757 Power, product, and quotient rules with negative exponents
 scinot023 Introduction to scientific notation with positive exponents
 arith036 Scientific notation with positive exponent
 scinot024 Introduction to scientific notation with negative exponents
 arith037 Scientific notation with negative exponent
 scinot012 Converting between scientific notation and standard form in a real-world situation
 scinot021 Expressing calculator notation as scientific notation
 scinot008 Multiplying numbers written in scientific notation: Basic
 scinot009 Multiplying numbers written in scientific notation: Advanced
 scinot019 Multiplying numbers written in decimal form or scientific notation in a real-world situation
 scinot010 Dividing numbers written in scientific notation: Basic
 scinot011 Dividing numbers written in scientific notation: Advanced
 scinot013 Finding the scale factor between numbers given in scientific notation in a real-world situation
 alge971 Table for an exponential function
 alge969 Graphing an exponential function: $f(x) = ax$
 alge970 Graphing an exponential function: $f(x) = a(b)x$
 alge712 Graphing an exponential function and its asymptote: $f(x) = a(b)x$
 alge321 Finding domain and range from the graph of an exponential function
 pcalc922 Translating the graph of an exponential function
 alge830 Evaluating an exponential function that models a real-world situation
 alge301 Solving an exponential equation by finding common bases: Linear exponents
 alge177 Finding a final amount in a word problem on exponential growth or decay
 alge741 Finding the final amount in a word problem on compound interest
 alge966 Finding the initial amount and rate of change given an exponential function
 alge968 Writing an equation that models exponential growth or decay
 alge967 Writing an exponential function rule given a table of ordered pairs
 mstat103 Choosing an exponential model and using it to make a prediction
 alge993 Comparing linear, polynomial, and exponential functions

alge645 Finding the first terms of a geometric sequence using an explicit rule
 alge933 Finding the next terms of a geometric sequence with whole numbers
 alge907 Finding the next terms of a geometric sequence with signed numbers
 alge981 Identifying arithmetic and geometric sequences
 alge980 Identifying geometric sequences and finding the common ratio
 alge934 Finding a specified term of a geometric sequence given the first terms
 pcalc086 Finding a specified term of a geometric sequence given the common ratio and first term
 pcalc713 Arithmetic and geometric sequences: Identifying and writing an explicit rule
 alge911 Writing recursive rules for arithmetic and geometric sequences
 alge965 Identifying linear, quadratic, and exponential functions given ordered pairs

Polynomials and Factoring

alge758 Degree and leading coefficient of a univariate polynomial
 alge031 Degree of a multivariate polynomial
 alge798 Simplifying a sum or difference of two univariate polynomials
 alge029 Simplifying a sum or difference of three univariate polynomials
 alge932 Simplifying a sum or difference of multivariate polynomials
 alge735 Multiplying a univariate polynomial by a monomial with a positive coefficient
 alge972 Multiplying a univariate polynomial by a monomial with a negative coefficient
 alge835 Multiplying a multivariate polynomial by a monomial
 alge033 Multiplying binomials with leading coefficients of 1
 alge983 Multiplying binomials with leading coefficients greater than 1
 alge765 Multiplying binomials in two variables
 alge764 Multiplying conjugate binomials: Univariate
 alge081 Multiplying conjugate binomials: Multivariate
 alge032 Squaring a binomial: Univariate
 alge068 Squaring a binomial: Multivariate
 alge973 Multiplying binomials with negative coefficients
 alge935 Multiplication involving binomials and trinomials in one variable
 alge180 Multiplication involving binomials and trinomials in two variables
 alge759 Dividing a polynomial by a monomial: Univariate
 alge760 Dividing a polynomial by a monomial: Multivariate
 alge761 Polynomial long division: Problem type 1
 alge762 Polynomial long division: Problem type 2
 alge763 Polynomial long division: Problem type 3
 alge985 Closure properties of integers and polynomials
 alge736 Introduction to the GCF of two monomials
 alge930 Greatest common factor of three univariate monomials
 alge037 Greatest common factor of two multivariate monomials
 alge738 Factoring out a monomial from a polynomial: Univariate
 alge739 Factoring out a monomial from a polynomial: Multivariate
 alge949 Factoring out a binomial from a polynomial: GCF factoring, basic
 alge923 Factoring a univariate polynomial by grouping: Problem type 1
 alge950 Factoring a univariate polynomial by grouping: Problem type 2
 alge951 Factoring a multivariate polynomial by grouping: Problem type 1
 alge952 Factoring a multivariate polynomial by grouping: Problem type 2
 alge039 Factoring a quadratic with leading coefficient 1
 alge942 Factoring a quadratic in two variables with leading coefficient 1
 alge936 Factoring out a constant before factoring a quadratic
 alge939 Factoring a quadratic with leading coefficient greater than 1: Problem type 1
 alge940 Factoring a quadratic with leading coefficient greater than 1: Problem type 2
 alge941 Factoring a quadratic with leading coefficient greater than 1: Problem type 3
 alge978 Factoring a quadratic by the ac-method
 alge265 Factoring a quadratic in two variables with leading coefficient greater than 1
 alge937 Factoring a quadratic with a negative leading coefficient
 alge944 Factoring a perfect square trinomial with leading coefficient 1
 alge945 Factoring a perfect square trinomial with leading coefficient greater than 1
 alge946 Factoring a perfect square trinomial in two variables
 alge290 Factoring a difference of squares in one variable: Basic

