**ALEKS COURSE PRODUCTS FOR GRADES 3-12 NOW CORRELATED
WITH COMMON CORE STATE STANDARDS**

*Correlations and Integrated Reports Available with ALEKS Individualized
Assessment and Learning*

TUSTIN, CA – ALEKS Corporation, a leading provider of K-12, Higher Education, and Consumer Web-based assessment and learning solutions for mathematics, announced today that its course products for grades 3-12 are now correlated to the Common Core State Standards. The ALEKS correlation with the Common Core State Standards offers detailed PDF correlations, as well as online reporting for grades 3-8 to provide teachers and administrators with a precise view of student, class, school, and district progress toward mastery of the mathematics standards.

ALEKS is a Research-Based Online Math Program:

- Artificial Intelligence Targets Gaps in Individual Student Learning
- Assessment and Learning with Standards-Based Content
- Customizable Curriculum Aligns with Course Syllabi or Textbooks
- Monitor Student, Class, School, and District Progress Toward Mathematics Standards
- Fully Bilingual – English and Spanish
- Unlimited Online Access – PC and Mac Compatible

“At ALEKS, we continually strive to offer mathematics solutions that better meet the unique needs of each student,” said Wil Lampros, President of ALEKS Corporation. “By correlating our course products with the Common Core State Standards, we are able to continue to address the growing demand for accountability and measurable success in K-12 education.”

Fundamentally different from other educational software, ALEKS (Assessment and LEarning in Knowledge Spaces) uses an artificial intelligence engine that assesses each student individually and continuously. Through adaptive questioning, ALEKS accurately assesses a student’s knowledge and delivers individualized instruction on the exact topics the student is most ready to learn. As a result, ALEKS targets gaps in student skills and enables immediate success in learning new material.

ALEKS K-12 course products correlated with the Common Core State Standards are available for immediate use and can be implemented as a core curriculum or supplement for use with students in grades 3-12, including those in remediation, intervention, gifted, afterschool, and summer school programs.

To view the new Common Core State Standards correlations, please visit http://www.aleks.com/k12/state_standards and select a state. Educators for grades 3-8 can also see integrated, online reporting for the Common Core State Standards by beginning a complimentary ALEKS trial of the Teacher Module at http://www.aleks.com/free_trial/instructor.

About ALEKS Corporation

ALEKS Corporation is a leader in the creation of Web-based, artificially intelligent, educational software. ALEKS assessment and learning technologies were originally developed by a team of cognitive scientists, mathematicians, and software engineers at the University of California, Irvine, with major funding from the National Science Foundation. ALEKS is founded on groundbreaking research in mathematical cognitive science known as Knowledge Space Theory. Through adaptive questioning, ALEKS accurately assesses a student's knowledge state and then delivers targeted instruction on the topics the student is most ready to learn.

ALEKS has been used by millions of students in more than 50 academic subjects ranging from elementary school mathematics to PreCalculus at thousands of schools and other educational institutions throughout the world. For additional information, visit <http://www.aleks.com>.