alge947 Factoring a difference of squares in one variable: Advanced
 alge839 Factoring a difference of squares in two variables
 alge948 Factoring a polynomial involving a GCF and a difference of squares: Univariate
 alge833 Factoring a polynomial involving a GCF and a difference of squares: Multivariate
 alge041 Factoring a product of a quadratic trinomial and a monomial
 alge042 Factoring with repeated use of the difference of squares formula
 alge044 Factoring a sum or difference of two cubes

Quadratic Functions and Equations

alge681 Solving an equation written in factored form
 alge956 Finding the roots of a quadratic equation of the form $ax^2 + bx = 0$
 alge045 Finding the roots of a quadratic equation with leading coefficient 1
 alge048 Finding the roots of a quadratic equation with leading coefficient greater than 1
 alge211 Solving a quadratic equation needing simplification
 alge323 Finding the zeros of a quadratic function given its equation
 alge163 Writing a quadratic equation given the roots and the leading coefficient
 alge703 Solving a word problem using a quadratic equation with rational roots
 arith601 Square root of a rational perfect square
 arith760 Square roots of perfect squares with signs
 arith093 Simplifying the square root of a whole number less than 100
 arith762 Simplifying the square root of a whole number greater than 100
 alge962 Solving an equation of the form $x^2 = a$ using the square root property
 alge958 Solving a quadratic equation using the square root property: Decimal answers, basic
 alge959 Solving a quadratic equation using the square root property: Decimal answers, advanced
 alge092 Solving a quadratic equation using the square root property: Exact answers, basic
 alge227 Solving a quadratic equation using the square root property: Exact answers, advanced
 alge094 Completing the square
 alge960 Solving a quadratic equation by completing the square: Decimal answers
 alge780 Solving a quadratic equation by completing the square: Exact answers
 alge095 Applying the quadratic formula: Exact answers
 alge963 Applying the quadratic formula: Decimal answers
 alge214 Discriminant of a quadratic equation
 alge524 Solving a word problem using a quadratic equation with irrational roots
 alge974 Finding the vertex, x-intercepts, and axis of symmetry from the graph of a parabola
 alge569 Graphing a parabola of the form $y = x^2 + bx + c$
 pcalc746 Graphing a parabola of the form $y = ax^2 + bx + c$: Integer coefficients
 pcalc747 Graphing a parabola of the form $y = ax^2 + bx + c$: Rational coefficients
 alge320 Writing a quadratic function given its zeros
 alge277 Finding the x-intercept(s) and the vertex of a parabola
 pcalc714 Using a graphing calculator to find the zeros of a quadratic function
 pcalc793 Using a graphing calculator to find the x-intercept(s) and vertex of a quadratic function
 alge319 Rewriting a quadratic function in standard form
 pcalc774 Rewriting a quadratic function to find the vertex of its graph
 pcalc775 Finding the maximum or minimum of a quadratic function
 alge785 Word problem involving the maximum or minimum of a quadratic function
 alge975 Domain and range from the graph of a parabola
 alge976 Range of a quadratic function
 pcalc680 Writing the equation of a quadratic function given its graph
 alge957 Solving a quadratic equation by graphing
 alge996 Comparing properties of quadratic functions given in different forms
 alge702 Classifying the graph of a function
 mstat102 Choosing a quadratic model and using it to make a prediction
 pcalc748 Graphing a quadratic inequality: Problem type 1
 pcalc749 Graphing a quadratic inequality: Problem type 2
 alge994 Graphically solving a system of linear and quadratic equations
 alge995 Solving a system of linear and quadratic equations
 pcalc716 Using a graphing calculator to solve a system of linear and quadratic equations: Basic
 fun019 Sum, difference, and product of two functions
 alge716 Introduction to the composition of two functions

fun022 Composition of two functions: Basic
fun011 Horizontal line test
fun012 Inverse functions: Linear, discrete
pcalc114 Even and odd functions: Problem type 1

Radicals

alge413 Finding all square roots of a number
arith602 Estimating a square root
arith761 Square roots of integers raised to even exponents
alge415 Introduction to simplifying a radical expression with an even exponent
alge264 Square root of a perfect square monomial
alge537 Using absolute value to simplify square roots of perfect square monomials
arith094 Cube root of an integer
alge549 Finding n th roots of perfect n th powers with signs
arith768 Finding the n th root of a perfect n th power fraction
alge550 Finding the n th root of a perfect n th power monomial
alge539 Table for a square root function
alge565 Domain of a square root function: Basic
alge566 Domain of a square root function: Advanced
alge543 Graphing a square root function: Problem type 1
alge544 Graphing a square root function: Problem type 2
alge545 Graphing a square root function: Problem type 3
alge812 Converting between radical form and exponent form
alge560 Rational exponents: Unit fraction exponents and whole number bases
alge561 Rational exponents: Unit fraction exponents and bases involving signs
alge250 Rational exponents: Non-unit fraction exponent with a whole number base
alge251 Rational exponents: Negative exponents and fractional bases
alge558 Rational exponents: Product rule
alge559 Rational exponents: Quotient rule
alge773 Rational exponents: Products and quotients with negative exponents
alge562 Rational exponents: Power of a power rule
alge249 Rational exponents: Powers of powers with negative exponents
alge080 Simplifying a radical expression with an even exponent
alge520 Introduction to simplifying a radical expression with an odd exponent
alge521 Simplifying a radical expression with an odd exponent
alge275 Simplifying a radical expression with two variables
alge273 Simplifying a higher root of a whole number
alge551 Introduction to simplifying a higher radical expression
alge552 Simplifying a higher radical expression: Univariate
alge811 Simplifying a higher radical expression: Multivariate
arith767 Introduction to square root addition or subtraction
arith032 Square root addition or subtraction
alge533 Square root addition or subtraction with three terms
alge531 Introduction to simplifying a sum or difference of radical expressions: Univariate
alge532 Simplifying a sum or difference of radical expressions: Univariate
alge084 Simplifying a sum or difference of radical expressions: Multivariate
arith764 Introduction to square root multiplication
arith765 Square root multiplication: Basic
arith039 Square root multiplication: Advanced
alge522 Introduction to simplifying a product of radical expressions: Univariate
alge523 Simplifying a product of radical expressions: Univariate
alge640 Simplifying a product of radical expressions: Multivariate
alge556 Introduction to simplifying a product of higher roots
alge557 Simplifying a product of higher radical expressions
alge525 Introduction to simplifying a product involving square roots using the distributive property
alge526 Simplifying a product involving square roots using the distributive property: Basic
alge276 Simplifying a product involving square roots using the distributive property: Advanced
alge774 Special products of radical expressions: Conjugates and squaring
alge984 Classifying sums and products as rational or irrational

arith766 Simplifying a quotient of square roots
 alge530 Simplifying a quotient involving a sum or difference with a square root
 alge527 Rationalizing a denominator: Quotient involving square roots
 alge528 Rationalizing a denominator: Square root of a fraction
 alge529 Rationalizing a denominator: Quotient involving a monomial
 alge534 Rationalizing a denominator using conjugates: Integer numerator
 alge535 Rationalizing a denominator using conjugates: Square root in numerator
 alge400 Introduction to solving a radical equation
 alge089 Solving a radical equation that simplifies to a linear equation: One radical, basic
 alge402 Solving a radical equation that simplifies to a linear equation: One radical, advanced
 alge090 Solving a radical equation that simplifies to a linear equation: Two radicals
 alge403 Solving a radical equation that simplifies to a quadratic equation: One radical, basic
 alge404 Solving a radical equation that simplifies to a quadratic equation: One radical, advanced
 alge411 Solving a radical equation with a quadratic expression under the radical
 alge405 Solving a radical equation with two radicals that simplifies to $\sqrt{x} = a$
 alge182 Solving a radical equation that simplifies to a quadratic equation: Two radicals
 alge412 Algebraic symbol manipulation with radicals
 alge542 Word problem involving radical equations: Basic
 alge409 Word problem involving radical equations: Advanced
 alge698 Solving an equation of the form $x^3 = a$ using integers
 geom565 Finding the side length of a cube given its volume
 alge407 Introduction to the Pythagorean Theorem
 geom044 Pythagorean Theorem
 alge408 Word problem involving the Pythagorean Theorem
 geom862 Using the Pythagorean Theorem repeatedly
 geom603 Identifying side lengths that give right triangles
 geom588 Informal proof of the Pythagorean Theorem
 alge713 Using the Pythagorean Theorem and a quadratic equation to find side lengths of a right triangle
 alge132 Distance between two points in the plane: Exact answers
 alge324 Distance between two points in the plane: Decimal answers
 alge191 Midpoint of a line segment in the plane
 alge414 Finding an endpoint of a line segment given the other endpoint and the midpoint
 pcalc609 Sine, cosine, and tangent ratios: Numbers for side lengths
 pcalc600 Sine, cosine, and tangent ratios: Variables for side lengths
 pcalc616 Using a calculator to approximate sine, cosine, and tangent values
 pcalc606 Using the Pythagorean Theorem to find a trigonometric ratio
 pcalc008 Finding trigonometric ratios given a right triangle
 geom317 Understanding trigonometric ratios through similar right triangles
 geom318 Using similar right triangles to find trigonometric ratios
 pcalc607 Using a trigonometric ratio to find a side length in a right triangle
 pcalc610 Using trigonometry to find a length in a word problem with one right triangle
 pcalc608 Using a trigonometric ratio to find an angle measure in a right triangle
 pcalc611 Using trigonometry to find angles of elevation or depression in a word problem
 pcalc642 Solving a right triangle

Data Analysis and Probability

mstat088 Identifying statistical questions
 mstat080 Choosing an appropriate method for gathering data: Problem type 1
 mstat081 Choosing an appropriate method for gathering data: Problem type 2
 mstat047 Introduction to expectation
 mstat097 Constructing a two-way frequency table: Basic
 mstat098 Constructing a two-way frequency table: Advanced
 mstat049 Computing a percentage from a table of values
 mstat087 Making an inference using a two-way frequency table
 stat020 Calculating relative frequencies in a contingency table
 mstat025 Finding if a question can be answered by the data
 stat805 Making a reasonable inference based on proportion statistics
 mstat037 Constructing a line plot
 mstat004 Constructing a histogram for numerical data

mstat024 Interpreting a bar graph
mstat044 Interpreting a double bar graph
mstat031 Interpreting a stem-and-leaf plot
stat804 Interpreting a circle graph or pie chart
arith856 Finding a percentage of a total amount in a circle graph
stat801 Computations from a circle graph
geom814 Angle measure in a circle graph
mstat003 Mode of a data set
mstat055 Finding the mode and range of a data set
mstat092 Finding the mode and range from a line plot
mstat001 Mean of a data set
mstat077 Using a model to find the mean
mstat091 Finding the mean of a symmetric distribution
mstat079 Finding sample size and comparing samples for estimating the mean
mstat089 Computations involving the mean, sample size, and sum of a data set
stat803 Finding the value for a new score that will yield a given mean
stat802 Rejecting unreasonable claims based on average statistics
mstat066 Weighted mean
mstat028 Mean and median of a data set
mstat029 How changing a value affects the mean and median
mstat095 Finding outliers in a data set
mstat053 Choosing the best measure to describe data
stat009 Percentiles
mstat027 Using back-to-back stem-and-leaf plots to compare data sets
mstat072 Five-number summary and interquartile range
mstat006 Constructing a box-and-whisker plot
mstat073 Using box-and-whisker plots to compare data sets
mstat082 Computing mean absolute deviation from a list of numerical values
mstat042 Interpreting a Venn diagram of 2 sets
mstat043 Interpreting a Venn diagram of 3 sets
mstat041 Interpreting a tree diagram
mstat040 Introduction to the counting principle
mstat015 Counting principle
pcalc082 Factorial expressions
mstat017 Computing permutations and combinations
mstat008 Word problem involving permutations
mstat009 Word problem involving combinations
stat790 Permutations, combinations, and the multiplication principle for counting
mstat099 Determining a sample space and outcomes for a simple event
mstat100 Determining a sample space and outcomes for a compound event
mstat026 Introduction to the probability of an event
mstat010 Probability of an event
mstat046 Experimental and theoretical probability
stat106 Outcomes and event probability
stat112 Probabilities involving two dice
mstat116 Probabilities of a permutation and a combination
mstat048 Odds of an event
mstat011 Area as probability
mstat019 Identifying independent events given descriptions of experiments
mstat012 Probability of independent events
mstat013 Probability of dependent events
stat117 Probabilities of draws with replacement
stat118 Probabilities of draws without replacement
mstat115 Determining outcomes for compound events and complements of events
mstat110 Using a Venn diagram to understand the multiplication rule for probability
mstat107 Outcomes and event probability: Conditional probability
mstat104 Identifying independent events given values of probabilities
mstat105 Computing conditional probability using a two-way frequency table
mstat106 Computing conditional probability to make an inference using a two-way frequency table
mstat118 Conditional probability: Basic
mstat109 Using a Venn diagram to understand the addition rule for probability
mstat108 Outcomes and event probability: Addition rule

mstat032 Probability of the union of two events
 mstat117 Probability of intersection or union: Word problems
 mstat085 Identifying outcomes in a random number table used to simulate a compound event
 mstat086 Using a random number table to simulate a compound event
 mstat114 Using a random number table to make a fair decision
 stat021 Population standard deviation
 stat852 Word problem involving calculations from a normal distribution

Rational Expressions

alge049 Restriction on a variable in a denominator: Linear
 alge467 Restriction on a variable in a denominator: Quadratic
 alge468 Evaluating a rational function: Problem type 1
 alge469 Evaluating a rational function: Problem type 2
 pcalc682 Evaluating functions: Absolute value, rational, radical
 alge715 Domain of a rational function: Excluded values
 alge454 Simplifying a ratio of factored polynomials: Linear factors
 alge455 Simplifying a ratio of factored polynomials: Factors with exponents
 alge456 Simplifying a ratio of polynomials using GCF factoring
 alge457 Simplifying a ratio of linear polynomials: 1, -1, and no simplification
 alge458 Simplifying a ratio of polynomials by factoring a quadratic with leading coefficient 1
 alge710 Simplifying a ratio of polynomials: Problem type 1
 alge682 Simplifying a ratio of polynomials: Problem type 2
 alge459 Simplifying a ratio of polynomials: Problem type 3
 alge034 Simplifying a ratio of multivariate polynomials
 alge053 Multiplying rational expressions involving multivariate monomials
 alge460 Multiplying rational expressions made up of linear expressions
 alge620 Multiplying rational expressions involving quadratics with leading coefficients of 1
 alge461 Multiplying rational expressions involving quadratics with leading coefficients greater than 1
 alge462 Multiplying rational expressions involving multivariate quadratics
 alge054 Dividing rational expressions involving multivariate monomials
 alge463 Dividing rational expressions involving linear expressions
 alge766 Dividing rational expressions involving quadratics with leading coefficients of 1
 alge464 Dividing rational expressions involving quadratics with leading coefficients greater than 1
 alge465 Dividing rational expressions involving multivariate quadratics
 alge466 Multiplication and division of 3 rational expressions
 alge737 Introduction to the LCM of two monomials
 alge055 Least common multiple of two monomials
 alge427 Finding the LCD of rational expressions with linear denominators: Relatively prime
 alge428 Finding the LCD of rational expressions with linear denominators: Common factors
 alge429 Finding the LCD of rational expressions with quadratic denominators
 alge430 Writing equivalent rational expressions with monomial denominators
 alge431 Writing equivalent rational expressions with polynomial denominators
 alge304 Writing equivalent rational expressions involving opposite factors
 alge433 Adding rational expressions with common denominators and monomial numerators
 alge056 Adding rational expressions with common denominators and binomial numerators
 alge434 Adding rational expressions with common denominators and GCF factoring
 alge435 Adding rational expressions with common denominators and quadratic factoring
 alge436 Adding rational expressions with different denominators and a single occurrence of a variable
 alge437 Adding rational expressions with denominators ax and bx : Basic
 alge438 Adding rational expressions with denominators ax and bx : Advanced
 alge439 Adding rational expressions with denominators axn and bxm
 alge440 Adding rational expressions with multivariate monomial denominators: Basic
 alge226 Adding rational expressions with multivariate monomial denominators: Advanced
 alge441 Adding rational expressions with linear denominators without common factors: Basic
 alge442 Adding rational expressions with linear denominators without common factors: Advanced
 alge443 Adding rational expressions with linear denominators with common factors: Basic
 alge444 Adding rational expressions with linear denominators with common factors: Advanced
 alge445 Adding rational expressions with denominators $ax-b$ and $b-ax$
 alge661 Adding rational expressions involving different quadratic denominators

alge446 Adding 3 rational expressions with different quadratic denominators
arith696 Complex fraction without variables: Problem type 2
alge470 Complex fraction involving univariate monomials
alge058 Complex fraction involving multivariate monomials
alge471 Complex fraction: GCF factoring
alge472 Complex fraction: Quadratic factoring
alge473 Complex fraction made of sums involving rational expressions: Problem type 1
alge474 Complex fraction made of sums involving rational expressions: Problem type 2
alge475 Complex fraction made of sums involving rational expressions: Problem type 3
alge476 Complex fraction made of sums involving rational expressions: Problem type 4
alge477 Complex fraction made of sums involving rational expressions: Problem type 5
alge478 Complex fraction made of sums involving rational expressions: Problem type 6
alge479 Complex fraction made of sums involving rational expressions: Multivariate
alge205 Solving a rational equation that simplifies to linear: Denominator $x+a$
alge769 Solving a rational equation that simplifies to linear: Denominators a , x , or ax
alge421 Solving a rational equation that simplifies to linear: Denominators ax and bx
alge422 Solving a rational equation that simplifies to linear: Like binomial denominators
alge206 Solving a rational equation that simplifies to linear: Unlike binomial denominators
alge423 Solving a rational equation that simplifies to linear: Factorable quadratic denominator
alge424 Solving a rational equation that simplifies to quadratic: Proportional form, basic
alge425 Solving a rational equation that simplifies to quadratic: Denominator x
alge212 Solving a rational equation that simplifies to quadratic: Binomial denominators, constant numerators
alge062 Solving a rational equation that simplifies to quadratic: Binomial denominators and numerators
alge426 Solving a rational equation that simplifies to quadratic: Factorable quadratic denominator
alge047 Solving a rational equation that simplifies to quadratic: Proportional form, advanced
alge508 Solving for a variable in terms of other variables in a rational equation: Problem type 1
alge509 Solving for a variable in terms of other variables in a rational equation: Problem type 2
alge510 Solving for a variable in terms of other variables in a rational equation: Problem type 3
arith612 Word problem involving multiple rates
alge770 Solving a work problem using a rational equation
alge450 Solving a distance, rate, time problem using a rational equation
alge059 Ordering fractions with variables
alge905 Writing an inverse variation equation
alge903 Identifying direct and inverse variation equations
alge902 Identifying direct and inverse variation from ordered pairs and writing equations
alge176 Word problem on inverse variation
alge220 Word problem on inverse proportions
pcalc681 Writing an equation that models variation
alge772 Word problem on combined variation
pcalc917 Finding the asymptotes of a rational function: Constant over linear
pcalc918 Finding the asymptotes of a rational function: Linear over linear
alge515 Graphing a rational function: Constant over linear
alge516 Graphing a rational function: Linear over linear
